The Portland Community College Catalog is published each academic year. This catalog is effective Fall 2017 through Summer 2018.

While every effort is made to ensure the accuracy of the information in this catalog, Portland Community College has the right to make changes at any time without prior notice. This catalog is not a contract between Portland Community College and current or prospective students. Updates and corrections may be made from time to time to the online catalog; in the event of a discrepancy between a printed copy of the catalog and the online catalog, the online catalog will be considered the catalog of record.
STEPS FOR NEW STUDENTS

Enrollment Services: 971-722-8888, option 2
Helpline hours: Monday to Thursday: 9am to 5pm; Friday: 9am to 4pm
Email: enroll@pcc.edu

Apply now: pcc.edu/enroll
Complete the orientation: pcc.edu/orientation
Plan your first term: pcc.edu/enroll/first-term
Register for classes: pcc.edu/registration

Full-time students at Portland Community College are those who register for 12 or more credits per term. Students who register for less than 12 credits in a term are part-time. Part-time enrollment statuses are:

- 9-11 credits – three-quarter time enrollment
- 6-8 credits – half-time enrollment
- 1-5 credits – quarter-time enrollment

Enrollment status can affect eligibility for financial aid, veterans benefits and scholarships.

LEARN MORE ABOUT BECOMING A STUDENT

- Submit an information request
- Come to a New Student Welcome Day
- Attend a PCC Preview Day

THE APPLICATION PROCESS IS DIFFERENT FOR:

- International students
- Dual enrollment with a four-year university
- Community Education (non-credit classes)
- CLIMB Center for Advancement
- Applicants 16 or 17 years of age
- Applicants 14 or 15 years of age
- High School Partnership Programs

NEED HELP?
If you’re enrolling at PCC for the first time, the Enrollment Services office can help you get started.

Cascade SSB 102B, Answer Center

MAKE PAYMENT ARRANGEMENTS

Student Account Helpline: Tel. 971-722-8888, option 3
TTY:1-800-735-2900
Helpline hours Monday thru Thursday: 9am to 5pm; Friday: 9am to 4pm
Email: student.accounts@pcc.edu

STUDENT FINANCIAL RESPONSIBILITIES
You are expected to attend all classes in which you are enrolled. If you do not attend or stop attending classes and fail to personally drop the course registration, you will be responsible for all tuition and fees. You are responsible to pay all charges on your account by the payment due date, even if you do not receive a bill, or your account is being paid by another party.

Payment is due two weeks before the first day of term. If you enroll after that date, payment is due immediately. Bills are issued beginning three weeks before the term. You can see your balance or access your bill online in the MyPCC Paying for College tab.

The cost of credit classes is based on the number of credit hours. Credit hours for each course are listed in the class schedule. There are other fees that may apply during your time as a student. Oregon residents 62 and older may be eligible for free or discounted tuition for seniors.

Non-credit classes are priced individually. For tuition and fees, check each course listing in the online class schedule. You are responsible for paying your account in full, even if you do not receive a bill.

RESIDENCY AND TUITION
Use the chart to determine your residency status and what type of tuition you will pay.

<table>
<thead>
<tr>
<th>Residency Status</th>
<th>Description</th>
<th>Tuition</th>
</tr>
</thead>
<tbody>
<tr>
<td>In-State Student</td>
<td>American citizen or immigrant with a permanent resident status in Oregon, Idaho, California, Nevada and Washington</td>
<td>Resident Tuition</td>
</tr>
<tr>
<td>International Student</td>
<td>International student (holding a visa other than those listed above)</td>
<td>Non-Resident Tuition</td>
</tr>
<tr>
<td>Out-of-State Student</td>
<td>Student residing in states which do not border Oregon</td>
<td>Non-Resident Tuition</td>
</tr>
</tbody>
</table>

Note: A person eligible for benefits under the federal Post-9/11 Veterans Educational Assistance Act of 2008 (38 U.S.C Section 3301 et seq.) or any other federal law authorizing educational benefits to veterans shall be entitled to Oregon resident status for purposes of tuition and fees charged at Portland Community College.

WAYS TO PAY
These are the types of payment PCC accepts. You must have one of these payment arrangements in place by the payment due date or your course registrations may be deleted. If you are unable to attend, it is up to you to drop the class.

Payment in Full
You can pay your bill by the payment due date. We don’t accept partial payments, or post-dated or two party checks.
- Online using PCC-Pay in MyPCC: echeck, debit card, Visa or MasterCard.
- In-person at Student Account Services: cash, check, debit card, Visa or MasterCard.
- By mail. Send checks and money orders payable to PCC Student Account Services.
- International Payments must be sent through flywire.

Payment Plan
Our interest-free payment plans are a smart way to pay college costs. Payment plans allow you to spread the cost of your education into affordable monthly or bi-weekly payments. Sign up for payment plans on the Paying for College tab in MyPCC.

Financial Aid
Financial aid loans and grants are available to help with college costs. Check your status in the Financial Aid Dashboard in MyPCC. Review and accept your award by the payment due date, or choose another way to pay.

Oregon Promise
Oregon Promise provides grants for recent high school graduates and GED earners. Learn about eligibility requirements on the Oregon Promise portal.

Veterans Benefits
Veterans are entitled to assistance with their college expenses. Funds are also available for some spouses and dependents. Apply with the VA and certify your schedule with the Veterans Education Benefits Office. (Tuition assistance programs such as Voc Rehab, Go Army, and MyCAA are handled through third party billing.)

Students using any type of Federal Veterans Administration (VA) Education Benefit are required to have all prior credit history evaluated. It is the student’s responsibility to request official transcripts from all previous colleges and submit them to the PCC Student Records Office. Students must also complete and submit the Transfer Credit Evaluation request found on MyPCC. A student’s first term of VA benefits may be certified while waiting for transcript evaluation, however no subsequent terms will be certified for VA Benefits until transfer credit evaluation is complete. All credits will be evaluated and transferred according to the policies stated in this catalog.

Third Party Billing
Many employers and agencies assist students with college costs. To have your bill paid by a third party, formal billing arrangements must be set up and approved by the college before the term begins.

Scholarships
The PCC Foundation and numerous other foundations and private donors provide scholarships to PCC students. If you are one of the fortunate recipients, your donor will send us a check and tell us what the scholarship covers.

AmeriCorps Vouchers
AmeriCorps is a program that provides tuition vouchers for volunteers in service to America. To redeem your AmeriCorps vouchers, you will need to request funds via the AmeriCorps online process.

Tuition Waivers
Some students are eligible for tuition waivers or belong to programs that will pay tuition as a benefit of participation.
PAYMENT RESTRICTIONS
There may be charges on your account that are not covered by some types of payment. It’s up to you to make sure your account is paid in full, even if someone else is paying your bill. A 10 day transcript hold is placed on payments received by check or e-check.

PCC does not accept the following:

- Checks drawn on bank accounts outside of the U.S.A.
- Two-party, post-dated and altered checks.
- Payments in excess of the student’s account balance.
- Payments by wire and ACH unless they have been pre-arranged with the accounts receivable office.
- Payments for less than the full amount due.

LATE PAYMENT
You must pay the full amount due by the due dates shown at www.pcc.edu/pay. If you don’t pay by the due date, one or more of the following steps will be taken:

- Deletion of your course registration.
- Late fee. A late fee of up to 10% of your unpaid tuition and fees.
- Financial hold. A financial hold will be placed on future registration and transcripts.
- Collection of your past due balance by an outside agency. Accounts in collection are subject to additional charges and penalties.

Do not count on the college to remove you from classes - it is up to you to manage your own schedule and drop any courses you will be unable to attend. Find out how to drop a class.

REMOVING TUITION CHARGES
Charges are applied to your student account when you register for a class. All of the charges associated with a class will be removed if you drop the class by the drop deadline. No charges will be removed if you drop after the drop deadline. To drop a Community Education class, see the Community Education Refund/Drop Policy. If an extreme hardship prevented you from continuing your studies through the term, you may request a tuition voucher by filing an appeal with the college appeal committee. Your appeal must be received by the filing deadline and all past due amounts must be paid before your appeal will be considered.

EDUCATIONAL TAX CREDITS
The American Opportunity (Hope Credit extended) and the Lifetime Learning Credit are education credits that can help offset the costs of education. To determine your eligibility please consult your tax advisor. PCC staff cannot help with tax related questions.

If you plan to claim an educational tax credit, your tax identification number (TIN) or social security number (SSN) is required for tax reporting. To update your TIN or SSN go to the My Records link on MyPCC. A form 1098-T is available January 31 each year to students who were enrolled in credit courses. PCC delivers all 1098-T forms electronically via MyPCC. Students may access their forms online by selecting the desired tax year. Students who wish to receive a 1098-T form by mail must contact the student accounts office prior to the end of the tax year.
TRANSPORTATION AND PARKING SERVICES

Sylvania CSB 329: 971-722-8181
Fax: 971-722-4762
Open Mon-Fri, 8am - 4:30pm
Email: parking@pcc.edu
pcc.edu/resources/parking

Commuting to PCC campuses can present challenges to students, faculty, staff, the environment, and our neighbors. That’s why we offer alternatives to driving alone. Help us improve the livability of our community by riding transit, the PCC shuttle, biking, carpooling, or walking to PCC.

PARKING PERMITS
Vehicles parked on a PCC campus or center must display a current parking permit on their rear view mirror or dash. Permits are required at PCC year round for both staff, students, and visitors.

PCC SHUTTLE
The Shuttle is a free service to PCC students, faculty, and staff providing transportation between campuses, downtown (PSU) and select transit stops. Email pccshuttle@pcc.edu for comments, questions or concerns regarding the shuttle service.

PUBLIC TRANSIT
PCC has cost saving programs in-place for students, faculty, and staff. Eligible students can purchase reduced TriMet term passes at Student Account Services. Eligible faculty and staff can purchase TriMet passes pre-tax via payroll deduction. TriMet tickets and monthly passes are also available for purchase at all campus bookstores. Subsidized 3 month TriMet passes can be purchased from the student accounts office the week before term begins.

BIKING
Biking to work and/or school has benefits for your health, your wallet, and the environment. There are bike racks, locker rooms, and showers available at most campuses. Students at Cascade and Southeast can rent bikes for $15 per term through ASPCC.

CAR SHARING
Car Sharing is a short-term car rental agreement where you pay by the hour and the rate includes your insurance and gas. If you drive a Car2Go or Zipcar to a PCC Campus, you will not need a parking permit. Car2Go has a designated parking spot at Cascade, Sylvania and Southeast.

RIDE SHARING
In addition to saving gas, carpoolers are eligible for a discounted parking permit.

MOTORCYCLE/SCOOTER
2-wheeled motor vehicles park for free on PCC campuses in designated areas

WALKING
Free, healthy, and carefree!
Students at Portland Community College are automatically awarded degrees and certificates upon completion of requirements for the student’s recorded program of study. Opting out of an institutional award requires emailing the Student Records and Graduation Office. Multiple credentials may be automatically awarded within a student’s program of study.

1) DECLARE YOUR PROGRAM OF STUDY
• To declare a new program of study, click Update your degree and major in the Term-to-Term Checklist on the MyPCC Home tab. Call Enrollment Services at 971-722-8888 (option 2) if you are unable to use the online form or want to add additional degree/majors or certificates.

2) COMPLETE REQUIREMENTS AS PUBLISHED IN THE ACADEMIC CATALOG YOU ARE FOLLOWING
• In GRAD Plan, you can discover which classes you still need to take in order to graduate! Frequently review your GRAD Plan on the My Courses tab in MyPCC. If your GRAD Plan does not reflect the academic catalog requirements you are following, please contact Student Records at 971-722-7100. Learn more about GRAD Plan.
• If you are completing alternate requirements, please work with your Faculty Department Chair to submit a Course Substitution Form (view a sample substitution form here; actual forms available from your Department or Faculty Department Chair).
• If you have attended a previous college or university, follow the online transfer credit request process.
• If you are not registered for this academic term, but you believe this transferred coursework will complete your degree or certificate, please submit an Application for Graduation [pdf], so we can evaluate your records for graduation.

3) DEGREE EVALUATION
• During your final quarter of your program of study, the Student Records office will review your academic history to confirm all requirements will be met for your degree or certificate. You will receive an email via MyPCC confirming your final courses are in progress. This email will include information about submitting your diploma name and diploma address. If you are in your final term and do not receive an email by Week 9, contact your department or Student Records.
• If you would like additional degrees or certificates, outside of your declared program of study, you should submit the Application for Graduation [pdf] before the term you will complete those requirements.
• Students completing their final requirements in Summer term, and who wish to participate in the Commencement Ceremony, should submit the Application for Graduation [pdf] by the published deadline.

4) DEGREE AWARDED
• When all requirements have been met, your degree or certificate will be automatically awarded. Awarding takes place in the weeks following the term’s end and, once posted, transcripts reflecting the award date may be ordered via MyPCC. Your diploma or certificate will be mailed to your address of record at PCC 6 to 8 weeks after the term has ended. A formal commencement ceremony is held at the end of spring term. All students graduating in the current academic year (fall, winter, spring and summer) are eligible to participate if they have RSVP’d by the deadline. Information regarding cap and gown purchases is emailed to eligible students and is also available at www.pcc.edu/commencement.

DEGREE, CERTIFICATE, AND COURSE OVERVIEW

Portland Community College operates on the quarter system. The PCC Catalog is published and dated with each academic year, which begins fall term and ends with the next summer term.

To earn an associate’s degree or a certificate, students must meet the requirements in the catalog that is current when they earn their first credit(s) at PCC, unless they choose to meet the requirements of a later catalog. However, students who do not earn at least one PCC credit each academic year lose the right to meet the requirements of their original catalog. They must then meet requirements of the current catalog at the time they resume work on their degree or certificate at PCC, or a later catalog. Students who have not been consecutively enrolled (earning at least one credit per academic year) at the time of degree or certificate completion, must meet the requirements of the most current catalog.

An edition of the catalog is valid for six academic years. Some programs may impose shorter time limits on accepting credits for degree or certificate requirements.

Students at Portland Community College will receive degrees and/or certificates based upon an institutional awarding standard. The college will grant degrees and/or certificates upon completion of requirements for the student’s recorded program of study. Opting out of an institutional award requires completing the appropriate request through the Student Records office. Multiple credentials may be institutionally awarded within a student’s program of study. For details regarding this standard, see the Graduation website.

An edition of the catalog is valid for six academic years. For example, a catalog that takes effect fall term 2017 is only valid through summer term 2023. However, some programs may impose shorter time limits on accepting credits for degree or certificate requirements. Occasionally the college may change courses and course numbers within a program. Students should regularly consult an advisor in their major department about their course of study.

While every effort is made to ensure the accuracy of the information in this catalog, Portland Community College has the right to make changes at any time without prior notice. This catalog is not a contract between Portland Community College and current or prospective students.

PORTLAND COMMUNITY COLLEGE CONFERs FIVE ASSOCIATE DEGREES

• Associate of Arts Oregon Transfer (AAOT),
• Associate of Science (AS),
• Associate of Applied Science (AAS),
• Associate of General Studies (AGS),
• Associate of Science Oregon Transfer in Business (ASOT-BUS);

In addition, PCC offers numerous certificates in career technical education programs.

COMPUTER PROFICIENCY: A STATEMENT TO STUDENTS

In order to succeed in college and in the community, students need to be familiar with and capable of using computers and computer software. Both upper division college work and the requirements of the workplace demand such skills. Many PCC faculty will require students to access class materials on the Internet and use a word processor, e-mail and databases as part of regular course activities.

Students need to determine which computer skills are appropriate to their areas of study and take positive steps to acquire and use them early. In order to facilitate appropriate student access to computers and computer software, each comprehensive campus at the college provides classrooms, labs, course work, and library access where students can learn about and use these tools.

Students should contact their instructors, the campus library, the campus Office of Student Development, the Associated Students of Portland Community College, or the campus Advising and Counseling Offices to find out what computer resources are available and when they can be accessed. Advisors and faculty can assist students in choosing appropriate courses to help them achieve computer proficiency.

DEGREES AND CERTIFICATES

A complete listing of Portland Community College’s degree and certificate programs and transfer disciplines may be found in the Programs and Disciplines (p. 32) section of the catalog.

ASSOCIATE DEGREE

COMPREHENSIVE REQUIREMENTS

Students earning an associate’s degree from Portland Community College (PCC) must successfully complete the Associate Degree Comprehensive Requirements listed below along with additional requirements for specific associate’s degrees. In addition, each degree requires basic competencies in Writing and Math. Competency requirements vary by associate’s degree. Please check the competency requirements for specific degrees.

COMPREHENSIVE REQUIREMENTS

1. All candidates must earn a minimum of 90 credits which count toward an associate’s degree. Credit courses numbered below 100 cannot be used to fulfill the 90 credit minimum requirement for any degree.

2. Residency Requirement:
   • All candidates for a degree at PCC must accumulate at least 30 quarter hours of satisfactory work at PCC to establish residency. Non-traditional credit, credit transferred from another institution, or challenge credit cannot be used to establish the 30 quarter-hour residency requirement.
   • Twenty-four of the credits earned at PCC must apply to the specific associate’s degree the student is pursuing.

3. All candidates for a degree must have a 2.0 grade point average (C average) or higher.

4. Associate Degree Comprehensive Requirement limits are:
   • PCC courses approved to be repeated for credit other than Cooperative Education may only be applied once in meeting a PCC degree or certificate requirement. Students may take a course additional times for credit, if the course is so designated, but those additional credits may not be used toward fulfilling PCC degree or certificate requirements.
   • Certain CTE programs have exceptions to this requirement. Contact programs for information.
   • A maximum of 12 credits of Cooperative Education courses may be applied to the degree. Specific AAS degrees that deviate from this maximum will state the degree maximum up to 24 credits (12 credits per year) in the degree requirements for the specific AAS Degree.
   • A maximum of 9 credits of 199 or 299 experimental courses may be applied to the degree.
   • A maximum of 24 credits of English for Speakers of Other Languages (ESOL) courses may be applied to the degree.
   • A maximum of 24 credits of "P" (Pass) grades will apply to any degree. Specific AAS degrees that deviate from this maximum will state the degree maximum in the degree requirements for the specific AAS degree.
ASSOCIATE OF APPLIED SCIENCE (AAS) DEGREE REQUIREMENTS

The Associate of Applied Science (AAS) degree is awarded to students in career technical programs who meet the requirements listed below. Many career technical programs require more than 90 credits for an associate’s degree.

The Associate of Applied Science is awarded to students who meet the following:

1. Associate Degree Comprehensive Requirements
2. Associate of Applied Science Requirements
   a. The final 16 credits that apply to the degree must include at least eight credits at PCC that apply to the specific program requirements, excluding courses used solely for the General Education requirements. Students may apply to the department chair for an exception to this requirement if they can demonstrate currency in the field.
   All candidates must earn 24 credits from PCC that apply to the specific program requirements excluding courses used solely for the General Education requirements. See specific program requirements in the Catalog.
   b. General Education Requirements: Students must earn a minimum of 16 credits of General Education taken from the General Education Distribution/Discipline Studies List. These credits must come from courses taken in the following categories:
      • Arts and Letters
      • Social Sciences
      • Science/Math/Computer Science
   The 16 credits must include at least one course with a minimum of three credits from each category. No more than two courses may come from courses required by specific programs. Because of these restrictions, it is possible a course is acceptable as General Education for some students while it is not acceptable for others. Students should consult an advisor or faculty member in an Associate of Applied Science degree program for advice on General Education courses appropriate to their goals and interests. General Education requirements will be waived for students who enroll at PCC with an AA, AAS, AGS, AS, BA, BS degree or higher from a regionally-accredited United States institution or foreign equivalent.
   Students must have a minimum cumulative GPA of 2.0 at the time the AAOT is awarded.
   All courses must be passed with a grade of “C” or “P” or better.
   c. PCC Basic Competency Requirements for Writing and Math in the AAS Degree:
   Writing: Competency in writing must be demonstrated by either:
      • Completing WR 121 with a C or better, or
      • Passing a lower division collegiate* writing course for which WR 121 is a prerequisite with a C or better
   Math: Competency in mathematics or computation must be demonstrated by:
      • Completing with a grade of C or P or better MTH 58, MTH 63 or MTH 65, or
      • Passing the PCC Competency Exam for MTH 65, or
      • Completing with a grade of C or P or better a MTH course (minimum three credits) for which MTH 58, MTH 63 or MTH 65 or higher level math skills are a prerequisite, or
      • Completing with a grade of C or P or better a career-technical computation course of three or more credits that aligns with and supports the program goals or intended outcomes, or
      • Completing with a grade of C or P or better all courses that comprise 90 hours of embedded related instruction in computation that aligns with and supports the program goals or intended outcomes
   d. Program Requirements:
   All AAS candidates must complete a program of approved coursework in the major field. The Programs and Disciplines section of the Catalog contains these coursework requirements. No more than three credits (100-level and above) in Physical Education (PE) may be applied to an AAS degree unless specifically required by the program.

ASSOCIATE OF ARTS OREGON TRANSFER (AAOT) DEGREE REQUIREMENTS

The Associate of Arts Oregon Transfer degree is an opportunity for students to complete lower division degree requirements at PCC.

Any student having the Associate of Arts Oregon Transfer (AAOT) degree recognized on an official college transcript will have met the lower division general education requirements of baccalaureate degree programs of any institution in the Oregon University System.

Students transferring under this agreement will have junior status for registration purposes. Course, class standing or GPA, and requirements for specific majors, departments or schools are not necessarily satisfied by an AAOT degree.

All courses should be aligned with the student’s intended program of study and the degree requirements of the baccalaureate institution to which the student plans to transfer. A student is encouraged to work with an advisor in the selection of courses.

The Associate of Arts Oregon Transfer degree is awarded to students who meet the following:

1. Associate Degree Comprehensive Requirements
2. Associate of Arts Oregon Transfer Degree Requirements:
   All courses must be passed with a grade of “C” or “P” or better. Students must have a minimum cumulative GPA of 2.0 at the time the AAOT is awarded.
   a. Foundational Requirements: Courses must be a minimum of three credits (except for Health/Wellness/Fitness courses, which may be any number of credits)
      • Writing*: WR 121 and either WR 122 or WR 227. A student must have at least eight credits of Writing; WR 123 may be used to complete the eight credits.
The Associate of General Studies degree is awarded to students who meet the following:

1. Associate Degree Comprehensive Requirements
2. Associate of General Studies (AGS) Requirements:
   A. General Education Requirement: Students must earn a minimum of 16 credits of General Education taken from the General Education/Discipline Studies List. These credits must come from courses taken in the following categories:
   - Oral Communication: COMM 111 or COMM 112 or COMM 214 or SP 113.
   - Math*: Complete a minimum of four credits in MTH 105 or any other MTH course for which MTH 95 and/or MTH 98 is a prerequisite.
   - Health/Wellness/Fitness: One or more courses totaling at least three credits from HE 242 or HE 250 or HE 254 or HE 295 & PE 295, or PE (not including PE 10, PE 199 or PE 299).

b. Disciplined Studies:
   Students must complete at least 11 Disciplinary Studies courses from the General Education/Discipline Studies List. All courses in Discipline Studies must be a minimum of three credits. A course may count toward Foundational Requirements or Discipline Studies but not both.
   - Arts and Letters: Complete at least three courses chosen from at least two disciplines in this area
   - Social Sciences: Complete at least four courses chosen from at least two disciplines in this area
   - Science/Math/Computer Science: Complete at least four courses from at least two disciplines in this area, including at least three laboratory courses in biological and/or physical science
   - Cultural Literacy: Students must select one course from any of the discipline studies that is designated as meeting the statewide criteria for cultural literacy (as indicated on the General Education/Discipline Studies List). This course can be one of the 11 required Disciplinary Studies courses.

C. Elective Credit Requirements:
   All candidates must complete elective credits to meet the overall requirement of 90 credits for this degree. Elective courses may be any number of credits. Elective credits may include any lower division collegiate course. A maximum of 12 credits of Career and Technical Education courses may be applied to this degree. One-credit Management/Supervisory Development (MSD) workshops may not be applied to this degree. A maximum of three credits of Physical Education (PE) may be applied to this degree.

* Basic Competency Requirements for writing and math will be met by successfully completing these courses. The Information Literacy requirement is satisfied by successful completion of the Writing courses.

ASSOCIATE OF GENERAL STUDIES (AGS) DEGREE REQUIREMENTS

The Associate of General Studies degree is designed for students wishing to acquire a broad education, rather than pursue a specific college major or career technical program. Because of the flexibility of this degree, it may not fulfill requirements for transfer to a four-year institution.

The Associate of General Studies is awarded to students who meet the following:

1. Associate Degree Comprehensive Requirements
2. Associate of General Studies (AGS) Requirements:
   A. General Education Requirement: Students must earn a minimum of 16 credits of General Education taken from the General Education/Discipline Studies List. These credits must come from courses taken in the following categories:
   - Arts and Letters
   - Social Sciences
   - Science/Math/Computer Science

   The 16 credits must include at least one course with a minimum of three credits from each category. General Education requirements for the AGS degree will be waived for students who enroll at PCC with an AA, AAS, AGS, AS, BA, BS degree or higher from a regionally accredited institution or foreign equivalent.

B. Basic Competency Requirements in writing and math for the AGS degree:
   Writing: Competency in writing must be demonstrated by either:
   - Completing WR 121 with a C or better, or
   - Passing a lower division collegiate* writing course for which WR 121 is a prerequisite with a C or better

   Students with AA, AAS, AGS, AS, BA, BS, degrees or higher from a regionally accredited institution or foreign equivalent, will have the basic competency in writing (WR 121) waived

   Math: Competency in mathematics must be demonstrated by:
   - Completing with a grade of C or P or better MTH 58, MTH 63 or MTH 65 , or
   - Passing the PCC Competency Exam for MTH 65 , or
   - Completing with a grade of C or P or better a MTH course (minimum of three credits) for which MTH 58, MTH 63 or MTH 65 or higher level math skills are a prerequisite

C. Elective Credit Requirements - All students must complete elective credits to meet the overall requirement of 90 credits for this degree. Elective credits may apply from any course numbered 100 or higher (either lower division collegiate or career technical). Elective credit limitations are:
   - Maximum of six credits (100 level and above) of Physical Education (PE) may apply
   - Maximum of six one-credit Management/Supervisory Development (MSD) workshops may apply
   - Maximum of 24 credits of Occupational Skills Training (OST) classes may apply

ASSOCIATE OF SCIENCE (AS) DEGREE REQUIREMENTS

The Associate of Science degree is designed for students planning to transfer credits to baccalaureate degree programs at four-year institutions. It allows more freedom in course selection than the Associate of Arts Oregon Transfer degree, but does not guarantee that students will be accepted as having completed all lower division comprehensive and General Education requirements for a baccalaureate degree. In selecting coursework, students should contact advisors at PCC and at the institution to which they will transfer in order to determine the requirements of their baccalaureate major.

The Associate of Science (AS) degree is awarded to students who meet the following:

1. Associate Degree Comprehensive Requirements.
2. Associate of Science Requirements:
   a. Courses listed below must be completed with a grade of “C” or “P” or better.
• Writing*: All candidates must complete a minimum of 6 credits in English Composition. The 6 credits must include WR 121, or include other lower division collegiate WR courses that have WR 121 or WR 122 as a prerequisite.

• Health: One or more courses totaling at least 3 credits from HE 242 or HE 250 or HE 254 or HE 295 & PE 295, or PE (not including PE 10, PE 199 or PE 299).

• Math*: Complete a minimum of 4 credits in MTH 105 or any other MTH course for which MTH 95 and/or MTH 98 is a prerequisite.

b. Discipline Studies Requirements: Students must earn a minimum of 21 credits taken from the General Education/Discipline Studies List. A minimum of 7 credits must be earned in each of the following distribution areas:

• Arts and Letters
• Social Sciences
• Science/Math/Computer Science

• Basic writing and math competency will be met by these requirements.

ASSOCIATE OF SCIENCE OREGON TRANSFER IN BUSINESS (ASOT-BUS)

The Associate of Science Oregon Transfer-Business (ASOT-BUS) degree is designed for students planning to transfer credits to an Oregon public university and seek entry into that institution’s Business program. Students completing the ASOT-BUS will have met the lower-division General Education requirements of an Oregon public university's baccalaureate degree program. Students transferring will have junior status for registration purposes.

Admission to the Business School of an Oregon public university is not guaranteed upon completion of the ASOT-BUS degree. Some institutions have specific requirements for admission to their Business program. Students completing the ASOT-BUS will have met the lower-division General Education/Discipline Studies List. All courses must be passed with a grade of “P” or “C” or better.

A. Foundational Requirements: Courses must be a minimum of three credits.

• Writing*: Writing: WR 121 and either WR 122 or WR 227. A student must have at least eight credits of writing. Students must have at least eight credits of writing.

• Oral Communication: COMM 111 or COMM 112 or COMM 214 or SP 113

• Math*: A minimum of three MTH courses for which Intermediate Algebra is a prerequisite. One course must be Statistics.

• Computer Applications: Students must demonstrate proficiency in word processing, spreadsheet, database, and presentation software by the successful completion of BA 131 or CAS 133, and CAS 170 or CAS 171.

* PCC’s basic Competency Requirements for Writing and Math will be met by successfully completing these courses. The Information Literacy requirement is satisfied by successful completion of the Writing courses.

B. Discipline Studies: Students must complete at least 11 Discipline Studies courses from the General Education/Discipline Studies List. All courses in Discipline Studies must be a minimum of three credits. A course may count toward Foundational Requirements or Discipline Studies but not both.

• Arts and Letters: Complete at least three courses chosen from at least two disciplines in this area.

• Social Sciences: Complete at least four courses chosen from at least two disciplines in this area. A minimum of two courses in Microeconomics and Macroeconomics must be included.

• Science/Math/Computer Science: Complete at least four courses in at least two disciplines. At least three of these courses must be laboratory courses in the biological or physical sciences. The fourth course can be one of the three MTH courses from the Foundational Requirements.

• Cultural Literacy: Students must select one course from any of the Discipline Studies that is designated as meeting the statewide criteria for cultural literacy (as indicated on the General Education/Discipline Studies List). This course can be one of the 11 required Discipline Studies courses.

C. Business-specific requirements: Each course must be completed with a “P” or “C” or better. BA 101, BA 211, BA 212, BA 213, and BA 226. BA 226 may be replaced by any other faculty-approved 200-level BA course.

D. Elective credit requirements: All candidates must complete elective credits to meet the overall requirement of 90 credits for this degree. Elective credits may be any number of credits. Elective credits may include any lower division collegiate course. A maximum of 12 credits of Career and Technical Education courses may be applied to this degree. One-credit Management/Supervisory Development (MSD) workshops may not be applied to this degree. A maximum of three credits of Physical Education (PE) may be applied to this degree.

UNIVERSITY SPECIFIC PREREQUISITES, RECOMMENDATIONS

Each Oregon public university has different requirements for its Business program; in some cases, meeting the minimum requirements of the ASOT-BUS degree will not fulfill the eligibility requirements for admission to the school’s Business program. Examples of eligibility requirements include: a higher minimum GPA for admission than is required for the ASOT-BUS, a requirement that specific courses within the ASOT-BUS degree be taken for a letter grade (courses taken P/NP will not be accepted), or additional coursework beyond that included in the ASOT-BUS. Students are advised to contact their Oregon public university destination’s Business program early in the first term of their ASOT-BUS course work to be advised of admission and additional course requirements beyond those stipulated above.

EASTERN OREGON UNIVERSITY

http://www.eou.edu/admissions/transfer/
CERTIFICATES

Some Career Technical Education (CTE) departments offer certificates ranging from 12-108 credits to students who complete the course of study with a minimum 2.0 grade point average. Specific courses required for each certificate program, including any General Education requirements, are listed in the Programs and Disciplines (p. 32) section of the catalog.

PCC courses approved to be repeated for credit, other than Cooperative Education courses, may be applied only once in meeting a PCC degree or certificate requirement. Students may take a course additional times for credit, if the course is so designated, but those additional credits will not be used to fulfill PCC certificate requirements. Certain CTE programs have exceptions to this requirement; contact the appropriate department for information.

Credit courses, numbered below 100 cannot be used to fulfill the credit minimum requirements for certificates.

CERTIFICATE REQUIREMENTS:

TWO-YEAR (61-108 CREDITS) CERTIFICATE REQUIREMENTS

1. At least 24 credits must be earned at PCC, 18 of which must apply to the certificate requirements.
2. The final 6 credits that apply to the certificate must be earned at PCC; the department chair may waive this requirement if the student can demonstrate currency in the field.
3. A maximum of 24 credits of “P” (Pass) grades will apply to most Two-Year Certificates. Certain CTE programs have exceptions to this requirement as stated in the requirements for the specific Two-Year Certificate.
4. A maximum of 12 credits of Cooperative Education courses may be applied to most Two-Year Certificates. Certain CTE programs have exceptions to this requirement but no program can exceed 24 credits (12 per year); these exceptions are defined in the requirements for the specific Two-Year Certificate.
5. A maximum of 9 credits of 199 and 299 experimental courses may be applied to a Two-Year Certificate.

LESS-THAN-ONE-YEAR (12-44 CREDITS) CERTIFICATE REQUIREMENTS

1. At least 6 credits must be earned at PCC, all of which must apply to the certificate requirements.
2. The final 9 credits that apply to the certificate must be earned at PCC; the department chair may waive this requirement if the student can demonstrate currency in the field.
3. A maximum of 8 credits of “P” (Pass) grades will apply to most Less-than-One-Year Certificates. Certain CTE programs have exceptions to this requirement as stated in the requirements for the specific Less-than-One-Year Certificate.
4. A maximum of 9 credits of 199 and 299 experimental courses may be applied to a Less-than-One-Year Certificate.
5. A Career Pathway Certificate is a specific type of Less-than-One-Year Certificate, consisting of courses that are wholly contained within an AAS degree, a One-Year Certificate, or a Two-Year Certificate to which the Career Pathway Certificate is linked. All requirements for the Less-Than-One-Year Certificate apply to Career Pathway Certificates.

EMPLOYMENT SKILLS TRAINING

Some CTE departments offer the Employment Skills Training Certificate (EST). The EST is an individualized certificate ranging from 12-44 credits that prepares a student for a specific job. Students should contact the appropriate CTE department to find out whether it offers the EST. More information can be found here: http://catalog.pcc.edu/programsanddisciplines/employmentskilltraining/.

COURSES

PCC offers courses to support the students’ learning goals at several campuses and center locations in the college’s district. These are done through a variety of programs, such as Cooperative Education and Service Learning. In addition, PCC supports additional access points through courses taught by Distance Learning. Distance Learning includes, but is not limited to, Web courses, Telecourses, ITV (Interactive Television Classes), and Hybrid courses (traditional classroom with significant web component). Web, TV and ITV courses are identified as such and also listed in the Class Schedule (printed or online at www.pcc.edu).

Credit courses that support PCC’s degrees and certificates are listed in the Course Description section of the catalog. We strongly urge students to meet with PCC advisors to make an academic plan. In selecting course offerings to support their educational goals, students should keep in mind the following:

COURSE PREREQUISITES

Most Lower Division Collegiate courses have a standard prerequisite:

- Reading: Successful completion (C or better) of RD 115, or equivalent test score, or successful completion (C or better) of WR 121, and
- Writing: Successful completion (C or better) of WR 115, or placement into WR 121, and
- Math: Successful completion (C or better) of MTH 20, or placement into MTH 60

In a standard prerequisite course, a D, F or NP will not satisfy the requirement.
Some courses may have higher requirements in these areas and/or additional prerequisites as appropriate. See individual course prerequisites. Instructors may waive prerequisites on a case-by-case basis.

THREE TO FOUR CREDIT CONVERSION
Some lower division collegiate courses (LDC) have changed from three to four credits at PCC. For degrees and certificates requiring specific LDC courses, the three credit version of the same course is generally accepted. PCC degree and certificate minimum credit requirements must be met.

EXPERIMENTAL COURSES
Experimental courses are courses numbered 99, 199 and 299. These courses may be offered twice in a 15 month period. After that time, they must either be converted to a regularly numbered course or inactivated. While experimental courses may count for graduation at PCC, they may not be acceptable for transfer to other institutions.

NON-CREDIT COURSES
PCC offers a large number and variety of non-credit courses for personal and career advancement as well as continuing education for professionals in several areas. See www.pcc.edu/communityed for a list of courses and registration information. Non-credit courses do not apply to any degrees or certificates at PCC.

DEGREES AND CERTIFICATES
A complete listing of Portland Community College’s degree and certificate programs and transfer disciplines may be found in the Programs and Disciplines (p. 32) section of the catalog.

GAINFUL EMPLOYMENT
For more information about our graduation rates, the median debt of students who complete the program, and other important information, visit www.pcc.edu/gainful.

OREGON TRANSFER MODULE (OTM)
The Oregon Transfer Module (OTM) provides a one-year curriculum for students who plan to transfer to a State of Oregon community college or university. The module allows students to complete one year of general education foundation course work that is academically sound and will meet the admission standards of the receiving school. The OTM is not a certificate or degree.

Students should work closely with an academic advisor to ensure selection of appropriate course work. Upon transfer, students may be required to complete additional course work in General Education, or an academic major, that is specific to the receiving institution. Students who transfer prior to the completion of the Oregon Transfer Module will have their courses individually evaluated by the receiving institution.

Students must complete a minimum of 45 credits of lower division course work with a C- or better in order to complete the Oregon Transfer Module. Students only need to take one course at PCC that applies to the OTM to have PCC be the school which transcripts it.

GENERAL EDUCATION/DISCIPLINE STUDIES

Candidates for all PCC degrees are required to complete credits from General Education/Disciplines Studies. PCC courses which meet the requirement are detailed in the table of General Education/Discipline Studies. Students are responsible for consulting the institution to which they will transfer to determine how the credits will be accepted.

This General Education/Discipline Studies list may not be complete. For the most accurate and up to date version of this list please check the on-line catalog.

PCC GENERAL EDUCATION/DISCIPLINE STUDIES PHILOSOPHY

THE PHILOSOPHY STATEMENT

The faculty of Portland Community College affirms that a prime mission of the College is to aid in the development of educated citizens. Ideally, such citizens possess:

- understanding of their culture and how it relates to other cultures
- appreciation of history both from a global perspective and from a personal perspective, including an awareness of the role played by gender and by various cultures
- understanding of themselves and their natural and technological environments
- ability to reason qualitatively and quantitatively
- ability to conceptually organize experience and discern its meaning
- aesthetic and artistic values
- understanding of the ethical and social requirements of responsible citizenship

Such endeavors are a lifelong undertaking. The General Education component of the associate’s degree programs represents a major part of the College’s commitment to that process.

THE FOLLOWING LIMITATIONS APPLY TO THE GENERAL EDUCATION LIST:

1. Courses taken to satisfy the basic college competencies in composition and mathematics will not be accepted.
2. For AAS Degrees, no more than two courses may come from courses required by specific programs.*
3. When an existing course meeting a General Education requirement is expanded into a multi-course sequence with the same course number with varying suffixes (e.g., 101 becomes 101a, 101b, 101c), any course in the sequence may be used to meet the General Education requirement. However, an individual student may use only one course in the sequence toward fulfillment of the requirement, even if the student takes multiple courses in the sequence.

* Note: Because of these restrictions, it is possible that a course is acceptable as General Education for some students while it is not acceptable for others. Degree candidates who are unsure of how the General Education Policy applies to their individual cases are responsible for seeking help from an advisor or counselor.

** A number below 100 indicates a support course and a number above 9000 indicates a vocational supplementary course. These courses are not usually transferable. PCC is committed to offering instruction providing students with the opportunity for self-improvement, entry level employment skills and to complete the first two years of a baccalaureate degree.

ALCOHOL AND DRUG COUNSELOR

Cascade Campus
Technology and Education Building (TEB), Room 103
971-722-5667 - Program Admissions Specialist, prior to being accepted to the program
971-722-5427 - Program Advisor, once accepted into the program.
Program information and application materials can be found at:
pcc.edu/alcohol-counseling/

CAREER AND PROGRAM DESCRIPTION

Alcohol and drug counselors work in public and private sector organizations to provide diagnosis, assessment, education, referral and treatment services to clients with alcohol and other drug problems. The Alcohol and Drug Counseling Program at Portland Community College provides students with the educational coursework and a portion of the supervised client contact hours needed to become a Certified Alcohol and Drug Counselor (CADC) in the State of Oregon through the Addiction Counselor Certification Board of Oregon (ACCBBO).

Anyone interested in working in the addiction counseling profession in the State of Oregon should be aware that a Criminal History Check as a condition of employment is a standard practice. A conviction does not automatically disqualify someone from obtaining employment. Each situation is evaluated on a case by case basis and therefore, the Alcohol and Drug Counselor Program cannot determine in advance who is or is not employable due to their criminal history. It is commonplace for individuals with a conviction on their record to be employed in the addiction counseling profession.

Recovery status from nicotine addiction is not required but it is highly recommended. Active nicotine addiction can be a barrier to employment and is an ethical issue to be considered for the addiction counseling specialist. Using technology to create medical records is an important part of the Alcohol and Drug Counseling field. It is strongly recommended students have strong computer skills. Those students with few skills should consider taking CAS 100A. Those who have basic skills, but know they could improve should consider taking CAS 133. See an Alcohol and Drug Counselor Advisor for more direction in choosing the right class for you.

Program courses are usually offered in afternoons or evenings but attendance for some Saturday courses is required. A few courses are offered via distance learning format.

A number of four-year institutions accept the program’s credits for application toward their degree. Students interested in pursuing their four year degree should contact a representative of their college of choice. Transferability of credits to another institution is subject to the approval of that institution.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Addiction Counselor

LESS THAN ONE-YEAR CERTIFICATE

Addiction Studies

ADMISSION PREREQUISITES

Academic Prerequisites

- Completion of LIB 101, with a C or better.
- Completion of WR 121, with a C or better.
- Complete the Addiction Counselor Program application.
- After a complete application is approved, the student should schedule an advising session with a program adviser.

Other Prerequisites

- Documentation of not abusing alcohol or drugs for 18 months prior to admission.

PROGRAM REQUIREMENTS

Academic Requirements

- Prior to being accepted into either the degree or certificate programs, students may enroll in AD 101, AD 102, AD 103, AD 104, AD 106, AD 184, AD 153, AD 160, any course from the Addiction Counselor Program elective list, any General Education course and, any course needed to meet the Math Competency requirement.

Other Requirements

- While participating in the program, recovering students will agree to abstain from alcohol and illicit drug use. All other students must agree to not abuse alcohol and other drugs while in the program.
- Certified Alcohol and Drug Counselor Examination (CADC)
  - The CADC is granted by the Addiction Counselor Certification Board of Oregon (ACCBO http://www.accbo.com).
  - Completion of The Alcohol and Drug Counselor Program coursework does not result in completion of the CADC. The programs coursework is designed to meet the educational requirements for the CADC II. All practicum hours contribute towards the work experience requirement for the CADC I.

ADDITION COUNSELOR AAS DEGREE

Minimum 91 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

### American Sign Language

See Sign Language Studies (p. 157)

### Anthropology

**Cascade Campus**  
Cascade Hall (CH), Room 208  
971-722-5251

**Rock Creek Campus**  
Building 5, Room 245  
971-722-7327

**Sylvania Campus**  
Social Science (SS), Room 201

**PORTLAND COMMUNITY COLLEGE 2017-18**

**971-722-4289**  
pcc.edu/programs/anthropology/

### Description

Anthropology is the study of people. In this discipline, people are considered in all their biological and cultural diversities, in the present as well as in the prehistoric past and wherever people have existed. Students are introduced to the interaction between people and their environments to develop an appreciation of human adaptations past and present.

Anthropology can be a synthesizing focus for data from many fields of inquiry and has integral importance in preparing students to survive and play positive roles in our emergent transcultural world. Students can pursue careers in teaching, research and other fields after completing graduate work.

At PCC, the three introductory courses are offered yearly. All other courses may be offered less frequently.

### Apprenticeship and Trades

**Swan Island Trades Center**  
Room 108  
6400 North Cutter Circle, Portland OR 97217  
971-722-5651 or 971-722-5650  
pcc.edu/programs/apprenticeship/

### Career and Program Description

Portland Community College provides courses in accordance with the Apprenticeship and Training Laws for the State of Oregon. These courses present technical instruction for the trades and are intended to complement on-the-job skills for both men and women. Each apprentice able trade has a Joint Apprenticeship and Training Committee (JATC) which outlines the procedures to become a journey person. This outline usually consists of two to five years of supervised, on-the-job experience in various aspects of the trade in conjunction with PCC course work. The JATC committees outline the type of supportive courses needed to prepare students to become qualified journey persons in addition to working with related training courses.

Consult the Apprenticeship and Trades Department for assistance in program planning and transcript evaluation. It is recommended to have your graduation petition and transcript evaluation approved by an Apprenticeship and Trades Department advisor prior to filing your petition.

Students wanting to move into management, supervision, or small business management can transfer to Oregon Institute of Technology (OIT) with related-training credits toward a Bachelor of Science (BS) in Operations Management after earning an Apprenticeship AAS degree.

### Degrees and Certificates Offered

**Associate of Applied Science Degree**  
Construction Trades, General Apprenticeship  
Electrician Apprenticeship Technologies  
Industrial Mechanics and Maintenance Technology Apprenticeship

**Certificate of Completion**  
Construction Trades, General Apprenticeship  
Electrician Apprenticeship Technologies  
Industrial Mechanics and Maintenance Technology Apprenticeship  
Limited Electrician Apprenticeship Technologies  
Manual Trades Apprenticeship  
Mechanical Maintenance Apprenticeship
CAREER PATHWAY CERTIFICATE
Construction Apprenticeship Technologies: Trade Worker
Apprenticeship Technologies
Electrician Apprenticeship Technologies: Trade Worker
Apprenticeship Technologies
Industrial Mechanics and Maintenance Technology: Trade Worker
Apprenticeship Technologies
Apprenticeship and Trades: Pre-Trade Pathway

JOURNEY LEVEL LICENSE RENEWAL
PCC’s Apprenticeship and Trades Department is an approved training agent for continuing education for journey level electrical license renewal through the State of Oregon Electrical Licensing Division.

PRE-APPRENTICESHIP
PCC provides Pre-Apprenticeship opportunities to students seeking careers in the trades or an apprenticeship. These courses prepare students to apply for an apprenticeship, meet the minimum entry qualifications, and possibly boost your application score. Women and minorities are encouraged to participate.

The Trades Preparation course covers construction trade topics, industry orientation, material handling, scaffolding, rigging, hand and power tool use, 30 hour OSHA safety certification, site visits and mock interviews. This course is approved by the Oregon Apprenticeship Council as an authorized Pre-Apprenticeship course. Note: This course may become part of a Career Pathway Certificate (CPC) and no longer a stand alone course. Contact the department for more information.

The Exploring Trades and Apprenticeship course explores career opportunities within the Trades. It introduces resources for assisting students in identifying the skills needed to succeed in these fields. This class is only held periodically, please check with the department before registering.

Consult the Apprenticeship and Trades Department for assistance in program planning.

ADMISSION PREREQUISITES

Academic Prerequisites
• None
• Other Prerequisites
• None

PROGRAM REQUIREMENTS

Academic Requirements
• None

Other Requirements
• Students pursuing a designated and sponsored Oregon State Bureau of Labor and Industries occupation must meet entrance requirements for their chosen career.

CONSTRUCTION TRADES, GENERAL APPRENTICESHIP PATHWAY
Construction Trades, General Apprenticeship AAS Degree (p. 35)
Construction Trades, General Apprenticeship Certificate (p. 35)
Manual Trades Apprenticeship Certificate (p. 36)
Construction Apprenticeship Technologies: Trade Worker Apprenticeship Career Pathway Certificate (p. 36)

CONSTRUCTION TRADES, GENERAL APPRENTICESHIP AAS DEGREE
The AAS degree total credit requirement depends upon which state apprenticeship the student is pursuing and the requirements of the governing Joint Apprenticeship and Training Committee, however a minimum of 90 credits is required for all degrees. Math/computation competency is met through the courses in the program of study indicated with a § symbol. Students should consult with program advisors for course planning.

**LIMITED ELECTRICIAN APPRENTICESHIP TECHNOLOGIES CERTIFICATE**

This certificate requires a minimum of 16 credits of related classroom training. Embodied in this Certificate are many state certifications. The total related training credits required depend upon which state apprenticeship the student is pursuing and the requirements of the governing Joint Apprenticeship and Training Committee.
4000 Hour BOLI-ATD Trades: Limited Energy Technician- License B, Limited Maintenance Electrician, Limited Renewable Energy Technician, and Limited Residential Electrician

4000 Hour BOLI-ATD Trades
College credit courses for Related-Training 16-44
Related Instruction 0
Credit for Prior Certification 0
Approved Program Electives 0
Total Credits 16-44

ELECTRICAL APPRENTICESHIP TECHNOLOGIES:
TRADE WORKER APPRENTICESHIP CAREER PATHWAY CERTIFICATE
This certificate requires a minimum of 12 credits of related classroom training. For more information, please contact the academic advisor for this program at PCC Swan Island.

4000-8000 Hour BOLI-ATD Trades
College credit courses for Related-Training (core apprenticeship courses) 1
Total Credits 12-44
1 Credits vary by trade and college requirements.

APPRENTICESHIP ELECTIVES
Any department-approved 100 or 200 level PCC course.

INDUSTRIAL MECHANICS AND MAINTENANCE TECHNOLOGY APPRENTICESHIP PATHWAY
Industrial Mechanics and Maintenance Technology Apprenticeship AAS Degree (p. 38)
Industrial Mechanics and Maintenance Technology Apprenticeship Certificate (p. 38)
Mechanical Maintenance Apprenticeship Certificate (p. 39)
Industrial Mechanics and Maintenance Technology Apprenticeship: Trade Worker Apprenticeship Career Pathway Certificate (p. 39)

INDUSTRIAL MECHANICS AND MAINTENANCE TECHNOLOGY APPRENTICESHIP AAS DEGREE
The AAS degree total credit requirement depends upon which state apprenticeship the student is pursuing and the requirements of the governing Joint Apprenticeship and Training Committee, however a minimum of 90 credits is required for all degrees. Math/computation competency is met through the courses in the program of study indicated with a § symbol. Students should consult with program advisors for course planning.

4000-8000 Hour BOLI-ATD Trades
APR 162 § Calculations for the Trades 4
College credit courses for Related-Training 16-75
General Education 16
Credit for Prior Certification 0-22
Approved Program Electives 0-41
Total Credits 90-108
§ Course cannot be substituted for another course.

INDUSTRIAL MECHANICS AND MAINTENANCE TECHNOLOGY APPRENTICESHIP CERTIFICATE
This certificate requires a minimum of 16 credits of related classroom training as well as 9 credits of related instruction. Embodied in this certificate are many state certifications. Both the total related training credits and the total related instruction credits depend upon which state apprenticeship the student is pursuing and the requirements of the governing Joint Apprenticeship and Training Committee.

6000-8000 Hour BOLI-ATD Trades
College credit courses for Related-Training 16-99
Related Instruction 1 9
Credit for Prior Certification 0
Approved Program Electives 0
Total Credits 25-108
1 See related instruction list below for approved courses

RELATED INSTRUCTION
To fulfill the related instruction requirement within a certificate students must pass courses from each category (computation, communication, human relations). The minimum requirement for a two-year certificate is 4 credits from each category and 16 credits total, the minimum requirement for a one-year certificate is 2 credits from each category and 8 credits total. No substitutions are allowed for related instruction. Consult the Apprenticeship and Trades Department for assistance in program planning.

ARCHITECTURAL DESIGN AND DRAFTING (ARCH)
Sylvania Campus
Science Technology Building (ST), Room 200
971-722-4163
pcc.edu/programs/architectural-design/

CAREER AND PROGRAM DESCRIPTION
This two-year Associate of Applied Science degree program helps students develop the design and technical skills needed in the residential and commercial building design industry.

Career possibilities exist for both self-employment and working for hire. Graduates may pursue various design and drafting jobs with residential designers, construction firms, interior designers, engineers, architects, architectural product manufacturers, city, county, state and federal drafting departments and corporate drafting departments.

Students should attend a program group advising session prior to enrollment. See department web page at www.pcc.edu/arch for additional information and a list of group advising session dates.

Consult a program advisor for information on PCC’s policy on acceptance of courses taken at other colleges or high schools or the transferability of PCC courses to other colleges.

The Sustainable Design Certificate provides course work from architecture, interior design, building construction, social sciences and science as it relates to sustainable, or “green” building issues. This program will focus on creating buildings that are sited, designed, constructed, operated, and maintained for the health and well being of the occupants, while minimizing impact on the environment. It is recommended that students without prior drafting experience take ARCH 110 and ARCH 126 prior to starting this certificate.

The Kitchen and Bath Certificate includes course work from Architecture and Interior Design and prepares the student to take the National Kitchen and Bath Association exams to become an Associated Certified Kitchen and/or Bath Designer.
DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE
Architectural Design and Drafting
Architectural Design and Drafting-Residential Option

ONE-YEAR CERTIFICATE
Kitchen and Bath

LESS THAN ONE-YEAR CERTIFICATE
Sustainable Design

ADMISSIONS PREREQUISITES

Academic Prerequisites
• Students new to the program must take the college’s placement exams for math, reading and writing prior to program advising and registration.

Other Prerequisites
• None

PROGRAM REQUIREMENTS

Academic Requirements
• Students whose goal is to earn a degree or certificate must complete all ARCH and ID courses with a letter grade of "C" or better except ARCH 280 CE: Arch Design and Drafting which is offered only as Pass/No Pass only.

Other Requirements
• None

ASSOCIATE OF APPLIED SCIENCE DEGREE
Architectural Design and Drafting (p. 40)
Architectural Design and Drafting-Residential Option (p. 40)

ARCHITECTURAL DESIGN AND DRAFTING AAS DEGREE
Minimum 99 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

COURSE OF STUDY

The coursework listed below is required. The following is an example of a term-by-term breakdown.

First Term
ARCH 110  Introduction to Architectural Drawing  2
ARCH 124  Introduction to Building Systems  3
ARCH 126  Introduction to AutoCAD  3
ARCH 161  Residential Print Reading  2

Second Term
ARCH 101  Introduction to Residential Design  3
ARCH 121  Structural Systems I  2
ARCH 132  Residential Building Codes  2
ARCH 136  Intermediate AutoCAD  3
ART 215  History of American Residential Architecture  3

Third Term
ARCH 111  Intro to Residential Construction Documents  3
ARCH 162  Commercial Print Reading  2
ARCH 237  Introduction to Revit Architecture  3
ARCH 256  Detail Drawing with AutoCAD  3

General Education  4

Fourth Term
ARCH 112  Intro to Commercial Construction Documents  4
ARCH 113  Site Planning  2
ARCH 122  Structural Systems 2  3
ARCH 133  Commercial Building Codes  2
ARCH 210  Professional Practices for Architectural Design & Drafting  3

General Education  4

Fifth Term
ARCH 123  Structural Systems 3  3
ARCH 201  Residential Studio  6
ARCH Degree Electives  5

Sixth Term
ARCH 202  Commercial Studio  4
ARCH 224  Active and Passive Building Systems  4
ARCH Degree Electives  3
General Education  4

Seventh Term
ARCH 203  Residential Renovation Studio  6
ARCH 280  Cooperative Education: Architectural Design and Drafting  4
General Education  4

Total Credits: 99

ARCHITECTURAL DEGREE ELECTIVES

ARCH 100  Graphic Communication for Designers  3

DESCRIPTION
The Art program at PCC offers foundational-level concentrations in studio arts and art history. Studio art and art history courses acknowledge the significance of visual literacy and communication through fine art. The Art program provides students with ways to demonstrate and realize their potential. Art students apply a wide range of problem solving methods, technical skills, critical thinking skills, and cultural awareness to their professions, communities and the world.

PCC’s Art program provides a rigorous and rewarding arts education to students moving in to upper-division courses for a baccalaureate degree. Many art classes satisfy requirements for the Associate of Arts Oregon Transfer degree.

AUTO COLLISION REPAIR TECHNOLOGY

Building 2, Room 230 - Office
971-722-7331 or 971-722-7486
pcc.edu/programs/auto-collision/

CAREER AND PROGRAM DESCRIPTION
Collision repair technicians possess the skills as outlined and recommended by I-CAR (Inter-Industry Conference on Auto Collision Repair) to return a collision damaged vehicle to its pre-accident condition. Among these skills are metal working, welding, mechanical, electrical, air conditioning, plastic repair, shaping and forming fillers, structural analysis and repair, and four wheel suspension alignment.

DEGREES AND CERTIFICATES OFFERED
ASSOCIATE OF APPLIED SCIENCE DEGREE
Automotive Service Technology

TWO-YEAR CERTIFICATE
Automotive Service Technology

ADMISSION PREREQUISITES
Academic Prerequisites
- Applicants must take the placement test administered through test centers located at each campus.
- To begin the program, students must place into IRW 90 or (RD 90 and WR 90) or (ESOL 260, ESOL 262, and ESOL 264) and into MTH 58 or MTH 60 or higher-level math class.
- Students who place below MTH 58 or MTH 60 must successfully complete MTH 20 and be ready for MTH 58 or MTH 60 before registering for the automotive program.

Other Prerequisites
- The Automotive Service Technology program accepts new students three times a year. New students must contact the PCC automotive department for advising and registration.

PROGRAM REQUIREMENTS
Academic Requirements
- Students must complete each AM course with a "C" or "P" or higher in order to earn the degree or certificate.

Other Requirements
- None
### AUTOMOTIVE SERVICE TECHNOLOGY AAS DEGREE

Minimum 93 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

AVIATION MAINTENANCE TECHNOLOGY

Rock Creek Campus
Building 2, Room 230
971-722-7256 or 971-722-7233
www.pcc.edu/amt

CAREER AND PROGRAM DESCRIPTION

An aircraft mechanic certificated under Part 65 of the Federal Aviation Regulations may maintain or alter aircraft within limitations specified by the regulations. The certificate also permits the holder to supervise other people in maintaining aircraft and to approve work for return to service. In addition, the certificated mechanic may perform 100-hour inspections. After performing 100-hour inspections or maintenance, the mechanic must certify airworthiness (or approval for return to service) in a signed entry in the appropriate aircraft record.

The certificated AMT mechanic is considered to be a general practitioner at keeping aircraft in safe condition and may also decide to specialize in: hydraulics, pneumatics, rigging, inspection, bonded repair, corrosion control, sheet metal repair, electrical systems, avionics installation, propeller service, welding, painting, record keeping or engine service.

The Aviation Maintenance Technology Program is approved by the State Division of Vocational Education, the Veterans Administration and the Federal Aviation Administration and is offered in a recommended sequence of 24 courses, most of which are 18-day modules. However, flexibility in program design does allow some variation in sequence. Any variation must be approved by the department representative.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE
Aviation Maintenance Technology

TWO-YEAR CERTIFICATE
Aviation Maintenance Technology

ONE-YEAR CERTIFICATE
Aviation Maintenance Technology: Airframe
Aviation Maintenance Technology: Powerplant

ADMISSION PREREQUISITES

Academic Prerequisites
For all AMT Certificates and AAS degree:

• Completion of AMT 101
• Placement into IRW 90 or (RD 90 or higher)

• Placement into IRW 90 or (WR 90 or higher)
• Completion of MTH 60 at PCC or if a student places into a higher than a math 60 class at PCC, they must take the (free) AMT department math test. AMT Department Chair permission is required to take the AMT department math test.

PROGRAM REQUIREMENTS

Academic Requirements

The program is divided into the following three areas of study:

• General Subject Areas: These courses, contain requirements which are common to both airframe and powerplant ratings. AMT 102, AMT 105, AMT 106, AMT 107, AMT 108, AMT 203 and AMT 204 are required prior to entry into the airframe and powerplant subject areas.

• Airframe Subject Areas: Students who have completed all of the courses in the airframe and general subject areas, plus WLD 210, may receive a certificate of completion which qualifies them to take FAA tests for an Aviation Mechanic Certificate with the Airframe rating.

• Powerplant Subject Areas: Students who have completed all of the courses in the powerplant and general subject areas may receive a certificate of completion which qualifies them to take FAA tests for an Aviation Mechanic Certificate with the Powerplant rating.

### AVIATION SCIENCE

**Rock Creek Campus**
Building 2, Room 230
971-722-7256 or 971-722-7457

**Southeast Campus**
Student Commons (SCOM), Room 214
971-722-6176

pcc.edu/fly

### CAREER AND PROGRAM DESCRIPTION

The traditional entry-level position for professional airplane and helicopter pilots is a certified flight instructor (CFI) or pilot for a small air carrier. These positions offer the opportunity to gain experience sought by companies that employ pilots in a variety of interesting and challenging positions. Career opportunities for airplane pilots include work in flight instruction, charter, corporate, cargo, and airline industries. Career opportunities for helicopter pilots include flight instruction, charter, corporate, air-ambulance and external load operations. Flight classes are conducted at Hillsboro Aero Academy, an accredited FAA Part 141 certified flight school, located at the Hillsboro and Troutdale Airports. Additional fees apply for these classes. Visit the department website for a list of fees.

### DEGREES AND CERTIFICATES OFFERED

#### ASSOCIATE OF APPLIED SCIENCE DEGREE

Aviation Science Airplane without Flight Instructor
Aviation Science Airplane with Flight Instructor
Aviation Science Helicopter (also includes Flight Instructor)

### PREREQUISITES AND REQUIREMENTS

**ADMISSION PREREQUISITES**

- The Aviation Science program is a restricted entry program with limited enrollment.

**ACADEMIC PREREQUISITES**

- Applicants must take the placement test administered through the campus assessment centers. Minimum test scores:
  - Placement into MTH 65 or higher
  - Placement into WR 121 or higher

**OTHER PREREQUISITES**

- Attendance at an aviation science orientation or individual advising required prior to beginning the program. Please see www.pcc.edu/fly for dates or contact the Aviation Science Department for dates or appointments.
- Additionally, the FAA requires a Class II Medical Certificate prior to beginning flight training. See www.pcc.edu/fly and click “Getting Started” for details.

### PROGRAM REQUIREMENTS

**ACADEMIC REQUIREMENTS**

- None

**OTHER REQUIREMENTS**

- None

**ASSOCIATE OF APPLIED SCIENCE DEGREE**

Aviation Science Airplane - Flight Instructor (p. 47)
Aviation Science Airplane - Without Flight Instructor (p. 48)
Aviation Science Helicopter (p. 48)

DESCRIPTION

Biology course offerings include classes for those interested in the study of life at all levels, from cells to ecosystems. Both introductory and in-depth courses are offered in general biology, cell biology, botany, microbiology, anatomy and physiology and the biology of specific habitats such as marine and forest ecosystems. PCC offers biology courses for both science majors and non majors.

Work in the sciences is an important part of many college programs. Courses at PCC are organized to present basic principles and to provide a coordinated overview of the sciences as they relate to living organisms.

CAREER AND PROGRAM DESCRIPTION

Bioscience Technology refers to the research, development, and manufacturing of products which use the processes, products or principles of living organisms to solve problems. The applications of bioscience range from developing and manufacturing better ways to diagnose and treat disease, to improving the production of plant crops, and even using microorganisms to clean up toxic wastes. The field is dynamic, employing applications and innovations that in many cases cut across traditional disciplines. Skilled technicians with broad-based laboratory training find employment in a variety of settings, working with scientists at all levels in research, development, manufacturing, testing, and quality control and assurance.

Technicians are needed in both large and small companies, research institutions, at local and state agencies, in private service laboratories and in some related industries.

Course work in the Bioscience program involves four distinct elements. Basic science courses provide the background information so that technical elements can be more completely understood. The foundation course work provides a broad base of technical knowledge that prepares individuals for entry-level positions in a variety of Bioscience companies, and includes emphasis on working in a regulated environment, as well as developing skill in technical communication and job readiness. The core of these foundation courses make up the Bioscience Technician Certificate. The advanced technical courses develop more specific skill sets, and provide for development of the fundamental skills in this more advanced context. Students may choose some electives from outside of the BIT program, in order to increase the breadth of training or focus on a specific sector of the bioscience industry. Students have the option to put their skills and knowledge into a working context through a work experience component. Certificate students must achieve an overall GPA of 2.0 in all required bioscience courses.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Bioscience Technology

LESS THAN ONE-YEAR: CAREER PATHWAY CERTIFICATE

Bioscience Technician
Advanced Bioscience Technologist

ADMISSION PREREQUISITES

Academic Prerequisites

• AAS Bioscience Technology: Placement into WR 121, and completion of MTH 95 with a "C" or "P" or higher.
Bioscience Technician Certificate: Placement into IRW 115 or (WR 115 and RD 115) and MTH 95.
Advanced Bioscience Technologist Certificate: Placement into WR 121, and MTH 95.
The Bioscience Technology program is a restricted entry program with limited enrollment. Contact the department for instructions.

Other Prerequisites
- None

PROGRAM REQUIREMENTS

Academic Requirements
- Students must achieve an overall GPA of 2.0 in order to earn the certificate.

BIOSCIENCE TECHNOLOGY AAS DEGREE

Minimum 90 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). A Cooperative Education experience is not required, however, it is strongly encouraged. Students should consult with program advisors for course planning.

BIOSCIENCE TECHNOLOGY DEGREE COURSES

BIT 102 Current Topics in Bioscience Technology 2
BIT 105 Safety in the Bioscience Workplace 2
BIT 107 Bioscience Lab Math 2
BIT 109 Basic Laboratory Techniques and Instruments 5

BUILDING CONSTRUCTION TECHNOLOGY

Rock Creek Campus
Building 2, Room 210
971-722-7770-General Information
971-722-7631-Design/Build Remodeling
971-722-7403 or 971-722-7328-Building Construction
971-722-7475-Construction Management
pcc.edu/programs/bldg-construction/

CAREER AND PROGRAM DESCRIPTION

Career possibilities exist for those going into business for themselves or seeking employment in the construction industry. PCC offers associate degrees and a certificate in several construction industry specialties. This program is designed to help students develop the technical qualifications and life skills needed to enter the construction industry, as well as to help those currently in the construction trades upgrade and learn new skills.

Building Construction Technology AAS Degree: This degree is designed to help students learn the skills a carpenter needs to build a house. Coursework includes hands-on instruction in the BCT shop, or at the BCT work site, in Tool Safety, Residential Concretes, Floor/Wall/Roof Framing, Exterior/Interior Finish, Cabinetmaking, and Remodeling. Classroom instruction consists of lectures and exercises that will teach skills in Residential Printreading, Materials and Methods, Building Codes, Estimating, Construction Math, Drafting, and Sustainable Building.

Graduates might work in the construction field as framers, carpenters, remodelers, site supervisors, concrete workers, siding installers, roofers, trim carpenters, etc. After gaining job site experience, graduates might even start their own construction companies. For specific courses required to complete this degree, see the term by term list under “Building Construction Technology.” For students who plan to complete the degree in two years, fall term is the best time to begin, since most courses are only offered once each year. However, many students enter the program in winter, spring, or summer terms. Students who enter the program during these terms should see a BCT advisor during their first term for help in sequencing courses.

Design/Build Remodeling AAS Degree: This degree offers coursework in building construction and interior design with a focus on kitchen and bath remodeling and design. This degree is accredited by the National Kitchen and Bath Association (NKBA) and follows NKBA kitchen and planning guidelines. Upon graduation, students can take the Associate Kitchen and Bath Designer (AKBD) exam and after gaining additional experience take the Certified Kitchen and/or Bath exam to become a certified designer. A graduate might work as a kitchen and/or bath designer, remodeler, cabinet installer, project superintendent, project manager, estimator, or showroom and sales associate. College level reading and writing skills, basic math skills are required. Individual courses may have prerequisites which are included in the course description. A “C” or better grade is required in all course work in this program option. Pass/No Pass grades are not accepted. Students must complete the coursework requirements outlined in the PCC catalog under Associates of Applied Science Degree. Students desiring to use this degree as their NKBA education requirement for the AKBD exam must complete a 160 hour internship with a company engaged in the kitchen and bath industry, in addition to the classes listed below.

Construction Management AAS Degree: Our Construction Management (CM) program provides students with the technical and management skills and qualifications necessary to secure employment in a management capacity within the construction industry. Our curriculum prepares students for entry level management and supervisory positions in the residential and commercial fields of construction, offering classes in estimating, scheduling, construction law, safety, building systems, materials and methods of construction, blueprint reading, project management and more. CM graduates seek employment as project engineers, estimators, schedulers, project managers and field supervisors. Others become owner’s representatives, developers, and general and specialty contractors. Graduates who earn the AAS degree in Construction Management may transfer to Oregon Institute of Technology to pursue a Bachelor of Science in Operations Management. Also, a Bachelor’s of Applied Science in Technology and Management is offered to AAS CM degree holders by both OIT and Southern Oregon University (SOU). The SOU program is online. OIT offers courses at OIT’s Portland Metro area campus in Wilsonville.

DEGREE AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE
Building Construction Technology
Building Construction Technology: Design/Build Remodeling Option
Building Construction Technology: Construction Management Option

LESS THAN ONE-YEAR CERTIFICATE
Building Construction Technology

ADMISSION PREREQUISITES

Academic Prerequisites

Prerequisites and requirements for this program are degree and certificate specific. See individual degree and certificate for prerequisite and requirement details.

- Students new to the building construction technology program must take the college’s placement tests for math and writing administered through the assessment centers prior to program advising and registration.
- Students must be enrolled in or have completed MTH 20 or have placed into MTH 58 or MTH 60 or above on the Numerical Test and have enrolled in or completed (WR 90 or IRW 90) or placed into (WR 115 or IRW 115 or above).
- Students must complete BCT 106 with a grade of "C" or "P" better or acquire department approval before enrolling in classes requiring the use of hand or power tools.
- Students must have completed CAS 133, or a similar course, or have basic computer skills. Keyboarding skills are also recommended.

Other Prerequisites
## PROGRAM REQUIREMENTS

### Academic Requirements

- **Design Build Remodeling AAS:** A "C" or better grade is required in all course work in this program option. Pass/No Pass grades are not accepted. Students must complete the coursework requirements outlined in the PCC catalog under Associates of Applied Science Degree.

### Other Requirements

- **None**

## ASSOCIATE OF APPLIED SCIENCE DEGREE

**Building Construction Technology (p. 52)**

**Building Construction Technology: Design/Build Remodeling Option (p. 52)**

**Building Construction Technology: Construction Management Option (p. 53)**

### BUILDING CONSTRUCTION TECHNOLOGY AAS DEGREE

Minimum 100 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the courses in the program of study indicated with a § symbol. Students should consult with program advisors for course planning.

BUILDING INSPECTION TECHNOLOGY
Sylvania Campus
Science Technology, Room 200
971-722-4166
pcc.edu/programs/building-inspection/

CAREER AND PROGRAM DESCRIPTION
PCC’s Building Inspection Technology program provides a diverse set of skills, enabling students to begin a career working in governmental jurisdictions or private industry, as a Building Inspector or Plans Examiner position. The degree in Building Inspections Technology trains for work in building inspections and plan review, for both residential and commercial buildings. The Certificate in Residential Plans Examination trains for work in residential inspection and plan review; ideally for someone with some construction background. (Please note, the Certificate does not provide training as a home inspector, who typically is part of a real estate transaction).

The Building Inspection Technology (INSP) program is delivered by experts currently working in the field. Students develop and apply basic understanding of concepts, theories, and principles of construction and building codes with both a residential and commercial focus. A broad curriculum including:

- construction materials and processes
- printreading
- building systems
- building structures
- residential and commercial building codes
- residential and commercial plans review

in addition to courses in:

- interpersonal communication
- computers
- mathematics
- job finding skills

Also, cooperative work experience (internship) at a local city or county building department prepares students for a career in building inspection and/or plan review. Graduates may find employment in public and private code enforcement agencies, construction firms, engineering or architectural firms, and other related industries.

PCC is the only college in Oregon to offer career and technical training in Building Inspections Technology. All INSN classes are offered in the evening on the Sylvania campus and a few courses are offered in an online format. There is no online only option. For more information or availability of individual courses please contact the department advisor, at 971-722-4166. Students who wish to transfer
to a college or university to obtain a bachelor’s degree should check with the specific institution for transferability.

**DEGREES AND CERTIFICATES OFFERED**

**ASSOCIATE OF APPLIED SCIENCE DEGREE**
Building Inspection Technology

**LESS THAN ONE-YEAR CERTIFICATE: CAREER PATHWAY CERTIFICATE**
Residential Plans Examination

**ADMISSION PREREQUISITES**

**Academic Prerequisites**
- None

**Other Prerequisites**
- None

**PROGRAM REQUIREMENTS**

**Academic Requirements**
- All ARCH and INSP courses must be completed with a letter grade of "C" or better. INSP 280 is excluded from this requirement because it is offered as Pass/No Pass only.

**Other Requirements**
- None

**BUILDING INSPECTION TECHNOLOGY AAS DEGREE**
Minimum 90 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

CAREER AND PROGRAM DESCRIPTION

Three associate of applied science degrees in business administration are offered. They are: Accounting, Management, and Marketing. These two-year degrees emphasize skills to be used on the job upon completion of the degree requirements and are not designed for students intending to transfer to four-year schools. If transferability of courses is a concern, students should consult with the institution of their choice regarding transfer possibilities.

Due to the rapid changes in employment opportunities, technological advances and certifying agency regulations, Business programs are subject to change. Students must meet PCC’s writing and math competencies prior to graduation. See Comprehensive Degree Requirements (p. 12) in this catalog. Placement tests are available for writing and math. Additional requirements for individual business courses are listed in the Course Description section of this catalog.

§ Course cannot be substituted with another course.

1 Students who have completed high school bookkeeping or have had work experience with full-cycle bookkeeping responsibilities should substitute an approved business elective and start the accounting series BA 211 in the second term.

2 Students who can touch type more than 40 words per minute should substitute an approved business elective.

3 Students considering the Associate of Applied Science (Accounting) degree are recommended to take EC 201 or EC 202.

These business electives apply to all business administration degrees and certificates that have Business Program Electives identified in the curriculum.

CHEMISTRY

Cascade Campus
Jackson Hall (JH), Room 210
971-722-5209

Rock Creek Campus
Building 7, Room 202
971-722-7500

Southeast Campus
Student Commons (SCOM), Room 214
971-722-6146

Sylvania Campus
Science Technology (ST), Room 312
971-722-4174

pcc.edu/programs/chemistry/

DESCRIPTION

Chemistry is the fundamental science of matter – its structure, composition, and transformations. As such, chemistry has wide applications in all the physical, biological, and behavioral sciences. Chemistry is involved in solving some of the most pressing problems facing our society today, such as environmental problems, medical issues, dwindling energy resources, the need for new and better materials, and worldwide food shortages.

Courses in chemistry are offered for students who will transfer to four-year institutions, who are completing requirements for career technical programs, or who are taking courses for personal enrichment. Chemistry courses at PCC are equivalent to freshman and sophomore courses at four-year colleges and universities. Students should check the specific requirements of the institution to which they plan to transfer prior to finalizing their course of study at PCC.

CHICANO/LATINO STUDIES

Rock Creek Campus
Building 5, Room 245
971-722-7235
pcc.edu/programs/chicano-latino-studies/

DESCRIPTION

Chicano/Latino Studies is the interdisciplinary study of the historical, social, cultural, political and economic forces that have shaped and continue to shape the development of Americans of Latino origins and ancestry over the last 500 years. People of Chicano/Latino origin include a diverse population; these are communities who trace their ancestry to Mexico, Central America, South America and the Caribbean. This program’s focus is on people of Latin American descent within the hemisphere, in particular within the United States. Courses in Chicano/Latino studies take into account the intersections of race, ethnicity, class, gender and sexuality and how they affect the lives of Chicano/Latino people. The emphasis in these courses is on the experience of the Chicano/Mexican-American and other Latinos as residents and citizens of the United States and not in their countries of origin or descent.

The curriculum in Chicano/Latino studies provides a critical engagement, understanding and appreciation of the language, culture, literature, and creative (art, dance, drama, film, music) accomplishments of Chicano/Latino communities. Chicano/Latino studies contribute to many fields, and are appropriate for anyone planning to work with diverse communities and cultures. Chicano/Latino studies draw from and are informed by the humanities and social sciences, and prepare students for professional programs such as education, social work, medicine and law.

PCC courses in this area of study are designed to transfer with full credit to the Chicano/Latino Studies Certificate program at Portland State University. They will transfer to most other colleges and universities as elective credit. Students planning to transfer to a college or university other than Portland State University should see an adviser for additional information and guidance.

CHINESE

Cascade Campus
Cascade Hall (CH), Room 208
971-722-5251

Southeast Campus
Mt. Scott Hall (MSH), Room 103
971-722-3585
pcc.edu/programs/chinese/

DESCRIPTION

All PCC Chinese courses are taught using an immersion method. The objective of all Chinese courses at PCC is to help students to develop communicative competence and proficiency in comprehenision, speaking, reading, and writing Chinese as well as cultural awareness. The Chinese curriculum at PCC is designed in accordance with the Chinese program at Portland State University, where students learn traditional Chinese characters during their First Year Chinese courses and simplified characters during Second Year Chinese courses. Students who complete first and second year Chinese courses at PCC are strongly encouraged to apply for a Chinese major or minor at PSU. Assessment is based on consistent attendance, active participation, and written and oral assignments.

There are no requirements or prerequisites for entry into the first term of first year Chinese. However, the student should read the Chinese course descriptions for other Chinese courses. Students who have
studied a language before and are unsure of their placement are encouraged to consult with a world language teacher since they will not be admitted to a course if their skill level is too advanced for that course.

All students who enroll in world language classes (including those on the waiting list) are expected to attend class the first day when material essential for completion of the course will be presented. Students who do not attend the first class session may be replaced by those who do attend.

CIVIL ENGINEERING TECHNOLOGY

Sylvania Campus
Science Technology Building (ST), Room 200
971-722-4159

pcc.edu/programs/civil-engineering/

CAREER AND PROGRAM DESCRIPTION

Civil engineering technicians are problem-solvers, working as part of a team involved in the planning, design, construction, operation, and management of many types of projects. These may include buildings, bridges, dams, highways, rapid transit facilities, airport and coastal improvements, land development projects, residential and commercial complexes, utilities, and environmental protection facilities such as water and wastewater treatment plants, air pollution control systems, solid and hazardous waste disposal systems, and storm water control facilities. These skilled professionals work on a variety of assignments including: design calculations, computer-aided drafting, environmental sampling, engineering and boundary surveying, laboratory testing, specification writing, technical sales, scheduling, estimating, and construction management, among others. Employers of CET’s include consulting engineering firms, government agencies, utilities, construction companies, manufacturers, and materials testing laboratories.

The PCC Civil Engineering Technology program is designed to develop marketable skills in a broad range of technical areas, as well as in problem analysis and solution, spoken and written communication, computer software use, and computer-aided drawing. While providing a curriculum strong in mathematics and engineering topics, our teaching format also emphasizes student involvement, teamwork, and extensive student-instructor interaction.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE
Civil Engineering Technology
Civil Engineering Technology: Green Technology and Sustainability Option

TWO-YEAR CERTIFICATE
Civil Engineering Technology

ADMISSION PREREQUISITES

Academic Prerequisites

• CET is a limited-entry program. Prospective students must meet with an engineering technology advisor prior to registering for any CMET courses
• Civil Engineering Technology AAS:
  • WR 115 or IRW 115 or equivalent placement.
  • MTH 58 or MTH 60 or higher, or equivalent placement.
• Civil Engineering Technology: Green Technology and Sustainability AAS requirements
  • WR 121 or equivalent placement.
  • MTH 58 or MTH 60 or higher, or equivalent placement.
• Civil Engineering Technology Certificate requirements:
  • WR 115 or IRW 115 or equivalent placement.
  • MTH 58 or MTH 60 or higher, or equivalent placement.
  • MTH 58 or MTH 60 or equivalent placement.
  • High school courses in chemistry and physics are helpful, but not required. Skill in keyboarding is highly recommended. A specific calculator is required.
  • For students not meeting these requirements, advising is available to assist in preparing for entrance into the program and to earn credits which will apply toward the certificate or degree once accepted into the program.

Other Prerequisites

• Full-time students: CET is a limited enrollment program for students seeking a certificate or degree. Qualified applicants are accepted in the order in which the application process is completed. Program starts in fall and winter terms. See a program advisor for other term starts.
• Job-upgrade students: Non-program students seeking to upgrade job skills are welcome to enroll in individual courses. Students must meet individual course prerequisites and complete an advising interview with a CET faculty advisor prior to enrollment. Admission is granted on a space-available basis after the needs of the full-time students have been met.
• Continuing education: Students of this program may transfer to various out-of-state institutions to pursue a Bachelor of Science degree in civil or construction engineering technology or to Oregon State University for a degree in construction engineering management. Faculty advisors will provide assistance in the selection of additional course work appropriate to each student’s goals.

PROGRAM REQUIREMENTS

Academic Requirements

• None

Other Requirements

• None

ASSOCIATE OF APPLIED SCIENCE DEGREE

Civil Engineering Technology (p. 61)
Civil Engineering Technology: Green Technology and Sustainability Option (p. 62)

CIVIL ENGINEERING TECHNOLOGY AAS DEGREE

Minimum 101 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the courses in the program of study indicated with a § symbol. Students should consult with program advisors for course planning.

COURSE OF STUDY

The coursework listed below is required. The following is an example of a term-by-term breakdown.

**Description**

College students face numerous challenges, not the least of which are learning how to manage time, finances, and personal commitments. While developing an understanding of their own unique strengths and skills, students must choose an appropriate major and make careful career choices. These challenges, combined with those of everyday living, present an opportunity to grow from important life experiences, renew one’s career commitments, and oftentimes, manage an exciting career change.

PCC’s College Success and Career Guidance courses are designed to help students get the most out of their college experience; choose a career or major; explore changing careers; and assess and develop strengths and personal skills. “College Survival and Success” and “Scholarships: $$ for College” gives students the tools and resources to begin their college experience successfully; “Study Skills for College Learning” helps students develop their academic abilities; and “Career and Life Planning” offers students tools to make important major and career decisions. Other personal growth and self-enhancement courses, such as “Stress Management” and “Decision Making” allow students to grasp the day-to-day challenges they face in balancing school and life.

*contact for Hillsboro Center
**contact for Newberg Center

pcc.edu/programs/communication-studies/

**Description**

Communication Studies is the study of human communication processes. Our courses focus on both theory and practice to help students improve communication competence in a variety of contexts. Communication Studies courses build communication knowledge and skills needed to develop, manage and maintain various types of relationships. Students learn how humans share symbols to create meaning; students critically analyze and apply methods of informing and persuading in interpersonal, small-group, intercultural, business, public speaking, mass media and new media contexts.

Communication Studies is a dynamic discipline. Courses at PCC provide foundation in the discipline and prepare students for transfer into upper division courses. An Oral Communication course is a requirement for completion of the AAOT (Associate of Arts Oregon Transfer) and ASOT-BUS (Associate of Science Oregon Transfer - Business). Select COMM courses fulfill this requirement as well as requirements for specific certificate programs.

A Focus Award recognizes students who have gained considerable knowledge in Communication Studies by completing four courses and earning 15-16 COMM or J credits. For more information and specific requirements, please see the Focus Award section of the catalog.
COMPUTER AIDED DESIGN AND DRAFTING (CADD)

Southeast Campus
Student Commons (SCOM), Room 214
971-722-6031

pcc.edu/programs/drafting-design/

CAREER AND PROGRAM DESCRIPTION
This program is designed to assist students in acquiring the knowledge and skills required of drafters and designers. Design drafters are skilled technicians who interpret engineering data to produce sketches, plans and detailed working drawings used in manufacturing and construction.

Career opportunities exist for drafters in many areas including: product design, sheet metal layout, structural steel detailing, special tooling and fixtures and machine design. Graduates are found working for manufacturing firms, construction companies, engineering firms, city, state and federal agencies or they may be self-employed.

Advancement to positions of designer, drafting supervisor, or engineering technician are possible. Modern CAD (computer aided drafting) labs provide the opportunity for CAD skill development using a variety of CAD software. Other courses will augment the design drafter tool set with knowledge in materials, materials strength, drafting/design computation, design for manufacturing and the product development process. The program and courses are developed with the advice and support of an advisory committee.

Full time students should begin the computer aided design and drafting certification program during the fall term, and follow in sequential order. Both afternoon and evening courses are offered. Contact a program adviser for curriculum variations.

DEGREES AND CERTIFICATES OFFERED
ONE-YEAR CERTIFICATE
Computer Aided Design and Drafting (CAD)

ADMISSION PREREQUISITES

Academic Prerequisites

- Students new to the certificate program must take the college’s placement examination for math prior to program advising and registration. Students must place in MTH 60 and WR 115 before registering for first term drafting classes.

Other Prerequisites

- Consult a program advisor or the college catalog for information on PCC’s policy for acceptance of courses taken at other colleges, high schools and/or the transferability of PCC courses to other institutions.

PROGRAM REQUIREMENTS

Academic Requirements

- Students must receive a grade of “C” or “P” or better in all CADD courses to earn a the Computer Aided Design and Drafting Certificate.

Other Requirements

- None

COMPUTER AIDED DESIGN AND DRAFTING ONE-YEAR CERTIFICATE

Minimum 45 credits. Students must meet certificate requirements.

CAREER AND PROGRAM DESCRIPTION
Portland Community College offers associate degrees and certificates within the Computer Applications and Office Systems Department. Associate degree programs may be completed in approximately two years and the certificate programs may be completed in approximately one year, assuming the student is enrolled on a full-time basis.
Students completing the Administrative Assistant Certificate will have also completed the first year’s work towards the Administrative Assistant Degree.

Due to the rapid changes in employment opportunities, technological advances, and certifying agency regulations, these programs are subject to change.

State-approved Career Pathway Certificates vary in length but are designed to be completed in less than one year. These certificates help students attain skills for targeted entry-level jobs in specific areas of computer applications, office systems, and web development. The credits earned will provide a convenient pathway for students who wish to continue to pursue the one-year certificates and two-year AAS degrees in the program.

Administrative Assistant: An administrative assistant possesses advanced knowledge of popular software applications, excellent communication, and interpersonal skills. An administrative assistant is prepared to make decisions, set priorities, and establish work flow. Students who successfully complete the Administrative Assistant Degree will develop skills and knowledge appropriate to an entry-level office position as an administrative assistant. The program emphasis is on using business software, communications, Internet, and emerging technologies.

Administrative Office Professional: An administrative office professional coordinates various office support services and frequently supervises office support staff. This professional also establishes short range and long range plans for the office. This degree requires excellent communication and organizational skills. Students who successfully complete the Administrative Office Professional degree will develop skills and knowledge appropriate to an entry-level office position as an administrative assistant leading to managerial responsibilities. This is a statewide program that provides connected instruction and a pathway for completion between participating Oregon community colleges. Students may start at any participating college but transfer and complete credits at any appropriate college.

Web Development and Design: The field of Web Development and Design represents a rapidly growing career and technology segment of industry. This program prepares students to create and support websites using current industry standards and technology. Students will plan, create, manage, and market web-based business operations, products, and services. These skills are transferable to a wide variety of web-related careers. This interdisciplinary AAS degree combines back-end programming and development skills with front-end design skills to prepare students for a wide variety of web-related careers. Furthermore, students in this program will learn the designing, implementing, testing, and troubleshooting skills needed for website maintenance and development. In addition to fundamental web development and design skills, students have the opportunity to select their electives from one of the following focus areas:

- Design
- Development
- Business
- Video

All students are advised to consult with a program advisor on their selection of electives.

Administrative Assistant Certificate: Intended to meet business career needs for entry-level administrative assistants, secretaries, receptionists, file clerks, and data entry personnel. Workers in these positions may perform a wide variety of duties such as working with office technology to produce and file business documents, greeting the public, planning and scheduling, accounting, and creating web pages.

The Web Development and Design Certificate: Intended to meet business career needs for entry-level positions that assist website developers, HTML programmers, web designers, web producers, and web technologists. Certificate completers will be able to create functional websites and assist in the production of professional dynamic websites. Administrative support personnel and entrepreneurs will gain the necessary skills to develop and manage departmental and personal websites.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Administrative Assistant
Administrative Office Professional
Website Development and Design

ONE-YEAR CERTIFICATE

Administrative Assistant
Website Development and Design

LESS THAN ONE-YEAR CERTIFICATE

Virtual Specialist

LESS THAN ONE-YEAR: CAREER PATHWAY CERTIFICATE

Administrative Assistant: Administrative Support
Administrative Assistant: Business Office Assistant
Administrative Assistant: Computer Software Fundamentals
Website Development and Design Certificate: Web Assistant I
Website Development and Design Certificate: Web Assistant II

ADMISSION PREREQUISITES

Academic Prerequisites

- All programs of study in CAS/OS recommend placement in IRW 115 or (WR 115 and RD 115), MTH 20 and keyboarding by touch or CAS 121 . Additional skill requirements are specified in course descriptions. Placement examinations to assist students in selecting appropriate writing and mathematics courses are required prior to registration.

Other Prerequisites

- Students with questions about entry-level readiness should arrange to meet with a department advisor.

PROGRAM REQUIREMENTS

Academic Requirements

- All courses in the degrees and certificates within the CAS/OS program must be completed with a grade of "C" or "P" or better.
- Students must meet PCC’s writing and math competencies prior to graduation. See academic requirements in this catalog.

Other Requirements

- None

ASSOCIATE OF APPLIED SCIENCE DEGREE

Administrative Assistant (p. 65)
Administrative Office Professional (p. 66)
Website Development and Design (p. 66)

ADMINISTRATIVE ASSISTANT AAS DEGREE

Minimum 94 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Math/computation competency is met through the courses in the program of study indicated with a $ symbol. Students should consult with program advisors for course planning.

pcc.edu/programs/computer-info/

CAREER AND PROGRAM DESCRIPTION
Computer Information Systems are the lifeblood of the 21st century. The mainstream languages, tools, technologies and techniques used in training will allow students to pursue careers in either the computer networking or information software fields. On the networking side, computer configuration, network installation, network systems administration, security, forensics and wireless networking are some career choices. On the software side, student career choices include all phases of application development, database programming, software quality assurance, and project management on both desktop and World Wide Web platforms.

Computer Information Systems AAS Degree: This degree prepares students for computer information systems related careers. Students
will take classes in the CIS Department that include software analysis, design, programming (in two or more languages), database modeling, Windows or Unix operating systems, data communications and an extensive selection of electives. Emphasis is on developing enduring skills and knowledge, rather than on training students to use specific tools and applications that may be "fashionable," but that haven't established a foothold in industry.

Computer Information Systems: Network Administration AAS Degree: This degree prepares students for computer networking related careers. Students will take classes in the CIS Department including data communications, Windows and Linux network administration, network security and an extensive selection of electives. Students earning this degree will be well on their way to several network administration certifications from Microsoft and Comp TIA.

Computer Information Systems One-Year Certificate: This certificate provides students with a foundation in computer information systems concepts. Students seeking this certificate often have various primary roles in their organizations and are taking on additional responsibilities involving information systems.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE
Computer Information Systems
Computer Information Systems: Network Administration Option

ONE-YEAR CERTIFICATE
Computer Information Systems

LESS THAN ONE-YEAR CERTIFICATE

| **C# Application Programming** | 4 |
| **Database Design and SQL** | 4 |
| **Network Administration: Linux Server** | 4 |
| **Network Administration: Microsoft Server** | 4 |
| **Web Application Development** | 4 |
| **Java Application Programming** | 4 |

ADMISSION PREREQUISITES

Academic Prerequisites
- The Less Than One-Year Certificates are limited entry certificates.

Other Prerequisites
- None

PROGRAM REQUIREMENTS

Academic Requirements
- Computer Information Systems AAS: Students must satisfactorily complete all courses with a CIS and CS prefix in the degree with a grade of "C" or "P" or better.
- Computer Information Systems: Network Administration AAS Degree: Students must satisfactorily complete all courses with a CIS and CS prefix in the degree with a grade of "C" or "P" or better.
- Computer Information Systems One-Year Certificate: All required courses in this program apply toward the credits needed to obtain an AAS degree in Computer Information Systems or CIS Network Administration. Students must satisfactorily complete all courses with a CIS and CS prefix with a grade of "C" or "P" or better.
- The Less Than One-Year Certificates: These certificates begin at an advanced level and are designed for individuals already working in, or have worked in, an information technology position.
  - Students must satisfactorily complete all courses with a CIS and CS prefix with a grade of "C" or "P" or better.
  - Students must contact a CIS advisor for correct placement in any of these certificate programs.
- Reading, writing and math readiness is critical for all Computer Information System (CIS) degrees and certificates. Talk to a CIS Department advisor for clarification regarding what constitutes math competency. Students with insufficient preparation to enter at this level may need to extend the time it takes to complete the program. CIS Department advisors will provide information regarding options to those students who may need to take preparatory course work.

Other Requirements
- None

ASSOCIATE OF APPLIED SCIENCE DEGREE
Computer Information Systems (p. 70)
Computer Information Systems: Network Administration Option (p. 71)

COMPUTER INFORMATION SYSTEMS AAS DEGREE

Minimum 94 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

COMPUTER SCIENCE
Rock Creek Campus
Building 7, Room 702
971-722-7527 or 971-722-7604
Sylvania Campus
Technology Classroom Building (TCB), Room 312
971-722-4393 or 971-722-4287
pcc.edu/programs/computer-science/

DESCRIPTION
Computer science is the study of information systems, their representation, architecture, and implementation, used for a variety of practical and theoretical purposes. Computer science addresses methods by which data is accessed, stored, and retrieved, which include areas such as representational computation, programming languages, algorithmic modeling, and software design, testing and development. Computer scientists apply their knowledge of mathematics, physics, and logic to solve a variety of problems using diverse technology.

Students learn practical methods of reasoning, problem-solving, and theoretical analysis to develop their skills in computer science. While exploring general courses in programming, systems analysis, mathematics, and physics, students apply their skills to core challenges within the field. PCC offers students the opportunity to earn an Associate of Arts Oregon Transfer (AAOT) degree, or Associate of Science (AS) degree. Students may also complete courses as preparation for a bachelor’s or advanced degree or update skills to industry standards. Students wishing to transfer credits must check the specific requirements of the college/university to which they intend to transfer. Transfer guides exist with Portland State University, Oregon State University, The University of Oregon and the Oregon Institute of Technology for the two-year transfer degree.

CRIMINAL JUSTICE
Cascade Campus
Public Service Education Building (PSEB), Room 121
971-722-5629 or 971-722-5236
pcc.edu/programs/criminal-justice

CAREER AND PROGRAM DESCRIPTION
Persons in the criminal justice field may work in a municipal, county, state or federal law enforcement organization or corrections system. Positions requiring law enforcement education are available at all levels of government and in private industry. Duties range from crime prevention programs to investigative and uniform patrols. Technical skills such as data processing and criminalistics are used to support overall criminal justice operations.

The Corrections Technician Certificate gives students the skills and knowledge needed for entry-level technical work in a correctional setting. This certificate identifies the first step in an educational pathway for the AAS degree in Criminal Justice. This certificate provides a credential to students who want to work in the field as they continue on their educational pathways. Most of the courses can be used for the AAS degree should the student choose to continue their education.

CULINARY ASSISTANT
Sylvania Campus
Social Sciences Building (SS), Room 201
971-722-4305
971-722-4959 (Fax)
pcc.edu/programs/culinary-assistant/

CAREER AND PROGRAM DESCRIPTION
The Culinary Assistant Program is designed for students with disabilities who have barriers to employment. Students develop entry level job skills in food service and custodial service. The program also focuses on the acquisition of work habits and behaviors necessary to maintain competitive employment.

DEGREES AND CERTIFICATES OFFERED
LESS THAN ONE-YEAR CERTIFICATE
Culinary Assistant Training

ADMISSION PREREQUISITES
Academic Prerequisites
- This is a limited entry program with restricted enrollment.

Other Prerequisites
- An interview with the program coordinator is required prior to enrollment.
- Qualified students must be 18 years or older with a documented disability, have the ability to work semi-independently, willing to learn and improve.

PROGRAM REQUIREMENTS
Academic Requirements
- None

Other Requirements
- Students can enroll at the beginning of each fall, winter or spring term of a year.
- Students work with PCC Food Services or Facilities Management Services to learn the specific job skills in their work area.
- Individualized training and assistance in maintaining positive work habits are provided by the program coordinator.
- Classroom sessions focus on good work ethics, positive attitude, appropriate work behaviors, professionalism, etc., developing job success skills, specific job-related knowledge (such as food safety, job safety, money handling, etc.), as well as job search technique.
- The program coordinator also provides six hours of individualized job development activities with each student.

CULINARY ASSISTANT TRAINING LESS THAN ONE-YEAR CERTIFICATE
Minimum 39 credits. Students must meet all certificate requirements.

Sylvania Campus
Communications Technology Building (CT), Room 216
971-722-4264

pcc.edu/programs/dance/

DESCRIPTION

PCC offers dance technique and theory courses designed to explore dance at the beginning through advanced levels. Courses emphasize correct alignment, principles of movement, development of individual dance skills, and an awareness and appreciation of dance as a performing art. The study of dance develops physical and mental discipline, expands cultural perspectives, enhances personal growth and enrichment, and supports lifelong learning. Dance performance opportunities for students include participation in informal showings, dance concerts and Dance Performance (D 209).

Most dance courses are offered concurrently and co-listed in both the Music and Dance Department and the Physical Education Department. Students may choose to take the courses for dance or PE credit, which may be applied to degree and/or transfer programs. Students may not sign up for dance and PE credit for the same class in the same term. Students should check transferability of specific dance courses with the institution to which they are planning to transfer.

Although a physical exam is not required for physical education and dance courses, students are advised to seek approval from their personal physician before entering into a regular program of vigorous physical activity as is found in physical education and dance courses. Students will be asked to complete personal data cards to hand into their instructors prior to the beginning of their classes. Personal data cards include any personal health information that could impact participation in class activities: diabetes, cardiac history, past or current injuries, etc. PCC does not provide medical coverage. All students are strongly encouraged to acquire medical coverage prior to taking a physical education, dance or any other physical activity class. Contact the Music and Dance Department, and the Physical Education and Fitness Department for additional information.

DEALER SERVICE TECHNOLOGY

Rock Creek Campus
Building 2, Room 230
971-722-7465

pcc.edu/programs/think-big/

CAREER AND PROGRAM DESCRIPTION

This program is a partnership between Portland Community College, Caterpillar Corp and the five Northwest Caterpillar dealerships. It is an industry specific two-year associate degree program with required on-the-job training/internships at a sponsoring Caterpillar dealership. It is designed to prepare individuals to become qualified Caterpillar service technicians. Students learn how to work on many types of Caterpillar equipment including agricultural, construction, forestry and earth moving equipment.

The Dealer Service Technology Program combines technical and academic education with real world experience through paid on-the-job training. Upon completion of the program students will earn an Associate of Applied Science Degree from Portland Community College.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Dealer Service Technology

ADMISSION PREREQUISITES

Academic Prerequisites
• Applicants must take the placement test administered through the testing center at PCC, or a center provided by their CAT dealer contact person.
• Required minimum program entrance level requirements: placement into WR 115 or higher, placement into RD 115 or higher and placement into MTH 60 or higher.
• This is a limited entry program.
• Application and acceptance process: All prospective students must apply to PCC and their prospective sponsoring CAT dealership. For details on final program acceptance and other information contact 971-722-7465.

Other Prerequisites
• Prospective students must sign a release of information form to allow their CAT dealership access to their educational records and PCC the ability to share information with the dealership. To begin the program, students must secure a paid CAT dealer internship (required to stay in program).
• Final selection for this program is based on the capacity of each CAT dealership’s allotted seats in the program and actual hire as a CAT intern by a sponsoring CAT dealership. This is a two year, nine term program (24 months).

PROGRAM REQUIREMENTS

Academic Requirements
• Students must meet general education and comprehensive degree requirements.

Other Requirements
• None

DEALER SERVICE TECHNOLOGY AAS DEGREE

Minimum 101 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

DENTAL ASSISTING

Sylvania Campus
Health Technology Building (HT), Room 206
971-722-4236

Health Admissions Office
College Center (CC), Room 208
971-722-4795

pcc.edu/programs/dental-assisting

CAREER AND PROGRAM DESCRIPTION

The dental assistant is a member of the dental team, working with and assisting the dentist and hygienist during clinical procedures. Traditional duties and responsibilities include: exposing and developing dental radiographs, mixing dental materials, organizing and preparing treatment rooms, passing dental instruments and materials to the dentist, taking impressions, preparing, placing and removing rubber dams, placing topical anesthetic, fluoride and desensitizing agents, sterilizing instruments, disinfecting dental equipment, comforting patients during dental appointments and educating patients on various dental procedures. Graduates are also prepared to perform the following expanded duties: polish teeth and restorations, fabricate and cement temporary crowns, remove cement, place temporary restorations, place and remove matrix retainers, place sealants, perform temporary denture relines, place retraction cord and various orthodontic duties. Computer skills are an important asset to a dental assistant. Students should be familiar with basic computer key boarding skills. Dental computer programs are learned in the office procedures courses. The Dental Assisting program is a limited entry program with restricted enrollment. The program is limited to 45 students. Applications are accepted from October 1 to April 15. Application forms may be obtained at www.pcc.edu/da and should be submitted along with high school and college transcripts to:

Health Admissions Office
Sylvania Campus, (CC) 208

DEGREES AND CERTIFICATES OFFERED

ONE-YEAR CERTIFICATE

Dental Assisting

Accredited by the Commission on Dental Accreditation (CODA).

ADMISSION PREREQUISITES

Academic Prerequisites

- High school diploma or college transcripts showing a minimum 2.0 GPA, or GED.
- Completion of the following courses or their equivalents, with a "C" or better, is required to be considered for application to the Dental Assisting Program:
  - Placement into WR 115 or IRW 115 or higher level writing course (Placement into WR 121 can substitute for the WR 115 and IRW 115 course).
  - Approved college level nutrition course or health course with a nutrition component. Recommended classes include HE 250, HE 295 and PE 295 or FN 225.
  - Placement into MTH 20 or higher.
  - Approved college-level Psychology course. PSY 101 is recommended.
  - MP 111 must be completed prior to enrolling in any Dental Assisting courses.

- Pass/No Pass grades are not acceptable in prerequisites.

- The Dental Assisting program is a limited entry program with restricted enrollment.
- The program is limited to 45 students. Applications are accepted from October 1 to April 15. Application forms may be obtained at www.pcc.edu/da and should be submitted along with high school and college transcripts to:
  - Health Admissions Office
  - Sylvania Campus, (CC) Room 208
  - Portland Community College P.O. Box 19000
  - Portland, Oregon 97280-0990

For information call 971-722-4795 or check the website www.pcc.edu/da.

Candidates will be notified of their admission status by late May.

Candidates will be notified of their admission status by late May.

Other Prerequisites

- 12 hours of shadowing in a dental office or clinic facility that is documented by dentist's signature with the dentist's business card attached.

- Applicants should have all program prerequisite courses and job shadowing experiences completed by the end of winter term. Courses planned for spring term will not be considered for the current year’s application process. It is the applicant’s responsibility to update their information by providing final grades of courses which are in progress at the time of application.

- All students are required to be immunized against Hepatitis B as well as evidence of immunity to measles, tetanus immunization and current tuberculin skin test (TST). Test must be within previous 12 months. Positive TST will require evidence of normal chest x-ray (supply upon acceptance).
PROGRAMS & DISCIPLINES

- A valid (current) Healthcare Provider CPR that includes Adult, Child, Infant and AED is required.

PROGRAM REQUIREMENTS

Academic Requirements
- None

Other Requirements
- Criminal Background Check
  - All PCC students enrolled in a health care or child care program, including Dental Assisting, with requirements for practical experience of field training must pass a Criminal History Check (CHC) and a drug screen as a condition of their acceptance into a medical or other facility for training.
  - Students who do not pass the CHC and drug screen are not eligible to complete training at affiliated practicum sites, to sit for licensure or certification exams; or be hired for some professional positions. If you believe that your past history may interfere with your ability to complete the program of study or to obtaining licensure, or certification in your chosen field, you should contact the appropriate state board or program director.
- The Dental Assisting Certificate prepares the student for job entry with State and National certification in dental radiology, basic dental assisting and expanded function dental assisting.
- Students enrolled in the Dental Assisting Program perform exposure prone procedures and are required to wear safety glasses, gloves, face masks and protective clothing during all laboratory and clinic activities that produce airborne particulate matter, or expose students to patients during dental procedures. An exposure prone procedure is one in which there is an increased opportunity for the exchange of blood borne pathogens between the patient and the dental health care provider because of the kind of procedure being performed.
- Safety policies, procedures and protocols are taught and followed according to OSHA regulations and CDC Standards to provide a safe learning and patient care environment. The program policies on blood borne pathogens and infectious disease are available to applicants upon request. Upon acceptance to the program, extensive training in this area will occur.
- Applicants who have an infectious disease or who are carriers of an infectious disease should seek counsel from their physician and the program director prior to application. The college follows CDC suggested work restrictions for health-care personnel infected with or exposed to major infectious diseases in health care settings, from the CDC’s Guidelines for Infection Control in Dental Healthcare Settings–2003 available at www.cdc.gov/mmwr/preview/mmwrthm/fr5217a1.htm, Table 1, attached to and incorporated by this reference to this policy.
- All aspects of the Dental Assisting Program are continually assessed to provide on-going excellence and continuing improvement, and are subject to change.

DENTAL ASSISTING ONE-YEAR CERTIFICATE

Minimum 45 credits. Students must meet all certificate requirements.

DENTAL HYGIENE

Sylvania Campus
Health Technology Building (HT), Room 206
971-722-4236

College Center Building (CC), Room 208
971-722-4795

pcc.edu/programs/dental-hygiene

CAREER AND PROGRAM DESCRIPTION

A dental hygienist is a licensed oral health care provider who teaches patients how to recognize their oral conditions and how to care for their mouths. Dental hygienists work in private practices, coordinated care organizations, community clinics and even independently with an Expanded Practice Permit. A dental hygienist evaluates a patient’s mouth and uses those findings to decide on appropriate treatment. In addition, a dental hygiene provider treats advanced periodontitis (gum disease), performs oral cancer screenings, applies fluorides and sealants, and provides tobacco and nutritional counseling. Hygienists with a Restorative Endorsement also place restorations (fillings).

The Dental Hygiene Program offers a two-year curriculum that is accredited by the Commission on Dental Accreditation (CODA). The program of study prepares students for the National Board written examination and regional licensure examinations.

Students enrolled in the Dental Hygiene Program will be performing exposure prone procedures and will be required to wear safety glasses, gloves, face masks and protective clothing during all laboratory and clinic activities that produce airborne particulate matter, or expose students to patients during dental procedures. An exposure prone procedure is one in which there is an increased opportunity for the exchange of blood borne pathogens between the patient and the dental health care provider because of the kind of procedure being performed.

Safety policies, procedures and protocols are taught and followed according to OSHA regulations and CDC standards to provide a safe learning and patient care environment. The program policies...
on Blood borne Pathogens and Infectious Disease are available to applicants upon request. Upon acceptance to the program, extensive training in this area will occur.

Applicants who have an infectious disease or who are carriers of an infectious disease should seek counsel from their physician and the program director prior to application. The college will follow CDC suggested work restrictions for health-care personnel infected with or exposed to major infectious diseases in health care settings, from the CDC's Guidelines for Infection Control in Dental Health-Care Settings–2003, available at www.cdc.gov/mmwr/preview/mmwrhtml/rr5217a1.htm Table 1, attached to and incorporated by this reference to this policy.

All PCC students enrolled in a health care or child care program, including dental hygiene, with requirements for practical experience of field training may have to pass a Criminal History Check (CHC) and Drug Screen as a condition of their acceptance into a medical or other facility for training.

Students who do not pass the CHC and drug screen may not be eligible to complete training at affiliated practicum sites, to sit for licensing or certification exams, obtain state licensure, or be hired for some professional positions. If you believe that your past history may interfere with your ability to complete the program of study or to obtaining licensure, or certification in your chosen field, you should contact the appropriate state board or program director.

Computer skills: Students must have acquired basic computer skills in word processing and the Internet. It is recommended that this preparation be taken prior to entry. The Dental Hygiene program requires one course of nutrition, communications, sociology and psychology.

Applications are accepted each year from January 1 to April 15 only. Twenty students and twelve alternates will be selected based upon specific admissions criteria. Further information can be obtained from the Dental Sciences Department or the Health Admissions Office:

Health Admissions Office
Sylvania Campus, Building CC, Room 208
Portland Community College
P.O. Box 19000
Portland, Oregon 97280-0990

DEGREES AND CERTIFICATES OFFERED
ASSOCIATE OF APPLIED SCIENCE DEGREE
Dental Laboratory Technology
TWO-YEAR CERTIFICATE
Dental Laboratory Technology

ADMISSION PREREQUISITES

Academic Prerequisites
- GED, high school graduation or minimum college GPA of 2.0. (Proof of completion/graduation/college transcript must be submitted in your application).
- Completion of RD 90 or IRW 90 with a C or better or equivalent placement test score.
- Placement into MTH 20.
- This is a limited entry program with restricted enrollment.

Other Prerequisites
- Satisfactory performance of wax carving tests (prerequisite).
- Students must show evidence of having begun or completed the immunization series for Hepatitis B.

PROGRAM REQUIREMENTS

Academic Requirements
- None
Other Requirements
- None
DENTAL LABORATORY TECHNOLOGY AAS DEGREE

Minimum 91 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the courses in the program of study indicated with a § symbol. Students should consult with program advisors for course planning.

COURSE OF STUDY

The coursework listed below is required. The following is an example of a term-by-term breakdown.

First Term

DT 101 § Dental Technology Lab I 6
DT 120 § Dental Anatomy 2
DT 141 Denture Techniques I 2
DT 151 Science of Dental Materials I 2

Second Term

DT 102 § Dental Technology Lab II 6
DT 142 Denture Techniques II 2
DT 152 Science of Dental Materials II 3
HE 125 First Aid & Industrial Safety 3
General Education 4

Third Term

DT 103 § Dental Technology Lab III 6
DT 271 § Partials, Immediate, and Overdentures 2
Any COMM course on General Education list 4
DT Degree Electives 4

Fourth Term

DT 204 § Dental Technology Lab IV 6
DT 253 § Science of Dental Materials III 2
DT 270 § Inlay Casting, Crown and Bridge 3
DT 275 § Dental Laboratory Management 2

Fifth Term

DT 205 § Dental Technology Lab V 6
DT 254 § Science of Dental Materials IV 2
DT 272 § Dental Ceramics 3
DT 276 § Dental Laboratory Management Lab 1
General Education 4

Sixth Term

DT 206A § Dental Technology Lab VI (Fabrication Ortho Appliances) 3
DT 206B § Dental Technology Lab VII (CAD/CAM and Implant Restorations) 3
DT 284 Dental Specialties 2
DT 286 § DT Registered Graduate Preparation 2
DT 287 § Introduction to CAD/CAM Technology and Dental Implant System 2
General Education 4

Total Credits: 91

§ Course cannot be substituted for another course.

DENTAL LABORATORY TECHNOLOGY TWO-YEAR CERTIFICATE

Minimum 75 credits. Students must meet all certificate requirements.

COURSE OF STUDY

The coursework listed below is required. The following is an example of a term-by-term breakdown.

DIESEL SERVICE TECHNOLOGY

Rock Creek Campus
Building 2, Room 117 - Shop
Building 2, Room 230 - Office
971-722-7488 or 971-722-7331
CAREER AND PROGRAM DESCRIPTION
The diesel service technician repairs and maintains diesel powered trucks and equipment and their support systems.

The program is designed to prepare students for entry-level positions in diesel service technology. Training is varied to give students a broad understanding and background in the different phases of the diesel service industry. Students have additional cost for tools and books.

DEGREES AND CERTIFICATES OFFERED
ASSOCIATE OF APPLIED SCIENCE DEGREE
Diesel Service Technology

TWO-YEAR CERTIFICATE
Diesel Service Technology

LESS THAN ONE-YEAR CERTIFICATE
Diesel Service Technology

ADMISSION PREREQUISITES
Academic Prerequisites
For the Degree program:
- Completion of RD 80 or higher or equivalent placement test score.
- Completion of MTH 20 or higher or equivalent placement test score or successful completion of the diesel service technology math entrance exam.

For the Certificate program:
- Completion of RD 80 or higher or equivalent placement test score.
- Completion of MTH 20 or higher or equivalent placement test score or successful completion of the Diesel Service Technology Math Entrance Exam.

Other Prerequisites
- None

PROGRAM REQUIREMENTS
Academic Requirements
- Students must complete every DS course with a grade of "C" or "P" or higher to receive credit for that course towards a DS degree or certificate.

Other Requirements
- ASE (Automotive Service Excellence) student certification testing is required upon completion of core classes for the degree and certificate.

DIESEL SERVICE TECHNOLOGY AAS DEGREE
Minimum 96 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Math/computation competency is met through the math course(s) required in the program of study. Students should consult with program advisors for course planning.

### Early Childhood Education

**Sylvania Campus**  
Social Sciences (SS), Room 201  
971-722-4707  
pcc.edu/programs/early-ed/

#### Career Program and Description

As a nationally accredited program, the Early Childhood Education (ECE) program prepares teachers and home care providers of young children, ages birth through five, to plan environments, develop suitable learning experiences, and work closely with families in childhood care and education contexts. They also supervise play and physical needs of small children, organize daily activities, keep records of children’s progress, and confer with parents. Early education graduates may also work in related fields such as child care resource and referral.

The ECE coursework is designed to meet the needs of the working student. All coursework for the Certificate and 85% of coursework for the AAS degree can be completed through a combination of courses offered online, in the evening, and on Saturdays.

Portland Community College’s early education articulation agreement with Portland State University allows for up to 100% of transfer credits toward PSU’s child and family studies degree or degree completion program.

#### Degrees and Certificates Offered

**Associate of Applied Science**  
Early Childhood Education

**Less Than One-Year: Career Pathway Certificate**  
Childcare Aide  
Early Childhood Education

#### Admission Prerequisites

**Academic Prerequisites**

- Placement into WR 115 or IRW 115 for the certificates.
- MTH 20 is recommended for Environments (ECE 122I).

**Other Prerequisites**

- An initial advising/information session with an Early Childhood Education Program faculty advisor. Info session schedule available at the Child and Family Studies Office.

**Program Requirements**

**Academic Requirements**

- All ECE and HEC courses for a grade of “C” or “P” or better.
- Students may retake classes in order to meet the grade requirement with the exception of ECE 130A, ECE 130B, ECE 130C, ECE 131A, ECE 131B, ECE 133, ECE 134, and ECE 135. These classes may be re-enrolled in only once after a student receives a grade less than “C”. SAC approval is required for any student desiring to attempt any ECE course for the third time.
- Admittance to practicum is based on previously completed coursework, availability, and department permission. To be considered for practicum, students must:  
  a. Be enrolled in the State of Oregon Office of Child Care, Central Background Registry;  
  b. Submit verification of measles immunization.  
  c. Submit verification of negative TB Skin Test within the last year;  
  d. Possess a current Oregon Food Handlers Certificate.

**Note**: costs associated with required practicum documentation are the sole responsibility of the student.

**Other Requirements**

- Criminal Background Check
- All PCC students enrolled in a health care or child care program, including Early Childhood Education with requirements for practical experience of field training may have to pass a Criminal History Check (CHC) as a condition of their acceptance into a medical or other facility for training.
- Students who do not pass the CHC will be unable to complete some course requirements and will be ineligible to participate
in training at affiliated practicum sites, to sit for licensure or certification exams, or be hired for some professional positions. If you believe that your past history may interfere with your ability to complete the program of study or to obtaining licensure, or certification in your chosen field, you should contact the appropriate state board or program director.

- The Early Childhood Education program is planned as a career ladder to accommodate the part-time as well as the full-time student. An Early Childhood Education certificate provides entry level child care skills and meets the minimum requirements for a child care teacher in an Oregon licensed child care facility. The Associate of Applied Science degree qualifies a student to become a head teacher in a child care facility licensed by the State of Oregon Office of Child Care. The National Association for the Education of Young Children's (NAEYC) minimum suggested training for teachers in early childhood programs is also an AAS degree in ECE. All required courses for the certificate apply to the AAS degree.

- Certificate classes may apply toward a CDA credential. CDA and Oregon Registry credentials may articulate into certificate level coursework.

**EARLY CHILDHOOD EDUCATION AAS DEGREE**

Minimum 90 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

### DESCRIPTION

Economics is the study of how societies allocate their scarce resources. It examines individual and social action related to the use of limited resources toward the production, distribution, and consumption of goods and services. Economics students may complete two-year education programs, as well as transfer to four-year colleges and universities. Students may advance toward careers in both public and private sectors, and will actively engage in a wide range of economic, social and political processes.
Courses at PCC introduce students to economics and prepare students for transfer into upper division courses. The transfer sequence consists of EC 201 and EC 202. Students are recommended to take EC 201 first. PCC also offers other economics courses, see the course section for individual courses and course prerequisites.

CAREER AND PROGRAM DESCRIPTION

PCC’s Education Department offers a Paraeducator Degree and Certificate, in addition to Teacher Relicensing and Elementary Education Transfer courses. These programs are designed to prepare students who wish to work in a variety of educational settings.

The Paraeducator degree and certificate are designed for those who would like to work as Instructional Assistants in educational settings. They prepare students to resolve everyday challenges and to professionally support teachers in planning, presenting and evaluating instruction and learning. The Paraeducator’s responsibilities include assisting small group instruction in reading, math, English Language development, assisting individual students in the above academic areas and self-help skills, daily living skills, following behavior programs as directed by the teacher, and preparing and assembling materials. The particular responsibilities assigned to a Paraeducator (instructional assistant) depend on the program and personnel in each school. Employment opportunities exist in Portland and in surrounding areas as a result of the present legislative support for equal education for students with special needs. The program is designed for persons of all ages, races, cultures, and economic backgrounds. The program values and encourages diversity in the field of education. This is an Oregon Department of Education approved statewide program that meets the requirements of No Child Left Behind for “highly qualified” status.

Education courses may also be applied to the 90 credits required for an Associate of General Studies Degree. See a program advisor for information about transferring to a four-year institution. Many classes will be available via distance learning during the year. Please refer to the quarterly schedule or contact education faculty for details.

Students wishing to transfer into Teacher Education programs may wish to pursue an Associate of Arts Oregon Transfer Degree, transferrable to four-year public universities and colleges in Oregon. They are allowed to take up to 12 credits from the Education Department as general electives. ED 224 is recognized as transferable to teacher education programs statewide. Students should check with the institution to which they will be transferring regarding the transferability of other Education Department courses. Students will be expected to meet the same prerequisite in writing and be in good academic standing. Contact an Education Department advisor for more information.

Teacher relicensing candidates may use PCC education courses to meet state requirements. Education courses numbered 101 or higher may generally be used for relicensing. Contact Oregon Teacher Standards and Practices Commission at 503-378-3586 or www.oregon.gov/tpscc for specific requirements. Interested students should also contact an Education Department advisor. See Course Description (ED prefix) section for a complete listing of ED courses.

PCC’s Education Department works in conjunction with Northwest Regional Educational Service District (NWRESD) and Multnomah Educational Service District (MESD) Outdoor School to offer students the opportunity to gain experience while working with sixth grade students in an outdoor school setting. For more information contact the Education Department or the NWRESD or MESD Outdoor School Departments.

The Library Assistant certificate has been suspended for the 2016-2017 academic year. All Library Assistant courses will be offered during the 2016-2017 academic year for students already enrolled in the program so that they may complete their certificate. For more information or availability of individual courses please contact the Education department.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Paraeducator

ONE-YEAR CERTIFICATE

Paraeducator

ADMISSION PREREQUISITES

Academic Prerequisites

• Students are required to demonstrate competencies in writing, reading, mathematics and computer literacy (students must complete CAS 121 and CAS 133 or pass the competency).
• Admission to the paraeducator program requires an interview and application. Please contact an education advisor to pick up application materials and to set an appointment for the initial interview. When completing the application process, please bring photocopies of transcripts and the completed application form to the education department for review.

Other Prerequisites

• None

PROGRAM REQUIREMENTS

Academic Requirements

• Check individual courses for prerequisite or basic competencies required. Many courses require placement test scores high enough to qualify students for enrollment in WR 121 and/or MTH 65.
• Students may enter the program at any point during the year. It is recommended that paraeducator degree and certificate students take ED 100 near the start of their studies and take ED 263 as a capstone course at the end.
• Students should be mindful that they must meet the math competency requirement in order to earn the degree.

Other Requirements

• Students may have to be fingerprinted and submit a criminal background check prior to practicum experiences in public schools.

PARAEDUCATOR AAS DEGREE

Minimum 90 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

ELECTRICAL TRADES
See Apprenticeship (p. 34)

ELECTRONIC ENGINEERING TECHNOLOGY
Sylvania Campus
Science Technology Building (ST), Room 200
971-722-4159
pcc.edu/programs/electronic-engineering

CAREER AND PROGRAM DESCRIPTION
Electronic Engineering Technology (EET) is concerned with the theory and practice of applied electronics engineering. Emphasis is placed on the practical application of engineering knowledge. To apply electronics engineering knowledge requires a thorough background in mathematics and science. EET graduates possess a combination...
of theoretical and practical understanding and require minimal on-the-job training to become productive.

Graduates of an Associate of Applied Science Degree program in EET are called electronic engineering technicians and find employment in circuits and systems testing, product development, prototype construction and testing, circuit and systems medication, systems operation and manufacturing. EET graduates are expected to have good communication skills and be capable of creative problem solving, working independently and in teams. They should have extensive knowledge of both the hardware and software of electronic systems.

Employers of EET engineering technicians include research and development laboratories, electronic equipment manufacturers, public utilities, colleges and universities, government agencies, medical laboratories and hospitals, electronic equipment distributors, semiconductor manufacturers and manufacturing and processing industries that use electronic control equipment and others.

Students can complete the EET degree and/or the EET options in Biomedical Engineering Technology, Wireless and Data Communications, Renewable Energy Systems, and Mechatronics/Automation/Robotics Engineering Technology. The EET department also offers two certificates - Renewable Energy Systems and Electronics Engineering Technology.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Electronic Engineering Technology

Electronic Engineering Technology: Biomedical Engineering Technology Option

Electronic Engineering Technology: Mechatronics/Automation/Robotics Engineering Technology Option

Electronic Engineering Technology: Renewable Energy Systems Option

Electronic Engineering Technology: Wireless and Data Communications Engineering Technology Option

ONE-YEAR CERTIFICATE

Electronic Engineering Technology

LESS THAN ONE-YEAR: CAREER PATHWAY

CERTIFICATE

Renewable Energy Systems

ADMISSION PREREQUISITES

Academic Prerequisites

• Basic computer skills in the Windows operating system, word processing and spreadsheets are required. Prerequisites and requirements vary depending upon the degree or certificate.

• Electronic Engineering Technology AAS Degree
  a. Completion of WR 121
  b. Placement into MTH 111 or higher

• Biomedical Engineering Technology AAS Degree
  a. Completion of WR 121
  b. Placement into MTH 111 or higher
  c. Completion of any medical terminology course 3 credits or higher.
  d. Completion of (BI 121 and BI 122) or (BI 231, BI 232, BI 233)

• Mechatronics/Automation/Robotic Engineering Technology AAS degree
  1. Completion of WR 121
  2. Placement into MTH 111 or higher
  3. Completion of CS 161

• Renewable Energy Systems AAS Degree

1. Completion of WR 121
2. Placement into MTH 111 or higher

• Wireless and Data Communications Engineering Technology AAS Degree
  1. Completion of WR 121
  2. Placement into MTH 111 or higher

• Electronic Engineering Technology Certificate
  1. Completion of WR 121
  2. Placement into MTH 111 or higher

• Renewable Energy Systems Certificate
  1. Completion of WR 121
  2. Placement into MTH 111 or higher

Other Prerequisites

• All students must have an advising interview with an EET advisor.

• Job-upgrade students: students who want to upgrade their job skills must meet individual course prerequisites and complete an advising interview with an EET advisor prior to enrollment. Admission is granted on a space available basis after the needs of the degree/certificate seeking full-time and part-time students are met.

PROGRAM REQUIREMENTS

Academic Requirements

• None

Other Requirements

• Full-time and part-time EET students: A day program starts in the fall and a late afternoon/evening program starts in the winter.

• Students can transfer classes from the EET degree into any BSEET. Please check with the department for courses which transfer to Oregon Institute of Technology’s BSEET degree.

ASSOCIATE OF APPLIED SCIENCE DEGREE

Electronic Engineering Technology (p. 88)

Electronic Engineering Technology: Biomedical Engineering Technology Option (p. 89)

Electronic Engineering Technology: Mechatronics/Automation/Robotics Engineering Technology Option (p. 89)

Electronic Engineering Technology: Renewable Energy Systems Option (p. 90)

Electronic Engineering Technology: Wireless and Data Communications Engineering Technology Option (p. 90)

ELECTRONIC ENGINEERING TECHNOLOGY AAS DEGREE

Minimum 96 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the math course(s) required in the program of study. Students should consult with program advisors for course planning.

COURSE OF STUDY

The coursework listed below is required. The following is an example of a term-by-term breakdown.

First Term | Credits
--- | ---
EET 101 | Introduction to Electronic Testing 1
 | Equipment/Soldering/Tools
EET 111 | Electrical Circuit Analysis I 5
EET 121 | Digital Systems I 4
EET 188 | Industrial Safety 1
MTH 111  
Second Term
EET 112  Electrical Circuit Analysis II 5
EET 122  Digital Systems 2: Computing Systems 5
MTH 112  Elementary Functions 5
General Education: Social Science 3

Third Term
EET 113  Electrical Power 5
EET 123  Digital Systems 3: Mixed-Signal Systems 5
EET 178  Computing Environments for Technicians 5
General Ed: Arts & Letters 3

Fourth Term
EET 221  Semiconductor Devices and Circuits 5
EET 242  Microcontroller and Embedded Systems 4
PHY 201  General Physics 4
General Ed: Arts & Letters 3

Fifth Term
EET 222  Operational Amplifier Circuits 5
EET 241  Programming for Electronics 4
EET 260  Biomedical Equipment I 4

Sixth Term
CIS 179  Data Communication Concepts I 4
EET 241  Programming for Electronics 4
PHY 211  General Physics 4

Total Credits: 96

* Could be used as General Education
1 OSHA industrial safety training can be substituted
2 Or EET 241 - Programming for Electronics
3 PHY 212 may be substituted
4 PHY 213 may be substituted

Recommended General Education (p. 91)

MECHATRONICS/AUTOMATION/ROBOTICS ENGINEERING TECHNOLOGY AAS DEGREE
Minimum 107 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the math course(s) required in the program of study. Students should consult with program advisors for course planning.

COURSE OF STUDY
The coursework listed below is required. The following is an example of a term-by-term breakdown.

First Term
EET 101  Introduction to Electronic Testing Equipment/Soldering/Tools 1
EET 111  Electrical Circuit Analysis I 5
EET 121  Digital Systems 1 4
MTH 111  College Algebra 5
General Education 3
TOTAL CREDITS: 17

Second Term
EET 112  Electrical Circuit Analysis II 5
EET 122  Digital Systems 2: Computing Systems 5
EET 188  Industrial Safety 1
MTH 112  Elementary Functions 5
TOTAL CREDITS: 16

Recommended General Education (p. 91)
### RENEWABLE ENERGY SYSTEMS AAS DEGREE

Minimum 107 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the math course(s) required in the program of study. Students should consult with program advisors for course planning.

- SOC 213 Diversity in the United States 4
- WR 222 Writing Research Papers 4

ONE-YEAR CERTIFICATE

Electronic Engineering Technology (p. 91)

**LESS THAN ONE-YEAR: CAREER PATHWAY CERTIFICATE**

Renewable Energy Systems (p. 92)

**ELECTRONIC ENGINEERING TECHNOLOGY ONE-YEAR CERTIFICATE**

Minimum 54 credits. Students must meet all certificate requirements.

COURSE OF STUDY

The coursework listed below is required. The following is an example of a term-by-term breakdown.

**Summer Term**
- WR 121§ English Composition 4
- Related Instruction Human Relations Electives§ 4

**First Term**
- EET 101 Introduction to Electronic Testing Equipment/Soldering/Tools 1
- EET 111 Electrical Circuit Analysis I 5
- EET 121 Digital Systems 1 4
- MTH 111 College Algebra 5

**Second Term**
- EET 112 Electrical Circuit Analysis II 5
- EET 122 Digital Systems 2: Computing Systems 5
- MTH 112 Elementary Functions 5

**Third Term**
- EET 113 Electrical Power 5
- EET 123 Digital Systems 3: Mixed-Signal Systems 5
- EET 178 Computing Environments for Technicians 5

**Fourth Term**
- CIS 179 Data Communication Concepts I 4
- EET 221 Semiconductor Devices and Circuits 5
- EET 242 Microcontroller and Embedded Systems 4
- General Ed: Arts & Letters 3

**Fifth Term**
- EET 188 Industrial Safety 1

Total Credits: 54

* Could be used for General Education
§ Course cannot be substituted with another course.
† OSHA industrial training can be substituted

</table>

Total Credits: 44

1 OSHA industrial safety training can be substituted.
2 REE 201 at OIT can substitute for EET 110.
3 EET students are exempted from satisfying catalog prerequisites for this course. To register for ELT 125, students must 1) successfully complete EET 111; and 2) obtain ELT/Apprenticeship department advisor approval.

RENEWABLE ENERGY SYSTEMS PROGRAM ELECTIVES

Wind Power: 2
- EET 179  Fuel Cell Systems 3
- EET 269  3

Solar Manufacturing:
- MT 101  Introduction to Semiconductor Manufacturing 1
- MT 102  Introduction to Semiconductor Devices 1
- MT 104  Introduction to Solar Voltaic Processing 1

2 RET 122 of CGCC can be used as an elective

CERTIFICATE PROGRAMS

PORTLAND COMMUNITY COLLEGE 2017-18

CAREER AND PROGRAM DESCRIPTION

Emergency Managers are expected to have a broad range of knowledge as they face the varied threats to our modern society and our personal safety. Today’s threats include natural disasters, technological threats and terrorism in its many forms. Expertise in emergency management is needed at every level of government and in the private sector. This broad range of knowledge comes from education and on the job experiences. Emergency Managers must have a knowledge base of hazards, disasters, planning, science, history, research methods, communications and management. The profession requires diverse skills including a focused education in the areas of history of hazards and mitigation, emergency planning, disaster and recovery operations, technology and effective critical thinking, communications, problem solving and leadership. On the job, an Emergency Manager is responsible for coordinating disaster response or crisis management activities. They must provide disaster preparedness training, create and design emergency plans and procedures and direct emergency response operations.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Emergency Management

ONE- YEAR CERTIFICATE

Emergency Management

ADMISSION PREREQUISITES

Academic Prerequisites
- Students must pass all prerequisites courses with a “C” or “P” or better in order to enroll in any EM courses with a “200” or higher designator.
- Students are required to fill out a department application form and meet with a program advisor prior to registering for any “200” level EM course.

Other Prerequisites
- None

PROGRAM REQUIREMENTS

Academic Requirements
- None

Other Requirements
- None

EMERGENCY MANAGEMENT AAS DEGREE

Minimum 97 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

CAREER AND PROGRAM DESCRIPTION

The Emergency Medical Services Department offers career training for entry-level positions in emergency medical settings. Ambulance companies, fire departments, police departments, and various other industries requiring emergency medical services may employ EMS Providers. After successful completion of all requirements for EMT, AEMT, or Paramedic training, the student is eligible to apply to take the respective state licensure exams.

The Emergency Medical Services (EMS) Department trains and educates EMS professionals to excel in meeting the needs of the community. EMS Providers respond to medical emergencies by providing immediate care and transportation to the ill and injured. This department combines classroom lectures, hands-on skills labs and appropriate cooperative clinical and field experience to provide students with cognitive, psychomotor, and affective competence to function as effective EMS providers.

The Portland Community College Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP).

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE
Emergency Medical Technician-Paramedic

ONE-YEAR CERTIFICATE
Emergency Medical Services

LESS THAN ONE-YEAR CERTIFICATE
Advanced Emergency Medical Technician

LESS THAN ONE-YEAR CERTIFICATE: CAREER PATHWAY
Emergency Medical Services

ADMISSION PREREQUISITES

Academic Prerequisites
- Placement test scores within the last three years or transcript with course completion. Placement into WR 121 or completion of WR 115 or IRW 115 with a grade of C or better. Placement into MTH 58 or MTH 60, or completion of MTH 20 with a grade of C or better. Placement into RD 115 or IRW 115 or completion of RD 90 or IRW 90 with a grade of C or better.
- Must have completed high school or GED.
- Applicants for EMS courses must meet all prerequisites prior to registration into EMS courses.
- Submit photocopies of transcripts, immunization documentation and completed application to the EMS Department for review. Contact department office for instructions. Incomplete applications will not be accepted. Applicants for the paramedic level must complete a departmental selection process.

Other Prerequisites
- Must be a minimum of 18 years of age.
- Must have documented results of: TB exam (within 6 months), MMR (measles, mumps, and rubella immunity) if born after 12-31-56, Tdap (within past 10 years), Hepatitis B immunization series started, Varicella (chicken pox immunity), influenza (one dose each year for students needing clinical placement).
- AHA Healthcare Provider BLS (CPR) or ASHI CPR-Pro card current through certification/licensure testing.

PROGRAM REQUIREMENTS

Academic Requirements
- Attendance of the first session of each course is mandatory. Students missing the first class will be dropped from the roster by the department.

Other Requirements
- Satisfactory Criminal History Background check and drug screening will be mandatory to qualify for clinical rotations and state licensure. The cost for Criminal History Background check and drug screening is the responsibility of the applicant/student.
- Applicants should be aware that the following questions are asked on the National Registry EMT and/or the Oregon EMT Application:
  1. Do you or have you had within the past 10 years, any physical or mental condition that impairs, could impair, or has impaired your ability to perform the duties of an EMS Provider? If you answer yes, explain whether your condition is controlled by medication or other treatment and how your condition treated or untreated, affects your ability to perform the duties of an EMS Provider.
  2. Do you or have you used in the last 10 years, any drug or chemical substance for other than legitimate medical purposes that impairs or has impaired your ability to perform the duties of an EMS Provider?
  3. Have you been counseled about, diagnosed with, or treated for, a dependency on alcohol or drugs within the last 10 years?
  4. Have you ever been arrested, charged with, or convicted of any misdemeanor or felony? (Minor traffic violations need not be reported.)
  5. Has an employer or supervising physician taken disciplinary action against you related to your duties as an EMS Provider? (Discipline includes suspension, letter of reprimand, resignation in lieu of termination, a limitation or restriction of scope of practice or dismissal for cause.)
  6. Have you been named in a lawsuit alleging medical malpractice or misconduct related to providing medical care?
  7. Have you ever been disciplined, denied or revoked by the National Registry of EMTs or any health care certifying/licensing agency?
  8. Have you ever surrendered or resigned a health care license or certificate?
  9. Have you lived, worked or attended school outside of Oregon for 60 or more consecutive days in the last 5 years?

EMERGENCY MEDICAL TECHNICIAN-PARAMEDIC AAS DEGREE

Minimum 106 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the math course(s) required in the program of study. Students should consult with program advisors for course planning.

EMLOYMENT SKILLS TRAINING

CAREER AND PROGRAM DESCRIPTION
This is an individualized certificate program designed to provide maximum flexibility for short-term educational opportunities targeted at specific occupational goals. The purpose of this program is to enable individuals to obtain employment, upgrade current workplace skills, maintain employment, and increase employability. A minimum of 12 credits and a maximum of 44 and must be completed within 2 years.

LESS THAN ONE-YEAR CERTIFICATE
Employment Skills Training

PREREQUISITES AND REQUIREMENTS

ADMISSION PREREQUISITES
Academic Prerequisites

- All PCC college-level courses are eligible to be included in the certificate. Developmental or basic education courses may not be included as part of the certificate.

Other Prerequisites

- An interview with an advisor or a faculty member in the career technical department is required to determine the individual’s career goals as they relate to employability and coursework.
- Submission of an Employment Skills Training (EST) application is required and follows the interview with faculty.
- “Next steps” for continuing the educational process will be discussed and reviewed by the student, the faculty advisor, and possibly the employer.

PROGRAM REQUIREMENTS

Academic Requirements

- Prerequisite requirements for each employment skills training certificate are determined by the career technical department.

Other Requirements

- None

ENGINEERING

Sylvania Campus
Science Technology Building (ST), Room 208
971-722-4159

pcc.edu/programs/engineering-transfer

CAREER AND PROGRAM DESCRIPTION

Engineering is a profession in which knowledge of mathematics and the sciences, gained through study and experience, is applied for the benefit of society. Engineers solve technical problems as members of project teams or as individual specialists. Work may involve research, development, planning, design, construction, manufacturing, supervision and management. Engineering is a licensed profession in all states.

PCC offers curricula equivalent to the first two years of study for most engineering disciplines at Oregon State University (OSU), Portland State University (PSU), the University of Portland (UP), Washington State University-Vancouver (WSUV) and Oregon Institute of Technology (OIT). These engineering disciplines include: Chemical Engineering, Civil Engineering, Computer Engineering, Construction Engineering Management, Electrical Engineering, Environmental Engineering, Industrial Engineering, Manufacturing Engineering, Mechanical Engineering and Renewable Energy Engineering.

Equivalent first and second year courses are also available for students interested in other majors or universities. (Note: not all majors listed are available at all the institutions listed.)

Advising guides outlining which engineering, mathematics, science and general education courses to take for the disciplines listed above have been prepared in cooperation with OSU, PSU, and OIT. Following these advising guides will prepare students to transfer for their upper division studies. It is recommended that students prepare for transfer by selecting courses that meet lower division university requirements rather than by seeking a degree. Students interested in a degree should refer to the Comprehensive Degree Requirements (p. 12) section of this catalog for information concerning the granting of degrees.

ADMISSION PREREQUISITES

Academic Prerequisites

- All students must have an advising interview with an engineering faculty advisor.

- Students must place in WR 115 and MTH 251. High school courses in chemistry, physics and microcomputer literacy are highly recommended. Students lacking these courses are encouraged to take CH 151, PHY 101 and/or CIS 120 as appropriate, prior to beginning the program.

- Students lacking the necessary prerequisites may upgrade their skills by taking writing, mathematics, science and microcomputer literacy courses or by completing the first year of one of PCC’s two-year engineering technology programs (civil, electronic, or mechanical). See a program advisor for information. To arrange a meeting with an engineering advisor, call the Engineering department at 971-722-4159 or visit www.pcc.edu/programs/engineering-transfer/ for more information.

Other Prerequisites

- None

PROGRAM REQUIREMENTS

Academic Requirements

- None

Other Requirements

- The use of a scientific, programmable, graphing calculator is required for the program.

ENGLISH/LITERATURE

See the Course Description (p. 122) (ENG prefix) section of this catalog for individual Literature courses and course prerequisites.

971-722-4565

pcc.edu/prepare/esol/

PROGRAM DESCRIPTION

The ESOL Program offers classes for people whose native language is not English. Reading, writing, listening and speaking skills are taught together in Levels 1-3. Separate skill classes in reading, writing and communication are taught in levels 4-8. American culture is stressed in all 8 levels.

ESOL classes are open to adult immigrants and refugees (including U.S. citizens), and international students and visitors who want to improve their English language proficiency. Testing and orientation are required before entering the program.
ENGLISH LANGUAGE DEVELOPMENT

ESOL Levels 1 - 8 serve the needs of adult refugees and immigrants. ESOL (Levels 4-5) and Academic ESOL (Levels 6-8). After Academic ESOL, students are ready for RD 115 and WR 115, after which students become eligible to take most college transfer-level classes. ESOL Levels 1 - 8 serve the needs of adult refugees and immigrants. Levels 4 - 8 also serve the needs of professional personnel working or training in the U.S., international students and international visitors.

ESOL offers both credit and non-credit classes. Levels 1-3 are non-credit classes, Levels 4 and 5 can be taken either as non-credit or college credit classes. Only international students may choose the credit option for Level 4. The Level 5 credit option is for both international students and also for resident students. Levels 6-8 are credit classes.

Up to twenty-four credits of Level 7 and 8 ESOL courses may be applied to all PCC associate degrees. The cost of an ESOL class ranges from a moderate fee to full college tuition. Each class in Levels 1-3 is designed to take two or three terms to complete. Each class in Levels 4 - 8 is designed to be completed in one term. All new students must be tested prior to enrollment. If a student has been gone from the ESOL program for 1 year, then the student needs to retake the Compass ESL placement test before registering for any ESOL classes.

Students should contact the campus they want to attend to find out about testing. International students should first contact an international student advisor at 971-722-5670 (CA), 971-722-7150 (RC), or 971-722-8310 (SY).

ENVIRONMENTAL STUDIES

The overarching goal of the Environmental Studies (ESR) program at Portland Community College (PCC) is to prepare environmentally literate students who make informed, evidence-based decisions about the environmental issues affecting their communities. The fields of environmental studies and science are interdisciplinary, integrating the sciences with the study of human society, law and policy in order to address our most pressing environmental issues. The Environmental Studies program prepares students to pursue degrees in both environmental science and environmental studies. Environmental science is a field that integrates biological and physical science and uses scientific practices to investigate environmental systems, problems and solutions. Environmental studies is a field that investigates coupled human-natural systems, requiring an understanding of environmental processes as well as social systems including law, policy, sociology, economics, planning and natural resource management.

The ESR program offers a variety of courses including sustainability courses (ESR 140 and ESR 141), general education lab science courses for non-majors (ESR 171, ESR 172, and ESR 173), and a sequence of courses for students planning to major in either environmental science or environmental studies (ESR 150, ESR 200 (formerly 160), ESR 201 and ESR 202). PCC students have the option of pursuing the Associate of Arts Oregon Transfer (AAOT) or the Associate of Science Transfer (AS) degree to complete courses in preparation for a bachelor’s degree in environmental studies or environmental science (if transferred to a four-year program at a college or university). For students planning to major in environmental science, the AS will provide more flexibility than the AAOT, and allows students to complete both their Associate degree and the required lower-division courses for the major.

Students must check the specific requirements of the major and bachelor’s program to which they intend to transfer; please review the transfer guides for environmental studies and environmental science: http://www.pcc.edu/programs/university-transfer/transfer-schools/

For students intending to transfer to Portland State University to major in Environmental Studies or Environmental Science, the following course sequence is recommended: ESR 150 and ESR 200 (first fall or winter term), ESR 202 (first or second winter term) and ESR 201 (second fall term). Currently, these majors courses are offered only at the Rock Creek Campus. For information regarding the Environmental Studies major transfer program, please contact the Environmental Studies office at Rock Creek at 971-722-7257.
# Programs & Disciplines

FIRE PROTECTION TECHNOLOGY

Cascade Campus
Public Services Education Building (PSEB), Room 132
971-722-5582
971-722-5535 (Fax)
pcc.edu/programs/fire-protection

CAREER AND PROGRAM DESCRIPTION

Those enrolled in the Fire Protection Technology Program are preparing for occupations or advancement in fire suppression, investigation, prevention, public safety education, emergency management, emergency medical and rescue services, hazardous materials technology, wildland fire fighting, college transfer and other educational programs.

The PCC program is designed to correlate classroom, laboratory and field experience in public and private sector structural and wildland fire organizations. The program that follows is designed for both students who wish to enter the fire service (pre-service) and professional fire fighters who wish to obtain an AAS degree, or meet specific Oregon Department of Public Safety Standards and Training accreditation requirements, or meet entry requirements for BA/BS programs in fire administration at Eastern Oregon University.

The AAS Degree includes technical core courses required to provide a broad in-depth study of the science and technical aspects, organizational structures, and policies and procedures related to the fire service. Leadership, human resource management, cultural diversity and customer service are stressed as part of the contemporary fire service officer education and training program.

In addition to technical core courses, 16 credits of general study courses that are focused on written and verbal communications, human behavior and ethics are part of the degree core requirements and another 16 credits of general education courses are required as part of the comprehensive AAS Degree requirements. Math and Writing courses are also required to meet college competency requirements and fire officer standards. The AAS Degree in Fire Protection Technology will help individuals prepare to become leaders in the fire service and in the communities that they live and work in. Completion of the AAS Degree also prepares the individual to continue their education at the Bachelor Degree level in Fire Service Administration.

The Fire Protection Technology Certificate is a 44-credit pre-employment certificate designed to meet specific entry-level fire service certification requirements including Fire Fighter 1 & 2, Hazardous Materials First Responder Awareness and Operations, Wildland Interface Fire Fighter 2 and Emergency Medical Technician.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Fire Protection Technology

LESS THAN ONE-YEAR: CAREER PATHWAY CERTIFICATE

Fire Protection Technology

ADMISSION PREREQUISITES

Academic Prerequisites

- Students interested in the Fire Protection Pre-Employment Certificate program must take FP 101 as part of the prerequisites to enter the Fire Academy Part I and Part II program. Attendance at the first Fire Academy class is mandatory. No Exceptions. Students who miss the first class will be dropped from the roster by the department. In addition, students must be enrolled in both FP 111, Fire Academy Part I and FP 112, Fire Academy Part II.
- Students should have completed MTH 20, IRW 90 or (RD 80 and WR 90) or tested into higher level course work before starting the certificate program.
- Students entering the Fire Protection Technology AAS degree program need to have completed the Fire Protection Pre-Employment Certificate at PCC or have equivalent training and certification through a local fire agency and have met course prerequisite requirements of WR 115 or IRW 115 and MTH 60. The AAS in Fire Protection Technology is designed to meet specific fire service certification requirements including Emergency Service Instructor I, Fire Officer I, and Fire Officer II.

Other Prerequisites

- Students intending to enroll in the Fire Academy Part I and Part II will be required to have a physician’s release to use equipment designed to protect the respiratory system from the products of combustion and hazardous chemicals. It is recommended that students acquire a physician's release prior to committing to the program. This equipment includes, but is not limited to: self-contained breathing apparatus (SCBA), respirators and filter mask.
- Due to the unique responsibilities involved in the practical application of fire protection and emergency response during lab periods and cooperative education assignments, the Fire Protection Technology Department reserves the right to counsel and guide students who demonstrate unsuitable characteristics (unsafe or unethical behavior, or physical inability to perform standard job duties) into another area of study.
- Students with a health, physical or psychological problem that may affect or be affected by the use of protective breathing equipment should contact the department prior to entering the program.

PROGRAM REQUIREMENTS

Academic Requirements
- None

Other Requirements
- Criminal history background checks will be mandatory. Satisfactory background checks are needed to qualify for cooperative education and state certification as a fire fighter and EMT Basic. The cost for the criminal history background check is the responsibility of the student.
- Fire Protection Technology students should be aware that the following questions are asked on the National Registry EMT and/or the Oregon EMT Application:
  a. Do you or have you had within the past 10 years, any physical or mental condition that impairs, could impair, or has impaired your ability to perform the duties of an EMT? If you
answer yes, explain whether your condition is controlled by medication or other treatment and how your condition treated or untreated, affects your ability to perform the duties of an EMT.

b. Do you or have you used in the last 10 years, any drug or chemical substance for other than legitimate medical purposes that impairs or has impaired your ability to perform the duties of an EMT?

c. Have you been counseled about, diagnosed with, or treated for, a dependency on alcohol or drugs within the last 10 years?

d. Have you ever been arrested, charged with, or convicted of any misdemeanor or felony? (Minor traffic violations need not be reported.)

e. Has an employer or supervising physician taken disciplinary action against you related to your duties as an EMT? (Discipline includes suspension, letter or reprimand, resignation in lieu of termination, a limitation or restriction of scope of practice or dismissal for cause.)

f. Have you been named in a lawsuit alleging medical malpractice or misconduct related to providing medical care?

g. Have you ever been disciplined, denied or revoked by the National Registry of EMTs or any health care certifying/licensing agency?

h. Have you ever surrendered or resigned a health care license or certificate?

i. Have you lived, worked or attended school outside of Oregon for 60 or more consecutive days in the last 5 years?

FIRE PROTECTION TECHNOLOGY AAS DEGREE

Minimum 100 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. A maximum of 24 Pass/No Pass credits are allowed in the Fire Protection Technology AAS Degree. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

FITNESS TECHNOLOGY

Sylvania Campus
Health Technology Building (HT), Room 215
971-722-4210
pcc.edu/programs/fittech
CAREER AND PROGRAM DESCRIPTION
As a fitness professional you will be part of the preventive wellness team working in fitness clubs, wellness centers, public and private recreation facilities, personal training or sports studios, hospitals, senior living communities, or employee wellness programs. The fitness professional performs a variety of instructional and administrative tasks. Instructional tasks include developing and implementing safe and effective fitness programming, conducting fitness assessments, and instructing clients in appropriate sport, fitness, and wellness activities. Administrative duties may include business operations, marketing and health promotion, member retention, and sales. Portland Community College Fitness Technology graduates have a background in basic anatomy and physiology, applied kinesiology, exercise physiology, sports nutrition, fitness assessment and programming, as well as client motivation, behavior modification, and self promotion. The program is designed to correlate classroom and laboratory experience with practical experience in fitness facilities in the community. Students who successfully complete the program are prepared to take national personal trainer certifying examinations given by the American College of Sports Medicine (ACSM), the National Strength and Conditioning Association (NSCA) or the American Council on Exercise (ACE).

Portland Community College Fitness Technology graduates working in this field are known by a variety of titles, including but not limited to; personal trainer, exercise specialist, group exercise leader, fitness instructor, activity director, strength and conditioning trainer, and member services specialist. The Fitness Technology program currently has articulation agreements in place with Portland State University (PSU) and Concordia University (CU). For students who successfully complete the Fitness Technology AAS degree, these agreements open up the opportunity to transfer to PSU or CU with Junior status and complete a Bachelor's degree in exercise science or applied health & fitness.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE
Fitness Technology

LESS THAN ONE-YEAR: CAREER PATHWAY CERTIFICATE
Group Fitness Leader
Healthy Older Adult Fitness
Personal Trainer

ADMISSION PREREQUISITES
Academic Prerequisites
- High school diploma or equivalent.
- IRW 115 or (WR 115 and RD 115) and MTH 20 or equivalent placement test scores.

Other Prerequisites
- Attend a Fitness Technology information session. Check the Fitness Technology website for dates and times of the sessions.
- Application and acceptance to PCC as a credit-seeking student.
- Complete the online Fitness Technology program application. Check the Fitness Technology website for application deadlines and access to the application. All prerequisites must be completed prior to submitting the Fitness Technology program application.

PROGRAM REQUIREMENTS
Academic Requirements
- All courses for the Fitness Technology AAS and Career Pathway Certificates must be completed with a grade of "C" or "P" or better.
- A maximum of 9 of Pass/No Pass credits are allowed in the Fitness Technology Career Pathway Certificates.
- First year winter term courses for the AAS degree and the Personal Trainer Career Pathway Certificate require MTH 65 or higher and WR 121 with a "C" or "P" or better as prerequisites.

Other Requirements
- Transcripts with previous coursework must be evaluated by student records.
- Schedule and meet with the Fitness Technology Faculty Department Chair and the Academic Advisor prior to first term enrollment.
- Meet with the Fitness Technology Advisor once per term.
- Applicants with disabilities are encouraged to contact Disability Services 971-722-4341.

FITNESS TECHNOLOGY AAS DEGREE
Minimum 90 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

FOOD & NUTRITION

Rock Creek Campus
Building 5, Room 245  
971-722-7327  
Southeast Campus  
Student Commons (SCOM), Room 214  
971-722-6146  
Sylvania Campus  
Health Technology Building (HT), Room 305  
971-722-4225  
pcc.edu/programs/food-nutrition

**CAREER AND PROGRAM DESCRIPTION**

Foods and Nutrition includes the study of human metabolism, foods and other forms of nutrient delivery that support human health, factors that can affect nutrient availability, the food supply and human health behaviors. Critical inquiries are made into how food and nutrition are marketed and how nutrition recommendations are developed. At PCC, Foods and Nutrition offerings include 100-level courses: Personal Nutrition which emphasizes basic nutrition principals and personal health behaviors as well as an applied nutrition course Everyday Cooking; and a 200-level course: Nutrition tailored to students pursuing careers in the life sciences and allied health.

---

**FRENCH**

Sylvania Campus  
Communication Technology Building (CT), Room 219  
971-722-8008  
pcc.edu/programs/french

**DESCRIPTION**

All PCC French courses are taught using an immersion method. The objective of all French courses is to help students develop communicative competence and proficiency in comprehension, speaking, reading, and writing French as well as cultural awareness. Assessment is based on consistent attendance, active student participation, and written and oral assignments.

There are no requirements or prerequisites for entry into the first term of first year French. However, the student should read the French course descriptions for other French courses. Students who have studied a language before and are unsure of their placement are encouraged to consult with a world language teacher since they will not be admitted to a course if their skill level is too advanced for that course.

All students who enroll in world language classes (including those on the waiting list) are expected to attend class the first day when material essential for successful completion of the course will be presented. Students who do not attend the first class session may be replaced by those who do attend.

---

**GENERAL SCIENCE**

Cascade Campus  
Jackson Hall (JH), Room 210  
971-722-5209  
Rock Creek Campus  
Building 7, Room 202  
971-722-7500  
Southeast Campus  
Student Commons (SCOM), Room 214  
971-722-6146  
Sylvania Campus  
Science Technology Building (ST), Room 312  
971-722-4174  
pcc.edu/programs/general-science

**DESCRIPTION**

General science courses introduce students to their physical environment and its scientific exploration; specific topics examined in these courses include geology, astronomy, oceanography and meteorology. These courses are designed to: provide an interdisciplinary overview, introduce fundamental scientific concepts, demonstrate scientific inquiry, illustrate how hazards and resources related to these topics impact society, and increase the student’s appreciation of their world. These courses are appropriate for students with a limited science and math background. Work in the general sciences is an important part of many college programs.

All general science courses include a lab component and are on the PCC General Education course list. General science courses can be taken individually or in any sequence.

Social Science Building (SS), Room 201  
971-722-4289  
Rock Creek Campus  
Building 5, Room 245  
971-722-7327  
Cascade Campus  
Cascade Hall (CH), Room 208  
971-722-5251  
Southeast Campus  
Mt. Scott Hall (MSH), Room 103  
971-722-6147  
pcc.edu/programs/geography/

**DESCRIPTION**

Geography is more than just knowing the names of countries, cities, rivers, mountains, and other features of the Earth. It is the study of the spatial distribution and interrelationships of the Earth, its people and physical environment. Geographers analyze the relationship between humans and the environment; examine patterns and processes of place; and take a broad perspective to look at current topics such as climate change, global economics, urban diversity and development, immigration, origin and diffusion of disease, and natural resource use. The Geographic approach is applied at different scales, from local to global.

Geographers work with quantitative and qualitative data and use a variety of tools, such as Geographic Information Systems (GIS) and Global Positioning Systems (GPS) to collect, display, and analyze spatial data. GIS and other spatial analysis tools allow geographers to explore the world in much greater detail, and to study and address complex issues.

---

**GEOGRAPHIC INFORMATION SYSTEMS (GIS) CERTIFICATE.**

GIS is one of the top emerging industries in the 21st century. It combines cartography, remote sensing, spatial analysis, and data management to support research and inform decision making. PCC offers a less than one-year GIS Certificate that combines GIS concepts, technology, and real-world experience.

GIS is a framework to acquire, store, manage, analyze, and visualize spatial data. Traditional paper maps are able to display just one view of data, at one point in time. The use of GIS allows the display of information in various spaces and times. GIS provides a suite of tools used to support many kinds of decision-making, as well as statistical and spatial analysis.

The GIS Certificate prepares students to apply GIS with a solid theoretical foundation. A diverse range of geotechnical skills are
covered including data capture, spatial and statistical analysis, GPS, Programming, interactive maps, modeling, and cartography.

**DEGREES AND CERTIFICATES OFFERED**

**LESS THAN ONE-YEAR CERTIFICATE**
Geographic Information Systems (GIS)

**ADMISSION PREREQUISITES**

**Academic Prerequisites**
- WR 115 or IRW 115 or equivalent placement
- RD 115 or IRW 115 or equivalent placement
- MTH 58 or MTH 60 or equivalent placement

**Other Prerequisites**
- None

**PROGRAM REQUIREMENTS**

**Academic Requirements**
- None

**Other Requirements**
- None

**GEOGRAPHIC INFORMATION SYSTEMS LESS THAN ONE-YEAR CERTIFICATE**
Minimum 41 credits. Students must meet all certificate requirements.

**COURSE OF STUDY**
The coursework listed below is required. The following is an example of a term-by-term breakdown.

<table>
<thead>
<tr>
<th>First Term</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 170</td>

**DESCRIPTION**

Geology is the study of the Earth: its composition, structure, history and the processes which shape the Earth. Geologists investigate landscapes and rocks to discover the story of how the Earth formed and developed over geologic time. Geologists examine problems related to earth hazards, resources and environmental quality and then work toward developing corrective measures. Geology coursework is an important part of many college programs.
The G 201, G 202, G 203, G 291 courses introduce students to the study of geology while preparing them for further study in the earth science field, include a lab component, and are on the PCC General Education course list. The G 148, G 184 courses introduce students to specific topics within geology, include a lab component, and are on the PCC General Education course list. The G 207, G 208, G 209 courses introduce students to specific topics within geology and do not include a lab component. The G 160, G 161, G 200A, G 200B G 200C, G 200D, G 200E, G 200F, G 200G field experience courses use field trips to introduce students to the regional geology of the Pacific Northwest. The independent study course, G 298A, allows students to pursue individualized study and research projects. Geology courses can be taken individually or in any sequence.

GERMAN

Rock Creek Campus
Building 2, Room 210

Sylvania Campus
Communication Technology Building (CT), Room 219
971-722-8002

pcc.edu/programs/german

DESCRIPTION
All PCC German courses are taught using an immersion method. The objective of all German courses at PCC is to help students to develop communicative competence and proficiency in comprehension, speaking, reading and writing German as well as cultural awareness. Assessment is based on consistent attendance, active student participation, and written and oral assignments.

There are no requirements or prerequisites for entry into the first term of first-year German. However, the student should read the German course descriptions for other German courses. Students who have studied German before and are unsure of their placement are encouraged to consult with a German teacher since they will not be admitted to a course if their skill level is too advanced for that course.

All students who enroll in World Language classes (including those on the waiting list) are expected to attend class the first day when material essential for successful completion of the course will be presented. Students who do not attend the first class session may be replaced by those who do attend.

GERONTOLOGY

Sylvania Campus
Social Science (SS), Room 1
971-722-4077

pcc.edu/programs/gerontology

CAREER AND PROGRAM DESCRIPTION
Careers in aging are among the fastest growing and exciting opportunities in the 21st century workplace, and PCC’s gerontology program is on the cutting edge of this opportunity. This program is designed for individuals who wish to develop careers in the field of aging, those already employed or active in gerontology or related fields who wish to enhance their career paths, and those seeking challenging and meaningful career changes or enterprise development in response to new opportunities created by an aging society. Graduates of this program will develop problem-solving and research skills through interdisciplinary core courses and electives tailored toward their career goals. Internships, mentorships and career coaching will prepare students to create individualized career paths in service industries responding to a longer living and healthier population. Exponential growth is expected in all service-providing industries related to aging, particularly in the health care services continuum, financial and legal services, leisure, life-long learning, hospitality, fitness and wellness areas.

Students may earn one or more gerontology career pathway certificates alone or in conjunction with the gerontology AAS. Students may also earn the degree or certificates in conjunction with a certificate or degree in other PCC programs such as fitness technology, interior design, the allied health field, nursing, business, management, paralegal studies, or alcohol and drug counseling. Program articulation and block transfer agreements are signed or in process with Portland State University Health Studies, Western Oregon University Psychology and Gerontology, Oregon State University Family Studies and Human Development, Eastern Oregon University Gerontology, Concordia University, and other colleges and universities. In most cases, students earning the gerontology AAS can enter human services, social work, social sciences, community health and similar Bachelor level programs as juniors. Certificates and the degree can be completed through an online option.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE
Gerontology

LESS THAN ONE-YEAR: CAREER PATHWAY CERTIFICATE
Activity Assistant
Activity Consultant
Activity Director
Advanced Behavioral and Cognitive Care
End of Life Care and Support
Therapeutic Horticulture Activity Specialist

ADMISSION PREREQUISITES

Academic Prerequisites

• Candidates should be ready to enter WR 121 and MTH 20 for any certificate and MTH 58/MTH 65 for the degree (demonstrated through placement tests or documented previous college level work.) Those candidates with insufficient background to enter at this level may need to extend the time it takes to complete the program. Faculty advisors will provide information regarding preparatory course work options.

Other Prerequisites

• None

PROGRAM REQUIREMENTS

Academic Requirements

• Career pathway certificate credits count toward the AAS degree requirements. Students earning the AAS degree in gerontology must meet college graduation requirements including general education, math and English competencies. The core courses provide basic knowledge about aging in several important domains.

• Students should take GRN 181 in their first or second term in the program.

• GRN 280A provides a unique opportunity for students to work directly with older adults in their career interest area.

• Degree and certificate candidates who have related work experience with aging adults may petition to waive one credit for every 70 hours worked toward the required internship credits, typically up to a total of three credits.

Other Requirements

• None

GERONTOLOGY AAS DEGREE

Minimum 90 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science
Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

### GRAPHIC DESIGN

Sylvania Campus
Communications Technology Building, (CT) Room 102
971-722-4160, 971-722-4790, 971-722-4264
pcc.edu/programs/graphic-design

### CAREER AND PROGRAM DESCRIPTION

Graphic design is the art, discipline and profession of visual communication. By combining images, words and ideas graphic designers focus information toward an audience to achieve a desired goal. Graphic designers blend artistic talent, typography and computer knowledge to create advertisements, brochures, logos and identity systems, newsletters, catalogs, signage systems, web pages, magazines and books. The two-year program at PCC prepares the student for entry-level work in the highly competitive and deadline-oriented field of graphic design. Class work is designed to simulate industry situations and standards.

### DEGREE AND CERTIFICATE OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE
Graphic Design

### ADMISSION PREREQUISITES

Academic Prerequisites

- The first three graphic design courses (GD 101, GD 114 and GD 120) are open for all PCC students who meet the registration
requirements and course prerequisites to enroll. Enrolling in subsequent GD courses is limited to Graphic Design majors.
• In order to declare a major of Graphic Design, students must complete the GD Program application form and earn a “B” grade or higher in GD 101, GD 114, and GD 120. Students should declare a General Studies degree before they apply for the Graphic Design program and advance to subsequent GD Program courses.
• This is a limited entry program.

Other Prerequisites
• Students interested in enrolling in Graphic Design courses must attend one of the regularly scheduled PCC Graphic Design information sessions. Please go to www.pcc.edu/gd to learn more.

PROGRAM REQUIREMENTS

Academic Requirements
• To qualify for advancement to second-year courses students must earn a “B” grade or higher in all first-year Graphic Design and Art courses.

Other Requirements
• None

GRAPHIC DESIGN AAS DEGREE

Minimum 91 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

COURSE OF STUDY

The coursework listed below is required. The following is an example of a term-by-term breakdown.

DESCRIPTION

HEALTH STUDIES MISSION:
Health Studies faculty support student success and guide student progress in meeting their personal, academic, and/or professional goals by providing high-quality instruction and curriculum.
HEALTH STUDIES VISION:
Empowers examination and engagement with personal, social, political, economic, cultural, and environmental factors impacting the health and wellness of individuals and society.

“Health is not merely the absence of disease, but a state of complete physical, mental, social, intellectual and spiritual well-being.”

Health Studies students explore the well-being of the individual and the community from a multi-dimensional perspective. Health Studies courses include personal health, stress and human health, first-aid and CPR, community and public health, the environment and food systems, women’s and men’s health, and global health.

Health Studies faculty consider social justice and health equity as fundamental components of health. Health Studies courses are intentionally designed and delivered to engage and empower students to formulate these connections in their own lives, communities, and global context. Several courses offer community-based learning options, directly supporting projects that deepen and contextualize course learning outcomes by addressing the needs of our community. Additionally, courses may provide transferable credits to support degree-seeking students toward meeting their academic and professional goals and/or the Health Studies Focus Award.

HEALTH INFORMATION MANAGEMENT
Cascade Campus
Technology Education Building (TEB), Room 103
971-722-5667
pcc.edu/him

CAREER AND PROGRAM DESCRIPTION
Health information management (HIM) professionals manage health care data and information resources. The profession encompasses planning, collecting, aggregating, analyzing and disseminating individual patient and aggregate clinical data. HIM professionals serve the healthcare industry wherever health information is collected, organized, and analyzed. HIM professionals work in a variety of healthcare settings, payer organizations, research and policy agencies and accounting and legal firms.

HIM professionals bring unique skills to the healthcare industry such as managing health records and health information systems, summarizing data into useful information, protecting the privacy and security of patient health information and assisting providers in understanding data flow and reporting requirements within the context of dynamic rules, regulations and guidelines.

The PCC HIM Associate Degree program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). Graduates are eligible to take the national certification examination given through the American Health Information Management Association.

The program begins fall term only. Students must receive a Pass grade or C or better in all program required courses. The program is designed to correlate classroom and lab experience with practical experience in healthcare facilities. The lecture and lab portion of the program is offered entirely through distance learning.

DEGREES AND CERTIFICATES OFFERED
ASSOCIATE OF APPLIED SCIENCE DEGREE
Health Information Management

ADMISSION PREREQUISITES
Academic Prerequisites

- Completion of WR 121.
- Completion of MTH 58, MTH 63 or MTH 65
- Completion of MP 111 or successful completion of a challenge exam offered on campus.
- Completion of CAS 133 or similar course that includes Microsoft Office within the last ten years.
- All CAS, HIM, MP, MTH and WR courses must be completed with a "C" or "P" or better. For the application scoring process a "P" is counted as a "C".
- This is a limited entry program. Complete the program application and submit unofficial transcripts from any college attended other than PCC.

Other Prerequisites
- Students are encouraged to meet with the Cascade Allied Health Admissions Coordinator.

PROGRAM REQUIREMENTS
Academic Requirements
- None

Other Requirements
- Once admitted, students are strongly encouraged to complete program advising with a Health Information Management program advisor.
- After admission to the program, but before beginning practicum, students may be required to complete some or all of the following: criminal background check, proof of immunizations, and a ten-panel drug screening. There will be a cost to the student associated with completing this requirement.
- Students must be able to provide their own transportation to clinical facilities.

HEALTH INFORMATION MANAGEMENT AAS DEGREE
Minimum 92 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

HISTORICAL REASONING
HONORS PROGRAM (HON)

The Honors Program at PCC offers motivated students the opportunity to participate in classes and activities meant to challenge them to reach their potential. The program attempts to create a cohort of motivated students working toward their academic goals. The program includes coursework, extracurricular activities, and a capstone experience.

The bulk of an honors student’s program is taken in designated general education courses, such as WR 121H or COMM 111H. Students should take HON 101 early in their program which develops a cohort and provides leadership opportunities as they work toward the final course involving the completion of a capstone project.

Honors courses are open to all PCC students having a minimum GPA of 3.25 whether or not they are admitted to the program. Full membership in the program, however, offers significant benefits.

Please contact a program representative for further information.

HUMANITIES

Cascade Campus
Cascade Hall (CH), Room 306
971-722-5251

Rock Creek Campus
Building 5, Room 245
971-722-7327

pcc.edu/programs/humanities/

DESCRIPTION

Studying the humanities provides individuals with opportunities to explore the human experience through a variety of windows such as art and architecture, philosophy, literature, music, history and languages. Humanities students examine and interpret works from the viewpoint of several disciplines to better understand the influence of cultural values and world views, forms of political and social order, basis and impact of gender roles and effect of historic and environmental events on how individuals and societies perceive and project themselves. Humanities students could find jobs in three broad categories: academics, media and writing. Some specifics include teaching, business theorists, archaeologists, literary critics, cinematography, television and radio personalities, writers, journalists and talent agents; essentially any field that requires an understanding of the “human condition.”

At PCC, the humanities program includes a broad-based introductory course, sequences in technology, African Cultures and Leadership.

INTERIOR DESIGN

Sylvania Campus
Science and Technology Building (ST), Room 208
971-722-4030

pcc.edu/programs/interior-design/
CAREER AND PROGRAM DESCRIPTION
Interior designers specialize in creating uniquely defined environments that cater to the special needs and functional requirements of its user. Students in this program learn to apply design principles and techniques to the professional planning and furnishing of residential interiors.

PCC’s Interior Design program is the only two-year degree program in residential interior design available in Oregon and Southern Washington. Our graduates are sought by employers for their unique abilities: adept design problem solving, ability to draw from historical traditions, and effective communication skills. The curriculum includes a range of courses from Interior Design, Architecture, Art, and Business. Students gain hands-on experience through an internship program. Articulation agreements are in place with select local colleges for those wanting to pursue related bachelor degrees.

The degree program prepares students for an entry-level position as an interior designer, or for more advanced placement in the wholesale and retail sales business. Emphasis is placed on a broad scope of courses which are application-oriented. Specializations within the program of study also include Design for Accessibility and Aging in Place, Kitchen and Bath Design, and Sustainable Building Design.

**INTERNATIONAL STUDIES**

**Sylvania Campus**  
Communication Technology (CT), Room 219  
971-722-8023

**DESCRIPTION**

International Studies is an interdisciplinary field that examines the social, cultural, political, economic, environmental, and historical forces that have shaped human societies and the world. Students in International Studies develop knowledge and skills in multiple cultures and countries, understanding the connection between cultures and their distinct histories. Students learn to analyze diverse cultural perspectives and to work as members of intercultural teams. The objective of the program is to prepare students for the diverse and complex global environment in which we live.

**Total Credits: 41**

**JAPANESE**

**Rock Creek Campus**  
Building 2, Room 210  
971-722-7770

**Sylvania Campus**  
Communications Technology Building (CT), Room 219  
971-722-8005

**DESCRIPTION**

All PCC Japanese courses are taught using an immersion method. The objective of all Japanese courses is to help students to develop communicative competence and proficiency in comprehension, speaking, reading, and writing Japanese as well as cultural awareness. Assessment is based on consistent attendance, active student participation, and written and oral assignments.

There are no prerequisites and requirements for entry into the first term of first year Japanese. However, the student should read the Japanese course descriptions for other Japanese courses. Students who have studied Japanese before and are unsure of their placement are encouraged to consult with a Japanese language instructor since they will not be admitted to a course if their skill level is too advanced for the course.

All students who enroll in world language classes (including those on the waiting list) are expected to attend class the first day when material essential for successful completion of the course will be presented. Students who do not attend the first class session may be replaced by those who do attend.

**LANDSCAPE TECHNOLOGY**

**Rock Creek Campus**  
Building 2, Room 210  
971-722-7770

**DESCRIPTION**

Prepare for entry level and supervisory work in landscape construction, landscape management, landscape design and environmental landscape management. In the construction area, students work with landscape contractors installing landscapes. Those specializing in management work primarily in maintaining existing landscapes both private and public. Landscape designers work with clients and contractors to produce residential design. Those specializing in environmental landscape management will work in sustainable landscape practices including bioswales, greenroofs and restoration. Upon application to the Landscape Contractors Board and presentation of transcripts and diploma, students completing the Associate of Applied Science Degree in Landscape Technology will be eligible to sit for the Landscape Contractors licensing exam.

The Landscape Technology AAS Degree courses are designed to develop knowledge and skills in plant care, plant identification, tree care, soils, irrigation, landscape business operations, estimating and bidding, and construction practices. With proper
licensing and experience, many students establish their own business in construction, maintenance or design. Employment can include work with retail and wholesale nurseries, garden centers, landscape contractors, landscape designers, positions in landscape maintenance and gardening, and at landscape and horticultural suppliers. Students are prepared for landscape construction work including installing hardscapes, irrigation and drainage systems and planting. Students are also prepared for landscape management work including maintaining residential, estate, commercial and public properties, golf courses, private and public gardens, and parks.

The Landscape Technology Design AAS Degree courses are developed to build knowledge and skills in plant identification, soils, irrigation, site measurement and analysis, drafting and CAD. Students completing the curriculum will have the skills needed to produce landscape designs. Required landscape design courses meet the educational requirement for certification with the Association of Professional Landscape Designers. Students are prepared to work in the landscape design and construction field, performing services for residential and small commercial projects. They may work for landscape contractors, landscape designers, or be self employed.

The Environmental Landscape Management Technology AAS Degree courses will develop skills and knowledge in Landscape Technology, Biology and Environmental Science to prepare students for careers working with natural resources and sustainable landscape technologies. Students who complete the degree will have a broad background in science and the technical skills to construct, maintain and monitor sustainable landscape systems such as bioswales, greenroofs and environmental restoration projects.

The Landscape Service Technician Certificate core of courses in the first year are designed to develop knowledge and skills in plant care, plant identification, soils, irrigation, basic landscape design and construction practices. Students successfully completing this curriculum may seek entry level positions with landscape companies and will have completed the educational requirement for applying a combination of education and work experience as qualifying to sit for the State of Oregon Landscape Contractors licensing exam. Students are prepared for entry level positions in sales, construction or maintenance at wholesale and retail nurseries, landscape installation companies, or landscape management companies. Credits earned through this degree apply to subsequent LAT certificates and degrees.

The Landscape Entry Level Certificate courses prepare students for entry level positions in sales, construction or maintenance at wholesale and retail nurseries, landscape installation companies, or landscape management companies. Credits earned through this degree apply to subsequent LAT certificates and degrees.

Following the listed sequence of courses and entry into the program in the fall is recommended although not required by the program.

Requirements vary depending upon the degree or certificate. See following details:
- Landscape Technology AAS, Landscape Design AAS, Landscape Service Technician Certificate, and Landscape Technology Entry Level Career Pathways Certificate:
- All LAT, HOR, CSS, BI, ESP, and MSD courses must be completed for a grade of "C" or "P" or better.

Environmental Landscape Management Technology AAS:
- All LAT, HOR, CSS, BI, ESP, and MSD courses must be completed for a grade of "C" or "P" or better.

Other Requirements
- None

ASSOCIATE OF APPLIED SCIENCE DEGREE
Landscape Technology (p. 118)
Landscape Technology: Design (p. 119)
Environmental Landscape Management Technology (p. 120)

LANDSCAPE TECHNOLOGY AAS DEGREE
Minimum 97 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Math/computation competency is met through the courses in the program of study indicated with a § symbol. Students should consult with program advisors for course planning.

COURSE OF STUDY

The coursework listed below is required. The following is an example of a term-by-term breakdown.

First Term
LAT 101 Introduction to the Landscape Industry 2
LAT 236 Landscape Math 3
Plant ID Electives 3
General Education 4

Second Term
CSS 200 Soils and Plant Nutrition 4
LAT 115 Tool and Equipment Safety, Operation and Maintenance 3
LAT 272 Sustainable Landscaping 3
Plant ID Electives 3

Third Term
LAT 102 Plant Establishment and Maintenance 3
LAT 108 Landscape Irrigation I 3
Plant ID Electives 3
General Education 4

Fourth Term
LAT 280A Cooperative Education: Landscape 3
Landscape Technology Electives 3
General Education 8

Fifth Term
LAT 106 Basic Horticulture 4
LAT 111 Landscape Construction Practices 3
LAT 223 Site Surveying and Analysis 3
LAT 240 Tree Care 3

Sixth Term
LAT 104 Pesticides 3
LAT 243 Landscape Business Operations 3
LAT 264 Landscape Estimating and Bidding 3

118

DESCRIPTION
Literature classes help students better comprehend cultural complexity as well as help them develop cultural awareness. PCC’s literature program teaches and promotes an understanding of the significance and history of various literatures and fosters an appreciation for the richness and variety of literary texts. Through improving their comprehension and appreciation of written language, students will be more likely to engage actively and effectively in their many communities, as they transfer to universities and/or pursue career technical education. Acknowledging others’ voices, evaluating authority, recognizing subtle biases and prejudices, integrating the ideas of others with one’s own are all skills essential to active citizenship developed through the study of literature.

The prerequisite for PCC literature courses is WR 115 and RD 115 or equivalent placement test scores.

All PCC literature courses are transferable to four-year institutions and fulfill the block transfer agreement for the humanities in the General Education requirement for an associate degree. Students interested in writing courses should consult the Writing (p. 164) section of the catalog.

MACHINE MANUFACTURING TECHNOLOGY
Sylvania Campus
Automotive Metals Building (AM), Room 113
971-722-4155, 971-722-4613
pcc.edu/programs/machine-manufacturing/

CAREER AND PROGRAM DESCRIPTION
Machinists operate various types of material processing equipment such as lathes, drill presses, milling machines, grinders, computer numerical control (CNC) machines, rapid prototyping, and computer assisted machining (CAM) systems. Machinists may specialize in the operation of one type of machine or work in a shop where they are required to operate several different machines.

The Machine Manufacturing Technology (MMT) program has been developed specifically in a modular self-paced format, allowing the student to attend courses on a schedule they choose (day or evenings). The open exit design of the program allows a student to focus on a course and complete the materials in a matter of days or weeks instead of traditional term-long classroom formats. The program fits the needs of students in that it is designed to be self-paced (students learn at their own speed, taking as many or as few modules as they desire), individualized (courses tailored to students), flexible (students select their own attendance schedules), and open-exit (students complete courses whenever the work is done, and they may leave the program when they have met their training goals or needs).

Existing MMT students are given priority enrollment until the final day of the previous term. New students will be admitted after that time until a predetermined enrollment count is reached. Consult a program advisor through the department to help plan a course of study that will allow you to achieve your educational goals.

DEGREES AND CERTIFICATES OFFERED
ASSOCIATE OF APPLIED SCIENCE DEGREE
Machine Manufacturing Technology

ONE-YEAR CERTIFICATE
CNC Turning
CNC Milling
Manual Machining
LESS THAN ONE-YEAR: CAREER PATHWAY
CERTIFICATE
Manufacturing Technician

ADMISSION PREREQUISITES
Degree and One-Year Certificate seeking students entering the
Machine Manufacturing Technology (MMT) program must meet the
following requirements:

Academic Prerequisites

- Successful completion of IRW 90 or (RD 90 and WR 90) or
  (ESOL 260 and ESOL 262 and ESOL 254) and MTH 65 or
  equivalent placement test scores.
- Machine Manufacturing Technology is a limited entry program.
  Certificate seeking students must meet with a program advisor,
  complete a department entry document, and may potentially be
  placed on a wait list for an entry position.

Other Prerequisites

- None

PROGRAM REQUIREMENTS

Academic Requirements

- In order to continue beyond the Manufacturing Technician
  Certificate, students must complete MCH 121 with a grade of “C”
  or “P” or better.

Other Requirements

- None

MACHINE MANUFACTURING TECHNOLOGY AAS
DEGREE

Minimum 106 credits. Students must also meet Associate Degree
Comprehensive Requirements and Associate of Applied Science
Requirements. Students must complete a total of sixteen credits of
General Education. Math/computation competency is met through
the courses in the program of study indicated with a § symbol. A
maximum of 24 credits of Pass/No Pass and a maximum of 24 credits
of cooperative education (MCH 280) are allowed in the Machine
Manufacturing Technology AAS Degree. Students should consult with
program advisors for course planning.

CAREER AND PROGRAM DESCRIPTION

The Management/Supervisory Development Department offers a comprehensive program designed for students and professionals to increase their supervisory skills. Interacting with instructors who are currently managers or consultants, participants develop cutting-edge professional skills that prepare them for job acquisition, retention, and advancement in managerial and supervisory careers. Graduates are prepared to perform functions such as self-management, goal setting, time management, giving presentations, conflict resolution, leading and motivating teams, customer service, budgeting, continuous improvement, and project management.

AAS Degree graduates transfer to Marylhurst University, Oregon Institute of Technology, George Fox College, and Warner Pacific College, among others. For more information about transfer programs, contact the four-year universities as early as possible to ensure a smooth transition.

Management/Supervisory Development courses are offered in a variety of formats, which include distance learning, evening classes on campus, half-day classes of Fridays, and half-day and full-day Saturday classes. The entire degree can be completed online. Consult a program advisor regarding PCC credit for on-the-job projects (Co-op Ed), or formal training at non-accredited institutions.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE
Management/Supervisory Development

ONE-YEAR CERTIFICATE
Management/Supervisory Development

LESS THAN ONE-YEAR: CAREER PATHWAY CERTIFICATES
Client Services Professional
Client Services Manager

ADMISSION PREREQUISITES

Academic Prerequisites

- None

Other Prerequisites

- None

PROGRAM REQUIREMENTS

Academic Requirements

- Degree seeking students must complete with a grade of "C" or "P" or better MTH 58, MTH 63 or MTH 65, or higher or equivalent placement test score.

Other Requirements

- None

MANAGEMENT/SUPERVISORY DEVELOPMENT AAS DEGREE

Minimum 90 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

- MSD 111  Workplace Correspondence  3
- MSD 206  The Troubled Employee  3
- MSD 200  Organizations and Social Responsibility  3

Choose 3 credits from the following:

- MSD 119A  Intercultural Communication  3
- MSD 123  Job Search Strategies  3
- MSD 160A  Communication Styles  3
- MSD 174B  Leadership & Effective Decision Making  3
- MSD 188B  Self Management for Success  3

Total Credits 18

CHANGE/INNOVATION MANAGEMENT
Minimum of 18 credits to include:

- MSD 101  Principles of Management and Supervision  3
- MSD 121  Leadership Skill Development  3
- MSD 130  Creative Problem Solving  3
- MSD 203  Emotional Intelligence in Work  3
- MSD 279A  Workplace Quality Improvement  3

Choose 3 credits from the following:

- MSD 116  Creative Thinking for Innovative Change  3
- MSD 122  Motivation Without Manipulation  3
- MSD 134  Who Moved My Cheese  3
- MSD 142B  Thriving in Transition  3
- MSD 179B  Avoid Burnout: Build Resilience  3
- MSD 187  Humor in the Workplace  3

Total Credits 18

CONFLICT MANAGEMENT
Minimum of 18 credits to include:

- MSD 105  Workplace Communication Skills  3
- MSD 115  Improving Work Relations  3
- MSD 130  Creative Problem Solving  3
- MSD 203  Emotional Intelligence in Work  3
- MSD 206  The Troubled Employee  3

Choose 3 credits from the following:

- MSD 110  Gender Conflict Resolution  3
- MSD 141A  The Time-Stress-Communication Triangle  3
- MSD 150  Listening Skills  3
- MSD 151  Working with Difficult People  3
- MSD 157  Conflict Management  3
- MSD 162  Coping with Angry Feelings and Angry People  3

Total Credits 18

LEADERSHIP
Minimum of 18 credits to include:

- MSD 101  Principles of Management and Supervision  3
- MSD 105  Workplace Communication Skills  3
- MSD 107  Organizations & People  3
- MSD 121  Leadership Skill Development  3
MSD 203 Emotional Intelligence in Work 3
Choose 3 credits from the following:
  MSD 138B Exploring the 7 Habits of Highly Effective People 3
  MSD 176 Nonverbal Communication
  MSD 177 Team Building
  MSD 177B Coaching Great Performance
  MSD 180A Goal Setting and Productivity
  MSD 193A Leadership Skill Development

Total Credits 18

PROJECT MANAGEMENT
Minimum of 18 credits are required:

CAS 220 Project Management - Beginning MS Project 3
MSD 105 Workplace Communication Skills 3
MSD 123A Innovation and New Products 1
MSD 279 Project Management - Intro 4
MSD 279A Workplace Quality Improvement 3
Choose 4 credits from the following:
  BA 255 Project Management - Business Environments
  CIS 245 Project Management - Information Systems
  MSD 121 Leadership Skill Development
  MSD 116 Creative Thinking for Innovative Change
  MSD 174 Time Management
  MSD 177 Team Building

Total Credits 18

HUMAN RESOURCE MANAGEMENT
Minimum of 18 credits to include:

MSD 105 Workplace Communication Skills 3
MSD 206 The Troubled Employee 3
MSD 115 Improving Work Relations 3
MSD 222 Human Resource Management: Personnel 3
MSD 223 Human Resource Management: Performance and Compensation 3
Choose 3 credits from the following:
  MSD 119A Intercultural Communication
  MSD 148 Asserting Yourself in the Workplace
  MSD 159 Stress Control
  MSD 160A Communication Styles
  MSD 177B Coaching Great Performance
  MSD 193 Self Esteem the Key to Success

Total Credits 18

Sylvania Campus
Science Technology Building (ST), Room 203
971-722-4149
pcc.edu/programs/math/

DESCRIPTION
Mathematics includes the study of numbers, patterns, graphs, and abstract models using analytic reasoning and systematic problem solving skills. Mathematics and mathematical reasoning are used in situations as diverse as household budgeting and space shuttle design, subjects as different as art and law, and occupations as varied as nursing and computer programming. Mathematics can be used by everyone to enhance their understanding of the world.

PCC offers developmental and pre-college math courses (numbered below 100) that focus on algebraic skills and prepare students for certificate programs, two year degree programs, and college level coursework. Math courses at PCC numbered 100 and above are equivalent and transferable to the similarly numbered courses at Oregon’s public universities. All math classes at PCC are designed to challenge students to improve their analytic reasoning, problem solving, and communication skills.

MECHANICAL ENGINEERING TECHNOLOGY
Sylvania Campus
Science Technology Building (ST), Room 200
971-722-4159
pcc.edu/programs/mechanical-engineering

CAREER AND PROGRAM DESCRIPTION
Mechanical engineering technicians are problem-solvers, working as part of a team involved in the planning, design, manufacture, operation, and management of many types of systems. These may include machines and machine tools, conventional and renewable energy systems, manufacturing processes, HVAC systems, and gas and liquid distribution systems. These skilled professionals work on a variety of assignments including: design calculations, computer-aided drafting and solid modeling, quality assurance testing, applications engineering, specification writing, technical sales, scheduling, and training, among others. Employers of MET’s include consulting engineering firms, manufacturers, government agencies, and equipment sales organizations.

The PCC Mechanical Engineering Technology program is designed to develop marketable skills in a broad range of technical areas, and in problem analysis and solution, spoken and written communication, computer software use, and computer-aided drawing. While providing a curriculum strong in mathematics and engineering topics, our teaching format also emphasize student involvement, teamwork, and extensive student-instructor interaction.

DEGREES AND CERTIFICATES OFFERED
ASSOCIATE OF APPLIED SCIENCE DEGREE
Mechanical Engineering Technology
Mechanical Engineering Technology: Green Technology and Sustainability Option

TWO-YEAR CERTIFICATE
Mechanical Engineering Technology

ADMISSION PREREQUISITES
Academic Prerequisites
- MET is a limited entry program. Prospective students must meet with an engineering technology advisor prior to registering for any CMET courses.
- Mechanical Engineering Technology AAS requirements:
  - WR 115 or IRW 115 or equivalent placement.
• MTH 58 or MTH 60 or higher, or equivalent placement.
• Mechanical Engineering Technology: Green Technology and Sustainability AAS requirements:
  • WR 121 or equivalent placement.
  • MTH 58 or MTH 60 or higher, or equivalent placement.
• Mechanical Engineering Technology Certificate requirements:
  • WR 115 or IRW 115 or equivalent placement.
  • MTH 58 or MTH 60 or equivalent placement.
• High school courses in chemistry and physics are helpful but not required. Skill in keyboarding is highly recommended. A specific calculator is required.
• For students not meeting these requirements, advising is available to assist in preparing for entrance into the program and to earn credits which will apply toward the certificate or degree once accepted into the program.

Other Prerequisites
• Full-time students: MET is a limited enrollment program for students seeking a certificate or degree. Qualified applicants are accepted in the order in which the application process is completed. Program starts in fall and winter terms. See a program advisor for other term starts.
• Job-upgrade students: Non-program students seeking to upgrade job skills are welcome to enroll in individual courses. Students must meet individual course prerequisites and complete an advising interview with a MET faculty advisor prior to enrollment. Admission is granted on a space-available basis after the needs of the full-time students have been met.
• Continuing Education Students: Students may transfer to Oregon Institute of Technology to pursue a bachelor degree in mechanical or manufacturing engineering technology. Faculty advisors will provide assistance in the selection of additional course work appropriate for each student's goals.

PROGRAM REQUIREMENTS
Academic Requirements
• None
Other Requirements
• None

ASSOCIATE OF APPLIED SCIENCE DEGREE
Mechanical Engineering Technology (p. 129)
Mechanical Engineering Technology: Green Technology and Sustainability Option (p. 129)

MECHANICAL ENGINEERING TECHNOLOGY AAS DEGREE
Minimum 101 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the courses in the program of study indicated with a § symbol. Students should consult with program advisors for course planning.

COURSE OF STUDY
The coursework listed below is required. The following is an example of a term-by-term breakdown.

First Term Credits
CMET 110 Statics 4
CMET 111 Portland Design: Brews, Bridges and Bikes 3
CMET 1121 Technical Algebra/Trigonometry 4

or MTH 95 Intermediate Algebra
ENGR 102 Engineering Graphics 3

Second Term Credits
CMET 121 Strength of Materials 4
CMET 122 Global Energy Physics 4
CMET 1232 Technical Algebra with Analytic Geometry

or MTH 112 Elementary Functions
WR 121 English Composition 4

Third Term Credits
CMET 131 Calculus I 8

or MTH 251 & MTH 252 Calculus I and Calculus II
CMET 213§ Fluid Mechanics 3
CMET 227 Applied Electricity Fundamentals 2
General Education 4

Fourth Term Credits
CH 101 Inorganic Chemistry Principles 5
CMET 133 Materials Technology 3
CMET 221 Environmental Systems 3
CMET 226 Dynamics 3
COMM 1001 Introduction to Communication 4

or COMM 111 Public Speaking

Fifth Term Credits
CMET 211 Environmental Quality 4
CMET 212 Thermodynamics I 4
CMET 241 Structural Steel Drafting 3
CMET 255 Civil and Mechanical Professional Skills Development I 2
ENGR 262 Manufacturing Processes 4
General Education 3

Sixth Term Credits
CMET 222 Thermodynamics II 4
CMET 223 Project Management 3
CMET 235 Machine Design 3
CMET 236 Structural Design 3
CMET 237 MET Applied Computer Aided Design 3

Total Credits: 101

1 Could be used as General Education
1 Or any course for which MTH 95 is a prerequisite.
2 Or any course for which MTH 112 is a prerequisite.

GREEN TECHNOLOGY AND SUSTAINABILITY AAS DEGREE
Minimum 108 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the courses in the program of study indicated with a § symbol. Students should consult with program advisors for course planning.

GREEN TECH AND SUSTAINABILITY DEGREE COURSES
CH 101 Inorganic Chemistry Principles 5
CMET 110 Statics 4
CMET 111 Portland Design: Brews, Bridges and Bikes 3
CMET 1121 Technical Algebra/Trigonometry 4
PROGRAMS & DISCIPLINES

MECHANICAL ENGINEERING TECHNOLOGY
TWO-YEAR CERTIFICATE
Minimum 65 credits. Students must meet all certificate requirements.

MEDICAL ASSISTING

CAREER AND PROGRAM DESCRIPTION
Those training in the Medical Assisting Program will find occupations involved within various aspects of health care in clinics and physicians’ offices. The medical assistant performs a variety of clinical and administrative duties. Clinical duties may include: assisting physicians and preparing patients for examinations; taking and recording vital signs and medical histories; performing venipuncture, spirometry, and electrocardiograms; and preparing, administering, and documenting medications; collecting and processing specimens. Administrative duties may include: scheduling and receiving patients; maintaining medical records; handling...
telephone calls; corresponding authorizations and reports; and insurance and billing matters.

The program curriculum is based on the Patient Centered Model Home (PCM-H). Students will understand the importance of a personal clinician to the health of individual patients and the population as a whole; recognize the importance of patient centeredness in successful healthcare outcomes; recognize the importance of continuous quality improvement, using evidence based results to develop best practices for patient care by way of measuring data using proper metrics; and understand the importance of information systems to the functionality of the patient centered medical home; and demonstrate appropriate leadership skills.

Students are prepared to function under the supervision of a licensed provider. The program is accredited by the Commission on Accreditation of Allied Health Educational Programs (CAAHEP) on recommendation of the Committee on Accreditation for Medical Assistants Education. Graduates are eligible to take the national certifying examination given through the American Association of Medical Assistants (AAMA). However, the certifying board may grant a waiver based on mitigating circumstances. See the American Association of Medical Assistants (AAMA) CMA Examination application for specifics.

Students may enter the program either in the Fall or Spring Terms. Students must receive a “C” or better in all programs required courses. The program is designed to correlate classroom and laboratory experience with practical experience in health care facilities.

DEGREES AND CERTIFICATES OFFERED

ONE-YEAR CERTIFICATE

Medical Assisting

ADMISSION PREREQUISITES

Academic Prerequisites

• Completion with a grade of "C" or "P" better in the following:
  WR 121, (MTH 60 or MTH 58), BI 121, and MP 111.
• This is a limited entry program. Complete a Medical Assisting program application including recommendation forms and transcripts from all colleges attended other than PCC.

Other Prerequisites

• Students must demonstrate a working knowledge and/or background of basic computer skills including Windows, keyboarding, Internet, and e-mail. Students who are not able to demonstrate a working knowledge and/or background will be required to take a course(s) prior to admission
• Once conditionally admitted, students must attend a program orientation.
• Once formally admitted, students will be required to complete various state and program requirements such as a criminal background check, immunizations and drug screening. Contact the department office for more information.
• Once formally admitted, students are strongly encouraged to meet with a Medical Assisting Program advisor.

PROGRAM REQUIREMENTS

Academic Requirements

• None

Other Requirements

• Students must have transportation to clinical facilities throughout the Portland Metropolitan area and surrounding communities.

MEDICAL ASSISTING ONE-YEAR CERTIFICATE

Minimum 45 credits. Students must meet all certificate requirements.

The MRI Technologist Training Program is three terms in length (9 consecutive months). The program combines campus instruction with clinical education at affiliated hospitals. Applicants must be a Registered Radiologic Technologist ARRT(R), Registered Nuclear Medicine Technologist ARRT(N) or (CNMT), Registered Radiation Therapy Technologist ARRT(T) or Registered Medical Sonographer (RDMS) in good standing with one-year experience preferred. Technologists with less than one year experience may be admitted with Director permission. Refer to College catalog for program curriculum

MEDICAL IMAGING CONTINUING EDUCATION COURSES
College credit courses are available to A.R.R.T certified technologists for updating and re-entry knowledge and skills. See the Medical Imaging website for specific offerings each term. Special admission required for registration. Contact the Medical Imaging department for information at 971-722-4227.

DEGREES AND CERTIFICATES OFFERED
ASSOCIATE OF APPLIED SCIENCE DEGREE
Radiography

LESS THAN ONE-YEAR CERTIFICATE
Computed Tomography
Magnetic Resonance Imaging

ADMISSION PREREQUISITES

Academic Prerequisites

Radiography

• All program applicants must have a high school diploma or a GED certificate. In addition, all applicants will be required to have satisfactorily completed (minimum letter grade "C") WR 121, MTH 111, BI 231, BI 232 and BI 233, MP 111 or the equivalent. Pass/No Pass grade is not acceptable in prerequisites.
• BI 231, BI 232, BI 233 and MTH 111 must be current within seven years of application. All prerequisites must be completed by end of winter term in the year in which you apply.
• The Radiography Program is a limited entry program with restricted enrollment. Completing admission requirements and applying to the program does not guarantee admission.
• All students must be formally admitted in order to enroll in the radiography courses. Other enrollees must have program permission.
• For information on specific application procedures and deadlines, please contact the Health Admissions Office at 971-722-4795 or visit the website www.pcc.edu/hao.

Computed Tomography Technologist Training Program

• Applicants must be registry eligible or currently registered, in good standing, in Radiography ARRT(R) or Nuclear Medicine ARRT(N) or (CNMT) to apply to the program.
• The CT Technologist Training Program is a limited entry program with restricted enrollment. Completing admission requirements and applying to the program does not guarantee admission.
• All students must be formally admitted in order to enroll in the Computed Tomography courses.
• For information on specific application procedures and deadlines, please contact the Health Admissions Office at 971-722-4795 or visit the website www.pcc.edu/hao.

Magnetic Resonance Imaging Technologist Training Program

• Applicants must be a Registered Radiologic Technologist ARRT(R), Registered Nuclear Medicine Technologist ARRT(N) or (CNMT), Registered Radiation Therapy Technologist ARRT(T) or Registered Medical Sonographer (RDMS) in good standing with
PROGRAMS & DISCIPLINES

one-year experience preferred. Technologists with less than one year experience may be admitted with Director permission.

- The MRI Technologist training program is a limited entry program with restricted enrollment. Completing admission requirements and applying to the program does not guarantee admission.
- All students must be formally admitted in order to enroll in the MRI courses.
- For information on specific application procedures and deadlines, please contact the Health Admissions Office at 971-722-4795 or visit the website www.pcc.edu/hao.

Other Prerequisites

Radiography:

- The Radiography Program does not require a computer science prerequisite; however, success in a Radiography Program requires that students be computer literate, including, at least, word processing, use of spreadsheets and web searches. Students with no computer experience should discuss with an advisor ways to achieve competency prior to entering the Radiography Program.
- Potential applicants are encouraged but not required to gain health care experience by volunteering or working in the health care industry, preferably in a hospital setting to gain knowledge of professional duties and responsibilities.
- Once accepted to the program, students will be required to submit to a criminal background check and a drug screen for their clinical practicum. Students must be able to provide a valid Social Security number for the criminal background check. Proof of immunizations will also be required. For a complete listing of required immunizations, please visit our website at www.pcc.edu/rad.
- During the course of the program students will be working with ionizing radiation, processing chemicals and they will provide patient care to individuals who may have contagious diseases. Special immunization is required.

Computed Tomography Technologist Training Program:

- Once accepted to the program, students will be required to submit to a criminal background check and a drug screen for their clinical practicum. Students must be able to provide a valid Social Security Number for the criminal background check. Proof of immunizations may also be required. For a complete list of required immunizations, please visit the Medical Imaging website.

Magnetic Resonance Imaging Technologist Training Program:

- Once accepted to the program, students will be required to submit to a criminal background check and a drug screen for their clinical practicum. Students must be able to provide a valid Social Security Number for the criminal background check. Proof of immunizations may also be required. For a complete list of required immunizations, please visit the Medical Imaging website.

PROGRAM REQUIREMENTS

Academic Requirements

Radiography:

- Students in the Radiology AAS program must complete all RAD courses with a letter grade of "C" or better. RAD 216 is exempt from the grade expectation as it is offered for Pass/No Pass only.

Computed Tomography Technologist Training Program:

- Students in the Computed Tomography Certificate program must complete all CTT courses with a letter grade of "C" or better.

Magnetic Resonance Imaging Technologist Training Program:

- Students in the Magnetic Resonance Imaging Certificate program must complete all MRI courses with a letter grade of "C" or better.

Other Requirements

- None

RADIOGRAPHY AAS DEGREE

Minimum 119 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

MEDICAL LABORATORY TECHNOLOGY

Cascade Campus
Allied Health Admissions
Technology Education Building (TEB), Room 103
971-722-5667
pcc.edu/programs/medical-lab/

CAREER AND PROGRAM DESCRIPTION

A medical laboratory technician performs routine clinical laboratory testing procedures to provide scientific information needed in diagnosis, prognosis and treatment of disease. Technicians use sophisticated instrumentation for these evaluations, which encompass quantitative and qualitative chemical and biological analyses of body specimens. Technicians function under the supervision of a qualified practitioner. The local metropolitan area offers very good employment opportunities and jobs are readily available in smaller communities throughout the country. Opportunities are available in hospitals, independent laboratories, research and industry for graduates of the program.

To successfully participate in the MLT Program and become employable, the student must be able to perform essential functions expected of the profession. Examples of essential functions for the MLT are communication, vision, manual dexterity, physical activity, analytical skills and technical aptitude.

Students are prepared to perform routine clinical laboratory tests under the supervision of a pathologist, medical technologist or physician. The program combines on-campus instruction in fundamental principles with clinical experiences gained through rotation in clinical laboratories. The clinical laboratories affiliated with the MLT Program include Adventist Medical Center, Kaiser Permanente, Legacy Health System, Oregon Health and Sciences University, Providence Health System and Williamette Valley Medical Center.

Because of limited laboratory space and clinical facilities, as well as the delicate balance of job opportunities in medical laboratory science, the MLT Program has a limited enrollment. Applications are accepted once a year for fall entry. The MLT program is competitive and applications are evaluated on a point system. Eligibility for entry into the program is based on successful completion of college courses in biology, chemistry, writing, mathematics and an introductory MLT course. It is strongly recommended that applicants have strong oral communication skills as well. Contact Allied Health Admissions for information on eligibility.

Students in the MLT Program must successfully complete all coursework with a C or better in order to progress in the program. Upon graduation, students are eligible to sit for a national exam to become a certified medical laboratory technician.

The Medical Laboratory Technology Program is accredited by: National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
5600 N. River Rd., Suite 720
Rosemont, IL 60018
773-714-8880

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Medical Laboratory Technology

ADMISSION PREREQUISITES

Academic Prerequisites

- Completion of WR 121, equivalent or higher with a "C" or "P" or better.
- Completion of MTH 95, equivalent or higher with a "C" or "P" or better.
- Completion within the last 7 years of a Biology series (BI 121/122 or BI 231/232/233 or BI 211/212/213 or equivalent or higher) with a "C" or "P" or better.
- Completion within the last 7 years of a Chemistry series (CH 104/105/106 or CH 221/222/223 or equivalent or higher) with a "C" or "P" or better.
- Completion within the last 2 years of MLT 110 or equivalent with a "C" or "P" or better.
• This is a limited entry program. Students planning to enroll in the MLT Program should contact the Allied Health Admissions Office for specific eligibility requirements.

Other Prerequisites
• Completion and submission of program application by the due date.
• Participation in a department orientation session.

PROGRAM REQUIREMENTS

Academic Requirements
• MLT 110: Introduction to Medical Laboratory Technology is open for all students to enroll. All other MLT courses require students to be admitted into the Medical Laboratory Technology Program through the formal application process.
• Students in the MLT Program must:
  • Pass all courses with the prefix MLT.
  • Maintain a cumulative 2.0 GPA each term for all courses with the prefix MLT.
  • Earn a letter grade "C" or higher for MLT 271, MLT 272, MLT 273, and MLT 274.

Other Requirements
• Students are required to have a health assessment completed by a health provider, before initiating clinical laboratory practice, to confirm health status and ability to perform essential functions required from an MLT. In addition, students are required to complete immunization requirements, pass a criminal background check and a urine drug screen. Contact the department office for more information.
• Students enrolled in the MLT Program will be required to use medical devices and follow safety precautions of the clinical laboratory. Students who have a health, physical or psychological problem which may affect or be affected by the use of the devices or precautions should contact the department prior to entering the program.

MEDICAL LABORATORY TECHNOLOGY AAS DEGREE

Minimum 97 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

COURSE OF STUDY

The coursework listed below is required. Unforeseen changes to the curriculum outline may occur due to program, college and clinical affiliate updates and changes. The following is an example of a term-by-term breakdown.

MEDICAL PROFESSIONS (MP)

Cascade Campus
Technology and Education Building (TEB), Room 103
971-722-5667

CAREER AND PROGRAM DESCRIPTION

Healthcare occupations are projected to grow faster than any other career field in order to meet the medical needs of an aging population. The Healthcare Careers 14 credit, Less than One-Year Certificate prepares students with the foundational skills required by employers for entry-level positions in the healthcare industry. In addition, it prepares students to continue their education in allied health by introducing students to the breadth of career opportunities available in the healthcare industry.

Students will examine the soft skills, technical expertise, credentials, and career paths available. Completers will understand what is required to become a healthcare professional, complete first aid and CPR for the health professional, and understand basic medical terminology, electronic health records, and health law and ethics. Students will develop both the customer service skills required in the industry, and well as the technical knowledge. They will be prepared to go into entry-level positions such as Patient Access Specialist, Patient Relations Representative, Medical Office Assistant, Sterile Processing Technician, Dietary Aid, and other entry-level administrative positions in the field.

MICROELECTRONICS TECHNOLOGY

Rock Creek Campus
Science and Technology Division Office
Building 7, Room 202
971-722-7255
pcc.edu/programs/microelectronics/

CAREER AND PROGRAM DESCRIPTION

Semiconductor manufacturing technicians work in clean room environments to maintain equipment, and monitor various manufacturing processes. Technicians must wear clean room suits and follow strict procedures in order to reduce particle count in the manufacturing environment. They must also follow safety procedures when handling process chemicals and gases. Technicians in this fast moving industry must have a broad range of skills and knowledge including strong backgrounds in mathematics, chemistry and physics. Good communication skills in the English language are required to function in team-oriented organizations that are standard in the industry.

Potential employers of program graduates include Intel Corporation, Oregon’s largest high-tech employer, Maxim, Qorvo, Biotronik, Siltronic, Microchip, FEI, SolarWorld, and other high-tech manufacturers.

Study begins by laying a solid foundation in mathematics, chemistry, physics, and electronics before introducing topics in semiconductor manufacturing, process equipment, and vacuum/plasma technology. Instructional time is divided between classroom activities and lab exercises to develop equipment analysis, maintenance, and troubleshooting skills. Students also develop oral and written communication skills in the English language while working and learning in a team environment.

Students may begin during any term of the academic year, however first year sequences must start in fall or winter term. Second year sequences must begin in fall term. First year courses must be completed before starting the second year. Day classes are scheduled so that one section of a course meets on Monday and Tuesday and another section meets on Thursday and Friday, enabling those students working compressed-work-week schedules to take courses. Evening classes are also available for 100 level MT courses.

Full-time day students can complete the program in six to eight terms. Students may elect to take a part-time course load and take longer to complete the program. The core MT classes require two full academic years (six terms) in order to be completed.

For students continuing their education beyond the Associate of Applied Science Degree in Microelectronics Technology, up to 58 credits can apply toward a four-year baccalaureate degree. Graduates of the Microelectronics Technology Program may also transfer to Oregon Institute of Technology to pursue a bachelor degree in Electronic Engineering Technology. The articulation between the two programs allows the possibility to complete a bachelor’s degree in two additional years. Interested students should consult with a program advisor regarding additional requirements. Upper division OIT courses are offered at OIT’s Wilsonville Campus.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Microelectronics Technology
Microelectronics Technology: Automated Manufacturing Technology Option
Microelectronics Technology: Solar Voltaic Manufacturing Technology Option

LESS THAN ONE-YEAR: CAREER PATHWAY CERTIFICATE

Solar Voltaic Manufacturing Technology

ADMISSION PREREQUISITES

Academic Prerequisites

• Students new to the program should establish math and writing level through college credit or by taking the college’s placement examinations for mathematics and writing prior to program advising and registration.
• Students must meet the prerequisites as stated in the course descriptions of the current catalog before registering for first term math, writing, electronics and chemistry courses.
• Students intending to pursue any of the three Microelectronics Technology AAS degrees must be working towards MTH 95 and WR 121.
• Students interested in obtaining a Solar Voltaic Manufacturing Technology Career Pathway Certificate must be able to prove their competency in WR 115 or IRW 115 and MTH 65 through college credit or equivalent placement.

Other Prerequisites

• New students are encouraged to meet with a department representative for advising prior to signing up for classes.

PROGRAM REQUIREMENTS

Academic Requirements

CAREER AND PROGRAM DESCRIPTION
This program is designed to provide individuals with the entry-level skills and experience needed for employment in a wide variety of professional opportunities such as a multimedia associate producer, interface designer, digital video specialist, motion graphic artist, digital compositor, 3D artist, multimedia graphic production artist, multimedia project manager, and more.

The program also provides ongoing skill development to members of the interdisciplinary multimedia team entering from related professions, such as graphic design, film/video, publishing, art, and more.

Multimedia specialists are employed by companies that produce digital media projects destined for screen delivery. Multimedia projects include those focused on business, marketing, education, training, presentations, and entertainment applications.

The program is located at the Cascade Campus. The 100 level multimedia courses are generally offered each term and students begin taking classes during any term. A variety of advanced, 200 level courses are also offered. Degree and certificate students must receive a C or better in all required multimedia courses and general studies courses.

DEGREES AND CERTIFICATES OFFERED
ASSOCIATE OF APPLIED SCIENCE DEGREE
Multimedia
Video Production

ONE-YEAR CERTIFICATE
Multimedia
Video Production

ADMISSION PREREQUISITES
Academic Prerequisites
- Students entering the program must possess strong Macintosh or Windows computer management skills and be familiar with essential software such as word processing and draw/paint programs. Recommended prerequisites: ART 115, ART 116, ART 117.

Other Prerequisites
- None

PROGRAM REQUIREMENTS
Academic Requirements
- All courses for the Multimedia AAS and Certificate and the Video Production AAS and Certificate must be completed for a grade of "C" or "P" or better.

Other Requirements
- None

ASSOCIATES OF APPLIED SCIENCE DEGREE
Multimedia (p. 139)
Video Production (p. 140)

MULTIMEDIA AAS DEGREE
Minimum 98 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the math course(s) required in the program of study. Students should consult with program advisors for course planning.

COURSE OF STUDY
The coursework listed below is required. The following is an example of a term-by-term breakdown.

<table>
<thead>
<tr>
<th>Term</th>

DESCRIPTION
Music is a universal art form practiced and appreciated by every culture of the world. From live music performance as a soloist, ensemble member or accompanist, to working as a studio musician, from composing or arranging music, to teaching music, musicians fulfill a critical, dynamic and often collaborative role within the arts. Formal music education includes the study of music theory, music history and literature, performance practice, music technology, and music pedagogy. The PCC music program offers courses that cater to both musicians and non-musicians alike. We offer a variety of introductory courses while also preparing those who wish to transfer to a four-year music program. With proper music study and training, students may become professional performers, conductors, composers, music theorists, music historians, or music educators.

MUSIC AND SONIC ARTS
Cascade Campus
Moriarty Arts and Humanities Building (MAHB), Room 210
971-722-5226 or 971-722-5430
pcc.edu/programs/music-and-sonic-arts/

CAREER AND PROGRAM DESCRIPTION
The Music & Sonic Arts program at PCC’s Cascade Campus seeks students interested in contemporary, commercial music and students excited to explore the limits of what is technologically and artistically possible through the creation of new sounds, new instruments, and new methods of performance and composition.

In an environment that combines music, art, science, coding, and design, students develop tools that prepare them for leadership in artistic, technical, educational, entrepreneurial and research efforts. In addition, students learn to value the contributions of people of diverse backgrounds and to imagine the important roles of music and technology in the advancement of equity and the creation of economically and culturally vibrant communities.

The Music and Sonic Arts program is located at the Cascade Campus. PCC offers stackable degree options: a less than one-year Music & Sonic Arts Career Pathway Certificate as well as a two-year AAS Degree in Music & Sonic Arts.

DEGREES AND CERTIFICATES OFFERED
ASSOCIATE OF APPLIED SCIENCE DEGREE
Music & Sonic Arts

LESS THAN ONE-YEAR CERTIFICATE
Music & Sonic Arts

ADMISSION PREREQUISITES
Academic Requirements
• The following professional music courses will be required of all program students. All sequential courses must be taken and passed in sequence.

Other Prerequisites
• None

PROGRAM REQUIREMENTS
Academic Requirements
• None

OTHER REQUIREMENTS
• None

MUSIC & SONIC ARTS AAS DEGREE
Minimum 90 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science
Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

COURSE OF STUDY

The coursework listed below is required. The following is an example of a term-by-term breakdown.

First Term

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>

NURSING

Sylvania Campus
Health Technology Building (HT), Room 120
971-722-4466

CAREER AND PROGRAM DESCRIPTION

Portland Community College is a member of the Oregon Consortium for Nursing Education (OCNE). This statewide consortium is composed of eleven Community College Nursing Programs and Oregon Health Sciences University (OHSU) School of Nursing who have jointly developed the competency-based curriculum offered by all OCNE schools. The core competencies address the need for nurses skilled in clinical judgment and critical thinking; evidence-based practice; relationship-centered care; interdisciplinary collaboration; assisting individuals and families in self-care practices for promotion of health and management of chronic and acute illness; end-of-life care; and teaching, delegation, leadership and supervision of caregivers. Acceptance into the PCC program allows for non-competitive admission to OHSU School of Nursing.

The OCNE curriculum is designed as a four-year course of study. The first year is devoted to pre-admissions requisites and/or pre-program courses (45 credits) required before starting the nursing program. The second and third year of study is comprised of six terms, allowing students to complete the Associate of Applied Science degree (AAS) and be eligible to take the NLCEX-RN licensing exam. Licensure is granted through the Oregon State Board of Nursing. After licensure, students can continue on in OHSU RN-BS nursing major program.

Applications are accepted once per year in the winter for fall entry. PCC’s nursing program is competitive and applications are evaluated on a point system. Minimum eligibility requirements must be met in order to apply. Contact the Health Admission Office for information and admission instructions.

Nursing

ADMISSION PREREQUISITES

Academic Prerequisites

- Prior to admission to the nursing program all prerequisite courses must be completed with a grade C or higher. Pass/No Pass courses are not accepted. Note: Prerequisite courses and credits cannot apply toward the Nursing Degree Course of Study. Once admitted into the Nursing Program, the prerequisite courses applicants use to meet the admission requirements will be included in the overall evaluation of the degree plan.

**PROGRAMS & DISCIPLINES**

- FN 225 Nutrition 4
- MTH 95 Intermediate Algebra (or any MTH course for which MTH 95 or MTH 98 is a prerequisite) 4
- or MTH 98 Math Literacy II 4
- PSY 215 Human Development 4
- WR 121 English Composition 4
- WR 122 English Composition 4
- Nursing Program Electives 8

**Other Prerequisites**

- Must contain at least 6 credits of Social Science.
- These courses must be completed within seven years prior to application.
- Must be completed by the end of fall term prior to applying for the nursing program. BI 231 and MTH 95 or higher or successful completion of MTH competency exam must be a part of the 30 credits completed by application deadline for application to be complete.
- Before enrolling in nursing courses, students must complete all 45 credits of prerequisite courses by the end of spring term of the year they will enter the program and must be accepted into the nursing program.

**PROGRAM REQUIREMENTS**

**Academic Requirements**

- None

**Other Requirements**

- None

**NURSING AAS DEGREE**

Minimum 90 credits. Additionally, students must complete the 45 prerequisite credits prior to entry in program. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

**Total Credits:** 90

* Could be used as General Education

4 Courses and credits used towards the Prerequisites cannot apply towards the Nursing Degree Course of Study.

**NURSING PROGRAM ELECTIVES**

Any course from the General Education/Discipline Studies List (p. 22).

Note: Students who plan to continue through to OHSU must be aware that to earn the bachelor’s degree they must have two years of the same high school-level language, or two terms of college-level language or pass a language proficiency examination. College-level foreign language (including American Sign Language) credits count toward degree requirements. A minimum of 9 credits of humanities is required for the OHSU degree. Students planning to earn a bachelor’s degree are encouraged to complete MTH 243 soon after the prerequisite math course.

**NURSING, BRECKINRIDGE (ITT)**

**DESCRIPTION**

This program is a teach-out of the AAS in Nursing program formerly offered by ITT Technical Institute Breckinridge School of Nursing and Health Sciences in Portland, Oregon.

**DEGREES AND CERTIFICATES OFFERED**

**ASSOCIATE OF APPLIED SCIENCE DEGREE**

Nursing, Breckinridge

**ADMISSION PREREQUISITES**

This program is open only to students who were enrolled in the ITT Breckinridge AAS in Nursing in Portland, OR as of August 2016, and who applied for and been admitted to the program under the teach-out agreement. This program is no longer accepting new students.
PROGRAM REQUIREMENTS
All NUB-prefix courses must be completed for a letter grade of “B” or better. NUB-prefix courses may not be taken Pass/Not Pass.

NURSING, BRECKINRIDGE AAS DEGREE
Minimum 98 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Descriptions of NUB and BI 157 courses can be found by selecting the “Courses” tab above.

NUB 270 Complex Care Nursing 8
NUB 280 Nursing Roles II 4
Total Credits 98

\* Could be used as General Education.

BI 157. Microbiology for Breckinridge Nursing. 4 credits.
Introduces microbiology, emphasizing fundamental concepts and principles with practical application.

NUB 100. Nursing Roles I. 4 Credits.
Provides the foundation upon which all subsequent nursing courses are taught. Covers the concepts and principles related to, and the components of, the roles of the professional nurse (provider of care, manager of care, and member of the nursing profession), competent evidence-based nursing practice, therapeutic communication, nursing values, health promotion and maintenance, and the nursing process, within the various health care delivery systems of acute, long-term, and community environments. Presents strategies for success in the nursing program.

NUB 121. Dosage Calculations 1 Credits.
Builds on basic math concepts to introduce step-by-step approaches to the calculation and administration of drug dosages. Incorporates the ratio and proportion, formula, and dimensional analysis methods. Technology is used to present and reinforce application of content.

NUB 131. Adult Nursing I. 8 Credits.
Introduces the principles of caring for selected adult patients with medical-surgical health care needs related to problems with mobility, gastrointestinal function, protection, excetration, or reproduction. Evidence-based nursing care is focused on health promotion, maintenance, restoration of optimal living and/or supporting a dignified death. Nursing skills and techniques are developed and demonstrated in both the nursing skills laboratory and in the clinical setting. Technology is used to reinforce course content.

NUB 132. Clinical Nursing Concepts & Techniques I. 4 Credits.
Builds on the concepts and principles in Nursing Roles I and introduces basic nursing skills and techniques based on the roles and values of nursing within a nursing process framework. Nursing skills are developed, applied and practiced in the nursing skills laboratory. Technology is used to reinforce application of content through patient care scenarios.

NUB 142. Nursing Concepts & Techniques II. 5 Credits.
Builds on the concepts and principles in Nursing Roles I and Clinical Nursing Concepts and Techniques I. The course introduces intermediate nursing skills and techniques based on the roles and values of nursing within a nursing process framework. Nursing skills are developed and practiced in the nursing skills laboratory and expanded upon in a clinical setting. Technology is used to reinforce application of content.

NUB 205. Pharmacology. 4 Credits.
Introduces pharmacological principles, emphasizing actions, interactions, and adverse effects using the nursing process framework to address nursing implications for each drug classification.

NUB 230. Adult Nursing II. 8 Credits.
Introduces the principles of caring for selected adult patients with medical-surgical health care needs related to problems with oxygenation, cardiac output, tissue perfusion, neurological conditions, emergencies, burns, or regulation and metabolism. Evidence-based nursing care is focused on health promotion, maintenance, restoration of optimal living and/or supporting a dignified death. Nursing skills and techniques are developed and demonstrated when providing direct care in the clinical setting.
Technology is used to reinforce course content.

NUB 240. Gerontological Nursing. 4 Credits.
Introduces the general principles of caring for the older adult. It begins with an overview of wellness in the older adult, then looks at the physiological and psychological disorders common to this age group. Evidence-based nursing care is focused on health promotion, maintenance, restoration of optimal living and/or supporting a dignified death. The student learns about the special needs of this patient population while providing nursing care in a variety of settings. Technology is used to reinforce course content.

NUB 250. Mental Health Nursing. 4 Credits.
Introduces the principles of mental health and caring for patients experiencing problems of a psychological nature. Evidence-based nursing care is focused on health promotion, maintenance and restoration of optimal living. Nursing skills and communication techniques are developed and demonstrated when providing direct care in the clinical setting. Technology is used to reinforce content learned in the course and to provide additional application of content through patient care scenarios.

NUB 260. Maternal Child Nursing. 8 Credits.
Introduces the principles of providing evidence-based nursing care for the childbearing family and for children. Care is focused on health promotion and maintenance, prevention of illness, restoration of optimal living and common health problems of the childbearing family and children. Nursing skills and communication techniques are developed and demonstrated when providing direct care in the
clinical setting. Technology is used to reinforce content learned in the course and to provide additional application of content through patient care scenarios.

NUB 270. Complex Care Nursing. 8 Credits.
Introduces the principles of providing nursing care for patients with multiple health related issues. Evidence-based nursing care is directed at illness prevention, disease management, restoration of optimal living, and/or supporting a dignified death. Nursing skills and communication techniques are developed and demonstrated when providing direct care in the clinical setting. Technology is used to reinforce content learned in the course and to provide additional application of content through patient care scenarios.

NUB 280. Nursing Roles II. 4 Credits.
Explores advanced topics related to leadership and management principles and current issues applicable to the roles of the professional nurse as provider of care, manager of care, and member of the profession. Transition from the role of student nurse to registered nurse is discussed. Also includes an overview of, and preparation for, the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

OCCUPATIONAL SKILLS TRAINING

Southeast Campus
Mt Tabor Hall (MTH), Room 128
971-722-6127
971-722-6124 (fax)
pcc.edu/programs/occupational-skills/

CAREER AND PROGRAM DESCRIPTION
The Occupational Skills Training program is designed to provide the opportunity for students to receive worksite-based instruction in a specific occupational area. The programs are individualized and allow flexibility in program design, delivery, and implementation. Individualized plans are developed in consultation with the student, PCC faculty, PCC OST coordinators, work-site supervisors, and agency representative(s), if appropriate.

DEGREES AND CERTIFICATES OFFERED
TWO-YEAR CERTIFICATE
Occupational Skills Training

ONE-YEAR CERTIFICATE
Occupational Skills Training

LESS THAN ONE-YEAR CERTIFICATE
Occupational Skills Training

ADMISSION PREREQUISITES
Academic Prerequisites
• None
Other Prerequisites
• An interview with an OST coordinator is required for assessment, to determine the specific occupation and to identify a suitable training site and its availability.
• Prerequisites are determined by specific occupational standards.
• This is an open entry/open exit program so that students complete a full college quarter, but may begin their program at any time during the school term.

PROGRAM REQUIREMENTS
Academic Requirements
Course of Study

PCC faculty and academic professionals approve community employers based on their experience and training in the specific occupational area. PCC faculty and academic professionals provide on-site monitoring of student progress toward learning outcomes through monthly on-site supervisor reports, weekly/monthly student reports, quarterly learning outcomes and curriculum reviews, and quarterly student evaluations.

Other Requirements
• None

OPHTHALMIC MEDICAL TECHNOLOGY

Career and Program Description
Those training in the Ophthalmic Medical Technology Program develop skills to perform ophthalmic procedures under the supervision of a licensed physician. These procedures include: medical histories, diagnostic tests, refractionometry, anatomical and functional ocular measurements and tests, administration of topical ophthalmic and oral medications, instructing patients, maintaining equipment, sterilizing surgical instruments, assisting in minor ophthalmic surgery and assisting in the fitting of contact lenses. Ophthalmic Medical Technology is a rapidly expanding field and a growing demand exists for technicians.

The Ophthalmic Program is a limited entry program with restricted enrollment. The program is limited to 24-28 students. Only those students who have been officially admitted to the Ophthalmic Medical Technology Program may enroll in OMT courses. Professionals in the field may be admitted when space is available.

The program begins fall term only. To advance to the next term students must successfully complete all of the previous term’s coursework by receiving a grade of Pass or C or better.

This program is designed to correlate classroom and laboratory experiences with clinical experience in ophthalmic offices and clinics and prepares students to function under the supervision of a licensed physician.

This program is accredited by the Commission on Accreditation for Ophthalmic Medical Programs (CoA-OMP). Students in the OMT program will test for national certification as an ophthalmic technician during term seven of the program.
DEGREE AND CERTIFICATE OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Ophthalmic Medical Technology

ADMISSION PREREQUISITES

Academic Prerequisites

- Completion of WR 121, BI 121, BI 122, MP 111 and (MTH 58 or MTH 65, or any course for which one of these is a prerequisite) with a “C” or “P” or better.
- This is a limited entry program. A complete application including two recommendation forms and unofficial transcripts from any colleges attended other than PCC is required.

Other Prerequisites

- Students must have working knowledge or background of basic computer skills including Windows, Internet and e-mail.
- Program advising session with an Cascade Allied Health Admissions Coordinator is recommended.

PROGRAM REQUIREMENTS

Academic Requirements

- Students may consult with faculty advisor about alternative approaches to completing portions of the Ophthalmic Medical Technology curricula.

Other Requirements

- After admission to the program, but before beginning practicum, students may be required to complete some or all of the following: criminal background check, proof of immunizations, and a ten-panel drug screening. There will be a cost to the student associated with completing this requirement.
- Students must have transportation to practicum facilities throughout the Portland metropolitan area.

OPHTHALMIC MEDICAL TECHNOLOGY AAS DEGREE

Minimum 100 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. A maximum of 35 Pass/No Pass credits are allowed in the Ophthalmic Medical Technology AAS Degree. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

PARALEGAL

Cascade Campus
Terrell Hall (TH), Room 109
971-722-5212 or 971-722-5770
pcc.edu/programs/paralegal/

CAREER AND PROGRAM DESCRIPTION

A paralegal is a person, qualified by education, training or work experience who is employed or retained by a lawyer, law office, corporation, governmental agency, non-profit, or other entity and who performs specifically delegated substantive legal work for which a lawyer is responsible. Tasks may include: client and witness interviews, fact investigation, legal research, document drafting and preparation, organization of case materials, and management and analysis of data. A paralegal performs these tasks under the supervision of an attorney. Paralegals may not practice law and may not provide legal services directly to the public except as permitted by law. The program also provides students with skills which enable them to pursue jobs in alternative, related careers.
The PCC Paralegal Program is designed to provide students with a high quality background in paralegal studies, including analytic skills; familiarity with substantive and procedural law; development of various practical skills; familiarity with legal terminology; and research and writing skills. The program has classes that focus on specific skills, such as interviewing, investigation, drafting and research, as well as various substantive law classes. Legal research classes are taught in the program's legal research center located at Terrell Hall (TH) rooms 107 & 109 on the Cascade Campus.

The Paralegal program at Portland Community College is approved by the American Bar Association (ABA) effective February 8, 2010. It is the first Paralegal program in the State of Oregon to achieve ABA approved status. ABA approval provides students and the legal community assurance that PCC’s program is providing a high quality educational experience grounded in practical paralegal preparation.

Classes meet primarily on weekday evenings from 6:30 pm to 9:20 pm. Some daytime and Saturday classes are scheduled. All classes are located at the Cascade Campus or CLIMB Center.

Students who complete the AAS in Paralegal degree may be able to transfer into a Bachelor program. Students interested in transferring to any four-year university should check with that institution regarding transferability status of specific paralegal courses.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Paralegal

ONE-YEAR CERTIFICATE

Paralegal

PREREQUISITES AND REQUIREMENTS

ADMISSION PREREQUISITES

Academic Prerequisites

- High school completion or GED.
- Completion of reading, writing and math placement tests unless waived based upon equivalent course work or college degree
- College level course work from an accredited college may be substituted for required degree and/or certificate course work.
- The Paralegal AAS Degree is an open enrollment program.
- The Paralegal Certificate is a limited entry program requiring department chair approval. For more details see the Paralegal Department webpage. Completing certificate admission requirements does not guarantee admission into the program.

Other Prerequisites

- Program advising is required. Students planning to enroll in the program should contact the department for specific eligibility requirements and advising.

PROGRAM REQUIREMENTS

Academic Requirements

- A letter grade of ‘C’ or better for all PL core courses is required. An overall GPA of at least 2.0 for all PL courses is required to graduate. PL 280A is offered as Pass/No pass only.

Other Requirements

- Visit the department web page for details on admission, prerequisites and requirements: www.pcc.edu/programs/paralegal/

PARALEGAL AAS DEGREE

Minimum 90 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13), and must complete either WR 122 OR 227 AND a computer prerequisite. Students should consult with program advisors in the department for course planning.

PARENTING EDUCATION AND FAMILY LIFE
Sylvania Campus
Social Sciences (SS), Room 201

971-722-4707
pcc.edu/programs/parent-education/

DESCRIPTION
Classes are taught by PCC parent education instructors with expertise in working both with children and adults. Some classes are lecture and discussion and others are interactive with parents and children together. Each class is tailored to the ages of the children and includes study topics. The study topics for the term are chosen jointly by the participants and the instructor in each class. Topics include: development, guidance, communication, self-esteem, health, current issues and others.

Courses are designed to help participants develop skills for successful parenting, learn more about their roles as parents and enhance their relationship with their children. Parent Education courses include: HEC 157, HEC 201, HEC 226 and HEC 280A.

PHILOSOPHY
Cascade Campus
Cascade Hall (CH) 971-722-5251
Rock Creek Campus
Building 5, Room 245 971-722-7327
Sylvania Campus
Social Science Building (SS), Room 201 971-722-4289
pcc.edu/programs/philosophy/

DESCRIPTION
Philosophers ask and attempt to answer fundamental questions about ourselves and the world. What is real? What can be known? How should we live our lives? What is the nature of human nature? What distinguishes logic from illogic? Philosophy courses will look at the answers given to such questions by major historical figures and will help the student to learn how to think critically about issues of the sort raised by these questions. Philosophy courses need not be taken in sequence. All philosophy courses are transferable to Portland State University, Oregon State University and the University of Oregon.

PHYSICAL EDUCATION
Cascade Campus
Physical Education Building (PEB) 971-722-5524
Rock Creek Campus
Building 5, Room 245 971-722-7327
Southeast Campus
Mt. Scott Hall (MSH), Room 103 971-722-6146
Sylvania Campus
Health Technology Building (HT), Room 215 971-722-4210
Newberg Center 971-722-4210
pcc.edu/programs/pe/

DESCRIPTION
Portland Community College Physical Education promotes fit and healthy lifestyles for a diverse group of students by delivering a quality education that includes the knowledge, skills, and practice necessary for living a physically active and healthy life. We offer a
wide range of over 100 courses each term. Course offerings vary from campus to campus, as do facilities and program availability.

PCC does not provide medical coverage. It is strongly recommended that students have medical coverage and a recent physical exam before they participate in physical education courses.

Students who require classroom accommodations should notify the physical education instructor and the Disability Services (DS) office. Disability Services works with students to identify and ensure reasonable accommodations in PCC classes and programs.

Many physical education classes fulfill degree requirements at PCC or other institutions and colleges, or may transfer as elective credit. Students should check with their PCC academic advisor or with the institution to which they plan to transfer. For information on the Fitness Technology program, see Fitness Technology (p. 103) in the catalog.

Sylvania Campus
Science Technology Building (ST), Room 312  
971-722-4174

[pcc.edu/programs/physics/](http://pcc.edu/programs/physics/)

**DESCRIPTION**

Physics is the root discipline of science that describes the natural universe at its most fundamental level. Physics is relevant to a broad range of academic pursuits including chemistry, biology, engineering, medicine and liberal arts. Physics allows students to view the world with a new understanding and appreciation of its order and beauty.

Physics is offered at three different levels: conceptual physics (PHY 101, PHY 102, PHY 103), algebra based (PHY 201, PHY 202, PHY 203) and calculus based (PHY 211, PHY 212,PHY 213). An introductory astronomy series is also offered (PHY 121, PHY 122, PHY 123).

**POLITICAL SCIENCE**

971-722-4289

[pcc.edu/programs/political-science/](http://pcc.edu/programs/political-science/)

**DESCRIPTION**

Political science focuses upon politics and political systems and the behavior of people within political systems. At PCC, primary emphasis is on American government, the constitutional background of American politics, political parties, interest groups, elections, Congress, the Presidency, the Supreme Court and domestic and foreign policies. In addition, PCC offers courses in peace studies, comparative politics, international relations, American foreign policy, political ideologies, and global concerns including ecological issues.

Sylvania Campus
Social Science Building (SS), Room 201  
971-722-4289

[pcc.edu/programs/psychology/](http://pcc.edu/programs/psychology/)

**DESCRIPTION**

Psychology is the scientific study of behavior and mental processes. Psychologists use diverse technological, psycho-physiological, statistical and analytical techniques to investigate how the individual’s immediate environment, past experience, physiological makeup, and sociocultural context influence current thoughts, emotions and behavior. Psychologists actively translate basic science into usable technology, educational innovations, and practical interventions at the personal, group, community, and societal levels.

People with a bachelor’s degree in psychology may pursue careers in a variety of fields, in both the public and private sectors. Careers within the field of psychology often require graduate degrees - and depending on the career -specialized certification/licensure. Psychology students at PCC typically pursue a transfer or bachelor’s degree or another related certificate. Psychology degrees at the associate’s level are not available.

Southeast Campus
Scott 106  
971-722-6217

[pcc.edu/programs/religious-studies/](http://pcc.edu/programs/religious-studies/)

**CAREER AND PROGRAM DESCRIPTION**

Religious Studies, as an interdisciplinary field, investigates the variety of human religious experience. A broad understanding of religion is sought through critical reflection on the various founders, history, myths and doctrines, rituals and traditions, and social and personal ethics. Techniques from the arts, humanities, social, and even hard sciences are employed. Religious Studies prepares students for work...
and study in disciplines such as religion and ministry, social service, archaeology, education, law, linguistics, or political science.

PCC offers four Religious Studies courses. The basic course is World Religions, R 210, which fulfills both General Education and cultural literacy requirements, as does Asian Religions, R 201. Both classes can be used to meet requirements for the Asian Studies Focus Award. Introduction to Old Testament, R 211 and Introduction to New Testament, R 212 provide overviews of the religious background to Western culture, and also meet prerequisites for students transferring to some private colleges and universities.

AAOT students interested in earning a bachelor’s degree in Religious Studies should take related courses in areas such as anthropology, history, literature, and philosophy. Students must check for the specific requirements of the bachelor’s program to which they intend to transfer. The interdisciplinary nature of the field allows students to customize their educational goals while providing a solid foundation for future learning.

RUSSIAN

Sylvania Campus
Communications Technology Building (CT), Room 219
971-722-4841
pcc.edu/programs/russian

DESCRIPTION

All PCC Russian courses are taught using an immersion method. The objective of all Russian courses is to help students to develop communicative competence and proficiency in comprehension, speaking, reading and writing Russian as well as cultural awareness. Assessment is based on consistent attendance, active student participation, and written and oral assignments.

There are no requirements or prerequisites for entry into the first term of first year Russian. However, the student should read the Russian course descriptions for other Russian courses. Students who have studied the language before and are unsure of their placement are encouraged to consult with a world language teacher since they will not be admitted to a course if their skill level is too advanced for that course.

All students who enroll in world language classes (including those on the waiting list) are expected to attend class the first day when material essential for successful completion of the course will be presented. Students who do not attend the first class session may be replaced by those who do attend.

SIGN LANGUAGE INTERPRETATION (SLIP)

Sylvania Campus
Communications Technology Building (CT), Room 219
971-722-4672 (Voice)
503-928-5867 (Videoophone)
pcc.edu/programs/sign-language/

CAREER AND PROGRAM DESCRIPTION

Professional sign language interpreters work in a variety of settings such as education, social service, religion, government, business, performing arts, mental health, medical, legal, video relay and law enforcement. Interpreters may specialize in one area or may work in private practice in a variety of settings. Many of the graduates from this program are hired into entry level positions in educational settings. Currently, the demand for services exceeds the supply of qualified interpreters nationwide.

The program focuses on the acquisition of bi-cultural and bi-lingual abilities and on both interpretation and transliteration skills. Students may retake courses if needed (not for credit), which will assist them in developing exit competencies.

An articulation agreement between PCC and Marylhurst University allows students to apply credits earned in Sign Language Interpretation (SLIP) or Deaf Studies and general education toward a bachelor degree in Human Studies or another discipline at Marylhurst. For more information, contact Marylhurst University.

A transfer agreement between PCC and Portland State University allows students to apply credits earned in Sign Language Interpretation (SLIP) AAS degree or Deaf Studies Certificate toward a bachelor degree in any major at Portland State University. For more information, contact Portland State University.

DEGREE AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

SIGN LANGUAGE INTERPRETATION

TWO-YEAR CERTIFICATE

Sign Language Interpretation

ONE-YEAR CERTIFICATE

Deaf Studies

ADMISSION PREREQUISITES

Academic Prerequisites

1. This is a limited entry program. Students must submit an application.
2. Complete WR 121 with a letter grade of "C" or better prior to entering the program.
3. Complete ASL 240 with a letter grade of "C" or better prior to entering the program. Students taking any prerequisites classes during the summer prior to enrollment may be tentatively accepted based on their progress in the course at midterm, with final acceptance pending successful completion of the course.
   a. ASL 240 is a lecture course listed under Sign Language Studies in the college schedule and serves as a prerequisite course.
4. Complete ASL 101, ASL 102, ASL 150, ASL 151, ASL 250, ASL 251 with a letter grade of "C" or better prior to entering the program.
5. Demonstrate American Sign Language and other basic skill and knowledge competencies through the department-administered assessment given in the spring.

The deadline to complete the first four steps above is the last Friday in March. Once the fourth step is complete, students will be given a language assessment. Minimum entrance requirements are intermediate level for ASL and superior level for English. Candidates with higher language competencies will be awarded seats before those with lower language competencies.

Other Prerequisites

• None

PROGRAM REQUIREMENTS

Academic Requirements

• This is a full-time two year (six term) program for students interested in sign language interpretation as a career. A maximum of 25 students will be accepted annually starting in the fall term. There are five practicum courses which place students in contact with Deaf people, employers and professional interpreters. Students must pass a Benchmark Assessment before being accepted into an internship. Graduation is dependent upon entrance into and successful completion of an internship under the direction of a professional interpreter who acts as a mentor.
• Students who require additional time to master interpreting skills may return after completion of second year courses to prepare to enter and complete this internship by re-taking and passing the Benchmark Assessment. SLIP coursework which would assist this development is available to the candidate. These courses must be taken for credit. Please make arrangements with the SLIP Department.

• Students must receive passing grades as determined by program policy to maintain student status in the program. Students are required to take either ITP 283 or ITP 284 for graduation from the certificate program or with the Associate of Applied Science Degree.

• Note: All courses within the SLIP are open to individual professional interpreters and to other professionals working in fields serving Deaf people. This is subject to course availability, class size and program permission based on prerequisite skill and knowledge. Please contact the department chair to discuss the suitability and appropriate placement for the particular professional.

• Because interpreters work in a variety of settings, students are encouraged to broaden their general knowledge in a variety of areas. For those planning to work in K-12 or post-secondary education, background in English, writing and literature, history, science, social studies, math and basic computer use is essential. SLIP students may find the following electives helpful: COMM 111 and TA 144.

• Students in the Sign Language Interpretation Program, who find that interpreting is not an appropriate goal for them, may transfer to the Deaf Studies program. They must complete a separate application packet and explore possible occupations as part of the application process. Coursework for the Deaf Studies certificate closely parallels that of the SLIP, with the omission of some of the hands on interpreting courses. The Deaf Studies certificate does not qualify students to work as interpreters, but is required to take either ITP 283 or ITP 284 for graduation from the certificate program or with the Associate of Applied Science Degree. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is required to take both. ITP 283 is normally taught in the winter term; ITP 284 is normally taught in the spring term. Students must select one.

Other Requirements
• None

SIGN LANGUAGE INTERPRETATION AAS DEGREE
Minimum 107.5 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. Math/computation competency is met through the courses in the program of study indicated with a § symbol. Students should consult with program advisors for course planning.

§ Course cannot be substituted with another course.

Only one internship (ITP 283 (p. 155) or ITP 284 (p. 155)) is required for the degree or certificate, however, students are strongly encouraged to take both.

### SIGN LANGUAGE STUDIES (SLS)

**SYLVANIA CAMPUS**

Communications Technology Building (CT), Room 219
971-722-4672 (Voice)
503-928-5867 (Videophone)

pcc.edu/programs/sign-language-studies/

#### DESCRIPTION

American Sign Language (ASL) is the signed language used by Deaf people in the United States and parts of Canada. ASL courses are offered for General Education credits as a modern language for students earning an associate degree from PCC, and 200-level core courses satisfy the language requirement for the Associate of Arts Oregon Transfer (AAOT).

With the exception of ASL 240, American Sign Language is used in classes; no spoken English is used. This method involves students in conversation using ASL and prepares them to function comfortably in a variety of situations in the Deaf community. Completion of ASL courses does not qualify a student to perform interpreting services. Interpreting requires formal training. Students who are interested in interpreting as a career, please see the catalog description under Sign Language Interpretation. ASL courses do not qualify a student to perform interpreting services.

In addition to the certificate and degree offered in Sign Language Interpretation, PCC also offers a certificate in Deaf Studies. The prerequisites for both of these programs are 24 credits of ASL courses and ASL 240 (Introduction to the Deaf Community). Those students who have learned some ASL before coming to PCC can request an ASL skills assessment interview to be placed in the appropriate level ASL course.

All students who enroll in American Sign Language classes, including those on the waiting list, are expected to attend the first class session, when material essential for successful completion of the course will be presented. Students who do not attend the first class session may be replaced by those who do attend. Students who have previously studied sign language elsewhere or who are returning to study ASL after more than a six month absence must make an appointment for a placement interview by calling the above phone number.

There are no prerequisites for entry into the first term of American Sign Language. However, students should read the course descriptions for the prerequisites for other American Sign Language courses to determine their eligibility. ASL core courses are offered in both regular and accelerated formats. The regular courses are four credits per term, while the accelerated courses are six credits per term.
term. Students can switch from regular to accelerated courses (or the reverse) between the 100 level and the 200 level, but not within one level.

SOCIAL JUSTICE

Rock Creek Campus
Building 5, Room 245
971-722-7154
pcc.edu/programs/social-justice/

DESCRIPTION

PCC’s Social Justice program aims to develop an interdisciplinary understanding of systems of power, privilege, and domination including the personal, social, cultural, economic, and political consequences on communities, the environment, and society. Students will explore approaches to social change and social movements and engage in practical campus- and community-based experiences with organizations addressing these issues.

Learn more about the Social Justice Focus Award here: pcc.edu/programs/social-justice/

SOCIOLOGY

Cascade Campus

971-722-6146

Sylvania Campus
Social Science Building (SS), Room 201
971-722-4289
pcc.edu/programs/sociology/

DESCRIPTION

Sociology is a social science involving the study of the lives of people in relation to groups and societies. Sociologists examine everything from the analysis of brief interactions between anonymous individuals on the street to the study of global social processes.

The goal of the sociology program at PCC is to support students in cultivating a sociological imagination; that is, the ability to connect their personal experience to broader social and historical contexts. In doing so, students develop the skills to identify, analyze and intervene in the larger social forces that shape their lived experiences, their communities, and the broader social world.

At PCC, sociology students will: 1) develop a sociological imagination, 2) apply social theories and empirical evidence to analyze larger social forces, 3) analyze the construction of culture and its relationship to systems of inequality, 4) articulate a sociological perspective in written form, and 5) apply a sociological understanding of social change to intervene in the larger social forces that shape their lived experiences, their communities, and the broader social world.

Many sociology courses offer community-based learning options, which allow students to apply course material to volunteer work in the greater Portland community.

Whichever career a student chooses, from engineering to social services, sociology provides a foundation for understanding how the social world works and the roles we play within it.

SPANISH

Cascade Campus
Cascade Hall (CH), Room 208

971-722-3585

Sylvania Campus
Communications Technology Building (CT), Room 219
971-722-8004
pcc.edu/programs/spanish/

DESCRIPTION

All PCC Spanish courses are taught using an immersion method. The objective of all Spanish courses at PCC is to help students to develop communicative competence and proficiency in comprehension, speaking, reading, and writing Spanish as well as cultural awareness. Assessment is based on consistent attendance, active participation, effective use of the language to communicate, and written and oral assignments.

There are no requirements or prerequisites for entry into the first term of first year Spanish. However, the student should read the Spanish course descriptions for other Spanish courses. Students who have studied a language before and are unsure of their placement are encouraged to consult with a world language teacher since they will not be admitted to a course if their skill level is too advanced for that course.

All students who enroll in world language classes (including those on the waiting list) are expected to attend class the first day when material essential for completion of the course will be presented. Students who do not attend the first class session may be replaced by those who do attend.

SUSTAINABILITY

PCC’s academic sustainability committee, SPARC (Sustainable Practices for Academics and Resources Council) has identified courses in the current catalog as having a sustainability focus. A Focus Award (p. 170) in Sustainability is also offered.

THEATRE ARTS

Cascade Campus
Moriarty Arts and Humanities Building

Building 3, Room 201
971-722-7235

Sylvania Campus
Performing Arts Center
971-722-4323
Box Office 971-722-4323
pcc.edu/programs/theatre/

DESCRIPTION

The PCC Theatre Arts (TA) program offers a wide variety of courses on the Sylvania and the Cascade campuses. The program produces three main-stage productions per school year (Fall, Winter and Spring) spanning great works by Shakespeare, Lin-Manuel Miranda,
Jane Austen, Stan Sakai and Caryl Churchill among other notable dramatists.

The Sylvania campus’ Performing Arts Center (PAC) houses a state-of-the-art proscenium multi-use theater and facility, which doubles as PCC’s most popular rental facility for over 800 annual events. The skills taught in TA program classes and productions allow students to qualify for paid work in the PAC’s numerous rentals throughout the academic year, often leading to employment in the theatre community.

The Sylvania TA program embraces collaboration in the classroom and its 3 annual main-stage productions. Our popular productions utilize student actors, technicians, crew and designers who collaborate with professional staff, faculty and guest artists. The TA courses at Sylvania prepare community college students in the arts of fundamentals and advanced acting; beginning and advanced improvisation; scenic, costume, lighting, make-up design; backstage crew positions; stage management and stagecraft. Our students often go on to obtain professional employment, are active in many areas of semi-professional and professional theatre, or excel with the hands-on skills obtained here when transferring to four-year academic programs. Many of our exceptional TA students in our program have competed in the Kennedy Center/American College Theatre Festival and have brought home regional and national awards and recognition.

The Sylvania TA program follows a two-year cycle, including a commitment to Classical, a Musical, American Classics, among numerous other exciting theatre productions, often in collaboration with the Dance and Music programs. Students are required to take credit courses when involved in TA productions. Auditions and crew assignments are open to all.

Theatre Arts courses provide a nurturing atmosphere for exploration of this collaborative and compelling art form. In addition, the popular annual student Short Play Festival showcases short works directed, acted, crewed and designed by PCC students. The Theatre Arts Club also produces various projects each term, occasional original works and staged readings. The popular Improvisation Club (PANTS) performs regularly and has won local acclaim and competitions.

The emerging TA program at Cascade Campus includes courses in acting, improv, movement, theatre appreciation, and collaborative classes with Multimedia (Acting for Camera and Directing Actors for the Camera). In Spring 2015, Cascade offered its first Devised Performance, an original piece created jointly by students and faculty.

**VETERINARY TECHNOLOGY**

Rock Creek Campus
Building 7, Room 202
971-722-7461
pcc.edu/programs/vet-tech/

**CAREER AND PROGRAM DESCRIPTION**

Veterinary technicians work with veterinarians and are skilled and knowledgeable in the practical application of aspects involved in the care and handling of animals, clinical laboratory procedures, animal diseases, animal nutrition, pharmacology, radiography, anesthesiology and medical and surgical assistance. Graduates are prepared to function as competent veterinary technicians in small and large animal hospitals and clinics, laboratory animal research facilities, educational institutions, animal shelters, military service and commercial firms. The program also emphasizes the development of professional attitudes and interpersonal skills expected of health care professionals.

This program is fully accredited by the Committee on Veterinary Technician Education and Activities of the American Veterinary Medical Association. Graduates are eligible to take the Veterinary Technician National Examination administered by the Oregon Board of Veterinary Medical Examiners. Graduates are also eligible for licensure in other states.

This is a seven-term, full time program. All Veterinary Technology courses must be taken in the sequential order in the course of study below. All Veterinary Technology courses must be completed with a C or better to qualify for continuation in the program.

**DEGREES AND CERTIFICATES OFFERED**

**ASSOCIATE OF APPLIED SCIENCE DEGREE**

**Veterinary Technology**

**ADMISSION PREREQUISITES**

**Academic Prerequisites**

- High school diploma, GED certificate, or equivalent required.
- Completing MTH 95, its equivalent or higher with a letter grade of "C" or better.
- Completion of WR 121, it’s equivalent or higher with a letter grade of "C" or better.
- Completion of CH 151, its equivalent or higher with a letter grade of "C" or better.
- Completion of BI 112, its equivalent or higher with a letter grade of "C" or better.
- Completion of MP 111, its equivalent or higher with a letter grade of "C" or better.
- The Veterinary Technology program is a closed entry program of the program of study, students must satisfy MTH 58/65 competency of "C" or better.
- The Veterinary Technology program is a closed entry program of the program of study, students must satisfy MTH 58/65 competency of "C" or better.

**Other Prerequisites**

- A minimum of forty hours of observation with a veterinarian is required. This may be done as a paid employee or as a volunteer.

**PROGRAM REQUIREMENTS**

**Academic Requirements**

- None

**Other Requirements**

- None

**VETERINARY TECHNOLOGY AAS DEGREE**

Minimum 100 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of sixteen credits of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency (p. 13). Students should consult with program advisors for course planning.

**COURSE OF STUDY**

Swan Island
Welding Center
5555 N Channel Ave
503-247-1724
pcc.edu/programs/welding/

### Career and Program Description

Welding is a skill used by many trades: sheet metal workers, ironworkers, boilermakers, carpenters, steamfitters, glaziers and repair and maintenance personnel in applications ranging from the home hobbyist to heavy fabrication of bridges, ships and many other projects. A variety of welding processes are used to join units of metal.

The Welding Technology Program has been developed specifically as an open entry and open exit (OEEO) program. The program is designed to fit the needs of a student (take as few or as many courses as desired), and have the following characteristics: open entry (enter at any time during the term); self-paced (learn at your own pace); flexible (select your own attendance schedule); individualized (a program can be tailor-made to fit specific needs); and, open exit (leave the program when you have met your training goals/needs).

Consult a program advisor through the department to help plan a course of study that will allow you to achieve your educational goals.

### Degrees and Certificates Offered

#### Associate of Applied Science Degree

Welding Technology

#### Less Than One-Year Certificate: Career Pathway

- Flux Core Arc Welding Certification Preparation
- Gas Tungsten Arc Welding Certification Preparation
- Gas Tungsten Arc Welding Customized
- General Fabrication Preparation
- Metal Fabrication Customized
- Pipe Welding Certification Preparation
- Pipe Welding Customized
- Shielded Metal Arc Welding Certification Preparation
- Shielded Metal Arc Welding Customized
- Welding Certification Preparation Customized
- Welding Technology
- Wire Welding Certification Preparation
- Wire Welding Customized
- Wire and TIG Welding

### Admission Prerequisites

- **Academic Prerequisites**
  - None
- **Other Prerequisites**
  - Contact department for program advising.

### Program Requirements

- **Academic Requirements**

### WOMEN’S STUDIES (WS)

Sylvania Campus  
Social Science (SS), Room 201  
971-722-4289  
ppc.edu/programs/womens-studies/

### DESCRIPTION

Women’s Studies introduces the past and present achievements and experiences of women from an interdisciplinary and global perspective. The courses explore the decisive role that gender has played and continues to play in human societies and contributes to an understanding of women's lives. Knowledge derived from women's studies courses will enable people to analyze current problems that women face in the areas of employment, the family, domestic violence, health and the legal system. Since women comprise more than half of the world’s population, an understanding...
of their experiences, history, needs and abilities is an asset to students considering careers in such fields as education, social service, government, business, law, the ministry, journalism, health occupations and childcare.

Women’s Studies courses require college-level reading and writing skills.

All Women’s Studies courses can apply towards the Associate of Arts Oregon Transfer Degree (AAOT) requirements. WS 101 may be taken for either arts and letters credit, or social science credit.

The Women’s Studies Focus Award (p. 171) at PCC prepares students for entry into other Women’s Studies Programs at the bachelor’s degree level. In Oregon these programs can be found at Portland State University, University of Oregon, Oregon State University, and Lewis & Clark College. Additional information on the Women’s Studies Focus Award may be found in the Focus Award section of the catalog.

pcc.edu/programs/writing/

DESCRIPTION

Writing is fundamental in learning to think and express one’s thoughts in ways that reach others. The ability to use language coherently and powerfully and to write in ways that connect with others across cultural boundaries and within communities is essential to active citizenship and to success in almost any profession. The writing courses at PCC enable students to inquire, to discover, to inform, to persuade, and to think creatively, preparing them to transfer to universities and evolve vocationally.

PCC’s English Composition Program courses prepare students for the written work of upper division courses and graduate education; also, writing courses meet the requirements for several associate degree and certificate programs at PCC. For students who wish to transfer to a four-year Oregon college or university, WR 121, WR 122 and/or WR 227 satisfy the writing course requirements. Writing transfer courses are offered under the subject headings of English Composition, Business and Technical Writing, and Creative Writing. Students majoring in technical areas or business are encouraged to take WR 227.

In addition, PCC’s Creative Writing Program offers students one of the largest selections of creative writing courses in Oregon. These include poetry, fiction, creative nonfiction and screenwriting workshops and a publishing course that allows students to edit and design both their own chapbooks and a campus literary magazine. Students may also pursue a Creative Writing Focus Award (p. 166). Placement into WR 121 is a prerequisite for creative writing classes; completion of WR 121 is recommended.

Conferences are an integral part of the instructional process in all writing courses, and students should expect at least two per term. Students are required to take the writing placement examination to determine appropriate placement in a writing course. Testing centers are available at Cascade, Rock Creek, Southeast or Sylvania.

Once students receive placement scores, they should check with an advisor before enrolling in a writing course.
FOCUS AWARDS

Focus Awards recognize the completion of a collection of courses in an area of study. By taking the courses required for a Focus Award, students deepen and broaden their knowledge and experience in that particular area of study. This can be particularly helpful as a head start toward a major at a four-year institution where a student might transfer. Focus Awards are administered and awarded by the responsible Division Dean. Focus Awards are not to be confused with degrees or certificates, as they are not officially recognized by the state, and do not appear on transcripts.

ASIAN STUDIES FOCUS AWARD

pcc.edu/programs/asian-studies/

The courses included in PCC’s Asian Studies Focus Award foster a rich understanding and appreciation of the cultures of Asia. A minimum of sixteen credits from the courses listed below entities students to receive an Asian Studies Focus Award, which will show prospective employers and transfer colleges a foundational focus on Asia. These studies encourage broader reflections about the nature of culture and how it shapes everything from world views to daily life. Above all, the focus award enables students to develop a multidimensional perspective on Asia with its many cultures and to enhance their own life experience as well.

ASIAN STUDIES FOCUS AWARD REQUIREMENTS

To receive the Asian Studies Focus Award, a student will complete at least 16 credits from the following choices, which must:

- Include no more than two courses from one discipline (e.g. Art, Japanese, Literature)
- Cover more than one geographic area of Asia
- Include no more than one general course, in which the student should focus on Asian topics. (ATH 103; BA 203; COMM 140; GEO 212; MUS 108; PS 204; PS 205; R 210; WS 201).

Although only two courses from one discipline may apply toward the award, we encourage and wholeheartedly support taking two full years of an Asian language.

COURSES MAY BE SELECTED FROM THE FOLLOWING:

| Anthropology  | Introduction to Cultural Anthropology | 4 |
| Art          | History of Asian Art (India)          | 4 |
| Art          | History of Asian Art (China)          | 4 |
| Art          | History of Asian Art (Japan)          | 4 |
| Business Administration | Introduction to International Business | 3 |
| Chinese      | Art                                   | 4 |
| English      | World Literature - Asian (India)      | 4 |
| English      | World Literature - Asian (China)      | 4 |
| English      | World Literature - Asian (Japan)      | 4 |
| Music        | Music Cultures of the World           | 3 |
| Philosophy   | Introduction to Asian Philosophy      | 4 |
| Physical Education | Any PE course with an Asian focus, such as Aikido, Judo, Karate, Tae Kwon Do, Tai Chi, and Yoga may apply to the focus award. |
| Political Science | Comparative Political Systems | 4 |
| Political Science | Global Politics: Conflict & Cooperation | 4 |
| Religious Studies | Asian Religions | 4 |
| Religious Studies | World Religions | 4 |
| Women's Studies | Intercultural Women's Studies | 4 |

All language and culture credit courses may apply to the focus award. They vary from 1-6 credits.

OTHER

As part of the process of pursuing the Asian Studies Focus Award, students are encouraged to work with an Asian Studies committee member as a mentor. For more information, please visit our website at: pcc.edu/programs/asian-studies/

The Asian Studies Focus Award satisfies Portland State University’s International Studies requirement, INT 216a, Introduction to Asian Studies, with some restrictions. PCC is a Regional Center of the East-West Center’s Asian Studies Development Program (ASDP): www.eastwestcenter.org/ASDP. In addition, PCC is affiliated with the Oregon East Asia Network: oean.uoregon.edu.

BLACK STUDIES FOCUS AWARD

PCC’s Black Studies courses contribute to the understanding of the unique issues that people of African ancestry face in the modern world by taking an interdisciplinary approach to examine the economics, history, politics, culture, literature, and art of the African Diaspora.

PCC offers one of the largest selections of courses that reflect the Black experience. This focus award enhances existing degrees and certificates and shows prospective employers and transfer colleges a foundational focus on the black experience and multicultural issues. In addition, students completing the Africa series of courses build a foundation for International Studies. Students completing the award will be eligible for the lower division course requirements for Portland State University’s Black Studies degree.

Students who are applying for the Black Studies Focus Award should call 971-722-5637.

BLACK STUDIES FOCUS AWARD REQUIREMENTS

To receive the Black Studies Focus Award, a student will complete at least 16 credits from the following choices, with no more than two courses from one discipline.

Courses may be selected from the following:

| Anatomy  | Introduction to Intercultural Communication | 4 |
| Geography | Geography of Global Issues | 4 |
| History   | History of India and South Asia Region      | 4 |
| History   | History of China                           | 4 |
| History   | History of Korea and Japan                 | 4 |
| English   | African-American Literature                 | 4 |
| English   | African-American Literature                 | 4 |

CHINA STUDIES FOCUS AWARD

The China Studies Focus Award recognizes students who have gained considerable knowledge of China, its language and its culture. The award can be especially useful to transfer students who will focus on International Studies, Asian Studies, International Business, or Chinese. The award also demonstrates to employers that the student has a significant background in East Asian culture and an expanded worldview. To receive the China Studies Focus Award, a student must complete a minimum of 15 credits, including CHN 102 or higher or demonstrate equivalent language proficiency.

A focus award is not a state approved award and will not appear on a student’s transcript. For more information, contact Tom Huminski, Department of English, thuminsk@pcc.edu.

CHINA STUDIES FOCUS AWARD REQUIREMENTS

1. Meet Chinese language proficiency by completing CHN 102 or above or demonstrating equivalent language skills.
2. Complete a minimum of one class from Core A course list.
3. Complete a minimum of one class from the Core B course list.
4. Complete a minimum of 15 total credits.

Chinese language courses
CHN 101 First Year Chinese 5
CHN 102 First Year Chinese 5
CHN 103 First Year Chinese 5
CHN 201 Second Year Chinese 5
CHN 202 Second Year Chinese 5
CHN 203 Second Year Chinese 5
Core A: Choose a minimum of one course from below
CHN 260 Chinese Culture 3
EC 242 Modern China and Its Neighbors 4
or PS 242 Modern China and Its Neighbors
HST 106 History of China 4
Core B: Choose a minimum of one course from below
ART 208 History of Asian Art 4
ENG 208 World Literature - Asian (China) 4
PhIL 210 Introduction to Asian Philosophy 4
R 201 Asian Religions 4

COMMUNICATION STUDIES FOCUS AWARD

The Communication Studies Focus Award recognizes students who have gained considerable background in Communication Studies as part of their certificate or transfer degree program. The award is granted to students who have completed the required combination of Communication Studies courses. This award is especially useful for students seeking to minor or major in Communication Studies at Portland State University or any Oregon college or university. Students who wish to transfer should check with the specific institution for course transferability.

Students who are applying for the Communication Studies Focus Award should fill out the online application form:
pcc.edu/programs/communication-studies/focus-award.html

COMMUNICATION STUDIES FOCUS AWARD REQUIREMENTS

1. Students must complete four or more courses all with a C or better:
   a. Two required courses
   b. Two additional courses from either category

Required Courses
COMM 100 Introduction to Communication 4
COMM 111 Public Speaking (or COMM 111H) 4
COMM 214 Interpersonal Communication: Process and Theory 4

Additional Courses (choose two)
COMM 105 Listening 4
COMM 110 Voice and Articulation 3
COMM 112 Persuasive Speaking 4
COMM 130 Business & Professional Communication 4
COMM 140 Introduction to Intercultural Communication 4
COMM 204 Visual Communication for Media 4
or J 204 Visual Communication for Media 4
COMM 212 Voice & Diction 4
COMM 215 Small Group Communication: Process and Theory 4
COMM 227 Nonverbal Communication 4
COMM 228 Mass Communication and Society 4
or J 201 Mass Communication and Society 4
COMM 229 Oral Interpretation 3
COMM 237 Gender and Communication 4

CREATIVE WRITING FOCUS AWARD

The Creative Writing Focus Award is designed to offer students a rounded experience in the craft of creative writing. Students work on their own writing, workshop their writing and the writing of others, study literature, and learn about editing and publishing. This program introduces students to the field of creative writing as well as enhancing degrees from other disciplines. Through introductory and advanced courses in creative writing and literature, a Creative Writing Focus empowers students to realize themselves as writers and imagine the possibilities of a career in creative writing.

All courses required for a Creative Writing Focus Award meet AAOT (Associate of Arts, Oregon Transfer) degree requirements. Focus awards are not to be confused with degrees or certificates, are not officially recognized by the state, and do not appear on transcripts.

CREATIVE WRITING FOCUS AWARD REQUIREMENTS

To receive the Creative Writing Focus Award, students must complete 20 credits that include:
8 credits of introductory coursework
WR 239 Creative Writing (Word & Image)
WR 240 Creative Writing - Nonfiction
WR 241 Creative Writing - Fiction
WR 242 Creative Writing - Poetry
WR 243 Creative Writing - Script Writing
4 credits of editing and publishing coursework
WR 246 Advanced Creative Writing, Editing & Publishing

4 credits of advanced coursework
WR 244 Advanced Creative Writing - Fiction
WR 245 Advanced Creative Writing - Poetry
WR 247 Advanced Creative Writing - Scriptwriting
WR 248 Advanced Creative Writing - Nonfiction
WR 249 Advanced Creative Writing, Editing & Publishing II

4 credits of English literature coursework
Any one of PCC’s 4-credit English literature courses will satisfy the literature requirement.

ADDITIONAL INFORMATION
WR 246 may be waived, subject to approval by the faculty contact person on your campus, on the grounds of schedule conflict or equivalent experience. A waiver requires students to take another creative writing class, beginning or advanced, in place of WR 246.

Students completing both WR 246 and WR 249 receive a Focus Award Plus.

All advanced creative writing courses and the literature class must be taken at Portland Community College.

Students applying for the Creative Writing Focus Award should contact the administrative liaison for the focus award at 971-722-4266.

GLOBAL STUDIES FOCUS AWARD
The courses included in PCC’s Global Studies Focus Award foster a rich understanding and appreciation of the diverse cultures of the world. Students who successfully complete a minimum of four courses for a total of twelve credits or more from the Global Studies Focus Award requirements have the distinction of receiving a Global Studies Focus Award, which recognizes a foundation in international studies. These studies encourage broader reflections about the nature of culture and how it shapes everything from worldview to everyday life. Above all the curriculum enables students to develop a multidimensional perspective on the world, its many cultures, as well as their own life experiences. Students earning a Focus Award will be in a position to apply these perspectives and demonstrate cultural understanding to prospective employers and transfer colleges. This award is especially useful for students seeking to minor or major in International Studies at Portland State University, as well as other institutions offering and internationally-focused major or minor.

Students applying for the Global Studies Focus Award should contact the administrative liaison for the focus award at 971-722-4266.

GLOBAL STUDIES FOCUS AWARD REQUIREMENTS
Students must complete four courses for a total of twelve credits or more:

1) INTL 201: Introduction to International Studies.
2) a course from the Global Arts & Letters list.
3) a course from the Global Social Science list.
4) a course from either Global Arts & Letters or Global Social Science list.

In addition to the formal coursework outlined above, students are strongly encouraged to expand their learning beyond the classrooms by attending internationally-focused events on campus and in the community and by participating in a study abroad program. Those who do will be extremely well prepared to transfer to the International Studies program at the bachelor’s and graduate levels.

HEALTH STUDIES FOCUS AWARD

The Health Studies Award provides students with an introductory body of knowledge in Health Studies to prepare them for further academic study and transfer to a four-year institution. Benefits of this award include:

- Opportunities to build their understanding of the complex factors, forces and institutions that influence individual, community, environmental and global health;
- Academic support, guidance, and encouragement through faculty-student mentoring; and
- Opportunities to network with local four-year universities and colleges.

The Health Studies Award prepares students to pursue health studies and related programs at the bachelor level. In Oregon, these programs can be found at Portland State University, Oregon State University, Western Oregon University and other schools in the Oregon University System and private colleges.

Students receiving the Health Studies Award will have successfully completed a minimum of 15 credits (with a C or better) from the following choices, which must include:

- Core Health Courses
- An additional course from Elective Health Courses
- Remainder of credits from Elective Health Courses or Approved Related Course List

Health Core Required Courses
Choose one of the following:

- HE 242 Stress and Human Health 4
- HE 250 Personal Health 3
- HE 251 Community and Public Health Issues 4
- HE 295 Health and Fitness for Life 3
- & PE 295 and Health and Fitness for Life Lab 3

Elective Health Courses (one required, addition may be selected)

- HE 212 1 Women's Health 4
- HE 213 Men's Health 4
- HE 255 1 Film and Public Health 4
- HE 264 Health, Food Systems, and the Environment 3
- HE 278 Human Health and the Environment 3

Approved Related Courses

- ESR 171 Environmental Science: Biological Perspectives 4
- FN 225 Nutrition 4
- PSY 215 Human Development 4
- PSY 231 Human Sexuality 4
- SOC 231 Sociology of Health & Aging 4

1 Lower division courses that will be accepted as equivalent to PSU's upper division courses. Transfer students will still need to complete upper division credit requirements for the university and/or college.

HISTORY FOCUS AWARD

The History Focus Award is designed to foster a rich understanding and appreciation of history as a discipline that is engaged in dialogues with the past in order to interpret human experiences over time. This award supports students interested in history by offering the opportunity to study a wide variety of courses covering different areas, eras, and topics in history.

Students completing the award will be able to use a maximum of 16 lower-division history credits towards the Portland State University History Major requirements. Students planning to transfer to other universities should check with the specific institution for course transferability.

To apply for the History Focus Award please complete an application form.

HISTORY FOCUS AWARD REQUIREMENTS

To receive the History Focus Award, a student must complete 16 credits. Courses must be selected from the following:

HST 101 History of Western Civilization: Ancient to Medieval 4
HST 101H History of Western Civilization: Ancient to Medieval Honors 4
HST 102  History of Western Civilization: Medieval to Modern  4
HST 102H History of Western Civilization: Medieval to Modern - Honors  4
HST 103  History of Western Civilization: Modern Europe  4
HST 103H History of Western Civilization: Modern Europe - Honors  4
HST 104  History of the Middle East  4
HST 105  History of India and South Asia Region  4
HST 106  History of China  4
HST 107  History of Korea and Japan  4
HST 201  History of the United States to 1840  4
HST 202  History of the United States 1840-1914  4
HST 203  History of the United States 1914 to Present  4
HST 204  History of Women in the U.S.: Pre-colonial to 1877  4
HST 205  History of Women in the U.S.: 1877 to Present  4
HST 218 American Indian History  4
HST 225 History of Women, Sex, and the Family  4
HST 240 Oregon History  4
HST 246 Religion in the United States to 1840  4
HST 247 Religion in the United States since 1840  4
HST 250 African American History to 1877  4
HST 251 African American History since 1877  4
HST 270 History of Mexico  4
HST 271 History of Central America and the Caribbean  4
HST 277 History of the Oregon Trail  4
HST 278 Russian History I  4
HST 279 Russian History II  4
HST 284 History of Africa  4
HST 285 The Holocaust  4

PEACE AND CONFLICT FOCUS AWARD

Students who are applying for the Peace and Conflict Focus Award should email Jamee Kristen at jamee.kristen@pcc.edu.

PACS I FOCUS AWARD REQUIREMENTS
1. A minimum of 18 credits, including PS 211 (or equivalent.)
2. At least one course from each of three course categories (out of the five available course categories.)

PACS II FOCUS AWARD REQUIREMENTS
1. A minimum of 30 credits; includes PS 211 (or equivalent), at least one credit in cooperative education (PS 280C or equivalent) and a two-credit cooperative education seminar (PS 280B or equivalent.)
2. At least one course from each of the five course categories, with no more than three of these courses coming from any one subject area discipline, and at least two coming from outside of the social sciences.

PACS III FOCUS AWARD REQUIREMENTS
1. A minimum of 45 credits, includes PS 211 (or equivalent), at least one credit in cooperative education (PS 280C or equivalent), and a two credit cooperative education seminar (PS 280B or equivalent.)
2. At least one course from each of the five course categories, with no more than four of these courses coming from any one subject area discipline, and at least three coming from outside of the social sciences.
3. Inclusion of at least three courses concentrated in at least one course category.

Integrative Courses
PS 211 Peace and Conflict  4
PS 280B Cooperative Education: Community Service & Action Seminar  2
PS 280C Cooperative Education: Peace and Conflict  1-4

Category I: Personal to Societal Peace and Conflict

PS 205 Global Politics: Conflict & Cooperation  4
PS 220 U.S. Foreign Policy  4
FOCUS AWARDS

Students must complete a total of 15-16 credits with a C or better.

REQUIREMENTS

SOCIAL JUSTICE FOCUS AWARD

PCC’s Social Justice Focus Award develops an interdisciplinary understanding of systems of power, privilege, and domination including the personal, social, cultural, economic, and political consequences on communities, the environment, and society. Students will explore approaches to social change and social movements and engage in practical campus- and community-based experiences with organizations addressing these issues.

Students who complete the Social Justice Focus Award will be able to connect with the University Studies, Sociology, Women’s Studies, Conflict Resolution and the Communities of Practice programs at Portland State University and the Social Justice minor at the University of Portland. Focus Awards are not to be confused with degrees or certificates, are not officially recognized by the state, and do not appear on transcripts. Focus Awards can be used to demonstrate academic and professional interest, critical thinking, and leadership.

This award is especially useful for resumes, personal statements, applications for internships, scholarships, university admissions and jobs.

For more information and to earn the Social Justice Focus Award please send an email to socialjustice-group@pcc.edu for the most up-to-date information.

SOCIAL JUSTICE FOCUS AWARD REQUIREMENTS

Students must complete total of 15-16 credits with a C or better.

1. Two courses from Group A
2. Two courses from Group B
3. No more than two courses from one discipline

SUSTAINABILITY FOCUS AWARD

The PCC Sustainability Focus Award is designed for students who are interested in exploring the interdependent social, economic and environmental pillars of sustainability (the triple-bottom-line) topics from multiple perspectives, and in increasing their course experience in this multi-disciplinary topic.

By earning this Focus Award, the student demonstrates to potential employers and transfer colleges a deep and broad understanding of sustainability issues. For the online application, go to: pcc.edu/programs/sustainability/focus-award.html

Questions? Email Heidi Sickert, Chair of the SPARC Council which oversees this award (Sustainability Practices for Academics and Resources Council): heidi.sickert@pcc.edu.

Focus Awards are not to be confused with degrees or certificates, are not officially recognized by the state, and do not appear on transcripts.

SUSTAINABILITY FOCUS AWARD REQUIREMENTS

1. A minimum of 16 credits.
2. Include courses from at least 3 different disciplines.

Must have sustainability-related component as determined by the SPARC chair.

WOMEN'S STUDIES FOCUS AWARD

Women's Studies introduces the past and present achievements and experiences of women from an interdisciplinary and global perspective. The courses explore the decisive role that gender has played and continues to play in human societies and contributes to an understanding of women's lives. Knowledge derived from women's studies courses will enable people to analyze current problems that women face in the areas of employment, the family, health and the legal system. Since women comprise more than half of the world's population, an understanding of their experiences, history, needs and abilities is an asset to students considering careers in such fields as education, social service, government, business, law, the ministry, journalism, health occupations and childcare.  pcc.edu/programs/womens-studies/

All women's studies courses meet Associate of Arts Oregon Transfer degree (AAOT) requirements. WS 101 may be taken for either arts and letters credit, or social science credit.

The Women's Studies Focus Award at PCC prepares students for entry into Women's Studies Programs at the bachelor's degree level. In Oregon these programs can be found at Portland State University, University of Oregon, Oregon State University, and Lewis & Clark College.

Students must complete 12 credits of Women's Studies courses to receive a focus award. Students who have completed the requirements for the Award should apply at www.pcc.edu/programs/womens-studies/womens-studies-focus-award.html. For more information please contact: womens-studies@pcc.edu

Required Course
WS 101  Women's Studies  4

Plus an additional 8 credits of Women's Studies courses selected for the courses listed below.

LEARNING OPTIONS

PCC offers a wide array of programs geared towards the non-traditional student. These programs range from pre-college or adult basic education to supplementary programs for adults in the workplace.

DEVELOPMENTAL EDUCATION

Cascade Campus
Cascade Hall (CH), Room 208
971-722-5251

Rock Creek Campus
Building 2, Room 212
971-722-7414

Southeast Campus
Mt. Scott Hall (MSH), Room 103
971-722-6146

Sylvania Campus
Social Science Building (SS), Room 215
971-722-4192

pcc.edu/prepare/developmental/

DESCRIPTION

Programs in developmental education help students prepare for PCC academic and career technical programs and their chosen careers. Courses in this department include integrated reading and writing courses as well as separate stand alone reading courses and stand alone writing courses.

Classes and services are offered at Cascade, Rock Creek, Southeast Campus and Sylvania. For most developmental education courses, financial aid is available to those who qualify. For more information, contact the Financial Aid Office.

For accurate placement, students should contact the nearest campus orientation or answer center.

TUTORING

Free tutorial assistance is offered to students in many academic programs. Students may “drop-in” during any regularly scheduled tutoring time. For more information, contact the Learning Centers at Cascade, Rock Creek, Southeast Campus or Sylvania.

DE 31 Learning Skills I  1
DE 50 Vocabulary Building  1

DISTANCE EDUCATION

pcc.edu/distance/

Distance Education provides students with an opportunity to earn college credit by participating in a variety of online and technology based courses. Online classes meet the same outcomes as on-campus classes and the credits are similarly transferable to other colleges and universities. Students also follow the same admissions and registration procedures as on-campus students. Instead of attending on-campus classes, students participate in an orientation, online discussions and activities, complete readings in textbooks and study guides, take periodic exams and in some cases write papers, reports, or do group work with other students. Each course has an instructor for students to contact when they need assistance.

WEB CLASSES

Web classes utilize an online learning environment where students work independently through online coursework, which can include text, audio and video content. Students and instructors interact through discussions and email. Some classes may require on-campus exams or labs. Students need to check the class schedule for specific computer and course requirements. Both credit and non-credit courses are available.

First time online students

All PCC students who have not taken an online class at PCC will need to complete the Start Guide for Online Learning before they can register for a credit WEB class. Visit www.pcc.edu/osg for the latest information for new online learners.

DUAL CREDIT PROGRAM

The PCC Dual Credit Program provides the opportunity for high school students to earn college credit while still in high school. Students are able to attend “articulated” courses offered in their home high school by their teachers who meet the PCC faculty qualifications. The courses include the same rigor and content as an on-campus college class and are an excellent way for students to learn what it takes to be a successful college student. Students are expected to master college-going behaviors by registering themself, checking PCC email, and taking advantage of access to college resources.
Students can earn credit in Lower Division Collegiate courses that would be part of a “freshman experience” and can transfer to a 4-year institution. Or students can complete courses that are part of a Career and Technical Program that leads to a Career Pathways Certificate, or an AAS.

Students can check the PCC Dual Credit Website: pcc.edu/dual-credit for more information about participating high schools and offerings.

ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL)

pcc.edu/prepare/esol/

DESCRIPTION

The ESOL Program offers classes for people whose native language is not English. Reading, writing, listening and speaking skills are taught together in Levels 1-3. Separate skill classes in reading, writing and communication are taught in Levels 4-8. American culture is stressed in all 8 levels.

ESOL classes are open to adult immigrants and refugees (including U.S. citizens), and international students and visitors who want to improve their English language proficiency. Testing and orientation are required before entering the program.

COURSE OF STUDY

The ESOL Department offers Basic ESOL (Levels 1-3), Transitional ESOL (Levels 4-5) and Academic ESOL (Levels 6-8). After Academic ESOL, students are ready for RD 115 and WR 115, after which students become eligible to take most college transfer-level classes.

ESOL Levels 1 - 8 serve the needs of adult refugees and immigrants. Levels 4 - 8 also serve the needs of professional personnel working or training in the U.S., international students and international visitors.

ESOL offers both credit and non-credit classes. Levels 1-3 are non-credit classes. Levels 4 and 5 can be taken either as non-credit or college credit classes. Levels 6-8 are credit classes.

Up to twenty-four credits of Level 7 and 8 ESOL courses may be applied to all PCC associate degrees. The cost of an ESOL class ranges from a moderate fee to full college tuition. Each class in Levels 1-3 is designed to take two or three terms to complete. Each class in Levels 4 - 8 is designed to be completed in one term. All new students must be tested prior to enrollment.

Students should contact the campus where they want to attend to find out about testing. International students should first contact an international student advisor at 971-722-5670 (CA), 971-722-7150 (RC) or 971-722-8310 (SY).

TESTING CENTERS

Cascade Campus
971-722-5234

Southeast Campus
971-722-6277

Sylvania Campus
971-722-4533

Rock Creek Campus
971-722-7523

Returning to the ESOL Program After One Year

If a student has been gone from the ESOL program for 1 year, then the student needs to retake the Accuplacer ESL placement test and attend a placement/advising session before registering for any ESOL classes. If a student has taken the Accuplacer ESL placement test but has not completed any ESOL classes during the past year, then the student will need to retake the Accuplacer ESL placement test. A student may be able to successfully register online for an ESOL class, but if the student has been gone for 1 year, the student will not be allowed to remain in the ESOL class(es) until the student has retaken the Accuplacer ESL placement test.

PACTEC

Rock Creek Campus
Building 5, Room 116
971-722-7738

pcc.edu/prepare/head-start/pactec/

PACTEC (Portland Area Career and Technical Education Consortium) coordinates Perkins eligible CTE Programs of Study. It is an alliance of 11 school districts in Washington and East Columbia counties, along with business and industry partners, and other educational and governmental institutions. PACTEC works with PCC and the other community college partners to facilitate smooth transitions for high schools students and to assist in readying them for their next steps at PCC or for other training opportunities. PACTEC works with Career and Technical Education (CTE) Programs of Study and with all eligible secondary partners to offer articulated credit through the Dual Credit program at PCC.

PCC LINKS PROGRAMS

Southeast Campus
Mt. Tabor Hall (MTH), Room 123
971-722-6293

pcc.edu/prepare/head-start/links/

PCC Links Programs, formerly called PCC Prep Alternative Programs, offer educational options to help students complete their education, no matter where they are starting from. Two high school programs offer a variety of options for youth 16-20 years of age who are at risk of dropping out of school or who have already left school without obtaining a high school diploma. Two college programs provide support and scholarship assistance for students who have completed high school and who could benefit from support in completing their college degree.

HIGH SCHOOL PROGRAMS

GATEWAY TO COLLEGE

pcc.edu/prepare/head-start/links/gateway/

In Gateway to College, students are given the opportunity to obtain a high school diploma while simultaneously earning college credits. Students start in small learning communities and develop academic and personal skills to help them become successful college students. This is a rigorous program that requires students to be focused and committed to their academic success in college.

YES TO COLLEGE

pcc.edu/prepare/head-start/links/yes/

The YES to College program is for students wanting to get back on track, successfully complete high school, and start on college and a career path. Students interested in obtaining a GED take classes specifically designed to prepare them to pass the GED tests. After completing their GED, YES to College students may be eligible to transition into college courses and work towards a certificate or degree, with the program covering the cost of college tuition and books.

Students who have a first language other than English start in the YES to College program with ESOL courses. As they improve their English skills in reading, writing and speaking, students can work toward a GED or high school diploma.
In both programs students receive the support of a College Success Coach who acts as an instructor, adviser, and counselor. In both programs, the cost of classes and books is covered. In Gateway to College, students are responsible for class fees each term.

COLLEGE PROGRAMS

FUTURE CONNECT
pcc.edu/resources/future-connect/

Future Connect is for recent high school graduates who are either low-income or first-generation college students. Students work closely with a College Success Coach, receive a scholarship to PCC, and have the opportunity to participate in career internships and leadership opportunities.

PROJECT DEGREE
pcc.edu/prepare/developmental/project-degree/

Project DEgree provides personalized support to college students who place into two or more Development Education classes. Students take classes in a Learning Community that provides them with individualized academic and social supports and offers an engaging project-based curriculum to prepare for college-level coursework.

See also English for Speakers of Other Languages (p. 173) and Developmental Education (p. 172) sections in this catalog for related instruction.

pcc.edu/prepare/basic/

DESCRIPTION

A non-credit program for self-improvement designed to expand basic skills for students whose abilities range from under prepared to pre-college level. Development of reading, writing and math skills are emphasized, as well as life skills, employability, and technology. Students without a high school diploma also have the opportunity to prepare for the GED exams in four subject areas: social studies, science, reading and math.

ABE classes are open to anyone 18 or over who wants to improve basic reading, writing and math skills at the pre-college level. Students who are 16 or 17 must first obtain an official release from high school before attending class. To enroll, individuals must attend a two-part Orientation and Placement session. The sessions for both day and evening classes are conducted on a regular basis each term. Students needing special assistance such as an interpreter, a reader or a writer to participate in the orientation program should contact the Disabilities Services (971-722-4341) at least two weeks before the session is held.

COURSE OF STUDY

Upon entering an ABE class, students’ reading, writing and math abilities are assessed and individual programs of study are developed to guide them toward their personal academic goals. Large group, small group and individualized instruction are used to maximize academic gains. To help with their studies, students may need to purchase books. Day and evening classes are offered at all campuses and at many other locations in the community.

THE GED STATE EXAMINATION

The GED State Exam battery includes four tests:

1. Social studies: Content includes history, economics, political science, geography and behavioral science. Reading skills assessed include comprehension, application, analysis and evaluation. The test includes an extended-response written question.

2. Science: Gauges knowledge on life science, biology and physical sciences, earth science, physics and chemistry. This test covers reading skills components including comprehension, application, analysis and evaluation. The test includes an extended-response written question.

3. Reading: Consists of non-fiction and fiction passages. Reading skills assessed include comprehension, application and analysis. The test includes an extended-response written question.

4. Mathematics: Incorporates arithmetic (measurement, number relationships and data analysis), algebra and geometry. Skills that are tested are problem-solving abilities and higher level thinking skills.

VOLUNTEER LITERACY TUTORING

Sylvania Campus
Social Science Building (SS), Room 03
971-722-4903

pcc.edu/resources/tutoring/volunteer/

Volunteer tutors are available to help with basic skills in reading, writing, math and speaking English. Some tutors can also help with GED preparations. Tutorial services are available at all PCC locations in addition to a variety of other community sites in Washington County.

WORKFORCE DEVELOPMENT AND COMMUNITY EDUCATION

CAREER PATHWAYS DEPARTMENT

971-722-6271
pcc.edu/career/pathways/

The Career Pathways Department supports students to complete short-term, stackable credentials that lead to a degree and jobs that offer pathways for advancement. Career Pathways certificates are 12 to 44 credits, can be completed in less than a year, and prepare students for employment in high-growth, high-demand industries while also providing a stepping stone to an associate degree, bachelor degree, and beyond. There are many Career Pathways Certificate programs that include various skill sets and industries, such as Health Science, IT, Hospitality, and more.
Pathway options to meet the needs of students. Whether students are
attending college for the first time, changing career paths, upgrading
skills in their field, ESOL, or recent GED or high school graduates,
there are pathways to meet their needs.

Career Pathways supports and empowers students to reach their
education and career goals through:

- Individualized career and college success coaching
- Free classes and workshops, to promote college success and
  prepare students for internships and career opportunities
- Connection with internships, job shadows, employer
  presentations, and job opportunities
- Assistance navigating college resources, the process of
  becoming a student, and how to pay for college
- Educational advising, to map out students’ options for advancing
  their career and education over time
- ABS Career Pathways designed for ESOL, GED, or students
testing into Math 20, Reading 80/90, and Writing 80/90: ABS
Pathways offer students a faster path to gain the skills and college
certificates they need to quickly enter the workforce and/or
complete their degree. ABS Pathways allow students to build
their academic and/or English communication skills while they
are taking their college classes, in a format that is relevant to their
lives and career goals.

Additional information can be found at www.pcc.edu/cp.

CLIMB CENTER FOR ADVANCEMENT
971-722-6888
climb@pcc.edu
pcc.edu/climb

CLIMB – Continuous Learning for Individuals, Management and
Business – serves the needs of working professionals, individuals,
managers, and businesses who want accelerated, specialized, high-
quality training.

The CLIMB Center for Advancement delivers the training and
development programs backed by the experience and size of
Portland Community College. CLIMB is a hub of expertise, talent and
training opportunities, using trainers who are industry experts and
who bring real world experience to participants.

CLIMB PROFESSIONAL DEVELOPMENT AND
TRAINING
971-722-6886
professional.training@pcc.edu
www.pcc.edu/climb/training

Professional Development and Training provides professional
quality training and development services. These services help
people and organizations reach their peak performance to maximize
profitability and sustainability in the global marketplace. Professional
Development and Training is the one source partner for responsive,
relevant and results-oriented solutions in leadership, sales,
communication, customer service, IT/software and industrial/technical
trades in most industries. Programs are tailored to meet clients’ needs
and delivered at times and locations convenient to the client.

CLIMB FOR HEALTH CARE PROFESSIONALS
971-722-6653
pcc.edu/climb/health

The Institute for Health Care Professionals offers timely, relevant
and innovative solutions for health care providers. Educational
opportunities offered are: professional development/continuing
education courses; certification/re-certification; entry level health care
training; customized training; and American Heart Association (AHA)
training through its AHA designated Community Training Center.

Choose from traditional classroom format, customized on-site training
or online education (both self-directed and interactive).

LIFE BY DESIGN NW
971-722-6650
lifebydesign@pcc.edu
pcc.edu/climb/life

Life by Design NW redefines how to successfully navigate worklife
transitions and meaningful retirement. Life by Design NW training
programs and services address the needs of the changing workforce
and provide opportunities for giving back to the community. Programs
are targeted at the Boomer 50-plus population to include life
and retirement planning, skills based volunteering, affinity group
gatherings, workshops for businesses for succession planning and the
transition of retirees, and special events intended to empower people
in finding their purpose and passion.

SMALL BUSINESS DEVELOPMENT CENTER
(SBDC)
971-722-5060
sbdc@pcc.edu
pcc.edu/climb/small-business
bizcenter.org

PCC’s Small Business Development Center (SBDC) is a hub of
entrepreneur and economic development for small businesses
throughout the PCC district. Utilizing a business development
pathway model which guides the entrepreneur through the stages
of business development – pre-start, start-up, pre-growth, growth,
maturing, and transition – the SBDC challenges and inspires
small business owners to grow healthy businesses; creating jobs,
increasing sales and accessing capital. The SBDC combines
business education with business advising to create an environment
that supports small business owners in achieving their goals.
Services include: business concept development programs, business
design programs, entrepreneurial skill programs, small business
management programs, international trade advising and education,
and capital access services.

COMMUNITY EDUCATION
971-722-6266
pcc.edu/community/

PCC Community Education provides hundreds of non-credit personal
enrichment classes that feature local experts as instructors and do
not involve grades or exams. Classes are offered in five general
areas: Arts, Home and Garden, Language and Culture, Recreation
and Wellness, and Work and Life Balance. Educational travel
programs are also offered in addition to the programs listed below.

Most Community Ed classes are designed for adults (age 16 and
over) and are typically offered during evenings or on weekends
to accommodate busy personal schedules. Classes are offered at PCC
campuses and centers, in neighborhood locations throughout the
Portland metro area, and online at pcc.edu/online.

Non-credit classes do not meet the federal requirements for financial
aid and most Veteran’s benefits, are not equivalent to credits and may
not be used toward PCC certificates and degrees.

Continuing Education and License Renewal
Community Ed provides Continuing Education courses which offer
CEU credit used for professional licensure renewal and preparation
for taking the next step in one’s career. Class formats feature in-
person, hands-on learning opportunities from industry experts. Visit
pcc.edu/career for more information.

Traffic Safety
Community Ed offers ODOT approved Driver Education for teens and
adults. Drivers Ed classes are available at many PCC campuses and
centers and area high schools. Visit pcc.edu/community/drive/ for
more information. ODOT required motorcycle rider safety training courses are also offered in cooperation with TEAM OREGON. Visit https://team-oregon.org/ or call 800-545-9944 for more information.

Summer Teen Program
Additionally, Community Ed offers dedicated summer term classes for teens (age 12-17) through the Summer Teen Program. Visit pcc.edu/community/teen for more information.

Swim with Community Ed
Community Ed also offers youth, adult, and parent/child swim classes through the Swim with Community Ed program. Classes are based on American Red Cross curriculum and offer a positive learning experience with low student-to-teacher rations. Visit pcc.edu/community/swim for more information.

INTERNATIONAL CUSTOMIZED CONTRACT TRAINING
971-722-2889
Portland Community College’s International Contract Training Program (ICT) offers international business, industry and government traditional and customized training and educational services. ICT offers international organizations more than 60 traditional degree and certificate programs available through PCC as well as the option of customized training and educational services offered in the United States.

OCCUPATIONAL SKILLS TRAINING
Southeast Campus
Mt Tabor Hall (MTH), Room 128
971-722-6127
971-722-6124 (fax)
pcc.edu/programs/occupational-skills/

The Occupational Skills Training program is designed to provide the opportunity for students to receive instruction in a specific occupational area. The programs are individualized and allow flexibility in program design, delivery, and implementation. Individualized plans are developed in consultation with the student, PCC faculty, PCC OST coordinators, work-site supervisors, and agency representative(s), if appropriate.

For more information, please see the Occupational Skills Training (p. 150) section of the catalog.

WORKFORCE DEVELOPMENT PROGRAMS
WorkSource Portland Metro Tualatin
7995 SW Mohawk
503-612-4200

WorkSource Portland Metro Beaverton
241 SW Edgeway Drive
Beaverton, OR 97006
971-722-2700

WorkSource Portland Metro Central
30 N Webster Street, Suite E
503-280-6046

The WorkSource Centers provide a comprehensive menu of workforce services to job seekers and businesses. The Centers provide a range of educational, employment and business services through a collaboration of partners, including Worksystems Inc., the Oregon Employment Department and the Department of Human Services. The Workforce development programs offered through the Centers (and at a variety of other locations) include:

- The Dislocated Workers Program (DWP), which helps people who have lost their jobs due to downsizing, layoffs, or plant closures.
- The Workforce Investment Act Adult Program, which provides services to unemployed or underemployed adults.
- The Steps to Success Program (STS), which provides services to individuals receiving public assistance.
- The Food Stamp Employment and Training Program, which provides services to individuals receiving food stamps.
- The Rapid Response Program, which begins working directly with employers and employees when a pending layoff or closure is announced to minimize the impact of job loss.

Through these programs the WorkSource Centers offer:
Services to job seekers including: a career center with computers, printers and fax machines for job searches; job listings; job search workshops; career counseling; assessment and testing; computer classes; Adult Basic Education; work experience opportunities, English as a Second Language classes and career technical training.
Services to businesses including: new employee recruitment; job applicant screening and referral; skill testing; customized pre-employment training; Jobs Plus training, rapid response and out placement services.
ACADEMIC REGULATIONS

Students of Portland Community College are expected to behave as responsible members of the college community and to be honest and ethical in their academic work. PCC strives to provide students with the knowledge, skills, judgment and wisdom they need to function in society as educated adults.

ACADEMIC FRESH START

Portland Community College (PCC) acknowledges that some students may not be prepared for success at the time they begin their academic careers. This can leave students with undesirable PCC academic transcripts.

Academic Fresh Start is intended for the student who has been unenrolled from PCC for seven or more years to remove an entire period of poor academic performance at PCC from the credits earned and Grade Point Average (GPA) calculation.

The student must be aware of the following limitations of this policy:

1. PCC recommends that students first attempt to repair their transcripts by repeating a course for a higher grade as appropriate through the college’s Repeat Policy.
2. Due to federal regulations, the Office of Financial Aid does not acknowledge Academic Fresh Start when calculating eligibility for student aid.
3. Transfer institutions may or may not acknowledge Academic Fresh Start. They may consider all credits and may calculate the entire student GPA for their purposes. It is at the discretion of the transfer institution to determine how they will interpret this policy.

The student seeking to apply for Academic Fresh Start policy must meet and understand the following conditions:

1. Students may only use Academic Fresh Start once and only if they have not earned a certificate or degree from PCC. Once approved, the action is non-reversible.
2. The student must have a consecutive seven calendar year break ("stop out") from PCC.
3. Upon reentry to PCC, and prior to the request for Academic Fresh Start, the student must complete a minimum of twelve credits at PCC, achieving a minimum of 2.5 GPA for this group of credits.
4. All PCC grades and credits prior to the student’s break from PCC are excluded under Academic Fresh Start. Exclusion includes good grades and poor grades.

CREDIT FOR PRIOR LEARNING

Credit for prior learning (CPL) may be awarded to PCC students who can demonstrate college-level learning in subject areas that PCC offers.

Credit awarded for prior learning must be directly applicable to meet requirements for general education, a certificate, a degree, or electives as outlined by PCC’s academic catalog.

Credit awarded for prior learning may not be used to meet the college residency requirement.

Students are responsible for the fees charged for processing the CPL request.

PCC offers two types of CPL: institutionally assessed and externally assessed; these are defined below.

Institutionally Assessed CPL:

Institutionally assessed CPL is awarded through the course challenge process and may include
- examinations
- portfolio evaluations
- performance evaluations

PCC considers this type of credit to be prior experiential learning which, according to accreditation standards, shall not exceed 25% of the credits applied to a degree or certificate.

Institutionally assessed CPL is awarded for active PCC courses. Not all courses can be challenged. Each Subject Area Committee (SAC) shall determine which of its courses can be challenged. See S701: Subject Area Committees [http://catalog.pcc.edu/handbook/s701-subjectarea/].

Students who believe that they satisfy the content and outcome objectives of a current PCC course must obtain the approval of the appropriate faculty department chair, division dean, or administrative supervisor to challenge the course.

Students cannot challenge courses in which they are currently enrolled or that already appear on their transcripts. A course may only be challenged once.

The challenge measurement and process established by the SAC shall assess whether a student has met the course content and outcome objectives so that credit can be awarded. An instructor who teaches the course shall determine the grade earned by the student.

The grade shall be submitted through the faculty department chair, division dean, or administrative supervisor. In the event that the instructor is also the faculty department chair, the grade shall be submitted through the relevant division dean or administrative supervisor. Only grades of C or P or better will be transcribed as institutional credit and designated with a CPL notation.

Externally Assessed CPL:

Externally assessed CPL is awarded for learning that has been assessed outside the traditional college setting. Examples of external assessments that may warrant the awarding of CPL include
- industry certifications (e.g., CDA, CPR, Journeyman)
- professional licensure
- ACE-recommended credit for corporate courses or exams, Joint Services Transcripts (JST) coursework, or military occupations (MOS)
- College Level Examination Program (CLEP)
- DANTES Subject Standardized Tests (DSST)

According to accreditation standards, externally assessed CPL is not considered credit for prior experiential learning so it is not subject to the 25% limit on the credits applied to a degree or certificate.

Externally assessed CPL is awarded in subject areas that PCC offers and may include specific course numbers or elective credit in that subject area. A SAC member (e.g., a faculty department chair) shall recommend the amount of credit awarded.

Students are responsible for providing official transcripts, score reports, certifications, or any documents required for conducting a CPL evaluation.

Externally assessed CPL is transcribed in the same manner as transfer credit and is not considered institutional credit.

GRADING GUIDELINES

ROLES AND RESPONSIBILITIES

1. Students shall be responsible for reading about and selecting a grading system option for each class they take at PCC as a condition of completing their registration for classes either on-line or in-person.
2. Students shall be responsible for ensuring the accuracy of their final grades on their Academic Transcripts.
3. Students shall be responsible for reading about and making any permitted changes to their grading system option subsequent to their registration.

4. Students receiving financial aid should consult a Financial Aid Advisor prior to taking any steps described herein.

5. Faculty inform students regarding their standing in class and existing petition processes for extraordinary situations, and refer students to other appropriate advisors for issues outside the classroom related to tuition, financial aid, and graduation.

6. Faculty record earned grades for Students according to each Student’s choice as described herein.

7. Subject Area Committees (SAC) may specify whether a specific grade system option is available for each course in its domain.

**TRADITIONAL GRADING SYSTEM**

1. The traditional grade system uses A, B, C, D, and F, as defined under “Grade Definitions.”

2. If available, students may select this grade system option at registration or change to this grade system option at any time during the first 80% of a course’s term by completing the approved registration process.

3. SACs may specify whether this grade system option is unavailable for each course in its control.

4. Degree or certificate requirements may only allow specific grade system options.

**PASS/NO PASS SYSTEM**

1. This grade system uses P and NP as defined under “Grade Definitions.”

2. Transfer Students should be aware that four-year institutions limit the number of pass/no pass credits that may be applied to a degree and frequently recalculate the Student’s grade point average by weighting each P as if it were a C or D and each NP as if it were an F from the traditional graded system.

3. If available, students may select this grade system option at registration or change to this grade system option at any time during the first 80% of a course’s term by completing the approved registration process.

4. SACs may specify whether this grade system option is unavailable for each course in its control.

5. Degree or certificate requirements may only allow specific grade system options.

**ATTENDANCE**

1. Students are expected to attend all classes in which they are enrolled.

2. Repeated absences will affect a student’s grade.

3. Students are responsible for dropping or withdrawing from registered classes by completing the official drop/withdrawal process.

4. Students who stop attending and who fail to drop or withdraw from a class by the published deadline may earn a grade of F or NP according to the grade system option selected by the Student.

5. Students having excessive absences and who fail to drop or withdraw from a class by the published deadline may earn a grade of F or NP according to the grade system option selected by the Student.

6. Faculty must record the last date attended for students that earn an F or NP.

7. Faculty may assign a mark of NS (see “Marks”) and deny access to students who do not attend the first class session. These Students will be dropped by Registration.

8. Faculty may assign a mark of NS (see “Marks”) and deny access to Students who do not attend by the published drop deadline. These Students will be dropped by Registration.

9. Students who fail to attend or stop attending classes and fail to drop those classes by the published drop deadline will be responsible for the associated tuition and fees.

**GRADE DEFINITIONS**

**A SUPERIOR**

1. Honor grade indicating excellence.

2. Earned as a result of a combination of some or all of the following as outlined by the Instructor in the course handout: superior examination scores, consistently accurate and prompt completion of assignments, ability to deal resourcefully with abstract ideas, superior mastery of pertinent skills, and excellent attendance.

3. Probable success in a field relating to the subject or probable continued success in sequential courses.

**B ABOVE AVERAGE**

1. Honor grade indicating competence.

2. Earned as a result of a combination of some or all of the following as outlined by the Instructor in the course handout: high examination scores, accurate and prompt completion of assignments, ability to deal well with abstract ideas, commendable mastery of pertinent skills, and excellent attendance.

3. Probable continued success in sequential courses.

**C AVERAGE**

1. Standard college grade indicating successful performance earned as a result of a combination of some or all of the following as outlined by the Instructor in the course handout: satisfactory examination scores, generally accurate and prompt completion of assignments, ability to deal with abstract ideas, fair mastery of pertinent skills, and regular attendance.

2. Sufficient evidence of ability to warrant entering sequential courses.

**D SUBSTANDARD BUT RECEIVING CREDIT**

1. Substandard grade indicating the Student has met only minimum requirements as outlined by the Instructor in the course handout.

2. Earned as a result of some or all of the following: low examination scores; generally inaccurate, incomplete or late assignments; inadequate grasp of abstract ideas; barely acceptable mastery of pertinent skills; irregular attendance; insufficient evidence of ability to make advisable the enrollment in sequential courses.

3. Does not satisfy requirements for entry into courses where prerequisites are specified.

**F FAILURE**

1. Non-passing grade indicating failure to meet minimum requirements as defined by the instructor in the course handout earned as a result of some or all of the following: non-passing examination scores; inaccurate, incomplete or late assignments; failure to cope with abstract ideas; inadequate mastery of pertinent skills; and repeated absence from class.

2. Does not satisfy requirements for entry into courses where prerequisites are specified.

3. Faculty must record the last date attended for students that earn an F.

**P PASS**

2. A grade of P represents satisfactory achievement which would have been graded C or better under the traditional grading system.

3. The P grade is disregarded in the computation of the PCC grade point average.

---

**GRADE DEFINITIONS**

**Definitions.**

2. Does not satisfy requirements for entry into courses where prerequisites are specified.

3. Probable continued success in sequential courses.

**A SUPERIOR**

1. Honor grade indicating excellence.

2. Earned as a result of a combination of some or all of the following as outlined by the Instructor in the course handout: superior examination scores, consistently accurate and prompt completion of assignments, ability to deal resourcefully with abstract ideas, superior mastery of pertinent skills, and excellent attendance.

3. Probable success in a field relating to the subject or probable continued success in sequential courses.

**B ABOVE AVERAGE**

1. Honor grade indicating competence.

2. Earned as a result of a combination of some or all of the following as outlined by the Instructor in the course handout: high examination scores, accurate and prompt completion of assignments, ability to deal well with abstract ideas, commendable mastery of pertinent skills, and excellent attendance.

3. Probable continued success in sequential courses.

**C AVERAGE**

1. Standard college grade indicating successful performance earned as a result of a combination of some or all of the following as outlined by the Instructor in the course handout: satisfactory examination scores, generally accurate and prompt completion of assignments, ability to deal with abstract ideas, fair mastery of pertinent skills, and regular attendance.

2. Sufficient evidence of ability to warrant entering sequential courses.

**D SUBSTANDARD BUT RECEIVING CREDIT**

1. Substandard grade indicating the Student has met only minimum requirements as outlined by the Instructor in the course handout.

2. Earned as a result of some or all of the following: low examination scores; generally inaccurate, incomplete or late assignments; inadequate grasp of abstract ideas; barely acceptable mastery of pertinent skills; irregular attendance; insufficient evidence of ability to make advisable the enrollment in sequential courses.

3. Does not satisfy requirements for entry into courses where prerequisites are specified.

**F FAILURE**

1. Non-passing grade indicating failure to meet minimum requirements as defined by the instructor in the course handout earned as a result of some or all of the following: non-passing examination scores; inaccurate, incomplete or late assignments; failure to cope with abstract ideas; inadequate mastery of pertinent skills; and repeated absence from class.

2. Does not satisfy requirements for entry into courses where prerequisites are specified.

3. Faculty must record the last date attended for students that earn an F.

**P PASS**

2. A grade of P represents satisfactory achievement which would have been graded C or better under the traditional grading system.

3. The P grade is disregarded in the computation of the PCC grade point average.
4. This grade is available only when a student has selected the pass/no pass grade system option during the first 80% of a course’s term.

NP NO PASS
1. Unacceptable performance.
2. A grade of NP represents unsatisfactory achievement which would have been graded D or lower under the traditional grading system.
3. The NP grade is disregarded in the computation of the grade point average.
4. Faculty must record the last date attended for students that earn an NP.
5. This grade is available only when a student has selected the pass/no pass grade system option during the first 80% of a course’s term.

MARK DEFINITIONS

SC SATISFACTORY COMPLETION
The mark used when a student satisfactorily completes continuing education units (CEUs).

NSC NOT SATISFACTORY COMPLETION
The mark used when a Student does not satisfactorily complete continuing education units (CEUs).

I INCOMPLETE
1. At the time final course grades are recorded, the instructor may, with the consent of the student, record an “I” mark and grant additional time for the completion of a minor but essential requirement for the student who is otherwise making satisfactory progress.
2. This shall only be done by signed written agreement with a requesting student and a copy shall be left on file with the division administrative staff.
3. Such written agreements shall describe the missing requirement, the basis for the requirement’s evaluation, the effect on the final grade computation, and the completion date (within one year) for that requirement.
4. If no replacement grade for an “I” mark shall have been provided by the course Instructor within one calendar year, the “I” mark shall automatically be changed to an “F” or “NP” depending on the grade system option (chosen by the student) in effect at the time the “I” mark was originally recorded.
5. This mark does not entitle the student to repeat a course without paying tuition.
6. It may be impossible to receive this mark in some courses where, for example, equipment usage is required.

W WITHDRAWAL
1. This mark is to be used only by the Student Records Office when a Student has completed the official withdrawal process after the published drop deadline and before the published withdrawal deadline.

CIPR COURSE IN PROGRESS, RE-REGISTER
1. A mark used only for designated classes.
2. To receive credit, Students must re-register because equipment usage is required.
3. This may include courses in modular or self-paced programs.
4. This mark may also be used in a skills-based course to indicate that the Student has not attained the skills required to advance to the next level.

5. If the course is not completed within a year, the CIPR changes to an AUD (Audit) on the transcript unless the course was repeated and a grade earned.

CIP COURSE IN PROGRESS
1. A mark used only for designated classes in modular or self-paced programs that do not conform to the normal academic calendar.
2. If the course is not completed within a year, the CIP changes to an F or NP (No Pass) on the transcript, based on the Student’s prior grading system option, unless the course was repeated and a grade earned.
3. A Student does not need to re-register for the course.

AUD AUDIT
1. This mark may be used only by Registration.
2. The AUD mark, when allowed, permits a Student to attend a course without receiving a grade or credit for the course even though tuition and fees must be paid.
3. To be assigned an AUD mark, a Student must obtain permission from their Instructor and notify Registration prior to the published drop deadlines.
4. SACs may specify whether this mark is available for each course in its control.
5. Does not satisfy requirements for entry into courses where prerequisites are specified.

NS NO SHOW
1. This mark is assigned by faculty before the published drop deadlines to indicate that a student has never attended class. These students will be dropped by Registration.
2. If Faculty fail to assign an NS mark to Students who never attend class, and if those Students fail to drop or withdraw before the published deadlines, then they will earn a grade of F or NP according to the grading system option selected by the student at the time of registration.

R REPEATED
1. This mark may be used only by Registration. See “Repeated Courses.”

TRANSCRIPT MISCELLANY

REPEATED COURSES
1. All grades earned will appear on the transcript.
2. The most recent grade earned for a course will be calculated into the GPA and the total credits earned; all other grades earned for that course will be excluded from the GPA and the credits earned. If a course can be taken more than once for credit, the oldest grade for that course will be excluded only when the repeat limit is exceeded.

COMPUTING GRADE POINT AVERAGES
1. Grade points are computed on the basis of four points for each credit of A, three points for each credit of B, two points for each credit of C, one point for each credit of D, and zero points for each credit of F.
2. Grades of P and NP and marks of SC, NSC, I, W, X (no longer available for use), CIP, CIPR, R, NS, and AUD are disregarded in the computation of the grade point average.
3. The grade point average is the quotient of the total points divided by the total credits in which A, B, C, D, and F are received.

GRADE CHANGES
1. All grade change requests must be submitted by the Instructor within one year of the end of the course, including grade changes made as a result of resolving a disputed grade.
2. If a grade dispute cannot be resolved with the Instructor, the Student may follow the student grievance or complaint process.
3. If the Instructor is no longer employed by PCC and, following a good faith effort to contact the Instructor, the Instructor is not available for consultation, grade changes can be made by the appropriate Division Dean providing there is sufficient evidence to make the change.

WITHDRAWAL
1. Prior to the published drop deadlines, Student shall be able to drop any registered class by completing the official drop/withdrawal process.
2. Such action by the Student shall result in no charges for the course or courses (or reimbursement if charges have already been paid); the course or courses shall be removed from their transcript.
3. Students shall be able to withdraw from any registered class by completing the official drop/withdrawal process before the published withdrawal deadline.
4. This action shall result in a grade of W appearing for the course or courses on the transcript.
5. Students must withdraw before the published withdrawal deadline or a grade will be assigned by the instructor.

Time periods referring to “published drop deadlines” and “published withdrawal deadlines” are different for each term.

HONOR RECOGNITION

HONOR ROLL
Portland Community College shall recognize academic excellence based on Grade Point Average (GPA*). Honors shall be awarded at the end of each term and upon completion of a degree or a certificate.

Term Honors are awarded at the end of each term. To be eligible, a student must have earned at least six credits graded A - F in the term.

The following Term Honors shall be awarded:
- Honor’s List: 3.25 - 3.49 GPA
- Dean’s List: 3.50 - 3.74 GPA
- President’s List: 3.75 - 4.00 GPA

Highest Honors are awarded upon completion of a degree or certificate to each student who has earned a cumulative GPA of 3.75 or higher. All transcripted degrees and certificates are eligible for Highest Honors.

HONOR SOCIETIES
PHI THETA KAPPA
Phi Theta Kappa is an honorary society designed for students in two-year colleges who have established a 3.5 or higher grade point average. Membership forms are available through the Associated Students of PCC (ASPPCC).
pcc.edu/resources/phi-theta-kappa/

STANDARDS FOR SATISFACTORY ACADEMIC PROGRESS
Portland Community College degree-seeking students who are not making satisfactory academic progress will be provided the opportunity to access services and resources designed to support learning and achievement of academic goals.

Individuals not making satisfactory academic progress, as defined in this policy, may be denied early registration opportunities or continued admission. Students failing to meet the Standards of Satisfactory Academic Progress (SAP) shall be alerted by the College and provided information regarding resources, as well as procedures designed to support improved academic performance.

ACADEMIC STANDARDS AND SATISFACTORY ACADEMIC PROGRESS

LEVELS OF ACADEMIC STANDING
Good Standing
Students are expected to meet this minimum level of academic progress.
1. Maintain a cumulative Grade Point Average (GPA) of 2.0 or higher
2. Successfully complete 2/3 (66.67%) of attempted credits each term

Academic Warning
This is the level occurring the term after you do not meet standards.
- You will receive an email notifying you of your Academic Warning status.
- Read this email carefully and follow directions to access resources.

Good Standing can be regained the following term if standards are met.

Academic Probation
This level is reached after a term on Academic Warning if you fail again to meet the standards.
- A hold will be placed on your account preventing you from registering for the next term.
- You will receive an email notifying you of your Academic Probation status.
- You must schedule a time to work with an academic advisor or counselor to develop a Learning Contract.
- You must work with your instructors to obtain a mid-term progress report for each class. Upon receiving your mid-term progress reports for each class you must schedule an appointment with an academic advisor or counselor to review the reports and your course progress.

Good Standing can be regained the following term if standards are met.

Academic Suspension
Academic Suspension occurs if you fail to meet standards for a third term in a row.
- If you have already enrolled for classes for the next term, you will be automatically dropped.
- You will receive an email and written letter notifying you of your Academic Suspension status.
- You will be suspended from PCC for one term.
- If you wish to return to PCC you must:
  - Complete the Re-Entry Process, or
  - Appeal for Exception due to extenuating circumstances.

For details about implications of not meeting satisfactory academic progress, appeals for exception and the re-entry process, please visit www.pcc.edu/resources/student-records/academic-progress/academic-standards.html.

TRANSFER CREDIT STANDARDS
www.pcc.edu/transfercredit
Credits from other institutions may be accepted toward degree requirements if they were completed at a regionally accredited college or university.
For degree-seeking students the college evaluates coursework for Lower Division Collegiate (LDC) and Upper Division Collegiate (UDC) classes from regionally accredited institutions where grades of A, B, C, or P/S (Pass/Satisfactory) were earned. P/S grades are only transferable if the transferring institution awarded that grade for C or higher. If a D was considered P/S, it is not transferable. If you are unsure what constitutes LDC coursework, see the Course Prefix List (p. 32). Career Technical Education coursework may be applied to a degree or certificate upon the evaluation and approval of the department chair. Early in their program, students should consult with the department chair of the appropriate program for assistance. Transfer GPA is not included in the overall GPA on PCC transcripts.

For non-degree seeking students the college evaluates coursework in order to satisfy PCC’s Standard Prerequisites, as well as commonly used preparatory coursework in other subject areas (e.g. Biology).

To request evaluation of your transfer credits, submit the transfer credit evaluation request which can be found on MyPCC. You must be a current credit PCC student to request a transfer credit evaluation. Submit this request after you have requested official transcripts from all schools where you have transfer coursework. Transfer evaluations are performed in the order in which they are received.

All transcripts received by the Student Records Office become the property of PCC. The Student Records Office will not provide copies of transcripts from other institutions. The Student Records Office is responsible for determining acceptance of transfer work to meet college requirements. Students should plan to meet with a department chair or advisor to review program requirements.

INTERNATIONAL COURSEWORK

In order to receive credit toward a Portland Community College certificate or degree, it is the responsibility of each student with transcripts (credits) from international schools to have them translated (if necessary) and evaluated course by course by a service that is a member of the National Association of Credential Evaluation Services. Further information can be found at: http://www.naces.org.

ADVANCED PLACEMENT (AP)

Students who complete Advanced Placement (AP) Exams may be eligible to receive college credit based on the exam score. Students must have official AP scores sent to Student Records, along with the Non-Traditional Credit form. A list of AP exams accepted by PCC and credit received is available on the Student Records website: www.pcc.edu/resources/student-records/advanced-placement.html

To request a copy of AP exam scores to be sent to PCC, contact the Advanced Placement Program. This information can be found at the address listed below or the following website: https://apstudent.collegeboard.org

Advanced Placement Program
PO Box 6671
Princeton, NJ 08541-6671
1-877-274-6474

INTERNATIONAL BACCALAUREATE (IB)

Students who complete International Baccalaureate (IB) Exams may be eligible to receive college credit based on the exam score. Students must have an official IB transcript of scores sent to Student Records, along with the Non-Traditional Credit form. A list of IB exams accepted by PCC and credit received is available at www.pcc.edu/resources/student-records/ib.html.

Students may request official IB transcripts by contacting:
IB Americas Global Centre
Attn: Transcript Officer
7501 Wisconsin Avenue, Suite 200 West
Bethesda, MD 20814

For more information on ordering transcripts please see the International Baccalaureate website: http://www.ibo.org/informationfor/alumni/transcripts/.

TRANSFER CREDIT AND VA BENEFITS

Students using any type of Federal Veterans Administration (VA) Education Benefit are required to have all prior credit history evaluated. It is the student’s responsibility to request official transcripts from all previous colleges and submit them to the PCC Student Records Office. Students must also complete and submit the Transfer Credit Evaluation request found on MyPCC. A student’s first term of VA benefits may be certified while waiting for transcript evaluation, however no subsequent terms will be certified for VA Benefits until transfer credit evaluation is complete. All credits will be evaluated and transferred according to the policies stated in this catalog.
Policies

Portland Community College provides students with broad, comprehensive programs of general education, developmental/remedial programs, and vocational/technical curricula. The College also provides cultural, recreational, and community service activities.

It is, in turn, the responsibility of the student to observe campus rules and regulations and to help maintain appropriate conditions in the classroom, on the campus, and in the community.

A student’s registration obligates him/her to comply with the policies and regulations of the College. PCC will restrict a student’s admission to or registration with the College and will withhold degrees and academic transcripts as prescribed by the College and/or state guidelines if a student fails to meet financial obligations to the College or other legal reasons.

Portland Community College is granted the right by law to adopt such rules as are deemed necessary to govern its operations.

Academic Integrity Policy

Introduction

Students of Portland Community College are expected to behave as responsible members of the college community and to be honest and ethical in their academic work. PCC strives to provide students with the knowledge, skills, judgment, and wisdom they need to function in society as educated adults. To falsify or fabricate the results of one’s research; to present the words, ideas, data, or work of another as one’s own; or to cheat on an examination corrupts the essential process of higher education.

Guidelines for Academic Integrity

Students assume full responsibility for the content and integrity of the coursework they submit. The following are guidelines to assist students in observing academic integrity:

- Students must do their own work and submit only their own work on examinations, reports, and projects, unless otherwise permitted by the instructor. Students are encouraged to contact their instructor about appropriate citation guidelines.
- Students may benefit from working in groups. They may collaborate or cooperate with other students on graded assignments or examinations as directed by the instructor.
- Students must follow all written and/or verbal instructions given by instructors or designated college representatives prior to taking examinations, placement assessments, tests, quizzes, and evaluations.
- Students are responsible for adhering to course requirements as specified by the instructor in the course syllabus.

Forms of Academic Dishonesty

Actions constituting violations of academic integrity include, but are not limited to, the following:

Plagiarism: the use of another’s words, ideas, data, or product without appropriate acknowledgment, such as copying another’s work, presenting someone else’s opinions and theories as one’s own, or working jointly on a project and then submitting it as one’s own.

Cheating: the use or attempted use of unauthorized materials, information, or study aids; or an act of deceit by which a student attempts to misrepresent academic skills or knowledge; unauthorized copying or collaboration.

Fabrication: intentional misrepresentation or invention of any information, such as falsifying research, inventing or exaggerating data, or listing incorrect or fictitious references.

Collusion: assisting another to commit an act of academic dishonesty, such as paying or bribing someone to acquire a test or assignment, taking a test or doing an assignment for someone else, or allowing someone to do these things for one’s own benefit.

Academic Misconduct: the intentional violation of college policies, such as tampering with grades, misrepresenting one’s identity, or taking part in obtaining or distributing any part of a test or any information about the test.

Penalties for Academic Dishonesty

If a student is found guilty of violating academic integrity, any one or a combination of the following penalties may be imposed by the faculty member:

- Verbal or written warning
- A grade of “F” or “NP” for the assignment, project, or examination

The following penalty may be imposed by the faculty member only after a hearing conducted by the division dean:

- A grade of “F” or “NP” for the course, overriding a student withdrawal from the course.

The Dean of Student Development may also issue the following disciplinary sanctions, in accordance with the Code of Student Conduct:

- Disciplinary admonition and warning.
- Disciplinary probation with or without the loss of privileges for a definite period of time. The violation of the terms of the disciplinary probation or the breaking of any college rule during the probation period may be grounds for suspension or expulsion from the college.
- Suspension from Portland Community College for a definite period of time. (i.e., suspension of the privilege to attend Portland Community College).
- Expulsion from Portland Community College (i.e., removal of the privilege to attend Portland Community College).

Academic Dishonesty Complaint and Hearing Procedures

1. The faculty member observing or investigating the apparent act of academic dishonesty documents the commission of the act, usually by writing down the time, date, place, and a description of the act.
2. The faculty member collects evidence, often by photocopying the plagiarized assignment and creating a paper trail of all that occurs after the alleged act of academic dishonesty. Often the evidence will include various samples of the student’s work showing a radical disparity in style or ability.
3. The faculty member provides the student an opportunity to explain the incident.
4. The faculty member explains to the student the procedures and penalties for academic dishonesty and gives the student a copy of the Portland Community College Academic Integrity Policy.
5. The faculty member may resolve the matter informally by determining an appropriate course of action, which may include a verbal or written warning, or a grade of “F” or “NP” on an assignment, project, or examination, or no further action. If the accused student contests the faculty member’s decision, a hearing with the division dean may be requested in writing to the division dean within 10 days of the time the student is notified of the faculty member’s decision. A hearing requested by a student under this section is informally conducted by the division dean, who may take steps he or she deems appropriate to resolve the conflict.
6. If the faculty member wishes to initiate further action (e.g. assign a lower grade or a grade of “F” or “NP” for the course), the student is entitled to a hearing with the division dean. The faculty member submits a copy of the Academic Dishonesty Report form
Children are welcome on Portland Community College campuses and properties in appropriate situations and while actively supervised by a parent, guardian, or responsible adult. This policy outlines the College’s approach to ensuring that reasonable steps are taken to protect the study and work environment of the College, and the health, safety, and liability issues associated with children on PCC properties.

**SCOPE**

This policy applies to minor children under the age of 16 who are not officially enrolled in classes or employed by the College. This policy does not apply to organized activities such as attending a registered child care facility, after school care activities, school field trips, and approved programs including, but not limited to, athletic events, theater productions, art programs, and other events targeted to children.

Students under the age of 16 who are officially enrolled, and for whom an authorized Underage Release form is on file with the Admissions Office, have the same rights, responsibilities and privileges of any other student in the classroom and on college properties.

**APPLICATION**

The College seeks to provide an environment which is conducive to study and work. Children must be actively supervised by their parent, guardian, or responsible adult at all times when they are on college properties.

College staff, faculty and administrators have the responsibility to direct the removal of a child in accordance with section 3.6 of this policy.

Due to safety and liability issues, except as otherwise defined in this policy, under no circumstances may unsupervised children be on college properties, including playing, roaming, and occupying campus grounds or buildings.

Any college employee who finds an unaccompanied child on college properties should inform Public Safety of the location of the child.

**RESTRICTED AREAS**

Children cannot be allowed in areas where their presence is disruptive or where health, safety, and liability risks are identified. Areas in which children are NOT permitted include:

- Testing centers
- Classrooms (when the Instructor determines that the presence of children would be unsuitable)
- Laboratories and laboratory preparation areas
- Scientific, technical and maintenance work spaces
- Fine or performing arts work spaces or studios
- Areas that contain hazardous chemicals, machinery or equipment
- Commercial kitchens and other food preparation areas
- Fitness centers

Other areas may be identified as unsuitable for children as a result of a risk assessment and supervisors of the respective areas are required to inform staff and students of requirements or restrictions.

**PCC TRANSPORTATION SERVICES**

When children are passengers in any PCC vehicle, including shuttle buses, the operators of these vehicles are not responsible for ensuring that child passengers meet child safety requirements. It is the responsibility of the care provider to ensure that any child accompanying them meet the child safety requirements. Where safety restraints are not available, the care provider will ensure the child is properly seated to minimize possible accident or injury. Failure to conform to these guidelines will result in child and care provider being denied transport (as applicable to ORS 811.210).

**RESPONSIBILITY OF THE COLLEGE**

- To provide an environment conducive to study and work for all students, staff and visitors.
- To provide a healthy and safe study and work environment for all students, staff and visitors and to comply with legislative requirements.
- To take reasonable steps to assist students, staff and visitors who may have special needs to enable access to facilities and services.

**RESPONSIBILITIES OF PEOPLE BRINGING CHILDREN INTO THE COLLEGE**

- To take reasonable steps to safeguard the health and safety of the children in their care while on college properties.
- To consider the potential risk to the health and safety of others that may come with bringing children into the College environment and to take reasonable steps to safeguard against those risks.

SOURCES

With permission, contents of this policy were adapted from “Academic Honesty” and “Academic Dishonesty,” Oregon State University, Corvallis, Oregon; and “Student Rights and Responsibilities: Scholastic Ethics Code,” Pima Community College, Tucson, Arizona.
• To be responsible for the behavior of the children in their care, so as not to disrupt, inconvenience or endanger staff, students or other visitors.

RESPONSIBILITIES OF PCC STAFF AND INSTRUCTORS
To direct removal of a child in accordance with this policy if:
• The child’s health or safety is at risk;
• The child is presenting a health, safety or liability risk to property or others;
• The child’s behavior is causing undue disruption to the work of students or staff; or
• The presence of a child is unsuitable.

Instructors are responsible to direct the removal of children from their classroom. In the case of public areas, any member of staff on duty has the authority to direct that children be removed from the area.

Students who wish to appeal a specific situation, or who fail to comply, may follow the Code of Student Conduct hearing process as outlined in the PCC Student Rights and Responsibilities.

CONSENSUAL RELATIONSHIP STATEMENT
Portland Community College’s mission is to offer an atmosphere that encourages the full realization of each individual’s potential. This mission is promoted by professionalism in the relationships that faculty and staff have with students. These relationships are intended to foster free and open exchange of ideas, productive learning, and the work that supports it.

In addition, those who supervise or evaluate the work of students must be perceived to be making their decisions fairly and without favoritism. This mission is potentially jeopardized when faculty/staff enter into consensual romantic relationships with their students.

Faculty and staff are cautioned that consensual romantic relationships with their students can prove to be unwise and problematic, and should be avoided. When consensual romantic relationships occur, questions of fairness, favoritism, and coercion arise:
• Relationships in which one party is in a position to review the work, or influence the career of the other may provide grounds for complaint when that relationship appears to give undue access or advantage, restricts opportunities, or creates a hostile and unacceptable environment for others.
• Such relationships may undermine the real or perceived integrity of the supervision provided, and the particular trust inherent in the student-faculty relationship.
• Such relationships may, moreover, be less consensual than the individual whose position confers power believes. The relationship is likely to be perceived in different ways by each of the parties to it, especially in retrospect. While some relationships may begin and remain harmonious, they are susceptible to being characterized as unprofessional and disrespectful to others.

Therefore, faculty/staff should not engage in consensual romantic relationships with their current students.

If a faculty or staff member has a pre-existing consensual romantic/sexual relationship with a student, the student should be discouraged from enrolling in courses taught by the instructor or entering into work situations in which she/he would be supervised by the staff member. If the student does enroll in the course or work for the staff member, the faculty/staff member should remove him/herself from academic or professional decisions concerning the student.

Should a romantic/sexual relationship between a faculty/staff member and his/her student lead to a sexual harassment charge, the College is obligated to investigate and resolve the charge in accordance with the complaint procedure in the Gender Based and Sexual Misconduct Policy.

COPYRIGHT COMPLIANCE STATEMENT
pcc.edu/about/policy/copyright/

Portland Community College (PCC) is committed to compliance with copyright law and the preservation of the rights of copyright owners and users of copyrighted materials. The College requires PCC faculty, staff and students to observe federal law regarding the use of copyrighted material. For more information, see the Copyright Law of the United States of America and PCC Policy on Student Conduct [pdf].

PCC will remove or disable materials on its domain that are identified as violating copyright by the copyright owner or his/her agent. The College will make reasonable efforts to notify the faculty, staff and or student responsible.

The College seeks to ensure that the members of the College community know their rights and responsibilities under the fair use provisions of the Copyright Act (17 U.S.C. Section 107), and are able to apply them regarding their use of copyrighted works.

Ports of this statement were adapted from the University of Minnesota’s “Libraries: Policy and Principles on Fair Use” which is licensed under a Creative Commons Attribution-NonCommercial License. Revised February 17, 2017. Adopted by the PCC Copyright Committee May, 2010.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws
Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement. Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or “statutory” damages affixed at not less than $750 and not more than $30,000 per work infringed. For "willful" infringement, a court may award up to $150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense. For more information, please see the website of the U.S. Copyright Office at www.copyright.gov

DISCLOSURE OF STUDENT RECORDS AND DIRECTORY INFORMATION
pcc.edu/about/policy/student-records/

The PCC district shall follow all applicable state and federal laws, rules, and regulations which apply to student records. All information contained in the college records which is personally identifiable to any student shall be kept confidential and not released except upon prior written consent of the subject student or upon the lawful subpoena or other order of a court of competent jurisdiction. Student information may be shared among college faculty and staff on an official (need to know) basis.

POLICY STUDENT RECORDS B407
PCC will remove or disable materials on its domain that are identified as violating copyright by the copyright owner or his/her agent. The College will make reasonable efforts to notify the faculty, staff and or student responsible.
EDUCATIONAL RECORDS POLICY
The PCC district follows all applicable state and federal laws, rules and regulations that apply to Student Records. The Family Educational Rights and Privacy Act of 1974 (Statute: 20 U.S.C. 1232g; Regulations: 34CRF Part 99), also known as FERPA or the Buckley amendment, is a federal law that states (a) a written institutional policy must be established and (b) that a statement of adopted procedures covering the privacy rights of students be made available. The law provides that the institution will maintain the confidentiality of student education records and affords students certain rights regarding their educational records. They are:

• The right to inspect and review the student’s records. The student may request to review his/her records by submitting a written request to the Records Office having custody of such records;
• The right to seek amendment of the student’s records that the student believes are inaccurate, misleading or otherwise in violation of the student’s privacy rights. Requests for amendment of records must be in writing and must describe the specific portions or specific record(s) the student wishes to have amended, instructions as to the change desired, and reasons why the change is justified;
• The right to consent to disclosure of personally identifiable information contained in the student’s education records, except for when consent is not required by FERPA. FERPA does not require a student’s consent when disclosure is to other school officials with legitimate educational interests. A school official is a person employed by the college in an administrative, supervisory, academic or research, or support staff position; a person or company with whom the college has contracted or appointed as its agent; or a student serving on an official committee or assisting another school official in performing the official's tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his/her professional responsibilities.
• The right to file a complaint with the Department of Education, Family Compliance Office, concerning alleged failures by the college to comply with the requirements of FERPA.

Note: PCC does not have any directory information. Therefore, all information about a student is kept confidential and not released without express written consent of the student (except when consent is not required by FERPA). While PCC does not have any directory information, the college may contact a student via the phone and mailing address provided by the student, and may leave a voice mail at the provided number.

Note: FERPA rights belong to the PCC student, regardless of the student's age.

Questions about these policies can be directed to the College Registrar and the Student Records Office at 971-722-7100

SOLOMON ACT
Federal law requires PCC to provide student name, address and telephone number to the military for recruiting purposes.

COMMUNICATION POLICY (MYPCC AND PCC EMAIL)
Portland Community College will use electronic communication methods to conduct official and legal college business. Communication to PCC employees and students via electronic communication methods will speed the delivery of information. Every student and employee is given the appropriate account(s) to access these communications.

Recipients will be expected to read all electronic communication related to PCC business and when necessary take action as a result of communications received from the College. It is expected that students and employees will monitor their college electronic accounts often to receive the most up-to-date information from the College.

GRADE APPEAL PROCEDURE
PURPOSE
As set forth in PCC's Policy on Student Rights, students have the Right to Protection from Improper Academic Evaluation. The Grade Appeal Procedure provides the student with a process for appealing a final course grade when he or she believes that an improper evaluation has occurred. "Improper evaluation" is defined as 1) the evaluation standards and grading criteria contained in the course syllabus were not followed by the instructor or 2) the final grade was imposed in an arbitrary or capricious manner.

SCOPE
The Grade Appeal Procedure only applies to disputes about posted final course grades. Concerns about grades given for assignments or examinations during the term, or concerns or complaints about instructional quality should be addressed through the Complaint Procedures, which may be found as a link at: http://www.pcc.edu/about/policy/complaints.html.

The Grade Appeal Procedure does not invalidate the requirements mandated by any department, program, and/or the curriculum of any particular course. Specific course assignments, instructor-specific policies, or other formal course-related materials cannot be challenged or appealed through this process. This process applies only to assertions of improper final evaluation as described above.

AUTHORITY
The instructor and/or the appropriate academic Division Dean have the authority to authorize a change to a final course grade as an outcome of this appeal process.

The Dean of Student Development will serve as steward of the Grade Appeal Procedure. When the appeal process is concluded, all documentation will be forwarded to the campus Dean of Student Development, who will maintain such documentation in accordance with appropriate retention schedules.

STUDENT PROTECTIONS
A student may have a support person of his/her choice (such as a PCC counselor or advisor, or student government representative) throughout the appeal process. The support person is not permitted to present the appeal, but may advise the student throughout the appeal process. The Dean of Student Development's office can assist the student with identifying a support person, or arranging for assistance with language translation, if needed.

Both PCC and the student may seek legal advice at their own expense; however, neither PCC nor the student may be represented by a lawyer during any meeting pertaining to the Grade Appeal Procedure.

Concerns involving harassment or discrimination on the basis of race, color, religion, sex, sexual orientation, age, national origin, disability, veteran status, or other legally protected status should be directed to PCC's Office of Equity and Inclusion. Information may be found at http://www.pcc.edu/about/equity-inclusion/nonharassment/. The Office of Equity and Inclusion and the academic division considering the grade appeal may engage in parallel investigations if the College determines parallel investigations are appropriate.

PROCEDURES
STEP 1: Attempt to Resolve the Final Grade Concern With The Instructor
A. If the student believes his or her grade was a mistake, he or she must first directly communicate with the instructor about the final grade by sending a written inquiry to the instructor requesting an explanation of how the grade was determined and stating his/her questions and concerns about the grade assigned. The communication should include specific reasons why the student
believes he or she was graded improperly, and supporting evidence, such as statements in the course syllabus, alleged discrepancies in points or grades received, emails to and from the instructor, etc. This written inquiry must be received by the instructor within 14 calendar days of the final course grades being posted, or the student forfeits the right to appeal the grade.

B. Upon receiving a written inquiry regarding a final course grade, the instructor is expected to respond to the student’s inquiry in writing within 14 calendar days of the documented date of the student’s inquiry. If the instructor is unable to respond within 14 days of the documented inquiry, the Department Chair or Division Dean may initiate an appropriate response, if the inquiry is made known to them by the student. For instructor and department contact information see the Staff Directory on the PCC website at: http://www.pcc.edu/about/contact/advanced-search.html and the Department Chair Directory at: http://www.pcc.edu/about/administration/faculty-department-chairs.html. The campus Dean of Student Development offices can assist with Step 1.

C. If questions remain after the student receives explanation from the instructor, the student is encouraged to discuss those concerns in person with the instructor.

STEP 2: Submit a Grade Appeal Form to the Dean of Student Development

A. If the student’s concern is not resolved through Step 1, the student may submit a Grade Appeal Form, with supporting evidence, to the campus Dean of Student Development or designee within 30 calendar days of the student’s documented inquiry to the instructor in Step 1.

Grade Appeal Forms are available at the Dean of Student Development offices and online at: http://www.pcc.edu/about/policy/student-rights/documents/grade-appeal.pdf

B. The Dean of Student Development or designee will review the Grade Appeal Form and determine the next steps, which may include, but are not limited to: (1) referral of the appeal to the instructor’s academic Division Dean or other immediate supervisor for review, investigation, and response; (2) request for additional information and supporting documentation from the student, or (3) a decision not to proceed with the appeal if the academic evaluation being contested does not fall within the scope of this policy.

C. Once sufficient information and documentation has been received from the student, and the appeal has been deemed appropriate, the Division Dean or other immediate supervisor will investigate the final course grade in question, make a decision about the appropriateness of that grade under the standards described above, and communicate the decision in writing to the student. A copy of the written decision will also be sent to the Dean of Student Development.

Generally, Step 2 will be completed within 14 calendar days of receipt of the Grade Appeal Form, unless more time is needed to investigate.

STEP 3: Appeal Decision to Dean of Instruction

A. The student may appeal the decision in Step 2 only on the grounds that (1) the procedures outlined in this policy were not followed; or (2) relevant evidence concerning the final course grade becomes available that was not available during Step 2. An appeal must be made within 14 calendar days of receipt of the Division Dean’s written decision. The student must submit written justification for further review and provide evidence that there are grounds for the appeal to the Dean of Instruction.

B. The Dean of Instruction will objectively investigate how the grade appeal process was conducted in Step 2, and/or consider relevant evidence that was not available or not considered during Step 2, make a final decision on the appeal, and communicate it in writing to the student, with a copy to the Dean of Student Development.

POLICY ON STUDENT CONDUCT

INTRODUCTION

This document supersedes all previous student conduct policies (Adopted on 07/01/13). This document is to be made available to all students, in the Portland Community College (“PCC”) Catalog, on the PCC website at www.pcc.edu, and in printed form in the Offices of the Deans of Student Development.

This document is not a contract between a student and PCC, and PCC reserves the right to modify or revise the contents of this document at any time. This document is to be construed in a manner that is consistent with other PCC policies and regulations. The most current version is available online at: http://www.pcc.edu/about/policy/student-rights/documents/student-conduct.pdf

The term "student" includes all persons taking courses at the College, both full-time and part-time, pursuing credit or non-credit classes or enrolled in any special programs approved the College. Persons who are not officially enrolled for a particular term, but who have a continuing relationship with the College, may be considered “students.”

Admission to and participation in PCC carries with it the presumption that students will conduct themselves as responsible members of the PCC community. Thus, students as defined here are obligated to observe all PCC standards of conduct.

PURPOSE

The purpose of the Policy on Student Conduct is to communicate the expectations that Portland Community College (“PCC”) has of students, and to educate and guide students to understand their responsibility for appropriate behavior and respect for others in the PCC community. PCC is dedicated to the advancement of learning, to student retention and success, and also to the development of responsible personal and social conduct. The maintenance of discipline in the PCC setting is intended to support a civil environment conducive to learning and inquiry. Student Services staff members work in partnership with instructors and academic administrators to support this goal.

AUTHORITY

• This policy sets forth the appropriate discipline of any student who acts to impair, interfere with, or obstruct the orderly conduct, processes, and functions of PCC or otherwise engages in conduct that PCC has determined is unacceptable for a student at PCC. PCC reserves the right to impose discipline based on student conduct that has some connection to the student’s
relationship with PCC and that PCC determines adversely affects the PCC community in a substantial manner.

• The campus Dean of Student Development or designee(s) shall administer the Policy on Student Conduct by developing and implementing procedures as deemed appropriate.

• PCC reserves the right to take appropriate action to protect the safety and well-being of the campus community. The Campus President or designee, when faced with a situation that he or she determines is likely to or does substantially disrupt the order of PCC, threatens the health and welfare of the PCC community, or interferes with PCC operations has the authority to prohibit any person or persons from entering or remaining on PCC property. PCC may exclude the student from campus and engage PCC public safety and local law enforcement assistance in enforcing the exclusion.

• Persons who are not students are also expected to comply with PCC policies and procedures, when engaging in any activity connected with PCC.

SCOPE
This policy applies to students at PCC. The term “student” includes all persons taking courses at the college, both full-time and part-time, pursuing credit or non-credit classes or enrolled in any special program approved by the college. Persons who are not officially enrolled for a particular term, but who have a continuing relationship with the college, are considered “students.”

The purpose of publishing PCC’s policy on student conduct is to give students general notice of prohibited behavior. This policy is not written with the specificity of a criminal statute. Any question of interpretation regarding the policy will be referred to the Dean of Student Development or a designee for final determination.

VIOLATIONS OF LOCAL, STATE, AND FEDERAL LAW
A student may be accountable both to governmental authorities and to PCC for acts that constitute violations of law and this policy. Student conduct that may constitute a crime may be referred to appropriate law enforcement agencies for prosecution. Disciplinary proceedings at PCC will not be subject to challenge on the grounds that criminal charges involving the same incident have been filed, prosecuted, dismissed, reduced, or otherwise resolved or that such proceedings constitute double jeopardy.

STUDENT RESPONSIBILITY
Admission to and participation in PCC as a student carries with it the presumption that the student will conduct him or herself as a responsible member of the PCC community. Thus, students are obligated to observe all PCC standards of conduct.

ADDITIONAL CONDUCT PROCEDURES
Programs based on contracts with government agencies or external funding sources may adopt additional conduct procedures consistent with this policy.

GROUND FOR DISCIPLINARY ACTION
PCC may impose discipline for violation of, or an attempt to violate, any PCC policies or campus regulations. Violations or attempted violations include, but are not limited to, the types of misconduct described in “Violations” section below.

Conduct may violate this policy but also may violate academic standards and an academic department or program may impose academic related-sanctions separate from, and in addition to, sanctions under this policy.

VIOLATIONS
1. Disruptive behavior: Examples include, but are not limited to:
• Any behavior that is disorderly or substantially disruptive to the educational or administrative processes of PCC as determined by a PCC official.
• Conduct that substantially interferes with PCC’s educational responsibility of ensuring the opportunity for all members of PCC community to attain their educational objectives, or PCC’s subsidiary responsibilities, which may include, but are not limited to: record keeping, providing miscellaneous services, and sponsoring out-of-class activities, such as lectures, concerts, athletic events, and social functions.
• Obscene or lewd conduct.

2. Failure to comply with policies, laws, rules, or directives. This includes failure to comply with local, state, or federal laws and regulations, PCC policies, rules, or procedures, the lawful directives of PCC personnel acting in performance of their duties, and instructors’ directions. Examples include, but are not limited to:
• Possession, consumption, being under the influence, or furnishing of alcoholic beverages, other than at specific events sanctioned by PCC. See: http://www.pcc.edu/about/public-safety/policies.html.
• Unlawful possession or use of illegal drugs or narcotics. See: http://www.pcc.edu/about/public-safety/policies.html.
• Engaging in any activity involving unlawful use or possession of firearms or illegal weapons. See: http://www.pcc.edu/about/public-safety/policies.html.
• Failure to comply with PCC policies, such as:
  • Academic Integrity Policy (Students should be aware that there may be separate academic consequences for failure to comply with academic integrity standards.) See: http://www.pcc.edu/resources/academic-standards-practices/academic-integrity.html
  • Tobacco-Free Policy. See: http://www.pcc.edu/about/policy/tobacco/rules-procedures.html
  • Service Animal Policy and Procedures. See: http://www.pcc.edu/resources/disability/policies/service-animals.html
  • PCC Copyright Compliance Statement. See: http://www.pcc.edu/about/policy/copyright/compliance.html
  • PCC Nondiscrimination & Non-harassment Policy. See: http://www.pcc.edu/about/affirmative-action/nonharassment.html

3. Assaulting, endangering, harassing, or threatening others. Examples include, but are not limited to:
• Assault, abuse, harassment, intimidation, or threats by any means toward a student, staff member, vendor, visitor, or guest of PCC.
• Stalking behavior or engaging in other forms of unwanted conduct directed at another person that:
  • threatens or endangers the safety, physical or mental health, or life or property of that person;
  • creates a reasonable fear of such a threat or action; or
  • interferes with the person’s ability to participate in the educational or operational aspects of PCC.
• Sexual misconduct or abuse. See: http://www.pcc.edu/about/public-safety/policies.html

4. Unauthorized use or access. Examples include, but are not limited to:
• Unauthorized entry to PCC offices or property.
• Unauthorized possession or use of PCC equipment or resources.
• Unauthorized use of College PCC services.

5. Forgery, furnishing false information, identity theft, or dishonest conduct. Examples include, but are not limited to:
• Knowingly making false accusation of misconduct.
• Knowingly reporting a false emergency.
POLICIES

• Unauthorized use of another individual’s identification or password, or sharing one’s personal identification or password with an unauthorized user.
• Forging, alteration, or misuse of PCC documents, records, or identification cards whether in written or electronic form.
• Furnishing false information to PCC with the intent to deceive PCC or any person or agency.

6. Theft or damage to property. Examples include, but are not limited to:
• Attempted or actual theft (as defined by Oregon law).
• Damaging, defacing, or destroying PCC or personal property.
• Conversion of PCC or personal property (e.g., receiving stolen books from the bookstore or from another student, and then attempting to sell them back to the bookstore and collect the money).

REMOVAL OF STUDENTS FROM CLASS
Instructors may ask persons who are not registered for their classes to leave the classroom. Exceptions may be made by PCC administrators and instructors for the purposes of providing approved accommodations, or for allowing occasional guests.

An instructor may temporarily remove a student from class, or temporarily block a student’s access to the learning management system for an online course, if the student has engaged in disruptive behavior. Before allowing the student to return to class, the instructor, department chair, and/or division dean will clarify with the student the behavioral standards that must be met in order to continue in the class. This clarification will occur as expeditiously as possible (preferably before the next class session or equivalent). The Dean of Student Development Office can serve as a resource in managing classroom behavior.

Examples of disruptive behavior in class include, but are not limited to:
• Unreasonable interruption of the learning process or environment.
• Failure to follow behavioral or conduct guidelines in the syllabus or directions of the instructor.
• Intimidation of others.

If the problem is not resolved through this clarification process, the student may be referred for disciplinary action to the Dean of Student Development. Permanent removal from a class may be imposed only by the Dean of Student Development or designee, in accordance with the Policy on Student Conduct Disciplinary Procedures.

In consultation with the instructor, the Dean of Student Development or designee and/or the Public Safety Office may take appropriate action to protect the safety and well-being of the campus community. This may include prohibiting a student from returning to class or remaining on campus if it is determined that the student’s behavior is likely to or does threaten the health and welfare of others. See “AUTHORITY” section above.

INVolUNTARY LEAVE
PCC may require a student to take a leave of absence when the campus Dean of Student Development or designee determines that the student’s conduct does one of the following:
• Suggests that the student might create a significant risk to the health and safety of others.
• Suggests a risk that PCC’s educational and other activities may be substantially disrupted.

The “Procedures for Involuntary Leave of Absence for Health and Safety Reasons” are independent and separate from the Policy on Student Conduct, and do not preclude PCC from taking appropriate disciplinary action under that policy.

POLICY ON STUDENT CONDUCT DISCIPLINARY PROCEDURES

Any PCC student, faculty member, or staff member may report a student suspected of violating the Policy on Student Conduct to the campus Dean of Student Development or designee. Typically, a written complaint or an Incident Report Form should be submitted promptly after the occurrence or discovery of the alleged infraction(s). The campus Dean may, however, initiate disciplinary processes without a written complaint.

Incident Report Form is located at: http://www.pcc.edu/resources/report-an-incident/

Upon receipt of a written complaint, or information prompting the initiation of the disciplinary process, the campus Dean of Student Development or designee will evaluate whether the circumstances merit disciplinary action based on the nature of the charges.

Generally, the student charged with the violation will be informed of the nature and source of the complaint. The source of information may be kept confidential. If the Dean of Student Development or designee determines, in his or her discretion, that revealing the source would create a risk of physical or emotional harm to the source, or might otherwise have a chilling effect on enforcement of these rules.

PCC faculty, staff or students may also submit an Incident Report Form if there is a concern about a student’s behavior that may not be a conduct violation. Information on how to address and report students experiencing distress or demonstrating concerning behavior may be found at: http://www.pcc.edu/resources/report-an-incident/reporting-concerns.html

Disciplinary Process
During the investigation of cases that may lead to disciplinary action, the status of the student will usually not be altered. The student will continue to be allowed to attend classes and be present on campus during the investigation. The Dean of Student Development or designee may make exceptions, however, and exclude a student from classes or PCC property if he or she determines that the student’s presence on campus is likely to interfere with PCC’s orderly operation or create a significant risk to the health and safety of students, faculty, staff, or PCC property.

Both PCC and the student may seek legal advice at their own expense, however because this is not a legal proceeding neither PCC nor the student will be represented or advised by a lawyer during any disciplinary meeting or hearing involving PCC and the student.

The student may withdraw from PCC of his or her own volition at any time during the disciplinary process. Disciplinary sanctions may still be imposed, however, if the student withdraws from PCC before the disciplinary process, or elects not to participate in disciplinary proceedings.

The student has the right to appeal any disciplinary action to the Campus President or designee, but may do so solely on the basis of alleged procedural violation(s) of the Disciplinary Procedures. If a violation of the Disciplinary Procedures is found to have occurred, the Campus President or designee will remand the case to the Dean of Student Development or designee for reprocessing.

Informal Resolution
The Dean of Student Development or designee, or any PCC official carrying out his or her duties, may address alleged or potential violations and initiate informal resolution in which the student and PCC agree on an outcome and the student is not formally disciplined but agrees to take steps to address the concerns that arose and led to possible discipline.

Formal Resolution
In cases that are not resolved informally, the Dean of Student Development or designee shall use the steps described below:

Step 1: At an initial conference with the Dean of Student Development or designee, the student will be notified in person or in writing about alleged violations and possible sanctions. The student will also
be notified in person or in writing of the nature and source of the information underlying the alleged violations unless the Dean of Student Development or designee determines, in his or her discretion, that revealing the source would create a risk of physical or emotional harm to the source, or might otherwise have a chilling effect on enforcement of these rules. The student will have an opportunity to respond to the allegations and the information presented. The student may have a support person of his or her choice present. The support person is not permitted to present the case but may advise the student.

Step 2: If the student wishes to submit facts and information on his or her behalf, it must be submitted within seven calendar days of (and including) the initial conference.

Step 3: After considering the information in the case and interviewing persons as appropriate, the Dean of Student Development or designee may take one of the following actions:

1. Terminate the proceedings, exonerating the student.
2. Dismiss the case after appropriate guidance and advice.
3. Impose appropriate sanction(s) as described below.

Step 4: The student will be notified in writing of the decision of the Dean of Student Development or designee. The parents or guardian of any student under 16 years of age who receives sanction(s) under the Policy on Student Conduct will be notified.

Sanctions

1. Disciplinary warning.
2. Disciplinary probation with or without the loss of privileges for a definite period of time. The violation of the terms of the disciplinary probation or the breaking of any PCC rule during the probation period may be grounds for suspension or expulsion from PCC.
3. Restitution for damages.
4. A specified period of PCC and/or community service.
5. Removal from class(es) for which the student is currently registered.
6. Disciplinary suspension from PCC for a definite period of time and/or pending the satisfaction of conditions for readmission, (i.e., suspension of the privilege to attend PCC).
7. Expulsion from PCC (i.e., permanent removal of the privilege to attend PCC).
8. Any other sanction deemed appropriate.

Appeal

If the student wishes to appeal the decision on the basis of alleged violation of these procedures, he or she may do so by submitting a written appeal to the Campus President or designee within 14 calendar days after the notice is delivered to the address on record for the student in the College Registrar’s Office. The Campus President or designee shall render a decision regarding the alleged violation of due process within 14 calendar days of its submission.

Readmission After Disciplinary Suspension

A student suspended from PCC for disciplinary reasons may be readmitted only upon written petition to the campus Dean of Student Development or designee. The petition must, if applicable, indicate how specific reinstatement conditions, if any, have been met, and reasons that support reconsideration. The Dean of Student Development or designee shall convey his or her decision in writing to the student and, in the case of non-readmission, shall set forth the reasons in writing. The decision of the Dean of Student Development or designee is final.

Records

The Dean of Student Development or designee(s) is responsible for maintaining records and documentation of disciplinary cases in accordance with the state archival policies.

Information from disciplinary files is not available to unauthorized persons on campus or to individuals off-campus without the written consent of the student involved, except under legal compulsion, in cases in which PCC has determined that it has a legitimate educational interest in the information, or in the case of other disclosures that comply with the Family Educational Rights and Privacy Act, Board Policy, and local, state, and federal laws pertaining to education records.

STUDENT RIGHTS AND RESPONSIBILITIES

The PCC Student Rights and Responsibilities supersede all previous student rights and responsibilities policies (Adopted on 07/01/2013). This document is to be made available to all students, in the Portland Community College ("PCC") Catalog, on the PCC website at www.pcc.edu, and in printed form in the Offices of the Deans of Student Development.

This document is not a contract between a student and PCC, and PCC reserves the right to modify or revise the contents of this document at any time. This document is to be construed in a manner that is consistent with other PCC policies and regulations. The most current version is available online at: http://www.pcc.edu/about/policy/student-rights/.

The term "student" includes all persons taking courses at the college, both full-time and part-time, pursuing credit or non-credit classes or enrolled in any special program approved by the college. Persons who are not officially enrolled for a particular term, but who have a continuing relationship with the college, may be considered "students."

Admission to and participation in PCC carries with it the presumption that students will conduct themselves as responsible members of the PCC community. Thus, students as defined above are obligated to follow this policy.

STUDENT RIGHTS

RIGHT TO PROTECTION FROM IMPROPER ACADEMIC EVALUATION

Student academic performance will be evaluated on an academic basis (which may include attendance), and the ability to apply skills, and not on a student’s opinions or conduct in matters unrelated to academic standards. The course syllabus will contain and articulate the evaluation standards and grading criteria by which student performance is measured for that particular course.

Each student is responsible for meeting standards of academic performance established for each course in which the student is enrolled.

A student may dispute his or her academic evaluation under the Grade Appeal Procedure if the student believes that the evaluation standards and grading criteria contained in the course syllabus were not followed by the instructor or were imposed in an arbitrary or capricious manner. Any student who believes that he or she has been unfairly graded should refer to the PCC Grade Appeal Procedure at: http://www.pcc.edu/about/policy/student-rights/#grade.

Students have the right to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, while still being responsible for learning the content of any course of study in which they are enrolled.

For complaints about instruction, other than grade appeals, see Student Complaint Procedures link at: http://www.pcc.edu/about/policy/complaints.html.

RIGHT TO FREEDOM FROM HARASSMENT AND DISCRIMINATION

The College prohibits unlawful harassment and discrimination based on race, color, religion, national origin, sex, marital status, disability, veteran status,
age, sexual orientation, or any other status protected by federal, state, or local law in any area, activity or operation of the College. The College also prohibits retaliation against an individual for engaging in activity protected under this policy, and interfering with rights or privileges granted under anti-discrimination laws.

In addition, the College complies with applicable provisions of the Civil Rights Act of 1964 (as amended), related Executive Orders 11246 and 11375, Title IX of the Education Amendments Act of 1972, Section 504 of the Rehabilitation Act of 1973, Americans with Disabilities Act of 1990 (as amended), Uniformed Services Employment and Reemployment Rights Act ("USERRA"), and all local and state civil rights laws. Under this policy, equal opportunity for employment, admission, and participation in the College’s programs, services, and activities will be extended to all persons, and the College will promote equal opportunity and treatment through application of this policy and other College efforts designed for that purpose.

Any person who believes he or she has been discriminated against or harassed by a PCC employee, representative, or student is encouraged to file a complaint through the Office of Equity and Inclusion (Downtown Center, Room 300, 971-722-5840 or 971-722-5841) or online at: http://www.pcc.edu/resources/report-an-incident/

Further information on PCC harassment and discrimination policies may be found at: http://www.pcc.edu/about/equity-inclusion/nonharassment/

Further information on resolving complaints by students with disabilities regarding appropriate accommodations or discriminatory treatment may be found at: http://www.pcc.edu/resources/disability/policies/resolving.html

RIGHT OF ACCESS TO, AND PROTECTION FROM, IMPROPER DISCLOSURE OF STUDENT RECORDS

PCC complies with all applicable state and federal laws, rules, and regulations that apply to student records. All information contained in PCC’s records that is personally identifiable to any student will be kept confidential and not released except upon prior written consent of the subject student or under any other exception for the release of student records without consent. Student information may be shared among PCC faculty and staff when PCC has determined that the college has a legitimate educational interest in the information.

Further information on PCC’s Privacy Policies may be found at: http://www.pcc.edu/about/policy/privacy.html

Concerns or complaints are to be directed to Student Records (971-722-7100 or records@pcc.edu).

Counseling Records

PCC counselors are prohibited by the standards of their profession from disclosing any information shared by a student during a counseling session, unless the student releases the information or other specific circumstances apply. These specific circumstances include harm to self or others, abuse of a minor, elder, or other vulnerable adult, health/medical emergency, or other circumstances required by Oregon law. Counselors will comply with all ethical and legal rules concerning confidentiality of counseling sessions.

Further information on confidentiality in counseling services may be found at: http://www.pcc.edu/resources/counseling/

RIGHTS CONCERNING PARTICIPATION IN CO-CURRICULAR ACTIVITIES

Students may be asked to participate in formulating and reviewing policies and rules, and to express their views, both publicly and privately, on these policies and rules, as well as matters of general interest to the student body.

Student Clubs and Organizing

Students have the right to form student clubs and organizations under the provisions of the Associated Students of Portland Community College (“ASPCC”) constitution and campus bylaws, and the right to carry out fund-raising activities for these clubs. All fund-raising activities for ASPCC and student clubs must be approved by the Campus Student Leadership Coordinator or designee.

Students and recognized student clubs and organizations have the right to have access to PCC facilities, subject to ordinary schedules, policies and regulations governing the use of each facility. Recognized student clubs and organizations have access to facilities at no cost unless additional services (custodial, Public Safety, table and chair set-up, etc.) are required. PCC procedures for reserving spaces in PCC’s buildings for meetings, speakers, or demonstrations must be followed.

As part of the educational process, recognized student clubs and organizations may invite to the campus any person who, in their opinion, might contribute to the intellectual or cultural life of PCC. Individual students wishing to invite a speaker to campus should seek the sponsorship of a recognized club or organization. Speakers may speak freely on the topic of their choosing, as long as they do not threaten to endanger the safety of any member(s) of the PCC community, pose a threat to PCC’s physical facilities, or substantially obstruct or disrupt PCC’s regular and essential operations.

To request room reservations, contact:
Cascade - carooms@pcc.edu
Rock Creek – rcrooms@pcc.edu
Southeast – serooms@pcc.edu
Sylvania – syrooms@pcc.edu

Orderly Demonstrations

Students have the right to conduct orderly demonstrations (including picketing, distribution of leaflets, and protests in peaceable assembly) unless the participants of those demonstrations threaten to endanger the safety of any member(s) of the PCC community, pose a threat to PCC’s physical facilities, or substantially obstruct or disrupt PCC’s regular and essential operations, in which case PCC reserves the right to close its facilities, clear its grounds, and cancel a demonstration. PCC recommends that those intending to conduct demonstrations outside of PCC buildings consult with the Dean of Student Development or designee to identify space that accommodates the reasonable needs of both PCC and those engaged in acts of speech or protest (e.g., large open spaces, with safe paths of ingress and egress, and with less likelihood of disrupting the educational environment).

Individuals and groups who wish to hold a demonstration within one of the College’s buildings must comply with campus policies and procedures for requesting space. Advance notice and approval is required for indoor demonstrations to allow the College to make appropriate and reasonable logistical arrangements for the demonstration.

To request room or space reservations within PCC buildings, contact:
Cascade - carooms@pcc.edu
Rock Creek – rcrooms@pcc.edu
Sylvania – syrooms@pcc.edu
Southeast Center – serooms@pcc.edu

Distribution of Material

Students have the right to distribute free publications not in violation of federal or state laws, and/or PCC policies and procedures, such as books, magazines, newspapers, handbills, leaflets, and similar materials. Distribution of these materials in classrooms, hallways, libraries, offices, or other PCC facilities used primarily for educational and instructional purposes must not interfere with the work or study of persons in those PCC facilities.

Any persons desiring to post or distribute publications must comply with campus policies and procedures. All handbills, leaflets, newspapers, posters, and similar materials must bear the name and address of the organization and/or individual distributing the materials.
Information on submitting items for posting may be found through Associated Students of PCC at: http://www.pcc.edu/resources/aspcc/

Concerns or complaints regarding Rights Concerning Participation in Co-Curricular Activities are to be directed to the Dean of Student Development for the campus or program. Complaints regarding the rights set forth in this section should be filed as soon as practically possible to enable PCC to investigate and attempt to resolve the issue. To file a complaint, contact:

Distance Learning: Students may contact any of the above campus offices
ABOUT PORTLAND COMMUNITY COLLEGE

Portland Community College is the largest institution of higher learning in Oregon, serving more than 1,350,000 residents in a five-county, 1,500 square-mile area in northwest Oregon. The district includes the state’s largest city, Portland, and the most rapidly growing population areas in the state. PCC enrolls nearly 87,000 full-and part-time students annually.

The PCC Board of Directors consists of seven members elected by zones to four-year terms. The board members govern the college, which includes selecting the president, approving the hiring of other staff and faculty, approving the college budget and establishing policies that govern the operation of the college.

ACCREDITATION

Portland Community College was accredited in 1970 by the Northwest Commission on Colleges and Universities, the accrediting agency for this region. Many programs within the college also have accreditation from professional associations. Documents describing Portland Community College’s accreditation and licensing are available for review in the college library, in the Office of the Vice President for Academic Affairs, or by visiting PCC’s accreditation website. Information regarding accreditation from professional associations may be obtained by contacting the department chairperson of the individual program.

COLLEGE HISTORY

Portland Community College began as the adult education program of the Portland Public Schools. On May 15, 1961, the school district established the college as a separately operating entity. Because the college included students from many areas outside of Portland, the school board appointed an advisory council in 1965 to supervise the college and to give representation to areas beyond the school district boundaries.

As the advisory council and the school board developed programs and plans for the rapidly growing college, it became evident that the college needed to be a separate governmental unit with its own elected board to represent Portland and its entire surrounding communities. In 1968, voters of the five-county area approved the formation of a new college district named the Metropolitan Area Education District. It included the school districts in Portland, Multnomah County, Lake Oswego, Columbia County, Newberg and Washington County.

At this time the voters also elected the first college board of directors and approved a tax base, which provided the college with funds for the local share of operation and building construction. In 1971, the name of the district was changed to Portland Community College District.

District residents showed continuing support for the college in 1980 and 1986 as they voted to increase the PCC tax base. Enrollment growth of 25 percent since 1986 led residents to vote “yes” a $61.4 million bond measure in 1992 to expand facilities at all campuses, and repair and upgrade existing buildings. In 2000, another bond measure for $144 million passed. As a result, the college opened new buildings at its three comprehensive campuses (Sylvania, Cascade and Rock Creek) in 2003 and 2004, and unveiled the new Southeast Center on 82nd Avenue in 2004. PCC joined other community colleges and universities from around the country in signing a national climate initiative that launched the college’s climate action plan to reduce its carbon footprint. In 2008, area voters approved a $374 million bond measure, which was the largest ever in the state of Oregon at the time. The money improved technology and workforce training centers, as well as addressed rising enrollment. The bond led to the completion of the the Willow Creek Center in 2009.

The energy-efficient Newberg Center opened in 2011 providing Yamhill County with a 12,000 square-foot education and community space. It is recognized as one of the most sustainable educational buildings in the nation, with solar panels, natural cooling and heating systems and natural lighting. During the 2011-2012 school year, PCC celebrated its 50th year of serving local communities.

In 2014, the college championed both the transformation of the Southeast Campus into its fourth comprehensive campus, but the creation of the Swan Island Trades Center. The Swan Island Center houses continuing education, training, retraining and professional development for local businesses.

In 2014, PCC developed its first comprehensive Strategic Vision, guiding the college community in the realm of diversity, sustainability, student success and access, and excellence. In 2016, PCC welcomed its seventh president, Mark Mitsui, to the district.

MISSION STATEMENT

Portland Community College supports student success by delivering access to quality education while advancing economic development and promoting sustainability in a collaborative culture of diversity, equity and inclusion.

To fulfill its mission, the college focuses on these core themes:

- Access and Student Success
- Economic Development and Sustainability
- Quality Education
- Diversity, Equity and Inclusion

PCC LOCATIONS

The college has four comprehensive campuses that provide lower-division college transfer courses, two-year associate degree programs and career/technical training programs. Additionally, the Extended Learning program serves students district-wide at a variety of PCC locations. Included are credit transfer programs, Workforce Training and Development, Adult Basic Skills, English for Speakers of Other Languages (ESOL), Community Education, Career Pathways and alternative high school programs. Campuses and centers are strategically located throughout the district to be within easy access of residents.

CASCADE CAMPUS

Campus President: Karin Edwards
705 N. Killingsworth Street
Portland, OR 97217
pcc.edu/cascade

PCC’s Cascade Campus is located in the urban heart of the city of Portland and serves about 20,400 students each year. Its neighborhood is diverse, lively and close-knit. The campus offers a full array of educational offerings, including the first two years of the university courses where students can earn an associate degree and a wide array of career-technical degrees and certificate offerings.

ROCK CREEK CAMPUS

Campus President: Sandra Fowler-Hill
17705 NW Springville Road
Portland, OR 97229-1744
pcc.edu/rockcreek

While Rock Creek has a Portland address, it sits about 12 miles west of downtown in the rapidly growing Beaverton-Hillsboro area of Washington County. The 260-acre campus provides a beautiful setting for both college transfer and career-technical programs and annually serves nearly 22,200 students. The campus provides a model for partnerships with area high schools. A newly renovated
science and technology building houses classroom and laboratory instruction.

**SOUTHEAST CAMPUS**
Campus President: Jessica Howard
2305 SE 82nd Avenue
Portland, OR 97216
pcc.edu/southeast

Thanks to the bond measure passed by voters in 2008, Southeast Campus has more than doubled its size from 94,000 to 200,000 square feet and expanded its class offerings, allowing its 11,100 students to complete an associate or transfer degree without traveling to another campus. A rich blend of culture is reflected in the community the campus serves, including a growing number of Vietnamese, Chinese, Korean, Latino, Russian and Ukrainian families. More than 48 languages are spoken on the 18-acre campus, which are richly reflected in Southeast’s annual CultureSEast festival.

**SYLVANIA CAMPUS**
Campus President: Lisa Avery
12000 SW 49th Avenue
Portland, OR 97219-7132
pcc.edu/sylvania

Sylvania is located in suburban Southwest Portland between Lake Oswego, Tigard and downtown Portland. It is PCC’s first campus as well as its largest, serving approximately 27,900 students annually, and is home for numerous PCC lower division transfer, career technical education and development education programs. The library and theater facilities are focal points of the campus.

**CLIMB CENTER FOR ADVANCEMENT**
1626 SE Water Avenue
Portland, OR 97214-3336
pcc.edu/climb

The CLIMB Center for Advancement, formerly known as the Central Portland Workforce Training Center, is a 31,000-square-foot facility near OMSI in central eastside Portland. CLIMB, which stands for Continuous Learning for Individuals, Management and Business, offers continuing education and professional training for health professionals, small business owners, managers and work teams. The center provides access to a broad range of training areas and facilities that meet the latest in industry standards and technical capabilities.

**HILLSBORO EDUCATION CENTER**
775 SE Baseline Street
Hillsboro, OR 97123
pcc.edu/hillsboro

Located in downtown Hillsboro, the center houses four classrooms with state-of-the-art audio/visual equipment and a 30-station computer lab. Classes are offered mornings, afternoons and evenings. A variety of transfer courses are offered along with classes in computers and graphic design. Pre-college reading, writing and math also are offered. English for Speakers of Other Languages (ESOL) classes are scheduled throughout the year. Academic advising and placement testing are available during normal business hours.

**NEWBERG CENTER**
135 Werth Boulevard
Newberg, OR 97132
pcc.edu/newberg

Open in 2011, the Newberg Center is ranked LEED Platinum for its sustainability features. It is approximately 12,000 square feet and includes five classrooms, a conference room, administrative space and a reception area. The college offers credit and non-credit courses, including arts and letters, social science, math, science, developmental reading, writing, and math, computers, ESOL and business.

**PORTLAND METROPOLITAN WORKFORCE TRAINING CENTER**
5600 NE 42nd Avenue
Portland, OR 97218
pcc.edu/metro

The Portland Metropolitan Workforce Training Center is located in urban northeast Portland and primarily houses Workforce Network, specializing in helping businesses meet human resources needs and job seekers with career development. The network includes Steps to Success, Dislocated Worker Program and the Metro One Stop, all providing a comprehensive array of employment and training. Instruction is available in Adult Basic Education, ESOL, job readiness preparation, job development, short-term training, internships, alcohol and drug/mental health assessment, and referral, and computer education.

**SWAN ISLAND TRADES CENTER**
6400 N. Cutter Circle
Portland, OR 97217
pcc.edu/swan-island

The Swan Island Trades Center is a 20,000-square-foot facility housing the Apprenticeship and Trades department. The center, Cascade Campus and CLIMB Center, all coordinate continuing education, training, retraining and professional development for Swan Island businesses. Programs include Facilities Maintenance Technology, Facilities Maintenance Technology and HVAC Installers, Millwright, Industrial Mechanics, Limited Maintenance Electrician, Manufacturing Plant Electrician and Stationary Engineer apprenticeships, and the Limited Building Maintenance Electrician training program.

**WILLOW CREEK CENTER**
241 SW Edgeway Drive
Beaverton, OR 97006
pcc.edu/willowcreek

Located on TriMet’s blue MAX line, the 100,000 square-foot Willow Creek Center serves as a one-stop for the unemployed and under-employed, and houses programs from the old Washington County Workforce Training Center and partner agencies. Programming at the site includes GED classes, Certified Nursing Assistant Training, Medical Assisting and Emergency Medical Services. Its cornerstone is the acclaimed Washington County Workforce Development. Established in 1995, this department provides the training and employment services for unemployed workers.

**PCC CONTRACTED EDUCATIONAL SERVICE DISTRICTS**

**PCC CORE OUTCOMES**

**COMMUNICATION**
Communicate effectively by determining the purpose, audience and context of communication, and respond to feedback to improve clarity, coherence and effectiveness in workplace, community and academic pursuits.
COMMUNITY AND ENVIRONMENTAL RESPONSIBILITY
Apply scientific, cultural and political perspectives to natural and social systems and use an understanding of social change and social action to address the consequences of local and global human activity.

CRITICAL THINKING AND PROBLEM SOLVING
Identify and investigate problems, evaluate information and its sources, and use appropriate methods of reasoning to develop creative and practical solutions to personal, professional and community issues.

CULTURAL AWARENESS
Use an understanding of the variations in human culture, perspectives and forms of expression to constructively address issues that arise out of cultural differences in the workplace and community.

PROFESSIONAL COMPETENCE
Demonstrate and apply the knowledge, skills and attitudes necessary to enter and succeed in a defined profession or advanced academic program.

SELF-REFLECTION
Assess, examine and reflect on one’s own academic skill, professional competence and personal beliefs and how these impact others.

Core Outcomes mapping:
Please see: pcc.edu/resources/academic/core-outcomes/

DEGREE AND CERTIFICATE OUTCOMES
Please see: pcc.edu/resources/academic/degree-outcome/index.html

STUDENT PROFILE
Portland Community College served over 78,000 students through credit and noncredit instruction in 2016-2017. The following reflect characteristics of students enrolled in the fall 2016 term.

STUDENTS RIGHT TO KNOW
In the fall term of 2013, 1,173 first time, full time, certificate or degree seeking students entered PCC. After three years, 16% of the students had graduated from PCC. Among those who did not graduate, 17% had transferred to other higher education institutions.

EQUAL OPPORTUNITY STATEMENT
pcc.edu/about/equity-inclusion/

NONDISCRIMINATION
The College prohibits unlawful discrimination based on race, color, religion, national origin, sex, marital status, disability, veteran status, age, sexual orientation, or any other status protected by federal, state, or local law in any area, activity or operation of the College. The College also prohibits retaliation against an individual for engaging in activity protected under this policy, and interfering with rights or privileges granted under anti-discrimination laws.

In addition, the College complies with applicable provisions of the Civil Rights Act of 1964 (as amended), related Executive Orders 11246 and 11375, Title IX of the Education Amendments Act of 1972, Section 504 of the Rehabilitation Act of 1973, Americans with Disabilities Act of 1990 (as amended), Uniformed Services Employment and Reemployment Rights Act ("USERRA"), and all local and state civil rights laws. Under this policy, equal opportunity for employment, admission, and participation in the College’s programs, services, and activities will be extended to all persons, and the College will promote equal opportunity and treatment through application of this policy and other College efforts designed for that purpose.

ALCOHOL AND DRUG COUNSELOR

AD 101. Addiction. 3 Credits.
Provides a basic overview of addiction. Considers the contribution of early childhood trauma on the developing brain and its influence on addictive behaviors, the signs and symptoms of addiction, the continuum of addictive behaviors, treatment, prevention, recovery and relapse. Audit available.

AD 102. Drug Use and Addiction. 3 Credits.
Considers current drug use and psychological and behavioral aspects of client misuse or addiction. Includes drug chemistry, physiological effects of drug use upon the body and specific treatment formats and techniques. Audit available.

AD 103. Women and Addiction. 3 Credits.
Investigates patterns of alcohol and drug use and abuse by women in our society. Explores models of treatment and recovery specific to the needs of women and the relationship of substance abuse to social issues. Audit available.

AD 104. Multicultural Counseling. 3 Credits.
Focuses on diversity of populations using addiction counseling services. Emphasizes developing sensitivity to relevant cultural differences and building skills in addressing them. Audit available.

AD 105. Aging & Addiction. 3 Credits.
Covers drug and alcohol addiction among older adults, including prescription and other drugs and alcohol, used either alone or in combination. As tolerance to the effects of alcohol and other drugs decline, aging adults have higher risk factors. Addresses issues specific to aging, including late onset addiction, effects of use on performance of activities of daily living, treatment issues and co-occurring disorders such as depression or other chronic illnesses. A multicultural perspective is used, including the role of social class and gender issues. Audit available.

AD 106. Nicotine Cessation. 1 Credit.
Presents an overview of nicotine addiction and specific evidence-based practices that have been demonstrated to contribute to successful nicotine cessation efforts. Audit available.

AD 107. Addiction Recovery Mentor. 3 Credits.
Presents an overview of Addiction Recovery Mentor skills, resources and evidence-based practices that have been demonstrated to contribute to successful Peer Mentor Programs. Audit available.

AD 108. Adolescence and Addiction. 3 Credits.
Examines addiction, substance use and abuse from the adolescent point of view. Includes assessment and treatment planning appropriate to this population and considers ethical and legal ramifications. Audit available.

AD 109. Criminality and Addiction. 3 Credits.
Examines the relationship between substance abuse issues and criminal behavior. Includes assessment of risk for criminal behavior and the likelihood of reoffending. Examines evidence-based treatment protocols relevant to the addicted criminally involved person with special emphasis on Cognitive Behavioral Therapy. Audit available.

AD 110. Substance Abuse Prevention. 3 Credits.
Presents an overview of substance abuse prevention theories and prevention programming applications. Emphasizes theories and models basic to prevention, evidence-based prevention strategies and model programs, strategic planning and outcome evaluation. Audit available.

AD 150. Group Counseling and Addiction. 3 Credits.
Provides exposure to the concepts of group process, group development and leader facilitation skills. Emphasizes group therapy and the addiction counselor. Prerequisite: AD 101 and acceptance into the Addiction Counseling Program. Corequisites: AD 270A. Audit available.

AD 153. Theories of Counseling. 3 Credits.
Covers basic theories of counseling, emphasizing treatment of addiction. Uses the developmental model of recovery as a basis for discussion and comparison of the various theories. Prerequisite/concurrent: AD 101. Audit available.

AD 154. Client Record Management and Addiction. 3 Credits.
Covers the knowledge and skills needed to plan individual treatment and manage client records. Covers all aspects of client record management including federal and state regulations and American Society of Addiction Medicine (ASAM) placement criteria. Prerequisite: AD 101 and acceptance in to the Addictions Counseling Program. Audit available.

AD 155. Professional Ethics and Issues in Addiction Counseling. 3 Credits.
Covers ethical and legal issues relevant to the alcohol and drug counselor. Prerequisite: AD 101 and admission to the Addiction Counseling Program. Audit available.

AD 160. Basic Counseling. 4 Credits.
Introduces basic skills required for establishing an effective professional helping relationship. Emphasizes in-class practice and feedback. Audit available.

AD 161. Motivational Interviewing and Addiction. 4 Credits.
Provides an opportunity to demonstrate a minimum level of facilitative skills required for Motivational Interviewing (MI) as adapted with the Anchor Point System (APS). Prerequisite: Acceptance into the Addiction Counseling Program.

AD 184. Men & Addiction. 3 Credits.
Provides an in-depth view of the biological, cultural, and sociological origins of male roles and behavior and explore the implications of this for understanding mental health, sexuality, addiction, and criminal behavior of men. Develops a framework for the essential elements of gender-specific treatment for boys and men. Audit available.

AD 202. Trauma and Recovery. 3 Credits.
Explores the neurobiology of attachment and reward as they relate to the addictive experience. Presents models of relational healing with a strong emphasis on specific skill acquisition that can be used in treatment settings. Utilizes trauma-informed and wellness informed approaches targeting work with families in the process of recovery from addictive disease. Prerequisite: AD 101, AD 151 and (AD 160 or AD 150). Audit available.

AD 255. Multiple Diagnoses. 3 Credits.
Covers assessment of chemical dependency clients for communicable diseases and co-existing mental disorders, effective intervention, and referral of clients to optimum resources for resolving coexisting diagnoses. Develops clear ethical guidelines for alcohol and drug counselors practicing within an area of competence. Prerequisites: AD 101, AD 102, AD 151, (AD 160 or AD 150), WR 121 and Admission to the Addiction Counseling Program. Prerequisite/ concurrent: PSY 239. Audit available.

AD 256. Advanced Counseling and Addiction. 4 Credits.
Enhances the professional knowledge and skills of counselors preparing to enter the field. Focuses on current evidence-based practice/best practice models in addiction counseling, integrating a variety of conceptual theories into a comprehensive framework for human behavior, addiction, and change. Prerequisites: AD 160 and admission into the Addictions Counseling Program.

AD 270A. Practicum: Addiction. 3-6 Credit.
Provides clinical educational experience in an addiction treatment or DUII educational facility under the supervision of personnel who meet ACCBO requirements. Provides the opportunity to meet the ACCBO work experience requirements. Prerequisites: AD 102, AD 153, AD 154, AD 156, AD 157, AD 278 and (AD 161 or AD 155). Corequisite: AD 270A. Audit available.

AD 270B. Practicum: Addiction - Seminar. 2 Credits.
Focuses on the integration and synthesis of academic preparation with 'real world' addiction counseling experience. Includes consideration of counselor self-care, healthy work practice, professional ethics and ongoing professional development. Corequisite: AD 270A. Audit available.

AD 278. Practicum Preparation. 1 Credit.
Provides the opportunity to demonstrate facility with the documentation required for the Alcohol and Drug practicum course. Requires the development of an individualized plan for success in practicum. Prerequisite/Concurrent: AD 102, AD 151 and (AD 160 or AD 150).

ALTERNATIVE LEARNING COURSES

ALC 20A. Math 20 Lab - 0 credits. 0 Credits.
Provides a review of individually chosen topics in Basic Math (Math 20). Completion of this course does not meet prerequisite requirements for other math courses.

ALC 20B. Math 20 Lab - 1 credit. 1 Credit.
Provides an opportunity for students to practice and work towards a deeper understanding of individually chosen topics from Basic Math (MATH 20). Completion of this course does not meet prerequisite requirements for other courses. Audit available.

ALC 20C. Math 20 Lab - 2 credits. 2 Credits.
Provides an opportunity for students to practice and work towards mastery of individually chosen topics from Basic Math (MATH 20). Completion of this course does not meet prerequisite requirements for other courses. Audit available.

ALC 20D. Math 20 Lab - 3 credits. 3 Credits.
Provides a review of individually chosen topics in Basic Math (Math 20). Requires a minimum of 90 hours in the lab. Completion of this course does not meet prerequisite requirements for other math courses.
Course Descriptions

**Algebra Courses**

**ALC 50. English Skills Lab - 0 credits. 0 Credits.**
Provides an individualized plan of study to improve English grammar, punctuation, writing, reading, and/or communication skills. Includes tutoring, use of textbooks/workbooks for assignments, and/or computer software and other media.

**ALC 51. English Skills Lab - 1 credits. 1 Credit.**
Provides an individualized plan of study to improve English grammar, punctuation, writing, reading, and/or communication skills based on 90 hours of study. Includes tutoring, use of textbooks/workbooks for assignments, and/or computer software and other media. Prerequisite: Placement into WR 80, RD 80, ESOL 250 or ESOL 252.

**ALC 51A. Basic English Skills Workshops and Lab. 1 Credit.**
Provides an individualized plan of study with the English Coordinator to identify workshops and resources to improve English grammar, punctuation, writing, reading, and/or communication skills. Content varies depending upon interest and diagnosed needs.

**ALC 52. English Skills Lab - 2 credits. 2 Credits.**
Provides an individualized plan of study to improve English grammar, punctuation, writing, reading, and/or communication skills based on 60 hours of study. Includes tutoring, use of textbooks/workbooks for assignments, and/or computer software and other media. Prerequisites: Placement into WR 80, RD 80, ESOL 250 or ESOL 252.

**ALC 53. English Skills Lab - 3 credits. 3 Credits.**
Provides an individualized plan of study to improve English grammar, punctuation, writing, reading, and/or communication skills based on 90 hours of study. Includes tutoring, use of textbooks/workbooks for assignments, and/or computer software and other media. Prerequisites: Placement into WR 80, RD 80, ESOL 250, or ESOL 252.

**ALC 55. Basic Study Skills Lab. 0 Credits.**
Self-paced, individualized study skills instruction in lab setting. Topics may include note-taking, time management, concentration and memory, reading texts, test-taking, self-advocacy and PCC resources.

**ALC 60A. Math 60 Lab - 0 credits. 0 Credits.**
Provides a review of individually chosen topics in Introductory Algebra-1st Term (Math 60). Completion of this course does not meet prerequisite requirements for other math courses.

**ALC 60B. Math 60 Lab - 1 credit. 1 Credit.**
Provides an opportunity to practice and work towards a deeper understanding of individually chosen topics from Introductory Algebra - First Term (MTH 60). Completion of this course does not meet prerequisite requirements for other courses. Audit available.

**ALC 60C. Math 60 Lab - 2 credits. 2 Credits.**
Provides an opportunity to practice and work towards mastery of individually chosen topics from Introductory Algebra - First Term (MTH 60). Completion of this course does not meet prerequisite requirements for other courses. Audit available.

**ALC 60D. Math 60 Lab - 3 credits. 3 Credits.**
Provides a review of individually chosen topics in Introductory Algebra I (Math 60). Requires a minimum of 90 hours in the lab. Completion of this course does not meet prerequisite requirements for other math courses.

**ALC 65A. Math 65 Lab - 0 credits. 0 Credits.**
Provides a review of individually chosen topics in Introductory Algebra-2nd Term (Math 65). Completion of this course does not meet prerequisite requirements for other math courses.

**ALC 65B. Math 65 Lab - 1 credit. 1 Credit.**
Provides an opportunity to practice and work towards a deeper understanding of individually chosen topics from Introductory Algebra - Second Term (MTH 65). Completion of this course does not meet prerequisite requirements for other courses. Audit available.

**ALC 65C. Math 65 Lab - 2 credits. 2 Credits.**
Provides an opportunity to practice and work towards mastery of individually chosen topics from Introductory Algebra - Second Term (MTH 65). Completion of this course does not meet prerequisite requirements for other courses. Audit available.

**ALC 65D. Math 65 Lab - 3 credits. 3 Credits.**
Provides a review of individually chosen topics in Introductory Algebra-2nd Term (Math 65). Requires a minimum of 90 hours in the lab. Completion of this course does not meet prerequisite requirements for other math courses.

**ALC 95A. Math 95 Lab - 0 credits. 0 Credits.**
Provides a review of individually chosen topics in Intermediate Algebra (Math 95). Completion of this course does not meet prerequisite requirements for other math courses.

**ALC 95B. Math 95 Lab - 1 credit. 1 Credit.**
Provides an opportunity to practice and work towards a deeper understanding of individually chosen topics from Intermediate Algebra (MTH 95). Completion of this course does not meet prerequisite requirements for other courses. Audit available.

**ALC 95C. Math 95 Lab - 2 credits. 2 Credits.**
Provides an opportunity to practice and work towards mastery of individually chosen topics from Intermediate Algebra (MTH 95). Completion of this course does not meet prerequisite requirements for other courses. Audit available.

**ALC 95D. Math 95 Lab - 3 credits. 3 Credits.**
Provides a review of individually chosen topics in Intermediate Algebra (Math 95). Requires a minimum of 90 hours in the lab. Completion of this course does not meet prerequisite requirements for other math courses.

**American Sign Language Courses**

**ASL 101. First Year American Sign Language I. 4 Credits.**
Introduction to ASL stressing the development of expressive skill, receptive skill, and cultural awareness through a communication approach. Primary emphasis on the student's active use of the language. Emphasizes active conversational competence in ASL. Includes visual readiness skills, vocabulary, culture, and grammar used for meeting communication needs. Proficiency target level: Novice high. For beginners. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

**ASL 102. First Year American Sign Language II. 4 Credits.**
Continues work of ASL 101, further developing all skills. Primary emphasis on the student's active communication in ASL. Includes grammar and culture information. Proficiency target level: Intermediate low. Prerequisite: ASL 101 or ASL 150 or Sign Language Proficiency Interview through Sign Language Interpretation Program (call SLIP office for an appointment). Prerequisite course must have been completed within one year of class enrollment; proficiency interview within one term. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

**ASL 103. First Year American Sign Language III. 4 Credits.**
Continues work of ASL 102, further developing all skills. Primary emphasis on the student's active use of the language. Includes grammar and culture information. Proficiency target level: Intermediate mid. Prerequisite: ASL 102 or Sign Language Proficiency Interview through Sign Language Interpretation Program (call SLIP office for an appointment). Prerequisite course must have been completed within one year of class enrollment; proficiency interview within one term. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

**ASL 150. Accelerated American Sign Language. 6 Credits.**
For beginners. Covers the material of ASL 101 and half of ASL 102 in an accelerated format. Emphasizes active conversational competence in ASL. Includes visual readiness skills, vocabulary, culture, and grammar used for meeting communication needs. Recommended to the highly motivated student. Proficiency target level: Intermediate low. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

**ASL 151. Accelerated American Sign Language. 6 Credits.**
Covers the material of half of ASL 102 and ASL 103 in an accelerated format. Emphasizes active communication in ASL. Proficiency target level: Intermediate mid. Sign Language Proficiency Interview may be required. Prerequisite: ASL 102 or ASL 150. Prerequisite course must have been completed within one year of class enrollment; proficiency interview within one term. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

**ASL 201. Second Year American Sign Language IV. 4 Credits.**
First term of a three-term sequence that continues the work of first year ASL. Reviewing, expanding, and perfecting expressive skill, structure, and vocabulary for the purpose of active communication. Proficiency target level: Intermediate High. Sign Language Proficiency Interview may be required. Prerequisite: ASL 103 or ASL 151. Prerequisite course must have been completed within one year of class enrollment; Sign Language Proficiency Interview within one term.

**ASL 202. Second Year American Sign Language V. 4 Credits.**
Second term of a three-term sequence that continues the work of ASL 201. Continues reviewing, expanding, and perfecting expressive skill, structure, and vocabulary for the purpose of active communication. Proficiency target level: Advanced Low. Sign Language Proficiency Interview may be required. Prerequisite: ASL 201 or ASL 250. Prerequisite course must have been completed within one year of class enrollment; Sign Language Proficiency Interview within one term.
ASL 203. Second Year American Sign Language VI. 4 Credits. Third term of a three-term sequence that continues the work of ASL 202. Emphasizes active communication in ASL. Emphasizes ASL narratives, ASL storytelling, and other topics. Proficiency target level: Advanced Mid. Sign Language Proficiency Interview may be required. Prerequisite: ASL 202 or ASL 250. Prerequisite course must have been completed within one year of class enrollment; and Sign Language Proficiency Interview within one term.

ASL 210. American Sign Language Literature. 4 Credits. Emphasizes skills for generation of ASL literature including: ASL narratives, ASL storytelling, ASL poetry, ASL artistry, and other topics. Proficiency target level: Advanced/High. Sign Language Proficiency Interview may be required. Prerequisite: ASL 103 or ASL 151. Prerequisite course must have been completed within one year of class enrollment; and Sign Language Proficiency Interview within one term.

ASL 240. Introduction to the Deaf Community. 4 Credits. Introduces pathological and cultural perspectives of Deaf people and their community, Deaf history and organizations; Deaf people’s involvement in and access to the arts, and perspectives on education. Covers services, employment, legislation, special technology, communication systems and attitudes toward languages and their impact on the Deaf community. Introduces basic terminology and explains the difference between signers and interpreters. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

ASL 250. Accelerated American Sign Language. 6 Credits. First term of a two-term sequence that covers the material of ASL 201 and half of ASL 202 to continue the work of first year ASL in an accelerated format. Emphasizes active communication in ASL. Emphasizes ASL narratives, ASL storytelling, and other topics. Proficiency target level: Intermediate High. Sign Language Proficiency Interview may be required. Prerequisite: ASL 103 or ASL 151. Prerequisite course must have been completed within one year of class enrollment; and Sign Language Proficiency Interview within one term.

ASL 251. Accelerated American Sign Language. 6 Credits. Second term of a two-term sequence that covers the material of half of ASL 202 and ASL 203 to continue the work of ASL 250 in an accelerated format. Emphasizes active communication in ASL. Emphasizes ASL narratives, ASL storytelling, and other topics. Proficiency target level: Advanced Mid. Sign Language Proficiency Interview may be required. Prerequisite: ASL 202 or ASL 250. Prerequisite course must have been completed within one year of class enrollment; and Sign Language Proficiency Interview within one term.

ASL 260. Introduction to Interpreting. 3 Credits. Introduces sign language interpreting as a profession. Includes the roles and functions of interpreters; employment options; and an analysis of the demands and rewards of the career path. Covers fundamental pre-interpreting skills and reviews linguistic and grammatical principles and conventions; explores strategies for developing ASL and English vocabulary and skills for effective communication. Prerequisite: ASL 103 or ASL 151, or equivalent.

ASL 265. Fingerspelling and Numbers for ASL Students. 2 Credits. Develops fundamental expressive and receptive fingerspelling skills for the intermediate signer. Presents rules for ASL fingerspelling and number production in context. Improves ability to comprehend fingerspelling. Develops cloze skills (filling in missed letters by using contextual clues and background knowledge), and continues development of letter and number production as begun in core ASL courses. Prerequisites: ASL 201 or ASL 250.

ANTHROPOLOGY

ATH 101. Introduction to Physical Anthropology. 4 Credits. Presents physical anthropology and the study of human biological evolution in the context of modern genetics and primate behavior studies. Examines human fossil record, as well as the diversity and commonality of present and past populations of hominid. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS.

ATH 102. Introduction to Archaeology and Prehistory. 4 Credits. Introduces methods and techniques used by archaeologists to study the development of human culture. Provides a survey of world prehistory, while emphasizing the development of social complexity and the origins of agriculture that preceded both new and old world civilizations. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AAOT.

ATH 103. Introduction to Cultural Anthropology. 4 Credits. Examines modern human culture. Analyzes a variety of ethnographic examples from various world societies to understand the diverse aspects of language, technology, economy, social structure, governance, religion, world views and expressive aspects of life. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AGS.

ATH 104. Language and Culture. 4 Credits. Introduces basic concepts, approaches, and perspectives of linguistic anthropology. Explores how language defines the relationship of the individual to society and the role language plays in constructing power, hierarchy, ethnicity, gender, ideology, and other aspects of social identity. Explores how language can also affect the ways that speakers conceptualize actions and organize the world. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

ATH 207. Cultural Anthropology: Culture Concepts. 4 Credits. Examines different schools of anthropological thought and the concept of culture from a historical perspective. Emphasis placed upon the importance of culture in explaining similarities and differences in our evolving world system. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/ASOT-B, Social Sciences/AAOT.

ATH 208. Cultural Anthropology: Cultures of the World. 4 Credits. Introduces ethnographic descriptions of a representative sample of the cultural variations among contemporary peoples. Compares various subsistence strategies and intwels of social organization. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

ATH 209. Cultural Anthropology: Cultural Growth & Change. 4 Credits. Examines processes of cultural growth and change, the development of contemporary anthropological theory and the rapidly growing fields within applied anthropology. Ethnographic techniques presented so students may use them to examine the changing culture of our complex society. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAOT.

ATH 212. Introduction to Shamanism. 4 Credits. Examines shamanism as it practiced in various cultures around the world. Students will be introduced to the shamanic cosmologies, values and world views of different tribal societies and use participant-observation to explore different styles of shamanic journeying. Core shamanism and the interface of shamanism and modern medicine and psychotherapy will be explored. Prerequisite: WR 121 and MTH 20 or equivalent placement, and ATH 103 or equivalent permission. Prerequisite course must have been completed within one year of enrollment. Audit available. This course fulfills the following GE requirements: Social Sciences/AAOT, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AGS, Social Sciences/AAOT.

ATH 214. Human Environments: Ecological Aspects. 4 Credits. Examines ecological relationships between human societies and their natural environments. Clarifies the human’s biological relatedness to the world’s natural ecosystems and then presents a look at the ensuing disruptions in nature and in human cultures. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS.

ATH 230. Native Americans of Oregon. 4 Credits. Presents the history of anthropological research and the prehistory, languages and culture areas of Oregon’s native peoples. Individual native groups are studied to better depict the life ways of Oregon’s major cultural and geographic divisions. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS.

ATH 231. Native Americans of the Northwest. 4 Credits. An in-depth survey of the native peoples of Oregon, Washington, Alaska, and Southwest Canada. Individual native groups are studied to depict cultural variations within the region. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AGS.
ATH 232. Native North Americans. 4 Credits.
Survey of anthropological distribution of the native North American peoples. Presents history of anthropological research and the prehistory, languages and culture areas of native North America. Specific native groups will be surveyed to better depict the life ways of the major cultural and geographic divisions. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AADT, Social Sciences/AS, Social Sciences/ AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

ATH 234. Death: Crosscultural Perspectives. 4 Credits.
An interdisciplinary study into cross-cultural variations regarding human responses to death and the differing cosmological implications these suggest. Death, a cultural universal, is addressed in its diversity from both anthropological and sociological perspectives. The subject of death as experienced by several major regions and cultures of the world is explored, including Asia, India, Bali, Middle East, Melanesia and Native American; historical trends in Western Europe and Americas are assessed regarding the evolution of contemporary perspectives on mortality. ATH 234 and SOC 234 cannot both be taken for credit. Recommend: A course in Anthropology or Sociology. Audit available.

ATH 235. Survey of Prehistoric Mexico and Central America. 4 Credits.
Study of the development, form and history of pre-Columbian Indian civilizations, surveying the achievements of the Maya, the Aztec and their neighbors. Audit available.

ATH 298. Independent Study: Anthropology. 3 Credits.
Individualized, advanced study in areas of anthropology not considered in other courses, to meet special interests or program requirements. Complete a term project and readings approved by the instructor. Recommended: prior study in anthropology and instructor permission. Audit available.

APPLIED MUSIC
MUP 100. Individual Lessons for Non-majors. 1 Credit.
Includes individual instruction in piano, organ, voice and instruments of the band and orchestra. Can be taken for a maximum of six credits. Credit fee is paid to the college. Lesson fees are variable and paid directly to instructor. Audit available.

MUP 171A. Applied Music/Piano. 1-2 Credit.
Provides individual private piano instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, applied keyboard knowledge, sight-reading and other aspects of musicianship as applied to the piano.

MUP 171B. Applied Music/Piano. 1-2 Credit.
Provides individual private piano instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, applied keyboard knowledge, sight-reading and other aspects of musicianship as applied to the piano. Prerequisite: MUP 171A.

MUP 171C. Applied Music/Piano. 1-2 Credit.
Provides individual private piano instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, applied keyboard knowledge, sight-reading and other aspects of musicianship as applied to the piano. Prerequisites: MUP 171B.

MUP 174A. Applied Music/Voice. 1-2 Credit.
Provides individual private voice instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, diction, sight-reading and other aspects of musicianship as applied to singing. Prerequisite: MUP 174A.

MUP 174B. Applied Music/Voice. 1-2 Credit.
Provides individual private voice instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, diction, sight-reading and other aspects of musicianship as applied to singing. Prerequisite: MUP 174A.

MUP 174C. Applied Music/Voice. 1-2 Credit.
Provides individual private voice instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, diction, sight-reading and other aspects of musicianship as applied to singing. Prerequisite: MUP 174B.

MUP 175A. Applied Music/Violin. 1-2 Credit.
Provides individual private violin instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to violin performance. Prerequisite: MUP 175A.

MUP 175B. Applied Music/Violin. 1-2 Credit.
Provides individual private violin instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to violin performance. Prerequisite: MUP 175B.

MUP 175C. Applied Music/Violin. 1-2 Credit.
Provides individual private violin instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to cello performance. Prerequisite: MUP 175C.

MUP 176. Applied Viola. 1 Credit.

MUP 177A. Applied Music/Violincello. 1-2 Credit.
Provides individual private cello instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to cello performance. Prerequisite: MUP 177A.

MUP 177B. Applied Music/Violincello. 1-2 Credit.
Provides individual private cello instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to cello performance. Prerequisite: MUP 177B.

MUP 177C. Applied Music/Violincello. 1-2 Credit.
Provides individual private cello instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to cello performance. Prerequisite: MUP 177C.

MUP 178A. Applied Music/Bass. 1-2 Credit.
Provides individual private bass instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to bass performance. Prerequisite: MUP 178A.

MUP 178B. Applied Music/Bass. 1-2 Credit.
Provides individual private bass instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to bass performance. Prerequisite: MUP 178B.
MUP 180A. Applied Music/Guitar. 1-2 Credit.
Provides individual private guitar instruction. Develops performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, fretboard knowledge, sight-reading and other aspects of musicianship as applied to the guitar. Prerequisite: MUP 180A.

MUP 180B. Applied Music/Guitar. 1-2 Credit.
Provides individual private guitar instruction. Develops performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, fretboard knowledge, sight-reading and other aspects of musicianship as applied to the guitar. Prerequisite: MUP 180A.

MUP 184A. Applied Music/Saxophone. 1-2 Credit.
Provides individual private saxophone instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to saxophone performance. Prerequisite: MUP 184A.

MUP 184B. Applied Music/Saxophone. 1-2 Credit.
Provides individual private saxophone instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to saxophone performance. Prerequisite: MUP 184A.

MUP 184C. Applied Music/Saxophone. 1-2 Credit.
Provides individual private saxophone instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to saxophone performance. Prerequisite: MUP 184A.

MUP 186A. Applied Music/Trumpet. 1-2 Credit.
Provides individual private trumpet instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to trumpet performance. Prerequisite: MUP 186A.

MUP 186B. Applied Music/Trumpet. 1-2 Credit.
Provides individual private trumpet instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to trumpet performance. Prerequisite: MUP 186A.

MUP 186C. Applied Music/Trumpet. 1-2 Credit.
Provides individual private trumpet instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to trumpet performance. Prerequisite: MUP 186A.

MUP 188A. Applied Music/Trombone. 1-2 Credit.
Provides individual private trombone instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to trombone performance.
MUP 271C. Applied Music/Piano II. 1-2 Credit.
Provides individual private piano instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to the piano. Prerequisite: MUP 271B.

MUP 274A. Applied Music/Voice I. 1-2 Credit.
Provides individual private voice instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, diction, sight-reading and other aspects of musicianship as applied to singing. Prerequisite: MUP 174C.

MUP 274B. Applied Music/Voice II. 1-2 Credit.
Provides individual private voice instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, diction, sight-reading and other aspects of musicianship as applied to singing. Prerequisite: MUP 274A.

MUP 274C. Applied Music/Voice II. 1-2 Credit.
Provides individual private voice instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, diction, sight-reading and other aspects of musicianship as applied to singing. Prerequisite: MUP 174C.

MUP 275A. Applied Music/Violin II. 1-2 Credit.
Provides individual private violin instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to violin performance. Prerequisite: MUP 175C.

MUP 275B. Applied Music/Violin II. 1-2 Credit.
Provides individual private violin instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to violin performance. Prerequisite: MUP 275A.

MUP 275C. Applied Music/Violin II. 1-2 Credit.
Provides individual private violin instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to violin performance. Prerequisite: MUP 275B.

MUP 276. Applied Viola. 1 Credit.
MUP 277A. Applied Music/Violincello II. 1-2 Credit.
Provides individual private cello instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to cello performance. Prerequisite: MUP 177C.

MUP 277B. Applied Music/Violincello II. 1-2 Credit.
Provides individual private cello instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to cello performance. Prerequisite: MUP 277A.

MUP 277C. Applied Music/Violincello II. 1-2 Credit.
Provides individual private cello instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from the classical tradition. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to cello performance. Prerequisite: MUP 277B.

MUP 278A. Applied Music/Bass II. 1-2 Credit.
Provides individual private bass instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to bass performance. Prerequisite: MUP 178C.

MUP 278B. Applied Music/Bass II. 1-2 Credit.
Provides individual private bass instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to bass performance. Prerequisite: MUP 278A.

MUP 278C. Applied Music/Bass II. 1-2 Credit.
Provides individual private bass instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to bass performance. Prerequisite: MUP 278B.

MUP 284A. Applied Music/Saxophone II. 1-2 Credit.
Provides individual private saxophone instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to saxophone performance. Prerequisite: MUP 184C.

MUP 284B. Applied Music/Saxophone II. 1-2 Credit.
Provides individual private saxophone instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to saxophone performance. Prerequisite: MUP 284A.

MUP 284C. Applied Music/Saxophone II. 1-2 Credit.
Provides individual private saxophone instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to saxophone performance. Prerequisite: MUP 284B.

MUP 286A. Applied Music/Trumpet II. 1-2 Credit.
Provides individual private trumpet instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to trumpet performance. Prerequisite: MUP 186C.

MUP 286B. Applied Music/Trumpet II. 1-2 Credit.
Provides individual private trumpet instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to trumpet performance. Prerequisite: MUP 286A.

MUP 286C. Applied Music/Trumpet II. 1-2 Credit.
Provides individual private trumpet instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to trumpet performance. Prerequisite: MUP 286B.

MUP 288A. Applied Music/Trombone II. 1-2 Credit.
Provides individual private trombone instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to trombone performance. Prerequisite: MUP 188C.
MUP 288B. Applied Music/Trombone II. 1-2 Credit.
Provides individual private trombone instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to trombone performance. Prerequisite: MUP 288A.

MUP 288C. Applied Music/Trombone II. 1-2 Credit.
Provides individual private trombone instruction. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, articulation, sight-reading and other aspects of musicianship as applied to trombone performance. Prerequisite: MUP 288B.

MUP 291A. Applied Music/Percussion II. 1-2 Credit.
Provides individual private percussion instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, knowledge of instruments, sight-reading and other aspects of musicianship as applied to percussion performance. Prerequisite: MUP 191C.

MUP 291B. Applied Music/Percussion II. 1-2 Credit.
Provides individual private percussion instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, knowledge of instruments, sight-reading and other aspects of musicianship as applied to percussion performance. Prerequisite: MUP 291A.

MUP 291C. Applied Music/Percussion II. 1-2 Credit.
Provides individual private percussion instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, knowledge of instruments, sight-reading and other aspects of musicianship as applied to percussion performance. Prerequisite: MUP 291B.

MUP 292A. Applied Music/Miscellaneous II. 1-2 Credit.
Provides individual private instruction on miscellaneous instruments from western and global traditions. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, knowledge of instruments, sight-reading and other aspects of musicianship as applied to performance practice and stylistic interpretation through focus on tone production, technique, knowledge of instruments, sight-reading and other aspects of musicianship as applied to the performance of miscellaneous instruments. Prerequisite: MUP 192C.

MUP 292B. Applied Music/Miscellaneous II. 1-2 Credit.
Provides individual private instruction on miscellaneous instruments from western and global traditions. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, knowledge of instruments, sight-reading and other aspects of musicianship as applied to the performance of miscellaneous instruments. Prerequisite: MUP 292A.

MUP 292C. Applied Music/Miscellaneous II. 1-2 Credit.
Provides individual private instruction on miscellaneous instruments from western and global traditions. Develops applied performance skills at the music major/minor level. Covers repertory and technique methods drawn from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, knowledge of instruments, sight-reading and other aspects of musicianship as applied to the performance of miscellaneous instruments. Prerequisite: MUP 292B.

MUP 293A. Applied Music/Guitar II. 1-2 Credit.
Provides individual private guitar instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, fretboard knowledge, sight-reading and other aspects of musicianship as applied to the guitar. Prerequisite: MUP 180C.

MUP 293B. Applied Music/Guitar II. 1-2 Credit.
Provides individual private guitar instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, fretboard knowledge, sight-reading and other aspects of musicianship as applied to the guitar. Prerequisite: MUP 293A.

MUP 293C. Applied Music/Guitar II. 1-2 Credit.
Provides individual private guitar instruction. Develops applied performance skills at the music major/minor level. Draws repertory and technique methods from classical and/or jazz traditions. Includes training in performance practice and stylistic interpretation through focus on tone production, technique, fretboard knowledge, sight-reading and other aspects of musicianship as applied to the guitar. Prerequisite: MUP 293B.

APPRENTICESHIP

APR 100. Exploring Trades & Apprenticeship. 1 Credit.
Explores career opportunities within the Trades. Includes traditional careers and new opportunities in fields such as Renewable Energy and Sustainability. Introduces resources for assisting students in identifying skills needed to succeed in these fields. Audit available.

APR 101. LME: Electrical Theory Fundamentals. 3 Credits.
Covers electrical theory and math for computing the values of voltage, amperage, resistance and power. Also covers various types of electrical circuits (series, parallel, combination) when applying Ohm’s Law. Introduces electrical safety, conductors, wire sizes and their application as per the American Wire Gauge (AWG) Table. The principles of voltage drop, efficiency and cost of electrical energy will also be covered. Audit available.

APR 102. LME: DC Motors. 3 Credits.
Covers the principles of magnets, magnetism and electromagnetism; AC/DC generation and the processes of generating a voltage; DC motors and alternating current principles, including the components of an AC sine wave/wave-form. Electrical safety, principles of inductance, inductive reactance, capacitance and capacitive reactance, various types of capacitors, capacitor testing and their use in an industrial environment will also be discussed. Prerequisites: APR 101 or TE 9631. Audit available.

APR 103. LME: AC Motors & Transformers. 4 Credits.
Covers the theory, construction, and application of transformers and three phase and single phase AC motors. Includes the theory and application of Delta wound and Wye wound motors and transformers. Includes Power Factor in electrical circuits, motor nameplate data, reading schematics, and electrical safety standards especially for Arc Blast and Arc Flash prevention and protection. Prerequisite: APR 102 or TE 9623. Audit available.

APR 104. LME: Luminaires & Equipment. 3 Credits.
Introduces lighting fundamentals and their application in the industrial environment. Also covers fuses, receptacles, wiring methods, blueprints, batteries and some solid state components related to their use. Prerequisites: APR 103 or TE 9633. Audit available.

APR 121. Introduction to Electricity and Circuits. 3 Credits.
Covers general atomic theory, electron flow in conductors, calculations of Ohms law when determining the values of voltage, current, resistance and power in series, parallel and combination electrical circuits. Covers sizing and the application of conductors and the concept of Voltage Drop in electrical circuits. Audit available.

APR 122. AC/DC Motors Principles. 3 Credits.
Covers the basic principles of alternating current, direct current, and electromagnetism as applied to generators, and alternating current and direct current motors, including the concepts of inductance, inductive reactance, capacitive reactance, and their effects upon alternating current circuits. Prerequisites: APR 121 or TE 9610. Audit available.

APR 123. AC Theory for Motors and Transformers. 4 Credits.
Focuses on alternating current power distribution, transformers, motors, storage cells, solid state semiconductor devices, and Delta/Wye three phase motor winding connections as applied to the heavy industrial environment. Prerequisite: APR 122 Audit available.

APR 124. Electrical Systems Operations. 3 Credits.
Covers alternating current measure instruments; test equipment, advanced motor theory, blueprint reading, electrical related materials, AC systems, advanced transformer theory, lighting, grounding and bonding, contactors, relays and general installation requirements to meet code specifications. Prerequisites: APR 123 or TE 9612. Audit available.

APR 125. Electrical Circuits and Wiring Methods. 3 Credits.
Covers residential and commercial lighting, fixtures, and ballast in detail. Includes conductor selection, overcurrent, protection, motor maintenance, calculations, controls, troubleshooting, services, construction upgrades, wire methods, tagging, lockout and appliances. Covers series, branch, and parallel circuits in detail, and the basic use of a multimeter to check for voltage, current, and resistance. Prerequisites: APR 124 or TE 9613. Audit available.
APR 125. Electrical Systems Installation per NEC. 3 Credits.
Covers standby equipment systems, temporary electrical service, fire alarm systems, specialty systems, advanced controls, heat tracing, freezing protection, installation practices, and what constitutes a low voltage and limited energy circuit as per the NEC and the requirements for each. Prerequisites: APR 125 or TE 9614. Audit available.

APR 131. Refrigeration I. 2 Credits.
Covers refrigeration principles and different basic cycles which include heat transfer, temperature, and basic physics and gas laws. Lab includes the use of tools and instruments used for charging and evacuation and recovery methods. APR 131 and FMT 101 both cannot be taken for credit. Prerequisites: MTH 20; (WR 90 or IRW 90 or ESOL 262); (RD 90 or IRW 90 or ESOL 260). Audit available.

APR 132. Refrigeration II. 2 Credits.
Covers the use of fiber rope, chain, slings, strapping, wire rope, and scaffolding equipment maintenance logs. Prerequisite: APR 166, and (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement or department permission. Audit available.

APR 133. Refrigeration III. 2 Credits.
Covers the operation of refrigeration HVAC systems, emphasizing maintenance and controls. Lab includes troubleshooting systems along with evacuation and charging techniques. APR 133 and FMT 103 cannot both be taken for credit. Prerequisites: APR 132 or FMT 102 or TE 9243. Audit available.

APR 160. Introduction to Industrial Maintenance. 4 Credits.
Provides an overview of the responsibilities and expectations for the Millwright/Industrial Maintenance Technician at today’s Industrial Worksite. Centers on the electrical, mechanical, fabricating, welding, machining, hydraulic, pneumatic and troubleshooting skill-set required in the Industrial workplace. Emphasizes safe work practices. Prerequisites: (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement and department permission. Audit available.

APR 162. Calculations for the Trades. 4 Credits.
Covers the use of fractionals, decimals, powers, roots, algebraic equations, geometry, and right angle trigonometry to perform calculations for equipment repair, maintenance, installation, and operation. Prerequisites: Either APR 160 or FMT 111 and placement into (MTH 20, WR 90, RD 90) or department permission. Audit available.

APR 164. Industrial Blueprints & Schematics For the Trades. 2 Credits.
Introduces the array of blueprints, perspective drawings, and schematics found at an industrial worksite. Includes plumbing, process piping, structural, hydraulic, machining, heat treat, welding, fabrication, electrical, and architectural prints, drawings, and schematics. Emphasizes interpretation of the specifications presented on prints, drawings, and schematics to specific types of industrial sites and equipment. Prerequisites: APR 162, and (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement or department permission. Audit available.

APR 166. Industrial Rigging. 2 Credits.
Covers the use of fiber rope, chain, slings, strapping, wire rope, and scaffolding when moving, repairing, and maintaining heavy industrial equipment and industrial site utilities. Includes applications to overhead cranes, tower cranes, mobile cranes, boom cranes, hoists, and fork lifts. Emphasizes safe work practices when rigging. Prerequisite: APR 164, and (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement or department permission. Audit available.

APR 168. Introduction to Bearings, Seals, and Lubrication. 3 Credits.
Introduces preventive and corrective maintenance of bearings and seals found in industrial equipment and at industrial facilities. Includes sleeve bearings, roller bearings, and sealing and lubrication practices for bearings and bearing races. Includes diagnosis, inspection, and repair. Emphasizes the use of equipment and lubricant manufacturers’ specifications, equipment history, and equipment maintenance logs. Prerequisite: APR 166, and (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement or department permission. Audit available.

APR 170. Power Transmission Systems. 3 Credits.
Introduces the array of power transmission methods utilized in an industrial environment especially in manufacturing. Includes gearing and gear boxes, belt drives, magnetic couplings, direct couplings, chain drives, conveyor belts, vibration analysis, lubrication systems, predictive maintenance, planned preventive maintenance, corrective maintenance and troubleshooting. Emphasizes safety when working on or near industrial power transmission systems. Prerequisite: APR 168, and (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement or department permission. Audit available.

APR 172. Introduction to Hydraulics. 3 Credits.
Introduces the physical dynamics and properties of incompressible fluids and the practical application of fluid power principles involving pressure, flow and force to the hydraulic systems found at industrial worksites. Covers fundamental hydraulic schematics and circuits and the function of components including pumps, valves, cylinders, motors, reservoirs, actuators, fluid conductors, and valves. Introduces hydraulic instrumentation, specialized tools, troubleshooting, and maintenance. Emphasizes safety procedures and practices around high pressure hydraulic equipment. Prerequisite: APR 170, and (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement or department permission. Audit available.

APR 200. Trades Preparation. 8 Credits.
Includes Pre-Apprenticeship Construction Trade topics such as industry orientation, hazardous materials, general on-the-job questions, material handling, scaffolding, rigging, fire protection, hand and power tool use, fall protection, and electrical basics. Covers safety procedures that apply to each topic. Also covered will be related terminology, task planning, methods and functions of construction, apprenticeship application process, program requirements, resume and interview skills and OSHA 30-hour safety training. Recognized by the Oregon Bureau of Labor and Industry: Apprenticeship and Training Division’s Council as an approved Pre-Apprenticeship program. Prerequisite: Placement in MTH 60 or higher or department permission. Audit available.

APR 201. Electrical Motor Controls. 2 Credits.
Provides knowledge and skills needed to design, install, maintain, service and troubleshoot electric motors. Focuses on the operation and installation of control systems, specifically motor starters and controllers. Electromagnetic controls, motors and transformers will also be covered. Lab activities will utilize electrical test equipment to analyze electric motor control malfunctions. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. APR 201 and ELT 201 cannot both be taken for credit. Prerequisites: FMT 111 or APR 104 or Department Permission. Audit available.

APR 202. LME: Electrical Code Level I. 4 Credits.
Provides a working knowledge of the NEC. Assists LME apprentices in preparing for the state electrical exam. Topics include definitions, requirements for electrical installations, identification and use of electrical conductors, wiring, circuit protection, wiring materials, and electrical safety standards. Prerequisites: APR 104 or 9634. Audit available.

APR 203. LME: Electrical Code - Level II. 4 Credits.
Provides a working knowledge of the NEC. Topics include installation code requirements for the following: electrical equipment for general use such as motors, luminaries, air conditioners, cords, switchboards and panel boards. Also covers special occupancies which will assist students in locating and understanding electrical code requirements for hazardous locations such as gas stations, spray paint booths, aircraft hangars, health care facilities, places of assembly, theaters, manufactured buildings, mobile homes, temporary locations, etc. Electrical standards will be emphasized. Prerequisites: APR 202 or TE 9636. Audit available.

APR 204. LME: Electrical Code - Level III. 4 Credits.
Provides a working knowledge of the NEC. Assists LME apprentices in preparing for the state electrical exam. Topics include: Special Equipment including electric signs, cranes, hoists, elevators, electric welders, information technology equipment, pools, and foundations; Special Conditions including emergency systems, Class 1, 2, and 3, low voltage control circuits, fire alarm systems, and fiber optics; and Communication Systems. Covers State of Oregon statutes governing electrical installations, building code division administrative rules covering license requirements and responsibilities, State of Oregon amendments, supplemental code reference materials, safety standards and practice exams. Prerequisites: APR 203 or TE 9637. Audit available.

APR 221. Advanced AC Circuitry. 3 Credits.
Includes the theory of alternating current and power. Also includes alternating current, resistance in AC circuits, inductance and inductive reactance, capacitance and capacitive reactance, power factor correction, power in AC circuits, vector analysis and three phase connections and calculations. Prerequisites: APR 124 or TE 9615. Audit available.
APR 222. Hazardous Locations. 3 Credits.
Includes introduction to hazardous locations, Class I, II, III installations, commercial garages-repair and storage, aircraft hangers, gasoline dispensing and service stations, bulk storage plants, finishing processes and health care facilities. Prerequisites: APR 221 or TE 9616. Audit available.

APR 223. Motor Control Operations including PLC’s. 3 Credits.
Reviews basic motor controls and progress to moderately complex machine controls. Includes fundamentals of motor control, control of motor starting, control components, programmable controllers, pilot devices, control circuit diagrams, solid state logic and diagrams, development of control circuits and troubleshooting electrical controls. Prerequisites: APR 222 or TE 9617. Audit available.

APR 224. Electrical Code - Level I. 4 Credits.
Emphasizes the use and understanding of the National Electrical Code. Assists plant maintenance electricians in preparing for the state electrical exam. Topics include grounding, motors, wiring methods, overcurrent protection, branch circuits, calculations, feeders and specialty codes. Prerequisites: APR 223 or TE 9618. Audit available.

APR 225. Electrical Code - Level II. 4 Credits.
Emphasizes the use and understanding of the NEC. Topics include cable, raceway, busway, cablebus, switches, panel boards, lighting, heating equipment, transformers and the taking of practice exams. Prerequisites: APR 224 or TE 9619. Audit available.

APR 226. Electrical Code - Level III. 4 Credits.
Emphasizes the use of understanding of the NEC. Topics include code articles, OAR’s, supplemental code reference materials, calculations and practice exams. Completion of the series prepares the student apprentice to become a licensed Manufacturing Plant Electrician Journey person. Prerequisites: APR 225 or TE 9620. Audit available.

APR 227. NEC Review and Exam Preparation. 3 Credits.
Assists and prepares the Electrical Professional and the Electrical Apprentice to take State of Oregon Electrical Licensing Examinations. Includes use of the National Electrical Code, Oregon Electrical Specialty Codes, and applicable Oregon Administrative Rules. Includes electrical calculations applicable to an examination and to the workplace. Recommended: WR 115, RD 115, and MTH 20 or equivalent placement test scores.

APR 230. National Electrical Code. 3 Credits.
Instructs the electrical professional where and how to find required information in the NEC book, demonstrating how the various articles work together to provide complete information on a subject. Most code articles (90 through 450) will be explained in detail. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. APR 230 and ELT 230 cannot both be taken for credit. Audit available.

APR 250B. Equity in the Trades. 4 Credits.
Introduces histories of inequity in the trades and strategies for positive change, with emphasis on the United States and Oregon. Prepares individuals for effective and inclusive leadership within the trades as advocates, allies, project managers, general contractors, or superintendent.

APR 250C. Basic Hands on Training for the Trades. 3 Credits.
Covers the use of the most common hand and power tools found in the construction industry. Introduces the basic, accepted construction practices applied by a variety of trades. Emphasizes standards set by the Federal Occupational and Safety Health Administration (OSHA). Prerequisites: Department permission.

APR 250. Pneumatic System Operations. 4 Credits.
Covers the pneumatic systems used at today’s industrial worksites for both control and process applications including system components. Covers the distribution of compressed air from different types of industrial air compressors including system components. Covers component and tubing sizing. Emphasizes component troubleshooting and repair, as well as working safely in proximity to a compressed air system. Prerequisite: APR 172, and (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement or department permission. Audit available.

APR 264. Mechanical Drive Alignment. 3 Credits.
Reviews fundamentals of bearings, shafts, belts, drives, chain drives, sheaves, couplings and lubrication used for precise operation of heavy industrial equipment. Covers thermal expansion and contraction applications. Covers the practical application of the laws of thermodynamics and heat transfer to operating, maintaining, and repairing hot water, steam, chilled water, refrigeration, heating, ventilating, and air conditioning systems found in today’s industrial facilities, including closed-loop distribution systems. Covers equipment selection and troubleshooting.

APR 265. Predictive Maintenance Technologies. 4 Credits.
Covers the theory and application of Predictive Maintenance (PdM) for heavy industrial equipment and machinery. Covers maintenance procedures that are based on regular monitoring of equipment and machinery condition rather than on regular, planned, time-interval maintenance procedures (PM). Includes the use of up-to-date monitoring technologies especially infrared thermometers, infrared thermal imaging, ultrasonic detectors, high speed vibration analysis, and machine oil analysis. Includes data application to the creation of Pdm Plans. Emphasizes OSHA safety procedures while collecting data or maintaining industrial equipment and machinery. Prerequisites: APR 264, (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement or department permission.

APR 268. Industrial Equipment Controls. 3 Credits.
Explores the array of manual, mechanical, electrical, electronic, electromechanical, and magnetic controls, switches, and feedback devices found at today’s industrial worksites, manufacturing plants, and processing facilities. Includes digital and analog controls, switches, and feedback devices. Covers troubleshooting, maintenance, repair, adjustment, replacement, and selection/installation. Introduces programmable logical control (PLC) strategies and programmable/integral/derivative (PID) control strategies. Covers control component function in a control system. Emphasizes safety when working on any industrial equipment control system. Prerequisites: APR 266, and (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement or department permission. Audit available.

APR 272. Machining for Industrial Maintenance. 3 Credits.
Provides introductory level training in the practical application of machine manufacturing and fabricating technologies and processes to the installation, repair, and adjustment of heavy equipment and machinery found at today’s Industrial worksites. Covers the use of machinist’s basic measuring tools such as the machinist’s scale, combination square, depth micrometer, and vernier caliper. Covers the use of machinist’s layout tools such as the divider, scriber, and prick punch. Introduces the use of turning machines for operations such as counterboring, grooving, and tapping; introduces the use of drilling machines for operations such as drilling, countersinking, and reaming; introduces the use of lathe and threading machines for operations such as head fabricating, cutting, clamping, and rolling for the forming of internal/external threads. Emphasizes safe work practices around hand and power fabricating tools of all kinds. Prerequisites: APR 268, and (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement or department permission. Audit available.

APR 274. HVAC, Steam & Hot Water Systems. 4 Credits.
Covers the practical application of the laws and the National Fire Protection Association code, and electrical, plumbing, and heating systems for operations such as heating, cooling, lighting, and ventilation. Emphasizes the use and understanding of the National Electrical Code. Assists and prepares the Electrical Professional and the Electrical Apprentice to take State of Oregon Electrical Licensing Examinations. Includes use of the National Electrical Code, Oregon Electrical Specialty Codes, and applicable Oregon Administrative Rules. Includes electrical calculations applicable to an examination and to the workplace. Recommended: WR 115, RD 115, and MTH 20 or equivalent placement or department permission. Audit available.

ARCH 100. Graphic Communication for Designers. 3 Credits.
Addresses the fundamentals of perspective drawings as a communicative device. Develops perspective, freehand sketching and diagramming skills, by building a graphic vocabulary and establishing a language of architectural communication. Audit available.

ARCH 101. Introduction to Residential Design. 3 Credits.
Introduces design process and drawing for residential design focusing on design of new single family residential. Prerequisite: ARCH 110 and ARCH 126. Audit available.

ARCH 110. Introduction to Architectural Drawing. 2 Credits.
Covers basic Architectural drawing skills including lettering, line quality, plans, elevations, sections and axonometric drawings. Audit available.

ARCH 111. Intro to Residential Construction Documents. 3 Credits.
Covers standards of architectural drafting and preparation of construction documents for typical residential construction. Examines construction processes and terminology. Prerequisite: ARCH 110, ARCH 124, ARCH 126 and (ARCH 126 or ID 125 or DRF 126). Recommended: ARCH 136, ARCH 161. Prerequisite/concurrent: ARCH 121. Audit available.

ARCH 112. Intro to Commercial Construction Documents. 4 Credits.
ARCH 113. Site Planning, 2 Credits.
Covers site development, including surveying existing grades, locating existing and future buildings, driveways, erosion control, storm water management and drawing site plans. Recommend: ARCH 121 and ARCH 124. Prerequisite: ARCH 110 and ARCH 136. Audit available.

ARCH 121. Structural Systems I, 2 Credits.
An overview of residential structural systems, including identification of structural members, loads and load paths and reading structural framing plans. Prerequisite/concurrent: ARCH 124. Audit available.

ARCH 122. Structural Systems 2, 3 Credits.
Covers the structuring of residential buildings including sizing of wood rafters, joists, beams, etc. Prerequisite: ARCH 121, MTH 60 or equivalent placement. Audit available.

ARCH 123. Structural Systems 3, 3 Credits.
Covers basic residential retaining walls, concrete foundations and residential prescriptive path solutions for wind and seismic loads. Prerequisite: ARCH 122, MTH 65 or equivalent placement. Audit available.

ARCH 124. Introduction to Building Systems. 3 Credits.
An overview of residential building systems, including building construction, and heating, cooling, plumbing, electrical, and passive solar systems. Audit available.

ARCH 126. Introduction to AutoCAD. 3 Credits.
Introduces AutoCAD software as a design and drafting tool for architecture and interior design. Only one of ARCH 126, ID 125, or DRF 126 can be taken for credit. Audit available.

ARCH 127. Introduction to Google SketchUp. 3 Credits.
Introduces basic 3-D modeling terminology, concepts and tools used to create simple building models and useful everyday shapes using SketchUp 3-D modeling software. Audit available.

ARCH 131. Sustainable Building Strategies, 4 Credits.
Focuses on creating buildings that are sited, designed, constructed, operated and maintained for the health and well-being of the occupants, while minimizing impact on the environment. Prerequisite: ID 121 Prerequisite/concurrent: ARCH 224. Audit available.

ARCH 132. Residential Building Codes. 2 Credits.
Introduction to land use zoning and international residential building codes. Selected portions of the code will be discussed, with application to sample building plans. Prerequisite/concurrent: ARCH 124 or BCT 103. Audit available.

ARCH 133. Commercial Building Codes. 2 Credits.
Introduction to land use zoning and Oregon Building Codes for commercial buildings, using International Building Code. Selected portions of the code will be discussed, with application to sample buildings. Prerequisite/concurrent: ARCH 124 or BCT 103. Audit available.

ARCH 134. Energy Conservation Code. 2 Credits.
Provides an introduction to the Energy Conservation Code. Discusses selected portions of the code with application to sample building plans. Explores options for alternative materials and methods of code compliance. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

ARCH 136. Intermediate AutoCAD. 3 Credits.
In-depth study of computer-aided-drafting using AutoCAD software and its applications to architecture. Prerequisite: ARCH 126 or ID 125. Audit available.

ARCH 140. Introduction to CHIEF ARCHITECT. 3 Credits.
Introduces CHIEF ARCHITECT software as a design and drafting tool, its applications to architecture, and covers creation, retrieval and modification of drawings using basic commands. Course is also worth 60 LU credits to AIA members. Audit available.

ARCH 161. Residential Print Reading. 2 Credits.
Introduces methods to identify, communicate and apply information found on typical residential construction drawings. Audit available.

ARCH 162. Commercial Print Reading. 2 Credits.
Introduces methods to identify, communicate and apply information found on typical commercial construction drawings. Recommended: ARCH 161. Audit available.

ARCH 200. Principles of Architectural Design. 4 Credits.
Introduces concepts, theories, and practices of the discipline of architecture. Includes study of perceptual, environmental, technical and organizational concepts through lectures and individual projects in observing architectural spaces and forms. Audit available.

ARCH 201. Residential Studio, 6 Credits.

ARCH 202. Commercial Studio. 4 Credits.
Covers the design process and schematic/presentation drawings for a light frame commercial building. Prerequisites: ARCH 101, ARCH 133 and (ARCH 127 or ARCH 237). Prerequisite/concurrent: ARCH 112. Audit available.

ARCH 203. Residential Renovation Studio. 6 Credits.

ARCH 204. Green Residential Studio. 4 Credits.
Covers advanced study of sustainable building design and systems, applied to residential buildings. Includes site analysis passive technologies, and use of sustainable building materials. Involves application of concepts applied to an actual house design in a studio format. Prerequisite: ARCH 101 or department approval for similar experience. Prerequisite/concurrent: ARCH 131 and ARCH 224, and ID 121; or instructor permission. Audit available.

ARCH 210. Professional Practices for Architectural Design & Drafting. 3 Credits.
Covers the business administration of the architectural design and drafting profession. Includes topics on project administration and management, contracts, project scheduling, permitting, coordination of consultants, business communications, marketing and portfolios, billing structures, ethics, liability, and legal considerations. Prerequisite: ARCH 101, ARCH 121, ARCH 132, and ARCH 161. Prerequisite/concurrent: ARCH 111. Audit available.

ARCH 224. Active and Passive Building Systems. 4 Credits.
Covers environmental building systems for residential applications and evaluation of building performance. Prerequisite: ARCH 124. Audit available.

ARCH 237. Introduction to Revit Architecture. 3 Credits.
Introduces Revit Architecture and its applications to architectural design and drafting. Audit available.

ARCH 247. Intermediate Revit Architecture. 3 Credits.
Explores Revit Architectures intermediate commands and features and its application to architecture. Prerequisite: ARCH 237 Audit available.

ARCH 256. Detail Drawing with AutoCAD. 3 Credits.
Develops skills in creating construction detail and section drawings using appropriate scale, line weights, symbols and annotations. Prerequisite: ARCH 136. Audit available.

ARCH 280. Cooperative Education: Architectural Design and Drafting. 1-4 Credit.
Work or observe on approved job sites. Student receives as varied and complete an experience as possible under job conditions. Credits are variable and based on the number of clock hours student spends on job site. Must be coordinated with the supervisor, instructor, and cooperative education specialist. Department permission required.

ART

ART 101. Understanding Architecture, 4 Credits.
Introduces aesthetic, historical and critical issues of architecture. Presents buildings, gardens, fountains, malls and public spaces in terms of experiencing, appreciating and understanding roles of architecture in the urban world and as reflections of human interaction with the socio-political and physical environment. The series ART 101, 102, 103 may be taken in any order. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 102. Understanding the Visual Arts. 4 Credits.
Introduces aesthetic, historical and critical issues of the visual arts. Presents aspects of drawing, painting, sculpture and craft in terms of experiencing, appreciating and understanding their roles in our lives. The series ART 101, 102, 103 may be taken in any order. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/ AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.
ART 103. Understanding New Media Arts. 4 Credits.
Introduces aesthetic and critical issues of new media arts and design. Presents aspects of printmaking, photography, graphic design, video, film, performance, installation, and other forms of timebased art in terms of experiencing, appreciating and understanding their roles in our lives. The series ART 101, 102, 103 may be taken in any order. Prerequisites: (WR 115 and RD 115) or IWR 115. 4 credits. Audit available.
This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAOOT.

ART 115. Basic Design - 2D Foundations. 3 Credits.
Introduces two dimensional black and white foundations studio experience centered on creative problem solving. Develops perceptual awareness and understanding. Establishes critical skills and personal artistic vision. Investigates a broad range of materials, techniques and projects to explore black and white design concepts with reference to historical and contemporary perspectives. Basic Design series 115, 116, 117 and 119 may be taken in any sequence. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AAOT.

ART 116. Basic Design - Color Foundations. 3 Credits.
Introduces color foundations studio experience centered on creative problem solving. Develops perceptual awareness and understanding. Establishes critical skills and personal artistic vision. Investigates a broad range of materials, techniques and projects to explore color design concepts with reference to historical and contemporary perspectives. Basic Design series 115, 116, 117 and 119 may be taken in any sequence. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOOT.

ART 117. Basic Design - 3D Foundations. 3 Credits.
Explores ways of seeing and creating work that acknowledges personal artistic intentions. Examines various 2-D, 3-D, and 4-D media and processes used to develop and encourage creative problem solving. Establishes critical skills necessary to evaluate art through critiques, discussions, and artistic presentation. Investigates artistic intent, aesthetic and structural solutions, and perceptual awareness. Recommended: an introduction to art, art history or a sense of curiosity and a willingness to experiment. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AAOT.

ART 119. Basic Design-4D Foundations. 3 Credits.
Introduces the basic principles of time, as it relates to the creative arts, which include the notion of occurrence and the episodic, duration, tempo, intensity, scope and context. Introduces concepts, processes and basic use of related tools and technology in preparation for continuing fine and design art work at the 200 level. Uses a broad range of materials, techniques and projects to engage concepts with reference to historical and contemporary perspectives. Basic Design series 115, 116, 117 and 119 may be taken in any sequence. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT.

ART 131A. Drawing I. 3 Credits.
Explores basic perceptual drawing techniques and tools as well as the development of the language of drawing in historical and contemporary contexts. Introduces critical skills for sighting, measuring, designing and constructing in drawing. This is the first course in a three-course sequence. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT.

ART 131B. Drawing I. 3 Credits.
Introduces immediate drawing techniques and tools as well as the development of the language of drawing in historical and contemporary contexts. Promotes critical skills for sighting, measuring, designing and constructing in drawing. This is the second course in a three-course sequence. Prerequisites: ART 131A or ART 131B or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 131C. Drawing I. 3 Credits.
Builds upon intermediate drawing techniques and tools as well as the development of the language of drawing in historical and contemporary contexts. Applies critical skills for sighting, measuring, designing and constructing in drawing. This is the third course in a three-course sequence. Prerequisites: Two terms of ART 131 or ART 131B or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 140A. Digital Photography I. 3 Credits.
Introduces basic digital photography as it relates to creative arts, history, media and culture in both a historical and contemporary context. Includes critiques, discussions, and presentations to establish the basic skills necessary to evaluate prints and images, explore artistic intent, examine aesthetic and structural solutions and expand perceptual awareness. Requires access to a camera with manual exposure controls. DSLR (digital single-lens-reflex) cameras are preferred. This is the first course in a three-course sequence. Recommended: Basic computer skills & ART 141 or ART 142A. Audit available.
This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS.

ART 140B. Digital Photography I. 3 Credits.
Introduces intermediate basic digital photography processes as they relate to creative arts, history, media and culture in both a historical and contemporary context. Includes critiques, discussions, and presentations to establish the skills necessary to evaluate prints and images, explore artistic intent, examine aesthetic and structural solutions and expand perceptual awareness. Requires access to a camera with manual exposure controls. DSLR (digital single-lens-reflex) cameras are preferred. This is the second course in a three-course sequence for first year digital photography. Prerequisite: ART 140A or ART 140A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAG, Arts and Letters/AAOT.

ART 140C. Digital Photography I. 3 Credits.
Introduces intermediate digital photography processes as they relate to creative arts, history, media and culture in both a historical and contemporary context. Includes critiques, discussions, and presentations to establish the skills necessary to evaluate prints, explore artistic intent, examine aesthetic and structural solutions and expand perceptual awareness. Requires access to a camera with manual exposure controls. DSLR (digital single-lens-reflex) cameras are preferred but not required. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AAOT.

ART 141. Introduction to Photography. 3 Credits.
Explores photography from film to digital as it relates to creative arts, history, media and culture in both a historical and contemporary context. Introduces photography processes, principles and technology in preparation for continuing fine art and media based work. Develops perceptual skills, self-reflection and peer critique in photographic practice. Requires access to a camera; film-based SLR (single-lens-reflex or DSLR (digital single-lens-reflex) cameras are preferred but not required. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AAOT.

ART 142A. Introduction to B&W Photo (Darkroom). 3 Credits.
Introduces beginning black and white darkroom photographic processes, techniques and concepts. Addresses historical and contemporary issues specific to beginning photography. Develops photographic practices using peer critique and self-reflection. Requires access to a manual, SLR (single-lens-reflex) film camera. This is the first course of a three-course sequence for first year black and white darkroom photography. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT.

ART 142B. Intro to B&W Photo (Darkroom). 3 Credits.
Introduces intermediate black and white darkroom photographic processes, techniques and concepts. Addresses historical and contemporary issues specific to beginning photography. Develops photographic practices using peer critique and self-reflection. Requires access to a camera with manual exposure controls, SLR (single-lens-reflex) film camera. This is the second course of a three-course sequence for first year black and white darkroom photography. Prerequisite: ART 142A or ART 142A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AS.

ART 142C. Introduction to B&W Photo (Darkroom). 3 Credits.
Introduces beginning black and white darkroom photographic processes, techniques and concepts. Addresses historical and contemporary issues specific to beginning photography. Develops photographic practices using peer critique and self-reflection. Requires access to a camera with manual, SLR (single-lens reflex) film camera. This is the second course of a three-course sequence for first year black and white darkroom photography. Prerequisites: Two terms of ART 142 or ART 142A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AGS.
ART 143A. B&W Photography II (Darkroom). 3 Credits.
Covers advanced darkroom techniques. Utilizes a broad range of advanced darkroom processes to further develop problem-solving skills and create prints. Includes critiques, discussion and presentations to establish more sophisticated skills to evaluate prints. Requires access to a film, SLR (single-lens-reflex) camera with manual exposure controls. This is the first course of a three-course sequence for second year darkroom photography. Prerequisite: ART 142C or Instructor Approval. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 143B. B&W Photography II (Darkroom). 3 Credits.
Covers advanced darkroom techniques. Utilizes a broad range of advanced darkroom processes to further develop problem-solving skills and create prints. Includes critiques, discussion and presentations to establish more sophisticated skills to evaluate prints. Requires access to a film, SLR (single-lens-reflex) camera with manual exposure controls. This is the second course of a three-course sequence for second year darkroom photography. Prerequisite: Two terms of ART 143 or ART 143B or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 181A. Painting I. 3 Credits.
Explores basic studio painting techniques, materials, and concepts while addressing historical and contemporary issues. Introduces a conceptual framework for critical analysis along with basic art theory. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS.

ART 181B. Painting I. 3 Credits.
Introduces intermediate studio painting techniques, materials, and concepts while addressing historical and contemporary issues. Promotes a conceptual framework for critical analysis along with basic art theory. Prerequisites: ART 181 or ART 181A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 181C. Painting I. 3 Credits.
Elaborates on intermediate studio painting techniques, materials, and concepts while addressing historical and contemporary issues. Promotes a conceptual framework for critical analysis along with basic art theory. Prerequisites: Two terms of ART 181 or ART 181B or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS or Arts and Letters/AAOT.

ART 197. Artist’s Skills/Practical Issues. 3 Credits.
Professional practices relevant to emerging artists’ careers. Workshop/lecture format includes resume and portfolio preparation, developing resources and community, gaining exposure and representation for artwork, creating publicity, basic marketing and exhibition strategies, presenting and installing art work, business concerns, art market dynamics, art collecting. Field trips to local galleries and/or guest lectures. Practical experience gained in GCC gallery, through internships, and/or through Service Learning Projects. Audit available.

ART 204. History of Western Art. 4 Credits.
Examines visual art and architecture as a reflection of human interaction with the socio-political and physical environment of a particular era. Focuses on viewing, analyzing and comparing many art forms in an historical context, and covers the Paleolithic, Ancient Near Eastern, and Aegean cultures, beginning about 30,000 BCE. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and 3.25 GPA. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 204H. History of Western Art: Honors. 4 Credits.
This is the honors version. Examines visual art and architecture as a reflection of human interaction with the socio-political and physical environment of a particular era. Focuses on viewing, analyzing and comparing many art forms in an historical context, and covers the Paleolithic, Ancient Near Eastern, and Aegean cultures, beginning about 30,000 BCE. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and 3.25 GPA. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 205. History of Western Art. 4 Credits.
Examines visual art and architecture as a reflection of human interaction with the socio-political and physical environment. Focuses on viewing, analyzing and comparing many art forms in an historical context, and covers Late Antiquity, Early Christian and Medieval periods, beginning about 500 BCE. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 205H. History of Western Art: Honors. 4 Credits.
This is the honors version. Examines visual art and architecture as a reflection of human interaction with the socio-political and physical environment. Focuses on viewing, analyzing and comparing many art forms in an historical context, and covers Late Antiquity, Early Christian and Medieval periods, beginning about 500 BCE. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and 3.25 GPA. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 206. History of Western Art. 4 Credits.
Examines visual art and architecture as a reflection of human interaction with the socio-political and physical environment. Focuses on viewing, analyzing and comparing many art forms in an historical context, and covers the Renaissance and Baroque periods, beginning about 1300 CE. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 206H. History of Western Art: Honors. 4 Credits.
This is the honors version. Examines visual art and architecture as a reflection of human interaction with the socio-political and physical environment. Focuses on viewing, analyzing and comparing many art forms in an historical context, and covers the Renaissance and Baroque periods, beginning about 1300 CE. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and 3.25 GPA. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAOT.

ART 207. History of Asian Art. 4 Credits.
Explores and analyzes the visual arts in relation to the culture of India from the Neolithic through the modern period. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT.

ART 208. History of Asian Art. 4 Credits.
Explores and analyzes the visual arts in relation to the culture of China from the Neolithic through the modern period. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS.

ART 209. History of Asian Art. 4 Credits.
Explores and analyzes the visual arts in relation to the culture of Japan from the Neolithic through the modern period. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 210. Women in Art. 4 Credits.
Covers the work of women artists from antiquity to the present. Examines works of the most important women artists from each period in relation to the changing roles of women in society and to the canon of art history. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT.
ART 211. Modern Art History - 19th Century Art in Europe & America. 4 Credits.
Explores the beginning of the modern world and modern societies in Europe and the United States. Examines and analyzes the visual arts to reveal some effects of societal changes, and to gain insight into our modern world. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 212. Modern Art History - Early 20th Century Art. 4 Credits.
Explores early 20th century revolutions in science and technology, psychology and philosophy. Examines and analyzes the visual arts to reveal some effects of those changes, and to gain insight into our modern world. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 213. Modern Art History - Art Since 1945. 4 Credits.
Focuses attention on American art, as World War II ended the supremacy of Europe in the visual art world. Examines art since 1945 to explore the ideas behind it, to reveal our culture and values and to gain a greater understanding of our contemporary art with its global perspective. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 214. History of Graphic Design. 4 Credits.
Explores the history of graphic design from the earliest communication technologies to the present, with a focus on the Modern era. Examines changes in style and technology within the field and considers the relationship between graphic design and its cultural, political and social contexts. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 215. History of American Residential Architecture. 3 Credits.
Examines the historical origins and elements of American house styles in order to develop insights into the residential architecture of our own era. Audit available.

ART 216. Introduction to the History of Photography. 4 Credits.
Traces the history of photography since its processes were first announced in 1839. Examines photographs as aesthetic objects, and as documents of history, scientific exploration and social change. Locates the medium and practice of photography within a broader social and artistic context. Explores photography within the fields of art, science and journalism viewing, analyzing and discussing ways in which the presence of the photograph has shaped our relationship to the world around us. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 217. Comics Art & Literature. 3 Credits.
Examines comics art as a medium of visual narrative. Analyzes aesthetic qualities unique to comic books and graphic novels in artistic, historical, and literary contexts using seminal texts. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

ART 218A. Calligraphy I - Roman Capitals and Humanist Bookhand. 3 Credits.
Covers beginning practical and creative uses of calligraphy, lettering principles, techniques and functions. Includes the traditions and historical development of letters with a focus on the Roman alphabet and Humanist Bookhand. ART 218A, ART 218B and ART 218C may be taken in any order. Audit available.

ART 218B. Calligraphy I - Italic. 3 Credits.
Covers beginning practical and creative uses of calligraphy, lettering principles, techniques and functions. Includes the traditions and historical development of letters with a focus on the Italic script. ART 218A, ART 218B, and ART 218C may be taken in any order. Audit available.

ART 218C. Calligraphy I - Carolingian and Uncial. 3 Credits.
Covers beginning practical and creative uses of calligraphy, lettering principles, techniques and functions. Includes the traditions and historical development of letters with a focus on the Carolingian and Uncial scripts. ART 218A, ART 218B, and ART 218C may be taken in any order. Audit available.

ART 219A. The Art of Hand Lettering: Monoline Techniques, 3 Credits.
Investigates tools and techniques to explore several styles of hand lettering as a vehicle for artistic expression through the use of hand written text. Develops a familiarity with creating and using a variety of scripts. Establishes a facility and understanding of the components of hand written scripts with a focus on monoline techniques. Audit available.

ART 219B. The Art of Hand Lettering: Special Tools. 3 Credits.
Investigates a wide range of tools and techniques to explore several styles of hand lettering as a vehicle for artistic expression through the use of hand written text. Establishes a facility and understanding of the components of hand written scripts with a focus on unusual tools as the basis for creating letters. Audit available.

ART 219C. The Art of Hand Lettering: Hand Drawn Letters. 3 Credits.
Investigates techniques and explores several styles of hand lettering as a vehicle for artistic expression through the use of hand written text. Develops a familiarity with creating and using a variety of scripts. Establishes a facility with and an understanding of the components of scripts, with a focus on hand written scripts. Audit available.

ART 220A. Calligraphy II - Roman Capitals and Humanist Bookhand. 3 Credits.
Reviews the calligraphic scripts studied in the ART 218 sequence and refines the forms. Covers complex layout and design issues. Develops intermediate to advanced techniques with the use of mixed media and working at a larger scale to develop personal aesthetic and vision. Includes creative problem-solving activities the professional calligrapher is likely to encounter on the job. ART 220A, ART 220B, and ART 220C may be taken in any order. Prerequisites: ART 218A, ART 218B, and ART 218C or instructor permission. Audit available.

ART 220B. Calligraphy II - Italic. 3 Credits.
Reviews the calligraphic scripts studied in the ART 218 sequence and refines the forms. Covers complex layout and design issues. Develops intermediate to advanced techniques with the use of mixed media and working at a larger scale to develop personal aesthetic and vision. Includes creative problem-solving activities the professional calligrapher is likely to encounter on the job. ART 220A, ART 220B, and ART 220C may be taken in any order. Prerequisites: ART 218A, ART 218B and ART 218C, or instructor permission. Audit available.

ART 220C. Calligraphy II - Carolingian and Uncial. 3 Credits.
Reviews the calligraphic scripts studied in the ART 218 sequence and refines the forms. Covers complex layout and design issues. Develops intermediate to advanced techniques with the use of mixed media and working at a larger scale to develop personal aesthetic and vision. Includes creative problem-solving activities the professional calligrapher is likely to encounter on the job. ART 220A, ART 220B, and ART 220C may be taken in any order. Prerequisites: ART 218A, ART 218B and ART 218C, or instructor permission. Audit available.

ART 231A. Drawing II. 3 Credits.
Deepens basic perceptual drawing techniques and tools as well as the understanding of the language of drawing in historical and contemporary contexts. Further develops critical skills for sighting, measuring, designing and constructing in drawing. This is the first course in a three-course sequence. Prerequisites: Two terms of ART 131 or ART 131C or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 231B. Drawing II. 3 Credits.
Further deepens basic perceptual drawing techniques and tools as well as the understanding of the language of drawing in historical and contemporary contexts. Further develops critical skills for sighting, measuring, designing and constructing in drawing. This is the second course in a three-course sequence. Prerequisites: ART 231 or ART 231A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 231C. Drawing II. 3 Credits.
Further deepens intermediate perceptual drawing techniques and tools as well as the understanding of the language of drawing in historical and contemporary contexts. Further develops critical skills for sighting, measuring, designing and constructing in drawing. This is the third course in a three-course sequence. Prerequisites: Two terms of ART 231 or ART 231B or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.
ART 237A. Life Drawing. 3 Credits.
Investigates drawing the human form through referencing professional models and applying various drawing processes and concepts. Develops understanding of the structure, form and proportions of the human figure in the context of composition, personal expression and an awareness of materials. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAAS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/ASOT-B, Arts and Letters/AAOT.

ART 237B. Life Drawing. 3 Credits.
Further investigates drawing the human form through referencing professional models and applying various drawing processes and concepts. Develops understanding of the structure, form and proportions of the human figure in the context of composition, personal expression and an awareness of materials. Prerequisites: One term of ART237 or ART237A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 237C. Life Drawing. 3 Credits.
Further investigates drawing the human form through referencing professional models and applying various drawing processes and concepts. Develops intermediate understanding of the structure, form and proportions of the human figure in the context of composition, personal expression and an awareness of materials. Prerequisites: Two terms of ART 237 or ART 237B or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/ASOT-B, Arts and Letters/AGS.

ART 240A. Digital Photography II. 3 Credits.
Explores the boundaries of digital photography to begin to include a more personal practice while placing work within a historical, social and cultural context. Introduces critical skills necessary to expand perceptual and visual cultural awareness by using a broad range of intermediate digital processes and concepts. Introduces the ideas related to the development of a professional photographic practice. Requires access to a camera with manual exposure controls, DSLR (digital single-lens-reflex) cameras are preferred. This is the first course in a three-course sequence for second year digital photography. Prerequisite. Three terms of ART 140 or ART 140C or instructor permission. Audit available.

ART 240B. Digital Photography II. 3 Credits.
Explores the boundaries of digital photography to include a more personal practice while placing work within a historical, social and cultural context. Develops the critical skills necessary to expand perceptual and visual cultural awareness by using a broad range of advanced digital processes and concepts. Encourages further development of a professional photographic practice. Requires access to a camera with manual exposure controls, DSLR (digital single-lens-reflex) cameras are preferred. This is the second course in a three-course sequence for second year digital photography. Prerequisite. One term of ART 240 or ART 240A or instructor permission. Audit available.

ART 240B. Glass Casting. 3 Credits.
Introduces beginning intermediate level ceramic processes, techniques, and concepts while addressing historical and contemporary issues. Develops a beginning level of creative problem solving and kinetic skills with clay forming and finishing techniques, including hand building, wheel throwing, use of plaster molds, and surface treatments. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate ceramic works, explore artistic intent, examine aesthetic and structural solutions, and expand perceptual awareness. This is the second course of a three-term sequence for second year ceramics. Prerequisites: One term of ART 253 or ART 253A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS.

ART 243. The Photographic Portfolio. 3 Credits.
Develops a strong artistic vision through creating a professional portfolio. Develops critical skills necessary to expand perceptual and visual cultural awareness through critiques, discussions, reading, research and presentations of personal work. Emphasizes collaboration, professional standards, creative problem solving and service learning. Requires access to a camera. Recommended: ART 143 or ART 140 or ART 240 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

ART 248A. Glass Casting. 3 Credits.
Provides an introductory studio experience involving the mechanics and design concerns necessary to make molds for glass casting and then casting in glass. Included is an overview of related processes and techniques and concepts that address historical and contemporary issues. Students will use a variety of techniques to develop and implement creative problem solving. Critiques, discussion, and presentations establish basic critical skills necessary to evaluate glass crafting, explore artistic intent, examine structural solutions, and expand perceptual awareness. Includes demonstrations, lectures, slides and audiovisual materials. This is the first course in a three-course sequence exploring glass casting. Prerequisite: ART 117. Audit available.

ART 248B. Glass Casting. 3 Credits.
Provides an intermediate level studio experience involving the mechanics and design concerns necessary to make molds for glass casting and then casting in glass. Included is an overview of related processes and techniques and concepts that address historical and contemporary issues. Students will use a variety of advanced techniques to develop and implement creative problem solving. Critiques, discussion, and presentations develop critical skills necessary to evaluate glass crafting, explore artistic intent, examine structural solutions, and expand perceptual awareness. Includes demonstrations, lectures, slides and audiovisual materials. This is the third course in a three-course sequence exploring glass casting. Prerequisite: One term of ART 248 or ART 248A or instructor permission. Audit available.

ART 248C. Glass Casting. 3 Credits.
Provides an advanced level studio experience involving the mechanics and design concerns necessary to make molds for glass casting and then casting in glass. Included is an in-depth overview of related processes and techniques and concepts that address historical and contemporary issues. Students will use a variety of advanced techniques to develop and implement creative problem solving. Critiques, discussion, and presentations develop critical skills necessary to evaluate glass crafting, explore artistic intent, examine structural solutions, and expand perceptual awareness. Includes demonstrations, lectures, slides and audiovisual materials. This is the third course in a three-course sequence exploring glass casting. Prerequisites: Two terms ART 248 or ART 248B or instructor permission. Audit available.

ART 253A. Ceramics I. 3 Credits.
Introduces beginning intermediate level ceramic processes, techniques, and concepts while addressing historical and contemporary issues. Develops a beginning level of creative problem solving and kinetic skills with clay forming and finishing techniques, including hand building, wheel throwing, use of plaster molds, and surface treatments. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate ceramic works, explore artistic intent, examine aesthetic and structural solutions, and expand perceptual awareness. This is the first course of a three-term sequence for first year ceramics. Prerequisites: One term of ART 253 or ART 253A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAOT.

ART 253B. Ceramics I. 3 Credits.
Introduces beginning intermediate level ceramic processes, techniques, and concepts while addressing historical and contemporary issues. Develops a beginning intermediate level of creative problem solving and kinetic skills with clay forming and finishing techniques, including hand building, wheel throwing, use of plaster molds, and surface treatments. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate ceramic works, explore artistic intent, examine aesthetic and structural solutions, and expand perceptual awareness. This is the second course of a three-term sequence for second year ceramics. Prerequisites: One term of ART 253 or ART 253A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B.
ART 256A. Ceramics II. 3 Credits.
Introduces lower-advanced level ceramics processes, techniques, and concepts while addressing historical and contemporary issues. Develop a lower-advanced level of creative problem solving and kinetic skills with clay forming and finishing techniques, including hand building, wheel throwing, use of plaster molds, and surface treatments. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate ceramic works, explore artistic intent, examine aesthetic and structural solutions and expand perceptual awareness. This is the first course of a three-semester sequence. Prerequisite: 3 terms of ART 253 or ART 253C or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AGS.

ART 256B. Ceramics II. 3 Credits.
Introduces middle-advanced level ceramics processes, techniques, and concepts while addressing historical and contemporary issues. Develop a middle-advanced level of critical thinking and kinetic skills with clay forming and finishing techniques, including hand building, wheel throwing, use of plaster molds, and surface treatments. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate ceramic works, explore artistic intent, examine aesthetic and structural solutions and expand perceptual awareness. This is the second course of a three-semester sequence. Prerequisite: ART 256 or ART 256A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AGS.

ART 256C. Ceramics II. 3 Credits.
Introduces advanced level ceramics processes, techniques, and concepts while addressing historical and contemporary issues. Develop an advanced level of creative problem solving and kinetic skills with clay forming and finishing techniques, including hand building, wheel throwing, use of plaster molds, and surface treatments. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate ceramic works, explore artistic intent, examine aesthetic and structural solutions and expand perceptual awareness. This is the third course of a three-semester sequence. Prerequisite: Two terms of ART256 or ART256B or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ART 270A. Printmaking I. 3 Credits.
Introduces basic printmaking processes, techniques, and concepts while addressing historical and contemporary issues. Develops an introductory level of creative problem solving and terminology of monoprints, relief and basic intaglio processes. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate prints, explore artistic intent, examine aesthetic and structural solutions, and expand perceptual awareness. This is the first course of a three-semester sequence. Recommended: ART 115, ART 116 and 131A. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AGS.

ART 270B. Printmaking I. 3 Credits.
Introduces intermediate beginning printmaking processes, techniques, and concepts while addressing historical and contemporary issues. Includes terminology of monoprints, relief and some intermediate intaglio processes. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate prints, explore artistic intent, examine aesthetic and structural solutions, and expand perceptual awareness. Promotes creative problem solving by employing a variety of strategies. This is the second course of a three-semester sequence for first year printmaking. Prerequisites: ART 270 or ART 270A or instructor permission. Recommended: ART 115, 116 and 131A. Audit available. This course fulfills the following GE requirements: Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 270C. Printmaking I. 3 Credits.
Explores intermediate printmaking processes, techniques, and concepts while addressing historical and contemporary issues. Includes terminology of monoprints, relief and intermediate intaglio processes. Includes critiques, discussions, and presentations to exercise critical skills necessary to evaluate prints, explore artistic intent, examine aesthetic and structural solutions, and expand perceptual awareness. Employs creative problem solving through implementing a variety of strategies. This is the third course of a three-semester sequence for first year printmaking. Prerequisites: Two terms of ART 270 or ART 270B or instructor permission. Recommended: ART 115, 116 and 131A. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 271A. Printmaking II. 3 Credits.
Introduces beginning advanced printmaking techniques (e.g. sugar lift, color, glazes) and other intaglio processes (e.g. folio sets and books) while addressing historical and contemporary issues. Develops critical problem solving by utilizing monotypes, color relief, and advanced intaglio processes to create a print. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate prints, explore artistic intent, examine aesthetic and structural solutions, and expand perceptual awareness. This is the first course of a three-semester sequence. Prerequisites: Three terms of ART 270 or ART 270C or instructor permission. Recommended: ART 115, 116 and 131A. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AGS.

ART 271B. Printmaking II. 3 Credits.
Explores intermediate advanced printmaking techniques (e.g. sugar lift, color, glazes) and complete a variety of projects (e.g. folio sets and books) while addressing historical and contemporary issues. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate prints, explore artistic intent, examine aesthetic and structural solutions, and expand perceptual awareness. Prerequisites: Two terms of ART 271 or ART 271B or instructor permission. Recommended: ART 115, 116 and 131A. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

ART 271C. Printmaking II. 3 Credits.
Further explores advanced printmaking techniques (e.g. sugar lift, color, glazes) and complete a variety of projects (e.g. folio sets and books) while addressing historical and contemporary issues. Includes critiques, discussions, and presentations to establish critical skills necessary to evaluate prints, explore artistic intent, examine aesthetic and structural solutions, and expand perceptual awareness. Prerequisites: Two terms of ART 271 or ART 271B or instructor permission. Recommended: ART 115, 116 and 131A. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

ART 277A. Life Painting. 3 Credits.
Examines the human form through the study and painting of live professional models. Applies various painting techniques and concepts as students learn the structure, form and proportions of the human figure. Emphasizes personal artistic development with attention to compositional organization. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

ART 277B. Life Painting. 3 Credits.
Examines the human form through the study and painting of live professional models. Applies various painting techniques and concepts as students learn the structure, form and proportions of the human figure. Emphasizes personal artistic development with attention to compositional organization. Prerequisites: One term of ART 277 or ART 277A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

ART 277C. Life Painting. 3 Credits.
Examines the human form through the study and painting of live professional models. Applies more advanced painting techniques and concepts as students learn the structure, form and proportions of the human figure. Emphasizes personal artistic development with attention to compositional organization and conceptual framework. Prerequisites: Two terms of ART 277 or ART 277B or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS.

ART 277A. Experimental Media. 3 Credits.
Begins ways of seeing and creating work that acknowledges personal artistic intentions. Examines various 2-D, 3-D, and 4-D media and processes used to develop and encourage creative problem solving. Establishes critical skills necessary to evaluate art through critiques, discussions, and artistic presentation. Investigates artistic intent, aesthetic and structural solutions, and perceptual awareness. Recommended: an introduction to art, art history or a sense of curiosity and a willingness to experiment. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AS.

ART 277B. Experimental Media. 3 Credits.
Expands further ways of seeing and creating work that acknowledges personal artistic intentions. Examines various 2-D, 3-D, and 4-D media and processes used to develop and encourage creative problem solving. Establishes critical skills necessary to evaluate art through critiques, discussions, and artistic presentation. Develops artistic intent, aesthetic and structural solutions, and perceptual awareness. Recommended: an introduction to art, art history or a sense of curiosity and a willingness to experiment. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AS.
ART 279C. Experimental Media. 3 Credits.
Advances ways of considering and creating artwork that acknowledges personal artistic intentions. Examines various 2-D, 3-D, and 4-D media and processes used to develop and encourage creative problem solving. Establishes critical skills necessary to evaluate art through critiques, discussions, and artistic presentation. Explores artistic intent, aesthetic and structural solutions, and perceptual awareness. Recommended: an introduction to art, art history or a sense of curiosity and a willingness to experiment. Prerequisites: Two terms of ART 279 or ART 279B or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 281A. Painting II. 3 Credits.
Explores ways of seeing and elaborates on intermediate painting techniques, materials, and concepts while relating to historical and contemporary issues. Presents a conceptual framework for critical analysis along with basic art theory. Prerequisites: Three terms of ART 161 or ART 161C or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

ART 281B. Painting II. 3 Credits.
Explores ways of seeing and elaborates on intermediate painting techniques, materials, and concepts while relating to historical and contemporary issues. Presents a conceptual framework for critical analysis along with basic art theory. Prerequisites: One term of ART 281 or ART 281A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ART 281C. Painting II. 3 Credits.
Expands ways of seeing and elaborates on intermediate painting techniques, materials, and concepts while relating to historical and contemporary issues. Presents a conceptual framework for critical analysis along with basic art theory. Prerequisites: Two terms of ART 281 or ART 281B or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

ART 284A. Water Media I. 3 Credits.
Explores basic studio watercolor painting techniques, materials, and concepts while addressing historical and contemporary issues to increase visual literacy. Presents a conceptual framework for critical analysis along with basic art theory. Recommended: ART 131. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT.

ART 284B. Water Media I. 3 Credits.
Expands studio watercolor painting techniques, materials, and concepts while addressing historical and contemporary issues to increase visual literacy. Presents a conceptual framework for critical analysis along with basic art theory. Recommended: ART 131. Prerequisites: One term of ART 284 or ART 284A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AAOT.

ART 284C. Water Media I. 3 Credits.
Implements advanced studio watercolor painting techniques, materials, and concepts while addressing historical and contemporary issues to increase visual literacy. Presents a conceptual framework for critical analysis along with advanced art theory. Prerequisite: Three terms of ART 284 or ART 284C or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

ART 287A. Water Media II. 3 Credits.
Explores intermediate and more advanced studio watercolor painting techniques, materials, and concepts while addressing historical and contemporary issues to increase visual literacy. Presents a conceptual framework for critical analysis along with advanced art theory. Prerequisite: One term of ART 287 or ART 287A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/ASOT-B.

ART 287B. Water Media II. 3 Credits.
Explores intermediate and more advanced studio watercolor painting techniques, materials, and concepts while addressing historical and contemporary issues to increase visual literacy. Presents a conceptual framework for critical analysis along with advanced art theory. Prerequisite: One term of ART 287 or ART 287A or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/ASOT-B.

ART 290A. Sculpture: Plaster/Clay. 3 Credits.
Introduces basic sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues in sculpture. Develops creative problem solving through making sculpture. Introduces intermediate level techniques for clay and plaster (including but not limited to: mold making, casting, and direct construction over armatures). Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and expanding perceptual awareness of sculpture. This is the first of a three-course sequence. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS.

ART 290B. Sculpture: Plaster/Clay. 3 Credits.
Introduces intermediate sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues in sculpture. Develops creative problem solving through making sculpture. Explores intermediate level techniques for clay and plaster (including but not limited to: mold making, casting, and direct construction over armatures). Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and expanding perceptual awareness of sculpture. This is the second of a three-course sequence. Prerequisites: ART 290 or ART 290A or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS.

ART 290C. Sculpture: Plaster/Clay. 3 Credits.
Introduces basic sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues in sculpture. Develops creative problem solving through making sculpture. Explores intermediate level techniques for clay and plaster (including but not limited to: mold making, casting, and direct construction over armatures). Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and expanding perceptual awareness of sculpture. This is the second of a three-course sequence. Prerequisites: Two terms of ART 290 or ART 290B or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS.

ART 291A. Sculpture. Carving. 3 Credits.
Introduces basic sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues in sculpture. Develops an introductory level of creative problem solving through making a variety of techniques associated with the reductive process of carving to make sculpture. Introduces critical skills necessary to evaluate sculpture through critiques, discussions, and expanding perceptual awareness of sculpture. This is the first of a three-course sequence. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS.

ART 291B. Sculpture. Carving. 3 Credits.
Introduces intermediate sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues in sculpture. Develops an introductory level of creative problem solving through some intermediate level techniques associated with the reductive process of carving to make sculpture. Introduces critical skills necessary to evaluate sculpture through critiques, discussions, and expanding perceptual awareness of sculpture. This is the second of a three-course sequence. Recommended: ART 291A or ART 291C or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS.
ART 291C. Sculpture: Carving. 3 Credits.
Explores intermediate sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues in sculpture. Develops creative problem solving through making sculpture. Employs intermediate level mixed media techniques associated with the reductive process of carving to make sculpture. Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and sculpture presentations by exploring artistic intent, examining aesthetic and structural solutions, and expanding perceptual awareness of sculpture. This is the second of a three-course sequence. Prerequisites: Two terms of ART 291 or ART 291B or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/AAOT.

ART 292A. Sculpture: Mixed Media. 3 Credits.
Introduces basic sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues in sculpture. Develops an introductory level of creative problem solving through making sculpture using a variety of mixed media techniques. Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and sculpture presentations by exploring artistic intent, examining aesthetic and structural solutions, and expanding perceptual awareness of sculpture. This is the third of a three-course sequence. Prerequisites: Two terms of ART 291 or ART 291B or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AOT, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/AAOT.

ART 292B. Sculpture: Mixed Media. 3 Credits.
Introduces intermediate sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues in sculpture. Develops an intermediate level mixed media techniques. Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and sculpture presentations by exploring artistic intent, examining aesthetic and structural solutions, and expanding perceptual awareness of sculpture. This is the second of a three-course sequence. Prerequisites: One term of ART 292 or ART 292A or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AOT, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAAS, Arts and Letters/AAOT.

ART 292C. Sculpture: Mixed Media. 3 Credits.
Explores intermediate sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues in sculpture. Develops an intermediate level mixed media techniques. Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and sculpture presentations by exploring artistic intent, examining aesthetic and structural solutions, and expanding perceptual awareness of sculpture. This is the third of a three-course sequence. Prerequisites: Two terms of ART 292 or ART 292B or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AOT, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAAS, Arts and Letters/AAOT.

ART 293A. Figure Sculpture. 3 Credits.
Introduces basic sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues relating to figure sculpture. Develops introductory level of creative problem solving through making figurative sculpture based on the study of the human form from professional models, nude and clothed. Applies various sculpting techniques and concepts to the study of the structure, form, and proportions of the human figure. Introduces critical skills necessary to evaluate figure sculpture through critiques, discussions, and sculpture presentations by exploring artistic intent, examining aesthetic and structural solutions, and expanding perceptual awareness of sculpture. This is the first of a three-course sequence. Prerequisites: Two terms of ART 293 or ART 293A or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/AAOT.

ART 293B. Figure Sculpture. 3 Credits.
Introduces intermediate sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues relating to figure sculpture. Develops creative problem solving through making figurative sculpture based on the study of the human form from professional models, nude and clothed. Introduces some intermediate metal working techniques (including but not limited to: welding, cold connections, forming and finishing). Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and sculpture presentations by exploring artistic intent, examining aesthetic and structural solutions, and expanding perceptual awareness of sculpture. This is the second of a three-course sequence. Prerequisites: Two terms of ART 293 or ART 293B or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AOT, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/AAOT.

ART 293C. Figure Sculpture. 3 Credits.
Explores intermediate sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues relating to figure sculpture. Employs intermediate level creative problem solving through making figurative sculpture based on the study of the human form from professional models, nude and clothed. Employs intermediate sculpting techniques and concepts to the study of the structure, form, and proportions of the human figure. Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and sculpture presentations by exploring artistic intent, examining aesthetic and structural solutions, and expanding perceptual awareness of sculpture. This is the third of a three-course sequence. Prerequisites: Two terms of ART 293 or ART 293B or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AOT, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/AAOT.

ART 294A. Sculpture: Metals. 3 Credits.
Introduces basic sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues. Develops an introductory level of creative problem solving through making sculptures with various metal working techniques (including but not limited to: welding, cold connections, forming and finishing). Introduces critical skills necessary to evaluate sculpture through critiques, discussions, and sculpture presentations by exploring artistic intent, examining aesthetic and structural solutions, and expanding perceptual awareness of sculpture. This is the first of a three-course sequence. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AOT, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/AAOT.

ART 294B. Sculpture: Metals. 3 Credits.
Introduces intermediate sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues. Develops creative problem solving through making sculpture. Introduces some intermediate metal working techniques (including but not limited to: welding, cold connections, forming and finishing). Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and sculpture presentations by exploring artistic intent, examining aesthetic and structural solutions, and expanding perceptual awareness of sculpture. This is the second of a three-course sequence. Prerequisites: One term of ART 294 or ART 294A or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AOT, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/AAOT.

ART 294C. Sculpture: Metals. 3 Credits.
Explores intermediate sculptural form, processes, techniques, and concepts while addressing historical and contemporary issues. Develops creative problem solving through making sculpture. Employs intermediate level metal working techniques (including but not limited to: welding, cold connections, forming and finishing). Establishes critical skills necessary to evaluate sculpture through critiques, discussions, and sculpture presentations by exploring artistic intent, examining aesthetic and structural solutions, and expanding perceptual awareness of sculpture. This is the third of a three-course sequence. Prerequisites: Two terms of ART 294 or ART 294B or instructor permission. Recommended: ART 117. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AOT, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/AAOT.

AUTO REPAIR COLLISION TECH

AB 100. Auto Body Basic Skills. 12 Credits.
Introduces oxy-acetylene welding, use of hand tools, equipment, and procedures in replacing and aligning auto body components including the use of MIG welders in auto body repair. Develops skills in repair of auto body metals. Discusses damage analysis and how dents are reshaped to original contours. Audit available.

AB 105. Frame Analysis & Repair. 12 Credits.
Covers structural misalignment analysis, use of measuring systems, structural repair procedures, and wheel alignment. Prerequisites: AB 100. Audit available.

AB 106. Panel Repair. 12 Credits.
Develops skills in repair of practice panels, school owned vehicles, and customer cars. Safe use of grinders, sanders, assorted hand tools, and pulling equipment will be applied and practiced. Paint fundamentals, preparation, and application will be discussed. Prerequisites: AB 100. Audit available.

AB 116. Auto Painting I. 12 Credits.
Develops knowledge and skills in care and use of all painting equipment, shop safety, conservation of materials, surface preparation for application of paint, application techniques, color matching and basic taping techniques. Audit available.
AB 117. Auto Painting II. 12 Credits.
Introduces safe use of single stage urethane, advanced masking techniques, small dent repair and detailing. Review and practice of all previously learned painting skills on customer and school owned cars. Prerequisite: AB 116. Audit available.

AB 118. Auto Painting III. 12 Credits.
Introduces safe use of pearl and tri-coat urethane base coat/clear coat systems and waterborne paint systems. Emphasizes spot repair, color matching, blending and plastic part refinishing. Covers surface preparation and proper masking techniques for these products. Prerequisites: AB 116, AB 117. Audit available.

AB 201. Panel Replacement. 12 Credits.
Covers replacing new and used weld-on panels, such as rocker panels, quarter panels and rear body panels. Includes preparation and installation of cosmetic and structural weld-on panels. Prerequisites: AB 100, AB 105, and AB 106. Audit available.

AB 205. Technical Skills and Collision Repair. 12 Credits.
Develops knowledge and manipulation skills required for the complete repair of a collision damaged vehicle by understanding and testing the safety and comfort features found on current vehicles. Prerequisites: AB 100, 105, 106 and 201. Audit available.

AB 280A. Cooperative Education: Auto Body Repair. 1-10 Credit.
Focuses on demonstrating knowledge of auto body repair. Observe and obtain hands-on experience matching their learning objectives. Credits are determined by total clock hours spent on site during the term. Must be coordinated with supervisor, instructor and cooperative education specialist. Prerequisites: AB 205.

AB 280B. Cooperative Education: Auto Body Repair - Seminar. 1-2 Credit.
Provides opportunity to share work experiences and receive feedback from students and instructors. Corequisite: AB 280A.

AUTOMOTIVE SERVICE TECHNOLOGY

AM 100. Intro to Automotive Systems. 4 Credits.
Introduces automotive tools, fasteners, precision measurement, service information systems/manuals and shop procedures. Includes basic automotive service, inspection, and measuring procedures and the practical application of mathematics for the automotive trade. Audit available.

AM 111. Engine Repair. 4 Credits.
Covers purpose, inspection and repair of engine components, including disassembly and reassembly of school owned engines, to gain experience in hand tool use and proper engine repair and evaluation procedures. Prerequisites: CG 209. Audit available.

AM 121. Automatic Transmission/Transaxle. 4 Credits.
Introduces automatic transmissions/transaxles, the study of power flow and diagnosis of automatic transmission mechanical and hydraulic systems. Includes proper rebuild procedures, component identification and dynamometer testing of a student built automatic transmission. Prerequisite: CG 209. Audit available.

AM 131. Manual Drive Train and Axles. 4 Credits.
Introduces manual transmissions/transaxles, the study of power flow and diagnosis of manual transmission systems. Includes proper repair procedures, component identification and service procedures performed on school owned vehicles and components. Prerequisite: CG 209. Audit available.

AM 132. Advanced Automatic and Manual Drive Train. 4 Credits.
Introduces work on approved customer vehicles, including diagnosing and servicing automatic and manual drive train customer concerns. Provides a realistic experience and develops an understanding of procedures, which take place daily in an automotive repair facility. This is the capstone course building on the skills, knowledge and abilities learned through successful completion of AM 121 and AM 131. Prerequisite: CG 209. Audit available.

AM 141. Suspension and Steering. 4 Credits.
Introduces basic principles of suspension, steering and wheel alignment for passenger cars and light duty trucks including tire construction, types and sizing. Includes disassembling and reassembling suspension and steering system components. Introduces computerized 4-wheel alignment, tire balancing and tire changing equipment. Prerequisite: CG 209. Audit available.

AM 142. Advanced Suspension, Steering and Brakes. 4 Credits.
Covers diagnosis and repair of suspension, steering and brake systems in a laboratory/shop setting. Includes how to perform complete suspension, steering and brake system inspections and determine what repairs are needed, order parts and complete repairs under close instructor supervision. Vehicles serviced are drawn from a pool of customer or school owned vehicles. This is the capstone course building on the skills, knowledge and abilities learned through successful completion of AM 151 and AM 141. Prerequisite: CG 209. Audit available.

AM 151. Brakes. 4 Credits.
Introduces principles of automotive braking systems. Includes disassembling and reassembling brake system components using school owned equipment. Includes proper measuring and machining of brake drums and discs. Prerequisite: CG 209. Audit available.

AM 161. Electrical Systems I. 4 Credits.
Introduces electrical theory, schematic symbols, battery and starter theory, operation, diagnosis and repair. Covers proper repair procedures, component identification and service procedures performed on school owned vehicles and components. Audit available.

AM 162. Electrical Systems II. 4 Credits.
Covers reading schematics, starting and charging system theory, operation, diagnosis and repair. Includes proper repair procedures, component identification and service procedures performed on school owned vehicles and components. Audit available.

AM 163. Advanced Electrical/Electronic Systems. 4 Credits.
Introduces customer work on approved automobiles including diagnosis of electrical problems, reading of schematics, use of test equipment, satisfactory completion of wire connections, testing, repair, and/or replacement of electrical units. This is the capstone course building on the skills, knowledge and abilities learned through successful completion of AM 161 and AM 162. Prerequisite: CG 209. Audit available.

AM 171. Heating & Air Conditioning Systems. 4 Credits.
Introduces theory, operation and repair of automotive heating and air conditioning systems. Includes the testing and repair of HVAC control systems on approved customer automobiles. This is the capstone course building on the skills, knowledge and abilities learned through successful completion of AM 163. Prerequisite: CG 209. Audit available.

AM 181. Engine Performance I. 4 Credits.
Introduces the use of automotive scan tools, lab scopes and electronic test equipment. Covers the operation and testing of electronic ignition systems including EI, DI and related components. Prerequisite: CG 209. Audit available.

AM 182. Engine Performance II. 4 Credits.
Introduces the causes of air pollution and climate change, the use of the five gas analyzer, catalytic converters, crankcase ventilation systems, evaporative control systems and federal and state emission control laws. Prerequisite: CG 209. Audit available.

AM 183. Engine Performance III. 4 Credits.
Introduces the operation, service and testing of fuel management systems, on board diagnostics and idle control systems. Includes diagnostic of failed fuel management systems. Prerequisite: CG 209. Audit available.

AM 201. Auto Shop Lab I. 1-4 Credits.
Emphasizes advanced engine performance theory and practice. Includes automotive service work in a live shop setting. This is a capstone course and the first course in a three-course sequence. Prerequisite: CG 209. Audit available.

AM 202. Auto Shop Lab II. 4 Credits.
Emphasizes advanced engine performance theory and practice. Includes automotive service work in a live shop setting. This is a capstone course and the second course in a three-course sequence. Prerequisite: CG 209. Audit available.

AM 203. Auto Shop Lab III. 4 Credits.
Emphasizes advanced engine performance theory and practice. Includes automotive service work in a live shop setting. This is a capstone course and the third course in a three-course sequence. Prerequisite: CG 209. Audit available.

AM 280A. Cooperative Education: Automotive Service. 1-12 Credit.
Includes automotive service work in a live shop setting performing diagnostic and repair work supervised by on site professionals and program instructor(s). Emphasizes independent learning and workplace skills with limited instruction. Requires work mastered at an automotive repair facility. May be taken three times for credit. Prerequisites: CG 209 and Department permission required.

AVIATION MAINTENANCE TECH

AMT 101. Introduction to Aviation Maintenance Technology. 1 Credit.
Covers aviation maintenance technology careers, including program admission and completion requirements, continuing training and certification requirements, general industry safety standards, and career opportunities within the aviation maintenance industry. This course is a prerequisite for all other AMT courses.
AMT 102. Aircraft Electricity I. 4 Credits.
Includes basic electrical theory, interpretation of electrical schematics, principles of component operation, and alternating current theory. Prerequisites: AMT 101, placement into RD 90 and WR 90 or higher and (completion of MTH 60 at PCC or the AMT Department Math test with a 70% or higher). Audit available.

AMT 105. Aviation CFRs and Related Subjects. 4 Credits.
Examines the many methods used to move air and fuel into and through an AMT 106 and AMT 107. Audit available.

AMT 106. Aircraft Applied Science. 4 Credits.
Covers aircraft weight and balance procedures and associated record keeping. Also covers aircraft drawings, precision measuring tools and some basic principles of physics. Prerequisites: AMT 101, placement into RD 90 and WR 90 or higher and (completion of MTH 60 at PCC or the AMT Department Math test with a 70% or higher). Audit available.

AMT 107. Materials & Processes. 4 Credits.
Examines structural designs and methods of inspecting the aircraft to assure continued operation in the "as engineered" configuration. Emphasizes the interpretation of airworthiness directives, service bulletins and other maintenance documents. Covers technical writing skills required to complete FAA forms and records. Prerequisites: AMT 102, AMT 203, AMT 204, AMT 105, AMT 106, AMT 107, and MTH 60 or AMT Department Math test with a 70% or higher. Audit available.

AMT 108. AMT Practicum/General. 2 Credits.
Provides further development of students' skills through practical application before graduation from the FAA-approved Airframe or Powerplant curriculum. This course is used as a comprehensive tool to evaluate student strengths and weaknesses. Prerequisites: AMT 102, AMT 203, AMT 204, AMT 105, AMT 106, AMT 107, and MTH 60 or AMT Department Math test with a 70% or higher. Audit available.

AMT 109. Assembly & Rigging. 4 Credits.
Covers methods of assembly and rigging commonly used in preparing both fixed and rotary wing aircraft for a safe test flight. Includes analysis of test flight reports and recommended rigging corrections necessary to produce a safe and efficient aircraft. Prerequisites: AMT 102, AMT 203, AMT 204, AMT 105, AMT 106, AMT 107. Audit available.

AMT 110. Aircraft Structures & Inspection. 4 Credits.
Examines structural designs and methods of inspecting the aircraft to assure continued operation in the "as engineered" configuration. Emphasizes the interpretation of airworthiness directives, service bulletins and other maintenance documents. Covers technical writing skills required to complete FAA forms and records. Prerequisites: AMT 102, AMT 203, AMT 204, AMT 105, AMT 106, and AMT 107. Audit available.

AMT 115. Reciprocating Engine Theory & Maintenance. 4 Credits.
Covers aircraft reciprocating engine theory and various maintenance procedures and techniques. Includes the use of manufacturer's publications. Prerequisites: AMT 102, AMT 203, AMT 204, AMT 105, AMT 106, and AMT 107. Audit available.

AMT 120. Propellers and Engine Installation. 4 Credits.
Examines propeller theory and repair within limitations imposed by FAA Regulation Part 65, plus control and auxiliary systems, such as anti-ice and synchronization. Explores unducted fan systems and engine removal and installation. Prerequisites: AMT 102, AMT 203, AMT 204, AMT 105, AMT 106, and AMT 107. Audit available.

AMT 121. Turbine Engine Theory and Maintenance. 4 Credits.
Examines general theory for all turbine engines. Includes maintenance inspection, checking, servicing and repairing turbine engines and turbine engine installations. Prerequisites: AMT 102, AMT 203, AMT 204, AMT 105, AMT 106, and AMT 107. Audit available.

AMT 123. Ignition Systems. 4 Credits.
Covers reciprocating and turbine engine ignition system theories and overhaul practices, as well as the relationships of the complete ignition system to the powerplant and its operation. Prerequisites: AMT 102, AMT 203, AMT 204, AMT 105, AMT 106, and AMT 107. Audit available.

AMT 124. Fuel Metering Systems. 4 Credits.
Examines the many methods used to move air and fuel into and through an engine in a ratio producing safe and efficient engine operation under widely varying conditions. Prerequisites: AMT 102, AMT 203, AMT 204, AMT 105, AMT 106 and AMT 107.Audit available.

AMT 203. Aircraft Electricity II. 4 Credits.
Examines the many methods used to move air and fuel into and through an engine in a ratio producing safe and efficient engine operation under widely varying conditions. Prerequisites: AMT 102, AMT 203, AMT 204, AMT 105, AMT 106 and AMT 107. Audit available.

AMT 204. Airplane Electricity Ill. 4 Credits.
Covers airplane/engine electrical components; inspection, check, service and repair of alternating and direct current electrical systems; the application of electrical principles used in sensing, indicating and control of airplane and powerplant systems. Prerequisites: AMT 101, placement into RD 90 and WR 90 or higher and (completion of MTH 60 at PCC or the AMT Department Math test with a 70% or higher). Audit available.
AVIATION SCIENCE

AVS 107A. Flight Preparation Lab - Private Airplane. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-125, Airplane Private Flight. Includes guided study and testing of Private Pilot knowledge areas in a collegial learning environment with other Aviation Science students of all levels. Explores current operational/safety issues related to flight training. Corequisite: AVS 125.

AVS 107B. Flight Preparation Lab - Instrument Airplane. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-135, Airplane Instrument Flight. Includes guided study and testing of Airplane Instrument Pilot knowledge areas in a collegial learning environment with other Aviation Science students of all levels. Explores current flight operation/safety issues. Corequisite: AVS 135.

AVS 107C. Flight Preparation Lab - Airplane Intro to Commercial. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-145, Airplane Intro to Commercial Flight. Includes guided study and testing of Airplane Commercial Pilot knowledge areas in a collegial learning environment with other Aviation Science students of all levels. Explores current operational/safety issues related to flight training. Corequisite: AVS 145.

AVS 108A. Flight Preparation Lab - Private Helicopter. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-156, Helicopter Basic Commercial w/Instrument. Includes guided study and testing of Private Pilot knowledge areas in a collegial learning environment with other Aviation Science students of all levels. Explores current operational/safety issues related to flight training are also discussed. Corequisite: AVS 115.

AVS 108B. Flight Preparation Lab - Helicopter Basic Comm Instrument. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-156, Helicopter Basic Commercial w/Instrument. Includes guided study and testing of Commercial cross-country and Instrument rating knowledge areas in a collegial learning environment with other Aviation Science students of all levels. Explores current operational/safety issues related to flight training are also discussed. Corequisite: AVS 156.

AVS 115. Helicopter Private Pilot Flight. 5 Credits.
Covers the operation of helicopters. Explores fundamentals of flight, emergency procedures, air traffic control and operational procedures. Provides the flight and ground instruction required to qualify to take the FAA Private Pilot Helicopter knowledge and practical tests. Flight training fees apply and cover a specific amount of training. Additional funds may be required. Corequisite: AVS 108A. Prerequisite/concurrent: AVS 127. Prerequisites: Placement into MTH 65 and WR 121.

AVS 125. Airplane: Private Pilot Flight. 5 Credits.
Covers operation of single-engine airplanes as it applies to FAA certified Private Pilot operations. Explores fundamentals of flight, air traffic control, operational procedures, and aeronautical decision making. Provides the required ground and flight instruction and experience in preparation for FAA knowledge and practical tests. Flight training fees cover a specific amount of training; additional fees may be required. Prerequisites: Placement into MTH 65 and WR 121 or higher. Prerequisite/concurrent: AVS 127. Corequisite: AVS 107A.

AVS 127. Introduction to Aviation. 4 Credits.
Examines the aviation industry from early flight to future potentials. Introduces the career opportunities in a variety of fields of aviation, with focus on professional airplane or helicopter pilot careers, Provides a general overview of pilot flight training including certificates, ratings and training aircraft used. Open to the general public. Audit available.

AVS 135. Airplane: Instrument Flight. 4 Credits.
Covers training in instrument flight operations. Includes basic attitude instrument skills, radio navigation, departure and approach procedures and instrument cross-country planning and flying. Provides required flight and ground instruction in preparation for the FAA Instrument Rating – Airplane knowledge and practical tests. Flight training fees apply and cover a specific amount of training; additional fees may be required. Prerequisite: AVS 125. Corequisite: AVS 107B.

AVS 137. Applied Aerodynamics. 4 Credits.
Introduces aerodynamics. Explores various concepts and theories relevant to modern aviation. Audit available.

AVS 145. Introduction to Commercial Airplane. 4 Credits.
Covers beginning commercial pilot training activities. Includes cross-country flight operations and a review of previous items learned during private and instrument pilot training. Explores how to plan and execute a cross-country flight as a commercial pilot. Provides ground training required to take the FAA Commercial Airplane knowledge test. Flight training fees apply and cover a specific amount of training; additional funds may be required. Prerequisite: AVS 125. Corequisite: AVS 107C.

AVS 156. Helicopter Basic Commercial w/Instrument. 5 Credits.
Introduces some commercial pilot training activities and training for the instrument rating. Includes cross-country flight procedures, emergency procedures, and procedures for flight by reference to instruments as well as training in basic commercial maneuvers. Flight training fees apply and cover a specific amount of training; please see the Course Curriculum and Outcome Guide for detailed information. Prerequisite: AVS 115. Corequisite: AVS 108B.

AVS 157. Aircraft Systems & Structures I: Airframe. 3 Credits.
Designed to give students the background in aircraft systems and structures, with an emphasis on airframe components, that will enable them to progress into more advanced aircraft. Provides understanding of the safe and efficient operation of aircraft systems. Prior flight experience recommended. Audit available.

AVS 167. Aircraft Systems: Powerplant. 3 Credits.
Designed to give students the background in aircraft systems and structures, with an emphasis on powerplant components, that will enable them to progress into more advanced aircraft. Provides understanding of the safe and efficient operation of aircraft systems. Prior flight experience recommended. Audit available.

AVS 177. Pilot Human Factors and Safety Management. 4 Credits.

AVS 207A. Flight Preparation Lab - Airplane Advanced Commercial. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-225, Airplane Commercial Flight. Includes guided study and testing of Airplane Commercial Single- and Multi-engine Pilot knowledge areas in a collegial learning environment with other Aviation Science students of all levels. Explores current operational/safety issues related to flight training. Corequisite: AVS 225.

AVS 207B. Flight Preparation Lab - Airplane Multi-Engine Instructor. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-236, Airplane Multi-engine (MEI) Instructor. Includes guided study and testing of initial Multi-engine Flight Instructor knowledge areas in a collegial learning environment with other Aviation Science students of all levels. Explores current operational/safety issues related to flight training. Corequisite: AVS 236.

AVS 207C. Flight Preparation Lab - Airplane Instructor CFII/SEL. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-243 Airplane Single-engine Ground/Flight and AVS-244 Airplane CFII Ground/Flight. Includes guided study and testing of the Flight Instructor SEL add-on and CFII add-on knowledge areas in a collegial learning environment with other Aviation Science students of all levels. Explores current operational/safety issues related to flight training. Prerequisite/concurrent: AVS 243 and AVS 244.

AVS 207D. Flight Preparation Lab - Airplane Professional Pilot. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-275, Airplane Professional Pilot. Includes guided study and testing of advanced commercial cross-country knowledge areas in a collegial learning environment with other Aviation Science students of all levels. Explores current operational/safety issues related to flight training. Corequisite: AVS 275.

AVS 208A. Flight Preparation Lab - Helicopter Advanced Commercial. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-216, Helicopter Advanced Commercial Flight. Includes guided study and testing of Commercial Pilot knowledge in a collegial learning environment with other Aviation Science students of all levels. Explores current operational/safety issues related to flight training. Corequisite: AVS 216.
AVS 208B. Flight Preparation Lab - Helicopter Flight Instructor. 1 Credit.
Provides an opportunity for flight lesson preparation, study, and testing of knowledge that is directly related to AVS-265. Prerequisites: AVS 125 or AVS 208C. Corequisites: AVS 216.

AVS 208C. Flight Preparation Lab - Helicopter Instructor. 1 Credit.
Provides an opportunity for flight lesson preparation, study and testing of knowledge that is directly related to AVS-265. Prerequisites: AVS 145 or AVS 156.

AVS 216. Helicopter Advanced Commercial. 5 Credits.
Continues commercial pilot rotorcraft helicopter training activities. Includes complex flight operations, engine operations, and performance maneuvers. Prerequisites: AVS 207C.

AVS 217. Aviation Weather Services. 4 Credits.
Provides detailed exposure to, and practice with, aviation weather products that are used to make pre-flight and in-flight decisions, including forecasts, observations, maps and charts. Prerequisites: AVS 127 and GS 109. Audit available.

AVS 225. Airplane: Commercial Flight. 4 Credits.
Concludes commercial pilot training activities. Includes complex flight operations, multi-engine operations, advanced systems and performance maneuvers. Prerequisites: AVS 236. Prerequisite/concurrent: AVS 208C.

AVS 227. Aviation Careers. 4 Credits.
Concludes commercial pilot training activities. Includes complex flight operations, multi-engine operations, advanced systems and performance maneuvers. Prerequisites: AVS 236. Prerequisite/concurrent: AVS 208C.

AVS 236. Airplane: MEI Flight. 3 Credits.
Explores how to present, explain, demonstrate, and assess flight-related skills and knowledge related to all levels of airplane multi-engine training, including flight training fees apply and cover a specific amount of training; please see the Course Curriculum and Outcome Guide for detailed information. Prerequisites: AVS 145. Corequisites: AVS 207A.

AVS 237. Aviation Law and Regulations. 4 Credits.
Explores the applicable Federal Aviation Regulations through case law and current events. The FAA's role in the development and regulation of the industry is examined. Covers how to reference, interpret and explain aviation law and regulations. Audit available.

Covers subjects areas for a single-engine land (SEL) airplane additional rating on a Flight Instructor certificate. Covers the aeronautical knowledge necessary to apply for the FAA Flight Instructor - SEL (additional rating) practical test. Flight training fees apply and cover a specific amount of training; Additional funds may be required. Prerequisites: AVS 236. Prerequisite/concurrent: AVS 207C.

AVS 244. Airplane CFI Ground/Flight. 2 Credits.
Covers subjects areas for an instrument airplane rating on a flight instructor certificate. Presents sufficient information to prepare for the Certified Flight Instructor - Instrument Knowledge test. Includes preparation to obtain the aeronautical knowledge necessary to apply for the FAA Flight Instructor - Instrument practical test. Flight training fees apply and cover a specific amount of training; please see the Course Curriculum and Outcome Guide for detailed information. Prerequisites: AVS 236. Prerequisite/concurrent: AVS 207C.

AVS 255. Multi-Crew Operations. 1 Credit.
Designed to expose students to cockpit resource management and issues related to multi-crew environments. Focuses on workload management and checklist usage. Prerequisites: AVS 145 or AVS 156.

AVS 265. Helicopter: CFI Flight. 3 Credits.
Provides the opportunity to present, explain, demonstrate, and assess flight-related skills and knowledge related to all levels of helicopter training, while flying from the Instructor's seat. Provides training required to prepare for the initial FAA Certified Flight Instructor knowledge and practical tests, and the FAA Fundamentals of Instruction knowledge test. Flight training fees apply and cover a specific amount of training. Additional funding may be required. Prerequisites: AVS 216. Corequisites: AVS 208B.

AVS 266. Helicopter CFI Flight. 1 Credit.
Covers subject areas required to add an Instrument Helicopter rating to a Flight Instructor certificate. Presents sufficient information to prepare for the Certified Flight Instructor - Instrument knowledge test. Includes preparation to obtain the aeronautical skill and knowledge necessary to apply for the FAA Flight Instructor - Instrument practical test. Flight training fees apply and cover a specific amount of training; please see the Course Curriculum and Outcome Guide for detailed information. Prerequisites: AVS 216. Corequisites: AVS 208C.

AVS 267. Economics of Flight Operations. 4 Credits.
Examines management philosophies and accounting procedures as they apply to general aviation. Includes business aspects of maintaining and flying aircraft, operating airport facilities, and managing passenger/cargo activities. Guest speakers from the industry may be featured. Audit available.

AVS 275. Airplane: Professional Pilot. 3 Credits.
Provides further post-commercial instruction and pilot-in-command flight time in single- and multi-engine aircraft for those not selecting the flight instructor option. Flight training fees apply and cover a specific amount of training. Please see the Course Curriculum and Outcome Guide for detailed information. Prerequisites: AVS 225, Corequisites: AVS 207D.

BI 55. Human Biology. 4 Credits.
Surveys human body systems. Exercises include the identification of structural components of the body as well as investigations in physiology. Designed for students in the Medical Assisting and Ophthalmic Medical Technology programs. Prerequisites: Good command of the English language and Placement into RD 90. Audit available.

BI 101. Biology. 4 Credits.
Introduces the properties of life, morphology and physiology of cells, cell chemistry, energy transformation, and the basic principles of ecology. Designed as a laboratory science course for non-biology majors. Prerequisites: Placement into RD 90. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS.

BI 101H. Biology: Honors. 4 Credits.
An honors laboratory science course designed for non-biology majors. Introduces the properties of life, morphology and physiology of cells, cell chemistry, energy transformation, and the basic principles of ecology. Designed as a laboratory science course for non-biology majors. Prerequisites: Placement into RD 90. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS.

BI 102. Biology. 4 Credits.
Introduces the properties of life, morphology and physiology of cells, cell chemistry, energy transformation, and the basic principles of ecology. Designed as a laboratory science course for non-biology majors. The second course of a three-course sequence. Prerequisites: Placement into RD 90. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS.

BI 103. Biology. 4 Credits.
Introduces the properties of life, morphology and physiology of cells, cell chemistry, energy transformation, and the basic principles of ecology. Designed as a laboratory science course for non-biology majors. The second course of a three-course sequence. Prerequisites: Placement into RD 90. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.
BI 112. Cell Biology for Health Occupations. 5 Credits.
Includes the study of the scientific method, cellular chemistry, cell structure and function, principles of inheritance, and laboratory skills. Includes topics and skills required to continue to Anatomy & Physiology and Microbiology. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 65 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS.

BI 121. Introduction to Human Anatomy & Physiology I. 4 Credits.
Surveys anatomical terminology, basic chemistry, cell structure and function, tissues, and the following systems: integumentary, skeletal, muscular, and nervous. Involves lecture, discussions, dissections, microscopy, and multimedia. Prerequisite: Placement into WR 121 and (MTH 58 or MTH 60 or any math course for which either is a prerequisite). Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AAOT.

BI 122. Introduction to Human Anatomy & Physiology II. 4 Credits.
Surveys the endocrine, lymphatic, cardiovascular, digestive, respiratory, reproductive and urinary systems with some coverage of human development, human genetics, and immunology. Includes lectures, discussions and laboratories. Prerequisite: BI 121. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AAOT.

BI 141. Habitats: Life of the Forest. 4 Credits.
Examines structure and function of Oregon forest ecosystems. Covers distribution and interactions of plants, animals, microorganisms, climate and basic geology. Laboratory emphasizes identification and environmental testing. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.

BI 142. Habitats: Marine Biology. 4 Credits.
Examines marine environment and the ecology, physiology, and morphology of marine plants and animals, emphasizing Oregon. Laboratory focuses on identification and environmental testing. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.

BI 143. Habits: Freshwater Biology. 4 Credits.
Covers environments of freshwater streams, lakes, and marshes. Includes effects of physical, chemical and biological factors on organisms, along with the organisms, their biological interactions and nutrient cycles. Explores ecological factors of freshwater environments and the effects of human activities on them. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS.

BI 145. Intro. to Fish and Wildlife Conservation and Management. 4 Credits.
Develops an understanding of ecological principles, biodiversity, the importance of habitat, legal and social aspects of wildlife conservation and management, human impacts on natural systems, and conservation theory. Includes fieldwork. Recommended: BI 101 or equivalent. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AGS.

BI 160. Ecology/Field Biology: Coast. 2 Credits.
Field trip experience designed to introduce the relationships among plants, animals and area of study within biology under the sponsorship and guidance of a biology faculty member. Prerequisite: Instructor permission. Audit available.

BI 161. Ecology/Field Bio: Great Basin. 2 Credits.
Introduces the relationships among plants, animals and the general geological formations of various life zones for the Great Basin and/or Cascade geographical areas through a field trip experience. Audit available.

BI 163. Organic Gardening. 4 Credits.
Introduces the structure and function of soils including the soil food web, composting and compost tea, and the basics of biogeochemical cycling. Explores basic plant anatomy and the growing of flowers, vegetables and fruits in the Pacific Northwest. Includes discussion of organic pest control, beneficial insects, and pruning and grafting and exploration of these concepts in laboratory. An interest in plants and a basic high school biology course are recommended. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AAOT.

BI 164. Bird ID and Ecology. 4 Credits.
Introduces the biology of birds of the Pacific Northwest. Emphasizes learning bird identification in the field by sight and sounds. Covers the study of avian ecology, natural history and behavior. Introduces field techniques for identifying and studying birds. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AAOT.

BI 198. Independent Study - Biology. 1-4 Credit.
Provides an opportunity for students to work independently on an individualized area of study within biology under the sponsorship and guidance of a biology faculty member. Prerequisite: Instructor permission. Audit available.

BI 200A. Principles of Ecology: Field Ecology. 2 Credits.
Introduction to concepts of ecology. Includes lecture component covering the concepts of ecology and diversity of life and a field component surveying plants, animals, or other kingdoms, and interactions with their environment. May involve national or international travel. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BI 200B. Principles of Ecology: Field Biology. 4 Credits.
Introduces concepts of ecology. Includes lecture component covering the concepts of ecology and diversity of life and a field component surveying plants, animals, or other kingdoms, and interactions with their environment. May involve national or international travel. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AAOT.

BI 200C. Principles of Ecology: Field Biology. 6 Credits.
Introduction to concepts of ecology. Includes lecture component covering the concepts of ecology and diversity of life and a field component surveying plants, animals, or other kingdoms, and interactions with their environment. May involve national or international travel. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BI 202. Botany: An Introduction to the Plant Kingdom. 4 Credits.
A laboratory science course designed to have students develop knowledge about plant anatomy, physiology, how humans interact with plants, and particularly taxonomy with an evolutionary focus. Areas covered include mosses, ferns, conifers, and flowering plants. Recommended for students interested in agriculture, horticulture, ethnobotany, and general botany. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.

BI 211. Principles of Biology. 5 Credits.
Includes introduction to science, biochemistry, metabolism, the cell, molecular biology, and reproduction. The first course of a three-semester sequence for students majoring in biology or related sciences, including premedical, pre-dental, chiropractic, pharmacy, and related fields. Recommended: High school biology and chemistry within the past seven years. Prerequisites: (WR 115 and RD 115) or IRW 115 or MTH 65 or higher. Prerequisite/Concurrent: CHM 151 or higher or pass the Chemistry 151 competency exam or instructor permission. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.
BI 212. Principles of Biology. 5 Credits.
Includes inherited, the genetic code, modern and classical genetics, evolution, diversity, and systematics. May include some dissection of plants and animals. The second course in a three-course sequence for students majoring in biology and the sciences, including pre-medical, pre-dental, chiropractic, pharmacy, and related fields. Prerequisite: BI 211 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS.

BI 213. Principles of Biology. 5 Credits.
Includes plant and animal anatomy and physiology, and individual, population, community and ecosystem ecology. The third course of a three-course sequence for students majoring in biology and the sciences, including pre-medical, pre-dental, chiropractic, pharmacy, and related fields. Prerequisite: BI 212 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS.

BI 221. Human Anatomy & Physiology I. 4 Credits.
Introduces basic anatomical and physiological terms, tissues, the integumentary, skeletal, muscular and nervous systems including nervous histology, physiology, spinal cord and nerves. Includes lecture discussions complemented by laboratories involving microscopy, animal dissection, physiological exercises and computer based exercises. This is the first course in a three-course sequence. Prerequisite: BI 231. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS.

BI 222. Human Genetics. 3 Credits.
Presents the fundamentals of human genetics. Includes physical basis of inheritance, mendelism, sex-linked inheritance, sex determination, autosomal abnormalities, autosomal anomalies, genetic structure and function, molecular genetics, behavioral genetics, twinning and contemporary issues in human genetics. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and BI 211 and BI 212. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS.

BI 231. Human Anatomy & Physiology I. 4 Credits.
Continues the study of the nervous system, including brain, cranial nerves, and autonomic nervous system. Introduces the endocrine, cardiovascular and immune systems. Includes lecture discussions complemented by laboratories involving microscopy, animal dissection, physiological exercises and computer based exercises. This is the second course in a three-course sequence. Prerequisite: BI 231 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

BI 232. Human Anatomy & Physiology II. 4 Credits.
Continues the study of the nervous system, including brain, cranial nerves, and autonomic nervous system. Introduces the endocrine, cardiovascular and immune systems. Includes lecture discussions complemented by laboratories involving microscopy, animal dissection, physiological exercises and computer based exercises. This is the second course in a three-course sequence. Prerequisite: BI 231 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

BI 233. Human Anatomy & Physiology III. 4 Credits.
Introduces the respiratory, digestive, urinary and reproductive systems, metabolism and fluid and electrolyte balances, embryology and genetics. Includes lecture discussions complemented by laboratories involving microscopy, animal dissection, physiological exercises and computer based exercises. Concludes a three-course sequence. Prerequisite: BI 232. Auditor available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS.

BI 234. Microbiology. 5 Credits.
Lecture, recitation, and laboratory cover: bacterial identification, morphology, metabolism and genetics; bacterial, viral, and parasitic relationships with human health and disease; and basic immunology. Laboratory stresses aseptic technique, bacterial identification and physiology using a variety of media, cultivating techniques, and staining techniques. Recommended BI 231. Prerequisites: BI 211 or (BI 211 and BI 212) and their prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AGS.
BIT 161. Exploring Bioscience. 3 Credits.
Provides an overview and analysis of various Bioscience Technology work environments including research, development, and manufacturing. Covers career options, pathways, and development of skills that are needed for identification and procurement of entry level positions, education, and training opportunities in the bioscience field. Includes portfolio development and refinement of job search, resume writing and interview skills. Participation in field trips is essential. Prerequisite/concurrent: BIT 105, BIT 107, and BIT 109 or instructor permission. Recommended: completion or concurrent enrollment in BIT 125.

BIT 201. Immunological Methods. 5 Credits.
Introduces the general properties and uses of antibody molecules. Includes an overview immune response, biosynthesis of immunoglobulin, obtaining, purifying and labeling antibodies, and using antibodies in a variety of common applications (ELISA, Western blot, immunoprecipitation and immunocytochemistry, antibody-based affinity chromatography). Prerequisite: BIT 106 or BIT 112 or CH 100 or higher; or instructor permission.

BIT 203. Recombinant DNA. 5 Credits.
Laboratory-intensive course focusing on the strategies and techniques used in recombinant DNA work. Covers vector and insert options and preparation, quantitation of DNA, ligation and transformation procedures, and analysis by restriction digest, blot hybridization and PCR. Prerequisites: BIT 109 or BIT 110; and any of the following: BIT 101, BI 102, BI 112, BI 212 or BI 234, or instructor permission.

BIT 205. Bioseparations. 5 Credits.
Introduction of commonly used methods for separation of biological molecules for both analytical and preparative applications. This laboratory-intensive course will cover the principles of and practice in filtration, differential precipitation, and electrophoretic and chromatographic techniques. Prerequisite: BIT 109 or BIT 110; and any of the following: BIT 155, BI 112, CH 100 or higher; or instructor permission.

BIT 207. Cell Culture. 5 Credits.
Introduces the practice and process of culturing animal cells and cell lines in a laboratory. Focuses on routine maintenance and record-keeping, including media preparation, cryopreservation, and troubleshooting common culture problems. Prerequisite/concurrent: BIT 109 or instructor permission.

BIT 215. Protein Purification. 5 Credits.
Application of commonly used methods for separation of biological molecules in multi-step protein purifications. This laboratory intensive course will focus on issues of recovery and yield, step-by-step analysis and troubleshooting, as well as documentation and reporting procedures and results. Prerequisite: BIT 205 or instructor permission.

BIT 223. Advanced DNA Techniques. 5 Credits.
Laboratory-intensive course focusing on the theory and practice of techniques for analysis and manipulation of nucleic acids. Topics include construction and use of plasmid and phage libraries, DNA sequence determination and analysis, bioinformatics, and applications of PCR. Prerequisites: BIT 203 or instructor permission.

BIT 280A. Work Experience. 1-8 Credit.
Students work in a biotechnology laboratory, supervised by professionals on site and by program instructor(s). Department permission required.

BIT 280B. Work Experience - Seminar. 1 Credit.
Provides opportunities to share work experiences and receive feedback from students and mentors. Corequisite: BIT 280A. Prerequisites: Department permission required.

BUILDING CONSTRUCTION TECH

BCT 100. Overview to the Construction Industry. 3 Credits.
Introduces construction industry practices in a domestic and national context. Explores the roles and responsibilities of those involved in construction projects from inception to completion. Introduces the various phases of construction including planning, design, documentation, bidding, permitting, pre-construction, supervision, and close-out. Presents the role of planning, scheduling, project organization, and communication in successful project management. Audit available.

BCT 102. Residential Printreading. 3 Credits.
Covers a collaborative learning framework for the development of print reading skills related to residential building construction. Includes analyzing, interpreting, and measuring plans for relevant construction information. Covers work limited to residential prints. Audit available.

BCT 103. Residential Materials and Methods. 3 Credits.
Introduces function and performance characteristics of basic building materials, components, methods, and sequences in the construction process. Emphasizes residential construction. Audit available.

BCT 104. Construction Math. 3 Credits.
Provides a framework for learners to use mathematical concepts and principles to building construction situations problems through collaborative learning. Learners will also develop, articulate and document their own problem solving strategies. Exploration of construction problems will be limited to light framing, concrete, finish carpentry and cabinetmaking. Prerequisite: Placement into MTH 20 or department approval. Audit available.

BCT 105. CAD for Constructors I. 3 Credits.
Introduces Computer Aided Design (CAD) based software. Develops skills and vocabulary necessary to generate construction drawings, and modify existing drawings. Suitable for both Mac and Windows operating systems. Recommended: Blueprint reading and basic computer skills. Audit available.

BCT 106. Hand Tool/Power Tool Use and Safety. 3 Credits.
Develops understanding of the hand tools and power tools used in the construction trades. Identifies commonly used hand/power tools, selecting the correct tool to complete assigned projects and working in a safe and competent manner. Emphasizes safety and care of tools. Audit available.

BCT 108. Introduction to Building Science - Energy Efficient Housing. 3 Credits.
Introduces students to the basic principles of building science in residential construction and the dynamic relationship between construction practices, material choices, physics and building operation. Critical topics include: energy and moisture transport in buildings, understanding building enclosures, comfort, building tightness and ventilation. Audit available.

BCT 115. Introduction to Residential Greenbuilding. 1 Credit.
Provides a basic understanding of local residential greenbuilding design and installation. Covers greenroof benefits, best practices, material selections, and appropriate plantings; includes hands-on installation. Audit available.

BCT 116. Alternative Building Design. 3 Credits.
This course introduces students to natural green building principles used in the design and construction of alternative buildings such as straw bale, cobb and rammed earth. Student team will develop designs by constructing scaled models, and will then prepare and deliver presentations that defend and promote their designs. Audit available.

BCT 117. Graphic Communications for Contractors. 1 Credit.
Introduces the fundamentals of three dimensional drawing as a communication tool used in the construction process. Introduces graphic tools including freehand sketching, diagramming, axonometric and perspective drawing. Covers appropriate use of these tools for conveying information between various professionals engaged in the construction process. Prerequisite: ARCH 110 or department approval. Audit available.

BCT 118. Introduction to Space Planning and Design. 2 Credits.
Introduces elements and principles of color and design as they apply to functional and aesthetic space planning for kitchens, baths and storage areas of a house. Includes basic presentation skills and processes to incorporate design ideas, floor plans and materials presentation boards. Prerequisite/concurrent: ARCH 110. Audit available.

BCT 120. Floor Framing. 3 Credits.
Covers basic floor framing systems and principles used in residential construction. Includes floor systems installed on foundations using current building construction methods. Includes floor leveling, sill plate installation, floor framing material identification, joist and beam lay-out, quantity take offs, estimating and related codes. Prerequisites: BIT 106 or instructor permission. Audit available.

BCT 121. Wall Framing. 3 Credits.
Covers wood wall framing methods and principles currently used in residential construction. Includes wall layout and assembly of studs, corners, partitions and openings. Includes calculating material quantities, related codes, structural sheathing, interior wall bracing, bay framing, window box framing, framing arched openings and star framing construction. Prerequisite: BIT 108 or instructor permission. Audit available.

BCT 122. Roof Framing I. 3 Credits.
Covers basic roof rafter framing methods currently used in residential construction. Includes calculations used to solve rafter lengths for various roof slopes and spans. Covers rafter nomenclature, layout assembly methods, related codes, material quantity, ceiling joist, collar ties. Includes gable roof, gambrel roof and hip roof framing. Prerequisites: BIT 104 and 106, or instructor permission. Audit available.

BCT 123. Roof Framing II. 3 Credits.
Introduces roof framing Continuing from BCT 122. Covers the calculations necessary to lay out, cut and apply the more advanced roofs. Includes intersecting equal pitch valley roofs, eave returns, roof sheathing and bay roof framing. Covers roof truss theory. Audit available.
BCT 127. Residential Concrete. 6 Credits.
Covers residential concrete construction, including layout, footings, foundation walls, slabs, stairs, and the handling and curing of concrete. Explores and use different forming methods and materials to erect a concrete foundation. Prerequisite: BCT 106 or instructor permission. Audit available.

BCT 128. Exterior Finish. 6 Credits.
Covers installation of various exterior siding products, material quantity calculations and labor costs. Includes installation of cedar bevel, cement composite horizontal lap, cedar shingles, fancy cut shingles and cultured stone. Covers ceiling soffits, door, window and corner trims. Introduces roofing including composition, cedar shake and shingle roofing. Covers roof flashings, vents, drip caps and valleys. Prerequisites: BCT 106 or instructor permission. Audit available.

BCT 129. Mechanical Planning for Kitchens and Baths. 4 Credits.
Covers electrical, plumbing, HVAC systems used in residential kitchens and baths. Students will become familiar with the code requirements and restrictions through the examination of remodeling case studies. Students will design general and task lighting systems for kitchens and baths. Audit available.

BCT 130. Construction Safety. 3 Credits.
Requirements for safety on the job site, Occupational Safety and Health Act and other related regulations and legislation, accident prevention and hazard identification and procedures. Audit available.

BCT 132. Computer Applications for Construction. 3 Credits.
Covers information generation, processing, distribution and utilization for the management of construction projects and construction companies. Emphasizes the design of the information process, the role of information technology in construction, software selection and the ongoing evaluation of the efficiency and effectiveness of the information process. Audit available.

BCT 133. Commercial Materials and Methods. 3 Credits.
Introduces function and performance characteristics of basic building materials, components, sequences and methods in the construction process. Emphasizes commercial construction. Audit available.

BCT 134. Construction Scheduling. 3 Credits.
Introduces methods used in planning and scheduling construction projects. Emphasizes the development and proper use of construction schedules, Critical path methods and resource and cost loading. Introduces MS Project computer scheduling software to build and monitor schedules. Recommended: Basic knowledge of Microsoft Windows. Prerequisite: BCT 104 or Instructor permission. Audit available.

BCT 135. Residential Building Codes. 2 Credits.
Introduces land use zoning and international Commercial building codes. Includes selected portions of the code. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BCT 136. Commercial Building Codes. 2 Credits.
Introduces land use zoning and international Commercial building codes. Includes selected portions of the code. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BCT 150. Mechanical, Electrical and Plumbing. 4 Credits.
Covers the principles and applications of mechanical, electrical, plumbing and related building systems used on commercial construction projects. Includes heating, ventilating, air conditioning, plumbing, fire protection, power, lighting, security and related distribution and control systems. Audit available.

BCT 202C. Business Principles for Construction. 3 Credits.
Explores the fundamental business principles and practices used in managing a residential construction company. Includes establishing objectives in marketing, operations and finance, and the relationship between those business activities and the planning and management methods for achieving objectives. Presents the general legal requirements, accounting and record keeping practices. Audit available.

BCT 202D. Business Principles for Design/Build. 3 Credits.
Explores the fundamental business principles and practices used in managing a residential design-build construction company. Includes establishing objectives in marketing, operations and finance, and the relationship between those business activities and the planning and management methods for achieving objectives. Presents the general legal requirements, accounting and record keeping practices. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BCT 203. Interior Finish. 6 Credits.
Drywall: Covers related codes, estimating materials and installation methods in residential drywall. Includes drywall products, tapes, corner beads, joint compounds, textures and patching. Finish Carpentry: Covers material trim installation, estimation of trim quantities and costs. Includes the appropriate miter cuts required and installation of base, casing, crown, wainscot panel molding. Includes interior door installation and window surrounds. Student may not receive credit for both BCT 203 and BCT 224 or BCT 226. Prerequisite: BCT 106 or instructor approval. Audit available.

BCT 204B. Construction Estimating - Residential. 3 Credits.
Introductory class in construction estimating concentrating on basic residential estimating techniques. Using plans for a light commercial building, students will learn how to organize and prepare estimates, quantity take-off and pricing, and fundamentals of bid assembly. Prerequisite: BCT 102 and BCT 104; or instructor permission Audit available.

BCT 204C. Construction Estimating - Commercial. 3 Credits.
Introductory class in construction estimating concentrating on basic commercial estimating techniques. Includes selected portions of the code. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Instructor approval. Audit available.

BCT 206. Sustainable Construction Practices. 3 Credits.
Introduces the environmental, economical, and human consequences resulting from conventional building practices and the need for sustainable design and construction. Audit available.

BCT 207. Construction Job Costing. 3 Credits.
Traces the construction dollar flow from time sheet to balance sheet. Emphasizing microcomputer methods, students are introduced to construction related financial documents: including “schedule of values”, labor and operations cost reports, and construction budgets. Concepts such as unit analysis, job costing, and development of historic costs, life cycle costing and change order analysis are explored. Audit available.

BCT 209. CAD for Constructors II. 3 Credits.
Explores and expands on the study of CAD based software. Covers file management, drawing tools and rendering methods used to create orthogonal project documents. Introduces software used in the construction industry for construction documents and active project management. Prerequisite: BCT 105 or instructor permission. Audit available.

BCT 211. Remodeling. 6 Credits.
Presents residential remodeling construction strategies and processes commonly encountered by remodelers. Covers obtaining building permits, as well as hands-on remodeling projects involving (but not limited to) framing, concrete, interior and exterior finish, and basic electrical, plumbing and mechanical ventilation. Prerequisites: BCT 102, BCT 104 and BCT 106 or instructor approval. Audit available.

BCT 213. Commercial Printreading. 3 Credits.
Covers typical commercial and civil construction plans and practices. Presents skills for print reading and applying knowledge to commercial construction projects. Prerequisite: BCT 102 or instructor permission based on industry experience in print reading. Audit available.

BCT 214. Advanced Construction Estimating. 3 Credits.
Advanced estimating for larger scale projects. Discussion of labor rates, specifications, budget estimating, assemble of bids bidding procedures, including use of computer estimating software. Prerequisite: BCT 204C or instructor permission. Audit available.

BCT 216. Cabinetry I. 2 Credits.
Focuses on materials, hardware and techniques used to build industry standard cabinetry. Covers productive uses and safe operation of hand and power tools as well as equipment and machinery used for the production of cabinetry. Generate shop drawing and subsequently machine, mill and assemble a cabinet complete with plastic laminate countertop. Audit available.

BCT 217. Cabinetry II. 2 Credits.
Covers more advanced forms of cabinet construction and joinery such as dovetail, box joints, dovetail joints and lock shoulders. Machining and assembly of the five piece door will be covered. An instructor designed cabinet project will supply the frame work for learning experience. Prerequisite: BCT 216 or BCT 219. Audit available.

BCT 218. Woodworking Projects. 2 Credits.
Designed for independent work on cabinet projects. Students are required to present shop drawings for instructor approval before beginning. Students must supply their own materials. Instructor will evaluate student knowledge of hand and power tool safety at first class meeting to determine whether skill level is appropriate for independent work. Audit available.
BCT 219. Cabinetmaking I. 5 Credits.

Learners will become familiar with the skills, materials, hardware and equipment necessary to produce industry standard cabinets. Students will learn and demonstrate the safe use of cabinetmaking hand and power tools. Students will draw shop drawings and estimate materials for cabinetmaking jobs. Learners will develop cabinetmaking skills by constructing instructor designed cabinet projects. Audit available.

BCT 221. Construction Law for the Contractor. 3 Credits.

Introduces basic principles of construction law used in managing construction contracts. Gain working knowledge of construction law principles through examination of case studies. Audit available.

BCT 222. Engineering for Constructors. 3 Credits.

Presents the fundamentals of analysis and design of structural systems used in buildings to students with limited technical training. Introduces basic contemporary structural systems in masonry, steel, concrete and wood. Covers determination of support forces, bending moments, shear, strengths, properties of materials, loads and dimensional properties. Prerequisites: BCT 104, 102 or instructor approval. Audit available.

BCT 223. Finished Stair Construction. 3 Credits.

Covers the material estimation and installation of both open and closed interior residential staircases. Includes newel posts, balustrades, handrails/guardrails, stair treads and tread caps. Emphasizes the methods used to construct finish stairs and relevant building codes. Prerequisites: BCT 106 or instructor permission. Audit available.

BCT 225. Construction Project Management. 3 Credits.

Introduces management concepts and techniques used on construction projects. Includes planning, scheduling, project organization, communications, cost control. Covers project/contract administration, and project close out. Audit available.

BCT 226. Finish Carpentry. 2 Credits.

Covers techniques and methods used to hang and install interior doors, install door hardware; measure, cut and install base trim, casing, crown moldings, wainscoting and various interior window trim treatments; and in plastic laminate countertop fabrication. Covers estimating techniques used to establish labor and material costs associated with finish carpentry. A student may not receive credit for both the BCT 223, 224 and 226 series and BCT 203. Audit available.

BCT 229. Introduction to Kitchens and Baths. 4 Credits.

Explores the history and trends of the kitchen and bath industry. Focuses on basic kitchen & bath layouts and specification of specialized equipment, materials and surfaces required for safe and functional kitchens & baths. Includes cabinet systems, appliances, equipment and surfacing materials. Prerequisite: ARCH 110 or instructor approval. Audit available.

BCT 244. Kitchen and Bath Cabinet Installation. 2 Credits.

Students will learn professional installation methods of kitchen and bath cabinetry. Room preparation, cabinet layout cabinet storage, cabinet and countertop installation, appliance installation, moldings will be covered. Customer relations and job site management techniques will be explored. Audit available.

BCT 280A. Cooperative Education: Building Construction. 1-12 Credit.

On-the-job training at a department-designated worksite, giving students experience in real work conditions and helping determine career choices. Department permission required.

BCT 280C. Cooperative Education BCT Design/Build Remodeling. 1-5 Credit.

On-the-job training at a department-designated worksite, giving students experience in real work conditions and helping determine career choices. Department permission required.

BUILDING INSPECTION TECH

INSP 126. Plan Review Software. 2 Credits.

Introduces Plan Review software as a tool for online review of plan submittals for building permits. Prerequisite: (WR 115 or IRW 115) and MTH 20 or equivalent placement. Audit available.

INSP 151. International Residential Code Structural I. 4 Credits.

Covers International Residential Building Codes and building inspection practices. Audit available.

INSP 152. International Residential Code Mechanical. 2 Credits.

Covers residential building mechanical systems code requirements as detailed in the International Residential Building Code manual. Prerequisite: (WR 115 or IRW 115) and MTH 20 or equivalent placement. Audit available.

INSP 201. Plans Examination-Commercial. 4 Credits.

Covers commercial plans examination and code compliance for building permit applications. Includes procedures for review of plan submittals and code administration. Prerequisite: ARCH 162 and INSP 252 and (MTH 60 or equivalent placement test score). Audit available.

INSP 202. Plans Examination-Residential. 4 Credits.

Covers residential plans examination and the skills needed to determine code compliance for building permit applications. Includes procedures for the review of plan submittals and code administration. Prerequisites: ARCH 161 and INSP 151. Audit available.

INSP 220. International Building Code Fire and Life Safety. 3 Credits.

Addresses fire and life safety requirements in the International Fire and Building codes. Includes building occupancies, exit systems, hazardous materials' regulations, site access, water availability, and fire protection systems. Prerequisite: INSP 201 and INSP 252. Audit available.

INSP 251. International Building Code I. 4 Credits.

Covers nonstructural regulations of the International Building Code. Includes administration, occupancy classification, building area & height, construction types, interior environments, and fire resistive standards for small commercial and multi-story structures. Prerequisite: (WR 115 or IRW 115) and MTH 20 or equivalent placement. Audit available.

INSP 252. International Building Code II. 3 Credits.

Continues the study of the International Building Code. Includes fire protection and egress systems, accessibility, sanitation, and building materials. Prerequisite: INSP 251. Audit available.

INSP 253. International Building Code III. 3 Credits.

Introduces the requirements for structural engineering, within the International Building Code, as applied to small commercial structures of three stories and less. Prerequisites: (WR 115 or IRW 115) and MTH 20 or equivalent placement. Audit available.

INSP 255. International Mechanical Code I. 2 Credits.

Covers International Mechanical Code regulations for permitting. Includes general requirements, exhaust systems, kitchen hoods and duct systems. Prerequisites: (WR 115 or IRW 115) and MTH 20 or equivalent placement. Audit available.

INSP 256. International Mechanical Code II. 3 Credits.

Covers International Mechanical Code regulations for permitting. Includes combustion air, chimneys and vents, refrigeration, and specific appliance systems. Prerequisite: INSP 255. Audit available.

INSP 257. International Fuel-Gas Code. 3 Credits.

Covers the International Mechanical Code. Includes code requirements, application of code to inspection requirements, and methods for inspecting mechanical installations. Prerequisites: (WR 115 or IRW 115) and MTH 20 or equivalent placement. Audit available.

INSP 280. CE: Field Experience Inspection. 1-10 Credit.

Provides an opportunity to work at approved job sites. Explores a variety of experiences and placement opportunities as are currently available for individuals. Requires coordination with student, supervisor, instructor and cooperative education specialists. Prerequisite: Department approval.

INSP 280B. Cooperative Education: Field Experience. 1-5 Credit.

Work on approved job sites where student will receive as varied and complete an experience as possible under job conditions. Credits are variable and based on the number of clock hours student spends on job site. Must be coordinated with supervisor, instructor, and cooperative education specialist. Department permission required.

BUSINESS ADMINISTRATION

BA 101. Introduction to Business. 4 Credits.

Survey course in the field of business including topics such as management, finance accounting, marketing, production, computers, international business, small business, investments and other areas of general business interest. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 111. Introduction to Accounting. 3 Credits.

Presents double-entry accounting as related to service and merchandising business. Covers accounting cycle, including journalizing, posting to the general ledger, preparation of financial statements, petty cash, bank reconciliations, combined journal, special journals and payroll. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

252
BA 114. Financial Survival. 1 Credit.
Provides basic information and strategies to empower individuals to make positive decisions about funding their education and establishing control over their financial lives, leading to financial independence and reduced life stress. Introduces: funding college, budgeting, wise use of credit, controlling debt, basic financial planning, effective financial decision making, and avoiding financial mistakes and pitfalls. BA 114 and CG 114 are equivalent. Only one may be taken for credit. Prerequisite: (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement. Audit available.

BA 131. Introduction to Business Technology. 4 Credits.
Covers computer concepts and the use of information technology in business organizations including the use of word processing, spreadsheet, and presentation software. Includes introduction to hardware, software, databases, system development, and tools that businesses use for communication and collaboration. Includes appreciating the value of ethical conduct in a business/computer environment and the impact of technology on industry and society. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 141. Introduction to International Business Law. 3 Credits.
Surveys international aspects of traditional business law subjects (sales, commercial paper, corporate law, agency, etc.) and related subjects (antitrust law, admiralty law, trade regulation, etc.). Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 150. Intro to Entrepreneurship. 4 Credits.
Introduces the managerial practices of successful entrepreneurship in all types of organizations. Evaluates the business skills, leadership skills, traits, and commitment necessary to successfully operate an entrepreneurial venture. Reviews the challenges and rewards of entrepreneurship. Examines entrepreneurial businesses in the United States and their impact on the economy. Considers recent trends in social entrepreneurship. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement or instructor permission. Audit available.

BA 177. Payroll Accounting. 3 Credits.
Learn fundamental skills and basic knowledge in the area of business payroll. The focus of the course is primarily in the following areas: payroll and personnel record keeping, calculation of gross pay using various methods, calculation of Social Security and Medicare taxes, calculation of federal and state income taxes, calculation of federal and state unemployment taxes, journalizing and posting payroll entries, and completing various federal and state forms. Prerequisites: BA 111 Introduction to Accounting or BA 211 or instructor permission. Recommended: MTH 30 Business Mathematics, and Microcomputer experience. Audit available.

BA 203. Introduction to International Business. 3 Credits.
Explores processes of international trade, whether the company is an importer, exporter, or a multinational firm. Forms a basis for further study and specialization in the international business field. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 205. Business Communication Using Technology. 4 Credits.
Focuses on using current technology to create, revise, and design business documents: letters, memos, e-mail, reports, minutes, simple instructions, and resumes. Incorporates the use of library and Internet resources to collect information. Includes oral presentations using technology presentation tools. Recommended: BA 101 and WR 121, and computer literacy as demonstrated through completion of BA 131 or CAS 133. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 206. Management Fundamentals. 3 Credits.
Introduces business management theory, including the basic functions of planning, organizing, directing, leading, and controlling as well as factors contributing to change in current management approaches. Recommended: BA 101, Introduction to Business. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 207. Introduction to E-Commerce. 4 Credits.
Presents concepts and skills for the strategic use of e-commerce and related information technology from three perspectives: business to consumers, business-to-business, and intra-organizational. Examination of e-commerce in altering the structure of entire industries, and how it affects business processes including electronic transactions, supply chains, decision making and organizational performance. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 208. Introduction to Nonprofits & Philanthropy. 4 Credits.
Surveys the role of the nonprofit and voluntary organizations in American society including the history, theory and challenges of the third sector. Includes the Students4Giving service learning project where students serve as philanthropists to their local community. Recommended: BA 101. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 209. Introduction to Grant Writing. 4 Credits.
Covers identifying and evaluating appropriate funding sources, developing community relationships, and crafting successful funding proposals. Develops skills and knowledge necessary to prepare a competitive grant application. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 211. Principles of Accounting I. 3 Credits.
Introduces financial accounting theory, including the accounting cycle, analysis and recording of transactions, and reporting financial information in accordance with Generally Accepted Accounting Principles (GAAP). Recommended: MTH 60 and BA 111. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 212. Principles of Accounting II. 3 Credits.
Continues the presentation of fundamental issues begun in BA 211. Introduces statement of cash flows and financial statement analysis. Prerequisites: BA 211, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 213. Managerial Accounting. 4 Credits.
Covers accounting information from management perspective for planning, performance evaluation and for decision making purposes. Includes cost concepts, product costing, cost-volume-profit relationships, profit planning, variance analysis, responsibility accounting and capital budgeting. Prerequisite: BA 211. Audit available.

BA 218. Personal Finance. 4 Credits.
Explores the role of the consumer in our economy, problems of financing family and individual needs, including budgeting, banking relationships, borrowing, insurance, risk management, estate, income taxes, retirement and personal taxes. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 222. Financial Management. 3 Credits.
Covers basic financial concepts and practices including analysis of company resources, types and sources of financing, forecasting and planning methods, and the roles of the money and capital markets. Recommended: BA 212, MTH 60. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 223. Principles of Marketing. 4 Credits.
Provides a general knowledge of marketing emphasizing marketing mix elements and target markets for consumer and industrial products, marketing strategies, customer behavior, market planning and promotion. Recommended: BA 101. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 224. Human Resource Management. 3 Credits.
Covers human behavior, employment, employee development, performance appraisal, wage and salary administration, employment and job rights, discipline and due process, and labor-management relations. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 226. Business Law I. 4 Credits.
Discusses fundamental concepts, principles, and rules of law that apply to business transactions. Includes the function and operation of the courts, business crimes, torts, contract law, intellectual property, the application of the Uniform Commercial Code to business activities and recent developments in business law, such as cyberlaw and electronic commerce. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 228. Computer Accounting Applications. 3 Credits.
Introduces double-entry, fully integrated computerized general ledger software. Topics include general ledger, accounts receivable, accounts payable, payroll, fixed assets, bank reconciliations, and inventory. Recommended: BA 111 or BA 211 and CAS 133. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.
BA 234. International Marketing. 3 Credits.
Covers general concepts of international marketing, including techniques for identifying potential markets and assessing uncontrollable elements such as economic, political and sociocultural environmental factors. International marketing strategies related to product/service, pricing, promotion and distribution are examined. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 235. Social Media Marketing. 4 Credits.
Covers the use of social networks and emerging media in marketing and the role of social media in developing corporate, institutional or brand identity. Prior completion of Principles of Marketing (BA 223) is recommended. Completion of Computers in Business (BA 131), Basic Computer Skills (CAS 133) or computer literacy recommended. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 236. Product Management and Branding. 4 Credits.
Covers practical implementation of product-centric projects including the role of the product manager, product concepts and theory, team building and management, cultural considerations and managing development and launch schedules. Includes coverage of communication topics specific to product introductions and the modern legal framework for products (e.g. intellectual property) and branding concepts. Requires team-based approach and practical implementation of plans using productivity and scheduling tools. Recommended: BA 223. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 237. Fundamentals of Import/Export. 3 Credits.
Examines motivations and procedures for the import and export of goods and services. Emphasizes U.S. import/export regulations, documentation, logistics, community resources and customer services. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 238. Sales. 3 Credits.
Offers a blend of practicality and theory on industrial, commercial and retail sales. Demonstrates and practices basic sales techniques, explores communication and motivation as they relate to selling and examine the function of sales relative to the total marketing program. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 239. Advertising. 3 Credits.
Covers the basics of planning, creating, using, and placing advertising in the business world. Reviews entire field of advertising as basis for students who select advertising as a career or as an integral part of a marketing program. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 240. Nonprofit Financial Management and Accounting. 4 Credits.
Develops conceptual foundation underlying the financial management and accounting procedures, records and statements for non-profit organizations. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and BA 211 or equivalent. Audit available.

BA 242. Introduction to Investments. 3 Credits.
Covers popular investment vehicles—what they are, how they can be utilized and the risk and return possibilities. Emphasizes stocks and bonds, mutual funds, options and real estate. Examines securities exchanges and the functions of the broker. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and BA 211 or equivalent. Audit available.

BA 249. Principles of Retailing and E-tailing. 3 Credits.
Covers analyzing target market, developing retail marketing mix elements, and reviewing store planning techniques used by retailers. Includes discussions of changing retailing environment and impact of government regulations. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 250. Small Business Management. 3 Credits.
Designed for students and prospective small business owners and managers. It emphasizes the general functions, procedures, and specific subject areas related to initiating, organizing, and operating a successful small business. It specifically prepares the student to develop a business plan for opening a business. Recommended: BA 206. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and BA 101 or instructor permission. Audit available.

BA 251. Office Management. 3 Credits.
Introduces organizing, planning, leading, and controlling functions of an office and the resulting role and responsibilities of the office manager. Recommended: BA 206. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and BA 101 or instructor permission. Audit available.

BA 255. Project Management - Business Environments. 4 Credits.
Shows the evolving interpretation of project management by providing practical information useful to project managers from all disciplines. Discussion topics will include: integration, scope, time, cost, quality, human resource management, communication, risk, and procurement management. This course is one of the Project Management series that includes CAS 220, MSA 279, and CIS 245. Project management is a broad term that can include many areas of a business. Recommend: BA 101, MSA 279, BA 250, and CAS 220. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 256. Income Tax. 3 Credits.
Introduces preparation of federal individual and sole proprietorship income tax returns. Provides brief overview of partnership and corporate returns. Audit available.

BA 280. Cooperative Education: Business Experience. 1-6 Credit.
Offers relevant field experience in business environments in one of the following areas: bookkeeping, marketing, management, international business, advertising, banking, purchasing, investment, finance and customer services (sales or credit services). Allows exploration of career options. Course may be repeated for credit up to 12 credits. Prerequisite: Completion of 12 BA credits and instructor permission. Required concurrent, one time only: BA 280B.

BA 280B. Cooperative Education: Business Experience - Seminar. 1 Credit.
Supplements on-the-job experience through feedback sessions, instruction in job-related areas, and linkages to the student's on-campus program. Co-requisite: BA 280A. Prerequisite: Department permission required.

BA 281. Accounting Skills Review. 1 Credit.
Refreshes knowledge of the accounting cycle and deepens understanding of accounting. Includes an initial assessment and provides timely and accurate feedback on journal entries, ledger, adjusting entries, closing entries and financial statement presentation. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and BA 211.

BA 285. Human Relations-Organizations, 3 Credits.
Explores interactions in organizations by examining human perceptions, communications, small group dynamics and leadership. Includes dynamics of change, cultural diversity, substance abuse, work stress, ethics and social responsibility, and the challenges of globalization. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

BA 289. Marketing Capstone. 2 Credits.
Covers the development and presentation of a marketing plan in a team environment, drawing on concepts taught throughout the degree program. Focuses on the elements of planning, market research, development of positive team dynamics and the practical application of marketing techniques. Recommended: students should enroll in this course near the end of their degree program. Prerequisite: Department or instructor approval required.

BA 290. Basic Income Tax Preparation. 8 Credits.
Covers elements of basic tax preparation and meets the statutory educational requirements for those wishing to be licensed income tax preparers in Oregon. Audit available.

BA 295. Management Capstone. 2 Credits.
Covers the evaluation of business issues and managerial problems posed through case studies and writing on concepts covered throughout the degree program. The management concepts of planning, organizing, leading/ motivating, controlling, and management decision making will be applied to business situations. Recommended: students should enroll in this course near the end of their degree program. Prerequisite. Department or instructor approval required.
CHEMISTRY

CH 100. Everyday Chemistry with Lab. 4 Credits.
Introduces chemistry related topics pertaining to everyday life. Includes topics such as renewable energy, clean air and water and global climate change using a relatively nonmathematical approach. Includes atomic/molecular structure, the periodic table, chemical bonding, intermolecular forces, chemical reactions, acids/bases and the social and environmental role of chemistry. Recommended for non-science majors to fulfill the Gen Ed science with lab requirement. Prerequisites: WR 115 and RD 115 or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS.

CH 101. Inorganic Chemistry Principles. 5 Credits.
Introduces basic inorganic chemistry with an emphasis on solution chemistry. Fulfills a basic chemistry requirement for programs such as engineering technology, allied health, and others. Recommended: one year of high school chemistry. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 65 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.

CH 102. Organic Chemistry Principles. 5 Credits.
Introduces organic chemistry and biochemistry principles. Emphasizes organic and biochemistry required for application to dental hygiene programs. Includes general principles of organic chemistry; alcohols, aldehydes, ketones, carboxylic acid. Covers structure and function of classes of biomolecules; carbohydrates, lipids, proteins, and DNA. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 65 or equivalent placement, and CH 100 or CH 104 or CH 151 or instructor approval. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.

CH 104. Allied Health Chemistry I. 5 Credits.
Introduces general principles of chemistry: atomic structure, mole concept, chemical reactions, stoichiometry, and gas laws. Designed for students in a health science program, e.g. Nursing, Medical Laboratory Technician, Vet Tech, or for a laboratory science elective. This is the first course of a three course sequence. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Prerequisite/Concurrent: MTH 95. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AS, Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.

CH 105. Allied Health Chemistry II. 5 Credits.
Introduces the general principles of chemistry: gases, oxidation-reduction, acid-base concepts, equilibrium, physical and chemical properties of solutions, nuclear chemistry, and organic hydrocarbons. This is the second course in a three course sequence. Prerequisite: CH 104. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.

CH 106. Allied Health Chemistry III. 5 Credits.
Introduces the fundamental principles of organic chemistry and biochemical processes. This is the third course of a three course sequence. Prerequisite: CH 105. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AOT, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS.

CH 151. Preparatory Chemistry. 5 Credits.
Introduces basic chemical principles and computational problems found in General Chemistry with a concentration on developing both analytical and reasoning skills via problem solving. Prepares students wanting to take the CH 221-3 General Chemistry series that have no chemical background or have not taken a college chemistry course in the last 3 years. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 95 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AOT, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS.

CH 211. Introduction to Biochemistry. 4 Credits.
Introduces the chemistry of biological systems. Covers the structure and function of biological molecules as well as the chemistry of heredity, metabolism and biological energy. Prerequisites: (CH 106 or equivalent) or (CH 241 or equivalent). Audit available.

CH 221. General Chemistry I. 5 Credits.
Explores measurements, properties of matter, nomenclature, atomic theory, chemical periodicity, and chemical bonding. Recommended for the following majors and pre-professional degrees: chemistry, natural science, engineering, medicine and dentistry. This is the first course in a three course sequence. For information about the CH 151 Competency Exam see the description addendum in the CCOG. Prerequisites: MTH 111. (WR 115 and RD 115) or IRW 115 or equivalent placement, and (CH 151 or pass the CH 151 Competency Exam). Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

CH 222. General Chemistry II. 5 Credits.
Explores stoichiometry; chemical reactions and equations; thermochemistry, physical states of matter including properties of gases, liquids, solids and solutions, and chemical kinetics. Introduces organic chemistry. This is the second course in a three course sequence. Prerequisites: CH 221 or CH 221H. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

CH 223. General Chemistry III. 5 Credits.
Explores acid-base chemistry, ionic equilibria; electrochemistry; nuclear chemistry; thermodynamics; and descriptive chemistry topics. Includes special topics as time and interest allow. This is the third course in a three course sequence. Prerequisite: CH 222 or CH 222H. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.

CH 241. Organic Chemistry I. 5 Credits.
Introduces functional groups, nomenclature, structure and chemistry of alkanes, alkenes, and alkenes, conjugation in alkenes, concerted reactions (Diels Alder), IR Spectroscopy, stereochemistry, reaction mechanisms and special topics as time and interest permit. This is the first course in a three course sequence. Recommended for chemistry and other laboratory science majors, and pre-professional students in medicine, dentistry, pharmacy, physical therapy, veterinary and chiropractic medicine, etc. Recommended: Successful completion of a year-long college general chemistry class in the last 3 years. Prerequisite: (CH 221 or CH 221H), (CH 222 or CH 222H), and (CH 223 or CH 223H or CH 223H) or (CH 104, CH 105, CH 106). Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS.

CH 242. Organic Chemistry II. 5 Credits.
Introduces radical reactions; substitution and elimination reaction mechanisms; structure and chemistry of alcohols, ethers, epoxides and their sulfur analogues; organometallic compounds; aromatics and aromaticity; structure and chemistry of aromatic compounds; NMR, UV-Vis and Mass Spectroscopy; and special topics as time and interest permit. Prerequisite: CH 241. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS.

CH 243. Organic Chemistry III. 5 Credits.
Introduces carboxylic acids, carboxylic acid derivatives, amines, carbohydrates, amino acids, proteins, lipids, nucleic acids, heterocyclic compounds, spectroscopy and selected topics. This is the third course in a three course sequence. Prerequisite: CH 242. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT.

CH 298A. Chemistry Independent Study. 1 Credit.
Provides an opportunity to work independently on an individualized area of study within chemistry under the sponsorship of chemistry faculty. Prerequisites: Previous coursework in chemistry and instructor permission, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement.
CHICANO/LATINO STUDIES

CHLA 201. Introduction to Chicano/Latino Studies I. 4 Credits.
Introduces Chicano/Latino history in the United States beginning with Spanish colonization and continuing with the Mexican-American War and the migration of Chicanos/Latinos. Covers the events that shaped the Chicano/Latino experience, such as the Bracero Program, the Chicano Movement, and U.S. foreign policy in Latin America. Prerequisites: WR 115, RD 115 and MTH 20 or equivalent placement test scores. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AAT, Arts and Letters/AAS, Arts and Letters/AGS.

CHLA 202. Introduction to Chicano/Latino Studies II. 4 Credits.
Introduces Chicano/Latino social, political, and economic status in the United States. Includes an examination of the political and economic structure, organization and U.S. society, and the status and class position of various Chicano/Latino groups. Also includes a demographic profile and overview of current social issues. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAT, Arts and Letters/AAS, Arts and Letters/AGS.

CHLA 203. Introduction to Chicano/Latino Studies III. 4 Credits.
Introduces the cultural heritage of Chicano/Latino people in the United States. Draws on disciplines such as anthropology, folklore, literature, film, and linguistics, folk, and popular culture, and examines the combination and integration of various traditions in Chicano/Latino communities. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAT.

CHINESE

CHN 101. First Year Chinese. 5 Credits.
The first course of a three-course sequence in introductory Mandarin Chinese language and culture class, with a well- balanced emphasis on effective communicative skills in both the written and spoken language and an understanding of the practices and products of native Chinese culture. Helps the early beginning learners to acquire language proficiency as well as cultural awareness and understanding. Audit available.

CHN 102. First Year Chinese. 5 Credits.
The second course of a three-course sequence in introductory Mandarin Chinese language and culture class, with the expansion on effective communicative skills in both the written and spoken language and an understanding of the practices and products of native Chinese culture. Expands beginning learners' language proficiency as well as cultural awareness and understanding. Recommended: CHN 101 or instructor permission. Audit available.

CHN 103. First Year Chinese. 5 Credits.
The third course of three-course sequence in introductory Mandarin Chinese language and culture class, with the expansion on effective communicative skills in both the written and spoken language and an understanding of the practices and products of native Chinese culture. Expands beginning learners' language proficiency as well as cultural awareness and understanding. Recommended: CHN 102 or instructor permission. Audit available.

CHN 201. Second Year Chinese. 5 Credits.
Reviews and expands learners' language proficiency as well as cultural awareness and understanding from first-year college Mandarin Chinese. Emphasizes effective skills in both the written and spoken language. The first course of a three-course sequence of second-year Mandarin Chinese. Prerequisite: CHN 103 or instructor permission. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAT.

CHN 202. Second Year Chinese. 5 Credits.
Expands learners' language proficiency as well as cultural awareness and understanding. The second course of a three-course sequence of second-year Mandarin Chinese language and culture, with a great emphasis given to improving effective communicative skills in both the written and spoken language and an understanding of the practices and products of Chinese culture. Prerequisite: CHN 201 or instructor permission. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT.

CHN 203. Second Year Chinese. 5 Credits.
Practices and expands learners' language proficiency as well as cultural awareness and understanding. The third course of a three-course sequence of second year Mandarin Chinese language and culture, with a great emphasis given to improving effective communicative skills in both the written and spoken language and an understanding of the practices and products of Chinese culture. Prerequisite: CHN 202 or instructor permission. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT.

CHN 260. Chinese Culture. 3 Credits.
Chinese culture through films and music. Increase understanding of Chinese traditional and modern culture and society through analysis of cultural, historical and social issues by mass media and products. Explore concepts such as families, social roles, friendship, social values, morality, philosophies, economics, and more. Course conducted in English. Chinese materials presented in class will be subtitled in English. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT.

CIVIL MECH ENGINEERING TECH

CMET 110. Statics. 4 Credits.
Covers fundamental concepts of mechanics relating to forces acting on rigid bodies in both two dimensions and three dimensions. Includes drawing complete free-body diagrams to solve engineering problems. Addresses external forces, moments of a couple, reactions, internal forces and moments. Covers friction for dry surfaces, moments of inertia and centroids. Corequisite: CMET 111. Prerequisites: MTH 60 and placement in WR 115. Audit available.

CMET 111. Portland Design: Brews, Bridges and Bikes. 3 Credits.
Enhances appreciation for design and engineering through the prism of three design topics that Portland is known for: coffee, bridges and bikes. Focuses on “back of the envelope” engineering, problem solving, making and building, and professional skills and teamwork. Covers trigonometry and scientific calculator operations. Introduces the engineering technician profession and engineering ethics. Includes time in the MakerSpace, CMET labs and field trips. Audit available.

CMET 112. Technical Algebra/Trigonometry. 4 Credits.
Includes algebra and trigonometry used in CMET 110 and 111, emphasizing simultaneous linear equations, quadratic equations and applied problems. Prerequisites: MTH 60 and placement in WR 115. Department approval required. Audit available.

CMET 121. Strength of Materials. 4 Credits.
Covers the relationship between stress and strain on deformable solids. Applies analysis to members subjected to axial, bending, and torsional loads. Covers combined stresses and properties of structural materials. Prerequisites: CMET 110, CMET 112, and (ENGR 102 or ENGR 105). Prerequisite/Concurrent: CMET 123. Audit available.

CMET 122. Global Energy Physics. 4 Credits.
Introduces physical properties of matter and energy, including properties of solids, liquids and gases. Presents applications of the basic equations of fluid mechanics, heat transfer, and the First Law of Thermodynamics, as well as application of these concepts to the human population's energy supply and demand. Prerequisite/concurrent: CMET 121, CMET 123. Audit available.

CMET 123. Technical Algebra with Analytic Geometry. 4 Credits.
Covers algebra and geometry of special interest to engineering technicians including solving higher order equations, determinants, matrix operations, logarithms and trigonometric identities. Introduces plane analytical geometry in preparation for calculus, emphasizing development of skills and confidence to solve advanced pre-calculus problems. Prerequisite: CMET 112 or MTH 111. Audit available.

CMET 131. Applied Calculus. 8 Credits.
Introduces differential and integral calculus, with applications to engineering problems, including kinematics, moments of inertia and deflections of beams. Specific calculator required, see advisor. Prerequisites: CMET 121, 122, 123. Audit available.

CMET 133. Materials Technology. 3 Credits.
Selection of materials for engineering technology applications, structure and properties of metals, ceramics and polymers starting with fundamental atomic arrangements. Microstructural control through thermal and mechanical processing and effects of service environment are covered. Prerequisites: CMET 121, 123; CH 104, and (WR 115 or IRW 115). Audit available.
CMET 211. Environmental Quality. 4 Credits.
Introduces principles of environmental quality. Covering the quality of water. Presents sampling systems, data analysis techniques and computational methods, including mathematical models. Recommended: CMET 131. Prerequisites: CMET 123, CH 104, and (WR 115 or IRW 115). Audit or concurrent: WR 121. Audit available.

CMET 212. Thermodynamics I. 4 Credits.
Introduces principles of thermodynamics. Covers topics such as heat transfer, thermodynamic cycles and processes. Teaches first and second laws of thermodynamics, perfect gas law, properties of real gases, and the general energy equation for closed and open systems. Prerequisites: CMET 131, CMET 122 and CH 104. Audit available.

CMET 213. Fluid Mechanics. 3 Credits.
Covers properties of fluids, laws of fluid mechanics and energy relationships for incompressible fluids. Studies flow in closed conduits, including pressure loss, flow measurement, pipe sizing and pump selection. Recommended: CMET 131. Prerequisites: CMET 110, CMET 122, CMET 123. Audit available.

CMET 214. Surveying II. 3 Credits.
Presents techniques for preliminary location and construction surveys. Includes elements of horizontal and vertical location for roadways, including circular and parabolic curves. Uses of advanced capabilities of electronic total stations, include data logging. Prerequisite: ENGR 226. Audit available.

CMET 221. Environmental Systems. 3 Credits.
Explores ground water, air, hazardous waste, and water pollution problems. Presents data analysis techniques and computational methods. Examines technological solutions for these problems, including water, wastewater, and air pollution treatment, as well as alternatives. Prerequisites: CMET 123, (WR 115 or IRW 115). Audit available.

CMET 222. Thermodynamics II. 4 Credits.
Covers application of principles of thermodynamics in the analysis of vapor and gas power cycles, refrigeration and heat pump machinery, and air distribution systems. Combustion reactions, ideal gas mixtures, and properties of moist air (psychrometrics) are also studied. Prerequisite: CMET 212. Audit available.

CMET 223. Project Management. 3 Credits.
Administration of engineering projects. Covers owner-design professional-contractor relationships, laws and contracts, specifications writing and interpretation, cost estimating, engineering economy, and planning and scheduling (CPM and time-scaled arrow diagrams). Recommended: COMM 100 or COMM 111. Prerequisites: CMET 123. Prerequisite or concurrent: WR 121. Audit available.

CMET 226. Dynamics. 3 Credits.
Covers kinematics and kinetics principles relating to the motion of particles and rigid bodies. Examines force, mass, acceleration and velocity relationships. Includes practical linear and curvilinear motion problem solving. Covers work-energy and impulse-momentum methods. Prerequisite: CMET 110 and CMET 131. Audit available.

CMET 227. Applied Electricity Fundamentals. 2 Credits.
Introduces fundamental principles of electricity as applied to mechanical systems. Principle topics covered: basic electrical theory, electric motors, controls, and energy consumption considerations. Prerequisite: CMET 112. Audit available.

CMET 228. Construction Materials. 3 Credits.
Covers production, processing, and testing of aggregate, asphalt, concrete, soil and other materials in highway and commercial/industrial building projects. Includes quality assurance concepts, measurements and calculations, terminology and random sampling. Focuses on testing procedures common to construction in the northwest. Recommended: CMET 131. Prerequisites: CMET 121, 122, 123. Prerequisite/concurrent: WR 121. Audit available.

CMET 233. CET Applied Computer Aided Design. 3 Credits.
Presents advanced topics in civil engineering-oriented computer aided design and drafting meeting industry standards. Prerequisite: CMET 241. Prerequisite or concurrent: CMET 214. Audit available.

CMET 235. Machine Design. 3 Credits.
Examines fundamentals of machine design, including analysis and design of mechanical components. Covers shafts, fasteners, belt and chain drives, brakes, gears, springs and bearings. Includes predicting static and fatigue failures for various loadings and materials. Prerequisite: CMET 121, 226. Audit available.

CMET 236. Structural Design. 3 Credits.
Introduces design of steel, wood, and reinforced concrete structures with emphasis on steel buildings. Covers beam and column design along with bolted and welded connections. Recommended: CMET 131. Prerequisites: CMET 121, 122, 123, and (WR 115 or IRW 115). Audit available.

CMET 237. MET Applied Computer Aided Design. 3 Credits.
Provides topics in solid modeling for mechanical/manufacturing engineering computer aided design and drawing, meeting industry standards. Prerequisite: ENGR 102. Audit available.

CMET 241. Structural Steel Drafting. 3 Credits.
Introduces structural detail drafting of engineering design drawings and shop fabrication drawings for steel construction. Covers steel grades and shapes, and design, fabrication, and erection drawings for steel structures. Prerequisites: ENGR 102, CMET 121. Audit available.

CMET 254. Civil/Mechanical Engineering Technology Seminar. 1 Credit.
Topics include information on finding employment in the civil/mechanical/ manufacturing industry, writing resumes, and interviewing. Prerequisite: WR 115 or IRW 115. Audit available.

CMET 255. Civil and Mechanical Professional Skills Development I. 2 Credits.
Covers job searching and resume building skills for civil and mechanical engineering technicians. Includes resumes, interviewing, communication skills, and professionalism in the workplace. Prerequisites: CMET 133, WR 121. Audit available.

CMET 280A. Cooperative Ed: Civil/Mechanical Engineering Technology. 1-5 Credit.
An opportunity to develop engineering technology skills in a department-approved work setting. Department permission required. Audit available.

COLLEGE SUCCESS AND CAREER GUIDANCE

CG 58. Math Literacy Success. 1 Credit.
Explores attitudes, emotions and barriers towards math. Covers learning strategies to enhance math success, including math focused study skills, anxiety reduction techniques, learning styles, and more. Includes strategies for developing motivation and persistence for math class preparation and test taking.

CG 100. College Survival and Success. 3 Credits.
Provides information and techniques for time, money and self-management, including motivation, goal setting, and accepting personal responsibility for college success. Includes developing skills for navigating a culturally diverse learning environment and utilizing college resources and services. Completion of CG 100 is equivalent to CG 101-102-103. Audit available.

CG 101. College Survival and Success: Personal Responsibility. 1 Credit.
Provides information on the role of goal-setting as a means for creating college success. Introduces developing skills for navigating a culturally diverse learning environment and utilizing college resources and services. First course in a series (CG 101-103). Completion of CG 101-102-103 is equivalent to CG 100. Audit available.

CG 102. College Survival and Success: Goal Setting. 1 Credit.
Provides information on the role of goal-setting as a means for creating college success. Continues to develop skills for navigating a culturally diverse learning environment and utilizing college resources and services. Second course in the series (CG 101-103). Completion of CG 101-102-103 is equivalent to CG 100. Prerequisite: CG 101. Audit available.

CG 103. College Survival and Success: Self-Management. 1 Credit.
Focuses on the role of self-management as a means for creating college success. Continues to develop skills for navigating a culturally diverse learning environment and accessing college resources and services. Third course in a series (CG 101-103). Completion of CG 101-102-103 is equivalent to CG 100. Prerequisites: CG 101. Audit available.

CG 105. Scholarships: $$ for College. 2 Credits.
Provides a systematic approach to researching and applying for scholarships. Topics include: Creating a scholarship portfolio, Oregon Student Assistance Commission application, PCC Foundation application, internet resources, and research strategies. Students will identify skills, accomplishments, values, goals, and life experiences, and learn strategies to translate them into an effective scholarship application. Interviewing tips will be discussed. Panels and guest speakers, including scholarship winners, will share perspectives on the scholarship process. Corequisites: WR 105: Scholarship Essay Writing Audit available.

CG 108A. Study Skills for College Learning. 3 Credits.
Provides information, techniques, strategies and skills helpful in becoming more efficient in note taking, textbook reading, and taking exams. Includes identification of preferred learning style and development of skills in scheduling study time, library research, memory strategies and critical thinking. Prerequisites: Placement into WR 115 and RD 115. Audit available.
CG 111B. Study Skills for College Learning. 2 Credits.
Provides information, techniques, strategies and skills helpful in becoming more efficient in note taking, textbook reading, and taking exams. Assists with identification of preferred learning style and development of skills in scheduling study time and memory strategies. Prerequisites: Placement into WR 115 and RD 115. Audit available.

CG 111C. Study Skills for College Learning. 1 Credit.
Provides information and techniques in note taking, textbook reading, taking exams, and developing a study schedule. Prerequisites: Placement into WR 115 and RD 115. Audit available.

CG 112. Managing Test Anxiety. 1 Credit.
Provides strategies to overcome barriers to effective test taking to improve overall test performance. Test preparation and test anxiety are examined. Audit available.

CG 114. Financial Survival for College Students. 1 Credit.
Provides basic information and strategies to empower individuals to make positive decisions about funding their education and establishing control over their financial lives, leading to financial independence and reduced life stress. Introduces: funding college, budgeting, wise use of credit, controlling debt, basic financial planning, effective financial decision making, and avoiding financial mistakes and pitfalls. CG 114 and BA 114 are equivalent. Only one may be taken for credit. Prerequisite: (WR 90 and RD 90) or IRW 90 and MTH 20 or equivalent placement. Audit available.

CG 130. Today's Careers. 2 Credits.
Explores a wide range of occupations including educational and skill requirements. Covers ways of gathering information about specific occupations. Includes guest speakers from a variety of careers to further illustrate the realities of the world of work. Audit available.

CG 130H. Introduction to Today's Careers: Health. 2 Credits.
Explores career opportunities in the health professions. The focus will be on the educational and licensing requirements, professional and ethical responsibilities, physical requirements, workplace environment and career pathways of each profession. Audit available.

CG 140A. Career and Life Planning. 3 Credits.
Provides tools and resources for making informed career decisions. Covers assessing career confidence and readiness, skills, values, interests, personality, barriers, lifestyle, education and approaches to decision making. Cover how to research career information. Includes educational decision-making which covers determining a field or program of study, and college or training program. Prerequisites: Placement into WR 115 and RD 115. Audit available.

CG 140B. Career and Life Planning. 2 Credits.
Provides tools and resources for making informed career decisions. Covers assessing skills, values, interests, personality, barriers, lifestyle, education and approaches to decision making. Covers how to research career information. Includes educational decision-making which covers determining a field or program of study. Prerequisites: Placement into WR 115 and RD 115. Audit available.

CG 140C. Career and Life Planning. 1 Credit.
Provides tools and resources for making informed career decisions. Covers assessing skills, values, interests, and personality toward making a career decision. Covers how to research career information and methods of exploring careers. Prerequisites: Placement into WR 115 and RD 115. Audit available.

CG 144. Introduction to Assertiveness. 1 Credit.
Applies assertive communication skills to relationships both in personal and professional environments. Includes an overview of assertive communication and behavior and skill development in the areas of communication and personal conflict resolution. Audit available.

CG 145. Stress Management. 2 Credits.
Introduces the causes, sources, and effects of stress (physiological, psychological, emotional, cognitive, and interpersonal/interpersonal) from a personal and academic perspective. Facilitates application of tools and techniques to identify, prevent, and manage stressors to improve academic success. Recommended: Placement into RD 115 and WR 115. Audit available.

CG 146. Value Clarification. 1 Credit.
Examines beliefs, attitudes and values behind decisions and actions including whether behavior matches stated beliefs, evaluating consequences of choices and developing a process that will enable the development of personalized values. Audit available.

CG 147. Decision Making. 1 Credit.
Introduces the concept of decision making in both personal and professional environments. Includes an overview of goal setting and decision making models. Audit available.

CG 180. Intercultural Leadership for Mentees. 1 Credit.
Provides an opportunity for students from diverse cultural backgrounds to celebrate their cultural identity, develop educational goals and enhance their leadership skills. Includes college retention strategies, multi-cultural communication, diversity, team-building, community and environmental responsibility, critical thinking, problem solving, cultural awareness and self-reflection. Connects students with a mentor(s) through a series of interactive sessions. Prerequisite: Instructor permission. Audit available.

CG 190. Intercultural Leadership for Mentors. 3 Credits.
Explores concepts of cross-cultural leadership and mentorship styles. Assists in the development of leadership and mentorship skills with the intent of supporting college success and retention of self and others. Includes teambuilding, goal-setting, role modeling, public speaking, time management, ethics, diversity, and customer service. Inspires the cultivation of a personal leadership vision and cross-cultural awareness, respect, and understanding. Requirement: must pass a criminal background check if working with middle or high school students. Audit available.

CG 191. Exploring Identity and Diversity for College Success. 4 Credits.
Introduces the impact of diversity and social justice on human development as they relate to the experiences of college students. Explores different facets of identity development and how one's culture impacts their college experience. Includes developing cultural competency and skills beneficial for success in a diverse society. Prerequisite: Placement into WR 121. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AOAT, Social Sciences/AS, Social Sciences/IIAS, Social Sciences/AGS.

CG 209. Job Finding Skills. 1 Credit.
Explores broad range of job search techniques, including building a job network, compiling appropriate information for job applications, targeting cover letters and resumes, typical interview questions and techniques. Promotes overall understanding of the job search process. Audit available.

CG 225. Transfer to a Four Year College. 2 Credits.
Explores the planning of transferring to a four-year college. Includes the various processes, requirements, and issues that impact successful transfers. Provides strategies and information critical to academic development and adjustment to the four-year college system. Prerequisite: Placement into WR 115 and RD 115. Audit available.

CG 280A. CE: Career Development. 1-4 Credit.
Students earn credit for learning from practical experience at a worksite related to their major or career goal. Appropriate work experiences provide opportunities for new learning and skill development. May be repeated up to 12 credits.

CG 280B. CE: Career Development - Seminar. 1 Credit.
The Co-op seminar supplements the Co-op work experience by offering a flexible menu of assignments from which to select a variety of activities. Includes video tapes, selected readings, workshops, lectures and a variety of career related exercises to enhance career development. Department permission required. Co-requisite: CG 280A. Course may be repeated.

CG 280S. CE: Career Development - Seminar. 1 Credit.
The Co-op seminar supplements the Co-op work experience by offering a flexible menu of assignments from which to select a variety of activities. Includes video tapes, selected readings, workshops, lectures and a variety of career related exercises to enhance career development. Department permission required. Co-requisite: CG 280A. Course may be repeated.

CG 0693. Confidence Building. 1 Credit.
Explores the concept of self-confidence: how it is acquired, how it can be sabotaged, and how it can be changed. Develops strategies, tools and techniques to build a positive self-image. Audit available.

COMMUNICATION STUDIES

COMM 100. Introduction to Communication. 4 Credits.
Covers complexities of the communication process. Includes insights into the causes and effects of general communication behaviors, involvement in active exploration of basic communication theories and concepts, and opportunities to develop communication strengths. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.
This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

COMM 101. Oral Communication Skills. 3 Credits.
Improve listening and speaking skills. Includes oral reports, conference procedures and everyday conversation. Audit available.

COMM 105. Listening. 4 Credits.
Emphasizes understanding and appreciation of listening as an integral part of the communication process. Investigates and applies current research in listening theory. Analyzes and provides practice in the appropriateness and application of the major types of listening in academic, business, media and interpersonal contexts. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.
COMM 110. Voice and Articulation. 3 Credits.
Present prepared and impromptu arguments with emphasis on understanding the vocal mechanism for production of Standard American speech while learning the International Phonetic Alphabet. Includes group or individual work designed to improve articulation, breathing, projection, expressiveness, and pronunciation. Audit available.

COMM 111. Public Speaking. 4 Credits.
Introduces speechmaking based primarily on a traditional public speaking approach. Covers classical rhetorical theory and highlights rhetoric’s importance to public speaking. Develops theoretical understanding and practical application of oral communication skills. Includes techniques in controlling speech anxiety, how to structure and organize information to present to a variety of audiences, and physical and vocal delivery skills. Prerequisite: MTH 20 or equivalent placement test score, and WR 121. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

COMM 111H. Public Speaking: Honors. 4 Credits.
Honors version of COMM 111. Introduces speechmaking based primarily on a traditional public speaking approach. Covers classical rhetorical theory and highlights rhetoric's importance to public speaking. Develops theoretical understanding and practical application of oral communication skills. Includes techniques in controlling speech anxiety, how to structure and organize information to present to a variety of audiences, and physical and vocal delivery skills. GPA 3.25 minimum. Prerequisite: MTH 20 or equivalent placement test score, and WR 121. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

COMM 112. Persuasive Speaking. 4 Credits.
Explores theories of persuasive speaking and the nature of arguments. Develops skills of inquiry and advocacy through oral discourse, including critical analysis and rules of evidence. Includes practice in using, planning, delivering and refuting persuasive arguments in a variety of extemporaneous formats. Investigates how persuasion works to influence others as well as self. Prerequisites: MTH 20 or equivalent placement test score, and WR 121. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

COMM 120. Business & Professional Communication. 4 Credits.
Focuses on communication as it relates to business and professional settings. Explores the climates, settings, philosophies, and practices of organizational communication, including effective business presentations. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

COMM 140. Introduction to Intercultural Communication. 4 Credits.
Explores the nature and impact of different cultures on communication. Includes interactive relationship forms as the basis for global understanding in the classroom, business or travel. Focus on processing messages with accelerating changes in political, economic and immigration patterns through individual cultural perceptions. Understand and communicate with people who are "different," Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

COMM 204. Visual Communication for Media. 4 Credits.
Covers the theory and application of visual communication in media. Develops visual literacy and media skills for message creators/consumers. Critically examines visual message components, goals, effects and ethical practices. This course is also offered as J 204; a student who enrolls in this course a second time under either designator will be subject to the course repeat policy. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

COMM 212. Voice & Diction. 4 Credits.
Voice production and articulation of speech sound, with attention to elementary speech physiology and phonetics. Develops more effective speech for teachers, radio and television speakers, public speakers and others who require special competence in speaking. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

COMM 214. Interpersonal Communication: Process and Theory. 4 Credits.
Introduces interpersonal communication in different contexts in order to build and manage relationships. Focuses on message exchange in person-to-person interactions; emphasizes theoretical principles and their application. Concentrates on the development of communication skills to build communication competence in interpersonal contexts. Recommended: COMM 100. Prerequisite: WR 121 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

COMM 215. Small Group Communication: Process and Theory. 4 Credits.
Problem solving aspects of small group activities. Includes process and task, leadership, verbal and non-verbal messages in the small group, norms and roles, conflict reduction, and decision making. Focuses on theory and practice. COMM 100 recommended. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

COMM 227. Nonverbal Communication. 4 Credits.
Introduces the nonverbal aspect of communication as related to verbal communication. Emphasizes the theories and types of nonverbal behavior including influential factors such as: voice, body movement, eye behavior, touch, space, time, smell, and physical and social environments. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

COMM 228. Mass Communication and Society. 4 Credits.
Surveys media of mass communication and the effects on society. Introduces the history, development and technological advances of mass communication systems and their subsequent role in society, public discourse and the individual. Includes an analysis of print and broadcast journalism, advertising, public relations, television, film and new media. Course may be taken one time for credit as J 201 or COMM 228. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit Available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

COMM 229. Oral Interpretation. 3 Credits.
Oral interpretation of literature from the areas of prose, poetry and drama. Analyze specific literary works and communicate that understanding through performance. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

COMM 237. Gender and Communication. 4 Credits.
Examines the similarities and differences in masculine and feminine communication styles and patterns. Discusses the differences between sex and gender and the impacts on perception, values, stereotypes, language use, nonverbal communication, power and styles of conflict management in human relationships. Covers the influence of both interpersonal and mass communication on the social/cultural construction of gender identity and gender roles. Offers strategies for improving communication in gendered relationships. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/ASOT-B.

COMPUTED TOMOGRAPHY

Introduces the normal appearance of anatomical structures in normal planes. Enables student to differentiate between normal anatomical structures and abnormalities. Designed for graduate technologists or senior radiography students. ARRT certification or department permission required.

CTT 102. Cross-Sectional Anatomy- Head & Spine. 1 Credit.
Introduces the normal appearance of anatomical structures in normal planes and highlights the normal appearance of the head and spine. Enables student to differentiate between normal anatomical structures and abnormalities. Designed for graduate technologists or senior radiography students. ARRT certification or department permission required.

CTT 103. Cross-Sectional Anatomy - Neck & Thorax. 1 Credit.
Introduces the normal appearance of anatomical structures in normal planes. Enables student to differentiate between normal anatomical structures and abnormalities. Designed for graduate technologists or senior radiography students. ARRT certification or department permission required.
CTT 110. Cross Sectional Anatomy Review. 1 Credit. Provides a comprehensive review of cross sectional anatomy of all body systems, review of anatomical landmarks and an understanding of normal versus abnormal anatomy and is a hybrid course – both classroom and on-line components. May be taken two times for credit. Department permission required. Prerequisites: CTT 103 or equivalent.

CTT 111. CT Physics, Equipment and Instrumentation. 2 Credits. Introduces Computed Tomography theory and application, patient care, CT safety, imaging procedures, data acquisition and processing and the physical principles of image formation. Prerequisite: Department permission required.

CTT 112. CT Procedures, Protocols and Pathology Correlation. 2 Credits. Emphasizes CT Protocol development, comparison of CT parameters, parameter tradeoffs, normal vs abnormal anatomy visualization and contrast media utilization. Prerequisite: Department permission required.

CTT 113. CT Registry Review. 1 Credit. Provides a comprehensive review of patient care, imaging procedures, data acquisition and processing and physical principles of image formation for Computed Tomography. Prerequisites: RAD 254 or CTT 111 AND RAD 255 or CTT 112 or department permission.

CTT 271. CT Clinical Education I. 5 Credits. Provides clinical education experience in an affiliated hospital or clinical CT department under the direct supervision of a registered technologist and radiologist. Includes the application of equipment use, manipulation and operation, CT imaging procedures, CT radiation safety and patient care. Requires attendance and clinical competencies, objectives, and performance assessments. Teaching skills that are required to function in the clinical area as a CT technologist, with a professional work ethic. May be repeated one time for credit. Prerequisite: CTT 101, CTT 103, CTT 111.

CTT 272. CT Clinical II. 5 Credits. Provides intermediate and advanced clinical education experience in an affiliated hospital CT imaging department under the supervision of a credentialed CT technologist and radiologist. Includes application of equipment manipulation and operation, CT imaging procedures, radiation safety, medicolegal and ethical protocols, record keeping and patient care. Requires attendance and completion of clinical competencies, objectives, and performance assessments. Teaches the necessary skills that are required to function in the clinical area as a CT technologist, with a professional work ethic. May be repeated one time for credit. Prerequisite: CTT 271 or RAD 270.

COMPUTER AIDED DESIGN DRAFT

CADD 100. CADD Orientation. 3 Credits. Introduces product lines and manufacturing operations through visual media or facility tours. Covers fundamentals of technical report writing, memos, and resume development with instruction relating to sentence structure, paragraph and essay development, and written expression. Includes internet research of technical products related to drafting and design and American National Standards Institute drafting practices and terminology. Introduces file systems and learning management systems using Windows and PCC specific protocols. Prerequisites: (WR 90 and RD 90) or IRW 90 or equivalent placement or instructor approval. Audit available.

CADD 105. Digital Design and Fabrication Fundamentals. 3 Credits. Introduces design and drafting skills needed to produce 2-D mechanical drawings using hand sketching techniques on grid paper. Includes orthographic projection, lettering, auxiliary views, sections and pictorial drawings. Covers dimensioning basics. Audit available.

CADD 160. Drafting Fundamentals. 4 Credits. Introduces skills needed to produce 2-D mechanical drawings using hand sketching techniques on grid paper. Includes orthographic projection, lettering, auxiliary views, sections and pictorial drawings. Covers dimensioning basics. Audit available.

CADD 165. Intermediate Drafting. 4 Credits. Continues material presented in CADD 160. Introduces geometric construction, fasteners, keys and keyways, fillets and radius, surface finish, and tolerances. Prerequisite: CADD 160. Audit available.

CADD 175. SolidWorks Fundamentals. 3 Credits. Introduces SolidWorks software as a 3-D design tool. Covers creation, retrieval and modification of 3-D and layout drawings using basic SolidWorks commands. Includes skills needed to create parametric models of parts and assemblies; generate dimensioned layouts, and Bill of Materials of those parts and assemblies. Audit Available.

CADD 185. Inventor Fundamentals. 3 Credits. Introduces Inventor as a feature-rich, parametric 3D design tool for assembly-centric modeling and collaborative engineering. Includes part and assembly modeling, using adaptive features and parents, utilizing work groups, surfacing basics, managing data, and the Engineer’s Notebook. Audit available.

CADD 195. Statics and Mechanics for Mechanical Designers. 4 Credits. Introduces the technical designer to engineering statics, strength of materials and applications to computer aided mechanical design and analysis. Emphasizes good design practices for robust and optimized mechanical designs. Requirement: A scientific calculator. Prerequisites: CADD 115, CADD 175 or CADD 185, (MTH 60 or MTH 62) and (RD 90 or IRW 90 or ESOL 250). Audit available.

CADD 235. Materials and Design for Manufacturing Processes. 3 Credits. Introduces engineering materials and manufacturing processes to the technical designer. Emphasizes sustainability and design for manufacturing and assembly (DFM/DFMA) following industry standard practices. Prerequisite: CADD 160 and (CADD 175 or CADD 185). Prerequisite/concurrent: CADD 195. Audit available.

CADD 245. Product Design and Development Fundamentals. 3 Credits. Covers practical application of industry standard product development process(es) and associated tools. Prerequisites: CADD 195, CADD 235 and (CADD 175 or CADD 185) or instructor approval.

CADD 246. AutoCAD 3-D and Solid Modeling. 3 Credits. Introduces 3-Dimensional drafting and design procedures. Examines concepts including 2D and 3D primitives, User Coordinate Systems, 3D v-points, complex extrusions, regions, shading and rendering, 3D solid models, and supportive AutoCAD 3D databases. Prerequisite: CADD 136. Audit available.

CADD 255. Kinematics Drafting. 3 Credits. Introduces kinematics and design for mechanical drafting. Covers the translation of motion and force, including cams, gears, belts/pulleys and chains/sprockets. Prerequisite: CADD 160 and (CADD 175 or CADD 185). Audit available.

CADD 256. Advanced AutoCAD. 3 Credits. Examines customization of AutoCAD menu and Lisp files. Includes buttons, POP, image, screen and tablet sections, creation and implementation of user-defined AutoLISP functions, and basic file management techniques. Prerequisite: CADD 136. Audit available.

CADD 265. Mechanical Design Drafting. 4 Credits. Covers mechanical drafting with a focus on the development of 3D feature-based parametric part and assembly models for creation of technical mechanical drawings. Includes threads and fasteners, weldments and welding symbols, sheet metal, surface finishes, coatings, platings, and tolerancing. Prerequisites: CADD 115, CADD 160 and (CADD 175 or CADD 185). Prerequisite/concurrent: CADD 275 or CADD 285. Audit available.

CADD 275. SolidWorks Advanced. 3 Credits. Covers advanced drafting and design procedures. Examines concepts including 2D and 3D primitives, User Coordinate Systems, 3D v-points, complex extrusions, regions, shading and rendering, 3D solid models, and supportive AutoCAD 3D databases. Prerequisite: CADD 136. Audit available.

CADD 285. Advanced Inventor. 3 Credits. Covers advanced techniques used in creating and modifying parametric, assembly-centric 3D models with Inventor. Develops extensive knowledge in the areas of part and assembly modeling, adaptive features, utilizing work groups, surfacing, managing data and the Engineer’s Notebook. Prerequisite CADD 165; or department permission. Audit available.
COMPUTER APPLICATIONS SYSTEMS

CAS 100A. Computer Success Skills. 3 Credits.
Introduces essential computer skills to develop a basic understanding of computers, file management and word processing. Includes an overview of Internet basics and an introduction to the online platform D2L. Covers current computer vocabulary, basic computer tasks, and keyboarding skills. Recommended: (WR 80 and RD 80) or (ESOL 252 and ESOL 250) or equivalent placement. Audit available.

CAS 101. Introduction to Website Development & Design. 1 Credit.
Explores the different roles, skill sets, jobs, and tools associated with the website development and design industry. Introduces the Website Development & Design program, including course options, software, and equipment requirements. Introduces online portfolio requirements for Website Development & Design program. Recommended: CAS 133 or equivalent file management and word processing experience, placement into RD 115 or WR 115.

CAS 103. Introduction to Windows. 1 Credit.
Introduces the Microsoft Windows operating system on personal computers. Includes file management, basic word processing, accessories, and introduction to the FCC portal. Recommended: Placement into RD 115 and WR 115. Audit available.

CAS 104. Basic Internet Skills. 1 Credit.
Introduces web terminology, web browsers, search techniques, and communication tools. Audit available.

CAS 106. Introduction to HTML. 1 Credit.
Introduces basic concepts of creating simple web pages with HTML. Develops knowledge of working with HTML tags using a text editor, and file transfer Protocol (FTP) using an FTP application. Recommended: Placement into RD 115 and WR 115; CAS 103 or CAS 133 or equivalent file management experience. Note: Students pursuing a web certificate or degree should take CAS 206. Audit available.

CAS 109. Beginning PowerPoint. 1 Credit.
Introduces the basic features of Microsoft PowerPoint, producing multimedia slideshows for presentations to be delivered on a projection system, personal computer, or automated to run independently on a kiosk. Explores informational, educational, business, and personal presentations. Includes animations, transitions, and designs. Recommended: Placement into RD 115 and WR 115. Audit available.

CAS 110. Introduction to Web Graphics. 1 Credit.
Introduces the creation of graphics for use on websites using industry-standard graphics editing software. Includes creating vector-based and pixel-based graphics, optimizing images for websites, selecting appropriate image file formats, and performing basic photo photo editing. Recommended: placement into RD 115 and WR 115. Audit available.

CAS 111D. Beginning Website Creation: Dreamweaver. 3 Credits.
Introduces basic elements of website creation using Adobe Dreamweaver. Includes web terminology, basic HTML, uploading pages to a server (FTP), site management, tables, layout, style sheets (CSS), rollovers, optimizing graphics, and accessibility. Recommended: CAS 110 and CAS 133 or equivalent file management and word processing experience; placement into RD 115 and WR 115. Audit available.

CAS 111W. Beginning Website Design: WordPress. 3 Credits.
Introduces the creation of sophisticated, dynamic, interactive and fully functional websites using WordPress, a Content Management System (CMS). Includes installing and modifying themes, creating efficient site navigation using menus and categories, organizing a site, enhancing a site with plugins and widgets, integrating a blog, and creating user functionality with user logins. Covers basic HTML and CSS and site planning. Recommended: placement into RD 115 and WR 115. Audit available.

CAS 118. Beginning Photoshop. 3 Credits.
Introduces the creation of professional graphic images using Adobe Photoshop, Camera Raw and Bridge. Includes image resolution, file formats, copyright issues, and using various tools and features. Recommended: CAS 133 or equivalent file management skills. Audit available.

CAS 121. Beginning Keyboarding. 3 Credits.
Covers the skills necessary to touch type on the computer keyboard using correct techniques. Includes the development of speed and accuracy. Covers the production of basic business and academic documents. Recommended: Placement into RD 90 and WR 90 or above. Audit available.

CAS 121A. Beginning Keyboarding. 1 Credit.
Introduces the alphabetic portion of computer keyboard by touch. Develops and improves basic keyboarding techniques. Recommended: Placement into RD 90 and WR 90 or above. Audit available.

CAS 122. Keyboarding for Speed and Accuracy. 3 Credits.
Develops confidence, endurance, and control for accurate keyboarding while increasing keyboarding speed. Develops ability to proofread documents accurately and efficiently. Requirement: Keyboarding by touch. Recommended: Placement into RD 90 and WR 90 or above. Audit available.

CAS 123. Professional Document Formatting. 3 Credits.
Covers formatting, proofreading, and editing to produce business documents such as professional reports, meeting & events materials, and business letters utilizing a variety of software technologies. Focuses on improving and increasing speed and accuracy of keyboarding skills for document production. Recommended: Placement into RD 115 and WR 115 or higher; OS 220; keying 40 wpm by touch. Prerequisite: CAS 216 or instructor permission. Audit available.

CAS 133. Basic Computer Skills/Microsoft Office. 4 Credits.

CAS 137. Basic Web Design Skills/Adobe. 3 Credits.
Introduces the basic features of Adobe Creative Cloud software including Bridge, Photoshop, Dreamweaver, Illustrator, and Acrobat. Includes using the software to edit photos, create basic websites, design basic graphics, and organize web projects. Recommended: CAS 133 or equivalent file management and word processing experience and placement into RD 115 and WR 115. Audit available.

CAS 140. Beginning Access. 3 Credits.
Introduces the basic features of Microsoft Access. Covers beginning database management concepts including tables, forms, reports, queries, and basic macros. Stresses a working knowledge of database management vocabulary. Emphasizes efficient use of Access toolbars and menus. Discusses database design issues. Recommended: Placement into RD 115 and WR 115. Audit available.

CAS 151. Microsoft Outlook. 1 Credit.
Introduces the basic features of Microsoft Outlook to send and receive e-mail, organize schedules and events, and maintain contact lists, to-do lists, and tasks. Emphasizes the Outlook skills necessary in business environments. Recommended: Placement into RD 115 and WR 115. Audit available.

CAS 170. Beginning Excel. 3 Credits.
Introduces the basic features of Microsoft Excel and spreadsheet concepts to design and create accurate professional worksheets for use in business and industry, and academic environments. Includes entering data; creating formulas; professional formatting; creating charts; creating, sorting, and filtering tables; creating and using templates; and working with functions. Focuses on ways to ensure accuracy including proofreading techniques and critical thinking to determine what data to present and how to present it. Recommended: Placement into RD 115, WR 115 and MTH 20. Audit available.

CAS 170A. Beginning Excel. 1 Credit.
Introduces the basic features of Microsoft Excel. Includes moving around the spreadsheet, entering data, formatting, and printing. Stresses a working knowledge of spreadsheet vocabulary. Recommended: Placement into RD 115 and WR 115. Audit available.

CAS 171. Intermediate Excel. 3 Credits.
Introduces advanced features of Excel to design and create accurate, professional worksheets for use in business and industry. Includes financial, logical, lookup, data analysis and database functions; pivot tables; “what-if” analysis with data tables; importing data; complex graphs; and macros; and solver features. Focuses on ways to ensure accuracy including proofreading techniques and critical thinking to determine what data to present and how to present it. Prerequisite: CAS 170 or instructor permission. Audit available.

CAS 175E. Intro Web Animation. 3 Credits.
Introduces the creation of animated and interactive web content using industry-standard software that can be viewed on any web supported device. Includes producing animated and interactive web projects using text, shapes, and imagery. Prerequisite: CAS 206. Audit available.

CAS 180. Search Engine Optimization-SEO. 3 Credits.
Introduces current techniques, skills and concepts used to optimize the searchability of web pages on the Internet. Covers the creation of a tailored Search Engine Optimization (SEO) strategy, including on-page and off-page search engine optimization, meta data research and analysis, traffic generation, online tools and SEO software. Explores client side SEO. Audit available.
CAS 181D. CMS Website Creation: Drupal. 3 Credits.
Introduces the creation of sophisticated, dynamic, interactive and fully functional websites using Drupal, a Content Management System (CMS). Includes setting up a Drupal website in a remote server environment, working with modules, creating efficient site navigation using menus, and organizing a site using modules, blocks, nodes, content types and fields. Also includes enhancing a site with additional content types, modules and themes, and creating user functionality with user logins. Prerequisite: CAS 215 or instructor permission. Recommended: CAS 111D and CAS 206; placement into RD 115 and WR 115. Audit available.

CAS 181J. CMS Website Creation: Joomla. 3 Credits.
Introduces the creation of sophisticated, dynamic, interactive and fully functional websites using Joomla, a Content Management System (CMS). Includes setting up a Joomla website in a remote server environment, working with templates, creating efficient site navigation using menus, organizing a site using components and modules, enhancing a site with plugins and extensions, and creating user functionality with user logins. Recommended: CAS 206, and CAS 215; placement into RD 115 and WR 115. Audit available.

CAS 206. Principles of HTML and CSS. 4 Credits.
Introduces HTML using an HTML editor. Includes web terminology, HTML5, uploading pages to a server (FTP), site management, links, lists, tables, forms, video, iframes, working with graphics, and accessibility. Includes an introduction to responsive (CSS) and dynamic (JavaScript) web design. Covers the creation of multipage websites using these technologies. Recommended: CAS 133 or equivalent file management, word processing experience and placement into RD 115 and WR 115. Audit available.

CAS 211W. WordPress Customizations and Theme Building. 3 Credits.
Covers the modification and customization of existing WordPress themes using child themes. Includes using a responsive HTML5/CSS3 framework to create new, unique themes. Explores editing and updating the Theme Customizer and other dashboard enhancements. Introduces the creation of menu capability, page templates, widgets, sidebars and other widget areas. Covers WordPress PHP functions and hooks. Includes e-commerce, translation, and SEO concepts. Includes creating basic plugins, security and techniques for backing up and moving WordPress sites. Recommended: CAS 111W, CAS 206, and CAS 213 or a working knowledge of WordPress, HTML5, CSS3 and basic JavaScript or PHP programming concepts and placement into RD 115 and WR 115. Audit available.

CAS 213. JavaScript and jQuery for Designers. 4 Credits.
Develops skills to find, utilize and modify JavaScript and jQuery resources on the Internet. Explores a variety of interactive effects such as displaying and hiding text or images, filling out form fields automatically, creating interactive maps or calendars, and creating DHTML windows. Prerequisite: CAS 206 or instructor permission. Audit available.

CAS 215. Intermediate CSS and Preprocessors. 4 Credits.
Extends skills in CSS to an intermediate/advanced level. Includes responsive design, grids, transitions/transforms, and CSS preprocessors, such as SASS or LESS, to save time, improve code organization, and make sites easier to maintain. Recommended: Placement into RD 115 and WR 115. Prerequisite: CAS 206 or instructor permission. Audit available.

CAS 216. Beginning Word. 3 Credits.
Introduces the basics of Microsoft Word to create, edit, and print documents such as letters, memos, and manuscripts; produce multi-page documents; use headers and footers; become familiar with the program’s writing tools and basics of enhancing documents; and produce merged copy. Recommended: Placement into RD 115 and WR 115; keyboarding 25 words per minute. Audit available.

CAS 216A. Beginning Word. 1 Credit.
Introduces the basics of Microsoft Word to create, edit, and print basic documents such as letters and memos and become familiar with the program’s writing tools. Recommended: Placement into RD 115 and WR 115; keyboarding 25 words per minute. Audit available.

CAS 217. Intermediate Word. 3 Credits.
Introduces additional concepts of Microsoft Word to enhance documents through advanced features. Includes working with images; creating/using styles; formatting multiple-page documents using advanced features of headers/footers and section breaks; integrating software to create and format tables and charts; using advanced mail merge; creating documents with columns; creating and using fill-in forms. Recommended: Placement into RD 115 and WR 115. Prerequisites: CAS 216 or instructor permission. Audit available.

CAS 220. Project Management - Beginning MS Project. 3 Credits.
Introduces MS Project, including building entry tables, generating reports, resolving resource and time conflicts, importing data, and tracking budgets. Includes the design and creation of accurate Gantt charts for use in project management. Recommend: Placement into RD 115 and WR 115; experience with project management or MSD 279; working knowledge of Windows and file management in this course is part of the Project Management series of classes that includes MSD 279, BA 255, and CIS 245. Audit available.

CAS 222. Integrated Website Design. 4 Credits.
Reinforces industry-standard practices for creating professional websites. Focuses on user acceptance testing, usability testing, social media integration, accessibility, form processing using a database, JavaScript/jQuery interactivity and mobile-first web design. Includes troubleshooting of existing websites and working in production/development environments. Prerequisite: CAS 215 and (CAS 213 or CIS 133W) and (CAS 225 or CIS 195P). Audit available.

CAS 225. PHP and MySQL for Designers. 4 Credits.
Develops skills for finding, utilizing and modifying PHP and MySQL resources on the Internet. Explores ways to personalize web sites for visitors with a variety of dynamic server-based techniques such as processing forms, displaying text or images from a database, implementing a shopping cart or a discussion board, tracking visitors, and password-protecting a web site. Includes how to install PHP and MySQL. Prerequisite: CAS 213 or instructor permission. Audit available.

CAS 231. Publisher. 3 Credits.
Introduces Microsoft Publisher to design and create effective publications that combine text graphics, illustrations, and/or photographs such as announcements, flyers, advertisements, and reports. Covers the processes to create, import, and manipulate text, graphics, and/or templates through publishers and features. Recommended: Placement into RD 115 and WR 115; prior knowledge and use of Windows technology. Audit available.

CAS 232. Desktop Publishing: InDesign. 3 Credits.
Introduces Adobe InDesign, a desktop publishing software, to design and create effective publications such as announcements, flyers, advertisements, and reports. Covers the processes to create, import, and manipulate text and/or graphics through use of software features. Recommended: Placement into RD 115 and WR 115 and prior knowledge and use of Windows technology and CAS 216. Audit available.

CAS 233. Beginning Illustrator. 3 Credits.
Introduces Adobe Illustrator to create vector graphics and illustration components for the web. Covers the processes to create, import and manipulate text and/or graphics through use of software features. Recommended: CAS 133 or equivalent file management experience. Audit available.

CAS 242. UX/UI Design for the Web. 3 Credits.
Introduces user experience (UX) and user interface (UI) design for the web. Covers gathering requirements, research, project management and user-centric design concepts to produce HTML and CSS web pages that display accurately on any web-supported device. Includes the creation of user personas, content inventories, mood boards, and low and high fidelity wireframes. Covers web standards for color management, design principles, and usability best practices. Prerequisite: CAS 110, CAS 206. Prerequisite/concurrent: CAS 215. Audit available.

CAS 246. Integrated Computer Projects. 4 Credits.
Builds upon previous computer and business knowledge to create individual and group projects using software found in today’s workplace. Uses integrated software (i.e. MS Office) and current technology to further develop professional software skills. Prerequisite: CAS 216 and CAS 170 or instructor permission. Recommended: CAS 109, CAS 140, CAS 171, and CAS 217. Audit available.

CAS 265. Emerging Web Tools and Trends. 3 Credits.
Explores emerging tools and trends in website development and design and their applicability to employment. Prerequisites: CAS 206 and CAS 215. Audit available.

CAS 275. Intermediate Flash. 3 Credits.
Continues to explore Flash concepts to create a Flash-based website and work on complex animations and effects. Includes working with frame labels, nested movie clip symbols, some ActionScript to support website creation and the incorporation of video and audio. Recommended: CAS 111D or CAS 111E or CAS 206 or equivalent. Prerequisite: CAS 175 or instructor permission. Audit available.

CAS 280W. Cooperative Education: Web Site Development. 1-4 Credit.
Provides field experience related to web site development. Recommended: Satisfactory progress through two terms of website classes or equivalent experience. Prerequisite: Instructor permission required. Audit available.
COURSE DESCRIPTIONS

COMPUTER INFORMATION SYSTEMS

CIS 120. Computer Concepts I. 4 Credits.
Introduces computing fundamentals from older, mature technologies through recent and emerging technologies. Utilizes key applications, such as word processing, spread sheet, database, and presentation software, to solve realistic problems. Explores the benefits and risks of the online environment. Recommended: basic computer skills equivalent to CAS 133 or BA 131. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS.

CIS 121. Computer Concepts II. 4 Credits.
Covers evaluation, selection and application of computer technology to solve practical problems in web page design, database design, networking and programming. Addresses security and ethical issues associated with technology. Recommended: CIS 133 or BA 131. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS.

CIS 122. Introduction to Programming Logic. 4 Credits.
Covers the logic of programming and how to break problems down into algorithmic solutions. Includes problem solving, basic logic constructs, testing and debugging programs, modular programming, and secure coding. Emphasizes development of secure, well-designed software projects. Recommended: CIS 120 or CIS 121 or CAS 133 or BA 131. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS.

CIS 125D. Database Application Development I. 4 Credits.
Concepts of a client-based relational database management system (RDBMS) and application of such systems to the business environment. Topics include database management issues, database design, creating and maintaining databases, creating forms, queries and reports. Design, create and maintain a database system. Recommended: CIS 121 or instructor permission. Audit available.

CIS 133J. Java Programming I. 4 Credits.
Covers design, implementation and testing software using Java. Introduces how to write Java programs that solve practical, real-world, business-oriented problems using object-oriented design techniques. Prerequisite: CIS 122. Audit available.

CIS 133N. Introduction to Programming Using C#.NET. 4 Credits.
Introduces design, implementation and testing of software using C#.NET. Includes how to write C# .NET programs that solve practical, real-world, business-oriented problems. Prerequisite: CIS 122 or instructor permission. Audit available.

CIS 133W. JavaScript for Web Developers. 4 Credits.
Covers fundamental programming concepts to build practical, real-world web applications using JavaScript. Covers building websites that handle user events to manipulate page content on-the-fly, opening the door to a plethora of dynamic web interactions. Prerequisites: (CIS 122 or CAS 213) or instructor permission. Audit available.

CIS 135M. Mobile Application Programming for Android. 4 Credits.
Covers introductory mobile application development for the Android Operating System using XML and Java. Includes developing simple applications that could run on Android phones and tablets. Covers Android application development phases, terminologies, application design, and coding. Recommended: prior completion of or concurrent enrollment in CIS 133J. Prerequisite: CIS 122. Audit available.

CIS 135T. XML and HL7. 4 Credits.
Introduces design and creation of basic XML documents, namespaces, validation of an XML document using DTDs (Document Type Definitions) and schemas, importing and including XML schema domain information, XML schema intrinsic and user-defined data types, and combining XML with XHTML and Cascading Style Sheets. Discusses the advantages and disadvantages of XML design formats of Flat Catalog, Russian Doll and Venetian Blind. Introduces HL7. Recommended: CIS 122 or instructor permission. Audit available.

CIS 140M. Operating Systems I: Microsoft. 4 Credits.
Introduces Microsoft operating systems administration including installation, configuration, and management. Covers command line interface and GUI tools to organize, manage and maintain the file system. Introduces users, groups, printing, profiles, policies and the registry. Prerequisite: CIS 120 or instructor permission. Audit available.

CIS 145. Microcomputer Hardware and Troubleshooting. 4 Credits.
Students will learn to identify, remove, and install standard components of a PC style microcomputer, including motherboards, CPUs, RAM, hard drives, removable media drives and power supplies. Additional topics include BIOS, CMOS, the boot process, video displays, printers, and home networking. Audit available.

CIS 178. Applied Internet Concepts. 4 Credits.
Introduces the Internet from a user's perspective, with emphasis on productive, professional access. Topics include how to connect to the Internet, how to communicate with others, how to find and share information productively, as well as educational, business and social issues related to the Internet. Recommended: CIS 120 or instructor permission. Audit available.

CIS 179. Data Communication Concepts I. 4 Credits.
Provides basic concepts of data communications and networking. Explores hardware, connectivity, signaling, addressing, network topologies, communication protocols, network design, switching, management, security and standards with emphasis on the TCP/IP protocol suite. Prerequisite: CIS 120 or CIS 121 or EET 111 or MT 111 or instructor permission. Audit available.

CIS 1817. Web Technical Administration. 4 Credits.
Introduces the webserver environment. Focuses on the knowledge and skills necessary to understand the configuration and management of web servers running Linux and Windows server operating systems. Covers Internet connections, file transfers, user/group management and security systems. Investigates web system logs, web content backup strategies, and web site performance. Prerequisites: CIS 121 or instructor permission. Audit available.

CIS 188. Introduction to Wireless Networking. 4 Credits.
Introduces wireless networking theory and its practical application. Explores a variety of current and emerging wireless Local, Metropolitan, and Wide Area Networking technologies. Topics may include: WiFi (802.11a/b/g/n), Bluetooth, WiMAX (802.16), 3G Cellular, and others. Includes hands-on design of wireless networks and the configuration of wireless Access Points. Prerequisite: CIS 179, or instructor permission. Audit available.

CIS 189. Wireless Security. 4 Credits.
Introduces wireless security intrusion, policies, tools, and solutions. Prerequisite: CIS 179 or instructor permission. Recommended: CIS 188. Audit available.

CIS 195P. PHP Web Development I. 4 Credits.
Introduces the server-side scripting language, PHP, and its use in the development of websites. Includes web server, PHP and MySQL database installation, scripting, techniques, database manipulation, user authentication, tracking and session management and e-commerce techniques. Prerequisite: CIS 122 or CAS 225. Audit available.

CIS 225. End User Support. 4 Credits.
Prepares computer professionals for providing training and support to end users. Includes the roles and responsibilities of the end-user support person; characteristics of the adult learner; and strategies and techniques for developing instruction, teaching technical subject matter, troubleshooting and providing ongoing technical support. Prerequisites: CIS 120 or instructor permission. Audit available.

CIS 233J. Java Programming II. 4 Credits.
Covers the use of Java to access databases and files including XML. Includes creating collections and arrays and using inheritance in Java programs. Prerequisites: CIS 133J. Prerequisites/concurrent: CIS 275. Audit available.
CIS 233N. Intermediate C# .NET Programming. 4 Credits.
Utilizes C# .NET to teach streams and relational databases. Includes how to follow UML diagrams to create objects, arrays and collections that solve advanced, real world, business oriented problems. Introduces building an interactive web page using ASP.NET. Includes writing test plans to evaluate software quality. Continues use of object-oriented design techniques. Prerequisites: CIS 133N. Prerequisite/concurrent: CIS 275 or instructor permission. Audit available.

CIS 233W. JavaScript for Web Developers II. 4 Credits.
Covers advanced programming concepts to build practical, real-world web applications using JavaScript, AJAX, and jQuery. Covers Object-Oriented Design and Programming, User Interface (UI) design and implementation, and communicating with a web server back-end. Covers using these techniques to create dynamic, interactive web applications, as well as the language-specific details needed to implement them in JavaScript. Prerequisites: CIS 133W. Audit available.

CIS 234A. Real-World Programming. 4 Credits.
Introduces real-world programming using agile software development methodologies. Includes a comprehensive team project utilizing object-oriented programming languages and relational databases. Prerequisites: (CIS 233J or CIS 233N or CIS 235W or CIS 264P), and CIS 275, or instructor permission. Audit available.

CIS 235W. Introduction to Web Analytics. 4 Credits.
Focuses on the collection and analysis of user traffic data for the optimization and monetization of web sites. Covers the content and format of web server logs, and techniques for enriching this data using cookis, Javascript, and user registration. Illustrates how web content can be aggregated by type and used to create saleable inventory for generating ad revenue. Shows how web metrics can be used to determine web site stickiness, effective content on the site, and to identify and fix navigational bottlenecks that cause user churn. CAS 18U is recommended prior to taking this course. Prerequisites: CIS 122 or instructor permission. Audit available.

CIS 240L. Linux Installation and Configuration. 4 Credits.
Introduces the administration of systems utilizing the Linux operating system. Focuses on knowledge and skills necessary for day-to-day operations on a Linux system using the command line. This is the first course of a two course sequence. Prerequisite: CS 140U or instructor permission. Audit available.

CIS 240M. Managing a Windows Server Environment. 4 Credits.
Covers preparation for an entry-level systems administrator position utilizing Microsoft server operating systems. Focuses on the knowledge and skills necessary to install, configure and manage an Active Directory domain consisting of Microsoft Windows servers and workstations. Prerequisites: CIS 140M or instructor permission. Audit available.

CIS 243. E-sciences of E-Commerce Information Systems. 4 Credits.
Encompasses the multi-faceted aspects of e-commerce information systems. Combines study of e-commerce, database and programming concepts with hands on skills. Provides a framework for the analysis of information system based e-commerce solutions to issues surrounding B2B, B2C, and intra-organizational trade. Provides a solid background in critical issues and technologies related to e-commerce. Recommended: CIS 120 and one programming class or instructor permission. Audit available.

CIS 244. Systems Analysis. 4 Credits.
Provides overview of the system development life cycle (SDLC) emphasizing analytical techniques to develop the correct definition of business problems and user requirements. Students will prepare a feasibility assessment and develop system requirements for an assigned project. Recommended: One class in a high-level programming language and WR 227. One 200-level business administration course. Additional lab hours may be required. Audit available.

CIS 245. Project Management - Information Systems. 4 Credits.
Study practical approaches for managing, planning, organizing and implementing Information Systems projects using modern management techniques. Complete hands-on projects requiring management of project resources, scope, time-line, cost, scheduling, human and other resources. Use Microsoft Project and other project monitoring tools. This course is one of the Project Management series that includes CAS 220, MSD 279, and BA 255. Project management is a broad term that can include many areas of business. Recommended: CIS 122, MSD 279, and CAS 220. Audit available.

CIS 275. Data Modeling and SQL Introduction. 4 Credits.
Introduces the design, uses, and terminology of a database management system. Includes data modeling using Entity Relationship modeling tools and Semantic Object modeling tools, normalization rules, relational database terminology, program development, multi-tier database issues (including the Internet) and data administration. Prerequisite: CIS 133N or CIS 133J or CIS 133W or CIS 195P or CS 161 or CIS 125D or instructor permission. Audit available.

CIS 275W. Advanced SQL. 4 Credits.
Focuses on design, development and implementation of SQL programming for all types of relational database applications including client/server and Internet databases. Covers the writing of complicated interactive and embedded SQL statements and the implications of multi-user database applications. Recommended: Two-term programming language sequence. Prerequisites: CIS 275 and (CIS 133N or CIS 133W or CIS 135J or CS 161 or CIS 125D) or instructor permission. Audit available.

CIS 277D. Database Security. 4 Credits.
Covers all aspects of securing a database. Uses Oracle database security to explain concepts in a relational database. Topics covered include: the importance of a database policy, identification and authorization methods (including web and proxy), securing connection pools and proxy authorization, identity management and enterprise users, authorizations and auditing, fine-grained access control (including application contexts security, views, row-level security, virtual private database, Oracle label security and database encryption). Recommended: CIS 276. Additional lab hours may be required. Audit available.

CIS 277O. Advanced Database Concepts in Oracle. 4 Credits.
Covers concepts with Oracle including PL/SQL programming concepts review. Includes design considerations for PL/SQL program units and packages. Advanced interface methods, features for PL/SQL, performance and tuning, and advanced facets of Oracle supplied packages also covered. Recommended: CIS 276. Audit available.

CIS 277T. Web Business Intelligence Application Development. 4 Credits.
Introduces fundamentals of Oracle Application Express 4.0, Web Application Development and Business Intelligence reporting using the newest ANSI 99 standard’s features for SQL and DML. Covers fundamentals of Web Business Intelligence reporting and Web Interface development. Recommended: CIS 276 or equivalent database experience. Audit available.

CIS 278. Data Communication Concepts II. 4 Credits.
Provides in-depth concepts of data communications, and networking. Explores network architectures, complex network designs and network hardware configuration. Includes a close look at network/telephone company interfaces. Includes configuring operating Cisco routers and other data communication equipment in order to build functional networks. Prerequisite: CIS 179, or instructor permission. Audit available.

CIS 279L. Linux Network Administration. 4 Credits.
Second of a two-term sequence designed to prepare students for an entry-level position as a system administrator of a network utilizing the Linux network operating system. Covers networking, TCP/IP, DNS, DHCP, NFS and Samba . Prerequisite: CIS 240L or instructor permission. Audit available.

CIS 280D. Cooperative Education: Application Development. 1-4 Credit.
Develop career objectives by linking course work with off-campus learning experiences in computer information systems of the public/private sector organizations. Successful completion of 18 CIS course credit hours in CIS declared major with a letter grade of C or better, and instructor permission.

CIS 284. Network Security. 4 Credits.
Continues exploring the role of network administrator. Focuses on the knowledge and skills necessary to maintain system security and to install, configure and maintain a local area network with common internet applications. Emphasizes the use of Open Source software and CompTIA’s Security+ content. Prerequisite: CIS 240M or CIS 279L or instructor permission. Audit available.

CIS 284C. Cybersecurity Concepts. 4 Credits.
Provides an introduction to cybersecurity. Explores security trends, vulnerabilities, threats to those vulnerabilities, and current techniques and tools used to fortify network defenses. Examines legal issues associated with information security, as well as how those issues are addressed within the context of an organization. Prerequisites: CIS 179 and (CIS 140M or CS 140U) or instructor permission. Audit available.

CIS 286. Computer Forensics. 4 Credits.
Introduces computer security administrators to computer forensics. Includes setup and use of an investigator’s laboratory, computer investigations using digital evidence controls, processing crime and incident scenes, performing data acquisition, computer forensic analysis, e-mail investigations, image file recovery, investigative report writing, and expert witness testimony. Includes information from the IACIS certification. Prerequisite: CS 140U or and either CIS 240L or CIS 240M or instructor permission. Audit available.

CIS 287L. Web Server Administration. 4 Credits.
Provides systems administrators with the knowledge and skill sets to install, configure, implement, and manage a web server running Windows server or Linux operating system (does not cover publishing web page content). Prerequisites: CIS 240M or CIS 240L or instructor permission. Audit available.
CIS 287M. Microsoft Server Security. 4 Credits.
Prepares IT security professionals working in a medium to large computing environments to implement authorization and authentication strategies, uses certificates and certificate authorities, use Encrypting File System, create secure baselines, use Software Update Services, enhance data transmission security, wireless network security, perimeter security and secure remote access. Focuses on Windows Server with some client content. Prerequisites: CIS 240M or instructor permission. Audit available.

CIS 287X. Microsoft Exchange Management. 4 Credits.
Covers preparation for an entry-level position as a systems administrator for a network utilizing Microsoft Exchange Server for email administration. Focuses on the knowledge and skills necessary to design, install, configure, and administer a network infrastructure that uses Microsoft Windows Server products. Prerequisites: CIS 240M or instructor permission. Audit available.

CIS 288M. Microsoft Network Administration. 4 Credits.
Covers preparation for an entry-level systems administrator position utilizing Microsoft server operating systems. Focuses on the knowledge and skills necessary to design, install, configure, and administer a network that uses Microsoft Windows Server products. Prerequisites: CIS 240M or instructor permission. Audit available.

CIS 289M. Microsoft Active Directory Administration. 4 Credits.
Covers preparation for an entry-level systems administrator position utilizing Microsoft server operating systems. Focuses on the knowledge and skills necessary to design, install, configure, and administer an Active Directory network using Microsoft Active Directory, including implementing Group Policies to centrally manage users and computers. Prerequisites: CIS 240M or instructor permission. Audit available.

CIS 295P. PHP Web Development II. 4 Credits.
Introduces the advanced capabilities and features of PHP for Web site development. Includes using the object-oriented features of PHP, developing applications for security and portability, advanced features of MySQL, creating efficient applications by implementing business logic within the database itself using stored procedures and triggers. Prerequisite: CIS 195P. Prerequisite/Concurrent: CIS 275. Audit available.

COMPUTER SCIENCE

CS 133G. Introduction to Computer Games. 4 Credits.
Introduces fundamentals of computer game development, including a survey of computer game categories and platforms, major game components, the game development process, and game graphics. Design and development of elementary two-dimensional computer games. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS.

CS 133U. C Programming. 4 Credits.
Introduces computer programming through development of C programs to solve practical problems. Recommended: CS 160. Audit available.

CS 140U. Introduction to UNIX. 4 Credits.
Introduces the UNIX/Linux operating system, including: task scheduling and management, memory management, input/output processing, internal and external commands, shell configuration, and shell customization. Explores the use of the operating system utilities such as text editors, electronic mail, file management, scripting, and C/C++ compilers. Discusses trends in UNIX/Linux, including use of graphical user interfaces. Recommended: CS 160. Audit available.

CS 160. Exploring Computer Science. 4 Credits.
Explores the field of computer science. Provides an overview of computer architecture, software development engineering, data organization, problem-solving strategies, ethics, and theory of computation. Explores career options and develops rudimentary software development skills. Recommended: Computer Literacy (such as completion of CIS 120); MTH 60 and RD 115. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS.

CS 161. Computer Science I. 4 Credits.
Introduces the concepts of computer science. Explores problem solving, algorithm and program design, data types, loops, control structures, subprograms, and arrays. Introduces writing programs in a high level programming language. Surveys current social and ethical aspects of computer science. Recommended: MTH 111, WR 121, and CS 160. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS.

CS 162. Computer Science II. 4 Credits.
Explores classes, pointers, dynamic memory, linear linked lists, multidimensional arrays, program correctness, verification, and testing. Recommended: MTH 112 and WR 121. Prerequisites: CS 140U and CS 161. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS.

CS 201. Computer Systems. 4 Credits.
Introduces computer systems from a software perspective. Provides an overview of C and assembly language programming and reading skills. Explores basic systems programming skills and tools to measure and improve program performance based on an understanding of key aspects of machine architecture. Prerequisite: CS 162. Recommended: CS 140U. Audit available.

CS 233G. Game Programming. 4 Credits.
Introduces object-oriented architectures and software design patterns used for game design. Explores a game engine software framework to design and implement several kinds of games, animation techniques, physics simulation, user controls, graphical methods, and intelligent behaviors. Recommended: one term of a programming language such as C, C++, Java or C#. Audit available.

CS 250. Discrete Structures I. 4 Credits.
Introduces discrete structures and computational techniques in the areas of first-order logic, discrete proofs, number theory, sequences, induction, recursion, and set theory. Prerequisite: MTH 111, CS 161. Audit available.

CS 251. Discrete Structures II. 4 Credits.
Introduces discrete structures and computational techniques in the areas of functions, relations, probability, graph theory, algorithm analysis, and finite state automata. Prerequisite: CS 250. Audit available.

CS 260. Data Structures. 4 Credits.
Explores stacks, queues, lists, vectors, hash tables, graphs, trees and algorithms including sorting, searching, iterating over data structures and recursion. Prerequisite: CS 162. Audit available.

CS 261. Programming Systems. 4 Credits.
Explores the theory and practice of object-oriented programming as embodied in both Java and C++. Introduces inheritance, polymorphism, virtual functions, templates, exceptions, operator overloading and the extensive libraries that are available as a standard part of Java and C++. Prerequisite: CS 260. Audit available.

CRIMINAL JUSTICE

CJA 100. Professions in Criminal Justice. 3 Credits.
Provides overview of the various careers in the public safety professions, including police, corrections, parole and probation, juvenile and adult casework, private security, loss prevention, and private investigator. Prerequisites: Placement into WR 121. Audit available.

CJA 101. Cultural Diversity in Criminal Justice Professions. 3 Credits.
Provides introduction and familiarization with communication styles, customs, language and behavior patterns of various cultures, ethnic groups and non-traditional populations as employed by and encountered by criminal justice professions; including police, corrections, parole and probation, juvenile and adult casework, private security, loss prevention, investigation and 911 communications. Prerequisite: WR 121. Audit available.

CJA 111. Introduction to Criminal Justice System - Police. 3 Credits.
Course designed to provide an overview of the role of police in society. Students will become familiar with general concepts related to law enforcement and be introduced to associated foundations and principles that comprise the criminal justice system. A range of issues and facts relevant to policing will be discussed. Included is historical development of police in America, crime data collection, police organization and structure, the police sub-culture, police and community relations, laws and constitutional limitations on authority. Prerequisite: Placement into WR 121. Audit available.

CJA 112. Introduction to Criminal Justice System - Courts. 3 Credits.
This course focuses on the United States criminal court systems including state, federal and miscellaneous other jurisdictions. It covers roles and functions of participants in the adjudication process including the prosecutor, defense attorney, defendant, victim, judge, jury, police and more. Also examined various criminal court procedures from arrest and arraignment through trial and sentencing. Prerequisite: Placement into WR 121. Audit available.

CJA 113. Introduction to the Criminal Justice System - Corrections. 3 Credits.
Covers theories and current practices in correctional treatment, crime prevention, contemporary criminal justice services and treatment methods, and professional career opportunities. Prerequisites: Placement into WR 121. Audit available.
CJA 114. Introduction to Juvenile Process. 3 Credits.
Introduces historical operations including juvenile adjudication and corrections. Covers current programs in Oregon available to juveniles who are or have been involved in the justice system. Provides a focus on integrating theories of causation, juvenile law, and procedural requirements. Prerequisites: Placement into WR 121 (or instructor permission). Audit available.

CJA 115. Introduction to Jail Operations. 3 Credits.
Introduces jail operations including security, intake, classification and other daily procedures concerning inmates. Problems and issues facing contemporary jails will be explored and possible solutions studied. Prerequisites: Placement into WR 121. Audit available.

CJA 117. Introduction to Homeland Security. 3 Credits.
Introduces Homeland Security and its function of coordinating efforts to develop and implement a comprehensive national strategy to secure the nation from terrorist threats or attacks. Agencies associated with Homeland Security along with their duties and relationships are covered. Explores historical events, laws, issues, communications, critical threats and other topics related to protecting the national infrastructure. Prerequisites: Placement into WR 121. Audit available.

CJA 210. Arrest, Search and Seizure. 3 Credits.
Covers issues and procedures regarding stops, frisks, searches, and seizures. Reviews the Fourth Amendment of the United States Constitution and Article 1, Section 9 of the Oregon State Constitution. Includes stops, arrests, privacy issues, search warrants and warrantless searches, and seizures. Reviews case law, current events and statutory law from the Criminal Code of Oregon. Recommended: CJA 112. Prerequisite: WR 121. Audit available.

CJA 211. Civil Liability in Criminal Justice. 3 Credits.
Explores the conduct and ethics of criminal justice practitioners that give rise to civil liability. Focuses on aspects of risk management to help prevent legal claims. Prerequisites: CJA 111 and WR 121 or instructor permission. Audit available.

CJA 212. Criminal Law. 3 Credits.
Introduces substantive criminal law including basic principles of criminal liability, constitutional aspects, defenses and accomplice liability. Elements of specific crimes are covered and court decisions interpreting statutes are analyzed. Prerequisites: CJA 111; WR 121. Audit available.

CJA 213. Evidence. 3 Credits.
Explores the rules regarding the use of evidence according to state and federal laws. A wide variety of topics are introduced relating to evidence including collection, preservation, chain of custody, admissibility and exclusion at trial. Prerequisites: CJA 111; WR 121. Audit available.

CJA 214. Criminal Investigation. 3 Credits.
Introduces modern investigative methods, including the collection and preservation of physical evidence, scientific aids, sources of information, interviews, follow-up and case presentation. Includes techniques of interview and interrogation. Prerequisites: CJA 111; WR 121. Audit available.

CJA 215. Forensic Science and Criminalistics. 3 Credits.
Explores how scientific principles help in crime detection and solution. Familiarizes students with analysis of fingerprints, DNA, body fluids, and other evidence that may be contained at a crime scene. Prerequisites: WR 121. Audit available.

CJA 217. Interviewing and Interrogation. 3 Credits.
Introduces criminal investigative interviewing and interrogations. Provides methodologies for student development. Prerequisites: CJA 100, 111; WR 121. Audit available.

CJA 225. Your Rights and the Police. 3 Credits.
Examines the Bill of Rights with a focus on rights associated with government intrusion during police contact and investigation. Covers rights related to free expression, privacy, searches, seizures, self-incrimination and others. Introduces remedies available for unlawful police conduct. Prerequisite: WR 121. Audit Available.

CJA 228. Terrorism. 3 Credits.
Covers modern investigative methods, including the collection and preservation of physical evidence, scientific aids, sources of information, interviews, follow-up and case presentation. Includes techniques of interview and interrogation. Prerequisites: CJA 111; WR 121. Audit available.

CJA 230. Police Report Writing. 4 Credits.
Introduces the process of casework and case management in a correctional setting. Develops both a theoretical and practical base of knowledge to allow the student to develop counseling techniques. Prerequisite: CJA 100, 113. Audit available.

CJA 231. Crime Scene Photography. 3 Credits.
Examines the art of photography skills to aid in crime scene and evidentiary documentation. Includes camera operation, exposure control, proficiency in relational photos, close-up photography, lighting, flash control and videography. Prerequisite: WR 121. Audit available.

CJA 234. National Security and Intelligence. 3 Credits.
Includes legal aspects, content, organization and grammar. Explores historical events, laws, issues, communications, critical threats and other topics related to protecting the national infrastructure. Prerequisites: WR 121. Audit available.

CJA 243. Narcotics and Dangerous Drugs. 3 Credits.
Covers history and causes of narcotic and drug problems, how to identify drug addicts and drug abusers, how to define and classify various types of narcotics and dangerous drugs, including laws and other controls and rehabilitation programs. Prerequisites: CJA 100; WR 121. Audit available.

CJA 244. Tactical Communication in Crisis Incidents. 3 Credits.
This course focuses on police intervention in the lives of people in the midst of an emotional or physical crisis in the manner designed to minimize or prevent violence while gaining control of the situation. Emphasized are verbal and non-verbal communication techniques and skills utilized to calm the client and gain compliance helping to lead to a successful and safe resolution. Prerequisites: Placement into WR 121 (or instructor permission). Audit available.

CJA 245. Search Warrant Preparation. 3 Credits.
Explores critical concepts in search warrant preparation and focuses on learning to draft legal documents comprised of probable cause statements and judicial orders. Particular attention is paid to strengthening legal writing and evidence gathering in preparation for warrant application. Prerequisites: CJA 210 and WR 227. Audit available.

CJA 246. Fish and Wildlife Enforcement. 3 Credits.
Covers fish and game laws and their relation to wildlife management. Focuses on enforcement processes and techniques including investigation, fish and wildlife forensics, evidence handling, proper citation and report completion in preparation for courtroom presentation. Prerequisites: CJA 111 and WR 121. Audit available.

CJA 247. Introduction to Criminal Gangs. 3 Credits.
Provides information on criminal street gangs and their impact on American society. Student will become familiar with general concepts related to law enforcement interaction with gangs including suppression, intervention, and educational tactics. Prerequisite: CJA 111 and WR 121. Audit available.

CJA 250. Human Trafficking. 3 Credits.
Covers modern investigative methods, including the collection and preservation of physical evidence, scientific aids, sources of information, interviews, follow-up and case presentation. Includes techniques of interview and interrogation. Prerequisites: CJA 111; WR 121. Audit available.

CJA 259. Introduction to Correctional Institutions. 3 Credits.
Provides an overview of correctional facilities including prisons, jails, treatment and work release facilities. Introduces the effects of incarceration on inmates and their adaptive strategies. Introduces various intervention modalities and reintegration programs back into the community. Prerequisites: CJA 113 and WR 121. Audit available.

CJA 261. Introduction to Probation and Parole. 3 Credits.
Introduces Community Corrections or probation and parole in the management of offender behavior. Discusses Management of Community Corrections agencies and community intervention with offenders. Prerequisite: CJA 100, 113. Audit available.

CJA 263. Introduction to Corrections Casework. 3 Credits.
Introduces the process of casework and case management in a correctional setting. Provides a focus on integrating theories of causation, juvenile law, and procedural requirements. Prerequisites: CJA 111 and WR 121. Audit available.

CJA 264. Introduction to Corrections Administration. 3 Credits.
This course provides an overview of the administration and management of corrections facilities, programs and field services. It provides insight into the role and purpose of effective management strategies for the professional delivery of correctional services. Prerequisites: CJA 100 and CJA 113. Audit available.
D 151. Jazz Dance II. 1 Credit.
Continues development of jazz dance technique at the beginning/intermediate level. Emphasizes increased coordination, strength, control, flexibility, stamina, musicality, and jazz dance vocabulary in more challenging combinations. D 151 and PE 186G are equivalent and only one may be taken for credit. Recommended: D 150 or PE 186F or equivalent. Audit available.

D 170. World Dance. 1 Credit.
Introduces traditional and popular dance forms and styles from a selection of countries and cultures. Examines and practices dance movement within a cultural context. Ethnic dances may vary by term. This course is also offered as PE 124; a student who enrolls in this course a second time under either designator will be subject to the course repeat policy. Audit available.

D 175A. Tap Dance I. 1 Credit.
Introduces fundamentals of tap dance technique and vocabulary. Develops a sense of timing, rhythm, and musicality. Emphasizes basic traditional tap steps, rhythm tap combinations and complete dances. D 175A and PE 186K are equivalent and only one may be taken for credit. Audit available.

D 175B. Tap Dance II. 1 Credit.
Continues the development of tap dance techniques beyond introductory level. Further develops a sense of rhythm, musicality, and tap sounds. Teaches basics through intermediate traditional tap steps, rhythm tap combinations, and complete dances. D 175B and PE 186M are equivalent and only one may be taken for credit. Recommended: D 175A or PE 186K or equivalent. Audit available.

D 177. Hip Hop. 1 Credit.
Introduces the fundamental principles and skills of Hip Hop dance. Places emphasis on development of correct technique, strength and flexibility, musicality, and individual expression through movement. Focuses on Hip Hop elements, culture, and terminology. D 177 and PE 186R are equivalent and only one may be taken for credit. Audit available.

D 177B. Hip Hop II. 1 Credit.
Continues the development of Hip Hop dance at an intermediate level with a focus on longer, more challenging phrases and performance aspects. Emphasis will be placed on the development of correct technique, strength and flexibility, musicality, and individual expression through movement. D 177B and PE 186S are equivalent and only one may be taken for credit. Prerequisite: D 177 or PE 186R or instructor approval. Audit available.

D 184. Ballroom Dance. 1 Credit.
Introduces the fundamental principles of Ballroom Dance. Places emphasis on proper partnering, style, and phrasing. Focuses on elementary steps of Foxtrot, Waltz, Swing, Cha-Cha, and Rumba. D 184 and PE 186D are equivalent and only one may be taken for credit. Audit available.

D 184B. Ballroom II. 1 Credit.
Continues the development of skills in ballroom dance at an intermediate level as well as enriching the depth of the dance technique and complexity of choreography. Focus is placed on: appropriate partnering in order to lead or follow, rhythm, style, and phrasing. Dances may include: Waltz, Foxtrot, Tango, Quickstep, Rumba, Cha-Cha, Swing, Samba, Jive, and Night Club Two Step. D 184B and PE 186E are equivalent and only one may be taken for credit. Prerequisites: D 184 or PE 186D or instructor approval. Audit available.

D 190A. Ballet I. 1 Credit.
Introduces fundamentals of Ballet technique with a focus on correct alignment, development of strength, flexibility, range of motion, stability, and Ballet terminology. D 190A and PE 120A cannot both be taken for credit. Audit available.

D 190B. Ballet I. 1 Credit.
Explores concepts of beginning Ballet with a focus on correct alignment, form, musicality and moving with greater awareness. D 130B and PE 121B cannot both be taken for credit. Prerequisites: D 130A or PE 121A. Audit available.

D 130A. Modern Dance I. 1 Credit.
Introduces fundamentals of Modern Dance technique with a focus on correct alignment, development of strength, flexibility, range of motion, and stability, and dance specific terminology. D 130A and PE 121A cannot both be taken for credit. Audit available.

D 130B. Modern Dance I. 1 Credit.
Continues development of Ballet technique at an Intermediate level with a focus on dynamic alignment, musicality, movement qualities, ensemble work, and functional technique. D 131B and PE 121D cannot both be taken for credit. Prerequisites: D 130B or PE 121B. Audit available.

D 131A. Modern Dance II. 1 Credit.
Develops Modern Dance technique at an Intermediate level with a focus on dynamic alignment, musicality, movement qualities, and functional technique. D 131A and PE 121C cannot both be taken for credit. Prerequisites: D 130B or PE 121B. Audit available.

D 131B. Modern Dance II. 1 Credit.
Continues development of Modern Dance technique at an Intermediate level with a focus on dynamic alignment, musicality, movement qualities, and functional technique. D 131A and PE 121C cannot both be taken for credit. Prerequisites: D 130B or PE 121B. Audit available.

D 150. Jazz Dance I. 1 Credit.
Introduces principles and skills in the fundamentals of jazz dance technique. Emphasizes and develops correct body alignment, coordination, strength, flexibility, rhythm, and movement awareness. Includes jazz dance vocabulary and simple jazz dance combinations. D 150 and PE 186F are equivalent and only one may be taken for credit. Audit available.

D 209. Dance Performance. 1 Credit.
Offers practical experience in dance rehearsal and performance with a varying focus each term. Prerequisites: D 131B, D 191B, D 151, D 230A, D 230B, D 290A, D 290B, or D 252 or instructor permission. Audit available.
D 210. Dance Performance. 2 Credits. Offers practical experience in dance rehearsal and performance with a varying focus each term. Provides experience in production elements of dance performance as well as the opportunity to expand understanding of the choreographic process through research. Requires audition for admission. Prerequisites: (WR 115 or IRW 115) and D 131B or D 191B or D 230A or D 230B or D 290A or D 290B or D 252 or instructor permission. Audit available.

D 211. Dance Performance. 3 Credits. Offers practical experience in dance rehearsal and performance with a varying focus each term. Provides experience in production elements of dance performance as well as the opportunity to expand understanding of the choreographic process through research, presentation, and community interaction. Prerequisites: (WR 115 or IRW 115) and D 131B or D 191B or D 151 or D 230A or D 230B or D 290A or D 290B or D 252 or instructor permission. Audit available.

D 230A. Modern Dance III. 1 Credit. Develops Modern Dance technique at an Intermediate/Advanced level with a focus on dynamic alignment, musicality, movement qualities, functional technique, and performance. D 230A and PE 121E cannot both be taken for credit. Prerequisites: D 131B or PE 121D. Audit available.

D 230B. Modern Dance III. 1 Credit. Continues development of Modern Dance technique at an Intermediate/Advanced level with a focus on applying techniques and skills to enhance performance. D 230B and PE 121F cannot both be taken for credit. Prerequisites: D 230A or PE 121E. Audit available.

D 251. Dance Appreciation. 4 Credits. Develops an awareness and appreciation of dance in its artistic, social, historical, and cultural contexts. Considers aspects of dance as cultural, spiritual, and aesthetic expression, exploring origins and the related roles of the dancer, choreographer, and spectator. Offers a variety of experiences, including the viewing of dance in live and recorded formats, reading about dance, discussing dance, and hearing from guest experts. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

D 252. Jazz Dance III. 1 Credit. Continues development of jazz dance technique at the intermediate level. Emphasizes increased strength, control, flexibility, stamina, musicality, dynamics, and jazz dance vocabulary in more challenging combinations. D 252 and PE 186H are equivalent and only one may be taken for credit. Recommended: D 151 or PE 186H or equivalent. Audit available.

D 260. Dance Improvisation. 1 Credit. Introduces beginning skills in dance improvisation through the exploration of structured and open improvisations, scores, games, and group observation and discussion. Audit available.

D 261. Dance Improvisation. 1 Credit. Continues to develop skills in dance improvisation through the exploration of structured and open improvisations, scores, games, and group observation and discussion. Prerequisite: D 260. Audit available.

D 275. Dance and Hip Hop Culture. 4 Credits. Examines the historical, artistic, social, and cultural relevance of Hip Hop both in the U.S. and abroad. Uses the four elements of Hip Hop as a foundation to explore a variety of topics related to dance in Hip Hop culture. Prerequisites: (WR 115 and RD 115) or IRW 115. Audit available.

D 290A. Ballet III. 1 Credit. Develops Ballet technique at an advanced level with a focus on dynamic alignment, musicality, movement qualities, functional technique and performance. D 290A and PE 120E cannot both be taken for credit. Prerequisites: D 191B or PE 120D. Audited available.

D 290B. Ballet III. 1 Credit. Continues development of Ballet technique at an advanced level with a focus on increasingly complicated choreography and the expression and communication of Ballet in performance. D 290B and PE 120F cannot both be taken for credit. Prerequisites: D 290A or PE 120E. Audit available.

DEALER SERVICE TECHNOLOGY

DST 110. Caterpillar Engine Fundamentals. 8 Credits. This course introduces the student to Caterpillar basic diesel engine theory and service procedures. The principles of compression ignited internal combustion engines are taught and variations in design are discussed. Caterpillar engines are used for lab disassembly and assembly. Prerequisites: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. Audit available.

DST 111. Introduction to Caterpillar Service Industry. 3 Credits. This course introduces the student to the Caterpillar Organization and provides instruction and lab experience in shop safety, shop operation, service tools, and how to obtain Caterpillar Service Information. (SIS) Prerequisites: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. Audit available.

DST 112. Caterpillar Hydraulic Fundamentals. 4 Credits. This course is designed to teach the basic hydraulic fundamentals used in Caterpillar products, to identify and state the function of the various valves used in Caterpillar hydraulic systems, to identify and state the function of vane pumps, gear pumps and piston pumps, to disassemble and assemble hydraulic components, to identify and state the function of ISO hydraulic symbols and to trace the oil flow and state the operation of various hydraulic systems. Prerequisite: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. DST 110 and DST 111. Audit available.

DST 113. Caterpillar Engine Fuel Systems. 4 Credits. This course introduces the student to the various fuel systems used on Caterpillar engines. The student will become familiar with fuel selection, calibrations, nozzle testing procedures, governor operation, and hydraulic fuel ratio controls. The student will also become familiar with the 1.1 and 1.2 Mechanical Unit Injection (MUI) and Hydraulic Electronic Unit Injection (HEUI) fuel systems, the Electronic Unit Injection (EUI), Nippondenso, and Zexel fuel systems. Prerequisite: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. DST 110 and DST 111. Audit available.

DST 114. Fundamentals of Electrical Systems. 4 Credits. This course introduces the student to basic electrical and electronic fundamentals needed by a technician to properly diagnose and repair the complex electrical installed in Caterpillar machines. Prerequisite: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. DST 110 and DST 111. Audit available.

DST 115. Air Conditioning. 3 Credits. This course is designed to provide the servicemen to understand the principles of air conditioning, to identify air conditioning components, to state the component functions, and to service Caterpillar air conditioning systems. This course prepares the student to confidently work on mobile air conditioning systems in an industrial environment. Prerequisite: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. DST 114. Audit available.

DST 116. Fundamentals of Transmissions and Torque Converters. 4 Credits. This course will discuss the basic components and operation of power train systems used in Caterpillar machines. Included will be basic components, clutches, torque converters, manual shift transmissions, and component functions are explained as they relate to the operation of various power train systems. Prerequisite: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. DST 112 and DST 114. Audit available.

DST 117. Caterpillar Machine Hydraulic Systems. 4 Credits. This course is designed to teach the system operations and the testing and adjusting procedures for the pilot operated hydraulic system, the load sensing pressure compensated (LSPC) hydraulic system used in Caterpillar machines. Prerequisite: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. DST 112 and DST 114. Audit available.

DST 150. Caterpillar Service Technology Internship. 6 Credits. Students will work 26.5 hours per week for 8 weeks at an approved Caterpillar dealership. They will be performing service related tasks defined by the instructor, the students mentor and the students' direct supervisor. Although the students will be working in a live shop environment, the tasks assigned will primarily be related to the previous course studied. Prerequisite: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. Students must have completed the sequence courses with a minimum C grade, prior to internship. See advisor for proper courses. Audit available.

DST 200. Undercarriage and Final Drive. 4 Credits. This course will discuss methods for transferring power through the mechanical power train and cover differential, brakes, final drives, and under carriage. The content of this course shall be treated as general information for power train components in all Caterpillar machines. Prerequisite: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. DST 116. Audit available.

DST 201. Machine Electronic Systems. 4 Credits. This course introduces the student to Caterpillar machine electronic systems and diagnostic tooling needed by a technician to properly diagnose and repair the complex electrical/electronic systems installed in Caterpillar machines. Prerequisite: Provide a dealer letter indicating secured internship at a participating Caterpillar Dealership. DST 117. Audit available.
DA 110. Clinical Procedures I. 3 Credits.
Introduction to clinical dental assisting including operatory preparation, sterilization/disinfection procedures, dental equipment, tray set-ups and restorative dental procedures.

DA 111. Clinical Procedures I (Lab). 2 Credits.
Laboratory training and experience in basic dental assisting functions and responsibilities. Students progress to assisting dentists in the dental clinics.

DA 112. Clinical Procedures II. 1 Credit.

DA 113. Clinical Procedures II (Lab). 3 Credits.
Continued clinic and laboratory experience. Students spend 1 (one) day per week assisting dental students at the Oregon Health Sciences University Dental School.

DA 114. Clinical Procedures III. 1 Credit.

DA 115. Clinical Procedures Lab III. 5 Credits.
Covers advanced clinical training and practical experience in dental assisting duties and responsibilities. Continues exploration and application of dental specialties. Includes chairside dental assisting procedures in both the PCC Dental Clinic and in a dental office externship. Prerequisite/concurrent: DA 114, DA 119, DA 125, DA 135, and DA 152.

DA 116. Introduction to Dental Assisting. 2 Credits.
Covers medical emergencies, pharmacology and ethical standards established by the dental professions and legal responsibilities of the dental assistant and the dentist as established by the Oregon Dental Practice Act. Provides a correlation between treating the whole patient (pharmacology and emergency treatment) and providing standard of care treatment and proper documentation for industry. Prerequisite/concurrent: DA 110, DA 111, DA 120, DA 121, DA 130, DA 131, DA 140A, DA 117.

DA 117. Infection Control. 1 Credit.
Covers the essential elements and implementation of infection control and occupational safety in a dental healthcare setting. Requirement: Admission to the Dental Assisting Program. Prerequisite/concurrent: DA 110, DA 111, DA 116, DA 120, DA 121, DA 130, DA 131, and DA 140A.

DA 118. Expanded Duties I. 1 Credit.
Study of the function and procedures beyond the scope of general dental assisting as allowed by the Oregon Dental Practice Act. Includes amalgam polishing and margination, rubber dam placement and removal.

DA 119. Expanded Duties II. 1 Credit.
Continues clinical training and practical experience in expanded function dental assisting duties as allowed by the Oregon Dental Practice Act. Prerequisite/concurrent: DA 114, DA 115, DA 118, DA 125, DA 135, and DA 152.

DA 120. Dental Radiology I. 2 Credits.
Introduces the uses of digital and film radiographic images in dentistry. Includes the history of radiation discovery, physical and chemical properties of processing chemicals and film, biological effects of X-ray in tissues, and safety principles. Requirement: Admission to the Dental Assisting Program. Prerequisite/concurrent: DA 110, DA 111, DA 116, DA 121, DA 130, DA 131, and DA 140A.

DA 121. Dental Radiology I (Lab). 2 Credits.
Provides an opportunity to practice radiographic techniques on manikins and correlate activities to the DA 120 lecture. Requirement: Admission to the Dental Assisting Program. Prerequisite/concurrent: DA 110, DA 111, DA 116, DA 120, DA 130, DA 131, and DA 140A.

DA 122. Dental Radiology II. 1 Credit.
Continues the examination of the philosophy and principles of dental radiography with review and preparation for national and state certification examinations. Prerequisite/Concurrent: DA 112, DA 123, DA 132, DA 133, DA 142, DA 150, and DA 118.

DA 123. Dental Radiology II (Lab). 2 Credits.
Continues exploring the practice of radiographic techniques on manikins and clinic patients under direct supervision. Prerequisite/concurrent: DA 112, DA 113, DA 118, DA 122, DA 132, DA 133, DA 142, and DA 150.

DA 125. Dental Radiology III (Lab). 2 Credits.
Provides advanced x-ray clinical experience including extra-oral and x-rays for children and edentulous patients. Includes radiographic experience during private practice internships. Prerequisite/concurrent: DA 114, DA 115, DA 119, DA 125, and DA 152.

DA 130. Dental Materials I. 1 Credit.
Introduces dental materials and laboratory equipment used in the dental office. Covers the physical and chemical properties, manipulation, and uses of gypsum products, restorative materials, and impressions materials. Includes an overview of crown and bridge preparation procedures. Requires admission to the Dental Assisting Program. Prerequisite/concurrent: DA 110, DA 111, DA 116, DA 120, DA 121, DA 131, DA 140A, and DA 117.

DA 131. Dental Materials I (Lab). 2 Credits.
Provides laboratory experience and skills development in dental assisting materials and laboratory equipment. Covers the proper and safe handling of dental materials including gypsum products, restorative materials, impressions materials, dental cements, dental bases and provisional crown fabrication during manipulation and application. Requirement: Admission to the Dental Assisting Program. Prerequisite/concurrent: DA 110, DA 111, DA 116, DA 120, DA 121, DA 130, and DA 140A.

DA 132. Dental Materials II. 1 Credit.
Introduces intermediate concepts of dental materials. Includes the processes and materials used during the construction of fixed and removable prostheses. Introduces dental materials used in various dental specialties. Prerequisite/concurrent: DA 122, DA 113, DA 118, DA 122, DA 123, DA 133, DA 142, and DA 150.

DA 133. Dental Materials II (Lab). 2 Credits.
Covers intermediate laboratory skills development in dental assisting materials and laboratory equipment. Includes the processes and materials used during the construction of fixed and removable prostheses. Introduces dental materials used in various dental specialties. Prerequisite/concurrent: DA 112, DA 113, DA 118, DA 122, DA 123, DA 132, DA 142, and DA 150.

DA 135. Dental Materials III (Lab). 2 Credits.
Covers advanced laboratory skills development in dental assisting materials and laboratory equipment. Includes applying knowledge, technology, and skills from dental office externships. Prerequisite/concurrent: DA 114, DA 115, DA 119, DA 125, and DA 152.

DA 140A. Integrated Basic Science I. 2 Credits.
Covers basic principles of oral anatomy plus study of tooth form and function. Introduces dental numbering systems and charting and some conditions manifested in the mouth (oral pathology). Prerequisite: Acceptance into the Dental Assisting Program. Prerequisite/concurrent: DA 110, DA 111, DA 116, DA 120, DA 121, DA 130, and DA 131.

DA 142. Integrated Basic Science III. 2 Credits.
Covers specialized study of the structures of the head and neck with emphasis on the oral cavity including study of Oral Pathology. Prerequisite: DA 140A. Prerequisite/concurrent: DA 112, DA 113, DA 118, DA 122, DA 123, DA 132, DA 133, and DA 150.

DA 150. Dental Office Procedures I. 2 Credits.
Provides an overview of procedures associated with reception desk responsibilities and dental office management. Prerequisite/concurrent: DA 112, DA 113, DA 122, DA 123, DA 132, DA 133, and DA 142.
DA 152. Dental Office Procedures II. 2 Credits.
Covers oral and written communication, computer skills and job search
techniques related to dentistry. Recommended: typing/keyboarding skills.
Prerequisite/concurrent: DA 114, DA 115, DA 119, DA 125, and DA 135.

DA 9406. Dental Assisting Practicum. 1-5 Credit.
Upgrading for dental assistants who have been out of the field for a prolonged
period of time, or who feel their skills are out of date.

DENTAL HYGIENE

DH 100. Special Dental Hygiene Practice. 1-5 Credit.
Clinic experience for dental hygiene students or graduates needing to maintain
or enhance clinical skills outside the regularly scheduled clinic sequence,
especially in preparation for Board examinations. Instructor permission
required.

DH 101. Dental Hygiene Theory I. 4 Credits.
Studies basic dental hygiene procedures, theory and philosophy as applied to
direct patient services.

DH 102. Dental Hygiene Theory II. 2 Credits.
Continues on the study of dental hygiene theory and practices, including oral
prophylaxis classifications, current non-surgical periodontal therapy, alternative
oral physiotherapy aids, dental hygiene process of care and school clinic
policies and procedures. Co-requisite: DH 105.

DH 103. Dental Hygiene Theory III. 2 Credits.
Expansion of the concepts of dental hygiene theory to include the more difficult
oral conditions and special needs.

DH 104. Dental Hygiene Practice I. 3 Credits.
Applies dental hygiene theory and techniques in a laboratory setting on dental
maniaks. Work with patients will begin when specified skill levels are reached.

DH 105. Dental Hygiene Practice II. 3 Credits.
Students apply dental hygiene preventive and therapeutic principles while
providing patient care in a clinical environment. Patient care includes oral

DH 106. Dental Hygiene Practice III. 3 Credits.
Continued clinical activities with increased difficulty in the type and number of
cases.

DH 109. Dental Radiology I. 2 Credits.
Covers basic theory of dental radiography. Includes intra-oral techniques with
emphasis on radiation safety practices and techniques. Corequisite: DH 109L.

DH 109L. Dental Radiology I (Lab). 1 Credit.
Covers basic theory of dental radiography. Includes intra-oral technique
practice on manikins with emphasis on radiation safety practices and

DH 110. Cariology. 2 Credits.
Studies the biological basis for the treatment of dental caries as an infectious
disease process. Preventive measures and treatment modalities will be
discussed.

DH 113. Dental Anatomy, 2 Credits.
Introduces the study of anatomical characteristics of all permanent and
deciduous teeth and their surrounding tissues. Prerequisite/concurrent: DH 113L.

DH 113L. Dental Anatomy (Lab). 1 Credit.
Includes laboratory study and application of anatomic characteristics of all
permanent and deciduous teeth and their surrounding tissues. Prerequisite/
concurrent: DH 113.

DH 121. Oral Health Education and Promotion. 1 Credit.
Familiarizes the student with selected teaching techniques having direct
application to oral health education concepts.

DH 127. Medical Emergencies. 2 Credits.
Study of medical emergencies that occur in the dental office including
prevention, recognition and appropriate intervention.

DH 128. Oral Histology. 2 Credits.
Introduces microscopic anatomy and embryology of the oral tissues.

DH 129. Oral Pathology. 3 Credits.
Introduces the study of oral diseases and recognition of conditions that may
require consultation and treatment by a dentist prior to, or concurrent with
dental hygiene procedures. Prerequisites: DH 128; BI 122 or BI 232.

DH 201. Dental Hygiene Theory IV. 2 Credits.
Dental hygiene theory applied to patients having periodontal disease;
instruction includes comprehensive patient management. Co-requisites: DH 204
or DH 204B.

DH 202. Dental Hygiene Theory V. 3 Credits.
Continues clinical activities including treatment of patients having moderate to severe
periodontal disease and provision of a variety of expanded dental hygiene

DH 203. Dental Hygiene Theory VI. 2 Credits.
Continues dental hygiene theory. Includes the emerging role of the dental
hygienist in collaboration with general health providers in alternative settings
and independent practice settings. Includes job search skills and stress
management.

DH 204A. Dental Hygiene Practice IV. 1 Credit.
Continues clinical activities to include treating beginning periodontal disease
and moderate deposit patients. Prerequisites: DH 103 and DH 106.

DH 204B. Dental Hygiene Practice IV. 4 Credits.
Continues clinical activities to include treating moderate periodontal patients
and patients with moderate/heavy deposits; activities will correlate to theory
lecture course DH 201. Prerequisite: DH 204A. Corequisite: DH 201.

DH 205. Dental Hygiene Practice V. 5 Credits.
Continues clinical activities including treatment of patients having moderate
to severe periodontal disease and the provision of dental hygiene expanded
functions. Activities correlate to DH 202.

DH 206. Dental Hygiene Practice VI. 5 Credits.
Advanced dental hygiene clinical activities to include all aspects of previous
training at increased skill levels. Nitrous oxide sedation included, plus simulated
private practice and mock board activities.

DH 208. Community Oral Health I. 2 Credits.
Introduction to national and local public health issues and initiatives for
delivering care to varied populations.

DH 210. Dental Radiology Lab II. 1 Credit.
A continuation of DH 109, Dental Radiology I. Course will include provision of
basic dental radiographic services to clinic patients including more advanced
radiographic techniques.

DH 228. Head and Neck Anatomy. 2 Credits.
Studies the structures and functions of oral anatomy with emphasis on those
structures important in the administration of local anesthesia.

DH 229. Local Anesthesia. 2 Credits.
Covers techniques of pain control by the administration of local anesthetics.
Prepares student for management of complex clinical clients during advanced
dental hygiene procedures.

DH 230. Dental Materials. 2 Credits.
Classification, chemistry, physical properties, and uses of dental materials
including manipulation techniques.

DH 232. Nitrous Oxide Sedation. 2 Credits.
Theory and clinical application of nitrous oxide sedation for dental patients
as prescribed by the State Dental Practice Acts of Oregon, Washington and
California.

DH 236. Ethics & Jurisprudence. 1 Credit.
Studies legal restrictions and ethical responsibilities associated with the
practice of dental hygiene and dentistry.

DH 240. Intro to Dh Restorative Dentistry. 2 Credits.
Introduction to four-handed dentistry with an emphasis placed on rubber dam
placement, instrument identification, instrument transfer and preparation for
assisting a dental restorative operator. Prerequisite: DH 110 and DH 230. Audit
available.

DH 241. DH Restorative Dentistry I. 4 Credits.
Introduction to restorative techniques with an emphasis on the preclinical
placement of amalgam restoration. Prerequisite: DH 240. Prerequisite/
concurrent: DH 242. Audit available.

DH 242. DH Restorative Dentistry II. 4 Credits.
Introduction to restorative techniques with an emphasis on the preclinical
placement of composite restorations. Prerequisite: DH 240. Prerequisite/
concurrent: DH 241. Audit available.

DH 243. DH Restorative Dentistry III. 1 Credit.
Clinical practice in restorative dentistry and associated procedures as allowed
by the Oregon Board of Dentistry. Students will provide a variety of restorative
experiences on patients at a beginning skill level under direct supervision of
clinic faculty. Prerequisites: DH 241, DH 242. Audit available.

DH 244. DH Restorative Dentistry IV. 1 Credit.
Continues clinical practice in restorative dentistry and associated procedures
as allowed by the Oregon Board of Dentistry. Student will provide a variety of
restorative experiences on patients at a developing skill level under direct/indirect
supervision of clinic faculty. Prerequisite: DH 243. Audit available.
COURSE DESCRIPTIONS

**Dental Technology**

**DT 101. Dental Technology Lab I. 6 Credits.**
Introduces the use and operation of dental laboratory equipment, the application of safety principles, and the fabrication process of complete removable dentures. Prerequisite/concurrent: DT 120, DT 141, and DT 151. Audit available.

**DT 102. Dental Technology Lab II. 6 Credits.**
Introduces full denture construction, processing technique, articulation, reline, repair, and rebase. Covers tooth anatomy as it relates to biomechanics. Prerequisites: DT 101. Prerequisite/concurrent: DT 142 and DT 152. Audit available.

**DT 103. Dental Technology Lab III. 6 Credits.**
Covers fabrication of partial dentures, partial denture frameworks, immediate dentures and overdentures. Prerequisites: DT 102. Prerequisite/concurrent: DT 271. Audit available.

**DT 120. Dental Anatomy. 2 Credits.**
Studies basic forms, structures and functions of teeth and their surrounding tissues. Audit available.

**DT 141. Denture Techniques I. 2 Credits.**
History and philosophy of complete removable dentures with an introduction to the construction process. Articulation tooth selection and setting procedures emphasized. Audit available.

**DT 142. Denture Techniques II. 2 Credits.**
Continues the study of denture construction, including immediate dentures and overdentures. Includes the use of articulators, finishing procedures, reline, rebase and repair techniques. Prerequisites: DT 141, DT 101, and DT 151. Prerequisite/concurrent: DT 102 and DT 152. Audit available.

**DT 151. Science of Dental Materials I. 2 Credits.**
Overview of materials used in dentistry such as gypsum products, waxes and impression materials. Audit available.

**DT 152. Science of Dental Materials II. 3 Credits.**
Introduces chemistry and physics, especially as they relate to dental materials. Measurement techniques and unit conversions are stressed. Audit available.

**DT 204. Dental Technology Lab IV. 6 Credits.**
Provides an opportunity to develop skills in the processes and procedures associated with dental crown and bridge construction. Includes dental inlays processes and procedures. Audit available.

**DT 205. Dental Technology Lab V. 6 Credits.**
Covers the uses of porcelain and acrylic in crown and bridge construction with emphasis on color and form reproduction. Audit available.

**DT 206A. Dental Technology Lab VI (Fabrication Ortho Appliances). 3 Credits.**
Covers fabrication of removable and fixed orthodontic appliances. Prerequisites: DT 204 and DT 205. Prerequisite/concurrent: DT 284. Audit available.

**DT 206B. Dental Technology Lab VII (CAD/CAM and Implant Restorations). 3 Credits.**
Covers design and fabrication of fixed dental prosthodontics with CAD/CAM technology and fabrication of dental implant supported restorations. Prerequisites: DT 204 and DT 205. Prerequisite/concurrent: DT 287. Audit available.

**DT 253. Science of Dental Materials III. 2 Credits.**
Continues to examine dental materials as related to cast metal alloys and crown and bridge construction. Prerequisite: DT 152 or instructor permission. Audit available.

**DT 254. Science of Dental Materials IV. 2 Credits.**
Covers advanced study of dental materials including ceramics (porcelain) and high fusing metal alloys. Prerequisite: DT 253 or instructor permission. Audit available.

**DT 270. Inlay Casting, Crown and Bridge. 3 Credits.**
Introduces crown and bridge construction processes and techniques including preparation and waxing of dies, investing, casting, and finishing. Covers principles applied to dental inlays. Corequisite: DT 205. Audit available.

**DT 271. Partial, Immediate, and Overdentures. 2 Credits.**
Covers the study of philosophy, materials, design, and fabrication processes of removable overdentures and partial and immediate dentures. Prerequisites: DT 102, DT 142. Prerequisite/concurrent: DT 193. Audit available.

**DT 272. Dental Ceramics. 3 Credits.**
Covers dental ceramics (porcelain), including the philosophy, structure, properties, uses, and laboratory procedures associated with this material. Prerequisite: DT 270 or instructor approval. Corequisites: DT 204. Audit available.

**DT 275. Dental Laboratory Management. 2 Credits.**
Covers the management skills and responsibilities as well as the problems associated with dental laboratory ownership. Prerequisites: Must be accepted and registered in the Dental Laboratory Technology Program or instructor permission. Audit available.

**DT 276. Dental Laboratory Management Lab. 1 Credit.**
Computer-based exercises in techniques required for small business management. Audit available.

**DT 284. Dental Specialties. 2 Credits.**
Introduces dental specialties and advanced techniques that involve participation and skill of the dental lab technician. Audit available.

**DT 286. DT Registered Graduate Preparation. 2 Credits.**
Covers workplace preparation including professional ethics, organizations, opportunities, certification requirements and preparation for Registered Graduate (RG) testing through the National Board for Certification in Dental Laboratory Technology (NBC). Prerequisites: DT 270 and DT 272. Prerequisite/concurrent: DT 287.

**DT 287. Introduction to CAD/CAM Technology and Dental Implant System. 2 Credits.**
Introduces CAD/CAM technology and Dental Implant Systems, and provides an overview of the oral care delivery system. Includes new emerging technology, products and procedures. Prerequisites: DT 270 and DT 272. Prerequisite/concurrent: DT 206A and DT 206B. Audit available.

**DT 9406. Dental Technology Practicum. 1-5 Credits.**
Covers all steps and procedures in the construction of dental replacements which may include cast metal crowns and bridges, the use of dental ceramics, and/or partial and full dentures. Audit available.

**DEVELOPMENTAL EDUCATION**

**DE 21. Introduction to Information Literacy. 1 Credit.**
Introduces students to the skills used to formulate a research query, emphasizing intellectual curiosity, creative thinking, and persistence in information seeking activities. Students learn and practice research as a multi-step process: identifying an information need and selecting a topic; formulating a question; locating and selecting varied and appropriate print and electronic sources; using critical reading and thinking to evaluate information; and paraphrasing and citing sources. Use of library resources is required, including contacting Reference Librarians for research assistance. This course is offered as a co-requisite to RD 80. Audit available.

**DE 31. Learning Skills I. 1 Credit.**
Introduces study skills required in college. Principle topics include motivation, goal setting, time management, organization of college, and study suggestions and techniques. Course may be taken alone or as part of a three-credit series (DE 31, 32, 33). Audit available.
DE 50. Vocabulary Building. 1 Credit.
Topics include determining word meaning, parts of speech, pronunciation, spelling, and writing with new vocabulary. Recommend for students in developmental and preparatory reading and writing classes. Prerequisites: Reading COMPASS score 44-65 or successful completion of ESOL 250 with a "C" or better. Audit available.

DIESEL SERVICE TECHNOLOGY

DS 101. Diesel Engine Rebuild and Lab Procedures. 12 Credits.
Examines engine theory, engine components, and proper diesel engine rebuild procedures. Introduces basic engine electrical and fuel systems, shop tool use and maintenance. Includes lift truck inspection and operator training. Prerequisites: (RD 80 or equivalent placement) and (MTH 20 or equivalent placement). Audit available.

DS 102. Truck Power Train. 6 Credits.
Explores concepts in gear transmissions, differentials and clutches involved in the application of diesel-powered vehicles. Prerequisites: (RD 80 or equivalent placement) and (MTH 20 or equivalent placement). Audit available.

DS 103. Fuel Injection Systems. 6 Credits.
Covers fuel injection systems and how they relate to diesel engine performance and operation. Explores the operations of all major fuel injection devices including diesel fuels, fuel transfer pumps, fuel nozzles, fuel injectors, filtration systems, metering systems and governing systems. Prerequisites: (RD 80 or equivalent placement) and (MTH 20 or equivalent placement). Audit available.

DS 104. Fundamentals of Electricity & Electronics. 6 Credits.
Covers basic electricity theory, electrical components, and proper electric diagnostic procedures. Introduces basic electrical systems, diagnostic tool use and maintenance. Includes Cummins Electronic Engine controls and basic multiplexing. Prerequisites: (RD 80 or equivalent placement) and (MTH 20 or equivalent placement). Audit available.

DS 105. Fundamentals of Hydraulics & Air Conditioning Systems. 6 Credits.
Covers fundamentals of hydraulics in theory and shop practice. Provides a solid background in applications of hydraulics in the trucking and heavy equipment industry. Covers heavy duty air conditioning operation, trouble shooting and system repair. Prerequisites: (RD 80 or equivalent placement) and (MTH 20 or equivalent placement). Audit available.

DS 106. PM/Detroit Diesel Electronic Control. 4 Credits.
Covers Preventive Maintenance Inspection (PMI) of vehicles, Department of Transportation (D.O.T.) out of service criteria, PM scheduling, lubricants and winterizing. Covers Detroit Diesel Electronic Control (DDEC) operation and diagnostics. Prerequisites: (RD 80 or equivalent placement) and (MTH 20 or equivalent placement). Audit available.

DS 202. Heavy Duty Power Train. 6 Credits.
Introduces advanced theory and applications of automatic and power shift transmissions used in the heavy equipment industry. Prerequisites: (RD 80 or equivalent placement) and (MTH 20 or equivalent placement). Audit available.

DS 203. Fuel Injection System Diagnostics & Cat Elec Eng Controls. 6 Credits.
Covers fuel injection pumps and their applications, fuel system diagnostics and Caterpillar electronic engine controls. Prerequisites: (RD 80 or equivalent placement) and (MTH 20 or equivalent placement). Audit available.

DS 204. Diesel Starting, Charging and Electrical Control Systems. 6 Credits.
Covers advanced automotive electrical theory, electrical components, and proper electric diagnostic and repair procedures. Includes advanced automotive electrical systems, diagnostic tool use and maintenance. Prerequisite: DS 104. Audit available.

DS 205. Mobile and Hydrostatic Hydraulics. 6 Credits.
Covers advanced hydraulics and hydrostatics used on heavy equipment, farm machinery, marine equipment, hydraulic cranes, backhoes and other equipment. Emphasizes troubleshooting. Prerequisite/concurrent: DS 105. Audit available.

DS 206. Medium/Heavy Duty Truck Brake, Suspension & Steering. 8 Credits.
Examines concepts in medium/heavy duty truck brake systems, suspension and steering. Covers air brake systems, hydraulic brake systems, truck foundation brakes, antilock brakes, automatic slack adjusters, wheels, tires and fifth wheels. Emphasizes safety and the use of service manuals and textbooks. Prerequisites (RD 80 or equivalent placement) and (MTH 20 or equivalent placement). Audit available.

DS 9112. Small Marine Diesel Engine Preventive Maint and Tune-up. 2 Credits.
Analyzes and diagnoses each supporting system of the small diesel engine to properly tune the engine for maximum performance. Audit available.

EARLY CHILDHOOD EDUCATION FA

ECE 120. Introduction to Early Education and Family Studies. 3 Credits.
Introduces the foundations of early childhood education and family studies. Covers the history, scope, current issues and trends, focusing on programs and services for children, birth-5. Includes an emphasis on development, developmentally appropriate practices and observation of young children and professionals. Requires 2-hours per week of observation/participation. Students must enroll in the Oregon Office of Child Care Central Background Registry (Criminal Background Check). Students must show evidence of current TB test and MMR vaccination. Audit available.

ECE 121. Observation and Guidance I. 1 Credits.
Focuses on age-appropriate guidance and observations techniques for individual children six week to six years. Topics include the ongoing dynamics of relationships, how values and belief systems impact guidance decisions, and the linkages between observation and guidance plans for individual children. Audit available.

ECE 122I. Environments and Curriculum for Infants and Toddlers. 4 Credits.
Covers theories of physical and social space, activities, experiences, and materials and the relationships between them for children ages six weeks-three years of age. Introduces the use of developmentally and culturally appropriate practices in planning, selecting, and evaluating environments and curriculum for infants and toddlers in home based and center based care. Reviews child development (social/emotional, cognitive, gross/fine motor, communication/language, self-help), relationship based care, routines, transitions and play with infants and toddlers. Includes planning and implementing environments and curriculum for infants and toddlers. Requires: Up to 10 hours of ECE site observations. Audit available.

ECE 123P. Environments and Curriculum for Preschool. 4 Credits.
Covers developing meaningful and challenging preschool curriculum and environments with a focus on the importance of play. Incorporates developmentally and culturally appropriate pedagogy and inclusion to plan learning experiences, physical and social environments, routines and transitions, and family involvement. Covers assessing and documenting children’s learning. Requires: Ten hours of observations and field trips.

ECE 124. Multicultural Practices: Exploring Our Views. 3 Credits.
Develops awareness of how personal experiences, belief systems, and values impact work with children and families. Examines the impact of cultural, linguistic, and class identities and histories on inter-relationships in diverse populations. Applies techniques for incorporating other peoples histories, values and belief systems into child-and-family-centered practices. Audit available.

ECE 130A. Practicum Seminar 1. 2 Credits.
Reviews skills necessary for supporting the total development of children, ages 6 weeks to 6 years, focusing on the role of the teacher in implementing a developmental program of early childhood education in two interdependent components: seminar and practicum. Prerequisites: ECE 120, ECE 121. Corequisite: ECE 131A or ECE 133.

ECE 130B. Practicum Seminar 2. 2 Credits.
Reviews skills necessary for supporting the total development of children, ages 6 weeks to 6 years, focusing on the role of the teacher in implementing a developmental program of early childhood education in two interdependent components: seminar and practicum. Prerequisites: ECE 130A. Corequisite: ECE 131B or ECE 134.

ECE 130C. Practicum Seminar 3. 2 Credits.
Reviews skills necessary for supporting the total development of children, ages 6 weeks to 6 years, focusing on the role of the teacher in implementing a developmental program of early childhood education in two interdependent components: seminar and practicum. Prerequisites: ECE 130B. Corequisite: ECE 131C or ECE 135.

ECE 131A. Practicum for Experienced Teachers 1. 3 Credits.
Improves and strengthens beginning level skills for working with children ages birth-5 in a group setting at work sites. Includes the use of developmentally appropriate methods in recognizing and providing safe, responsive, and sanitary environments. Department permission required based on work experience and previous coursework. Prerequisites: ECE 120, ECE 121, ECE 124. Corequisite: ECE 130A.
ECE 131B. Practicum for Experienced Teachers 2. 3 Credits.
Improves and strengthens basic intermediate level skills for working with
children ages birth-5 in a group setting at work sites. Includes the use of
developmentally appropriate methods to support guidance and
conflict resolution; schedule and routine planning; fundamental curriculum
development; and environmental modification. Department permission required
based on work experience and previous coursework. Prerequisites: ECE 131A,
(ECE 122I or ECE 123P), ECE 201. Corequisite: ECE 130B.

ECE 132. Early Childhood Field Work. 2 Credits.
Students engage in intentional field work to gain practical experience, skill
development, and professional direction in achieving their career goals,
working under supervision in an approved worksite. Audit available.

ECE 133. Practicum 1 in Early Childhood Education. 3 Credits.
Covers developing beginning level skills for working with children ages birth -
5 in a group setting. Includes the use of developmentally appropriate methods
in recognizing and providing safe, responsive, and sanitary environments;
using beginning-level guidance strategies; and relating to the field of early
education. Prerequisites: ECE 120, ECE 121, ECE 124, and (WR 90 or IRW 90
or equivalent placement). Corequisite: ECE 130A. Audit available.

ECE 134. Practicum 2 in Early Childhood Education. 3 Credits.
Covers development of basic intermediate level skills to work with children
ages birth - 5 in a group setting. Includes the use of developmentally
appropriate methods to support guidance and conflict resolution; schedule
and routine planning; fundamental curriculum development; and environmental
modification. Recommended: HEC 262. Prerequisites: ECE 133, ECE 130A,
(ECE 122I or 123P), and ECE 201. Corequisite: ECE 130B. Audit available.

ECE 135. Practicum 3 in Early Childhood Education. 3 Credits.
Covers the development of advanced intermediate level skills to work with
children ages birth - 5 in a group setting. Includes the use of developmentally
and culturally appropriate methods to support guidance and conflict resolution;
development, implementation, and evaluation of environments and curriculum;
and facilitation of classroom management. Prerequisites: ECE 134, ECE 130B,
and (ECE 122I or 123P). Corequisites: ECE 130C.

ECE 170. Coaching and Mentoring in Early Education and Family Studies. 1 Credit.
Explores the role of coaching and mentoring in facilitating the development
of novice early education practitioners and in enhancing early childhood
environments. Reviews models of coaching and mentoring. Audit available.

ECE 171A. Infant Toddler Positive Behavioral Intervention and Support. 1 Credit.
Explores Positive Behavioral Intervention and Support (PBIS) system for infants
and toddlers. Covers the identification of behavioral practices, instructional
strategies, and intervention strategies for individual infants and toddlers. Audit
available.

ECE 171B. Preschool Positive Behavioral Intervention and Support. 1 Credit.
Explores Positive Behavioral Intervention and Support (PBIS) system for
preschoolers. Covers the identification of behavioral practices, instructional
strategies and intervention strategies for individual preschool age children.
Audit available.

ECE 175A. Infant/Toddler Caregiving: Learning and Development. 1 Credit.
Covers growth and development of infants and toddlers ages birth - 3, including
physical, cognitive, and language development. Audit available.

ECE 175B. Infant/Toddler Caregiving: Group Care. 1 Credit.
Covers group care of infants and toddlers ages birth - 3. Includes routines,
quality, staff relations, environments and welcoming children and families into
care. Audit available.

ECE 175C. Infant/Toddler Caregiving: Social/Emotional Growth. 1 Credit.
Covers social-emotional growth and socialization of infants and toddlers ages
birth - 3, including development, temperament, responsible care, guidance
discipline, and supporting the needs of infants and toddlers. Audit available.

ECE 175D. Infant/Toddler Caregiving: Family/Provider Relationships. 1 Credit.
Covers family/provider relationships with infants and toddlers ages birth - 3. Includes establishing partnerships with parents, listening and responding to
families needs, supporting culturally diverse families, culturally sensitive care,
conducting business and handling difficult issues. Audit available.

ECE 177. Tiny to Tall: Making Mixed Age Groupings Work. 1 Credit.
Covers working with mixed-age groups in early childhood settings, including
children from infancy through elementary school age. Addresses the challenges
and benefits of creating quality environments and programming for children of
mixed ages. Audit available.

ECE 179. The Power of Portfolios in Early Education. 1 Credit.
Covers the development of portfolios for children in early care and education
programs as a way to demonstrate children's skills. Addresses learning,
development, culture, and creating meaningful portfolios with children and
families. Audit available.

ECE 183. Seven Essential Life Skills Every Child Needs. 1 Credit.
Introduces seven life skills critical for young children's success which are:
focus and self-control, perspective taking, communicating, making connections,
critical thinking, taking on challenges, self-directed engaged learning. Audit
available.

ECE 185. Planning Fun and Meaningful Field Trips for Young Children. 1 Credit.
Covers the positive benefits of field trips in early childhood programs, including
field trip possibilities in the Portland area, developing field trip protocols, and
problem-solving common field trip issues. Audit available.

ECE 186. Nature and Gardening with Young Children. 1 Credit.
Covers the many benefits of gardening and natural experiences for young
children, including how to facilitate developmental opportunities across
domains in an engaging and ever-changing context. Audit available.

ECE 187. Cooking with Kids. 1 Credit.
Covers creating and sharing cooking experiences with young children to
maximize child participation and enhance developmental opportunities in
language, literacy, math, science, cooperation and healthy eating habits. Audit
available.

ECE 188. Block Play and Woodworking for Young Children. 1 Credit.
Covers the many benefits of block play and wood working experiences for
young children, including how to facilitate children's development across
domains in an engaging context. Audit available.

ECE 189. Building Relationships with Infants, Toddlers, and Families. 1 Credit.
Covers ways in which caregivers can support, and sustain strong
individualized relationships with infants, toddlers, and their families in early
education settings. Audit available.

ECE 191. Interest-Based Planning for Infants. 1 Credit.
Covers the ways in which infants communicate their interests to adults.
Addresses various methods of assessing infant interests as well as interest-
based curriculum development in infant-care programs. Audit available.

ECE 195. Boys in Early Childhood Education. 1 Credit.
Explores the educational and social experiences specific to boys in early
childhood programs. Covers teacher's views on boys' behaviors and the
effect on their learning. Includes developmentally and culturally appropriate
approaches to engage boys in the early learning environment and curriculum.
Audit available.

ECE 196. Teaming and Communication in ECE Settings. 2 Credits.
Introduces the identification and utilization of different strategies to strengthen
teaming and communication specific to early education settings. Covers culture
and communication, including communicating with colleagues, staff and
parents in early education environments. Audit available.

ECE 198. Building Effective Outdoor Environments. 1 Credit.
Covers outdoor environments for children of all ages and abilities. Addresses
planning, implementing, and evaluating outdoor environments and activities.
Audit available.

ECE 200. The Professional in Early Education and Family Studies. 3 Credits.
History, current programs and practices, and future issues of early childhood
education. Includes professionalism, historic and current issues, types of
programs for young children, parent interaction, job opportunities, ethical
issues and community resources. Develops a professional philosophy.
Prerequisite: WR 115 or IRW 115. Audit available.

ECE 221. Observation and Guidance II. 3 Credits.
Examines techniques for observing and recording behavior and keeping
records as used in the care and education of infants through five-year-olds.
Focuses on observation and guidance techniques for groups of children in
addressing challenging behaviors and issues in early childhood environments.
Covers the caregiver's role in using observation to promote development,
including self-development. Prerequisites: (WR 115 or IRW 115) and ECE 121.
Audit available.

ECE 224. Multicultural Practice: Curriculum & Implementation. 3 Credits.
Develops awareness of cultural and ethnic issues as they relate to the early
childhood classroom teacher. Focuses on ethnocentrism, racism and
discrimination. Includes techniques for developing multi-cultural, anti-bias
curriculum. Prerequisite: ECE 124. Audit available.
ECE 232. Math and Science for Young Children, 3 Credits. Explores actively through infants through preschool age children in science and math concepts. Covers planning experiences that are meaningful, challenging, developmentally and culturally appropriate for indoor and outdoor classrooms. Connects everyday knowledge and skills to math and science. Audit available.

ECE 235. Music and Movement in Early Childhood Education, 3 Credits. Overview of the development of musical and motor skills in children from birth to age 6, learn and develop a variety of music and movement activities, techniques and materials appropriate for them. Audit available.

ECE 236. Language and Literacy in Early Childhood Education, 3 Credits. Overview of language and literacy development in children from infancy to age 6. Design and use a variety of language and literacy development activities with young children. Audit available.

ECONOMICS

EC 200. Introduction to Economics, 4 Credits. Covers six topic areas: basic economic concepts, microeconomics, macroeconomics, the history of economic ideas, international trade and a variety of economic issues. Recommended for students who desire a one term survey course. Recommended: MTH 95. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/ AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

EC 201. Principles of Economics: Microeconomics, 4 Credits. Introduces the principles of microeconomics. Enhances the ability to recognize and analyze economic problems in the United States. Covers the American microeconomic system, which includes a familiarization with the basis of the price system and resource allocation; the operation of the firm; market concentration; regulation and antitrust policies. Recommended: MTH 95. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

EC 202. Principles of Economics: Macroeconomics, 4 Credits. Covers the overall economy. Includes the basic reasons for and the problems of recession, inflation, and stagflation; the use of monetary, fiscal, and incomes policies; and other economic management tools. Recommended: MTH 95 and EC 201. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT, Social Sciences/ASOT-B.

EC 203. Principles of Economics: Applications to Economic Issues, 4 Credits. Covers economic topics related to current events. Includes international trade and finance; energy and resource economics; poverty, discrimination, and income distribution in national economies and the global economy; economic development; financial market instability; environmental and sustainability issues; government and central bank policies and competing ideologies; other current or relevant topics. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 95 or equivalent placement, and EC 200 or EC 201 or EC 202. Audit available. This course fulfills the following GE requirements: Social Sciences/ AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

EC 216. Labor Markets: Economics of Gender, Race, and Work, 4 Credits. Covers topics related to labor markets with emphasis on the economic status of women and their decisions about work and family. Includes recent developments in the labor market, the gender pay gap and women-men occupational differences; labor supply decisions; human capital theory; racial discrimination; economics of marriage and household decisions. Recommended: MTH 95. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AAOT, Social Sciences/ASOT-B, Social Sciences/ASOT-A, Social Sciences/AS.

EC 221. Globalization and International Relations, 4 Credits. Provides an introductory survey of economic, political, social, and cultural dimensions of globalization and evaluates their impacts on international relations. Examines patterns of conflict and cooperation among countries including the influence of international institutions, NGOs, and global corporations. Introduces selected issues such as war and peace, global security, environment, elites and concentration of power, wealth and income distribution, cultural and ethnic identities and explores possible peaceful solutions to these global problems. PS 221, EC 221 and SOC 221 are equivalent and only one may be taken for credit. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

EC 230. Contemporary World Economic Issues: International Economics, 3 Credits. Covers issues and problems related to international economics and international economic institutions. Includes trade and the balance of payments; trade competition between the U.S. and other nations; reform and restructure of the Russian and Eastern European economies; economic development problems and problems of developing nations. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AAOT, Social Sciences/ AS, Social Sciences/AGS, Social Sciences/AAOT, Social Sciences/ASOT-B.

EC 242. Modern China and Its Neighbors, 4 Credits. Introduces Chinese politics and history emphasizing economic and other policies since 1949. Explores China’s relationship to Tibet, Hong Kong, and Taiwan as well as political and economic systems in Japan, N. and S. Korea, Vietnam, and elsewhere. Examines diverse development strategies while assessing environmental and other impacts with local and global implications. EC 242 and PS 242 are equivalent and only one may be taken for credit. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

EC 285. Introduction to Political Economy, 4 Credits. Covers specific topics related to the United States economy from a systems/institutional key perspective. Includes key institutions that make up the U.S. economy such as, corporations, government, the market system, labor unions, monetary and financial institutions, and others. Examines three problem areas: environmental degradation and resource depletion; social and political inequality; and economic instability. Introduces possible solutions based on institutional change and develops viable economic alternatives based on principles of environmental sustainability, equity and economic stability. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

EDUCATION

ED 100. Introduction to Education for Paraeducators, 3 Credits. Explores the roles of a variety of personnel in schools. Includes personal responses to school situations, students, other personnel and the roles of schools in American Society. Examines ethical, legal, and administrative implications for educators. Recommended as an initial course for those contemplating a career in education. Course is designed to ease the transition of students to college-level study. Audit available.

ED 102. Displays & Graphics for Educators, 3 Credits. Covers visual communication concepts and techniques and their application to educational and library settings. Covers design principles and strategies to create content and graphics used in 2-D and 3-D visual formats. Includes the development and creation of posters, bulletin boards, presentations, handouts, brochures, educational games, and displays. Prerequisite: CAS 133 or ED 136. Audit available.

ED 111. Library Collection Development, 3 Credits. Introduces to the selection and evaluation of library materials with a focus on library standards, collection development policies, censorship, intellectual freedom, and copyright. Explores assessment of print and electronic resources, user needs, and selection tools. Prerequisites: ED 113 and CAS 133. Audit available.

ED 112. Introduction to Children's Literature, 3 Credits. Introduces children’s literature, authors and illustrators. Covers current and classic works, book awards, artistic and literary elements, introduction to graphology, basic book discussion techniques, and audio and visual formats. Prerequisite: WR 115 or IRW 115. Audit available.

ED 113. Introduction to Library and Information Services, 3 Credits. Introduces the philosophical foundations of libraries and information services. Provides an overview of the history of libraries, different types of libraries, the roles of library staff, and the evolving purpose, function, and services of libraries within a community. Explores library ethics, values, advocacy, and governance. Prerequisites: Placement into WR 121. Prerequisite/concurrent: LIB 101.
ED 114. Library Reference Services. 3 Credits.
Introduces reference services and information resources. Focuses on the evaluation of reference resources in various formats and exploration of searching tools and how they work. Emphasizes designing efficient search strategies, conducting effective reference interviews, and providing quality reference service. Prerequisites: ED 113 and ED 118. Audit available.

ED 115. Storytelling. 2 Credits.
Provides introduction into how to do storytelling. Different storytelling techniques will be demonstrated and practiced in the course. Audit available.

ED 116. Literature for Adolescents and Young Adults. 3 Credits.
Covers contemporary literature being read by young people of high school age, literature-related audio-visuals, and various specialized reading lists and bibliographies. Includes controversial areas in young adult literature. Audit available.

ED 118. Customer Service & Communication in Libraries. 3 Credits.
Examines communication, customer service and teamwork models within libraries. Focuses on developing practical skills for working in libraries, such as conflict resolution and interpersonal skills. Prerequisites: Placement into WR 121. Prerequisites/Concurrent: LIB 101.

ED 119. Library Access Services. 3 Credits.
Introduces access services within a library, including circulation processes and procedures, interlibrary loan, document delivery, reserves, and copyright. Explores providing quality customer service, maintaining patron confidentiality, and working with diverse individuals. Prerequisites: ED 113 and ED 118.

ED 122. Library Technical Services. 3 Credits.
Introduces basic procedures of acquisition, processing, maintaining, and preserving print and electronic collections, including serials subscriptions. Provides an overview of basic terminology and policies of technical services and collection management. Discusses management of collection budgets. Prerequisites: ED 113 and ED 134.

ED 123. Instructional Strategies: Reading. 3 Credits.
Introduces components of the reading process and techniques for teaching reading to kindergarten through grade 8 students. Includes assessment and methods for teaching students with special needs. Prerequisites: (WR 115 and RD 115) or IRW 115. Audit available.

ED 124. Instructional Strategies: Mathematics/Science. 3 Credits.
Presents strategies for teaching, reinforcing, and assessing basic math concepts by moving in a continuum from concrete to abstract. Emphasizes using manipulatives to introduce concepts in addition, subtraction, division, fractions, and place value. Covers the use of writing to reinforce and assess math concepts and integration of math concepts into science curriculum. Prerequisites: MTH 60 or higher; placement into WR 121. Audit available.

ED 131. Applied Learning Theory. 3 Credits.
Prepares teachers and instructional assistants to work in a standards-based setting. Offers strategies to plan and implement instruction, assess student progress and instructional effectiveness, and re-teach as needed. Focuses on learning and motivational theories that apply to instructional situations. Includes creating and studying activities for specific learning problems. Prerequisites: (WR 115 and RD 115) or IRW 115. Audit available.

ED 134. Library Technology I. 3 Credits.
Introduces existing technologies used within a library, including library catalogs and integrated library systems. Explores computer hardware, software, applications, and other library equipment. Develops basic knowledge and troubleshooting skills. Examines assistive technologies. Prerequisites: CAS 133 and ED 113.

ED 136. Learning with Technology. 3 Credits.
Examines existing educational technologies being used in libraries and classrooms. Focuses on using educational technology to complement and enhance learning activities. Discusses basic principles of instructional design and adaptive technologies. Prerequisites: Placement into WR 121 and CAS 133.

ED 138. Library Cataloging and Classification. 3 Credits.
Introduces library classification systems, including Dewey Decimal System and Library of Congress Classification System. Explores basic principles and tools for cataloging both print and online materials. Discusses MARC records, bibliographic control, authority control, subject headings, and library consortia. Prerequisite: ED 122.

ED 161. Leadership Through Advocacy and Representation. 1 Credit.
Provides students with the opportunity to hone their leadership skills by representing and advocating for a constituency group. Students will process the skills learning by serving on committees that are associated with communication techniques, problem solving, interpersonal skills, research, and team work. Instructor permission required. Audit available.

ED 162. Leadership Through Civic Engagement. 2 Credits.
Provides students with the opportunity to hone their leadership skills by participating in activities associated with civic engagement through community service projects and volunteer roles. Students will develop leadership skills by working on meaningful projects that cultivate team work, communication techniques, group dynamics, project management, organization and evaluation. Instructor permission required. Audit available.

ED 163. Personal Leadership Development. 3 Credits.
Provides an overview of leadership theory, styles and skills Student leaders will be provided with the opportunity to develop skills through skill-building exercises, professional networking techniques, group process and teamwork methods, basic communication techniques, prioritizing, goal setting and other basic information necessary for those anticipating leadership roles. Instructor permission required. Audit available.

ED 206. Seminar: Advanced Education Techniques. 3 Credits.
Provides time and direction for investigating current issues in education. Audit available.

ED 208. Outdoor School Leadership Practicum. 2 Credits.
Gain training and experience teaching and leading sixth graders at outdoor school. Requires attending at least one full day training session (10-12 hours) at the outdoor school site prior to the scheduled assignment to work for 1 week, approximately 16 hours per day, 4 days, at a residential outdoor school for 6th graders.

ED 209. Library Practicum I. 3 Credits.
Provides a minimum of 100 hours of supervised library field experience. Audit available.

ED 210. Library Practicum II. 3 Credits.
Provides a minimum of 100 hours of supervised library field experience. Audit available.

ED 211. Library Practicum III. 3 Credits.
Provides a minimum of 100 hours in a supervised field experience. Prerequisites: ED 113 and CAS 133. Audit available.

ED 214. Practicum: Outdoor School. 3 Credits.
Provides an opportunity to gain training and experience teaching and counseling sixth graders in an outdoor setting. Requires attending two evening training sessions; spending one week at an outdoor camp; keeping a journal and submitting a summation paper to the PCC coordinator. Audit available.

ED 217. Classroom Management. 3 Credits.
Introduces several approaches to proactive classroom management. Strategies for setting up an appropriate room environment and establishing procedures, systems, and rules will be introduced and practiced. Behavior management will also be introduced and practiced. Prerequisites: (WR 115 and RD 115) or IRW 115. Audit available.

ED 224. Foundations of Education. 3 Credits.
Provides an overview of the history and current issues in the field for K-12 education including the impact of philosophy on practice. Prerequisites: RD 115 and WR 115. Audit available.

ED 232. Library Outreach to Diverse Communities. 3 Credits.
Explores library services for diverse populations. Focuses on developing collections, services, and programs that promote inclusion. Discusses needs of the users from a multicultural perspective. Prerequisites: ED 113; ED 118.

ED 235. Library Technology II. 3 Credits.
Continues the study of technologies used within a library. Emphasizes online tools, such as library databases, Internet search tools, social networking tools, library websites, and other media. Prerequisite: ED 134.

ED 238. Library Supervision and Management. 3 Credits.
Explores library supervision and management. Focuses on supervision and training of library staff, facilities, marketing, community outreach, budgeting, fundraising and grant writing. Prerequisites: ED 113; ED 118.

ED 251. Overview of Exceptional Learners. 3 Credits.
Introduction to diverse conditions of students with special needs in public schools. Identifies and defines the following disabilities: learning disabilities, emotional and behavior disorders, mental retardation, severe and multiple disabilities, autism, health impairments, physical disabilities, communication disorders, vision impairments, hearing loss, and traumatic brain injury. Audit available.

ED 252. Behavior Management. 3 Credits.
Behavior terminology will be defined and applied. Students will demonstrate and practice baseline setting, setting up a program, reinforcing, modeling, shaping, chaining, monitoring and graphing data. Audit available.
ED 258. Multicultural Education: Principles. 3 Credits.
Introduces philosophy, activities, and materials applied in developing a culturally sensitive multicultural classroom and curriculum. Achieves an understanding of multicultural education and its impact on teaching in the classroom. Prerequisites: RD 115 and WR 115. Audit available.

ED 259. Multicultural Education: Applications. 3 Credits.
Provides an in-depth view into multicultural educational issues in the K-12 setting today. Gain skills to develop cultural appropriate pedagogy, materials and curriculum in order to serve the needs of an increasingly diverse US educational system. Prerequisites: (WR 115 and RD 115) or IRW 115. Audit available.

ED 260. Multicultural Literature for Children and Young Adults. 3 Credits.
Introduces multicultural literature for early childhood through young adult. Emphasizes contemporary literature representing a range of cultures in the U.S. as well as world-wide. Covers selection and evaluation, cultural considerations, and book awards. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available.

ED 263. Portfolio Development. 2 Credits.
This is a capstone course for the Paraeducator and Library/Media Certificate programs. Students will prepare professional portfolios that demonstrate the competencies they have developed during the program. It may also be taken by others in the field of education who wish to create professional portfolios. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 60 or equivalent placement. Audit available.

ED 264. Portfolio Development II: AAS Paraeducator Addition. 1 Credit.
Covers how to prepare a professional portfolio that documents the outcomes and requirements for the AAS degree in Paraeducation. Prerequisite/ concurrent: ED 263.

ED 265. Library Capstone Portfolio. 2 Credits.
Provides an opportunity for reflection on program outcomes and preparation of a professional portfolio that demonstrate the competencies developed during the program. Capstone course for the Library Assistant Certificate program. Prerequisite: Permission of Department/Instructor.

ED 268. Introduction to Developmental Disabilities. 3 Credits.
Provides background information on teaching techniques, expected achievement levels, intellectual functioning, goals and objectives for working with students with developmental disabilities. Emphasizes physical and mental development from birth and familiarity with the known causes, classifications, and terminology used in the field of special education. Audit available.

ED 269. Introduction to Teaching the Learning Disabled Student. 3 Credits.
Defines terms associated with learning disabilities and behavior disorders. Includes diagnostic procedures, remedial programs and teaching techniques. Audit available.

ED 270. Practicum I. 3 Credits.
Spend a minimum of 100 hours in a supervised field experience. Participate in group debriefing sessions as arranged by PCC supervisor. Prerequisite: Permission of Department/Instructor. Audit available.

ED 271. Practicum II. 3 Credits.
Spend a minimum of 100 hours in a supervised field experience. Participate in group debriefing sessions as arranged by PCC supervisor. Prerequisite: Permission of Department/Instructor. Audit available.

ED 272. Practicum III. 3 Credits.
Spend a minimum of 100 hours in a supervised field experience. Participate in group debriefing sessions as arranged by PCC supervisor. Prerequisites: Permission or Department/Instructor. Audit available.

ED 290. Sheltered Instruction for English Language Learners. 3 Credits.
Introduces sheltered instruction strategies that will modify content for English Language Learners in the K-12 classroom. Provides opportunities to explore curriculum development and the needs of the learner. Examines the impact of immigrant culture on the ELL experience. Prerequisite: RD 115 and WR 115. Audit available.

ED 291. Bilingual and ESL Strategies. 3 Credits.
In depth approach to analyzing best practices and teaching strategies for assisting English language learners in the K-12 setting. Enhances students' ability to assess, design and provide appropriate instruction and communication for and to ELLs. Explores relevant linguistic and cultural theories and issues, and offers students a chance to connect theory to practice. Prerequisite: (WR 115 and RD 115) or IRW 115. Audit available.

ED 298A. Independent Projects in Education. 1 Credit.
Provides an opportunity to work independently on an individualized area of study within education under the sponsorship and guidance of an education faculty member. Prerequisite: Instructor permission. Audit available.

ED 298B. Independent Projects in Education. 2 Credits.
Provides an opportunity to work independently on an individualized area of study within education under the sponsorship and guidance of an education faculty member. Prerequisite: Instructor permission. Audit available.

ED 298C. Independent Projects in Education. 3 Credits.
Provides an opportunity to work independently on an individualized area of study within education under the sponsorship and guidance of an education faculty member. Prerequisite: Instructor permission. Audit available.

ED 298D. Independent Projects in Education. 4 Credits.
Provides an opportunity to work independently on an individualized area of study within education under the sponsorship and guidance of an education faculty member. Prerequisite: Instructor permission. Audit available.

ED 298E. Independent Projects in Education. 5 Credits.
Provides an opportunity to work independently on an individualized area of study within education under the sponsorship and guidance of an education faculty member. Prerequisite: Instructor permission. Audit available.

ELECTRICAL TRADES

ELT 110. Electricity for Non-Electricians. 2 Credits.
Practical, hands-on application of electrical principles, practices and codes to help non-electricians learn the basics of wiring that they encounter around the house. Safety practices will be emphasized as will basic electrical theory. After the first three class sections, there will be minimal theory or lecture and maximum practice using tools and materials that the homeowner will encounter in doing electrical work on his/her home. Audit available.

ELT 120. OSHA 10 Hour Safety Training. 1 Credit.
Introduces OSHA General Duty Clause 5(a)(1) General Safety and Health Provisions, Competent Person, Qualified Person, Health Hazards in Construction, Electrical, Fall Protection, Stairways and Ladders, Scaffolding, Motor Vehicles, Hand & Power Tools, and Excavations. Awards a 10-hour Construction Outreach Completion Card from OSHA. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Audit available.

ELT 125. Basic Programmable Controllers. 2 Credits.
Develops the student’s understanding of the complete operation of a variety of programmable controllers. The applications, operations, and programming of PLC’s are the areas of study with the main emphasis on programming (computers will be used as programmers). This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Prerequisites: (FMT 111 or TE 9237); BA 131. Audit available.

ELT 126. Intermediate Programmable Controllers (PC Based). 2 Credits.
Introduces advanced features of programmable controllers, including designing, monitoring, and editing programs with practical hands-on experience. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Prerequisites: ELT 125 or TE 9126 Audit available.

ELT 150. Fiber Optics I. 4 Credits.
Principles of Fiber Optics and Fiber Optic solutions for communications. Application for Ready Access; includes the use of special splicing techniques, termination, splices, and cable testing. Includes cable and closure preparation, fiber cleaving and splicing. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Audit available.

ELT 151. Fiber Optics II. 4 Credits.
Principles of Fiber Optics and Fiber Optic solutions for communications. Application for Ready Access; includes the use of special splicing techniques, enclosure, test sets and fault locating equipment. Routing, splicing, termination and testing of fiber optic cables in campus applications is included. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Prerequisites: ELT 150 or TE 9101. Audit available.

ELT 152. Fiber Optics: Inside/Outside Plant. 4 Credits.
Principles of Fiber Optics and Fiber Optic solutions for communications. Application for Ready Access; includes the use of special splicing techniques, enclosure, test sets and fault locating equipment. Routing, splicing, termination and testing of fiber optic cables in aerial applications is included. Prerequisites: ELT 151 or TE 9102. Audit available.

ELT 153. Fiber Optics: Outside Plant. 4 Credits.
Principles of Fiber Optics and Fiber Optic solutions for communications. Application for Ready Access; includes the use of special splicing techniques, enclosure, test sets and fault locating equipment. Routing, splicing, termination and testing of fiber optic cables in aerial applications is included. Prerequisites: ELT 151 or TE 9102. Audit available.
ELT 201. Electrical Motor Control. 2 Credits.
Provides knowledge and skills needed to design, install, maintain, service and troubleshoot electric motors. Focuses on the operation and installation of control systems, specifically motor starters and controllers. Electromagnetic controls, motors and transformers will also be covered. Lab activities will utilize electrical test equipment to analyze electric motor control malfunctions. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. ELT 201 and APR 201 cannot both be taken for credit. Prerequisites: FMT 111 or APR 104 or Department Permission. Audit available.

ELT 204. Adjustable Speed Drives. 2 Credits.
Covers theory, operation, installation, and maintenance of adjustable speed motor drives. Introduces drive applications and selection for industrial, utility, and commercial structures. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Prerequisites: Placement in MTH 20 or higher; (WR 80 or ESO 252) and (RD 80 or ESOL 250) or equivalent placement. Audit available.

ELT 210. Electricity for the Non-Electrician I. 2 Credits.
Provides practical, hands-on application of residential wiring methods. This class is a direct continuation of the skills developed in Electricity for the Non-Electrician, incorporating additional wiring practices, materials and troubleshooting methods. Emphasizing safety and workmanship as well as electrical theory and building codes as they apply to the homeowner. Prerequisites: ELT 110 or TE 9071. Audit available.

ELT 220. OSHA 30 HR Safety Training. 3 Credits.
Emphasizes safe working environments targeting people who have compliance and training responsibilities. Covers how to establish employee protection programs and to inform and train employees properly. Includes intro to OSHA, general safety and health provision, Hazcom, health hazards in construction, stairways and ladders, motor vehicles, materials handling, hand and power tools, scaffolding, fire protection, excavations, confined space entry, fall protection, personal protective and lifesaving equipment and electrical safety. Awards a 30 hour OSHA safety card upon successful completion of course. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Audit available.

ELT 225. Advanced Programmable Controllers, PC Based. 2 Credits.
Covers advanced features of Programming controllers including designing, monitoring, troubleshooting and editing techniques with practical hands-on experience. This class can be used toward Continuing Education Units for Oregon State electrical licensing purposes. Prerequisites: ELT 126 or TE 9121. Audit available.

ELT 230. National Electrical Code. 3 Credits.
Instructs the electrical professional where and how to find required information in the NEC book, demonstrating how the various articles work together to provide complete information on a subject. Most code articles (90 through 450) will be explained in detail. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. ELT 230 and APR 230 cannot both be taken for credit. Audit available.

ELT 250. AMP ACT I. 1 Credit.
Includes an overview of premises cabling systems, and in-depth review of the ANSI/TIA/EIA and ISO/IEC industry standards, and a discussion and hands-on practicum on the rough-in, installation, management, and termination of shielded and unshielded twisted pair and optical fiber cabling systems. The course is about 85% hands-on and is designed with a systems approach instruction method. Successful completion of the course examination will certify you as an AMP Registered Installer. Audit available.

ELT 251. AMP ACT II. 1 Credit.
Students will obtain the experience necessary to certify and document twisted pair and optical fiber cable plants based on established industry standards, which include ANSI/TIA/EIA-568A, TSB-67, ANSI/EIA/TIA-526-14A and ANSI/TIA/EIA-526-7. Each student will also obtain experience troubleshooting common problems with installed LAN cable plants. This course is approximately 75% hands-on training. An extensive documentation package is provided. Successful completion of the course examination will certify you as an AMP Registered Certifier and Troubleshooter. Prerequisites: ELT 250 or TE 9001. Audit available.

ELT 252. AMP ACT III. 1 Credit.
Designed for individuals involved in the design and installation of premises cabling systems. This course progresses through a step-by-step process from the initial design analysis through the final actual project presentation based on the guidelines of the ANSI/TIA/EIA-568A, TSB-67, ANSI/EIA/TIA-526-14A and ANSI/TIA/EIA-526-7. Each student will also obtain experience troubleshooting common problems with installed LAN cable plants. This course is approximately 75% hands-on training. An extensive documentation package is provided. Successful completion of the course examination will certify you as an AMP Registered Designer. Audit available.

ELT 280. Electrical Code Changes. 0.5 Credits.
Emphasizes how code changes from the previous adopted code differs from the newly adopted codes. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Audit available.

ELT 281. NEC Ratings. 0.5 Credits.
Includes the study of explanation of approved Underwriter labs and testing standards as related to the purchase and use of electrical equipment. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Audit available.

ELT 282. Grounding and Bonding. 0.5 Credits.
The study of Article 250 in the NEC. Covers what has to be grounded and bonded and standards and rules associated with such. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Audit available.

ELT 283. Code Calculations. 0.5 Credits.
Provides an understanding of the NEC and electrical calculations related to the design of electrical systems. Audit available.

ELT 284. Motor Controls. 0.5 Credits.
Focuses on code articles related to motor controls, automatic and contactor control. Safety also covered. This class can be used towards Continuing Education Units for Oregon State electrical licensing purposes. Audit available.

EET 101. Introduction to Electronic Testing Equipment/Soldering/Tools. 1 Credit.
Introduces the operation and use of various types of equipment and tools used in electronic technology including: oscilloscope, function generator, DMM, and voltage source, calculator, and EXCEL. Uses software control to obtain and analyze data available on this equipment, and Spice to perform simulation. Prerequisite: WR 121; Prerequisite/concurrent MTH 111. Audit available.

EET 110. Introduction to Renewable Energy. 3 Credits.
Introduces sustainability and renewable energy (RE) sources and technologies including PV and solar thermal, geothermal, biomass, biodiesel, fuel cell, wind, hydro, ocean wave, photovoltaic, etc. Covers RE environmental issues, demand and distribution management, and green and RE career opportunities, etc. Prerequisites: WR 121; prerequisite/concurrent MTH 111; or department approval. Audit available.

EET 111. Electrical Circuit Analysis I. 5 Credits.
Covers International System of Units, engineering notation and prefixes, definitions of current, voltage, resistance, power, work and efficiency. Includes DC circuits: Ohm’s and Kirchhoff’s Laws; DC resistive networks, Thevenin and Norton equivalent circuits, node voltage and mesh current analysis methods; Includes a 3-hour per week laboratory session. Prerequisite/concurrent: MTH 111. Prerequisite/concurrent: EET 101 or department approval. Audit available.

EET 112. Electrical Circuit Analysis II. 5 Credits.
Covers Capacitance; Inductance; RC/RL transient response; sinusoidal waveforms; reactance and impedance; AC power. Phasor analysis of RLC circuits; node voltage and mesh current analysis; superposition, Thevenin’s and Norton’s network theorems. Includes a 3-hour per week laboratory. Prerequisite: EET 111. Prerequisite/concurrent: MTH 112. Audit available.

EET 113. Electrical Power. 5 Credits.
Covers ac power, series and parallel resonant circuits, Q and selectivity, RL and RC filters, decibels, transfer functions and Bode diagrams, transformers, three phase power distribution, introduction to motors/generators/motor control. Fourier series and transform applied to circuit analysis. Prerequisite: EET 112. Audit available.

EET 121. Digital Systems 1. 4 Credits.
Explores basic digital electronics concepts. Includes number systems, Boolean algebra, logic simplification, and circuit troubleshooting. Includes analysis of digital logic using digital circuit simulations and basic spreadsheet skills. Prerequisite/concurrent: MTH 111, EET 101, and EET 111. Audit available.

EET 122. Digital Systems 2: Computing Systems. 5 Credits.
Explores electronic hardware and circuits to store, move and calculate data. Investigates state machines, logic optimization, and analysis of digital systems. Includes modification, troubleshooting and analysis of circuits with a programmable logic device (PLD) using a hardware descriptive language (HDL), such as VHDL or Verilog. Prerequisite: EET 121. Audit available.
EET 123. Digital Systems 3: Mixed-Signal Systems. 5 Credits.
Combines digital and analog circuitalogies. Explores Analog/Digital conversion and memory circuits. Includes modification, troubleshooting and analysis of circuits with a programmable logic device (PLD) using a hardware descriptive language (HDL), such as VHDL or Verilog. Prerequisite: EET 111 and EET 122. Audit available.

EET 178. Computing Environments for Technicians. 5 Credits.
Surveys computer environments where computers, operating systems, programming languages and network connections integrate. Includes projects involving command line, terminal applications, programming, hardware identification, troubleshooting and system analysis. Includes a 3-hour per week laboratory. Prerequisite: EET 122 or MT 122. Audit available.

EET 179. Fuel Cell Systems. 3 Credits.
Introduces fuel cell technologies used for distributed power generation. Covers technical aspects of fuel cell processing, fuel cell stacks, power electronics, balance of plant (BOP), tools for performance evaluation and troubleshooting, fuel cell codes and permitting, safety procedures, career outlook, and renewable versus alternative energy technologies. Includes laboratory projects as applications of theoretical concepts. Prerequisite/concurrent: MTH 111 or CMET 123. Audit available.

EET 188. Industrial Safety. 1 Credit.
Covers safety practices in the electronics industry. Includes electrical safety, HAZMAT, flammable and combustible liquids, safe handling of electronic components and tools, in the electronics environment including ESD control, product testing/certification, blood borne pathogens, fire safety, laser and radiation safety. Audit available.

EET 221. Semiconductor Devices and Circuits. 5 Credits.
Introduction to semiconductor devices. Characteristics and biasing of diodes and transistors. Design and analysis of circuits using diodes, bipolar transistors, and field effect transistors. Application of transistors as amplifiers and switches. A 3-hour per week laboratory includes the application of computer tools in circuit design, evaluation, and analysis. Prerequisite: EET 113, MTH 112. Audit available.

EET 222. Operational Amplifier Circuits. 5 Credits.
Characteristics and applications of operational amplifiers (op-amps). Design and analysis of op-amp amplifiers, comparators, voltage and current regulators, summers, integrators, and differentiators. Frequency response of op-amp circuits. Applications of the op-amp in power supplies and control systems. A 3-hour per week laboratory includes project design, evaluation, and documentation. Use of computer tools. Prerequisites: EET 221 Audit available.

EET 223. RF Communications Circuits. 5 Credits.
Surveys amplitude and frequency modulation and demodulation, transmitter and receiver systems and circuits, receiver system noise, transmission lines, wave propagation and antennas, and communication system applications. Includes a 3-hour per week laboratory. Prerequisite: EET 221. Audit available.

EET 241. Programming for Electronics. 4 Credits.
Introduces programming for electronics applications with emphasis on instrumentation control and robotics and automation. Includes writing programs, as well as troubleshooting and modifying existing code in assembly, C and/or specialized high-level computer languages, such as LabVIEW. Prerequisites: EET 123 and EET 178. Audit available.

EET 242. Microcontroller and Embedded Systems. 4 Credits.
Introduces the use, characterization, analysis, troubleshooting methods and programming of microcontrollers and embedded systems with a focus on application. Includes a 3-hour per week laboratory. Prerequisite: EET 123 and EET 178. Audit available.

EET 254. Electronic Engineering Technology Seminar. 1 Credit.
Topics covered include information on finding employment in the electronics industry, writing resumes and cover letters, and practice interviewing. Prerequisite: EET 113. Audit available.

EET 256. Capstone Project. 2 Credits.
Students learn how to work as teams on instructor approved projects. Students can choose projects in electronics, renewable energy systems, wireless/data communications and automation/robotics. Typical project activities include the research and design phase, the execution phase, and the project report phase. A written report and oral presentation is required. Prerequisite: EET 241 or EET 242; and EET 222 Audit available.

EET 260. Biomedical Equipment I. 4 Credits.
Introduces the fundamentals of medical instrumentation, bioelectric signals and electrodes, recording systems, biomedical recorders, patient monitoring systems, arrhythmia and ambulatory monitoring instruments, fetal monitoring instruments, biomedical telemetry and telemedicine, oximeters, blood flowmeter, cardiac output measurement, pulmonary function analyzers, laboratory equipment, audiometers, and patient safety. Prerequisite/Concurrent: EET 221. Prerequisite: EET 123, MP 111 and (BI 122 or BI 233). Audit available.

EET 261. Biomedical Equipment II. 4 Credits.
Introduction to modern imaging systems, pacemakers, defibrillators, surgical equipment, lasers, physiotherapy and electrotherapy equipment, hemodialysis machines, lithotriptors, anesthesia machines, ventilators, radiotherapy equipment and automated drug delivery systems. Prerequisites: EET 260. Audit available.

EET 272. Motors and Motor Controls. 3 Credits.
Covers operating principles, characteristics, and control of AC and DC motors and generators. Explores single-phase, split-phase, and three phase AC motors, Series and Shunt DC motors, and stepper motors. Implements basic motor control circuits using discrete and programmable control components. Prerequisite: EET 221. Audit available.

EET 273. Electronic Control Systems. 3 Credits.
Introduces electronic control systems, closed-loop, proportional, integral, derivative, PI, and PID control modes, power control devices, relays, transistors, thyristors, and sensors. Topics include temperature control, DC motor control, and stepper motor control. Lab exercises include temperature control and motor control circuits. Prerequisite: EET 222. Audit available.

EET 280A. Cooperative Education: Electronics Engineering Technology. 1-5 Credit.
Provides an approved cooperative education position within a local electronic industry or related employer. Explores the connection between one’s educational program and industry application. Department permission required.

EET 280C. Cooperative Education: BMET Practicum. 4-11 Credit.
Provides clinical education experience in a biomedical department with a hospital, clinic or other medical facility, a medical equipment repair/manufacturing company, or a laboratory. Variable credit: 30 hours of work experience equals one credit. Prerequisites: Department approval; EET 260 Corequisite: EET 261.

EMERGENCY DISPATCH SERVICES

ETC 103. Introduction to Emergency Telecommunications. 4 Credits.
Introduces the concept of telecommunications 911 dispatching, including roles, responsibilities and basic job duties. Audit available.

ETC 104. Emergency Telecommunications - Call Taking. 4 Credits.
Utilizes the NAED course to prepare for qualification of the nationally recognized National Academy of Emergency Dispatch Basic Telecommunicator Certificate. Prerequisite: ETC 103. Audit available.

ETC 105. Crisis Intervention & Critical Incident Stress Management. 3 Credits.
Explores the unique stressors experienced by emergency services responders. Examines the Critical Incident Stress Management model and provides an opportunity for a mock debriefing session. Audit available.

ETC 106. Introduction to Law for Tele-Communicators. 3 Credits.
Introduces legal concepts and theory as they apply to emergency telecommunications and public safety. Audit available.

ETC 108. Introduction to Computer Aided Dispatching. 2 Credits.
Develops keyboarding skills using Computer Aided Dispatching based upon information received through various media, but most often aurally. Includes a variety of audio recordings, dictation and role-play to record emergency response information in a computer program and with a variety of software applications, including Word, Excel, Critical and Computer-Aided Dispatch. Required keyboarding speed of at least 25 wpm. Audit available.

ETC 110. Communication Center Operations - Basic Skills. 3 Credits.
Introduces the emergency communications simulator lab. Applies methods and theory in an interactive lab setting using radio, telephone, computers and recording equipment. Includes the use of emergency communications equipment and standard operating procedures to simulate actual emergency calls and situations. Audit available.

ETC 111. Communication Center Operations - Intermediate Skills. 3 Credits.
Builds on skills learned in ETC 110 to provide practical experience for industry related multitasking, problem solving and customer service in a diverse market. Includes the use of the simulation lab, multi-line phones and radios and the application of policies, procedures and protocols. Prerequisite: ETC 110. Audit available.

ETC 112. Communication Center Operations- Advanced Skills. 3 Credits.
Covers emergency call-taking and emergency services radio communication in the 9-1-1 simulation lab. Requires demonstrating a high level of multi- tasking ability, quick responses and rapid problem-solving skills, as well as a familiarity with 911 computer software and multifunction telephone systems. This is the third course in a three-course sequence. Prerequisite. ETC 111. Department Permission. Audit available.
ETC 124. Radio Communications Lab. 1 Credit.
Integrates practice of communication via two-way radio. Continues developing multi-tasking skills, accurate CAD documentation skills with information provided by field units and tracking field status over the radio. Prerequisites: ETC 110. Audit available.

ETC 125. Introduction to Fire Communications. 2 Credits.
Introduces fire call taking and dispatching. Includes the use of emergency communications equipment and the application of policies, procedures and protocols in the handling of fire related situations. Prerequisite: ETC 111.

ETC 201. Law Enforcement Data System (LEDS). 1 Credit.
Introduces the State of Oregon Law Enforcement Data System, which provides computer databases for state and local law enforcement and the Criminal Justice Information System, interface with national computer systems. Completion of the Criminal Justice Information System certificate certification at the Inquiry level. Students must complete a Criminal Background check and be free of any felony or drug related convictions. Prerequisite: ETC 103. Audit available.

ETC 202. Emergency Medical Dispatch Overview. 2 Credits.
Covers Emergency Medical Dispatching including emergency medical pre-arrival instructions to assist the average citizen in stabilizing and in some cases, treating a medical emergency prior to the arrival of trained medical personnel. Includes the delivery, over the telephone, of specific - physician approved - instructions for a variety of common medical emergencies. Prerequisite/Concurrent: EMS 120 or current 1st Aid/CPR certification. Audit available.

ETC 203. Tactical Dispatching for High Risk Incidents. 1 Credit.
Introduces the concept of Tactical Dispatching, which involves high risk/low frequency crimes and situations such as kidnappings, hostage situations, and suicidal or mentally unstable callers. Prerequisite ETC 104. Audit Available.

ETC 215. ES Capstone: Emergency Services Hiring Process. 3 Credits.
Covers the creation of a portfolio, documenting course work, activities, education and experience history. Includes the completion of a comprehensive personal history background. Provides discipline specific application process and discipline specific oral interview questions. Audit available. Department permission required.

ETC 280A. Cooperative Education: Emergency TeleCommunicator. 1-6 Credit.
Students earn credit for learning from practical experience at a worksite related to being an Dispatcher/Call Taker. Appropriate work experiences provide opportunities to build and develop skills necessary to be a successful TeleCommunicator/Dispatcher. May be repeated up to 12 credits. Prerequisite: Completion of 8 ETC credit hours and 6 credits of lab hours.

EMERGENCY MANAGEMENT

EM 101. Introduction to Emergency Services. 4 Credits.
Covers a broad range of emergency services providers and the relationships between these service providers and the community. Includes history, organizational structure, terminology, training and standards, legal and ethical responsibilities of Police, Fire, Emergency Medical, 9-1-1 and Emergency Management, as well as joint responses. Audit available.

EM 103. Information Systems of Emergency Management. 3 Credits.
Introduces communications technologies used in emergency response and disaster response, including telephone, radio and computer systems. Covers the operation and components of two-way radio and broadcasting procedures. Explores the link communications specialists provide between agencies, responders and the public. Examines current standards and practices utilizing social media, GIS and GPS, mapping technology, video monitoring and other technologies and security systems. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

EM 110. Theory of Emergency Management. 3 Credits.
Introduces emergency management theory, including basic definitions, identification of hazards, definitions of the phases of emergency management, identification of resources, roles and responsibilities of emergency managers, and coordination of various systems. Recommend: WR 115. Audit available.

EM 112. Theory of Homeland Security. 3 Credits.
Introduces Homeland Security theory including: basic definitions, identification of threats and organizations, identification of resources, roles and responsibilities of emergency managers, first responders, law enforcement and the military, the coordination of various systems and levels of government. Department permission required. Audit available.

EM 114. History of U.S. Hazards, Disasters and Emergency Management. 4 Credits.
Surveys the U.S. History of hazards and disasters and traces the evolution of emergency management. Emphasis will be on naturally occurring disasters with appropriate attention to the development of technological incidents and the evolution of terrorism. Recommend: WR 115. Audit available.

EM 201. Disaster Planning & Preparedness. 4 Credits.
Introduces disaster preparedness for individuals, businesses, communities and governments. Explores the design and preparation of disaster preparedness plans for individuals and local jurisdictions. Examines the relationships between government and non-governmental organizations and services available in disasters. Prerequisites: Placement into WR 121, and EM 110 OR EM 112 or EM 114. Audit available.

EM 202. Hazard Mitigation. 3 Credits.
Covers the identification of hazard risks and associated mitigation programs and strategies, includes how to identify local mitigation opportunities and cost effective solutions. Prerequisite: WR 121 and EM 110 or EM 112 or EM 114. Audit available.

EM 203. Disaster Response I. 4 Credits.
Covers principles that promote effective disaster response practices in operations and management. Examines the nature of disasters, the context of response operations, and the roles and responsibilities of individuals and organizations. Prerequisite: WR 121 and EM 110 or EM 112 or EM 114. Audit available.

EM 204. Disaster Response II. 4 Credits.
Examines response operations and management with a focus on the Incident Command System, area command, multi-agency coordination systems, joint information system and other systems. Prerequisite: WR 121 and EM 110 or EM 112 or EM 114. Audit available.

EM 205. Disaster Recovery. 3 Credits.
Covers the basic concepts and operational procedures and authorities involved in recovering from major disasters. Addresses Federal, State, and local government roles and responsibilities in major disaster recovery work, with an emphasis on government coordination and solutions to problems that frequently arise in recovery operations. Prerequisites: WR 121 and EM 110 or EM 112 or EM 114. Audit available.

EM 211. Public Policy & Law in Emergency Management. 3 Credits.
Provides the student with specialized knowledge and skills necessary to develop public policy related to emergency management. Course emphasizes policy leadership in the area of emergency planning and response as part of the larger responsibility to protect the general welfare of the people community, all within existing federal, state and local laws. Prerequisite: EM 110 Audit available.

EM 215. Crisis Intervention & Critical Incident Stress Management. 3 Credits.
Explores the unique stressors experienced by emergency services responders. Examines the Critical Incident Stress Management model and provides an opportunity for a mock debriefing session. Examines individual response to stress and the role that personality traits play in high stress situations. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

EM 221. Business Continuity or Resumption of Operations Planning. 3 Credits.
Addresses the critical dependence of modern organizations on disaster vulnerable technology, such as management information, communications, and computerized process control systems. Students will have the opportunity to produce working plans that provide preventative measures to minimize disaster impact, provide an organized response, and ensure business continuity during recovery. Prerequisites: EM 114 & WR 121. Audit available.

EM 222. Disaster Exercise Design and Evaluation. 3 Credits.
Provides the student with an understanding of how different types of disaster exercises are written and conducted. Exercises are a necessary training tool for all emergency response organizations to test new skills, technology and competency. Prerequisites: EM 203, EM 204, and EM 205. Audit available.

EM 223. Terrorism. 3 Credits.
Introduces the issues of terrorism, the organizations and key characters in both international and domestic terror. The course also introduces the various agents and delivery systems of weapons of mass destruction. Recommend: WR 115. Audit available.

EM 228. Emergency Management: Capstone. 3 Credits.
Covers the creation of a portfolio, documenting course work, activities, education and experience history. Includes the completion of a comprehensive personal history background. Provides discipline specific application process and discipline specific oral interview questions. Department permission required. Prerequisites: Placement into WR 121; EM 110 or EM 112 or EM 114. Audit available.

EM 280A. CE: Emergency Management. 1 Credit.
Provides the opportunity to gain practical experience in Emergency Management or Homeland Security at a worksite or in a community based setting. Prerequisites: WR 121, and either EM 110 or EM 112 or EM 114.
EMERGENCY MEDICAL SERVICES

EMS 100. Introduction to Emergency Medical Services. 3 Credits.
Covers the roles and responsibilities of the EMT: emergency medical services system, medical-legal considerations, major incident response, hazardous materials awareness, stress management, and blood-borne pathogens. Audit available.

EMS 105. EMT Part I. 5 Credits.
Develops skills for the recognition of symptoms of illness and injuries and proper procedures of emergency care. Requires passing criminal background check and drug screen before placement into mandatory clinical observation in hospital emergency department and ambulance ride along experience. Part 1 of the 2-part Oregon EMT course. Department permission required. Prerequisite: (WR 115 or IRW 115); MTH 20; (RD 90 or IRW 90); current HCP CPR card.

EMS 106. EMT Part II. 5 Credits.
Continues EMS 105. Oregon EMT preparation. Includes preparation for state and national certification exams. Department permission required. Prerequisite: Successful completion of EMS 105 at PCC within the last year; current HCP CPR card.

EMS 113. Emergency Response Communication/Documentation. 2 Credits.
Covers principles of therapeutic communication, oral, written, and electronic communications in the provision of EMS. Includes: documentation of elements of patient assessment, care, transport, communication systems, radio types, reports, codes, and correct techniques. Prerequisites: EMS 105 and EMS 106, WR 121. Recommended: SP 111 or COMM 111. Audit available.

EMS 114. Emergency Response Patient Transportation. 2 Credits.
Covers ambulance operations, laws, maintenance and safety, emergency response driving and route planning. Prerequisites: EMS 105, WR 121. Recommended: EMS 106.

EMS 115. Crisis Intervention. 3 Credits.
Covers intervention in behavioral crises of sudden death, suicide, rape, murder, vehicle accidents, disease, trauma, and child abuse. Includes resources, supporting behavioral patterns, and handling emotional stress of the individual as well as coping with emotional conflict within one’s self. Prerequisite: WR 121. Recommended: EMS 106 and SP111 or COMM 111. Audit available.

EMS 116. Emergency Medical Services Rescue. 3 Credits.
Covers the elements of procedures of rescue practices, systems, components, support and control of rescue operations including basic rescue tools. Introduces techniques and tools of patient extrication, emphasizing application to traffic accidents and low angle rescue. Recommended: EMS 106 and (SP 111 or COMM 111). Prerequisites: EMS 100, EMS 105, WR 121.

EMS 118. EMS Medical Terminology. 3 Credits.
Analysis of anatomical roots, prefixes, and suffixes, and Greek and Latin verbs and adjectives. Helps build a medical vocabulary. Examination of representative anatomical structures, diseases, procedures, tumors, and descriptive terms by simple analysis of words. Audit available.

EMS 120. Emergency Medical Services: First Responder. 3 Credits.
For those who are usually the first person at the scene of trauma or medical emergencies including law enforcement, fire department personnel, etc. Knowledge and skills are developed to provide basic care for trauma, medical and environmental emergencies; evaluation of scene and patients; and appropriate access and use of the Emergency Medical Services System. Must be 16 years of age. Audit available.

EMS 135. Advanced EMT Part 1. 5 Credits.
Develops skills for recognizing symptoms of illness and injuries. Covers proper procedures of emergency care at the Advanced EMT level. Requires passing criminal background check and drug screen before placement into mandatory clinical and internship experience. Part 1 of the 2-part Advanced EMT course. Department permission required. Recommended: BI 121, BI 122, or higher, WR 121, and MTH 60. Prerequisite: EMS 106, (WR 115 or IRW 115), MTH 20, (RD 90 or IRW 90) or higher levels; current HCP CPR card; current Oregon EMT licensure.

EMS 136. Advanced EMT Part 2. 5 Credits.
Develops skills for recognizing symptoms of illness and injuries. Covers proper procedures of emergency care at the Advanced EMT level. Continuation of AEMT Part I. Requires passing criminal background check and drug screen before placement into mandatory clinical and internship experience. Part 2 of the 2-part Advanced EMT course sequence. Department permission required. Recommended: BI 121, BI 122, or higher, WR 121, and MTH 60. Prerequisite: EMS 135 at PCC within the last year and Current HCP CPR card; Current Oregon EMT licensure.

EMS 240. Paramedic I. 12 Credits.
Covers illness and injury prevention, medical legal issues and well-being of the paramedic. Includes patient care topics such as advanced airway, medication math, general principles of pathophysiology of shock, pharmacology, endocrinology, cardiovascular system, and EKG monitoring. Requires associated practical labs. Prerequisites: WR 121, MTH 65, BI 233, EMS 100, EMS 113, EMS 114, EMS 115, EMS 116, MP 111 and Department permission required.

EMS 242. Paramedic II. 9 Credits.
Covers EKG review, trauma assessment, kinematics, toxicology, drug and alcohol abuse, infectious disease, OB/GYN, neonatology, pediatric, geriatric, and psychiatric disorders, burns, dealing with death and the dying, crime scene preservation, environmental conditions, and advanced airway. Includes Pre-Hospital Trauma Life Support (PHTLS), Pediatric Education for Pre-Hospital Professional (PEPP) and Advance Cardiac Life Support (ACLS) certifications. Requires associated practical labs. Prerequisites: EMS 240 and Department permission required.

EMS 244. Paramedic Clinical Internship I. 3 Credits.
Begin in-hospital clinical experiences including direct patient care responsibilities necessary for completion of the educational objectives. Students are in a hospital clinical setting with disease and injury conditions comparable to those the student will experience in the pre-hospital care situations. Department permission required. Prerequisite: EMS 240.

EMS 246. Paramedic Clinical Internship II. 5 Credits.
Complete in-hospital clinical experience to include direct patient care responsibilities necessary for completion of the program’s objectives. The patients in the hospital clinical setting shall have disease and injury conditions comparable to those the student will experience in the pre-hospital care situation. Department permission required. Prerequisite: EMS 244.

EMS 248. Paramedic Field Internship I. 2 Credits.
Begin field experience designed to expose students to disease and injury conditions. This segment begins the required 200 hours and number of calls necessary to fulfill the State curriculum. Department permission required. Prerequisite: EMS 244.

EMS 250. Paramedic Field Internship II. 7 Credits.
Complete the field experience necessary to fulfill the required hours and calls necessary for state certification. Department permission required. Prerequisite: EMS 248.

EMS 252. Paramedic III. 2 Credits.
Students successfully complete course final written and practical exam and prepare for the State and National Registry written and practical exam. Department permission required. Prerequisite: EMS 248. Audit available.

ENGINEERING

ENGR 100. Exploring Engineering. 1 Credit.
Focuses on engineering careers, and what engineers “do.” Presents various engineering disciplines and related occupations through class discussions, presentations by practicing engineers, laboratory activities, and viewing of occupational videos. Designed to inform students of the attributes of a career in engineering and the academic preparation it requires. Audit available.

ENGR 101. Engineering Fundamentals. 4 Credits.
Introduces basic engineering problem solving, analysis and design. This course covers basic concepts of curve fitting, statistics, electricity, and mechanics, including vector algebra. It utilizes spreadsheet and computer programming applications as problem solving tools. Students will be introduced to non-technical aspects of engineering, such as registration laws and ethics. Labs may include group engineering project work. Prerequisite: Placement in MTH 251. Prerequisite/concurrent: (WR 115 or IRW 115). Audit available.

ENGR 102. Engineering Graphics. 3 Credits.
Introduces manual and computer-aided drafting including hand sketching, drafting standards, pictorial drawings, and dimensioning. Includes creation of 2-D drawings and 3-D solid models with AutoCAD. Prerequisite: Department approval or ENGR 101. Audit available.

ENGR 105. 3-D Modeling and Engineering Graphics. 3 Credits.
Introduces manual and computer-aided drafting used to design parts and assemblies. Covers sketching, basic drawing and dimensioning, geometric construction, and multiple views. Focuses on 3-D modeling techniques. ENGR 105, CADD 175 and CMET 237 cover similar material and cannot all be applied to graduation requirements. Prerequisite: ENGR 101 or (placement into MTH 111 and department approval). Prerequisite/concurrent: (WR 115 or IRW 115 or IRW 115 or IRW 90) or higher). Audit available.

ENGR 114. Engineering Programming. 4 Credits.
Introduces structured programming with applications to engineering problems. Prerequisite: ENGR 101 or department-approved equivalent. Audit available.
ENGR 171. Introduction to Digital Logic Design. 5 Credits. Introduces analysis and computation of basic logic problems and circuits. Covers number systems, Boolean algebra, and logic circuit simplification techniques to produce simplified logic for minimal realization. Includes the creation of designs utilizing basic logic families, flip-flops, registers, and/or counters. Prerequisite/Concurrent: ENGR 221. Audit available.

ENGR 211. Statics. 4 Credits. Analysis of forces acting on particles and rigid bodies. Force systems, centroids, and moments of inertia are covered. Scientific, programmable, graphing calculator required. Prerequisites: MTH 252, PHY 211; ENGR 101. Audit available.

ENGR 212. Dynamics. 4 Credits. Kinematics and kinetics of particles and rigid bodies are analyzed by Newton's laws, work-energy and impulse-momentum methods. Prerequisite: ENGR 211. Audit available.

ENGR 213. Strength of Materials. 4 Credits. Relationships between stress and strain in deformable solids is studied. Analysis is applied to axially-loaded members, circular shafts, beams and columns. Combined stresses, statically indeterminate systems and properties of structural materials are included. Prerequisite: ENGR 211. Audit available.

ENGR 221. Electrical Circuits I. 5 Credits. Introduces students to basic circuit elements and circuit analysis techniques. Covers Ohm's and Kirchhoff's Laws, network theorems, node voltage analysis and mesh current analysis. Operational amplifiers, inductors, capacitors, RC and RL transient response are also covered. Circuit simulation, math analysis software, and laboratory experiments are incorporated to solidify classroom theory and practice. Prerequisite: ENGR 211. Audit available.

ENGR 222. Electrical Circuits II. 5 Credits. Covers RLC circuits, transformers, AC power, and three phase power. Explores steady state sinusoidal analysis and phasor techniques. Introduces the Laplace Transform. Also incorporated is circuit simulation, math analysis software, and laboratory experiments to solidify classroom theory and practice. Prerequisite: ENGR 221. Audit available.

ENGR 223. Electrical Circuits Ill. 5 Credits. Covers Laplace Transform analysis. The transfer function, convolution, bode plots, and Fourier series are used to analyze circuits. Passive and active filters are designed and analyzed using these new circuit analysis techniques. Circuit simulation, math analysis software, and laboratory experiments are incorporated to solidify classroom theory and practice. Prerequisite: ENGR 222 Prerequisite or concurrent enrollment: MTH 256. Audit available.

ENGR 226. Plane Surveying. 4 Credits. Introduces basic concepts of plane surveying. Includes use of tape, level, and electronic total station, along with horizontal and vertical control networks. Includes network calculations and adjustments, angles and bearings, and topographic surveying and mapping. Prerequisite: ENGR 102 and (MTH 112 or CMET 123). Audit available.

ENGR 231. Material Science. 4 Credits. Selection of materials for modern engineering applications. Structure and properties of metals, ceramics and polymers starting with fundamental atomic arrangements. Microstructural control through terminal and mechanical processing and effects of service environment are covered. Prerequisites: PHY 211; MTH 252; (CH 201 or 222). Audit available.

ENGR 262. Manufacturing Processes. 4 Credits. Introduces the interaction of design with industrial materials and processes. Emphasizes the connection of design, materials, and processes with technical and economic feasibility, trade-offs, and automation. Prerequisites: (CMET 121 and 122); or (ENGR 101 and PHY 211). Audit available.

ENGR 271. Digital Logic Design. 4 Credits. Explores shift register devices and circuits; design, timing analysis, and application of synchronous and asynchronous state machine circuits using discrete devices and programmable logic devices. Includes timing analysis of asynchronous state machines, arithmetic circuits and devices; internal architecture of a microprocessor; design and interfacing of memory systems. Introduces design for test techniques. Reinforces the systematic design methodology, documentation standards, and use of computer-based tools. Prerequisite: ENGR 171. Audit available.

ENGLISH

ENG 104. Introduction to Literature (Fiction). 4 Credits. Examines significant works of fiction, short stories and novels, from diverse cultures and periods in history; explores fiction as an art form designed to provoke thought and challenge social norms; considers fiction as an expression of human experience. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AOBT, Arts and Letters/ASOT-B.

ENG 105. Introduction to Literature (Plays). 4 Credits. Examines plays as literature and as an art form designed to provoke thought and to challenge social norms. Considers drama as an expression of human experience. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT, Arts and Letters/AOBT.

ENG 106. Introduction to Literature (Poetry). 4 Credits. Examines significant poems from diverse cultures and periods in history; explores poetry as an art form designed to provoke thought and challenge social norms; considers poetry as an expression of human experience. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT, Arts and Letters/AOBT.

ENG 107. World Literature. 4 Credits. Introduces broad spectrum of literature in translation that begins in antiquity and concludes at the dawn of the Renaissance. Includes works of fiction, poetry, drama and non-fiction. Examines the uniqueness and interconnectedness of literature from a variety of worldwide traditions, both western and non-western. This series (ENG 107-108) does not have to be taken in sequence. The first of a two course survey of World literature. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT, Arts and Letters/AOBT.

ENG 108. World Literature. 4 Credits. Introduces a broad spectrum of literature in translation that begins in the Renaissance and concludes at the present. Includes works of fiction, poetry, drama and non-fiction. Examines the uniqueness and interconnectedness of literature from a variety of worldwide traditions, both western and non-western. This series (ENG 107-108) does not have to be taken in sequence. The second of a two-course survey of World literature Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT, Arts and Letters/AOBT.

ENG 195. Film Studies: Film as Art. 4 Credits. Enhances understanding of film through analysis of film history and form. Develops visual literacy and analysis skills by offering a range of tools to study any film. Analyze ways in which a film may both contribute and react to its time and culture; analyze film through studying the techniques by which it was made; and substantiate observations with examples taken from film tradition and from the film itself. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT, Arts and Letters/AOBT.

ENG 196. Film Studies: Directors. 4 Credits. Enhances understanding of film through analysis of directorial decisions and film techniques. Develops visual literacy and analysis skills by offering a range of tools to study any film. Analyze ways in which directorial decisions may affect an individual film and viewer; situate a film within a director's body of work; analyze ways in which it may both contribute and react to its time and culture; and substantiate observations with examples taken from the film tradition and from the film itself. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AOBT.
ENG 197. Film Studies: Contemporary Themes and Genres. 4 Credits.
Enhances understanding of film through analysis of contemporary film-making, narrative techniques, genres, themes and critical approaches. Develops visual literacy and analysis skills by offering a range of tools to study any film. Analyze contemporary film techniques and the ways in which the films may both contribute and react to their time and culture; study contemporary film theory; and substantiate observations with examples taken from the film tradition and from the film itself. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT.

ENG 201. Shakespeare: Early Works. 4 Credits.
Explores the development of Shakespeare’s art and contribution to literature, culture, and the English language, with a focus on the earlier histories, tragedies, comedies, and non-dramatic poetry. Introduces the study of Shakespeare’s dramatic techniques, character development, historical and cultural setting, and language. Recommended prior coursework: ENG 105, 106 and 201. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 202. Shakespeare: Later Works. 4 Credits.
Explores the development of Shakespeare’s art and contribution to literature, culture, and the English language, with a focus on the later histories, tragedies, comedies, and non-dramatic poetry. Introduces the study of Shakespeare’s dramatic techniques, character development, historical and cultural setting, and language. Recommended prior coursework: ENG 105, 106 and 201. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 204. Survey of English Literature. 4 Credits.
The first half of a two-semester survey of British literature that includes English 205. English 204 introduces students to British literature from its Anglo-Saxon and Celtic beginnings through the 18th century. The series need not be taken in sequence. Recommended: ENG 104, 105 and/or 106. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 205. Survey of English Literature. 4 Credits.
The second half of a two-semester survey of British literature that includes English 204. English 205 introduces students to British literature from the 19th century to the present. The series need not be taken in sequence. Recommended: ENG 104, 105 and/or 106. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

ENG 207. World Literature - Asian (India). 4 Credits.
Introduces students to Indian literature in English (for the most part, translated) from ancient to contemporary. May include such works and authors as hymns from the Rig Veda, The Ramayana, classical poetry, and the twentieth century authors Narayan, Ved Mehta and Arundhati Roy. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

ENG 208. World Literature - Asian (China). 4 Credits.
Introduces Chinese literature translated into English, from the oldest texts (ca. 1000 BCE) to contemporary works. Includes poetry, fiction, nonfiction, drama, and film. Examines the cultural and historical importance of Confucianism, Daoism, and Buddhism on Chinese literature. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS.

ENG 209. World Literature - Asian (Japan). 4 Credits.
Introduces a range of Japanese texts and films in order to explore the artistic, social, political, and historical characteristics of Japanese literature from the earliest poems to contemporary novels. Explores movements in literary and artistic traditions from multiple periods (e.g., Heian, Meiji) and analyzes how texts emphasize or resist the values of each historical moment. Considers issues of social class, religion, and aesthetics as they apply to creative works. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAAS, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS.

ENG 212. Biography and Autobiography. 4 Credits.
Covers the study of biographies, autobiographies, diaries, memoirs, and journals as works of literature. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 213. Latin American Literature. 4 Credits.
Explores fiction, creative nonfiction, poetry, drama, myth, and other texts from Latin America. Includes works from many cultures and ethnicities from Latin America, including indigenous peoples. All readings are in English. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 214. Literature of the Northwest. 4 Credits.
Studies fictional, factual, and poetic works by Northwest writers from before the arrival of Euro-Americans to the present. Emphasizes relationship between Northwest writing and Northwest social, cultural, and physical environment. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAOT.

ENG 215. Literature of Genocide. 4 Credits.
Introduces a range of international texts and films pertaining to genocide in order to explore the social, cultural, political, and historical conditions that have led to genocide, the conditions it creates for its victims, and its aftermath. Explores experiences of individuals, later generations, and nations, including issues of exile and reconciliation. Considers memoirs, fiction, poetry, literary nonfiction, documentaries and feature films created by survivors and others. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 216. Teen and Children's Literature. 4 Credits.
Explores a wide range of literature written for children and teens and introduces the history of this literature focusing on American and British writing as well as international and multicultural traditions. Examines the differences between literature for children and teens and literature for adults, the relationship between text and illustrations, and other issues and controversies concerning children's literature such as the didactic use of text and censorship. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available.

ENG 220. Literature of Comics and Graphic Novels. 4 Credits.
Explores comics and graphic novels. Examines the complex relationship between images and the written word when combined in narrative forms. Considers cultural, political, and/or artistic elements of a variety of examples of the form. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAAS, Arts and Letters/AGS.

ENG 222. Images of Women in Literature. 4 Credits.
Explores images of women as they appear in a diverse range of texts from across a variety of cultures and historical periods. Focuses on how both men and women have imagined and represented femininity and femaleness in ways that can challenge, reinforce and/or reconfigure culturally-based perceptions, behaviors and practices. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 230. Environmental Literature. 4 Credits.
Introduces texts that explore the relationship between people and their environments, both natural and built. Examines historical trends that have shaped thinking, understanding, and feelings about how humans and the natural world interact. Explores literary writings on issues of sustainability, environmental justice, ecological literacy, and a sense of place. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 237. American Working Class Literature. 4 Credits.
Introduces students to literature by and/or about the working class, primarily from an American perspective. Prerequisite: Placement into WR 121.
Recommended: ENG 104, ENG 105 and/or ENG 106. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 239. American Working Class Literature. 4 Credits.
Introduces students to literature by and/or about the working class, primarily from an American perspective. Prerequisite: Placement into WR 121.
Recommended: ENG 104, ENG 105 and/or ENG 106. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.
ENG 238. International Working Class Literature. 4 Credits.
Introduces literature by and about the working class, primarily from an international perspective. Recommended: Completion of ENG 104, 105 or 106. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available.

ENG 240. Introduction to Native American Literatures. 4 Credits.
Studies literary arts and cultural expressions by Native American authors. Considers Native American literatures in their national, historical, cultural, geographical, political, and legal contexts. Prioritizes Indigenous experience, worldview, and intellectual traditions in the study of Native literatures. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AS, Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT.

ENG 244. Introduction to Asian-American Literature. 4 Credits.
Studies writings in English by American writers of Chinese, Japanese, Korean, Vietnamese, Filipino, Pacific Islander, and other Asian ancestry. Considers the writings in their historical, cultural, political, and social contexts. Emphasizes development of attitudes, values, and identities. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AS, Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT.

ENG 250. Introduction to Folklore and Mythology. 4 Credits.
Develops a cross-cultural perspective on myths, mythologies and folklore from around the world. Explores different theories of the cultural meanings and functions of myth, past and present. Introduces various ways of interpreting and experiencing myth and folklore as texts with oral origins. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 253. American Literature to 1865. 4 Credits.
Introduces the literature of the land which is now the United States from before European contact through the mid-nineteenth century. Revolves around written manifestations of the various interests, preoccupations, and experiences of the peoples creating and recreating American culture. Considers various literary forms, canonized (such as novel, narrative poem), popular (such as the serialized tale, verse) and unpublished (the jeremiad, Native American oratory, the slave narrative, diary). Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 254. American Literature from 1865. 4 Credits.
Introduces students to the literature of the land which is now the United States from the mid-nineteenth century to the present. The course revolves around written manifestations of the various interests, preoccupations, and experiences of the peoples creating and recreating American culture. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

ENG 257. African-American Literature. 4 Credits.
Introduces the literature of African Americans whose roots are in Africa. The course explores the period of Reconstruction through Harlem Renaissance. It incorporates novels, short stories, poems, journalism, autobiographies and plays. Focuses on the oral tradition and written texts of African Americans. Prerequisites: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 258. African-American Literature. 4 Credits.
Introduces the literature of Americans whose roots are in Africa. Emphasizes the way contemporary political and social aspirations of African Americans are reflected in the literature of the periods from the Harlem Renaissance through the present. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

ENG 260. Introduction to Women Writers. 4 Credits.
Explores women’s writings and literary theory from diverse places and historical periods. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAOT.

ENG 261. Literature of Science Fiction. 4 Credits.
Explores the roots of science fiction as well as the classic and modern works of science fiction and speculative literature. Introduces common themes in science fiction, the various ideological underpinnings of science fiction, and the way such literature comments on current issues in society and presents new ideas to society. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AS.

ENG 265. International Political Poetry. 4 Credits.
Develops students’ understanding of how poets address issues of class oppression, economic inequity, racism, sexism, war, and peace. Shows how poems function as prophets, practitioners, dissidents, and recorders. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available.

ENG 266. Literature of War. 4 Credits.
Introduces a range of international texts and films pertaining to war in order to explore the social, cultural, political, and historical conditions that have led to war, the experiences of those directly and indirectly involved in war, as well as its aftermath. Explores various perspectives, including those of combatants and their families, innocent victims, returning soldiers and veterans, and later generations. Explores the many complex questions about the evolving definitions of war, the morality of war, the roles of race, gender and religion in wars, roles of propaganda and anti-war movements, the ways in which wars are remembered and forgotten, and the possibilities for peace. Covers memoir, fiction, poetry, literary nonfiction, graphic novels, documentaries and feature films created by both combatants and civilians. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENG 275. The Bible as Literature. 4 Credits.
Explores writings about wilderness and the natural world, giving attention to the relationship between nature and culture. Considers a variety of historical perspectives through essays, poetry, book-length nonfiction, novels, and film. Examines efforts to rethink the concept of wilderness with respect to law, gender, work, race, and the built environment (e.g., urban forests, gardens, farming) while addressing contemporary concerns for global environmental sustainability. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

ENGLISH FOR SPEAKERS OF OTHER LANGUAGES

ESOL 10. Level 1 Integrated Skills. 0 Credits.
Develops low-beginning English reading, writing, speaking and listening skills for adult learners in their roles as family and community members, workers, citizens and lifelong learners. Promotes the process of combining knowledge, skills, and problem-solving strategies. First course in the eighth-level ESOL sequence. Prerequisites: ESOL placement test within the past 12 months OR instructor permission.

ESOL 12. ESOL Beginning Reading and Writing. 0 Credits.
Non-native English speaking students develop beginning literacy skills. Reading and writing are taught in the context of communication in adult life roles. Prerequisite: Placement into ESOL 10 or ESOL 20 or instructor permission.

ESOL 20. Level 2 Integrated Skills. 0 Credits.
Continue to develop beginning English reading, writing, speaking and listening skills for adult learners in their roles as family and community members, workers, citizens and lifelong learners. Promotes the process of combining knowledge, skills, and problem-solving strategies. Second course in the eight-level ESOL sequence. Prerequisites: ESOL placement test within the past 12 months OR instructor permission.

ESOL 23. ESOL Language Learning Lab. 0 Credits.
The ESOL Language Lab provides ESOL students with self-paced, individualized learning. The primary focus in the lab is on grammar, vocabulary, reading, writing, listening and speaking skills related to the eight levels of the ESOL program curriculum. Multi-media/computer assisted instruction in addition to text book and workbook assignments aded. Learning activities may be supplemented with one-on-one or small group tutoring. Prerequisite: Placement in ESOL 10 or higher or instructor permission.
ESOL 30. Level 3 Integrated Skills. 0 Credits. Develops high-beginning English reading, writing, speaking and listening skills for adult learners in their roles as family and community members, workers, citizens and lifelong learners. Promotes the process of combining knowledge, skills, and problem-solving strategies. Third course in the eight-level ESOL sequence. Prerequisites: ESOL placement test within the past 12 months OR instructor permission.

ESOL 32. ESOL High Beginning Reading and Writing. 0 Credits. Non-native English speaking students develop high beginning literacy skills. Reading and writing are taught in the context of communicating in adult life roles. Prerequisite: Placement in ESOL 30 or instructor permission.

ESOL 40. Level 4 Reading. 4 Credits. Presents reading as a process that involves determination of purpose, selection and adjustment of strategies, analysis and reflection of underlying meanings, and integration of prior knowledge with new knowledge to address the purpose. Covers content comprehension, textual analysis, critical thinking skills, study skills, and language analysis at the low-intermediate level. Includes using the dictionary, finding main ideas, inferring, using context clues, and reviewing prereading techniques. Reviews word forms, common affixes, synonyms, and antonyms. Presents readings from textbooks and literature in the context of communicating in academic and adult life roles. Prerequisite: ESOL placement test AND concurrent placement in ESOL 42 and ESOL 44 or higher, OR ESOL 30. Audit available.

ESOL 40N. Level 4 Reading. 0 Credits. Presents reading as a process that involves determination of purpose, selection and adjustment of strategies, analysis and reflection of underlying meanings, and integration of prior knowledge with new knowledge to address the purpose. Covers content comprehension, textual analysis, critical thinking skills, study skills, and language analysis at the intermediate level. Includes using the dictionary, finding main ideas, inferring, using context clues, and reviewing prereading techniques. Reviews word forms, common affixes, synonyms, and antonyms. Presents readings from textbooks and literature in the context of communicating in academic and adult life roles. Prerequisite: ESOL placement test AND concurrent placement in ESOL 42 and ESOL 44 or higher, OR ESOL 30.

ESOL 42. Level 4 Writing. 4 Credits. The fourth level of ESOL and the first of five-course sequence that focuses on writing. Includes introduction to the writing process; descriptive and narrative paragraphs and formal letters; review of basic grammar; introduction to present perfect and past continuous; writing and grammar taught in the context of communicating in adult life roles. Prerequisites: ESOL placement test OR successful completion of ESOL 30; AND concurrent placement in ESOL 40/40N and ESOL 44/44N or higher. Audit available.

ESOL 42N. Level 4 Writing. 0 Credits. The fourth level of ESOL and the first of five-course sequence that focuses on writing. Includes introduction to the writing process; descriptive and narrative paragraphs and formal letters; review of basic grammar; introduction to present perfect and past continuous; writing and grammar taught in the context of communicating in adult life roles. Prerequisite: Placement into ESOL Level 6 in all three skill levels and Career Pathways Department permission required.

ESOL 44. Level 4 Communication. 4 Credits. Presents oral communication as a process that involves determination of purpose, selection and adjustment of strategies, comprehension checks, and integration of prior with new knowledge to address the communicative purpose. Develops listening comprehension and speaking skills at a low intermediate level. Addresses use of important language functions, such as asking for clarification, agreeing, and negotiating meaning. Includes one prepared speech. Introduces the English stress system, intonation, and certain consonant and vowel sounds. Places communication in the context of adult life roles. Prerequisites: ESOL placement test OR successful completion of ESOL 30; AND concurrent placement in ESOL 40 and ESOL 42 or higher. Audit available.

ESOL 44N. Level 4 Communication. 0 Credits. Presents oral communication as a process that involves determination of purpose, selection and adjustment of strategies, comprehension checks, and integration of prior with new knowledge to address the communicative purpose. Develops listening comprehension and speaking skills at a low intermediate level. Addresses use of important language functions, such as asking for clarification, agreeing, and negotiating meaning. Includes one prepared speech. Introduces the English stress system, intonation, and certain consonant and vowel sounds. Places communication in the context of adult life roles. Prerequisites: ESOL placement test OR successful completion of ESOL 30; AND concurrent placement in ESOL 40 and ESOL 42 or higher.

ESOL 59. ESOL VESL Support Course. 3-9 Credit. Provides English language support for ESOL learners while they are concurrently enrolled in designated CTE courses. Runs 30-90 hours per term concurrently. Requirement: to be concurrently enrolled in an associated academic program. Prerequisite: Placement into ESOL Level 6 in all three skill levels and Career Pathways Department permission required.

ESOL 59N. ESOL VESL Support Course. 0 Credits. Provides English language support for ESOL learners while they are concurrently enrolled in designated CTE courses. Runs 30-96 hours per term concurrently with an associated credit academic program. Requirement: be concurrently enrolled in an associated academic program. Prerequisite: Placement into ESOL Level 6 in all three skill levels and Career Pathways Department permission required.

ESOL 140. American Culture and Communication 1.3 Credits. Introduces and illustrates American cultural themes and values through instruction in reading, discussion, journal writing, film, and speeches. Introduction and beginning application of academic study skills. May include a service learning component. Does not replace courses in the core curriculum. Prerequisite: Placement in ESOL 150/150N and ESOL 152/152N and ESOL 154/154N or higher. Audit available.

ESOL 150. Level 5 Reading. 4 Credits. Presents reading as a process that involves determination of purpose, selection and adjustment of strategies, analysis and reflection of underlying meanings, and integration of prior knowledge with new knowledge to address the purpose. Covers content comprehension, textual analysis, critical thinking skills, study skills, and language analysis at the intermediate level. Includes using the dictionary, finding main ideas, summarizing, inferring, using context clues and reviewing prereading techniques. Reviews word forms, common affixes, synonyms, and antonyms. Prerequisite: Placement into ESOL Level 6 in all three skill levels and Career Pathways Department permission required. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

ESOL 150N. Level 5 Reading. 0 Credits. The fifth level of ESOL and the second of a five-course sequence that focuses on writing. Review of the writing process and introduction to the essay. Descriptive, narrative, process and comparative/contrast. Review of basic grammar. Introduction to present perfect, gerunds and infinitives, and adverbial causes. Writing and grammar taught in the context of communicating in academic and adult life roles. Prerequisite: Placement into ESOL Level 6 in all three skill levels and Career Pathways Department permission required. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AGS.

ESOL 152. Level 5 Writing. 4 Credits. The fifth level of ESOL and the second of a five-course sequence that focuses on writing. Review of the writing process and introduction to the essay. Descriptive, narrative, process and comparative/contrast. Review of basic grammar. Introduction to present perfect, gerunds and infinitives, and adverbial causes. Writing and grammar taught in the context of communicating in academic and adult life roles. Prerequisite: Placement into ESOL Level 6 in all three skill levels and Career Pathways Department permission required. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AGS.

ESOL 152N. Level 5 Writing. 0 Credits. The fifth level of ESOL and the second of a five-course sequence that focuses on writing. Review of the writing process and introduction to the essay. Descriptive, narrative, process and comparative/contrast. Review of basic grammar. Introduction to present perfect, gerunds and infinitives, and adverbial causes. Writing and grammar taught in the context of communicating in academic and adult life roles. Prerequisite: Placement into ESOL Level 6 in all three skill levels and Career Pathways Department permission required. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AGS.

ESOL 153. Grammar 1.2 Credits. Includes the identification and practice of the following grammatical structures: subject-verb agreement, question and negation structure, verb tenses, pronoun usage, and function types. This elective class is designed to reinforce concepts in both oral and written contexts. Does not replace courses in the core curriculum. Prerequisites: Placement in ESOL 40/40N and ESOL 42/42N and ESOL 44/44N or higher. Audit available.
ESOL 153N. Grammar 1. 0 Credits.
Includes the identification and practice of the following grammatical structures: subject-verb agreement, question and negation structure, verb tenses, sentence patterns, and sentence types. This elective class is designed to reinforce concepts in both oral and written contexts. Does not replace courses in the core curriculum. Prerequisites: Placement in ESOL 40/40N and ESOL 42/42N or higher.

ESOL 154. Level 5 Communication. 4 Credits.
Presents oral communication as a process that involves determination of purpose, selection and adjustment of strategies, comprehension checks, and integration of prior with new knowledge to address the communicative purpose. Develops listening comprehension and speaking skills at an intermediate level. Addresses use of important language functions, such as asking for clarification, agreeing, and negotiating meaning. Includes a minimum of one prepared speech. Reviews English consonants and vowels, consonant clusters, past tense and plural endings, common sound substitutions, intonation, phrasing, reductions and stress. Places communication in the context of academic and adult life roles. Prerequisite: ESOL placement test OR completion of ESOL 44/44N; AND concurrent placement in ESOL 40/40N and ESOL 42/42N or higher. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS.

ESOL 154N. Level 5 Communication. 0 Credits.
Presents oral communication as a process that involves determination of purpose, selection and adjustment of strategies, comprehension checks, and integration of prior with new knowledge to address the communicative purpose. Includes identification and production of English consonants and vowels, reductions, common sound substitutions, stress and intonation at the intermediate level. Recommended for students who struggle to produce understandable intermediate level English. Prerequisites: Placement in ESOL 40/40N and 42/42N and 44/44N or higher; or successful completion of ESOL 30. Audit available.

ESOL 157. Level 5 Pronunciation. 2 Credits.
Presents the development of pronunciation competence as a process that involves determination of purpose, selection and adjustment of strategies, comprehension checks, and integration of prior with new knowledge to address the purpose. Includes identification and production of English consonants and vowels, reductions, common sound substitutions, stress and intonation at the intermediate level. Recommended for students who struggle to produce understandable intermediate level English. Prerequisites: Placement in ESOL 40/40N and 42/42N and 44/44N or higher; or successful completion of ESOL 30. Does not replace courses in the core curriculum.

ESOL 160. Level 6 Academic Reading. 5 Credits.
Presents reading as a process that involves determination of purpose, selection and adjustment of strategies, analysis and reflection of underlying meanings, and integration of prior knowledge with new knowledge to address the purpose. Covers content comprehension, textual analysis, critical thinking skills, study skills, and language analysis at the high intermediate level. Includes reading diverse texts for a variety of purposes. Reviews pre-reading techniques and includes finding themes and main ideas, summarizing, paraphrasing, inferring, and using context clues, word forms and common affixes. Prerequisites: ESOL placement test OR successful completion of ESOL 150/150N; AND concurrent placement in (ESOL 152/152N and ESOL 154/154N) or higher. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS.

ESOL 162. Level 6 Academic Writing. 5 Credits.
Review of the writing process and development of the essay. Covers descriptive, narrative, process, and comparison/contrast essays. Review of verb tenses, sentence types, punctuation, and spelling patterns. Introduction to adjective and adverb clauses, reported speech, passive voice, gerunds and infinitives. Prerequisite: ESOL placement test OR successful completion of ESOL 152/152N. AND concurrent placement in ESOL 150/150N and ESOL 154/154N or higher. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS.

ESOL 163. Grammar 2. 2 Credits.
Provides the opportunity for clarification and practice of the following grammatical structures: subject-verb agreement, verb tenses, passive voice, gerunds and infinitives, and articles. Reinforces concepts in both oral and written contexts. This elective class does not replace courses in the core curriculum. Prerequisites: Placement in ESOL 160, ESOL 162, and ESOL 164 or higher; or successful completion of ESOL 150, ESOL 152 and ESOL 154. Audit available.

ESOL 164. Level 6 Academic Communication. 5 Credits.
Presents oral communication as a process that involves determination of purpose, selection and adjustment of strategies, comprehension checks, and integration of prior knowledge to address the purpose. Covers listening comprehension, note-taking, and discussion of academic topics at the high intermediate level. Includes public speaking, such as prepared speeches on academic topics with written outlines. Reviews English consonants and vowels, word endings, intonation, phrasing, linking, reductions and stress patterns. Prerequisites: ESOL placement test OR successful completion of ESOL 154/154N; AND concurrent placement in ESOL 150/150N and ESOL 152/152N or higher. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

ESOL 230. Advanced English Skills Review. 2 Credits.
Reviews advanced academic listening, reading, writing, and speaking skills. Develops strategies for taking time-sensitive tests, including the TOEFL. Prerequisites: Placement into ESOL 254 AND ESOL 250 AND ESOL 252 or higher OR successful completion of ESOL 164 AND ESOL 160 AND ESOL 162. Audit available.

ESOL 240. American Culture and Communication 2. 3 Credits.
Continued illustration of American cultural themes and values through reading, discussion, journal writing, film and speeches. Overview and application of academic study skills. May include a service learning component. Does not replace courses in the core curriculum. Prerequisites: Placement in ESOL 250 and ESOL 252 and ESOL 254 or higher. Audit available.
ESOL 268. Level 8 Academic Speaking(Listening). 5 Credits.

Presents oral communication as a process that involves determination of purpose, selection and adjustment of strategies, comprehension checks, and integration of prior knowledge to address the purpose. Covers listening comprehension, note-taking, and discussion of academic topics at the high advanced level. Includes public speaking and persuasive speeches on academic topics with written outlines and use of outside sources. Reviews English consonants and vowels, word endings, intonation, phrasing, linking, reductions and stress patterns. Prerequisites: ESOL placement test or successful completion of ESOL 252 and ESOL 254 or placement into (ESOL 262 and ESOL 264) or concurrent enrollment in ESOL 250 and ESOL 254 or higher. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAT, Arts and Letters/AGS, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/ASOT-B.

ESOL 269. Level 8 Pronunciation. 2 Credits.

Presents the development of pronunciation competence as a process that involves determination of purpose, selection and adjustment of strategies, comprehension checks, and integration of prior knowledge to address the purpose. Reviews English consonants and vowels, word endings, intonation, phrasing, linking, reductions and stress patterns. Prerequisites: Placement in ESOL 264 OR successful completion of ESOL 254; AND concurrent placement in ESOL 250 and ESOL 252 or higher. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B.

ESOL 270. Level 9 Reading. 5 Credits.

Provides reading as a process that involves determination of purpose, selection and adjustment of strategies, analysis and reflection of underlying meanings, and integration of prior knowledge with new knowledge to address the purpose. Covers content, comprehension, critical thinking skills, study skills, and language analysis at the advanced level. Includes reading diverse texts for a variety of purposes: includes finding themes and main ideas, analyzing figurative language, summarizing, paraphrasing, evaluating sources and analyzing arguments, inferencing, and using context clues, word forms and common affixes. Prerequisites: ESOL placement test OR successful completion of ESOL 250 and ESOL 252 OR concurrent enrollment in ESOL 252 and ESOL 254 or placement into (ESOL 262 and ESOL 264). Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/ASOT-B.

ESOL 271. Level 9 Academic Reading. 5 Credits.

Introduces the structure and function of terrestrial, aquatic and atmospheric environments. Discusses human population issues, matter and energy resources, ecosystems, environmental ethics and food and land resources. The associated laboratories may illustrate these topics and may include fieldwork. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

ESR 141. Introduction to Individual Sustainability. 4 Credits.

Introduces theory, principles and practices of sustainability and their applications at the individual scale. Addresses a wide range of topics at the individual level including the built world, water, and energy; transportation options; wise purchasing; sustainable agriculture and food choices; recycling and waste reduction; recreation and its effects on the environment; restoring natural environments and connections between health and the environment. May include off-site field trips, physical activity, and hands-on learning opportunities. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

ESR 150. Environmental Studies Orientation. 1 Credit.

Serves to orient students to environmental information available through campus library and computer resources. Uses assignments aimed at gathering and summarizing information on academic preparation of environmental professionals. Audit available.

ESR 171. Environmental Science: Biological Perspectives. 4 Credits.

ESR 172. Environmental Science: Chemical Perspectives. 4 Credits.

ESR 173. Environmental Science: Geological Perspectives. 4 Credits.

ESR 200. Introduction to Environmental Systems. 4 Credits.

ESR 201. Applied Environmental Studies: Science/Policy Consideration. 4 Credits.

Covers environmental laws and the regulations promulgated under them. Introduces the legal system of the United States as well as the genesis of important federal environmental laws and the history of compliance and violation. Prerequisite: ESR 200. Audit available.

ESR 202. Applied Environmental Studies: Prep for Problem Solving. 4 Credits.

Provides experience collecting environmental data through fieldwork and laboratory analysis. Explores quantitative analysis of data using a variety of techniques. Emphasizes scientific report writing to communicate research findings. Prerequisite: ESR 200. Audit available.
Esr 204. Introduction to Environmental Restoration. 4 Credits.
Develops an understanding of the ecological theory and practice of environmental restoration using local and global case studies. Provides opportunities to engage in hands-on experience with restoration projects in a variety of ecosystems, and at different stages of the restoration process. Includes fieldwork. Prerequisites: ESR 171 or ESR 200 or BI 143 and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

ESR 298. Independent Study: Environmental Science. 1-4 Credits.
Provides an opportunity to perform research on a selected topic related to environmental science or environmental studies under the supervision of an instructor. Prerequisites: Instructor approval, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

FACILITIES MAINTENANCE TECH

FMT 100. Introduction to Facilities Maintenance Systems. 2 Credits.
Overview of industrial maintenance. OSHA approved industrial safety procedures are practiced. Includes use of basic tools and specialized equipment; lubrication, maintenance and repair motors, drive belts, pulleys, and sheaves. Examines the inter-dependency of related systems. Prerequisites: Placement in MTH 20 or higher, (WR 80 or ESOL 252) and (RD 80 or ESOL 250) or equivalent placement. Audit available.

FMT 101. Refrigeration I. 2 Credits.
Covers refrigeration principles and different basic cycles which include heat transfer, temperature, and basic physics and gas laws. Lab includes use of tools and instruments used for charging and evacuation and recovery methods. FMT 101 and APR 131 both cannot be taken for credit. Prerequisites: Placement in MTH 20 or higher, (WR 80 or ESOL 252) and (RD 80 or ESOL 250) or equivalent placement. Audit available.

FMT 102. Refrigeration II. 2 Credits.
Covers the operation of refrigeration system components. Includes compressors, condensers, evaporators, refrigerators and metering devices. Lab includes use of tools and instruments for charging and evacuation and recovery methods. FMT 102 and APR 132 cannot both be taken for credit. Prerequisites: FMT 101 or APR 131 or TE 9242. Audit available.

FMT 103. Refrigeration III. 2 Credits.
Covers the operation of refrigeration HVAC systems, emphasizing maintenance and controls. Lab includes troubleshooting systems along with evacuation and charging techniques. FMT 103 and APR 133 cannot both be taken for credit. Prerequisites: FMT 102 or APR 132 or TE 9243. Audit available.

FMT 111. Refrigeration Electrical I. 2 Credits.
Basic theory and applications of electrical concepts including Ohm’s Law, electric power, and concepts of electric circuits are emphasized. Alternating current, power distribution and installation of HVAC systems using wiring diagrams and schematics are included. Prerequisites: Placement in MTH 20 or higher, (WR 80 or ESOL 252) and (RD 80 or ESOL 250) or equivalent placement. Audit available.

FMT 112. Refrigeration Electrical II. 2 Credits.
Theory and application of electrical motor concepts and electrical circuits are emphasized. Control system components, wiring diagrams and schematics are included. Prerequisites: FMT 111 or TE 9237 Audit available.

FMT 113. Refrigeration Electrical III. 2 Credits.
Schematic development and use in diagnosis, service, and repair of HVAC systems; control applications and circuit evaluation. Prerequisites: FMT 112 or TE 9238 Audit available.

FMT 119. Water Treatment and Distribution. 2 Credits.
Covers the basics of cooling, tower, boiler, waste water, and water purification systems. Topics include corrosion, scale, fouling and bacteria related issues. Mechanical equipment pertaining to water treatment is included. Audit available.

FMT 122. Introduction to Boilers. 3 Credits.
Covers natural gas and its properties, pressures, piping and the mechanical code requirements for natural gas installation. Utilizing basic knowledge gained in this course, students can apply this knowledge to basic diagnosis procedures. Audit available.

FMT 128. Oil Furnace Service. 2 Credits.
Covers oil burner service and installation procedures, fuel oil principles, motors, fan couplings, nozzles, transformers burner construction, pumps, controls and troubleshooting procedures. Audit available.

FMT 131. Lock Service and Repair. 4 Credits.
Covers maintaining residential and commercial locks and related hardware. Includes basic operating principles of cylinders, types of locking mechanisms, desk type locks, and master key systems. Audit available.

FMT 170. Solar Photovoltaic Panel Installation. 3 Credits.
Covers types, components, and installation of Solar Photovoltaic modular arrays. Focuses on site assessment, structural stability, mounting options, overall design, and efficiency. Emphasizes residential design and installation. Follows National Electrical Code, state and city building code requirements. Prerequisites: APR 101 or APR 121 or FMT 111 or department permission. Audit available.

FMT 201. Introduction to Chiller Systems. 3 Credits.
Chilled water and its application in the industrial/ institutional setting. Covers chiller compressors, refrigerants, air cooled and water cooled condensers, controls and piping. Prerequisites: FMT 103 or APR 133 or TE 9244. Audit available.

FMT 202. Direct Digital Control Advanced Technology. 3 Credits.
Covers the spectrum of advanced HVAC control applications for commercial building systems. Topics range from the single zone air handler to multi-zone and VAV systems, valve configurations, engineering calculations and how this equipment interfaces to Life Safety systems. Prerequisite: FMT 113. Audit available.

FMT 204. Heat Pumps. 3 Credits.
Focuses on operation and service requirements of heat pumps. Demonstrates the application and understanding of the test equipment required to service the heat pumps. Includes the function of the control system required for operation of the heat pump system. Prerequisites: FMT 103 or APR 133 or TE 9244. Audit available.

FMT 207. Pneumatic Controls. 2 Credits.
Provides HVAC service technician with the proper methods of diagnosing malfunctions in Honeywell control systems. Also covers thermostat/ controllers of Robert Shaw, Johnson, Honeywell, and Barber Coleman. Includes elements of pneumatic systems, valve assemblies, dampers, controllers, thermostats, sensors, relays and air supply equipment. Audit available.

FMT 210. Basic HVAC/R Installation & Techniques. 2 Credits.
Introduces basic application of HVAC/R installation and techniques. Integrates code requirements and practical field installations; including sheet metal, piping, and venting. Prerequisites: (FMT 112 or TE 9238); (FMT 102 or APR 132 or TE 9243) Audit available.

FMT 213. Commercial Refrigeration Shop. 2 Credits.
Troubleshooting, maintenance, and repair of typical commercial refrigeration equipment found in convenience stores, markets, restaurants, and related applications. Prerequisites: (FMT 112 or TE 9238); (FMT 102 or APR 132 or TE 9243) Audit available.

FMT 222. Intermediate Boilers. 3 Credits.
Fundamentals of hydronics systems related to electrical controls and fluid flow. Includes burner control system, schematic diagrams, distribution systems, heat emitters, radiant floor heating, expansion tanks, entrained air, and auxiliary heat loads. Prerequisites: FMT 122 or TE 9161. Audit available.

FMT 265. Building Commissioning I. 3 Credits.
Covers the efficient operation of building systems to ensure that building systems are designed, installed, functionally tested, and maintained according to the owner’s operational needs. Includes verification of specified restoration of existing buildings to high, efficient productivity through renovation, upgrade, and the tune up of existing systems. Prerequisite: Placement into WR 121 and MTH 20, or department permission. Audit available.

FMT 280A. Cooperative Work Experience. 1-8 Credit.
Provides ‘hands-on’ work experience for students enrolled in Facilities Maintenance Technology. Department permission required. Audit available.

FIRE PROTECTION

FP 101. Principles of Emergency Services. 2 Credits.
Introduces Emergency Services. Explores career opportunities and requirements for emergency service responders. Introduces nomenclature, history, basic chemistry and physics of emergency situations, life safety initiatives, laws and loss analysis. Introduces fire protection systems, specific fire protection functions, organization and function of public and private emergency services. Prerequisites: (WR 90 or IRW 90) and MTH 20. Audit available.
FP 111. Fire Academy Part 1. 10 Credits.
Covers basic tools, procedures, techniques and safety precautions utilized by firefighters, during fire ground operations. Includes comprehensive training in individual firefighting skills. Involves transfer of knowledge obtained from classroom instruction to drill ground application, during hands-on training. Prerequisite: (WR 90 or IRW 90) and MTH 20. Corequisite: FP 112.

FP 112. Fire Academy Part 2. 7 Credits.
Covers tools, procedures, techniques and safety precautions utilized by firefighters, during fire ground operations. Includes comprehensive training in firefighting skills related to fire company evolutions. Involves transfer of knowledge obtained from classroom instruction to drill ground application, during hands-on live fire training. Corequisite: FP 111.

FP 121. Fire Behavior and Combustion. 3 Credits.
Explores the theories and fundamentals of how and why fires start, spread, and how they are controlled. Covers the process of combustion, fire dynamics in a compartment, dynamics of extreme fire behavior and reading smoke. Prerequisites: (WR 115 or IRW 115) and MTH 60.

FP 122. Fundamentals of Fire Prevention. 3 Credits.
Provides fundamental knowledge relating to the field of fire prevention. Includes history and philosophy of fire prevention; organization and operation of a fire prevention division; use and application of codes and standards; plans review; fire inspections; fire and life safety education; and fire investigation. Prerequisites: (WR 115 or IRW 115) and MTH 60.

FP 123. Hazardous Materials Awareness and Operations. 3 Credits.
Designed to prepare individuals to safely respond to hazardous materials emergencies. Individuals will learn to analyze an incident; detect the presence of hazardous materials; survey the scene; collect hazard information from the DOT Emergency Response Guidebook; implement actions consistent with standard operating procedures; initiate protective actions and initiate the notification process.

FP 130. Fire Protection Hydraulics and Water Supply. 3 Credits.
Provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems. Prerequisites: MTH 95, (WR 115 or IRW 115) and FP 112 or equivalent.

FP 133. Wildland Firefighter. 3 Credits.
Covers the basic skills required for wildland fire fighting. Includes wildland fire behavior, fire control tactics, human factors on the fireline, standards for fire fighter safety and survival, and an introduction to the incident command system. Prerequisites: (WR 90 or IRW 90) and RD 80 and MTH 20.

FP 137. Fire Protection Systems. 3 Credits.
Covers features of design and operation of fire alarm systems, water-based fire suppression systems, special hazard fire suppression systems, water supply for fire protection, and portable fire extinguishers. Prerequisites: MTH 60 and (WR 115 or IRW 115).

FP 166. Building Construction for Fire Protection. 3 Credits.
Covers the components of building construction related to firefighter and life safety. Includes the classifications of building construction and the theoretical concepts of how fire impacts major types of building construction. Prerequisites: FP 112, MTH 60, (WR 115 or IRW 115), and (RD 90 or IRW 90) or equivalent placement.

FP 170. Introduction to Firefighting Tactics and Strategy. 3 Credits.
Explores tactics and strategies used on emergency incidents. Includes incident action plan, size-up, exposures, rescue, containment, extinguishment, control, incident command system, mutual aid operations, post-incident analysis, and prefire surveys. Prerequisite: Placement into WR 121 and MTH 65, and FP 112.

FP 200. Fire Apparatus Driver/Operator I. 3 Credits.
Covers practical procedures, techniques and safety precautions used while operating fire apparatus. Includes fire apparatus inspection and preventative maintenance, driving laws and policies, specific to the apparatus operator maneuver a vehicle, and apparatus positioning. Prerequisite: Placement into WR 121 and MTH 65. Corequisite: FP 232.

FP 201. Introduction to Emergency Service Rescue. 4 Credits.
Introduces level I technical rescue knowledge and skills as identified in NFPA 1006, including, job performance requirements, rope rescue, confined space rescue, structural collapse rescue, vehicle and machinery rescue, surface water rescue, swiftwater rescue, dive rescue, surf rescue, and wilderness rescue. Prerequisite: FP 112 or Firefighter II certification.

FP 207. Fire Service Based Emergency Medical Service. 3 Credits.
Covers fire service based pre-hospital emergency medical services based on NFPA 1710, Standard for the Organization and Deployment of Fire Suppression Operations, Emergency Medical Operations, and Special Operations to the Public by Career Fire Departments, Chapters 4 and 5. Prerequisites: WR 121, MTH 65, EMS 106, FP 112.

FP 210. Multicultural Strategies for Firefighters. 3 Credits.
Provides familiarization with communication styles, customs, language, and behavior patterns of various cultures, ethnic groups, and non-traditional populations as employed by and encountered by the fire service and other emergency service professions. Prerequisite: WR 121 and MTH 65.

FP 212. Fire Investigation (Cause Determination). 3 Credits.
Examines the burning characteristics of combustibles and how materials are ignited. Covers interpreting clues and burn patterns leading to the point of origin and identifying incendiary indicators and sources of ignition. Covers preliminary interview procedures and how to preserve fire scene evidence. Prerequisite: WR 121, MTH 65, and FP 112.

FP 214. Occupational Safety & Health for the Fire Science. 3 Credits.
Introduces the basic concepts of occupational health and safety as it relates to emergency service organizations. Includes risk evaluation and control procedures for fire stations, training sites, emergency vehicles, emergency situations involving fire, EMS, hazardous materials, and technical rescue. Prerequisite: WR 121 and MTH 65.

FP 223. Fire Apparatus Driver/Operator II. 2 Credits.
Covers practical procedures, techniques, and safety precautions used during apparatus operations. Includes the history and development of fire apparatus capabilities, pump construction, procedures for operation and hydraulic formulas used to calculate flow requirements. Knowledge and skills acquired during classroom instruction will be applied in drill ground operations. Prerequisite: FP 200.

FP 240. Emergency Services Instructor I. 3 Credits.
Designed to meet NFPA Standard 1041, Fire and Emergency Services Instructor I. Presents how to organize classroom, laboratory and outdoor learning environments and present prepared lessons utilizing recognized methods of instruction. Includes strategies to adjust and modify presentations based on student learning styles and changing classroom environments. Covers how to write course objectives and student learning outcomes. Prerequisites: WR 121, MTH 65 and COMM 111.

FP 243. Laws Affecting Fire Fighting. 1 Credit.
Covers various federal, state and local statutes, codes and ordinances that have a bearing on firefighters. Personal and organizational responsibilities will be covered. Equal employment opportunity, operation of emergency vehicles and fire codes are included.

FP 273. Fire Service Human Resource Management. 3 Credits.
Covers NFPA 1021, Chapters 4.2 and 5.2 and will involve human resources to accomplish assignments in accordance with safety plans and in an efficient manner. Involves evaluating personnel performance and supervising personnel during emergency and non-emergency work periods. Prerequisites: WR 121, MTH 65, FP 112.

FP 274. Introduction to Fire and Emergency Administration. 3 Credits.
Introduces the organization and management of a fire and emergency services department and the relationship of government agencies to the fire service. Emphasizes fire and emergency service, ethics, and leadership from the perspective of the company officer. Includes preparing a project or divisional budget, news releases, and policy changes, according to job performance requirements. This course meets NFPA 1021, Chapters 4.4 and 5.4. Prerequisites: WR 121, MTH 65, FP 112 or department permission.

FP 275. Community and Government Relations. 3 Credits.
Explores responding to inquiries of the community and allied organizations in the community. Covers communicating and projecting the role, image and mission of the department to the public and organizations for the purpose of establishing strategic partnerships and delivering safety, injury and fire prevention education programs. This course meets the intention of NFPA 1021, Fire Officer I & II, Chapters 4.3 and 5.3. Prerequisites: Placement into WR 121 and MTH 65 or equivalent placement, and FP 112 or department permission.

FP 280A. Cooperative Education: Fire Protection. 3 Credits.
Offers field placement in a fire department to link course work to actual working experiences. Emphasizes independent learning and workplace skills with limited instruction. Must be coordinated with the hosting fire department supervisor, PCC Fire Protection instructor, and PCC cooperative education specialist. Attendance at mandatory seminar and Fire Protection Department permission required. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 60 or equivalent placement, and FP 112, FP 123, and EMS 106.
FP 280B. Cooperative Education. 3 Credits.
Offers hands on training experience in a fire service related work environment and equipment lab linking academic work to actual fire related drill experiences. Emphasizes workplace skills, teamwork and student leadership.

FP 289. Emergency Service Lifetime Fitness and Conditioning. 3 Credits.
Covers all aspects of fitness for current and prospective firefighters. Includes physical and mental aspects of performance for optimal achievement on fire department agility tests and firefighting tasks; individual conditioning strategies, nutritional guidelines, protective clothing concepts, basic exercise principles, pre-employment, evaluation, and lifelong fitness and conditioning. Prerequisites: WR 121, MTH 65.

FP 291. Fire Codes and Related Ordinances. 3 Credits.
Covers aspects of the International Fire Code (IFC). State laws, regulations, revised statutes and local ordinances related to fire & life safety. Includes interpretation of the IFC, code development and the adoption process; code enforcement authority and limitations; application of codes, documentation and interrelationships of codes and standards, recommended practices and ethical and political issues. Designed to meet NFPA Standard 1031; Standard for Professional Qualifications, for Fire Inspector I. Prerequisites: WR 121, MTH 65, FP 122, FP 137 and FP 166. Audit available.

FP 295. Major Emergency Tactics/Strategy. 3 Credits.
Covers response and size-up, fire-ground tactics and analysis, post-mortem, pre-fire survey and planning, combined operations, mutual aid, disaster planning and problems in unusual fire operations. Prerequisite: FP 170. Audit available.

FITNESS TECHNOLOGY

FT 101. Fitness Technology Seminar. 3 Credits.
Explores careers in the fitness and health industry. Covers concepts, skills, and methodology required to become a successful instructor of movement. Provides opportunities for practical experience and insight into the role of a fitness/health professional in fitness and health clubs and community based wellness centers, including self-promotion, and psychomotor movement instruction. Prerequisite: Acceptance to the Fitness Technology Program or instructor approval, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

FT 102. Injury Prevention & Management. 3 Credits.
Covers prevention and rehabilitation of athletics/sports/fitness injuries. Emphasizes preventing injuries by reducing risks for injury or illness, creating safe environments, ensuring proper fit, using sporting equipment properly, and implementing emergency action plans. Students who satisfactorily complete the requirements will be eligible for first responder certifications (i.e. CPR, first aid, etc.). Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

FT 103. Nutrition for Fitness Instructors. 3 Credits.
Explores basic principles of nutrition with an emphasis on application to fitness, weight management and athletic performance. Prerequisites: (HE 295 and PE 295) or (HPE 295), and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

FT 104. Fitness Assessment. 3 Credits.
Introduces fitness testing for apparently healthy populations. Covers cardiovascular strength and endurance, flexibility, and body composition in both individual and group assessments. Prerequisites: MTH 65, WR 121, FT 131, and (HE 295 and PE 295) or (HPE 295). Audit available.

FT 105. Exercise Prescription. 3 Credits.
Introduces individual and group exercise plan development and progression for cardiorespiratory, muscular strength/ endurance, flexibility/balance, body composition and fitness/balance, body composition and fitness/sport performance. Prerequisites: FT 104. Audit available.

FT 106. Analysis of Movement. 3 Credits.
Examines human motion in physical activity and sport and the integration of anatomy and biomechanics. Explores the anatomical movements involved in a wide variety of motor and balance tasks, postural stability exercises, and overall exercise program design. Prerequisite: FT 131, MTH 65, and WR 121. Audit available.

FT 107. Exercise Physiology. 3 Credits.
Investigates physiological mechanisms responsible for adaptations to acute and chronic exercise in the metabolic, endocrine, pulmonary, cardiovascular, and neuromuscular systems. Prerequisite: FT 131, MTH 65, and WR 121. Audit available.

FT 131. Structure & Function of the Human Body. 4 Credits.
Presents basic principles in anatomy, physiology, and exercise science. Introduces terminology, concepts, basic chemistry, cell structure and function, tissues, metabolism and the cardiovascular, pulmonary, skeletal, muscular, endocrine, and nervous systems. Prerequisites: Acceptance to the Fitness Technology program or instructor permission and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Prerequisites/concurrent: PE 181A or PE 181B or PE 181C. Audit available.

FT 180. Fitness Technology Internship Preparation. 1 Credit.
Develops essential skills for internship site procurement. Focuses on company research, interviewing techniques, and resume and cover letter generation. Prerequisite: FT 131.

FT 201. Advanced Fitness Assessment and Prescription. 3 Credits.
Explores the needs and abilities of individuals outside of ACSM's guidelines for apparently healthy populations. Focuses on modification of movement, exercise, equipment, and assessments for these individuals and groups. Includes advanced testing procedures, modification of assessments, and modified exercise programming for these individuals and groups. Prerequisite: FT 105. Audit available.

FT 202. Fitness and Aging. 3 Credits.
Explores physiological aspects of aging as applied to fitness and exercise. Prerequisites: FT 131, (HE 295 and PE 295) or (HPE 295), or instructor approval. Audit available.

FT 203. Fitness Promotion. 3 Credits.
Covers skills that promote healthy and fit lifestyles for individuals and groups in a variety of fitness disciplines. Introduces skills to promote success in the job market. Prerequisite: FT 280 or instructor approval. Audit available.

FT 204. Advanced Exercise Physiology. 3 Credits.
Introduces concepts of environmental conditions, advanced training adaptations, and clinical exercise physiology. Includes additional time in the lab setting learning metabolic and ECG stress testing. Prerequisite: FT 104 and FT 107. Audit available.

FT 280. Fitness Technology Internship. 3-10 Credit.
Provides required internship experiences for Fitness Technology majors. Prerequisite: FT 180. Requires third term standing, current First Aid and CPR/ AED certifications, and instructor permission.

FOODS AND NUTRITION

FN 110. Personal Nutrition. 3 Credits.
Explores personal food habits and beliefs. Emphasizes practical application of nutrition knowledge to enhance general health. Includes analyzing one’s present diet and evaluating it according to latest nutritional guidelines. Covers basic nutrition and little or no science background is necessary to succeed. Audit available.

Provides an opportunity to apply foundational knowledge of food composition and nutritional values to food preparation. Explores skills in meal planning, recipe modification and basic cooking techniques. Prerequisite/concurrent: FN 110 or FN 225 or FT 103. Audit available.

FN 225. Nutrition. 4 Credits.
Introduces components of an adequate diet, nutrient availability and utilization. Analyze dietary intake and compare to current scientific guidelines. Examines peripheral factors influencing diet such as global and local issues, cultural environment, and elements of food safety. Strong background in life sciences recommended. Prerequisite: WR 121, MTH 60 or higher, and BI 231 or FT 131. Audit available.

FRENCH

FR 101. First Year French. 4 Credits.
Emphasizes active communication in beginning French. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary and culture. For beginners. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

FR 102. First Year French. 4 Credits.
Continues the work of FR 101. Emphasizes active communication in French. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary and culture. Recommended: Completion of FR 101 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.
FR 111C. First Year French Conversation. 1 Credit. Practice of structures and vocabulary of first year French in a conversational format. Recommended: Completion of or simultaneous enrollment in FR 101 or 150 or instructor permission. Audit available.

FR 112C. First Year French Conversation. 1 Credit. Practice of structures and vocabulary of first year French in a conversational format. Recommended: Completion of or simultaneous enrollment in FR 102 or 151 or instructor permission. Audit available.

FR 113A. First Year French Conversation. 3 Credits. Practice of structures and vocabulary of first year French in a conversational format. Recommended: Completion of or simultaneous enrollment in FR 103 or 151 or instructor permission. Audit available.

FR 113C. First Year French Conversation. 1 Credit. Practice of structures and vocabulary of first year French in a conversational format. Recommended: Completion of or simultaneous enrollment in FR 103 or 151 or instructor permission. Audit available.

FR 150. First Year French. 6 Credits. Emphasizes active communication in beginning French. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary and culture. For beginners. Completion of FR 150-151 is equivalent to FR 101-102-103. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

FR 151. First Year French. 6 Credits. Continues the work of FR 150. Emphasizes active communication in French. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary and culture. Recommended: Completion of FR 150 or instructor permission. Completion of FR 150-151 is equivalent to FR 101-102-103. Audit available. This course fulfills the following GE requirements: Arts and Letters/ AAS, Arts and Letters/AGS, Arts and Letters/AS.

FR 201. Second Year French. 4 Credits. Continues the work of first year French, reviewing, expanding, and perfecting pronunciation, structure, and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of first year French at college level or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

FR 202. Second Year French. 4 Credits. Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of FR 201 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AS.

FR 203. Second Year French. 4 Credits. Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of FR 202 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AGS.

FR 211C. Intermediate French Conversation. 1 Credit. Completion of or simultaneous enrollment in FR 201, 250, or instructor permission. Audit available.

FR 212A. Intermediate French Conversation. 3 Credits. Stress conversational skills at the second year level. Recommended: Completion of or simultaneous enrollment in FR 202, 251, or instructor permission. Audit available.

FR 212C. Intermediate French Conversation. 1 Credit. Stress conversational skills at the second year level. Recommended: Completion of or simultaneous enrollment in FR 202, 251, or instructor permission. Audit available.

FR 213A. Intermediate French Conversation. 3 Credits. Stress conversational skills at the second year level. Recommended: Completion of or simultaneous enrollment in FR 203, 251, or instructor permission. Audit available.

FR 213C. Intermediate French Conversation. 1 Credit. Stress conversational skills at the second year level. Recommended: Completion of or simultaneous enrollment in FR 203, 251, or instructor permission. Audit available.

FR 250. Second Year French. 6 Credits. Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of first year French at college level or instructor permission. Completion of FR 250-251 is equivalent to FR 201-202-203. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AS.

FR 251. Second Year French. 6 Credits. Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of FR 250 or instructor permission. Completion of FR 250-251 is equivalent to FR 201-202-203. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/ ASOT-B, Arts and Letters/AAAS, Arts and Letters/AGS.

FR 250A. French Culture. 3 Credits. Studies and discusses contemporary thought and life of the French speaking world. Recommended: Completion of one term of second year French at the college level or instructor permission. Audit available.

GENERAL EDUCATION DEVELOPMENT
GED 0199. GED: Special Topics. 0 Credits.
GED 0769. Tutoring GED. 0 Credits.

GENERAL SCIENCE
GS 106. Physical Science (Geology). 4 Credits. Covers minerals, rocks, volcanism, earthquakes, plate tectonics, erosion and deposition by wind, glaciers and streams, weathering, fossils and geologic history. Includes weekly lab. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 65 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

GS 107. Physical Science (Astronomy). 4 Credits. Surveys astronomy to include historical development of the universe, Earth as a planet, Earth’s moon, planets of the solar system, the sun, stars and galaxies. Includes weekly lab. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 65 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

GS 108. Physical Science (Oceanography). 4 Credits. Covers characteristics of our atmosphere, air pressure and winds, atmospheric moisture, large air masses, violent storms, the effect of oceans on weather, and climates. Includes weekly lab. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 65 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

GS 109. Physical Science (Meteorology). 4 Credits. Covers minerals, rocks, volcanism, earthquakes, plate tectonics, erosion and deposition by wind, glaciers and streams, weathering, fossils and geologic history. Includes weekly lab. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 65 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

GEOGRAPHY
GEO 105. Human Geography. 4 Credits. Introduces key geographic themes of location, place, region, human-environment interaction, and mobility. Includes an examination of spatial patterns of topics such as language, religion, culture, population, cooperation and conflict, natural resources, migration, and political organization. Addresses these topics at varying scales and with respect to their influence on the global landscape. Focuses on current issues and events. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/AAAS, Social Sciences/AGS, Social Sciences/ASOT-B.
GEO 106. World Regional Geography. 4 Credits.
Examines the human, cultural, and environmental geographic issues that shape the world’s regions. Includes information on spatial patterns of economic development, natural resource uses, international trade, population and migration, transportation, and cultural landscapes. Analyzes each region as part of the larger global community, with a specific emphasis on current issues and trends. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AASOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

GEO 110. The Natural Environment. 4 Credits.
Focuses on natural processes that create physical diversity on the Earth. Examines global impact of environmental events, by holistically examining Earth’s system. Includes energy, air, water, weather and climate, soils, vegetation, ecosystems, biomes, and landforms, as well as their distribution and significance. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AAOOT, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS.

GEO 170. Maps and Geospatial Concepts. 4 Credits.
Introduces principles and concepts needed to understand the use and interpretation of maps, geospatial technologies, geographic information systems, and social science. Includes: scale, reference systems, coordinate systems, map projections, types of maps, role of maps in society and culture, data visualization, global positioning systems, remote sensing, digital landscapes, and map interpretation. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AAOOT, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAS.

GEO 202. Geography of Europe. 4 Credits.
Introduces the physical and human characteristics of Europe, including the natural environment, population distribution and settlement, cultural coherency and diversity, geopolitical framework, and economic and social development. Examines the ways in which humans have arranged politically the territory of Europe, and the conflicts that take place in this continent. Examines the geographical basis of the European economic and political integration. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOOT.

GEO 204. Geography of Middle East. 4 Credits.
Examines the impacts of different physical and cultural factors on formation, development, and distribution patterns of human settlements. Examines the influence of religious beliefs as well as other cultural elements in the evolution of human landscapes and the quality of life within the region. Examines the Middle East as a culturally diverse region (i.e. not a monolith) and explores the dominant value systems held by different Middle Eastern societies. Focuses on population issues, urbanization processes, traditionalism, modernity, male-female relations, feminism, democracy, and westernization. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAOOT, Social Sciences/AS.

GEO 206. Geography of Oregon. 4 Credits.
Explores the various historical, social, economic, physical, and geographic factors that have contributed to the modern Oregon landscape. Delineates the major cultural and physical divisions within Oregon, in order to better understand the state’s significant diversity. Emphasizes current issues and trends, and places the growth of Oregon into context with regional and national growth patterns. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS.

GEO 209. Physical Geography: Weather and Climate. 4 Credits.
Examines the processes of the atmosphere, the distribution and character of climate types, climate change and humankind as a modifier of climate. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AAOOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

GEO 212. Geography of Global Issues. 4 Credits.
Examines human, cultural, and environmental geography placed in context with current issues of social, economic, and political globalization. Includes information on global spatial patterns of agriculture, industrial, post-industrial, and sustainable development; rural-to-urban migration; religious, political and resource conflicts; and cultural landscapes. Uses regional examples to illustrate geographic concepts. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOOT, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/A.

GEO 215. Geography of Latin America. 4 Credits.
Explores the physical, cultural, and economic forces that have contributed to the creation of Latin America as a distinctive region. Examines the impact of large scale issues such as global trade, environmental degradation, and the debt crisis on the changing landscapes and lifestyles of the people of the region. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAOOT.

GEO 221. Field Geography: The Local Landscape. 4 Credits.
Presents field research methods in human geography and applications of GIS. Works to prepare cartographic presentation of community needs and resources while working directly with a community organization. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAOOT.

GEO 223. Field Geography: GPS & GIS. 4 Credits.
Provides a conceptual overview and hands-on experience with Global Positioning Systems (GPS). Includes GPS theory, techniques, and field data methods. Uses hand-held GPS units, to collect and integrate spatial and non-spatial data within a Geographic Information Systems (GIS) framework. Covers differential correction, importing features and tabular data into GIS, data conversions, building a GIS database, and creating maps from GPS data. Prerequisite/Concurrent: GEO 265. Prerequisite. (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

GEO 230. Geography of Race & Ethnic Conflicts. 4 Credits.
Examines the issues of race and ethnicity and their interrelationships with contemporary global patterns of political factionalism, economic disparity, religious fervor and ethnic nationalism. Examines how these issues influence the processes of development for various countries throughout the world. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/A.

GEO 240. Cartographic Principles and Applications. 4 Credits.
Explores basic cartographic design principles and how to apply them to produce high quality maps using GIS software. Introduces cartographic primitives, principles, and map-making tools. Covers visual representation and communication; how to turn geographic data into effective maps for print and the web; how to critique maps; map design and elements; and color, fonts, labels, and symbols for maps. Prerequisite: GEO 265, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

GEO 242. GIS Programming. 5 Credits.
Introduces the fundamentals of computer science in the context of Geographic Information Systems (GIS). Covers concepts used in automating mapping procedures, handling different types of data, and building custom functions using ESRI’s ArcGIS software platform. Provides opportunities to understand the dynamic inner workings of GIS using Python scripting language. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

GEO 244. Interactive Map Design. 4 Credits.
Introduces interactive and web-based mapping technologies and applications. Develops knowledge and skills to plan, design, develop, and publish custom interactive, web-based maps. Covers how to prepare spatial data and apply cartographic principles to web maps. Prerequisite: GEO 265. Audit available.

GEO 246. Remote Sensing and Image Analysis. 4 Credits.
Introduces theory, methods, and application of remote sensing and image analysis. Includes remotely sensed data acquisition and analysis, aerial photographs and photogrammetry, visual image interpretation, characteristics of various sensing systems, and geographic information systems. Prerequisite: GEO 265, and WR 115, RD 115 and MTH 20 or equivalent placement. Audit available.
GEO 250. Geography of Africa. 4 Credits.
Introduces the various historical, social, economic, physical, and geographic factors that have contributed to the modern African landscape. Includes the study of spatial dimensions and the distribution patterns of phenomena such as population mobility, urbanization, poverty, and slum formation. Explores why Africa has become a place of such deep contrasts between crisis and hope. Focuses on breaking down the stereotypes of one Africa and deepening knowledge of this multi-faceted continent in both a historical and current context. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B; Social Sciences/AAOT. Social Sciences/AS, Social Sciences/AAAS, Social Sciences/AGS.

GEO 265. Introduction to GIS (Geographical Information Systems). 4 Credits.
Provides a conceptual overview and hands-on experience using ArcGIS software. Introduces basic principles of maps and map design and uses ArcGIS to create, edit, display, query and analyze geographic and tabular data and to create maps and charts. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAAS, Social Sciences/AGS, Social Sciences/AAOT.

GEO 266. GIS Analysis. 4 Credits.
Provides a more advanced overview of ArcGIS software and introduces extensions to the main ArcMap interface. Topics include preparing data for analysis, creating and managing databases, geocoding, creating and editing spatial data, and analyzing data using the Spatial Analyst and 3D Analyst extensions. Prerequisite: GEO 265, or instructor permission. Audit available.

GEO 267. Application Topics in Geographic Information Systems. 4 Credits.
Application focus varies and provides an opportunity for extended exposure to one or more of the analytical techniques first learned in prerequisite courses. Attention to institutional and professional GIS application issues and programming environments. Prerequisite: GEO 266, or instructor permission. Audit available.

GEO 270. Creating a Map Portfolio. 1 Credit.
Provides an overview on the creation and production of print and web portfolios in preparation for employment as GIS professionals and/or cartographers. Prerequisite: GEO 266. Prerequisite/concurrent: GEO 267. Audit available.

GEO 280A. CE: Geography. 1-4 Credit.
Enables students to extend their knowledge of Geography through work in settings which provide learning experiences that are not available in the classroom, but which supplement classroom learning. Under the employer’s supervision the student learns to apply classroom theory to actual work situations. Department permission required. Audit available.

GEO 298. Independent Study: Geography. 4 Credits.
Offers individualized study at an advanced level in areas of geography not considered in other courses to meet special interests or program requirements. Requires completion of a term project and readings approved by the instructor. Recommended: prior study of geography. Audit available.

GEOLOGY

G 147. Geology of the National Parks. 4 Credits.
Explores the geology found in our national park system. Examines basic geologic processes which created park landscapes, and the role of society in creation, maintenance and enjoyment of the national park system. Includes a weekly lab. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/ASOT-B.

G 148. Volcanoes and Earthquakes. 4 Credits.
Explores the Earth’s volcanism and seismology examining its nature, geographic distribution, frequency, magnitude, and relation to plate tectonics. Covers the assessment of hazards and risks associated with volcanoes and earthquakes and how communities can manage these hazards and risks. Includes a weekly lab. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/ASOT-B.

G 160. Geology: Oregon Coast. 2 Credits.
Designed to introduce the relationships between the biology and geology of the Oregon Coast.
G 203. Historical Geology. 4 Credits.
Introduces historical geology which deals with geologic time, fossils, stratigraphic principles, and the geologic history of the North American continent. Includes weekly lab. G 201 or G 202 or GS 106 strongly recommended. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 95 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

G 207. Geology of the Pacific Northwest. 3 Credits.
Introduces the regional geology of the Pacific Northwest with emphasis on Oregon geology. Includes basic geologic principles, earth materials and geology of Pacific Northwest provinces. Prior geology experience strongly recommended. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 65 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS.

G 208. Volcanoes and Their Activity. 3 Credits.
Covers the origin, activity, products, classification and hazards of volcanoes. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 65 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

G 209. Earthquakes, 3 Credits.
Covers the nature and origin of earthquakes, the characteristics of seismic waves, how earthquakes are measured, the hazards of earthquakes and the historical and geological record of earthquakes. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 65 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AS, Science, Math, Computer Science/AOT, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

G 291. Elements of Rocks and Minerals. 4 Credits.
Introduces the study of rocks and minerals that includes their classification, origin and identification. Recommended for persons interested in rock and mineral collecting, mining and prospecting. Includes weekly lab. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 95 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AS, Science, Math, Computer Science/AOT, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

G 298A. Geology Independent Study. 1 Credit.
Provides an opportunity to work independently on an individualized area of study within geology under the sponsorship of geology faculty. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and Instructor permission.

GERMAN
GER 101. First Year German. 4 Credits.
Emphasizes active communication in beginning German. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary and culture. For beginners. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

GER 102. First Year German. 4 Credits.
Continues the work of GER 101. Emphasizes active communication in German. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary and culture. Recommended: Completion of GER 101 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

GER 103. First Year German. 4 Credits.
Continues the work of GER 102. Emphasizes active communication in German. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary, and culture. Recommended: Completion of GER 102 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

GER 111A. First Year German Conversation. 3 Credits.
Practice of structures and vocabulary of first year German in a conversational format. Recommended: Completion of or simultaneous enrollment in GER 101 or 150; or instructor permission. Audit available.

GER 111B. First Year German Conversation. 2 Credits.
Practice of structures and vocabulary of first year German in a conversational format. Recommended: Completion of or simultaneous enrollment in GER 101 or 150; or instructor permission. Audit available.

GER 111C. First Year German Conversation. 1 Credit.
Practice of structures and vocabulary of first year German in a conversational format. Recommended: Completion of or simultaneous enrollment in GER 101 or 150 or instructor permission. Audit available.

GER 112A. First Year German Conversation. 3 Credits.
Practice of structures and vocabulary of first year German in a conversational format. Recommended: Completion of or simultaneous enrollment in GER 102 or 151; or instructor permission. Audit available.

GER 112B. First Year German Conversation. 2 Credits.
Practice of structures and German vocabulary of first year German in a conversational format. Recommended: Completion of or simultaneous enrollment in GER 102 or 151; or instructor permission. Audit available.

GER 112C. First Year German Conversation. 1 Credit.
Practice of structures and German vocabulary of first year German in a conversational format. Recommended: Completion of or simultaneous enrollment in GER 102 or 151; or instructor permission. Audit available.

GER 113A. First Year German Conversation. 3 Credits.
Practice of structures and vocabulary of first year German in a conversational format. Recommended: Completion of or simultaneous enrollment in GER 103 or 151; or instructor permission. Audit available.

GER 113B. First Year German Conversation. 2 Credits.
Practice of structures and vocabulary of first year German in a conversational format. Recommended: Completion of or simultaneous enrollment in GER 103 or 151; or instructor permission. Audit available.

GER 113C. First Year German Conversation. 1 Credit.
Practice of structures and vocabulary of first year German in a conversational format. Recommended: Completion of or simultaneous enrollment in GER 103 or 151; or instructor permission. Audit available.

GER 150. First Year German. 6 Credits.
Emphasizes active communication in beginning German. Includes listening, speaking, writing, pronunciation, professional vocabulary and culture. For beginners. Completion of GER 150-151 is equivalent to GER 101-102-103. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

GER 151. First Year German. 6 Credits.
Continues the work of GER150. Emphasizes active communication in German. Includes listening, speaking, writing, pronunciation, professional vocabulary and culture. Recommended: Completion of GER 150 or instructor permission. Completion of GER 150-151 is equivalent to GER 101-102-103. Audit available. This course fulfills the following GE requirements: Arts and Letters/AGS, Arts and Letters/ASOT-B.

GER 201. Second Year German. 4 Credits.
Continues the work of first year German, reviewing, expanding, and perfecting pronunciation, structure, and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of first year German at college level or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AOT.

GER 202. Second Year German. 4 Credits.
Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of GER 201 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

GER 203. Second Year German. 4 Credits.
Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of GER 202 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

GER 211A. Intermediate German Conversation. 3 Credits.
Stresses conversational skills at the second year level. Recommended: Completion of one year of college level German, simultaneous enrollment in GER 201, or instructor permission. Audit available.

GER 211B. Intermediate German Conversation. 2 Credits.
Stresses conversational skills at the second year level. Recommended: Completion of one year of college level German, simultaneous enrollment in GER 201, or instructor permission. Audit available.

GER 211C. Intermediate German Conversation. 1 Credit.
Stresses conversational skills at the second year level. Recommended: Completion of one year of college level German, simultaneous enrollment in GER 201, or instructor permission. Audit available.
GER 212A. Intermediate German Conversation. 3 Credits.
Stresses conversational skills at the second year level. Continues the work of GER 211A. Recommended: Completion of or simultaneous enrollment in GER 202 or instructor permission. Audit available.

GER 212B. Intermediate German Conversation. 2 Credits.
Stresses conversational skills at the second year level. Continues the work of GER 211B. Recommended: Completion of or simultaneous enrollment in GER 202 or instructor permission. Audit available.

GER 212C. Intermediate German Conversation. 1 Credit.
Stresses conversational skills at the second year level. Continues the work of GER 211C. Recommended: Completion of or simultaneous enrollment in GER 202 or instructor permission. Audit available.

GER 213A. Intermediate German Conversation. 3 Credits.
Stresses conversational skills at the second year level. Continues the work of GER 212A. Recommended: Completion of or simultaneous enrollment in GER 203 or instructor permission. Audit available.

GER 213B. Intermediate German Conversation. 2 Credits.
Stresses conversational skills at the second year level. Continues the work of GER 212B. Recommended: Completion of or simultaneous enrollment in GER 203 or instructor permission. Audit available.

GER 213C. Intermediate German Conversation. 1 Credit.
Stresses conversational skills at the second year level. Continues the work of GER 212C. Recommended: Completion of or simultaneous enrollment in GER 203 or instructor permission. Audit available.

GER 260A. German Culture Through Film. 3 Credits.
Enhances understanding of German culture and contemporary society through analysis of cultural and social issues presented in seven German films. May explore issues including but not limited to: intercultural and cultural relations, ethnic conflict, Germany during the Second World War, economic, social and historical perspectives in post-war Germany, roles of German men and women, self-discovery, German humor, East versus West. Course conducted in English and all films with English subtitles. Students may take only one course in the 260 series: A, B, or C. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

GER 260B. German Culture Through Film. 2 Credits.
Enhances understanding of German culture and contemporary society through analysis of cultural and social issues presented in five German films. May explore issues including but not limited to: intercultural and cultural relations, ethnic conflict, Germany during the Second World War, economic, social and historical perspectives in post-war Germany, roles of German men and women, self-discovery, German humor, East versus West. Course conducted in English and all films with English subtitles. Students may take only one course in the 260 series: A, B, or C. Audit available.

GER 260C. German Culture Through Film. 1 Credit.
Enhances understanding of German culture and contemporary society through analysis of cultural and social issues presented in four German films. May explore issues including but not limited to: intercultural and cultural relations, ethnic conflict, Germany during the Second World War, economic, social and historical perspectives in post-war Germany, roles of German men and women, self-discovery, German humor, East versus West. Course conducted in English and all films with English subtitles. Students may take only one course in the 260 series: A, B, or C. Audit available.

GER 261A. German Culture Through Film. 3 Credits.
Enhances understanding of German culture and contemporary society through analysis of cultural and social issues presented in seven German films. May explore issues including but not limited to: intercultural and cultural relations, ethnic conflict, the New German Cinema, morality of the bourgeoisie, alienation of youth, roles of German men and women, self-discovery, moral disaster of the Nazi legacy, authority and rebellion. Course conducted in English and all films with English subtitles. Students may take only one course in the 261 series: A, B, or C. Audit available.

GER 261B. German Culture Through Film. 2 Credits.
Enhances understanding of German culture and contemporary society through analysis of cultural and social issues presented in five German films. May explore issues including but not limited to: intercultural and cultural relations, ethnic conflict, the New German Cinema, morality of the bourgeoisie, alienation of youth, roles of German men and women, self-discovery, moral disaster of the Nazi legacy, authority and rebellion. Course conducted in English and all films with English subtitles. Students may take only one course in the 261 series: A, B, or C. Audit available.

GER 261C. German Culture Through Film. 1 Credit.
Enhances understanding of German culture and contemporary society through analysis of cultural and social issues presented in four German films. May explore issues including but not limited to: intercultural and cultural relations, ethnic conflict, the New German Cinema, morality of the bourgeoisie, alienation of youth, roles of German men and women, self-discovery, moral disaster of the Nazi legacy, authority and rebellion. Course conducted in English and all films with English subtitles. Students may take only one course in the 261 series: A, B, or C. Audit available.

GERONTOLOGY

GRN 131. Hospice Basics. 1 Credit.
Provides an introduction to hospice and hospice care, including the hospice philosophy, palliative care, pain and symptom management, death and the dying process, grief and bereavement. Also addresses hospice eligibility, ethics and confidentiality, interdisciplinary team roles, communication, advanced directives, care-giving issues, self-care, and alternative therapies.

GRN 155. Home Care Activity Training. 1 Credit.
Trains home care providers and adult care home operators to design and implement cognitive, physical, and social-spiritual activities for older adults living in home and adult care home settings to enhance their well-being and quality of life.

GRN 165. Activity Director Training. 2 Credits.
Course prepares students to manage an activity department; do assessments and documentation; design, schedule, and implement appropriately designed activity programs; foster healthy resident and family dynamics; facilitate resident council meetings; and manage personnel and resources. Audit available.

GRN 166. Nature Activities for Senior Living. 1 Credit.
Introduces therapeutic horticulture activities reflecting the four seasons for older adults in a wide variety of service settings, including senior center, in-home, and day programs; independent, adult care home, assisted living, skilled and long-term care nursing, dementia care, hospice, and continuing care retirement communities; rehabilitation, corrections and more. Audit available.

GRN 170. Resident Assistant I Training. 2 Credits.
Provides direct care workers in Assisted Living Facilities the knowledge and skills for both entry and performance levels as a Resident Assistant I, as described by the occupational profiles for that position. The modular, work-based training is designed to establish person-centered care competency levels in the areas of team roles and responsibilities, infection control, service plans, safety, physical effects of aging, and medications. Audit available.

GRN 171. Resident Assistant II Training. 1 Credit.
Provides advanced direct care workers in Assisted Living Facilities the knowledge and skills for both entry and performance levels as a Resident Assistant II, as described by the occupational profile for that position. The modular, work-based training is designed to establish person-centered care competency levels in the areas of team roles and responsibilities, infection control, service plans, safety, physical effects of aging, and medications, as well as the medication administration, liaison, supervisory and reporting responsibilities of the Resident Assistant II position. Prerequisite/concurrent: GRN 170. Audit available.

GRN 172. Adult Care Home Training. 2 Credits.
Includes the issues prospective operators and resident managers of Adult Care Home (ACH) will face providing care and services to residents who live in adult care homes. The course uses State of Oregon Adult Care Home Program curriculum and includes demonstrations and practice in the social model of care giving. Audit available.

GRN 175. The Aging Mind. 2 Credits.
Explores the convergence of gerontology and recent brain science. Presents novel and combinatorial interventions based on recent research on aging brains. Introduces the emerging array of sustainable approaches to engage, stimulate, and enhance older minds. Audit available.

GRN 176. Cognitive Activity Design. 2 Credits.
Explores the challenges of applying emerging, evidence-based research in memory and aging to address real-life cognitive challenges. Includes design and demonstration of innovative cognitive activities that are supported by recent brain science findings. Prerequisite/concurrent: GRN 175. Audit available.

GRN 177. Arts & Cognitive Activity Design. 1 Credit.
Covers the connection between the arts and brain health research in order to create art-related cognitive activities for older persons. Includes design and demonstration of creative arts as a sustainable cognitive activity for older persons. Explores why creative arts activities have a positive impact on an older person’s brain and how their design is supported by recent brain science findings. Prerequisite/concurrent: GRN 175 and GRN 176. Audit available.
GRN 181. Exploring the Field of Aging. 2 Credits.
Introduces the range of emerging professional opportunities in the field of aging. Explores and prioritizes potential career pathways. Includes career and labor market research; assessment of passions, interests, experiences and transferrable skills; informational interviews, site visits, and networking; career and educational/training goal setting and planning. Audit available.

GRN 201. Understanding and Combating Ageism. 2 Credits.
Explores ageism as a form of prejudice and discrimination that intersects with other systems of oppression. Investigates the different levels at which ageism operates and the negative impact that internalized and institutionalized ageism has on individuals and society. Introduces perspectives and practices for combating ageism and creating age-inclusive and age-equitable policies, programs and communities. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

GRN 233. Supporting End of Life. 4 Credits.
Provides health care workers, caregivers, religious and spiritual counselors, social workers, fiduciaries, and family members the knowledge and skills to support the end of life process with dying persons and their families. Explores the physical, emotional, spiritual, legal, and financial aspects of dying, as well as grief and bereavement. Audit available.

GRN 234. Introduction to Dementia Care & Practice. 4 Credits.
Focuses on issues related to the care of older persons presenting behavioral and cognitive challenges using a person-centered approach. Introduces assessment, treatment and care of persons experiencing dementia and problematic mental health conditions, and the dying process. Includes assessing appropriate long term care options for memory care, problem solving, functional levels and other challenges, responding to deficiencies, creating repetitive incident reports, implementing fall prevention programs, and developing family education and support programs. Recommended: (WR 115 and RD 115) or IRW 115. Audit available.

GRN 237. End of Life Therapies. 1 Credit.
Focuses on a specific therapeutic approach appropriate for end of life care and explores a variety of strategies and activities designed to augment end of life and palliative care goals and enhance the quality of life for the dying person and their caregivers. Audit available.

GRN 239. End of Life Practices. 1 Credit.
Focuses on specific approaches or practices appropriate for end of life care and explores a variety of strategies and activities designed to augment end of life and palliative care goals and to enhance the quality of life for the dying person and their caregivers. Audit available.

GRN 240. Care and Service Coordination. 3 Credits.
Provides an overview of professional standards, responsibilities, and skills required for care managers, information and resource specialists, advocates, and service coordinators working with older adults, persons with disabilities, and their families. Includes the assessment process, care planning, resource management, service provider and financial coordination, documentation and accountability, ethics and confidentiality, advocacy, and evaluation. Introduces strength-based, person-centered, and empowerment models. Audit available.

GRN 245. Introduction to Guardianship in Oregon. 1 Credit.
Introduces guardianship in Oregon. Includes a review of the court process, who qualifies for guardianship, and responsibilities of individuals serving as guardians. Presents basic information about how to be a guardian for a family member, and an overview of resources for guardians. Audit available.

GRN 246. Guardian Conservator Training. 2 Credits.
Introduces professional guardianship and conservatorship in Oregon. Includes professional standards and practices, intake decision-making, working with attorneys, interactions between Oregon laws and professional standards, business and social service skills required, and legal/ethical responsibilities to the court and protected person throughout the process. Introduces national and state issues, and how to work with a care team in a professional social service, medical, and legal context. Focuses on how to coordinate services and finances, use available resources, and work with physicians, care providers, social service agencies, families and others in decision-making on life, property, and care for court-determined incapacitated adults. Prerequisite/concurrent: GRN 245. Audit available.

GRN 247. Applied Legal and Policy Issues in Aging. 2 Credits.
Introduces legal and policy issues affecting older adults and their families, as well as care providers. Introduces both national and state policies that impact the services and care available to older adults and access points for these services. Includes presentations from a variety of experts within the field of social services. Provides information on long-term care facility types and how they are licensed; Medicare and Medicaid services and coverage; mental health and veteran's services; abuse and protective services; legal planning for aging, including health care directives and powers of attorney; and advocacy and the legal process in Oregon. Focuses on how each program contributes to the delivery of services for older adults, as well as areas in which services may be lacking. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

GRN 265. Activity Professional Certification Training 1. 2 Credits.
Provides activity professionals the knowledge and skills to work with older persons in long term care, adult daycare and community-based programs. Meets Federal Standards and Scope of Practice Guidelines for activity directors/life enrichment coordinators, as regulated in Assisted Living Facilities, Long Term Care Facilities and Alzheimer’s (Memory Care) Units. Prerequisites: GRN 165 or instructor permission. Audit available.

GRN 266. Activity Professional Certification Training 2. 2 Credits.
Provides activity professionals advanced knowledge and skills to manage and consult for activity programs in long-term care, adult daycare and community-based settings. Meets Federal Standards and Scope of Practice Guidelines for designers and managers of activity programs in Skilled Long Term Care facilities, Assisted Living facilities or Alzheimer’s (Memory Care) Units. Prerequisites: GRN 265. Audit available.

GRN 267. Introduction to Professional Therapeutic Horticulture. 2 Credits.
Introductory course for students training for the horticultural therapy profession and for health and human service providers desiring to add therapeutic horticulture to the treatment milieu. Topics include: history and development of the profession; code of ethics; People-Plant Relationship research base; vocational, social wellness and therapeutic program models; overview of basic clinical skills; aspects of interdisciplinary collaboration/integration in healthcare delivery; medical terminology; volunteer program development; professional resources and horticulture skills development for therapy. Audit available.

GRN 268. Techniques & Adaptive Strategies in Therapeutic Horticulture. 2 Credits.
Prepares students to design, develop, and maintain wellness activities and therapeutic horticulture gardens and programs incorporating indoor, outdoor and seasonal adaptations, strategies, and techniques. Includes a focus on special needs populations in retirement and long term care communities, vocational and medical rehabilitation facilities, and developmental disabilities settings. Students must have completed GRN 267 or the equivalent course offered through the Legacy Therapeutic Horticulture Program. Prerequisite: GRN 267. Audit available.

GRN 269. Therapeutic Horticulture Skills I. 2 Credits.
Introduces therapeutic skills, including therapeutic models, medical terminology, assessment, goal setting, task analysis and treatment issues, activity planning, documentation and evaluation, safety and precautions as applied in a therapeutic horticulture milieu. Professional and therapeutic skill topics include learning styles, motivational management, group dynamics, therapeutic use of self, professional skills, public speaking, counseling basics, roles in interdisciplinary team, leadership role of the therapist, writing and communication skills, and ethics. Students must have completed GRN 268 or the equivalent course offered through the Legacy Therapeutic Horticulture Program. Prerequisite: GRN 268. Audit available.

GRN 270. Therapeutic Horticulture Programming for Adults & Children. 2 Credits.
Introduces therapeutic horticulture program models; human development models; issues in aging, frailty, dementia, and the continuum of care; intergenerational program models; assessment, documentation, and treatment planning; activity, thematic and seasonal planning; case study writing; marketing and public relations; program evaluation; and general issues in therapeutic garden design, maintenance and programming for children and frail elders. Students must have completed GRN 269 or the equivalent course offered through the Legacy Therapeutic Horticulture Program. Prerequisite: GRN 269. Audit available.

GRN 271. Therapeutic Horticulture Skills II. 2 Credits.
Builds therapeutic and professional skills to work in pediatric, geriatric, developmental disabilities, psychiatric and offender programs. Includes advanced skills in designing and evaluating 12 month therapeutic activities and programming for frail elderly, pediatric, developmentally disabled, neurologically impaired and other special needs populations. Focuses on professional skill mastery and continuing education planning. Students must have completed GRN 270 or the equivalent course offered through the Legacy Therapeutic Horticulture Program. Prerequisite: GRN 270. Audit available.
GRN 272. Therapeutic Garden Design, Maintenance & Programming. 3 Credits.
Focuses on the design, maintenance and programming of natural and horticultural therapeutic gardens. Includes working with an interdisciplinary team, garden assessment using therapeutic gardening standards, designing restorative settings, planning and conducting group and seasonal sessions, sensory goals programming for dementia clients, patio and strolling gardens for assisted living facility programs, and special needs gardens. Students must have completed GRN 271 or the equivalent course offered through the Legacy Therapeutic Horticulture Program. Prerequisite: GRN 271. Audit available.

GRN 273. Interior Plants. 3 Credits.
Focuses on the identification of interior plants commonly used in therapeutic horticulture programming, houseplants as leisure/hobby, and interior plantscaping. Covers plant culture requirements, pests, diseases, propagation and interior use. Audit available.

GRN 280A. CE: Gerontology Internship. 1-3 Credit.
Develops practical experience, skill development and professional direction in achieving their career goals, working under supervision in an approved worksite through an intentional internship. Prerequisite: Submission of Training Agreement and Learning Objectives Forms, signed by the student and worksite supervisor to Gerontology office. Cooperative Education office requests registration. Audit available.

GRN 280B. Gerontology Internship Seminar. 1 Credit.
Develops the essential skills for successful internship. Focuses on work-based learning outcomes, working under supervision, effective communication and teamwork in organizations, professional networking, stress and conflict management, professional ethics, boundary setting, and burnout prevention. Prerequisite: GRN 181. Audit available.

GRN 282. Gerontology Professional Seminar. 2 Credits.
Focuses on reviewing and modifying career and educational/training goals; reassessing the occupational outlook and labor market; building a professional network; formulating mission and vision statements and other branding tools; developing master portfolios and resumes, job specific resumes, websites, brochures, cards, and other job tools; preparing for behavioral job interviews; and creating Degree and Certificate presentations in ePortfolios that assess learning outcomes. Prerequisite: GRN 280B. Audit available.

GRAPHIC DESIGN

GD 101. Technology and Procedures. 1 Credit.
Introduces current Macintosh computer operating system, industry technical requirements, classroom procedures and overview of the program servers and printers. Required for entry into the Graphic Design program. Prerequisite: Placement into WR 121.

GD 114. Introductory Typography. 3 Credits.
Introduces the letterform as a design element. Focuses on using typography as the primary visual in graphic design exploration. Includes font classification, composition, vocabulary and production techniques. Emphasizes hand-rendered techniques. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement.

GD 116. Intermediate Typography. 3 Credits.
Focuses on typographic composition, hierarchy of information, font identification and grid structure. Integrates type and image to reflect contemporary layout directions. Prerequisites: GD 101, GD 114, GD 120. Prerequisite/concurrent: GD 122, GD 140.

GD 120. Graphic Design 1. 3 Credits.
Introduces the basic concepts of graphic design, including design elements and principles. Emphasizes the design process, developing an idea from thumbnail sketch, through rough drafts, to a comprehensive design. Focuses on the importance of presentation, industry standards and professional tools and techniques. Required for entry into the Graphic Design program.

GD 122. Graphic Design 2. 3 Credits.
Builds on the basic concepts of graphic design. Emphasizes color, including color theory, vocabulary, color schemes, and the effects of color. Focuses on identifying graphic styles, brainstorming techniques, and integrates 3-dimensional design. Focuses attention on design process, presentation, and industry standards. Prerequisites: GD 101, GD 114, GD 120. Prerequisite/concurrent: GD 116, GD 140, GD 150.

GD 124. Graphic Design 3. 3 Credits.
Explores advanced integration of professional graphic design software. Includes projects which embody conceptual development and production of visual communications. Required: second-year standing in the Graphic Design program. Prerequisite: GD 221, GD 260.

GD 126. Digital Page Design 1. 3 Credits.

GD 127. Digital Page Design 2. 3 Credits.
Explores beginning level digital design and publishing using professional page layout software. Introduces typography design, basic page layout, computer file management, professional methods of design organization, keyboard work and the foundations of computer use in single-page layouts. To be taken sequentially. Placement permission slip required. Prerequisites: GD 101, GD 114, GD 120. Prerequisite/concurrent: GD 116, GD 122.

GD 128. Professional Graphic Design Practices. 3 Credits.
Explores advanced techniques of creating vector illustrations for 2- and 3-dimensional applications. Prerequisite: GD 116, GD 122, GD 140, GD 150. Prerequisite/concurrent: GD 124, GD 160.

GD 129. Illustration for Graphic Designers. 3 Credits.
Explores the development of professional-level graphic design portfolio. Requirement: Must be eligible to graduate in the current calendar year to enroll. Prerequisites: GD 222, GD 228, GD 244, GD 260.

GD 140. Digital Page Design 1. 3 Credits.
Explores beginning level digital design and publishing using professional page layout software. Introduces typography design, basic page layout, computer file management, professional methods of design organization, keyboard work and the foundations of computer use in single-page layouts. To be taken sequentially. Placement permission slip required. Prerequisites: GD 101, GD 114, GD 120. Prerequisite/concurrent: GD 116, GD 122.

GD 141. Digital Page Design 2. 3 Credits.

GD 150. Digital Illustration 1. 3 Credits.
Explores professional techniques for creating vector images. Includes templates, layers, tools and efficient construction techniques used by graphic designers. Prerequisite: GD 101, GD 114, GD 120. Prerequisite/concurrent: GD 122, GD 140.

GD 151. Digital Illustration 2. 3 Credits.
Explores advanced techniques of creating vector illustrations for 2- and 3-dimensional applications. Prerequisite: GD 116, GD 122, GD 140, GD 150. Prerequisite/concurrent: GD 124, GD 160.

GD 160. Digital Imaging 1. 3 Credits.
Introduces professional software to control digital image editing, photo manipulation and layer compositing of raster art. Emphasizes file formats, techniques and tools used by graphic designers. Placement permission slip required. Prerequisites: GD 116, GD 122, GD 140, GD 150. Prerequisite/concurrent: GD 141, GD 151.

GD 164. Digital Page Design 1. 3 Credits.

GD 191. Prepress for Graphic Design. 3 Credits.

GD 222. Graphic Design 5. 3 Credits.
Explores branding, logo design and identity systems. Covers researching target audiences and creating design solutions to communicate client and product image through logos, logotypes, icons, and symbols. Requires advanced computer production techniques building on previous coursework. Required: Second-year standing in the Graphic Design program. Prerequisites: GD 116, GD 122, GD 140, GD 150. Prerequisite/concurrent: GD 124, GD 141, GD 151, GD 160.

GD 229. Portfolio Preparation. 3 Credits.
Covers the process of developing a professional-level graphic design portfolio. Requirement: Must be eligible to graduate in the current calendar year to enroll. Prerequisites: GD 222, GD 228, GD 244, GD 260.

GD 242. Combined Graphic Programs. 3 Credits.
Reviews advanced integration of professional graphic design software. Includes projects which embody conceptual development and production of visual communications. Required: second-year standing in the Graphic Design program. Prerequisite: GD 221, GD 260.

GD 244. Print Strategies. 3 Credits.
Covers advanced integration of professional graphic design software. Includes projects which embody conceptual development and production of visual communications. Required: second-year standing in the Graphic Design program. Prerequisites: GD 124, GD 141, GD 151, GD 160, and ART 131.

GD 249. Design Studio. 3 Credits.
Focuses on identification of interior plants commonly used in therapeutic horticulture programming, houseplants as leisure/hobby, and interior plantscaping. Covers plant culture requirements, pests, diseases, propagation and interior use. Audit available.

GRN 272.
HEALTH INFORMATION MANAGEMENT

HIM 105. Ancillary Information Analysis. 2 Credits.
Develops knowledge of health care ancillary services, laboratory tests, and imaging services. Prerequisite: HIM 110, HIM 120. Corequisite: HIM 107. Audit available.

HIM 107. Ancillary Information Analysis Lab. 2 Credits.
Provides an opportunity to analyze diagnostic tests and results in an electronic health record format and identify the medical necessity for the tests. Prerequisite: HIM 110, HIM 120. Corequisite: HIM 105.

HIM 110. Health Record Content in Acute Care Settings. 3 Credits.
Introduces the concept of health information management and health informatics including the components of content, use and structure of healthcare data along with information keeping practices in both paper and electronic systems. Corequisite: HIM 120. Audit available.

HIM 120. Health Record Content in Acute Care Settings Lab. 2 Credits.
Provides an opportunity to practice auditing health records and recognize key elements of health record documents. Corequisite: HIM 110.

HIM 121. Legal and Ethical Aspects of Healthcare. 3 Credits.
Provides an overview of the legal system and the legal principles that govern the delivery of healthcare. Covers patient confidentiality and the disclosure of patient information. Includes codes of ethics and bioethical issues facing today’s healthcare professionals. Audit available.

HIM 128. Anatomy & Physiology for Health Information Management 1. 4 Credits.
Provides the conceptual framework, factual knowledge and analytical skills needed to pursue a career in health information management. Surveys anatomical terminology, basic chemistry, cell structure and function, tissues, and integumentary, skeletal, muscular, and nervous systems. Audit available.

HIM 129. Anatomy & Physiology for Health Information Management 2. 4 Credits.
Provides the conceptual framework, factual knowledge and analytical skills needed to pursue a career in health information management. Surveys the endocrine, lymphatic, cardiovascular, digestive, respiratory, reproductive, and urinary systems. Includes some coverage of human development, human genetics, and immunology. Prerequisites: HIM 128. Audit available.

HIM 131. Medical Science. 5 Credits.
Explores concepts of disease processes as they relate to the normal physiology of the major body systems. Prerequisites: [HIM 128 and HIM 129] or [BI 121 and BI 122] or [BI 231, BI 232 and BI 233]. Audit available.

HIM 136. Medications. 3 Credits.
Covers appropriate drug uses, effects, precautions, and routes of administration. Reviews common prescription abbreviations, forms of medication, and basic drug categories. Prerequisites: [HIM 128 and HIM 129] or [BI 121 and BI 122] or [BI 231, BI 232 and BI 233]. Audit available.

HIM 141. Health Record Content in Non-Acute Care Settings. 3 Credits.
Addresses the concepts of health information management including components of the content, use, and structure of non-acute health care data. Audit available.

HIM 182. Healthcare Delivery Systems. 3 Credits.
Covers the past, present, and future influences on the delivery of healthcare. Provides an overview of the healthcare delivery systems and the role of health information management in healthcare, financing of healthcare, causes and characteristics of healthcare utilization in the United States, regulation and monitoring of healthcare systems and ethical issues associated with healthcare technology. Audit available.

HIM 270. ICD Procedure Coding. 4 Credits.
Covers classification of procedures utilizing the current ICD coding system. Prerequisite: HIM 105 and HIM 120. Corequisite: HIM 121 and BI 122 or [BI 231, BI 232 and BI 233] or equivalent. Audit available.

HIM 271. Quality Improvement in Healthcare. 2 Credits.
Covers medical staff organization, physician credentialing, and quality improvement techniques in the healthcare setting. Prerequisites: HIM 110, HIM 120. Prerequisite/concurrent: HIM 274. Audit available.

HIM 272. Health Information Management. 3 Credits.
Covers principles of personnel supervision and management of a health information department. Prerequisite/concurrent: HIM 277. Audit available.

HIM 273. ICD Diagnosis Coding. 4 Credits.
Covers classification of diseases utilizing the current ICD coding system. Prerequisite: HIM 105, HIM 107, HIM 131, HIM 136. Audit available.

HIM 274. Quality Improvement in Healthcare Lab. 2 Credits.
Provides an opportunity to practice reviewing health records for utilization review activities, assessing admission criteria, incident reporting and compliance with medical staff bylaws, accreditation standards and federal and state regulations. Corequisite: HIM 271.

HIM 275. CPT Coding. 3 Credits.
Introduces coding and classification systems for outpatient procedures and ambulatory care facilities. Prerequisite: HIM 105, HIM 107, HIM 131. Audit available.

HIM 276. Coding Capstone. 2 Credits.
Includes the application of all ICD and CPT code systems in the appropriate settings. Uses case-summary coding exercises for enhanced learning. Prerequisites: HIM 270, HIM 273, HIM 275.

HIM 277. Health Information Management Lab. 2 Credits.
Provides an opportunity to practice supervisory and lead worker skills that include policies and procedure development, productivity calculations, budget planning, job descriptions, and data and information governance. Corequisite: HIM 272.

HIM 281. Data Management and Analysis. 3 Credits.
Covers the selection and use of statistical and computational techniques used in health information management. Audit available.

HIM 282. Healthcare Statistics. 3 Credits.
Covers statistical analysis, healthcare administrative, and clinical information and data. Audit available.

HIM 283. Health Information Systems. 4 Credits.
Introduces the history and current status of information systems in healthcare, including information architectures, administrative and clinical applications, evidence-based medicine, information retrieval, decision support systems, security and confidentiality, bioinformatics, information system cycles, the electronic health record, key health information systems and standards, and medical devices. Covers strategies and tools to ensure the development and selection of health information systems. Explores the role of healthcare information and communication technologies in healthcare delivery including their role in improving the quality, safety and efficiency of healthcare delivery. Audit available.

HIM 285. Healthcare Financing and Compliance. 3 Credits.
Introduces the essential components of financing and compliance in healthcare facilities. Audit available.

HIM 286. Data Management and Analysis Lab. 2 Credits.
Provides an opportunity to practice data management and record analysis skills including analyzing a health record for deficiencies, applying medical staff bylaws to record analysis, abstracting cases, resolving duplicate record issues, developing a data dictionary and formatting data for reporting purposes. Corequisite: HIM 281.

HIM 290. HIM Teams and Training. 3 Credits.
Examines and develops skills for functioning in teams and providing training for healthcare staff and consumers. Covers project and change management concepts in relation to health information. Prerequisites: HIM 121, HIM 141, HIM 182, HIM 270, HIM 273, HIM 275, HIM 281, HIM 283, HIM 286. Audit available.

HIM 293. Health Information Directed Practice. 2 Credits.
Provides practicum experience in health information management functions utilizing medical record technologies in a classroom simulation and/or under the direct supervision of facility personnel in local health care facilities. Includes practice exams in preparation for the national Registered Health Information Technicians (RHIT) Exam. Prerequisites: HIM 121, HIM 141, HIM 182, HIM 270, HIM 273, HIM 275, HIM 281, HIM 283, and, HIM 286. Prerequisite/concurrent: HIM 276 and HIM 290.
HEALTH STUDIES
HE 110. CPR/AED for Professional Rescuers and Health Care Providers. 1 Credit. Provides education and training in infant, child, adult CPR, AED, and Bag-Valve masks for people who are responsible for delivering emergency care and/or ensuring the public safety. Provides training in bloodborne pathogens. Upon successful completion of this course, students may earn an American Red Cross CPR/AED for the Professional Rescuer and Health Care Provider certificate or equivalent American Health Association. Recommended: (RD 115 or IRW 115) or equivalent placement. Audit available.

HE 112. Standard First Aid and Emergency Care. 1 Credit. Describes emergency procedures and techniques of basic life support for adult, child, or infant victims of airway obstruction, respiratory arrest and/or cardiac arrest. Provides education and training in Automated External Defibrillator. Upon successful completion of this course, students may earn an American Red Cross Standard First Aid and CPR/AED Adult/Child and Infant CPR certificate or American Health Association equivalent. Recommended: (RD 115 or IRW 115) or equivalent placement. Audit available.

HE 113. First Aid & CPR/AED Professional Responders/HealthCare Providers. 1 Credit. Introduces basic first aid knowledge in the home, work, and community environment. Gain knowledge and skills to perform Professional CPR and AED for adults/children/infants. Upon successful completion of this course, students may apply for an American Red Cross First Aid card and American Red Cross Professional CPR/AED card. Recommended: (RD 115 or IRW 115) or equivalent placement.

HE 125. First Aid & Industrial Safety. 3 Credits. Presents an overview of industrial safety procedures, accident prevention, material safety data sheets (MSDS), hazardous materials, first aid, and CPR/AED. Upon successful completion of this course, students may earn an American Red Cross Responding to Emergency First Aid and Adult CPR/AED certificate and Blood Borne Pathogens Training: Preventing Disease Transmission Certificate or American Heart Association equivalent. Recommended: (RD 115 or IRW 115) or equivalent placement. Audit available.

HE 207. Seminar in Biomedical, Behavioral and Health Sciences. 1 Credit. Introduces an interdisciplinary, science-based overview of key issues and current research in scientific fields of study related to biomedical, behavioral, and health sciences through class meetings and off-campus professional seminars sponsored by academic and research institutions throughout the Portland metropolitan area. Recommended: WR 121. Audit available.

HE 212. Women's Health. 4 Credits. Examines women's health issues from a local, national and international perspective exploring the impact of bio-psycho-socio-cultural factors on the diagnosis, treatment, prevention and promotion of women's health. Audit available.

HE 213. Men's Health. 4 Credits. Examines general and specific men's health issues such as heart disease, prostate disorders, impotence and sexual dysfunction, HIV disease, human relationships and accidents/violence from a holistic wellness perspective. Audit available.

HE 224. Stress and Human Health. 4 Credits. Surveys and critically analyzes the stress concept and its impact on individual health. Using a multi-dimensional model, students will explore their personal stressors and the interaction between stress, human health and disease. Recommended: WR 121 Audit available.

HE 250. Personal Health. 3 Credits. Inspires close examination and evaluation of factors that influence one's personal health and wellness. Involves critical analysis of health information related to the biological, psychological, sociocultural, and environmental impacts on personal health from a wellness perspective. Audit available.

HE 252. First Aid - Basics and Beyond. 4 Credits. Introduces first aid and emergency knowledge and skills in the work, community, and home environment. Examines first aid care in remote and/or wilderness settings. Upon successful completion of this course, students may earn an American Red Cross Responding to Emergencies Adult and Pediatric First Aid/CPR/AED Certificate. Recommended: (RD 115 or IRW 115) or equivalent placement.

HE 254. Weight Management and Personal Health. 3 Credits. Course examines the causes of obesity, its impact on human health and explores weight loss and diet options for the individual from a holistic perspective, including social, emotional, and physical dimensions of human health. Recommended: Students have a WR 121 skill level. Audit available.

HE 255. Film and Public Health. 4 Credits. Critically explores public health issues as they are portrayed in popular films and discusses the scientific and social underpinnings of the public health issues. Recommended: WR 121 Audit available.

HE 262. Children's Health, Nutrition & Safety. 3 Credits. Explores current health and safety issues for infants and young children. Issues examined include childhood illnesses and ailments, nutrition, obesity, stress, safe environment, self-esteem and general first aid. Audit available.

HE 264. Health, Food Systems, and the Environment. 3 Credits. This course will examine how food systems influence human and environmental health. Students will explore the connections between sustainable agriculture concepts/practices, food systems, and personal and environmental health. Audit available.

HE 276. Human Health and the Environment. 3 Credits. Examines the relationship between the environment and human health. Focuses on issues such as persistent environmental contaminants, environmental toxins, climate change, and accompanying disease outbreaks. Includes a strong emphasis on personal decision making. Recommended: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

HE 295. Health and Fitness for Life. 2 Credits. Explores the interrelationship of the five components of physical fitness, nutrition and stress management concepts and activities to increase individual health and wellness. Corequisite: PE 295. Audit available.

HISTORY
HST 100. Introduction to History. 4 Credits. Provides a general introduction to the nature and methods of history. Develops awareness of the importance of historical literacy and thinking. Develops intellectual and written communication skills applicable to the study of history and other academic disciplines and a wide variety of professional pursuits. Covers various periods, areas and fields of history through the use of historical case studies. Prerequisite: Placement into WR 115. Audit available.

HST 101. History of Western Civilization: Ancient to Medieval. 4 Credits. Explores the ancient civilizations of Mesopotamia, Egypt, Greece, and Rome. Covers development of Judeo-Christian beliefs, early Islamic civilization, Byzantine civilization, and early medieval Europe. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and GPA 3.25 minimum. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

HST 101H. History of Western Civilization: Ancient to Medieval Honors. 4 Credits. Honors version of HST 101. Explores the ancient civilization of Mesopotamia, Egypt, Greece, and Rome. Covers development of Judeo-Christian beliefs, early Islamic civilization, Byzantine civilization, and early medieval Europe. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS.

HST 102. History of Western Civilization: Medieval to Modern. 4 Credits. Covers the High Middle Ages and early modern Europe, including the Renaissance, Reformation, Scientific Revolution, Enlightenment and the French Revolution. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

HST 102H. History of Western Civilization: Medieval to Modern - Honors. 4 Credits. Honors version of HST 102. Covers the High Middle Ages and early modern Europe, including the Renaissance, Reformation, Scientific Revolution, Enlightenment and the French Revolution. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and GPA 3.25 minimum. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/ASOT-B, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS.
HST 103. History of Western Civilization: Modern Europe. 4 Credits.
Covers the history of nineteenth- and twentieth-century Europe, including the Industrial Revolution, nationalism, imperialism, socialism, the Russian Revolution, Nazism, world wars and their aftermath. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

HST 103H. History of Western Civilization: Modern Europe - Honors. 4 Credits.
Honors version of HST 103. Covers the history of nineteenth- and twentieth-century Europe including, nationalism, imperialism, socialism, Nazism, the Russian Revolution, the Industrial Revolution, and the world wars and their aftermath. Required: GPA 3.25 minimum. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

HST 104. History of the Middle East. 4 Credits.
Surveys the Middle East from ancient to modern times. Includes political, diplomatic, economic, social, religious and cultural themes. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/ASOT-B.

HST 105. History of India and South Asia Region. 4 Credits.
Introduces the history of India and the South Asian region. Includes political, diplomatic, economic, social, religious, and cultural themes from pre-history to modern times. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/ASOT-B.

HST 106. History of China. 4 Credits.
Introduces the history of China. Includes political, diplomatic, economic, social, religious, and cultural themes from pre-history to modern times. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit Available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/ASOT-B.

HST 107. History of Korea and Japan. 4 Credits.
Explores the history of Korea and Japan and their dynamic relationship from pre-history to modern times. Includes political, diplomatic, economic, social, religious, and cultural themes. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/ASOT-B, Social Sciences/AAOT.

HST 201. History of the United States to 1840. 4 Credits.
Examines the social, political, economic and cultural developments of Colonial America through the Early Republic of the United States. Includes Native Americans pre- and post- European colonization (Spanish, French, Dutch and English); European indentured servitude and African slavery; Salem Witch Trials; Great Awakening; French and Indian War; Declaration of Independence and the American Revolution; Constitution and the Bill of Rights; Whiskey Rebellion; War of 1812; Missouri Compromise; American Indian Removal. History courses are non-sequential and may be taken in any term and in any order. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/ASOT-B, Social Sciences/AAOT.

HST 202. History of the United States 1840-1914. 4 Credits.
Examines the social, political, economic and cultural developments of the United States from 1840 to 1914. Includes: the Women’s Rights Movement, Manifest Destiny, the U.S. - Mexican War, slavery, abolitionism and the growing sectional crisis between the North and South, Abraham Lincoln and the Civil War, Reconstruction, westward migration and its impact on Native Americans, America’s overseas empire, and the Progressive Era. History courses are non-sequential and may be taken in any term and in any order. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

HST 203. History of the United States 1914 to Present. 4 Credits.
Examines the social, political, economic, and cultural developments of the United States from 1914 to the present. Includes: World War I, 19th Amendment (women’s suffrage); “roaring” 1920s; civil liberties; Great Depression; World War II, Cold War (Korea, “Red Scare,” Cuban missile crisis, Vietnam, fall of the Berlin Wall); Civil Rights movements, legislation and Martin Luther King, Jr.; The Great Society and War on Poverty; Watergate and Iran/Contra scandals; 9/11. History courses are non-sequential and may be taken in any term and in any order. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/AGS, Social Sciences/ASOT-B.

HST 204. History of Women in the U.S.: Pre-colonial to 1877. 4 Credits.
Examines the lives of women in terms of family relations, religion, culture, sexuality and reproduction, and work roles, as well as educational opportunities and social reform activities. Explores diversity in terms of class, race, ethnicity, legal status, and region. History courses are non-sequential and may be taken in any term and in any order. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

HST 205. History of Women in the U.S.: 1877 to Present. 4 Credits.
Examines women’s work in the maturing industrial economy, women’s reform activities, and changing family and social relationships. Explores class, ethnic, racial, and regional diversity. History courses are non-sequential and may be taken in any term and in any order. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/ASOT-B, Social Sciences/AGS, Social Sciences/ASOT-B, Social Sciences/AAOT.

HST 218. American Indian History. 4 Credits.
Covers history of American Indians in what is now the United States from pre-Columbian times to the present, exploring the cultural diversity among Native peoples, tribal sovereignty, conflicts and accommodations with European Americans, and the historical roots of contemporary issues that emphasize American Indians as a vital part of the shared history of the United States. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

HST 225. History of Women, Sex, and the Family. 4 Credits.
Examines the historical and cultural variations in family life and sexuality in the 19th and 20th centuries in an international context (including the United States) through topics such as courtship, marriage, reproduction, violence, colonialism, homosexuality, and work. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/AS, Social Sciences/AAOT, Social Sciences/ASOT-B, Social Sciences/ASOT-B.

HST 244. Introduction to Viking History. 4 Credits.
Introduces Viking history, culture, and society through mythology, art, sagas, warfare, politics, and conversion to Christianity. Examines Viking influence on North America, the British Isles, Continental Europe, and Russia. Covers modern conceptions of the Vikings through contemporary popular culture. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.
HST 246. Religion in the United States to 1840. 4 Credits.
Covers the basic features and effects of Native American religious revitalization movements. European backgrounds of Christian denominations, development of different religious groups, church-state relations, the struggle for religious liberty and how they shaped the beliefs, behaviors and institutions of colonial America and the early United States. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AS, Social Sciences/AAOT, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS.

HST 247. Religion in the United States since 1840. 4 Credits.
Covers basic features of native American religions, European backgrounds of Christianity, development of different religious groups in the United States and their impact on American life. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AS, Social Sciences/AAOT, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS.

HST 250. African American History to 1877. 4 Credits.
Presents a framework for understanding the Black experience from African origins to the end of Reconstruction. Includes West African cultures, the Middle Passage, the experiences of free and enslaved African Americans from the colonized African continent, post-colonial periods including the African migration. Covers African American agency through churches, political organizations, and social institutions and explores African American culture through literature, art, music, and other cultural forms. History courses are non-sequential and may be taken in any order and in any term. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

HST 251. African American History since 1877. 4 Credits.
Examines the broad range of experiences of African Americans from Reconstruction to the present. Explores the relationship of Blacks to the wider society as well as the inner dynamic of the Black communities including identity issues, key individuals and organizations in the struggle for social justice, especially the domestic and legal segregation. Devotes attention to the rural South and the urban North as Blacks used a variety of means to empower African American communities through the civil rights revolution. History courses are non-sequential and may be taken in any order and in any term. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

HST 270. History of Mexico. 4 Credits.
Surveys Mexican history from pre-Columbian to modern times. Focus on post-contact history, especially the Spanish conquest, colonial Mexico, independence and its aftermath to contemporary times. Emphasizes social, political, and cultural developments and contributions by a diversity of Mexico's peoples. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS.

HST 271. History of Central America and the Caribbean. 4 Credits.
Covers Central American and Caribbean history from the pre-Columbian era to the present. Focuses on post-contact history including colonialism, independence, revolution, nation-building and international relationships. Emphasizes social, political and cultural developments and contributions by a diversity of Central American and Caribbean peoples. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS.

HST 277. History of the Oregon Trail. 4 Credits.
Examines the history of the Oregon Trail including the predecessors of the route, the motivations of the people who used the route, the trail and its variations, life along the trail, and the impact of the migration. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

HST 278. Russian History I. 4 Credits.
Surveys the cultural, social, political, and economic forces that shaped Russian history from the ninth through the eighteenth centuries. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

HST 279. Russian History II. 4 Credits.
Surveys the cultural, social, political, and economic forces that shaped Russian history from the late eighteenth century to the present. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/AS.

HST 284. History of Africa. 4 Credits.
Examines the major themes and issues in the culture and history of the African continent, considering the rise of complex indigenous empires, smaller African societies, agricultural and technological achievements, African state systems, as well as the impact of the trade and Islam on Africa. Includes colonialism, independence, and the social, political and cultural contributions of Africa's diverse people to world history. Recommended: completion of WR 115 with a C or better grade. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

HST 285. The Holocaust. 4 Credits.
Introduces the aftermath of World War I and the rise of the Nazis, the historical roots of anti-Semitism, the evolution of the Final Solution and its coordination in Nazi-occupied Europe, the victims of Nazi policies, the camps, the perpetrators, bystanders, and the aftermath of the Holocaust. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

HON 101. Introduction to Honors: Scholarly Inquiry. 2 Credits.
Guides motivated students into the theory and practice of scholarly reading, researching, writing and presenting academic work. Students will learn to explore the serious questions of our world. The students will begin to build their Honors program portfolio of work. This course should be taken early in the student’s experience and will define a cohort of Honors students. Prepares students to succeed in multiple academic environments. Develops skills required to transfer. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and 3.25 GPA.

HON 201. Capstone Experience. 2 Credits.
Culminates Honors Program study. Formalizes development of transfer portfolio. Scaffolds completion of capstone project. Prerequisites: HON 101, WR 122, 16 credits in designated honors courses and 3.25 GPA.

HORTICULTURE
HOR 226. Plant Materials - Deciduous. 3 Credits.
Covers botanical characteristics and field identification of common landscape plants. Emphasizes cultural requirements, pests, diseases, and landscape uses of plants with a concentration on deciduous material and plants of fall interest. Audit available.

HOR 227. Plant Materials - Evergreens. 3 Credits.
Covers botanical characteristics and field identification of common landscape plants. Emphasizes cultural requirements, pests, diseases, and landscape uses of plants with a concentration on evergreen material and plants of winter interest. Audit available.

HOR 228. Plant Materials - Flowering. 3 Credits.
Covers botanical characteristics and field identification of common landscape plants. Emphasizes cultural requirements, pests, diseases, and landscape uses of plants with a concentration on flowering material and plants of spring interest. Audit available.

HOR 255. Spring Annuals and Perennials. 3 Credits.
Identification of Spring herbaceous annuals and perennials most commonly used in landscapes. Care, culture, pests, diseases, propagation and landscape use. Audit available.

HOR 272. Summer Annuals & Perennials. 3 Credits.
Covers botanical characteristics and field identification of common annuals and perennials. Emphasizes cultural requirements, pests, diseases, and landscape uses of plants with a concentration on annuals and perennials. Audit available.
COURSE DESCRIPTIONS

HOR 285. Permaculture Design. 7 Credits.
Covers principles of permaculture for both urban & rural applications and sustainable human settlements. Covers landscape analysis, ecological planning & design methods, organic food production, food security, natural soil improvement, integrated animal systems, water harvesting, conservation and management, forest gardening, techniques and design strategies. Upon completion of this course students will be awarded a Permaculture Design Certificate through the Cascadia Permaculture Institute. Audit available.

HOR 290. Introduction to Landscape Design. 3 Credits.
Basic steps and elements used in landscape design. Establishment of specific design criteria, field measurements and basic drawing techniques required in production of finished design. Audit available.

HOR 291. Landscape Design Process. 3 Credits.
Posters a critical thinking approach to landscape design. Covers methods for the use of line, proportion, color, scale and texture in the creation of landscape spaces. Includes the study of landscape architectural history and historical sites. Recommended: A total of 9 credits of HOR 226, HOR 227, HOR 228, HOR 255, HOR 272, or LAT 262. Prerequisites: HOR 200 and (HOR 226, or HOR 227, or HOR 228, or HOR 255, or HOR 272, or LAT 262). Audit available.

HUMANITIES

HUM 100. Introduction to Humanities. 4 Credits.
Introduces students to college-level study in the humanities; promotes a sense of humanity through such topics as literature, theatre, art, music, architecture, philosophy, and religion by critically thinking about moral values, myths, aesthetics, and liberty; all of this within historical frameworks. It is designed to reawaken our sense of wonder and curiosity about the meaning of life. It shows how the various arts and sciences intersect, influence and are influenced by cultural and historical circumstances. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAT, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

HUM 201. Humanities & Technology: Exploring Origins. 4 Credits.
Introduces concepts and approaches used in study of humanistic disciplines and surveys visions and perspectives that our culture has inherited from literature, philosophy, theology, visual arts, music, history, and mythology of Western and non-Western traditions. Focuses on selected historical periods and themes. Demonstrates quest for knowledge as a synthetic activity, relating various disciplines, traditions, and historical periods to each other. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAT, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

HUM 202. Humanities & Technology: Contemporary Issues. 4 Credits.
Offers critical examination of the relationship between people and technology. Uses insights derived from a study of the Humanities in conjunction with those from the Social Sciences to inquire into the appropriate use and misuse of technology in contemporary society. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAT, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

HUM 203. Humanities & Technology: Future Directions. 4 Credits.
Looks for ways in which technology can be applied in new, socially and ethically responsible forms. Recommended: Courses should be taken sequentially. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAT, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

HUM 204. History of Africa. 4 Credits.
Introduces students to some major themes in the history of the African continent from ancient times to the present. It is the first course in the Humanities sequence on Africa, and provides a wide background for subsequent courses. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAT, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

HUM 214. Race and Racism. 4 Credits.
Introduces examination of the origins and manifestations of the socially constructed concept of race. Critical theory approach is used to analyze the manner in which the concept of race has been developed and interpreted and its influence on the social, economic and political relations between ethnic groups. Emphasis on racist ideas, theories, movements and key people and events in the evolution of race-based thinking. This course includes instances of racism in Eurasia, Africa, the Americas and Australia. Audit available.

HUM 221. Leadership Development. 4 Credits.
The primary focus of the course is the development of leadership skills. It provides a basic understanding of leadership principles and group dynamics and helps students develop a personal leadership philosophy and style. The course integrates readings from classic works of literature, contemporary multicultural readings, experiential exercises and films. Issues of diversity, personal growth and interpersonal relationships are explored within the context of leadership development. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAT, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

INTEGRATED READING AND WRITING

IRW 90. Foundations of College Reading and Composition. 6 Credits.
Covers reading and writing processes, topic development, and revision for clarity. Focuses on developing flexible strategies for reading and writing, and producing clear and coherent paragraphs and essays. Emphasizes strategies for comprehension and metacognition, critical reading and thinking skills, intellectual curiosity, vocabulary development, and writing conventions. Prepares students for WR 115, RD 115, and IRW 115. Prerequisite: RD 80 and WR 80 or equivalent placement. Audit available.

IRW 115. Introduction to College Reading and Composition. 6 Credits.
Covers reading and writing processes, organization, thesis development, and revision for clarity. Focuses on critical reading as a basis for academic inquiry, exploring one’s ideas in response to texts, and developing thesis-driven essays. Emphasizes strategies for comprehension and response, critical reading and thinking skills, information literacy, adaptive reading and metacognition. Prepares students for WR 121 and other college level coursework. Prerequisites: (RD 90 and WR 90 or equivalent placement) or IRW 90 or (ESOL 263 and ESOL 262). Audit available.

INTERIOR DESIGN

ID 120. Interior Products and Materials I. 3 Credits.
Presents analysis and evaluation of materials and products utilized in the interior design profession. Focuses on the properties, cost, sustainability and installation of materials. Prerequisites: ID 131 and (WR 115 or placement into WR 121). Audit available.

ID 121. Sustainable Materials for Residential Interiors. 3 Credits.
Covers the study of the environmental impact of materials used in residential interior design. Includes analysis and evaluation of materials based on multiple types of criteria and information. Prerequisites: (WR 115 or IRW 115) and MTH 20 or equivalent placement. Audit available.

ID 122. History of Furniture-Ancient to 1800. 3 Credits.
Studies and analyzes styles of furnishings from antiquity through the 18th century. Includes contemporary usage as well as the mixing of period furniture styles. Audit available.

ID 123. History of Furniture-1800 to Present. 3 Credits.
Presents an analysis of interior design and furnishings from the 19th century to the present. Includes contemporary usage as well as the mixing of period furniture styles. Prerequisites: WR 115 or IRW 115 or placement into WR 121. Audit available.

ID 124. Introduction to Woodworking. 3 Credits.
Introduces the art and craft of woodworking. Focuses primarily on wood furniture as it relates to interior design. Covers various wood species, grain, sustainability, machining and fabrication. Includes a hands-on experience in woodworking. Open to all students. Audit available.

ID 125. Computer Drafting for Interior Designers. 3 Credits.
Introduces computer aided design software as a drafting tool for residential design. Covers creation and modification of drawings such as floor plans, elevations, furniture and lighting plans, and three-dimensional projections. Focuses on interior plans and elevations of cabinetry for kitchen/bath design, writing/calculating specifications, and how to use drawings to communicate design concepts to clients. Audit available.

ID 128. Digital Rendering and Presentation. 3 Credits.
Introduces the skills necessary for the use of computer software Photoshop and InDesign for architectural and presentation techniques. Recommended: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Prerequisites: ARCH 110 or ARCH 237. Audit available.

ID 131. Introduction to Interiors. 3 Credits.
A study of the design elements and principles as applied to interiors. Includes skill development in drawing floor plans, analyzing furniture arrangement, and basic techniques for creating interior design presentation boards including floor plans, color boards, and elevation drawings. Prerequisites/concurrent: ARCH 110. Audit available.
COURSE DESCRIPTIONS

ID 132. Planning Interiors. 3 Credits.
Covers the introduction to the principles of furniture arrangement and design of residential and commercial spaces. Prerequisites: ID 131 and (ARCH 126 or ID 125). Prerequisite/concurrent: ARCH 100. Audit available.

ID 133. Space Planning. 3 Credits.
Covers functional and aesthetic design requirements in residential space planning, kitchens and storage spaces. Relates housing aspects to needs of individuals, families, and special groups. Prerequisites: (WR 115 or IRW 115) and MTH 20 or equivalent placement, (ID 131 or ARCH 161), (ID 125 or ARCH 126), ARCH 110, ARCH 124, and ARCH 132. Prerequisite/concurrent: ARCH 100. Audit available.

ID 135. Professional Practices for Designers. 3 Credits.
Covers the business administration of the interior design profession. Includes topics on ethics, contracts, licensing, ordering, client designer relationships, costs, billing structures, and legal considerations. Prerequisites: ID 120 or ID 121. Audit available.

ID 138. Introduction to Kitchen and Bath Planning. 3 Credits.
Covers the design process of kitchen and bath planning, and chronicles the kitchen and bath planning process from conceptual design to construction completion. Prerequisites: ID 131 and (ID 125 or ARCH 126). Audit available.

ID 224. Furniture Studio I. 3 Credits.
Continues the art and craft of woodworking focusing on skills and knowledge gained. Encourages individuals to focus their work using a designer and maker perspective. Develops knowledge and skills of fine furniture fabrication which complements interior design and other creative professions. Prerequisite: ID 124 or instructor approval. Audit available.

ID 230. Textiles for Interiors. 3 Credits.
Covers knowledge and critical thinking skills required for the identification, selection, usage, and care of textile products. Prerequisite: ID 131. Audit available.

ID 232. Business Communication for Interior Design. 3 Credits.
Outlines the importance of persuasive communication in matters of sales, client management and project coordination. Covers product sourcing, business taxes, and budgeting. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and ID 131, ID 135, and ID 236.

ID 234. Advanced Interiors. 3 Credits.
Offers a capstone experience to prepare for transition to the field of interior design. Requires the development of an individual self-led design project. Prerequisites: ID 120, ID 121, ID 122, ID 123, ID 132, ID 133, ID 138, ID 230, ARCH 111, ARCH 121, ARCH 127. Prerequisite/concurrent: ID 135, ID 236. Audit available.

ID 236. Lighting Design. 3 Credits.
Covers interior lighting as it relates to residential interiors. Includes terminology, lamps, fixtures, cost factors, developing lighting plans, design techniques and energy saving concerns. Prerequisites: (ID 131 or ARCH 201) and (ID 125 or ARCH 126), and placement into WR 121. Audit available.

ID 238. Advanced Kitchen and Bath Planning. 3 Credits.
Incorporates advanced understanding of design principles and elements to analyze and evaluate functionality and aesthetic principles for residential kitchen and bath planning. Includes Universal Design as it relates to the kitchen and bath and incorporates an advanced understanding of the guidelines as established by the National Kitchen and Bath Association. Prerequisites: (ID 138 or BCT 229) and ARCH 132. Audit available.

ID 280A. Cooperative Education: Kitchen and Bath. 2-6 Credit.
Work or observe on approved job sites. Student receives as varied and complete an experience as possible under job conditions. Credits are variable and based on the number of clock hours students spend on job site. Must be coordinated with the supervisor, instructor, and cooperative education specialist. Department permission required. Audit available.

INTERNATIONAL STUDIES

INTL 201. Introduction to International Studies. 4 Credits.
Examines themes such as geography, history, culture, economics, politics and religion from global and interdisciplinary perspectives. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AOAT.

ITALIAN

ITAL 101. First year Italian - First Term. 4 Credits.
Beginning communication in Italian. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary and culture. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

JAPANESE

JPN 101. First Year Japanese. 5 Credits.
Introduces Japanese language and culture. Emphasizes effective communicative skills in written and spoken language. Examines the practice, product and perspective of Japanese culture. The first course of a three-course sequence. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

JPN 102. First Year Japanese. 5 Credits.
Introduces Japanese language and culture, emphasizing effective communicative skills in written and spoken language. Includes the practice, product and perspective of Japanese culture. The second course of a three-course sequence. Prerequisite: JPN 101 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

JPN 103. First Year Japanese. 5 Credits.
Continues the introduction of Japanese language and culture, emphasizing effective communicative skills in written and spoken language. Expands the practice, product and perspective of Japanese culture. The third course of a three-course sequence. Prerequisite: JPN 102 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

JPN 112C. First Year Japanese Conversation. 1 Credit.
Provides further practice of structures and vocabulary of first year Japanese in a conversational format. Recommended: Concurrent enrollment in JPN 151 or instructor permission. Audit available.

JPN 113C. First Year Japanese Conversation. 1 Credit.
Provides extended practice for better understanding of the materials presented in JPN 103. Recommended: Completion of JPN 102 or instructor permission. Corequisite: JPN 103. Audit available.

JPN 201. Second Year Japanese. 5 Credits.
Reviews and continues study of Japanese language and culture, emphasizing effective communicative skills in written and spoken language. Examines new practices, products and perspectives of Japanese culture. The first course of a three-course sequence of second-year Japanese. Prerequisite: JPN 103 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

JPN 202. Second Year Japanese. 5 Credits.
Expands study of Japanese language and culture, emphasizing effective communicative skills in written and spoken language. Examines new practices, products and perspectives of Japanese culture. The second course of a three-course sequence of second-year Japanese. Prerequisite: JPN 201 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT.

JPN 203. Second Year Japanese. 5 Credits.
Continues study of Japanese language and culture, emphasizing effective communicative skills in written and spoken language. Expands practices, products and perspectives of Japanese culture. The third course of a three-course sequence. Prerequisite: JPN 202 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/ASOT.

JPN 211B. Intermediate Japanese Conversation. 2 Credits.
Provides practice of structures and vocabulary of second year Japanese in a conversational format. Recommended: Concurrent enrollment in JPN 250 or instructor permission. Audit available.

JPN 211C. Intermediate Japanese Conversation. 1 Credit.
Provides further practice of structures and vocabulary of second year Japanese in a conversational format. Recommended: Concurrent enrollment in JPN 201 or instructor permission. Audit available.

JPN 212B. Intermediate Japanese Conversation. 2 Credits.
Designed to provide extended practice for better understanding of the materials presented in JPN 202. Recommended: Completion of JPN 201 or JPN 250 or concurrent enrollment in JPN 251 or instructor permission. Audit available.
JPN 212C. Intermediate Japanese Conversation. 1 Credit.
Provides advanced practice of structures and vocabulary of second year Japanese in a conversational format. Recommended: Concurrent enrollment in JPN 202 or JPN 251, or instructor permission. Audit available.

JPN 213B. Intermediate Japanese Conversation. 2 Credits.
Designed to provide extended practice for better understanding of the materials presented in JPN 203. Recommended: Completion of JPN 202 or instructor permission. Audit available.

JPN 250A. Japanese Culture. 3 Credits.
Introduces Japanese traditional and modern culture and society through analysis of cultural, historical and social issues through media product and literary work. Explores concepts such as family, social roles, friendship, pop culture, morality, philosophies, economics and more. Course conducted in English. Japanese materials are subtitled in English. Prerequisites: (WR 115 and RD 115) or IRW 115 or MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

JPN 251A. Japanese Culture. 3 Credits.
Introduces Japanese traditional and modern culture and society through analysis of cultural, historical and social issues by media product and literary work. Explores concepts such as self-identity, Japanese views of the West, gender roles, perspectives on death and more. Course conducted in English. Japanese materials are subtitled in English. Prerequisites: (WR 115 and RD 115) or IRW 115 or MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

JPN 252A. Japanese Culture. 3 Credits.
Introduces Japanese traditional and modern culture and society through analysis of cultural, historical and social issues by media product and literary work. Explores concepts such as imperialistic past, neo-nationalism, cultural pride, modern social issues, marriage, religions and more. Course conducted in English. Japanese materials are subtitled in English. Prerequisites: (WR 115 and RD 115) or IRW 115 or MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

LANDSCAPE TECHNOLOGY
LAT 101. Introduction to the Landscape Industry. 2 Credits.
Introduces the landscape industry and related professions through guest speakers and field trips. Provides an opportunity to learn directly from industry professionals about the many career pathways available. Audit available.

LAT 102. Plant Establishment and Maintenance. 3 Credits.
Introduces industry standards for the selection, establishment and maintenance of landscape plants. Covers selection, planting, watering, fertilizing, pruning and maintenance of landscape plants. Provides hands-on experience with plant establishment and maintenance. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

LAT 103. Beekeeping. 2 Credits.
Introduces current standards for the establishment and management of bees. Covers bee biology and beekeeping skills through hands on experience in active bee hives. Audit available.

LAT 104. Pesticides. 3 Credits.
Covers federal and Oregon pesticide laws, safety, application equipment, types of pesticides and alternatives to pesticides. Includes basic information for use in preparation for state pesticide certification. Credit is accepted towards recertification of valid Oregon pesticide license. Audit available.

LAT 106. Basic Horticulture. 4 Credits.
Botany and biology of plant physiology. Plant growth and reaction to nutrients, light, air, water, pests, and diseases. Audit available.

LAT 108. Landscape Irrigation I. 3 Credits.
Covers propagation techniques in hardwood, softwood and conifer cuttings; budding and grafting; layering; division; seed sowing; as well as an overview of propagation facilities, irrigation and pest control. Audit available.

LAT 110. Grounds Maintenance. 3 Credits.
Covers operational procedures, materials, safety, tools and equipment. Emphasizes industry standards for scheduling monthly, seasonal, and yearly approach to maintenance operations. Uses hands-on, practical field experience to demonstrate principles. Audit available.

LAT 111. Landscape Construction Practices. 3 Credits.
Basic materials, safety, equipment and techniques used in the construction of landscapes. Basic tool and hardware identification and use in fences, decks, hardscapes, planters and retaining walls. Hands-on projects in wood, concrete, stone, and modular pavers. Audit available.

LAT 112. Vegetated Private Water Quality Facilities Management. 1 Credit.
Covers the purpose and function of vegetated private water quality facilities (VPWQF), inspections, and management. Includes the skills and knowledge required to be listed as a Preferred Maintenance Contractor on the Clean Water Services website.

LAT 115. Tool and Equipment Safety, Operation and Maintenance. 3 Credits.
Introduces common tools and equipment used in the landscape industry. Covers safe operation and maintenance of common landscape tools and equipment. Provides the opportunity for hands-on experience with tools and equipment. Audit available.

LAT 211. Landscape Construction Practices II. 3 Credits.
Covers in-depth, the use of tools, equipment, materials (e.g. wood, pavers, stone, concrete) and advanced techniques for the construction and installation of hardscape features. Includes, hands-on projects in pathways, wood construction and retaining walls. Recommended: LAT 236. Audit available.

LAT 214. Plant Composition I. 3 Credits.
Covers aspects of plant arrangement in landscape projects with emphasis on plant use, styles of planting, color, texture, form and scale. Recommended: A total of 3 credits of LAT 226, LAT 227, LAT 228, LAT 229, LAT 262. Prerequisites: HOR 200 and (HOR 226, or HOR 227, or HOR 228, or HOR 255, or HOR 272, or LAT 262). Audit available.

LAT 217. Landscape Drafting. 3 Credits.
Introduces basic drafting skills and layout techniques to produce quality design drawings. Includes drafting equipment, linework, lettering and drafting shortcuts.

LAT 219. Landscape Illustration. 3 Credits.
Covers basic principles of graphic presentation for landscape design. Includes perspectives, isometric drawing, botanical drawings and plan renderings. Audit available.
LAT 223. Site Surveying and Analysis. 3 Credits.
Introduces basic surveying techniques to landscape sites. Includes topographic maps and land divisions. Covers measuring, recording, and interpreting site information needed in the design and construction of landscapes. Prerequisite: LAT 236 or department permission. Audit available.

LAT 224. Grading and Drainage. 3 Credits.
Covers the interpretation of design documents to lay out grading and drainage projects. Includes the design and installation of drainage elements per site requirements. Introduces tools and methods for grading landscape sites based on design documents and field measurements. Prerequisites: LAT 236 and LAT 223, or instructor permission. Audit available.

LAT 225. Water Gardens. 3 Credits.
Covers layout and construction of water features. Introduces hands-on techniques for site development, use of liners, equipment and plumbing, placement of rock and plants, and criteria for selection of water plants and fish. Audit available.

LAT 232. Landscape Irrigation II. 4 Credits.
Information and calculations needed to layout and draw irrigation plans for conventional spray and drip systems. Irrigation controller programming and auditing. Prerequisites: LAT 106, LAT 236; or department permission. Audit available.

LAT 235. Tree Care-Fall. 3 Credits.
Principles and practices of modern arboriculture (tree work). Tree biology, basic rope work, climbing with rope and saddle, diseases and pests, and urban forestry issues. Audit available.

LAT 236. Landscape Math. 3 Credits.
Covers math skills (arithmetic, geometry and basic algebra) necessary to solve problems common to the landscape industry such as business, hydraulic, construction, volume, area pesticide rate and fertilizer rate problems. Recommended: MTH 60. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

LAT 240. Tree Care. 3 Credits.
Introduces principles and practices of modern arboriculture (tree care). Covers cabling and bracing, fertilization, tree appraisals, construction protection, hazard tree management and pruning. Audit available.

LAT 241. Turfgrass Cultural Practices. 3 Credits.
Planting and maintenance techniques for specific types of turf, soil preparation, selection and application of fertilizers, equipment use for mowing, thatching, aeration and edging, pest control, and budgeting for costs. Audit available.

LAT 243. Landscape Business Operations. 3 Credits.
Requirements for beginning and operating a landscape/horticultural business. Licensing requirements, basic bookkeeping systems, insurance, liability and legal requirements, state regulations, marketing, and promotional ideas. Audit available.

LAT 250. Plant Diseases, Insects and Weed Identification. 3 Credits.
Covers the identification of common diseases, insects and weeds that affect the normal development of horticultural plants and associated controls. Qualifies for 15 hours of recertification for State of Oregon Pesticide Certification. Audit available.

LAT 256. Sustainable Landscape Management. 3 Credits.
Provides the opportunity to put landscape technology skills to use on a real-world landscape design/installation project in a team setting. Promotes the application and further development of learned skills and techniques in landscape technology program. Improves team-work, organization and project management skills. Must be in the last term of their program. Prerequisites: Instructor approval required. Audit available.

LAT 272. Sustainable Landscaping. 3 Credits.
Discusses methods used to protect and conserve natural systems and resources within the landscape. Deals with the health of people, plants and the environment and looks at new approaches to landscaping. Recommended: WR 115. Audit available.

LAT 273. Sustainable Landscape Water Management. 3 Credits.
Covers the analysis, planning, construction and management of bioswales, greenstreets, raingardens, greenwalls, greenroofs, rainwater harvesting operations and greywater systems. Includes planning and construction of a typical water management facility. Recommended: LAT 111, LAT 236, LAT 223, LAT 272, second year status. Audit available.

LAT 275. Introduction to Landscape Night Lighting. 3 Credits.
Introduces landscape low voltage night lighting. Covers electricity fundamentals, layout, bulbs and fixtures, transformers, wire sizing and connections, and lighting design. Includes installing a night lighting system. Audit available.

LAT 276. Employment & Careers in the Landscape Industry. 2 Credits.
Provides an overview of Landscape industry career fields available and the necessary job search skills to be competitive in the marketplace. Includes development or refinement of job search materials, applications, resumes, cover letters, portfolios, interview skills, informational interviews and social media presence. Must be enrolled in a second year of an LAT degree program. Prerequisites: Instructor approval required. Audit available.

LAT 277. Landscape Technology Capstone. 3 Credits.
Provides the opportunity to put landscape technology skills to use on a real-world landscape design/installation project in a team setting. Promotes the application and further development of learned skills and techniques in landscape technology program. Improves team-work, organization and project management skills. Must be in the last term of their program. Prerequisites: Instructor approval required. Audit available.

LAT 279. Computer Aided Landscape Design II. 3 Credits.
Continues the exploration of computer aided design techniques introduced in LAT 271, Computer Aided Design. Explores more advanced techniques and broader understanding and fluency in CAD usage. Covers the application of CAD skills to landscape design challenges. Prerequisite: LAT 271. Audit available.

LAT 280A. Cooperative Education: Landscape. 1-10 Credit.
Actual work experience at approved job sites or on Rock Creek grounds. Department permission required.

LAT 280C. Cooperative Work Experience- Landscape Design. 3 Credits.
Actual landscape design work experience for approved clients utilizing a required set of learning outcomes. Department permission required.

LIB 101. Library Research and Beyond: Find, Select and Cite. 1 Credit.
Introduces the research process and essential research skills to find, select and cite the best information. Teaches identification of research topics, planning and carrying out the research process, and identifying and citing preferred sources of credible information. Prerequisite: Placement into WR 115. Audit available.

LIB 127. Library Research and Information Literacy. 1 Credit.
Covers the research process and research skills in specific disciplines. Focuses on refining a research topic, planning and carrying out the research process, and identifying and citing preferred sources of credible information. Prerequisite: Placement into WR 115. Audit available.

MCH 100. Machine Tool Basics. 1 Credit.
Provides an overview in utilizing the Machinery's Handbook, safe work practices, safe clothing for personal safety, fire prevention in the shop, and hand tool safety. Audit available.

MCH 101. Occupational Health and Safety. 3 Credits.
Introduces the concepts of industrial health and safety regulations, accident causation, and job related safety issues. Requires completion of a Red Cross First Aid course at additional expense to the student. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Prerequisite/ concurrent: MCH 100. Audit available.

MCH 102. Introduction to Manufacturing. 3 Credits.
Technical elective course in the Associate of Applied Science Degree in the Machine Manufacturing Technology program. Covers an introduction to the manufacturing technology discipline. Prerequisite: MCH 100. Audit available.

MCH 105. Blueprint Reading I. 1.5 Credit.
Covers concepts in machine shop blueprint reading including multi-view projection, sectional and auxiliary views, title block content, and drawing formats, formats which are the basis for most graphical communication of a part attributes in industry today. Audit available.
COURSE DESCRIPTIONS

MCH 110. Blueprint Reading II. 1.5 Credits.
Covers dimensions, notes, threads, keys and fasteners, and spur gear terminology. Provides instruction in the interpretation of feature size, shape, location, special tolerances, finish treatments and assembly instructions. Prerequisites: MCH 105. Audit available.

MCH 115. Geometric Dimensioning and Tolerancing. 3.5 Credits.
Covers the use of geometric dimensioning and tolerancing as specified by the American Society of Mechanical Engineers in specification ASME Y14.5-2009. Introduces the symbols, concepts and basic use of these techniques for dimensioning and tolerancing used in industry today. Prerequisites: MCH 105, MCH 110. Audit available.

MCH 120. Machine Shop Math. 2 Credits.
Covers instruction and practice in working with whole numbers, fractions, decimals, formulas, inch and metric systems, formulas, calculating simple and direct indexing. Introduces how to apply the use of the inch/metric systems, dividing/index head and formulas as they pertain to thread calculations, gear calculations, speed and feed calculations, and taper calculations. Prerequisite: MCH 100. Audit available.

MCH 121. Manufacturing Processes I. 4 Credits.
Introduces material removal operations emphasizing basic part layout, drilling, manual milling and manual lathe processes with an emphasis on production speeds and feeds. Audit available.

MCH 123. Sheet Metal Fabrication. 4 Credits.
A technical elective course in the Associate of Applied Science Degree in the Machine Manufacturing Technology program. An introductory course in the setup and operation of manual sheet metal machinery. Prerequisite: MCH 100. Audit available.

MCH 125. Speeds and Feeds. 1 Credit.
Covers how to calculate proper cutting speeds, revolutions per minute (RPM) and feeds for various machine tools and cutting conditions. Introduces how accurately calculating speeds and feeds prior to cutting on the work piece will save time, money, and avoid the waste of materials and tools. Prerequisite: MCH 100. Audit available.

MCH 130. Machine Shop Trigonometry. 2.5 Credits.
Introduces the rules, methods and procedures for using trigonometry formulas that deal with both the sides and the angles of the right triangle and oblique triangle to solve for the unknown parts. Prerequisite: MCH 100. Audit available.

MCH 135. Basic Measuring Tools. 1.5 Credit.
Covers use and applications associated with basic measuring tools including: the machinist’s scale, dividers, telescoping gage, combination square, hermaphrodite caliper, surface gage, surface finish gage. Introduces the proper techniques and applications of the basic transfer measurement and comparison tools in measuring holes accurately, scribing parallel lines, finding the center of round stock, determining the factors which contribute to the quality of surface finish, and practice in identifying surface finishes. Prerequisite: MCH 100. Audit available.

MCH 145. Layout Tools. 1.5 Credit.
Covers instruction and practice of precision measurement with tools commonly used by the machinist to produce and measure part features. This course introduces the proper use, applications and parts of the outside, inside, and depth micrometers; the vernier caliper; dial indicators; and the dial bore gage commonly used by the machinist to verify and manufacture part features to print specifications. Prerequisite: MCH 100. Audit available.

MCH 157. Project Machine Technology I. 1.5 Credit.
Designed to allow students the opportunity to customize or select various individual modules from within the Machine Manufacturing Technology program offerings. Audit available.

MCH 158. Project Machine Technology II. 3 Credits.
Designed to allow students the opportunity to customize or select various individual modules from within the Machine Manufacturing Technology program offerings. Audit available.

MCH 159. Project Machine Technology III. 4.5 Credits.
Designed to allow students the opportunity to customize or select various individual modules from within the Machine Manufacturing Technology program offerings. Audit available.

MCH 160. Drilling Machines and Operations. 2 Credits.
Covers setup, applications, parts and operation of the sensitive, upright and radial arm drill presses. Introduces commonly performed operations of drilling, reaming, counterboring, countersinking, spot facing and tapping on various types of drilling machines used to produce part features to print specifications. Prerequisites: MCH 100, MCH 121, MCH 125, MCH 135. Audit available.

MCH 175. Band Saws. 1 Credit.
Covers setup, applications, parts and operation of the vertical, and horizontal band saws and the selection/preparation of band saw blades. Introduces the skill of welding band saw blades and the common cutting operations performed on the vertical/horizontal to manufacture parts to print specifications. Prerequisite: MCH 100. Audit available.

MCH 180. Turning Machines and Operations. 4 Credits.
Covers setup, applications, parts and operation of various types of lathes. Introduces the commonly performed operations of drilling, reaming, counterboring, countersinking, spotfacing, tapping, maintaining/aligning, parallel turning, facing, filing, knurling, grooving, cutting radii, cutting tapers, and parting on various types of turning machines used to produce part features to print specifications. Prerequisites: MCH 100, MCH 121, MCH 125. Audit available.

MCH 190. Boring on the Lathe. 1 Credit.
Covers setup, applications and operation of boring on the lathe. Introduces the commonly performed operation of boring on the various types of turning machines used to produce part features to print specifications. Prerequisites: MCH 100, 125, 180. Audit available.

MCH 195. Threading on the Lathe. 3 Credits.
Covers setup, applications and operation of single point threading and geometric forming heads for the production of single and multiple lead threads. Introduces cutting, chasing, rolling and forming production of single and multiple lead threads. Also covers cutting, chasing, rolling and forming of internal/external threads on the lathe and drill press by using a single point cutting tool, tap or geometric thread cutting/rolling head on nuts, bolts, fasteners, castings and machined parts to print specifications. Prerequisites: MCH 100, 180, 190. Audit available.

MCH 205. Vertical Milling Machines and Operations. 3.5 Credits.
Covers setup, application and operation of the vertical milling machine. Introduces the commonly performed operations and uses of a variety of cutters, accessories, indicators, center/edge finder, clamping methods, squaring a block of material on all 6 sides, finding the edge of a workpiece, drilling/ threading a hole, performing circular cutting operations, using the boring head to bore holes on manufactured parts to print specifications. Prerequisites: MCH 100, MCH 121, MCH 125. Audit available.

MCH 210. Project Machine Technology IV. 6 Credits.
Designed to allow students the opportunity to customize or select various individual modules from within the Machine Manufacturing Technology program offerings. Audit available.

MCH 211. Project Machine Technology V. 7.5 Credits.
Designed to allow students the opportunity to customize or select various individual modules from within the Machine Manufacturing Technology program offerings. Audit available.

MCH 212. Project Machine Technology VI. 9 Credits.
Designed to allow students the opportunity to customize or select various individual modules from within the Machine Manufacturing Technology program offerings. Audit available.

MCH 213. Project Machine Technology VII. 10.5 Credits.
Designed to allow students the opportunity to customize or select various individual modules from within the Machine Manufacturing Technology program offerings. Audit available.

MCH 214. Project Machine Technology VIII. 12 Credits.
Designed to allow students the opportunity to customize or select various individual modules from within the Machine Manufacturing Technology program offerings. Audit available.

MCH 215. Horizontal Milling Machines. 2.5 Credits.
Covers setup, applications and operation of the horizontal milling machine. Introduces how to set-up horizontal milling machine and saw a slot in a piece of steel, use the indexing head to cut keyways and keyseats, use the Dividing Head to cut a gear, the basic function and uses of a jig or fixture to produce machined parts to print specifications. Prerequisites: MCH 100, 125, 205. Audit available.
MCH 222. Coordinate Measuring Machine Operation. 2 Credits.
A technical elective course in the Associate of Applied Science Degree in the Machine Manufacturing Technology program. Covers the roles and types of CMMs; modes of operation; types of probes; CMM software; measuring features; alignments and reverse engineering (digitizing). Prerequisite: MCH 115. Audit available.

MCH 225. Surface Grinding Machines and Operations. 2 Credits.
Covers the setup, applications and operation of the horizontal spindle/ reciprocating table surface grinder to produce parts to extremely close tolerances with improved surface finishes and accuracy. Introduces automatic grinding operation by grinding a block square/parallel and perpendicular by applying the required setups and operational sequencing, and grinding of angular surfaces on a work piece to print specifications. Also introduces grinding wheels and abrasives, selecting, balancing and mounting the grinding wheel and the methods/machines of surface grinding. Prerequisite: MCH 100. Audit available.

MCH 227. CNC Grinder Operation. 2.5 Credits.
A technical elective course in the Associate of Applied Science Degree in the Machine Manufacturing Technology program. A preparatory course designed to introduce the operation of the Computer Numerical Controlled Surface Grinder including proper setups, uses and operations associated with the CNC surface grinding machine and its accessory devices. Prerequisite: MCH 226. Audit available.

MCH 228. Abrasives. 1.5 Credit.
A technical elective course in the Associate of Applied Science Degree in the Machine Manufacturing Technology program. Covers the different types of abrasives available, selection and their applications. Prerequisite: MCH 215. Audit available.

MCH 229. Rapid Prototyping. 5 Credits.
Introduces different additive manufacturing technologies and their application. Includes training on the proper set up and operation of a Fused Deposition Modeling (FDM) additive manufacturing machine. CAD solid modeling experience required. Prerequisite: Instructor approval required. Audit available.

MCH 235. Tool Sharpening. 2 Credits.
Covers sets up, applications and specifications of tool sharpening/reconditioning utilizing the universal tool and cutter grinder, the drill pointer and bench grinder. Introduces the sharpening of drill bits, lathe tools, end mill sides/ends, milling cutters, and various formed relieved cutters, reamers and taps to manufacturers specifications. Prerequisite: MCH 100. Audit available.

MCH 240. Cutting Tool Technology. 2 Credits.
Covers types, setup, applications and specifications of cutting fluids and cutting tools. Introduces why the selection of the appropriate cutting tools and cutting fluids are essential in metal cutting operations to reduce the heat and friction produced during material removal operations and how the selection, setup and applications affect the quality, accuracy, efficiency and productivity of the workplace produced. Prerequisite: MCH 100. Audit available.

MCH 245. Metallurgy. 2.5 Credits.
Covers the manufacture, types, heat treatment, testing, machinability, properties and the physics of materials and material removal of ferrous and non-ferrous materials. Introduces the processing of materials to obtain the desired changes in its physical properties, the non-destructive and destructive testing of materials, the machinability of materials and the efficiently/requred knowledge of the metal to be cut, but also how the cutting tool material and its shape will perform under various machining conditions. Prerequisite: MCH 100. Audit available.

MCH 259. CNC Programming-Lathe. 5 Credits.
Introduces the basic programming skills used with Fanuc (G&M compatible) controlled CNC turning centers. Prerequisites: MCH 100, 110, 125, 130, 160, 205. Audit available.

MCH 262. CNC Conversational Controls. 2 Credits.
Covers basics of CNC Conversational Controls. Introduces the student to CNC conversational controls and the flow of CNC conversational programming. Prerequisite: MCH 260, 261. Audit available.

MCH 263. CNC Cycle Time Reduction. 1.5 Credit.
Covers concepts associated with CNC cycle time reduction. Covers proven methods for CNC setup time reduction, and CNC cycle time reduction. Prerequisite: MCH 260, 261. Audit available.

MCH 266. Advanced CNC Programming. 3.5 Credits.
Presented by means of audio visual presentations, demonstrations, lab experiences, and research activities. Emphasizes the development of skills and knowledge competencies prescribed by business and industry performance standards. Prerequisite: MCH 260, 261. Audit available.

MCH 268. CNC Programming-Mill. 5 Credits.
Introduces basic programming skills used with Fanuc (G&M compatible) controlled CNC machining centers. Prerequisites: MCH 100, 110, 125, 130, 160, 205. Audit available.

MCH 272. Mastercam Level I. 5 Credits.
Introduces Mastercam operational basics. Includes terminology relevant to PC-based CAD/CAM work. Covers the use of the Mastercam menu structure and system management, 2 1/2 axis wireframe geometry creation, and toolpath creation for output of CNC “G” code for CNC milling. Audit available.

MCH 273. Mastercam Level II. 5 Credits.
Construct advanced geometric models using geometric, free form, and derived surface types. Emphasizes on surface creation and mathematical category, applicability, association, Open-GL, shading and curves, C-hooks, terminology and analyzing. All aspects of roughing and finishing are covered with focus on correct application and use of parameters. Includes mill/tune machining conventions, C-axis programming, tool libraries and solid toolpath verification. Audit available.

MCH 276. Mastercam Solids. 3 Credits.
A continuation of the CAD/CAM curriculum and explores the solids application of Mastercam as it pertains to model design and toolpath generation. Audit available.

MCH 277. Mastercam CNC/CAM Project. 3 Credits.
A continuation of the CAD/CAM curriculum. Purpose of course is to solidify the connection between Mastercam and the CNC Machine through the physical manufacturing of projects. Audit available.

MCH 278. CNC Operation - Mill. 4 Credits.
Introduces basic operation and setup skill used with Fanuc (G&M compatible) controlled CNC machining centers. Prerequisite: MCH 268. Audit available.

MCH 279. CNC Operation - Lathe. 4 Credits.
Introduces basic operation and setup skill used with Fanuc (G&M compatible) controlled CNC turning centers. Prerequisite: MCH 259. Audit available.

Provides an opportunity to work at a manufacturing site. Requires applying the skills learned in the Machine Manufacturing Technology (MMT) program to manufacture real world parts and products. Department permission is required. Offered for one to eight credits based upon the number of clock hours completed at the work site. One credit equals 30 hours of work. Prerequisites: MCH 121 and completion of at least 12 credits of MMT coursework. Audit available.

MCH 282. CNC Router Operation. 3 Credits.
Introduces the basic operation and setup skills used on a computer numerical controlled (CNC) router. Requires an understanding of common CNC mill or CNC router “G” code that operates these machines. Prerequisite: Instructor approval required. Audit available.

MCH 283. CNC Router Mastercam Programming. 3 Credits.
A technical elective course in the Associate of Applied Science Degree in the Machine Manufacturing Technology program. This is a preparatory course in CAD/CAM designed to introduce personal computing and the operational basics of Mastercam Router required to produce a CNC manufactured part. Prerequisite: MCH 282. Audit available.

MCH 286A. Technical Skill Assessment in Manual Machining. 3 Credits.
Covers the application of learned skillsets acquired in the coursework leading to the one-year certificate in manual machining. Includes a hands-on manual machining project which incorporates, but is not limited to, blueprint reading, feeds and speeds, shop math, precision measurement, manual milling, turning, and grinding. Prerequisites: MCH 110, 121, 127, 130, 195, MCH 205, MCH 225. Audit available.

MCH 287A. Technical Skill Assessment in CNC Turning. 3 Credits.
Tests the learned skill sets acquired in the coursework leading to the One-Year Certificate in CNC Turning. Requires a hands-on machining project which incorporates blueprint reading, feeds and speeds, shop math, precision measurement, manual lathe, manual mill, manual CNC lathe programming, and CNC lathe turning. Prerequisite: MCH 121 and MCH 279. Audit available.

MCH 288A. Technical Skill Assessment in CNC Milling. 3 Credits.
Tests the learned skill sets acquired in the coursework leading to the One-Year Certificate in CNC Milling. Incorporates blueprint reading, feeds and speeds, shop math, precision measurement, manual lathe and mill, Mastercam CNC programming, and CNC milling. Prerequisites: MCH 121, MCH 272 and MCH 278A. Audit available.
MCH 290. Mastercam Fundamentals. 1 Credit.
Introduces to use of Mastercam CAD/CAM software for community members, engineering, and art students to acquire skills to access additional technology in manufacturing labs, such as CNC machines, additive type RP machines, and laser systems. Create wireframe and limited solid geometry, and output of CNC code as well as STL and DXF formatted files. Audit available.

MCH 291. Laser Cutting and Engraving Fundamentals. 1 Credit.
Introduces how to setup and operate a laser engraving machine using CorelDraw software as the print driver. Includes time for student project work. Audit available.

MCH 292. FDM Additive Manufacturing Fundamentals. 1.5 Credit.
Introduces how to setup, operate, and maintain a Fused Deposition Modeling (FDM) machine using support material, to manufacture prototype or production parts. Requires individuals to prototype a design of their choice using up to five cubic inches of material. Requires CAD solid modeling experience and access to a CAD system that outputs .STL formatted file. Prerequisite: Instructor approval required. Audit available.

MCH 293. CNC Router Fundamentals Orientation. 1 Credit.
Introduces set up and operation of a CNC router to manufacture a simple project. Explores CNC router application, and can be a fundamentals class for engineering and art students, and others to acquire skills to create objects of their own design. Students must be proficient at CNC ‘G’ code for milling or router applications prior to taking the course. Prerequisite: Instructor approval required. Audit available.

MCH 294. 3 Dimensional Digital Laser Scanning Fundamentals. 1.5 Credit.
Introduces an understanding of how to setup and use a NexEngine brand 3 dimensional digital laser scanner and to output data for CAD use. Exploration of the machines application, or as a fundamentals class for engineering and art students and others to acquire skills to re-engineer objects of their own design. Students must be proficient at basic computer operational skills literacy and have an understanding of CAD solid modeling. Audit available.

MCH 296A. Rhino CAD Level 1. 2 Credits.
Introduces the features and functionality of Rhinoceros (Rhino), a NURBS modeler. Covers common commands and drawing capabilities of Rhino, including design, model editing, model properties, graphic rendering techniques, and creation of 2D drawings. Explores both 2D and 3D modeling techniques using curves, solids, and surfaces. Audit available.

MCH 297A. Rhino CAD Level 2. 2 Credits.
Covers advanced commands and drawing capabilities of Rhino, including design, model editing, model properties, graphic rendering techniques, and creation of 2D drawings. Explores both 2D and 3D modeling techniques using curves, solids, and surfaces. Prerequisites: MCH 296A Rhino CAD Level 1 or instructor approval. Audit available.

MAGNETIC RESONANCE IMAGING

MRI 101. MRI Physics I - Principles, Equipment & Safety. 2 Credits.
Introduces Magnetic Resonance Imaging theory and application, patient care, MR safety, Imaging procedures, data acquisition and processing and the physical principles of image formation. Department permission is required.

MRI 102. MRI Physics II - Advanced Principles. 2 Credits.
Continues Magnetic Resonance Imaging theory and application, patient care, MR safety, Imaging procedures, data acquisition and processing and the physical principles of image formation. Department permission required. Prerequisite: MRI 101.

MRI 111. MRI Cross-Sectional Anatomy I. 2 Credits.
Introduces the normal appearance of anatomical structures of the head, soft tissue neck, spine and lower extremity in normal planes. Enables students to differentiate between normal and abnormal anatomical structures. Primary focus is MR appearance of anatomy but includes correlation with anatomical drawings and CT anatomy. Department permission is required.

MRI 112. MRI Cross-Sectional Anatomy II. 1 Credit.
Introduces the normal appearance of anatomical structures of the upper extremity, chest, abdomen and pelvis in normal planes. Enables students to differentiate between normal and abnormal anatomical structures. Primary focus is MR appearance of anatomy but includes correlation with anatomical drawings and CT anatomy. Department permission required. Prerequisite: MRI 111.

MRI 130. MRI Imaging Procedures and Diagnosis. 2 Credits.
Correlates and compares the normal appearance of anatomy in all body sections with pathologic findings. Discussion to include comparisons of T1 vs T2 imaging techniques as they correlate to imaging protocols and diagnosis. The pathology section of the course is designed to give the student an in depth consideration of disease processes. Special equipment, fat suppression and coil considerations will be discussed in all sections. The role of contrast agents in diagnosis will be discussed in all sections. Department permission required. Prerequisite: MRI 102, MRI 112, MRI 272.

MRI 140. MRI Registry Review. 1 Credit.
Provides a comprehensive review of patient care, imaging procedures, data acquisition and processing and physical principles of image formation for magnetic resonance imaging. Department permission required. Prerequisite: MRI 102, MRI 112, and MRI 272.

MRI 271. MRI Clinical I. 6 Credits.
Provides clinical education experience in an affiliated hospital Magnetic Resonance Imaging Department under the supervision of a Registered MR Technologist and Radiologist. Includes application of equipment manipulation and operation, MR imaging procedures, MR safety, medicolegal and ethical protocol, record keeping and patient care. Requires clinical competencies, objectives, performance assessment and attendance. The student will learn the necessary skills that are required to function in the clinical area as a MR Technologist and will develop and exhibit proper professional work ethic. Department permission required.

MRI 272. MRI Clinical II. 8 Credits.
Provides intermediate clinical education experience in an affiliated hospital Magnetic Resonance Imaging Department under the supervision of a Registered MR Technologist and Radiologist. Includes application of equipment manipulation and operation, MR imaging procedures, MR safety, medicolegal and ethical protocol, record keeping and patient care. Requires clinical competencies, objectives, performance assessments and attendance. The student will learn the necessary skills that are required to function independently in the clinical area as a MR Technologist, and will develop and exhibit proper professional work ethic. Department permission required. Prerequisite: MRI 271 or MRI 121.

MRI 273. MRI Clinical III. 8 Credits.
Provides advanced clinical education experience in an affiliated hospital Magnetic Resonance Imaging Department under the supervision of a Registered MR Technologist and Radiologist. Includes application of equipment manipulation and operation, understanding and application of imaging parameters, MR safety, medicolegal and ethical protocols, record keeping and patient care. Requires clinical competencies, objectives, performance assessments and attendance. The student will learn the necessary skills required to function independently in the clinical area as a MR Technologist, and will develop and exhibit proper professional work ethic. Department permission is required. Prerequisite: MRI 272 or MRI 122.

MANAGEMENT SUPERVISORY DEVL

MSD 101. Principles of Management and Supervision. 3 Credits.
Examines concepts and practical application of fundamental supervisory skills such as planning, staffing, communicating, leading, using technology, training, managing conflict, and problem solving, in addition to “quality improvement,” safety, ethics, and effective performance reviews. Audit available.

MSD 105. Workplace Communication Skills. 3 Credits.
Examines how principles of interpersonal communication operate in a supervisory context within organizations. Includes communication processes, barriers and misconceptions, impact of cultural values and norms, influences of perception and judgment, nonverbal communication, listening effectively, identifying and controlling emotions, developing an effective communications climate, and effectively managing conflict. Audit available.

MSD 107. Organizations & People. 3 Credits.
Examines what people think, feel, and do in organizations. Includes motivation theory and practice and how an individual employee’s personality and learning style affects productivity; how team dynamics affect and are affected by the individual employee; how the organization’s structure and climate affects individual and team productivity and organizational change and development. Audit available.

MSD 110. Gender Conflict Resolution. 1 Credit.
This 10-hour workshop examines gender and multi-cultural communication. The material includes identifying and evaluating sources of conflict and developing strategies and skills to positively manage and resolve conflicts. Audit available.

MSD 111. Workplace Correspondence. 3 Credits.
Examines various skills used to enhance workplace correspondence in a diverse work environment. Includes formatting letters, resumes, applications, emails, and reports. Addresses issues such as the influence of social media, and the impact of a global work environment. Audit available.
MSD 113. Influence Without Authority. 1 Credit.
Examines the need for the use of influencing skills in a diverse, global workplace environment. Explores the appropriate use of power, authority and influence in building relationships. Includes influencing peers and those in authority, mutual exchange, lateral leadership, rules of reciprocation and strategies to create partnerships despite power differences. Audit available.

MSD 115. Improving Work Relations. 3 Credits.
Examines methods and strategies for helping managers, aspiring managers and staff professionals develop their own unique managerial style. Includes improving individual effectiveness, developing interpersonal relationships, functions of working groups, multi-cultural relations, productivity and quality at the organizational level. Audit available.

MSD 116. Creative Thinking for Innovative Change. 1 Credit.
In today's-and tomorrow's-unpredictable and increasingly challenging world, we must make a fundamental choice: to be changed, inevitably, by the forces churning around us, or to be the change-leader through innovative actions. Learn how to jump-start your own creative, innovative thinking. Audit available.

MSD 117. Customer Relations. 3 Credits.
Examines the importance of organizational customer relations. Explores developing productive strategies for effective customer service. Includes analyzing customer needs, developing customer service policies, measuring customer satisfaction, listening skills, handling problems and concerns, building a team, and growing a business. Audit available.

MSD 119A. Intercultural Communication. 1 Credit.
Identifies sources of common cultural misunderstandings. Helps solve basic interpersonal challenges through discussion, video, and practice. Gives resources to improve relationships. Audit available.

MSD 121. Leadership Skill Development. 3 Credits.
Examines principles and practices of effective leadership. Explores strategies for developing organizational visions, communicating with clear meaning, developing trust through collaboration, creating the learning organization, and sharing leadership through empowerment. Audit available.

MSD 122. Motivation Without Manipulation. 1 Credit.
This 10-hour workshop will focus on setting a climate for intrinsic motivation. Topics include organizational theories and their impact, ranking needs in the workplace, delegation obstacles to motivation, recognition systems and emotional intelligence. Audit available.

MSD 122A. Strength Based Leadership. 1 Credit.
Examines personal strengths and explores how a strengths focus may be applied to leadership roles both personally and professionally. Enhances understanding of personal strengths and how these ideas can be used in leadership to develop and make the most of the strengths of others. Audit available.

MSD 123. Job Search Strategies. 1 Credit.
This 10-hour workshop explores strategies for finding the "right" job. Includes self-discovery, goal-setting, prospecting, networking, resume-writing, interviewing, career-planning, and self-marketing skills. Audit available.

MSD 123A. Innovation and New Products. 1 Credit.
Examines the impact of change, innovation, and technology on an organization's ability to thrive and be competitive. Explores innovation which involves the actions and activities of people directed at changing their organizations and their business environments. Introduces how to create a comprehensive business proposal for innovation, which addresses either strategic or tactical objectives of the organization. Audit available.

MSD 128. Crisis Intervention: Handling the Difficult Person. 1 Credit.
This workshop will discuss the phases of situation crisis intervention. Topics include techniques for approaching and handling the difficult person, the potentially dangerous person, and the potentially volatile situation. Audit available.

MSD 130. Creative Problem Solving. 3 Credits.
Covers creative problem solving and thinking, steps in the creative problem-solving process, right and left brain thinking, ambiguity and imagination, overcoming barriers to creative thinking, synthesis, and applying creative problem-solving to the organization. Audit available.

MSD 134. Who Moved My Cheese. 1 Credit.
Change is constant, it’s all around us and it’s inevitable. This class on transition and change is based on the #1 best seller business book by Spencer Johnson, M.D. called Who Moved My Cheese. This course is fun learning and it positively equips people to better understand and change. Audit available.

MSD 138A. Male/Female Communication Differences. 1 Credit.
Examines perception of male and female stereotypes as they affect building rapport in work relationships. Includes ways to modify personal belief systems to incorporate appreciation and respect, and increasing sensitivity to create better work relationships. Audit available.

MSD 138B. Exploring the 7 Habits of Highly Effective People. 1 Credit.
Examines a comprehensive approach for increasing personal and professional effectiveness in leadership roles. Explores time tested strategies for principle based decision making, managing priorities, and building resilient relationships.

MSD 141A. The Time-Stress-Communication Triangle. 1 Credit.
This 10-hour workshop focuses on the stress control, time management, and interpersonal communication triangle. While learning to function effectively under pressures, participants will learn how to maintain good relationships, conquer interruptions, manage meetings, and build self-esteem. Audit available.

MSD 142B. Thriving in Transition. 1 Credit.
This 10-hour workshop discusses how to thrive in the midst of the constant change. Topics include understanding the sources of change, proposing change, addressing resistance to change, and successfully implementing change. Audit available.

MSD 148. Asserting Yourself in the Workplace. 1 Credit.
This workshop looks at three typical types of human behavior and focus on assertiveness. Particular attention given to creating appropriate situations for assertive behavior to occur and opportunities for skill practice also provided. Audit available.

MSD 150. Listening Skills. 1 Credit.
Acquire an understanding of the techniques of active listening and communication skills. Communication techniques such as the perception check, interpretive listening, paraphrasing and questioning will be presented, and opportunity to practice these skills included. Audit available.

MSD 151. Working with Difficult People. 1 Credit.
Examines various concepts in understanding and successfully managing difficult behavior in a diverse workplace environment. Explores strengths and weaknesses of various behavioral/conflict styles and self-assessment instruments measuring individual approaches to relationships and conflicts. Includes specific techniques in dealing with difficult encounters to enhance workplace relationships. Audit available.

MSD 157. Conflict Management. 1 Credit.
Examines various strategies to strengthen organizational efficiency by facilitating effective work relationships and conflict resolution. Explores common causes of conflict in a diverse workplace environment and successful approaches supporting a negotiation philosophy. Includes uncovering hidden agendas, maintaining respectful relationships, and fixing problems using objective criteria. Audit available.

MSD 159. Stress Control. 1 Credit.
This 10-hour workshop focuses on understanding your own signs of stress. Includes techniques for preventing stress, identifications of personality factors and interpersonal factors related to stress, and job burnout. Audit available.

MSD 160A. Communication Styles. 1 Credit.
Concentrates on understanding various communication styles including differences in perspectives, styles, beliefs and feelings. Discussion includes building relationships at home, work and in communities with a wide range of people. Audit available.

MSD 161. Customer Relations. 1 Credit.
This 10-hour workshop discusses the principles of effective customer relations. Topics include identifying customers and responding to customer needs, dealing with difficult customers, developing a positive customer climate, building effective verbal and nonverbal communication skills. Audit available.

MSD 162. Coping with Angry Feelings and Angry People. 1 Credit.
This 10-hour workshop focuses on how to cope more effectively and constructively with angry feelings. Also includes understanding the impact anger has on ourselves and others; learning how to gain control over our reaction to anger-provoking situations; and converting angry feelings into positive action. Audit available.

MSD 174. Time Management. 1 Credit.
Examines various techniques to evaluate employee time usage increasing efficiency and productivity in the workplace. Explores skills to strengthen organizations by managing resources and time schedules in meeting goals and objectives. Includes awareness of how time is used, understanding productivity, developing a time management system, protecting individual time and specific management recommendations. Audit available.

MSD 174B. Leadership & Effective Decision Making. 1 Credit.
Covers historic examples, characteristics and styles of leadership. Participants will understand group leadership activities in public and private organizations; investigate opportunities to exercise personal leadership skills, contribute to group leadership situations and discuss the impact of moral and ethical factors in decision making. Audit available.
MSD 173B. Direct Communication in the Workplace. 1 Credit. This 10-hour workshop focuses on various communication situations (both verbal and written) in the workplace. Topics include putting oneself in the receiver’s shoes, understanding what the listener’s hear, adapting messages to enhance the receiver’s understanding, and focusing on the results the sender wants to achieve. Audit available.

MSD 176A. Interpersonal Communication. 1 Credit. This 10-hour workshop explores a practical approach to understanding interpersonal communication. Topics include techniques for active listening, methods for conflict resolution, and learning techniques for becoming “other person” focused. Audit available.

MSD 177. Team Building. 1 Credit. Examines the importance of quality teams in the workplace and the dynamics of the team building process. Explores various roles team members play in supporting a high performance work team and the value teams have on organizational effectiveness and productivity in a global economy. Includes creative team problem solving and decision making, team building tools, strategies and techniques, effective goal setting and meeting planning. Audit available.

MSD 177B. Coaching Great Performance. 1 Credit. Centers on how to effectively work with people in a helping relationship. Introduction to coaching and gaining hands-on experience being and working with a client. Coaching helps clients examine the way they do things as well as what they do. Build your coaching skills by focusing on five key principles of coaching: coaching listening, powerful inquiry, creating choice, balance and fulfillment. Audit available.

MSD 179A. Goal Setting and Productivity. 1 Credit. This 10-hour workshop focuses on setting goals and successfully completing them. Includes the SMART goal approach, the benefits of setting goals, identifying and overcoming obstacles, and creating achievable, small steps. Audit available.

MSD 179B. Avoid Burnout: Build Resilience. 1 Credit. Explores symptoms of the five distinct and sequential stages of burnout; the three major areas of negative stress; the relationship between stress and burnout; the five distinct and interrelated characteristics of personal resilience; and the application of coping skills, antidotes and resilience to avoid burnout. Audit available.

MSD 180A. Human Resource Management: Personnel. 3 Credits. Examines the basic responsibilities and concepts for managing the Human Resources function in an organization, such as: Integrating HR into the overall organization’s objectives, basic HR laws, job analysis and planning, and recruitment and selection practices. Audit available.

MSD 180B. Human Resource Management: Performance and Compensation. 3 Credits. Covers performance appraisal, indirect compensation programs, improving productivity and quality of work life, employee rights and collective bargaining. Audit available.

MSD 188B. Self Management for Success. 1 Credit. This 10-hour workshop focuses on effective time management and the development of a self-esteem. This course helps you identify your roadblocks to success—includes the “too much to do, too little time” syndrome, excessive stress, unclear goals, and unproductive work patterns—provides strategies to change these habits. You will gain a new sense of enthusiasm as you redirect your energy and take a new approach to your work. Audit available.

MSD 192A. Project Management. 1 Credit. Provides both the tools and behavioral skills necessary to manage any project successfully. All steps of the project cycle are modeled with opportunities for participants to practice each step. Participants will learn to increase productivity, present a project activity plan using professional tools and develop project team building skills. Audit available.

MSD 192B. Human Resource Management: Management and Supervisory Development. 3 Credits. Explores the changing role of management, managing the organization and its various stakeholders. Includes social and ethical issues of the community in which the company exists, employee rights and diversity, global corporate citizenship, role of government oversight of business, environmental issues, and consumer protection. Audit available.

MSD 194. Emotional Intelligence in Work. 3 Credits. Examines models, concepts and core competencies of emotional intelligence. Explores various skills to enhance emotional well-being and to build productive professional relationships in a diverse organizational climate. Includes developing strategies for managing others with various emotional competency levels. Audit available.

MSD 197. Leadership Skill Development. 1 Credit. Leadership is an essential part of running a quality organization. Learn about the various facets that define leadership today. Audit available.

MSD 197A. Effective Presentation Skills. 1 Credit. This 10-hour workshop focuses on preparing participants for giving an effective presentation. Topics include selecting topics, analyzing the audience, developing ideas, selecting and using visual aids, handling questions and overcoming objections. Each participant will give a presentation during the session. Audit available.

MSD 198. Coop. Ed.: Management and Supervisory Development-Seminar. 1 Credit. Designed as a one credit hour seminar in which the student will learn how to prepare and deliver a work-related plan. Skills learned will be directly related to these activities. Includes a visit by the instructor to the work site and a discussion of the project with the student’s supervisor as well as the student. Audit available.
MTH 07. Accelerated Basic Math Review. 0 Credits.
Present a brief review of basic math skills and provides the opportunity for guided practice.

MTH 08. Accelerated Introductory Algebra Review. 0 Credits.
Present a brief review of basic algebra skills and provides the opportunity for guided practice.

MTH 15. Conquering Math Anxiety. 1 Credit.
Introduces the concept of math identity and explores attitudes, emotions, and barriers towards math. Covers learning strategies to enhance math success, including math study skills, learning styles, test taking strategies, and math class preparation strategies.

MTH 20. Basic Math (Arithmetic). 4 Credits.
Covers fractions, decimals, percents, integers, and measurements to write, manipulate, interpret, and solve application and formula problems. Introduces some measures of central tendency. A scientific calculator is required. The TI-30X II is recommended. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisite: (ABE 0782 or placement into MTH 20) and (RD 80 or ESOL 250). Audit available.

MTH 25C. Fractions. 1 Credit.
Covers the use of fractions to write, manipulate, interpret and solve applications and formulas. Introduces concepts numerically, graphically, symbolically, and in oral and written form. Scientific calculator required. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisites: (ABE 0782 or placement into MTH 20) and (RD 80 or ESOL 250). Audit available.

MTH 26C. Decimals. 1 Credit.
Covers the use of decimals to write, manipulate, interpret and solve applications and formulas. Introduces concepts numerically, graphically, symbolically, and in oral and written form. Scientific calculator required. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisites: (ABE 0782 or placement into MTH 20) and (RD 80 or ESOL 250). Audit available.

MTH 30. Business Mathematics. 4 Credits.
Applies arithmetic to a variety of problems found in the business field, including simple and compound interest, annuities, payroll preparation, pricing, invoice preparation, trade discounts, taxes, and depreciation. Scientific calculator required. Prerequisites: MTH 20 and (RD 80 or ESOL 250). Audit available.

MTH 58. Math Literacy I. 4 Credits.
Introduces pattern recognition, estimation and number sense, working with units, spreadsheets, linear equations and inequalities. Explores how to clearly communicate arguments supported by quantitative evidence using words, tables, graphs, and mathematical equations. Supports collaborative learning through class group interaction. TI-83 or TI-84 calculator required. Prerequisites: MTH 20, (WR 80 or ESOL 252) and (RD 80 or ESOL 250). Audit available.

MTH 60. Introductory Algebra - First Term. 4 Credits.
Introduces algebraic concepts and processes with a focus on linear equations and inequalities in one and two variables. Emphasizes applications, graphs, formulas, and proper mathematical notation throughout the course. A scientific calculator may be required. The TI-30X II is recommended. Recommended that MTH 20 be taken within the past 4 terms. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisites: MTH 20 and (RD 80 or ESOL 250). Audit available.

MTH 61. Introductory Algebra - Part I. 3 Credits.
Introduces algebraic concepts and processes with a focus on linear equations and inequalities in one variable. Emphasizes applications, formulas, and proper mathematical notation. A scientific calculator is required. The TI-30X II is recommended. Completion of MTH 61 and MTH 62 is equivalent to MTH 60. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisite: MTH 20 AND (RD 80 or ESOL 250). Audit available.

MTH 62. Introductory Algebra - Part II. 3 Credits.
Introduces algebraic concepts and processes with a focus on linear equations in two variables. Emphasizes functions, formulas, and proper mathematical notation. A scientific calculator is required. The TI-30X II is recommended. The completion of MTH 61 and MTH 62 is equivalent to MTH 60. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisite: (MTH 60 or MTH 61) AND (RD 80 or ESOL 250). Audit available.

MTH 63. Introductory Algebra - Part III. 3 Credits.
Introduces algebraic concepts and processes with a focus on functions, polynomials, and quadratic equations. Emphasizes applications, graphs, functions, formulas, and proper mathematical notation. A scientific calculator is required. The TI-30X II is recommended. Completion of MTH 62 and MTH 63 is equivalent to MTH 65. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisite: (MTH 62) AND (RD 80 or ESOL 250). Audit available.

MTH 65. Introductory Algebra - Second Term. 4 Credits.
Introduces algebraic concepts and processes with a focus on linear systems, polynomials, quadratic equations, and functions. Emphasizes applications, graphs, formulas, and proper mathematical notation throughout the course. A scientific calculator may be required. The TI-30X II is recommended. Recommended that MTH 60 or MTH 62 be taken within the past 4 terms. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisites: (MTH 60 or MTH 62) and (RD 80 or ESOL 250). Audit available.

MTH 70. Review of Introductory Algebra. 4 Credits.
Reviews algebraic concepts and processes with a focus on linear equations and inequalities in one and two variables, linear systems, properties of exponents, polynomials, quadratic equations, and functions. Emphasizes applications, graphs, formulas, and proper mathematical notation. A scientific calculator may be required. The TI-30X II is recommended. Recommended that MTH 63 or MTH 65 be taken within the past 4 terms. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisites: (MTH 63 or MTH 65) and (RD 80 or ESOL 250). Audit available.

MTH 76. Introduction to GeoGebra. 1 Credit.
Introduces the use of the free math software GeoGebra. Explores the power of the graphing and computer algebra systems for use by a student and/or instructor. Access to a computer or tablet with Java and internet access is required. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MTH 84. Introduction to LaTeX. 1 Credit.
Explores the power of LaTeX for use at school, home, or the workplace for mathematical documents and other applications. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MTH 93. Intro to the TI-89 or Casio ClassPad. 1 Credit.
Introduces basic use of graphing calculators. Explores the power of graphing calculators’ computer algebra systems. The TI-89 (or TI-92 or Voyage 200) or Casio ClassPad 330 graphing calculator is required. Prerequisite: MTH 60 or equivalent placement. Audit available.

MTH 95. Intermediate Algebra. 4 Credits.
Explores functions graphically, symbolically, verbally, and numerically with an emphasis on function notation. Investigates functions, equations, and graphs involving quadratic, rational, radical, and absolute value expressions. Integrates technology throughout. Graphing calculator required. TI-89 Titanium or Casio ClassPad recommended. Recommended that MTH 63 or MTH 65 or MTH 70 be taken within the past 4 terms. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisites: MTH 63, MTH 65 or MTH 70 and placement into WR 115. Audit available.

MTH 98. Math Literacy II. 4 Credits.
Introduces normal distribution and regression/curve fitting. Covers modeling, graphing and solving of linear and quadratic equations. Introduces problem solving with linear systems of equations. Explores how to clearly communicate sophisticated arguments supported by quantitative evidence using spreadsheets, words, tables, graphs, and mathematical equations, as appropriate. Supports collaborative learning through class group interaction. TI-83 or TI-84 calculator required. Prerequisites: MTH 58, (WR 80 or ESOL 252) and (RD 80 or ESOL 250). Audit available.
MTH 105. Math in Society. 4 Credits.
Explores concepts, applications of logic rules, basic probability and statistics as well as personal finance models. Investigates problem solving techniques (algebraic and nonalgebraic) as well as some nontraditional mathematics topics such as social choice or discrete mathematics. Integrates technology where appropriate. The PCC Mathematics Department recommends that students take MTH courses in consecutive terms. Prerequisite: MTH 95 or MTH 98 and placement into WR 121. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.

MTH 111. College Algebra. 5 Credits.
Explores relations and functions graphically, numerically, symbolically, and verbally. Examines exponential, logarithmic, polynomial, and rational functions. Investigates applications from a variety of perspectives. Graphing calculator required. TI-89 Titanium or Casio ClassPad recommended. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisite: MTH 95, (RD 115 and WR 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AS, Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS/AGS, Science, Math, Computer Science/AAOT.

MTH 111H. College Algebra: Honors. 5 Credits.
An honors version of MTH 111. Explores relations and functions graphically, numerically, symbolically, and verbally. Examines exponential, logarithmic, polynomial, and rational functions. Investigates applications from a variety of perspectives. Graphing calculator required. TI-89 Titanium or Casio ClassPad recommended. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisite: MTH 95 taken within the past 4 terms. Prerequisite: MTH 95, (RD 115 and WR 115) or IRW 115 or equivalent placement. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AGS.

MTH 112. Elementary Functions. 5 Credits.
Investigates trigonometric functions, equations and identities. Examines right and oblique triangles, vectors, polar coordinates, parametric equations, and complex numbers. Explores topics graphically, numerically, symbolically, and verbally. Examines exponential, logarithmic, polynomial, and rational functions. Investigates applications from a variety of perspectives. Graphing calculator required. TI-89 Titanium or Casio ClassPad recommended. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisite: MTH 95 or higher, and (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAOT.

MTH 211. Foundations of Elementary Math I. 4 Credits.
Examines the conceptual basis of K-8 mathematics. Provides opportunities to experience using manipulatives to model problem solving, numeral systems, operations, patterns and change, and number theory. Emphasizes quantitative, proportional, and algebraic reasoning. Includes content and mathematical practices based on the Common Core State Standards. Prerequisite: MTH 95 or higher, and (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

MTH 212. Foundations of Elementary Math II. 4 Credits.
Examines the conceptual basis of K-8 mathematics. Provides opportunities to experience using manipulatives to model operations with rational numbers including fractions, decimals, percents, and integers. Explores the set of irrational numbers, the set of real numbers, proportional reasoning and simple probability and statistics. Includes content and mathematical practices based on the Common Core State Standards. Prerequisite: MTH 211 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/ASOT-B.

MTH 213. Foundations of Elementary Math III. 4 Credits.
Examines the conceptual basis of K-8 mathematics. Provides opportunities to experience using manipulatives to model problem solving, explore patterns and relationships among geometric figures and develop spatial reasoning. Explores informal geometry, transformational geometry, and measurement systems. Includes content and mathematical practices based on the Common Core State Standards. Prerequisite: MTH 211. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS/AGS, Science, Math, Computer Science/AAOT.

MTH 241. Calculus for Management, Life and Social Science. 4 Credits.
Includes limits, continuity, derivatives, and integrals. Investigates applications from science, business, and social science perspectives. Graphing calculator required. TI-89 Titanium or Casio ClassPad 330 recommended. Prerequisite: MTH 111 or MTH 111B or MTH 111C) and their prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AAOT.

MTH 243. Statistics I. 5 Credits.
Introduces displaying data with graphs, numerical descriptions of data, producing data, elementary probability, probability distributions, confidence intervals and significance testing. Investigates applications from science, business, and social science perspectives. Graphing calculator with advanced statistical programs and/or computer software required; see instructor. Recommended: MTH 111. Prerequisite: (MTH 95 or MTH 98, or any course for which either a prerequisite requirement is waived) and placement into WR 121. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS/AGS.

MTH 244. Statistics II. 4 Credits.
Includes confidence interval estimation, tests of significance including z-tests, t-tests, ANOVA, and chi-square; and inference for linear regression. Investigates applications from science, business, and social science perspectives. Graphing calculator with advanced statistical programs and/or computer software required; see instructor. Required: MTH 111. Prerequisite: (MTH 95 or MTH 98, or any course for which either a prerequisite requirement is waived) and placement into WR 121. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS/AGS, Science, Math, Computer Science/AAOT.

MTH 251. Calculus I. 4 Credits.

MTH 252. Calculus II. 4 Credits.
Includes antiderivatives, the definite integral, topics of integration, improper integrals, and applications of differentiation and integration. Required: Graphing calculator. TI-89 Titanium or Casio Classpad 330 recommended. Prerequisites: MTH 251. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AAS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS/AGS, Science, Math, Computer Science/AAOT.

MTH 253. Calculus III. 5 Credits.
MTH 255. Differential Equations. 5 Credits.

MEDICAL LABORATORY TECHNOLOGY
MLT 100. Medical Office Laboratory Orientation. 3 Credits.
Introduces clinical laboratory principles and procedures commonly performed in the physician’s office setting, including specimen collection and handling, urinalysis, basic hematology, chemistry, serology, microbiology and quality control. Prerequisites: MP 111 and BI 55 or BI 122 or BI 233. Audit available.

MLT 105. Phlebotomy for Medical Laboratory Technicians. 1 Credit.
Introduces basic laboratory skills to collect and process high quality blood specimens for clinical laboratory analysis. Includes laboratory safety measures, professionalism, communication and interpersonal skills in the healthcare setting. Prerequisites: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 110. Introduction to Medical Laboratory Technology. 4 Credits.
Introduces the field of clinical laboratory science. Includes an introduction to the use and care of laboratory equipment and supplies. Provides basic concepts and technical skills in the clinical laboratory field including safety, quality control, laboratory testing and communication. Prerequisites: CH 104 or CH 221, BI 121 or BI 231 or higher, MTH 95 or higher, and WR 121 or higher.

MLT 113. Introduction to Medical Microbiology. 3 Credits.
Introduces clinical bacteriology and the taxonomic approach to major human pathogens. Presents an overview of the organization and function of the clinical microbiology laboratory. Introduces basic practices of specimen processing, handling, and work-up. Develops basic skills necessary to work in the microbiology laboratory. Prerequisite: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 114. Laboratory Operations and Techniques. 4 Credits.
Introduces the field of clinical laboratory sciences, including an introduction to laboratory organization, laboratory safety, quality assurance and laboratory regulation. Reviews utilization of basic laboratory equipment, point of care testing and laboratory information system. Covers professionalism in the healthcare setting. Includes documentation and communication according to laboratory protocols. Prerequisite: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 115. Clinical Laboratory Mathematics. 1 Credit.
Provides a review of arithmetic, algebra, scientific notation, rounding and figure significance, measurement systems and conversions, solutions and concentrations, dilutions, titer and other mathematical calculations commonly used in the clinical laboratory setting. Prerequisite: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 120. Urinalysis. 2 Credits.
Reviews anatomy and physiology associated with production of urine. Introduces urine composition, urinalysis testing principles and procedures, and the clinical correlation of results with disease conditions. Prerequisites: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 122. Clinical Chemistry I. 4 Credits.
Introduces theory, general laboratory principles, methodologies, instrumentation and practical concepts associated with testing procedures used in the clinical chemistry laboratory. Includes important characteristics and clinical significance of carbohydrates, proteins, lipids, electrolytes, non-protein nitrogenous waste (creatinine, BUN and uric acid) and cardiac markers. Prerequisites: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 125. Clinical Chemistry II. 4 Credits.
Introduces pathophysiology, diagnosis, and monitoring of selected human diseases on an organ system basis. Includes enzymology, acid-base balance, endocrinology, liver function, pancreatic function, toxicology and therapeutic drug monitoring. Prerequisites: Acceptance into the Medical Laboratory Technology Program, and MLT 224. Audit available.

MLT 230. Body Fluids. 2 Credits.
Introduces the composition, testing procedures, and the clinical correlation of results for cerebrospinal, synovial, pleural, pericardial, peritoneal, seminal, and amniotic fluids. Prerequisite: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 241. Immunohematology I. 3 Credits.
Introduces basic immunology and the various antigen-antibody reactions with emphasis on agglutination. Develops knowledge and skills in ABO and Rh blood group testing. Prerequisite: Acceptance into the Medical Laboratory Technology Program. Audit available.
COURSE DESCRIPTIONS

MLT 242. Immunohematology II. 4 Credits.
Provides an overview of transfusion testing methods, hemolytic disease of the newborn, donor selection, blood components, anticoagulants, and transfusion reactions. Prerequisites: Acceptance into the Medical Laboratory Technology Program and MLT 241. Audit available.

MLT 251. Hematology I. 4 Credits.
Introduces hematology, the origin and maturation of the various types of blood cell lines with emphasis on the red and white blood cells. Includes study and analysis of hemoglobin, hematocrit, erythrocytic sedimentation rate and blood cell counts. Emphasizes cell identification, cell differentiation and cell morphology evaluation procedures. Allows for practice of hematology analytical skills and correlation of laboratory findings with patient symptoms and clinical history. Presents principles of automated instrumentation and application of flow cytometry to clinical hematology. Prerequisites: Acceptance into the Medical Laboratory Technology Program, and MLT 251. Audit available.

MLT 253. Hemostasis. 2 Credits.
Provides an overview of theory and practical application of hemostasis (coagulation), as it relates to the medical laboratory. Presents coagulation laboratory principles and correlates results with disease states. Prerequisites: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 261. Clinical Bacteriology I. 3 Credits.
Introduces basic practices and principles of clinical bacteriology, focusing on pathogenic bacteria encountered in the blood, central nervous system, and genitourinary tract. Includes application of common algorithms for identification of clinically significant pathogens. Introduces principles and procedures of molecular diagnostic techniques and their applicability to the clinical laboratory. Prerequisite: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 262. Clinical Bacteriology II. 4 Credits.
Covers practices and principles of clinical bacteriology, focusing on pathogenic bacteria encountered in the gastrointestinal and respiratory tracts, soft and solid tissues, and infections of special patient populations. Includes application of common algorithms for identification of clinically significant pathogens. Introduces current molecular techniques used for identification and expands on concepts of antimicrobial testing and therapy. Prerequisite: Acceptance into the Medical Laboratory Technology Program and MLT 261. Audit available.

MLT 265. Clinical Mycology and Parasitology. 3 Credits.
Introduces the fields of medical mycology and medical parasitology. Focuses on the clinical significant fungi and covers specimen processing and diagnostic procedures for the cultivation and identification of fungal pathogens. Identifies characteristics, life cycles, pathogenicity and testing methods for selected relevant parasites. Prerequisites: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 266. Immunology and Infectious Serology. 2 Credits.
Introduces clinical laboratory diagnosis of infectious disease utilizing serological test methods. Prerequisites: Acceptance into the Medical Laboratory Technology Program. Audit available.

MLT 271. Clinical Laboratory Practice I. 2 Credits.
Provides a simulated clinical laboratory setting to become familiar with the daily organization and operations in the departments of hematology, urinalysis, basic level hematology and basic level microbiology. Prerequisite: Acceptance into the second year of the MLT Program. Audit available.

MLT 272. Clinical Laboratory Practice II. 2 Credits.
Provides a simulated clinical laboratory setting to become familiar with the daily organization and operations in the departments of coagulation, body fluids, advanced level hematology and advanced level microbiology. Prerequisite: Acceptance into the second year of the MLT Program and MLT 271. Audit available.

MLT 273. Clinical Laboratory Practice III. 9 Credits.
Provides practicum experience in various clinical sites to become familiar with the organization and operation of the clinical laboratory setting. Provides an opportunity to gain insight into how the clinical laboratory practitioner relates to the entire medical team and to the community, and provides opportunity to gain experience in dealing with patients and in performing procedures required of a laboratory technician. The clinical experience will be done under the direct supervision of assigned trainer(s) at the clinical site. Prerequisite: Acceptance into the second year of the MLT Program and MLT 272. Audit available.

MLT 274. Clinical Laboratory Practice IV. 9 Credits.
Provides practicum experience in various clinical sites to refine skills necessary for the organization and operation of the clinical laboratory setting. Provides an opportunity to gain insight into how the clinical laboratory practitioner relates to the entire medical team and to the community, and provides opportunity to gain further experience in dealing with patients and in performing procedures required of a laboratory technician. The clinical experience will be conducted under progressively less laboratory personnel supervision. Prerequisite: Acceptance into the second year of the MLT Program and MLT 273. Audit available.

MLT 282. Clinical Seminar I. 2 Credits.
Introduces new and advanced concepts in clinical laboratory medicine and healthcare profession. Explores techniques for writing standard operational procedures. Provides opportunity for sharing and discussing practicum experiences. Covers professional resume writing and job application techniques. Prerequisites: Acceptance into the Medical Laboratory Technology Program and MLT 282. Audit available.

MLT 283. Clinical Seminar II. 2 Credits.
Provides opportunity for sharing and discussing continuing education experiences and to prepare for certification exams. Prerequisites: Acceptance into the Medical Laboratory Technology Program and MLT 282. Audit available.

MEDICAL PROFESSIONS

MP 108. Healthcare Career Essentials. 3 Credits.
Introduces skills required to become a competent and productive health care professional including effective communication, teamwork, emotional intelligence and professionalism. Explores various career pathways in today's healthcare industry focusing on educational and licensing requirements, professional responsibilities, and the workplace environment. Introduces job search, resume writing, and interviewing techniques. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MP 111. Medical Terminology. 4 Credits.
Covers prefixes, suffixes, root words, abbreviations, conditions, symptoms and procedure terms. Course taught by body systems. English communication skills necessary. Audit available.

MP 113. Healthcare Provider CPR/AED, First Aid/Bloodborne Pathogens. 1 Credit.
Introduces CPR, first aid and bloodborne pathogens, applicable to working in healthcare environments, home, and community settings. Covers skills to perform CPR and operate an Automatic External Defibrillator (AED) for adults/children/infants. Includes citizen level first aid for providing initial care to persons injured or stricken by sudden illness where help is not immediately available. Covers how to minimize communicable disease transmission while providing emergency care. Recommended: RD 115 or equivalent placement. Audit available.

MP 135. Pharmacology for Allied Health. 3 Credits.
Introduces basic pharmacology principles and medicine classifications. Covers pharmacologic terminology and concepts such as drug categories, mechanism of drug action, drug forms, and routes of administration. Introduces generic and proprietary names of drugs prescribed for common diseases and disorders. Pharmacology is an integral part of every aspect of health careers and this course is recommended for any individual with a health career objective. Prerequisites: MP 111 and (BI 122 or BI 233). Audit available.

MP 140. Introduction to Health Law and Ethics. 3 Credits.
Introduces the legal aspects, code of ethics and policy issues relevant to allied health. Emphasizes confidential communication, advanced directives, consents, professional liability, medical malpractice, release of information, case studies and the professional code of ethics. Includes the concepts of professional credentialing and responsibility, liability, and working within legal/ethical boundaries. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MP 150. Introduction to Electronic Health Records. 3 Credits.
Introduces basic concepts of medical charting which are implemented and built upon in an Electronic Health Record (EHR). Introduces basic concepts of implementation and use of an EHR. Includes skill development for basic navigation of an EHR. Explores issues around privacy, security, government regulations and ethical/legal aspects of medical records in a healthcare delivery environment (hospital or clinic setting). Recommended: CAS 133 or equivalent computer and internet experience, MP 111. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.
MT 80. Safety and Cleanroom Protocol. 2 Credits.
Covers safety considerations for working in a semiconductor industry cleanroom. Introduces safety programs in the industry. Overview includes hazardous information and how to obtain it. Covers personal safety and related equipment. Audit available.

MT 90. Basic Electronics. 3 Credits.
Includes Ohm’s Law, Kirchhoff’s Voltage and Current Law in series and parallel circuits, and troubleshooting problems of basic electric circuits. Labs include basic measurement and troubleshooting techniques, use of electronic test equipment and proper documentation procedures. Prerequisite: Concurrent registration: MTH 60, WR 115 or IRW 115. Audit available.

MT 101. Introduction to Semiconductor Manufacturing. 1 Credit.
Presents an overview of careers in Microelectronics Technology. Also presents a succinct history of the semiconductor manufacturing process and fundamental cleanroom processes. Students will learn about the importance of quality and contamination control emphasis in the industry. Audit available.

MT 102. Introduction to Semiconductor Devices. 1 Credit.
Examines commonly made semiconductor devices, including diodes, solar voltaic cells, and MOSFET transistors. Includes electronic materials fundamentals of electricity, conductivity and semiconductivity. Audit available.

MT 103. Introduction to Micro and Nano Processing. 1 Credit.
Introduces the methods used to manufacture Micro and Nano technologies. Traces semiconductor processing from raw material to a finished integrated circuit using planar technology. Introduces the processes and equipment used to create devices on the micro and nano scale. Emerging applications of MEMS and Nanotechnology are discussed. Audit available.

MT 104. Introduction to Solar Voltaic Processing. 1 Credit.
Introduces the methods used to manufacture silicon solar cells. Traces cell processing from raw material to a finished product using planar technology. Introduces the processes and equipment used to create pure single crystal silicon wafers and the processes used to form the solar devices on top of these substrates. Audit available.

MT 108. Statistics for Process Control. 2 Credits.
Covers Statistical Process Control (SPC), including plotting and interpreting charts and dealing with disposition situations. Develops understanding of what is meant by common statistical quantities such as mean, median, mode, standard deviation, skew, and also understanding of how common distributions represent real populations. Integrates practice performing computer calculation of these distributions and their application to SPC. Prerequisite: MTH 60, and (WR 115 or IRW 115). Audit available.

MT 109. Intro to Electronics and Instrumentation. 3 Credits.
Examines techniques of analysis and troubleshooting of basic electronic circuits that may include sensors and actuators. Labs include measurement and testing techniques, and documentation procedures. Prerequisite: Placement into MTH 60 and WR 115 or IRW 115. Audit available.

MT 111. Electronic Circuits & Devices I. 4 Credits.
Covers Ohm’s Law, Kirchhoff’s Voltage and Current Law, Superposition, Thevenin’s Theorem, and R-C circuits. Includes labs on basic measurement techniques, use of electronic test equipment and proper documentation procedures. Prerequisites: (WR 115 or IRW 115), and placement into MTH 95. Audit available.

MT 112. Electronic Circuits & Devices II. 4 Credits.
Covers AC circuits. Includes both single frequency and frequency response analysis of circuits containing resistance, capacitance, and inductance. Both trigonometry and phasors will be covered. Labs include circuit construction, computer simulation and testing. Prerequisites: MT 111; MTH 95. Audit available.

MT 113. Electronic Circuits & Devices III. 4 Credits.
Overviews discrete semiconductor devices - diodes, BJTs, and FETs - and operational amplifiers. DC models as well as frequency response, bandwidth/ rise time relationships, and performance criteria are emphasized. Labs emphasize circuit construction and include simulation of amplifier circuits. Prerequisite: MT 112. Audit available.

MT 121. Digital Systems I. 3 Credits.
Covers combinational logic devices and circuits. Includes basic operation of logic gates, Boolean algebra, and MSI logic devices. Labs emphasize prototyping and testing of combinational logic circuits. Prerequisites: WR 115, MTH 65. Audit available.

MT 122. Digital Systems II. 3 Credits.
Covers sequential logic devices and circuits. Includes the operation of latches and flip-flops, ripple and synchronous counters, shift registers, memories, and a simple microprocessor system. Labs emphasize prototyping and testing of sequential logic circuits. Prerequisite: MT 121. Audit available.

MT 131. Introduction to Programmable Logic Controllers. 3 Credits.
Introduces Programmable Logic Controllers. Includes PLC components, architecture, execution cycle, data file type and management, variable monitoring, and basic programming instructions. Prerequisite: MT 121, MT 122 or equivalent. Prerequisite: Placement into MTH 111 and WR 121.

MT 180. High Tech Employment Strategies. 1 Credit.
Covers strategies for researching, preparing for, and acquiring a job in the high tech industries of solar, microelectronics and automated manufacturing. Prerequisite/concurrent: MT 101, 102, 103 or 104.

MT 200. Semiconductor Processing. 3 Credits.
Explores aspects of semiconductor processing. Covers semiconductor device design (photo-voltaic cells, diodes, bipolar and MOSFET transistors) and the following manufacturing processes: oxidation, lithography, etch, doping, deposition, planarization, and test/sort. Prerequisites: MT 102, MT 103 or MT 104, MT 240, COMM 130 or COMM 215, or instructor permission. Audit available.

MT 222. Quality Control Methods in Manufacturing. 3 Credits.
Explores quality control methods used in semiconductor manufacturing, including statistical process control (SPC), control charts, performance representation and capability measurements. Emphasizes computer manipulation of actual data for analysis and design of quality. Prerequisites: MTH 243 or MT 108, and WR 227. Audit available.

MT 223. Vacuum Technology. 3 Credits.
Covers the theory and practice of vacuum as used in semiconductor manufacturing. Topics include vacuum principles, vacuum systems and their components such as pumps, valves and gauges, and finally vacuum troubleshooting. Prerequisites: MT 101, MT 102, MT 103 or MT 104, CH 100 or higher, WR 121, or instructor permission. Audit available.

MT 224. Process Equipment I. 3 Credits.
Part 1 of our series on semiconductor manufacturing equipment. Covers components commonly used in industrial equipment, such as controllers, controlling software, signal conditioner, sensors, switches, DC and stepper motors and their driver circuits. Also examines how these components can be used together to achieve automatic control in industrial equipment. Prerequisites: MT 103 or MT 104, MT 113, MT 122, or instructor permission. Audit available.

MT 227. Process Equipment II. 3 Credits.
Covers subsystems of a semiconductor processing system. Includes pumps and robotic systems. Focuses on analysis, maintenance and troubleshooting. Prerequisite: MT 223 or CS 162, and MT 224. Audit available.

MT 228. Process Equipment III. 4 Credits.
Covers a semiconductor processing system. Includes power, vacuum, gas, delivery, robotic and control systems. Focuses on maintenance and troubleshooting. Prerequisites: MT 227, and (CS 162 or (MT 223 and MT 240)).

MT 240. RF Plasma Systems. 3 Credits.
Covers the theory and practice of RF (Radio Frequency) plasma systems as used in semiconductor manufacturing processes such as etching, chemical vapor deposition (CVD) and sputter deposition. Includes plasma physics, RF power system components, power matching and match circuits, and applications in semiconductor manufacturing. Prerequisite: MT 112, MT 223, CH 100 or higher, WR 227, or instructor permission. Audit available.

MULTIMEDIA

MM 110. Introduction to Multimedia. 1 Credit.
Introduces the different roles, skills sets, jobs and equipment associated with the development of digital media. Examines the processes involved in producing content to meet a specific communication goal toward a target audience. Audit available.

MM 120. Multimedia Design. 2 Credits.
Introduces the multimedia development and design process. Includes identifying the functions and skills of a multimedia team, defining project goals and target audience, utilizing information architecture and user experience design principles, evaluating projects to determine deliverables and resource needs. Prerequisite: (WR 115 and RD 115) or WR 115 and MTH 20 or equivalent placement. Prerequisite/concurrent: MM 110, or instructor permission. Audit available.

MM 121. Intro to Game Art Development. 2 Credits.
Introduces the game art development process. Includes identifying the functions and skills necessary to be successful in the game industry, fulfilling client needs, an overview of software used in the process, and basic introduction to modeling engines. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Prerequisite/concurrent: MM 110 or instructor permission. Audit available.
MM 125. Sound for Picture. 4 Credits.
Covers sound as exhibited in modern film and television productions of all genres. Includes sound design, Foley walking, ADR recording, on-set recording, and soundtrack/scoring recording. Includes mixing, editing, and software skills training. This course is also offered as MUC 126; a student who enrolls in this course a second time under either designator will be subject to the course repeat policy. Recommended: MUC 223. Audit available.

MM 130. Multimedia Graphic Video and Audio Production. 3 Credits.
Introduces graphic, audio and video development for multimedia. Includes use of industry standard tools to produce digital media elements composed of graphics, audio and video to communicate an idea to a targeted audience. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Prerequisite/concurrent: MM 120; or instructor permission. Audit available.

MM 140. Multimedia Authoring I. 3 Credits.
Covers production of an interactive multimedia project incorporating graphics, text, video, and audio using multimedia industry standard authoring software. Incorporates the principles and practices from MM110, MM120, and MM130. Prerequisite/concurrent: MM 130 or instructor permission. Audit available.

MM 141. Incorporating Multimedia Elements in Presentation Software. 2 Credits.
Plan and produce a multimedia presentation using industry level presentation software (Microsoft PowerPoint[TM]). Incorporate design theory, clip-art, video clips and sound into a Microsoft PowerPoint(TM) presentation. Emphasis on quality, presentation flow and program design. Audit available.

MM 142. Introduction to Augmented Reality. 1 Credit.
Explores and defines the technology and creation of augmented reality. Examines uses and trends using this technology. Includes the creation of simple projects that demonstrate the production and use of augmented reality. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 146. Directing Actors for Recording. 4 Credits.
Explores the process of directing for camera and voice recording work within the multimedia profession. Focuses on industry standards and principles. Promotes the process for the collaboration by both performers and directors. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 150. Multimedia Project Review, Testing and Delivery. 1 Credit.
Covers the final steps of a multimedia project including, quality assurance, beta testing, group evaluation and debugging techniques. Examines the different ways multimedia is currently being used. Covers tips and techniques for successfully promoting multimedia work. Prerequisite/concurrent: MM 140 or instructor permission. Audit available.

MM 160. Marketing Yourself as a Multimedia Professional. 2 Credits.
Explores the employment and independent market for multimedia professionals, including job qualifications for various positions in small to large organizations, as well as the general business environment for multimedia production. Provides an overview and opportunity to apply methods and practices used in finding and obtaining employment in the multimedia industry. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Prerequisite/concurrent: MM 130 or instructor permission. Audit available.

MM 210. Audio Technician I - Intro. 4 Credits.
Introduces the concepts and skills of audio mixing and recording for live events and video projects. Includes critical listening, the physics of sound and microphone design, the principles of signal flow, mixing, recording, and monitoring, and hands-on practices and assessments of contemporary mixing, sound reinforcement, and two-channel recording technique. Prerequisites: MM 246, MM 247, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 211. Audio Technician II - Multitrack/Post. 4 Credits.
Continues to develop skills in audio production for multi-track recordings of live events as well as field and sound stage-based projects. Applies industry-standard audio software and hardware for audio editing, mixing, and sweetening. Prerequisites: MM 210, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 212. Audio Technician III - Project Management. 4 Credits.
Introduces project management skills including: concepts and applications of ADR, sound design, surround sound, mastering, and distribution. Includes scheduling, budgeting, working with video personnel, actors, composers, and other resources. Prerequisites: MM 211, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 213. Audio Technician IV - Capstone Project. 4 Credits.
Provides the opportunity to develop a personal capstone project that demonstrates mastery of Audio Technician Track concepts, applications, and skills, including project management, field audio, post production audio, sweetening, sound design, mastering, and distribution. Prerequisite: MM 212. Audit available.

MM 220. Multimedia Design II. 3 Credits.
Emphasizes design concepts including layout, typography, color theory, and information architecture with the goal of creating interactive designs that balance aesthetics and function. Includes participation in "real-world" client focused design projects. Prerequisites: MM 120, MM 130 or instructor permission. Audit available.

MM 221. Game Level Design. 3 Credits.
Analyses levels used in modern video games. Integrates both functional and aesthetic level design, level pacing and flow, player goals, and fun factor. Prerequisites: MM 121 or instructor permission, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 225. Game Art Pipeline. 3 Credits.
Introduces processes and methods necessary for developing game-specific content for contemporary game engines and real-time rendering environments. Focuses on team-based efficient production management and pipeline. Prerequisites: MM 232 or instructor permission, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 230. Graphics for Multimedia. 4 Credits.
Continues to develop skills using multimedia industry standard graphic software to create, edit and optimize graphic images for use in multimedia and interactive computer applications. Explores graphic creation, color, composition and compositing of multiple graphics for use in multimedia presentations and other multimedia formats. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Prerequisite/concurrent: MM 130 or instructor permission. Audit available.

MM 231. Vector Graphics & Animation for the World Wide Web. 3 Credits.
Provides instruction and practice in creating short animations, long-form animations with synchronized sounds, interactive walkthrough animations and navigation controls using multimedia industry standard vector graphics and animations software. Prerequisites: MM 130, MM 140, CAS 175F and CAS 1110 or CAS 206 or instructor permission. Audit available.

MM 232. Multimedia 3D Modeling and Animation. 3 Credits.
Provides an introduction to creating, editing, and taking apart 3D models. Develops foundational skills to work with, and navigate the digital 3D modeling workspace to create 3D objects. Examines basic elements of the 3D development of modeling, texturing, lighting, animating, and rendering. Prerequisite: MM 130, MM 140; or instructor permission, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 233. 3D Character Modeling and Animation. 3 Credits.
Introduces high-end digital sculpting and painting techniques used to create models, normal maps, and layered polygon textures. Develops skills using current industry tools and techniques used in professional game asset creation. Prerequisites: MM 232 or instructor permission. Audit available.

MM 234. 3D for Interactivity. 3 Credits.
Includes how to design, create, and display high-quality, interactive 3D graphics and animations using industry standard 3D modeling tools. Explores and tests delivery options, limitations, and quality issues. Prerequisites: MM 232. Audit available.

MM 235. Digital Video Editing and Production. 4 Credits.
Explores the post-production process for non-linear editing of digital video for use in video production and multimedia applications. Focuses on industry standard editing software to develop the foundation grammar of editing including continuity and montage principles. Prerequisite: MM 130 or instructor permission. Audit available.

MM 236. Video Compression and Streaming on the Internet. 3 Credits.
Introduces preparing video and audio for Internet playback, incorporating the principles of quality video and audio streaming techniques and technology. Introduces adaptation of video and audio segments for streaming using industry-standard digital editing and compression software. Covers cross-platform/cross-browser projects on both PCC-provided and publicly available user-generated content (UGC) hosting services to be tested for performance on Macintosh and Windows computers using various browsers and players. Prerequisite: MM 235 or instructor permission. Audit available.
MM 238. Creating Professional DVD-Video. 4 Credits.
Introduces creation of custom DVD-Video using professional level authoring software. Integrates video with audio, graphics, and other assets. Develops custom navigation, menus, chapters, and interactivity. Encodes uncompressed audio into highly compressed Dolby digital AC-3 streams, and incorporates it into the DVD authoring software. Prerequisite: MM 140 and MM 235, or instructor permission. Audit available.

MM 239. Digital Video Edit/Post Production II. 4 Credits.
Continues to develop and explore post-production design and delivery of digital video and audio for multimedia projects and television. Continues to build upon the basic techniques of video editing, color correction, audio development, media compression formats and codecs for video delivery using industry standard software. Analyzes, evaluates, and critiques existing video projects. Prerequisite: MM 235. Audit available.

MM 240. Multimedia Authoring II - Scripting. 4 Credits.
Covers industry standard web application tools to author interactive projects. Covers essential and foundational authoring languages, concepts and practices. Includes assembly of digital media elements, made interactive through authoring, and then tested for function, design, usability, and bugs. Prerequisites: MM 140, MM 231; or instructor permission. Audit available.

MM 241. Multimedia Authoring III - Scripting. 4 Credits.
Continues to develop the essential and foundational authoring languages, concepts and practices. Includes advanced assembly of digital media elements will be assembled, made interactive through authoring, for web or mobile phone delivery and then tested for function, design, usability, and bugs. Prerequisite: MM 240; or instructor permission. Audit available.

MM 244. Creating Interactive Web Pages. 3 Credits.
Covers integrating multimedia content on websites using industry standard web development tools such as HTML5, CSS, and Content Management Systems. Explores the incorporation of multimedia elements on websites to optimize delivery of content on a variety of devices. Prerequisites: CAS 111D or CAS 206, and MM 140 or instructor permission. Audit available.

MM 245. Internet Delivery Methods. 3 Credits.
Covers methods and strategies to optimize and expand the delivery of still graphics, animations, audio, and video streaming to various devices. Includes evaluation of media performance, codec efficiency, image quality and cross platform functionality, interactivity, accessibility, and digital design standards. Recommended: CAS 112D and CAS 113. Prerequisites: MM 230 and CAS 111D or CAS 206 or instructor permission. Audit available.

MM 246. Post-Production Sound for Video. 2 Credits.
Introduces the practice of sound editing for video projects. Examines multiple methods and workflows including: synchronization of sound with picture, modification to maximize intelligibility, dialog replacement, the creation, collection and use of sound effects and music, mixing, and conforming sound to distribution standards. Prerequisites: MM 235 or instructor permission. Audit available.

MM 247. Field Sound for Video. 2 Credits.
Provides overview, exploration and practice of field sound recording for video projects. Examines multiple concepts, methods and techniques including: field, preproduction, microphone use, signal routing, mixing and improving sound recording in challenging acoustical environments. Prerequisites: MM 235 or instructor permission. Audit available.

MM 250. Advanced Multimedia Project Development I. 3 Credits.
Explores the connection between creative and technical skills required to develop digital multimedia projects. Covers planning, producing and implementation of interactive projects using industry standard software. Prerequisites: MM 230, MM 235 and (MM 270 or MM 259) or instructor permission. Audit available.

MM 251. Advanced Multimedia Project Development II. 3 Credits.
Continues to develop digital multimedia skills used in planning, producing and implementing interactive projects using industry standard software. Prerequisites: MM 250. Audit available.

MM 253. Intermediate Modeling and Texturing. 3 Credits.
Continues developing skills to produce 3D models through hands-on exercise and assignments. Explores relevant modeling toolsets, advanced modeling theory, and a variety of modeling approaches and theory. Includes intermediate rendering techniques. Prerequisites: MM 232, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 254. Character Rigging and Animation. 3 Credits.
Explores 3D character rigging and animation using industry standard 3D rigging and animation software. Covers the creation of a professional bipedal character rig, character animation and lip-syncing facial animation. Prerequisites: MM 232, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 255. 3D Lighting and Texturing. 3 Credits.
Expands upon lighting techniques with an in-depth focus on the technical aspects of both high-end lighting and shadows. Covers UV unwrapping and layout skills, and advanced graphic tool techniques in order to create professional quality textures. Prerequisites: MM 232 or instructor permission, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 256. Graphics for Multimedia II. 4 Credits.
Continues to develop skills using multimedia industry standard graphic software to create, edit and optimize graphic images for use in multimedia and interactive computer applications. Explores techniques to manage workflow of graphics production essential for use in multimedia presentations and other multimedia formats. Prerequisite: MM 230. Audit available.

MM 258. Video Compositing and Editing II. 4 Credits.
Continues development of essential foundation skills needed to create motion graphics using industry standard software. Illustrates intermediate concepts of motion graphics, and the functions and capabilities of the software tools including their extensive compositing, keying, animation, and special effects capabilities. Prerequisite: MM 237. Audit available.

MM 259. Screenwriting/Preproduction. 4 Credits.
Focuses on the pre-production phase of narrative video projects. Provides story structure, character development, and formatting for screenwriting. Covers the transition from script to screen including shot lists, location scouting and field sound production, and other pre-production variables. Prerequisite: WR 121. Audit available.

MM 260. Video Production I. 4 Credits.
Introduces digital video production, with a focus on the fundamentals of project planning, basic camera functions, shooting techniques, lighting principles, and audio recording fundamentals. Includes preproduction issues, production terminology, and evaluation of industry etiquette. Prerequisites: MM 130 and MM 235. Audit available.

MM 261. Video Production II. 4 Credits.
Continues video production at an intermediate level; includes digital camera, lighting, audio, and preproduction techniques. Focuses on narrative production techniques. Focuses on narrative production workflow, including an overview of industry crew positions, directing actors and scene coverage. Prerequisite: MM 235 and MM 260 and MM 259. Audit available.

MM 262. Video Production III. 4 Credits.
Explores documentary video making through hands-on exercises and assignments. Covers relevant preproduction methods and materials, the small-crew field production model, interviewing techniques, and further development of camera, lighting, audio, and editing skills. Prerequisites: MM 235, MM 260, MM 261, or instructor permission. Audit available.

MM 263. Cinematography/Lighting. 3 Credits.
Develops skills in lighting and camerawork for field and studio video production. Explores all light fixtures, safety, theory and techniques. Covers camerawork, composition, lens, techniques and theory. Explores the roles of cinematographer and gaffer. Prerequisites: MM 235 and MM 260. Audit available.

MM 264. Broadcast I. 4 Credits.
Covers broadcast television workflow and techniques, including studio production, live events and multi-camera set-up productions. Explores the roles of directing, production switching and studio crew roles. Prerequisites: MM 235 or instructor permission. Audit available.

MM 265. Broadcast II. 4 Credits.
Produces productions for PCC-TV and Portland community. Extended development in broadcast television workflow and techniques. Prerequisite: MM 264. Audit available.

MM 266. Post-Production: Color Correction. 4 Credits.
Introduces the process of color correction, enhancements and effects of video materials using professional level color correction software. Includes color grading, color matching, lighting, and production workflow. Prerequisite: MM 239 or instructor permission, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MM 267. Special Effects I- Green Screen. 4 Credits.
Introduces the processes of green screen shooting, development of natural and virtual background environments, and composting. Includes planning, setup and production of the shoot, and post-production processes. Prerequisite: MM 237 and MM 260 or instructor permission, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.
MUS 101. Introduction to Music (Basic Materials), 3 Credits.
Introduces the basic components of music such as rhythm, melody, harmony and structure. Includes basic note reading and building of music literacy skills. No prior music experience required. Audit available.

MUS 105. Music Appreciation, 3 Credits.
Provides an introduction to understanding symphonic music in the vocal and instrumental genres from the ancient period through the contemporary music of our time. Class will be presented using a multi-media format. Prerequisite/concurrent: (WR 115 or IRW 115) or equivalent placement. Audit available. This course fulfills the following GE requirements: AGS, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS.

MUS 106. Opera Appreciation. 3 Credits.
Covers musical and dramatic analysis of opera. Read about and listen to operas dating from 1600 to the present. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MUS 108. Music Cultures of the World, 3 Credits.
Examines music culture from around the world with attention to cultural contexts and musical styles, including but not limited to Africa, the Americas, Asia, Near East, Europe and the South Pacific. Prerequisite/concurrent: (WR 115 or IRW 115) or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AGS, Arts and Letters/AS.

MUS 110. Fundamentals of Music, 4 Credits.
Covers the basic concepts of music: pitch, rhythm, meter, intervals, modes, scales, harmony and music notation. Introduces the science of sound and music theory terminology. Begins development of musical performance skills through singing, clapping and performance on the piano keyboard. Also includes basic aural skills. Course intended for non-music majors and to prepare students for further music theory study. Prerequisite/concurrent: (WR 115 or IRW 115) or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AGS, Arts and Letters/AS.

MUS 111. Music Theory I (part one), 3 Credits.
Covers music theory as exhibited in the works of the great composers of the 17th and 18th centuries. Includes notation, pitch, meter, tonality, modality, harmony and diatonic function. Basic music analysis focusing on harmonic function and figured bass notation. Includes written composition. Part one of three-term sequence. MUS 111C recommended for music transfer students. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and MUS 110. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT.

MUS 111C. Music Theory I: Sight Singing and Ear Training (part one), 1 Credit.

MUS 112. Music Theory I (part two), 3 Credits.
Continues work from MUS 111. Focuses on four-part harmony and common practice period voice leading. Includes figured bass realization, harmonic analysis and writing composition. Part two of three-term sequence. Concurrent enrollment in MUS 112C is required for music transfer students. Prerequisites: MUS 111 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AGS.

MUS 112C. Music Theory I: Sight Singing and Ear Training (part two), 1 Credit.
Continues development of skills from MUS 111C. Includes harmonic implications in melody, complex rhythms, beat subdivisions and four-part harmony. Introduces melodic chromaticism, extended harmony and phrase relationships. Part two of three-term sequence. Recommended for music transfer students. Prerequisite: MUS 111C. Corequisite: MUS 112. Audit available.

MUS 113. Music Theory I (part three), 3 Credits.
Continues work from MUS 112. Introduction to chromatic harmony as exhibited through tonization and harmonic modulation. Covers melodic structure and basic Schenkerian reduction technique. Also includes large-scale form and analysis by written composition. Meets arts and humanities sequence requirement for Associate of Arts Oregon Transfer degree. Part three of three-term sequence. Concurrent enrollment in MUS 113C recommended for music transfer majors. Prerequisite: MUS 112 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AAOT.

MUS 113C. Music Theory I: Sight Singing and Ear Training (part three), 1 Credit.
Continues development of skills learned in MUS 112C. Includes two-part melodic and rhythmic notation. Introduces secondary function and diatonic modulation. Part three of three-term sequence. Prerequisite: MUS 112C. Corequisite: MUS 113. Audit available.

MUS 125. Guitar Clinic and Workshop, 2 Credits.
Focus on guitar technique as applied to classical, acoustic and electric guitar playing. Topics include warm-ups, development of finger dexterity, fretting hand strength/endurance, efficiency and accuracy, and good tone production. Overview of important guitarists and teaching methods. Also includes fretboard theory and live performance Prerequisite: MUS 191. Audit available.

MUS 131. Group Vocal, 2 Credits.
Covers basic technique and theory of vocal proficiency necessary to develop individual ability in solo or ensemble settings. Includes the application of breath support, projection, phrasing, and musical styles to support individual voices in solo repertoire. Prerequisite: MUS 133A. Musical Theatre Vocal, 1 Credit.
Selection by audition to cast of musical theatre production. Evening rehearsals during term, performances at conclusion of term. Audit available.

MUS 133B. Musical Theatre Vocal, 2 Credits.
Selection by audition to cast of musical theatre production. Evening rehearsals during term, performances at conclusion of term. Audit available.

MUS 153A. Musical Theatre Vocal, 1 Credit.
Provides an opportunity for instrumentalists to practice and perform. Includes conducted and coached rehearsals for public performance. Covers performance practice and repertory for chamber orchestra and small ensembles. Requires the ability to read music. Audit available.

MUS 153B. Musical Theatre Vocal, 2 Credits.
Provides an opportunity for instrumentalists to practice and perform. Includes conducted and coached rehearsals for public performance. Covers performance practice and repertory for chamber orchestra and small ensembles. Requires the ability to read music. Audit available.

MUS 153C. Musical Theatre Vocal, 3 Credits.
Provides an opportunity for instrumentalists to practice and perform. Includes conducted and coached rehearsals for public performance. Covers performance practice and repertory for chamber orchestra and small ensembles. Requires the ability to read music. Audit available.

MUS 155A. Chamber Ensemble, 1 Credit.
Provides an opportunity for instrumentalists to practice and perform. Includes conducted and coached rehearsals for public performance. Covers performance practice and repertory for chamber orchestra and small ensembles. Requires the ability to read music. Prerequisite: MUS 155A. Audit available.

MUS 155B. Chamber Ensemble, 1 Credit.
Provides an opportunity for instrumentalists to practice and perform. Includes conducted and coached rehearsals for public performance. Covers performance practice and repertory for chamber orchestra and small ensembles. Requires the ability to read music. Prerequisite: MUS 155B. Audit available.

MUS 155C. Chamber Ensemble, 1 Credit.
Provides an opportunity for instrumentalists to practice and perform. Includes conducted and coached rehearsals for public performance. Covers performance practice and repertory for chamber orchestra and small ensembles. Requires the ability to read music. Prerequisite: MUS 155C. Audit available.

MUS 158D. Chamber Ensemble, 1 Credit.
Provides an opportunity for instrumentalists to practice and perform. Covers performance practice and repertory for chamber orchestra and small ensembles. Requires the ability to read music. Prerequisite: MUS 158D. Audit available.
MUS 158F. Chamber Ensemble. 1 Credit.
Provides an opportunity for instrumentalists to practice and perform. Includes conducted and coached rehearsals for public performance. Covers performance practice and repertory for chamber orchestra and small ensembles. Requires the ability to read music. Prerequisite: MUS 158E. Audit available.

MUS 170. Music Technology: Beats and Basics. 3 Credits.
Introduces music technology for musicians and music majors. Covers software-based recording with a focus on the construction of beats and melodies. Presents a foundation in MIDI, sequencing, signal processing, and applied production. Introduces history of electronic music. Recommended basic knowledge of computers and MUS 110. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

MUS 171. Music Technology: Record and Mix. 3 Credits.
Develops digital music technology skills for musicians and music majors. Covers software-based recording, synthesis, beats, and core-mixing. Presents foundations in Digital Audio Workstations, MIDI, audio recording, sequencing, effects, and applied production. Introduces music industry practices and trends. Prerequisite: MUS 170. Audit available.

MUS 172. Music Technology: Record, Remix and DJ. 3 Credits.
Continues development of digital music technology skills for musicians and music majors. Covers live performance applications, mash-ups, visual object languages, interactive media, and artist development and production. Includes industry and independent artist marketing practices. Prerequisite: MUS 171. Audit available.

MUS 190. Introduction to Piano. 2 Credits.
Group instruction in piano performance. Development of basic piano skills and the introduction to related musical concepts. Focus given to basic keyboard technique, note-reading, rhythm, chords and repertoire performance. No previous experience required. Not designed for Music majors. Audit available.

MUS 191. Class Guitar. 2 Credits.
Group instruction in guitar. Covers traditional classical guitar technique. Focuses on note reading and basic music theory as applies to guitar. Topics include single line first position melodies, common arpeggio patterns and music in two or more parts. Includes both solo and ensemble performance. Attention given to history and repertoire of the guitar. No previous experience required. Audit available.

MUS 191P. Class Piano I. 2 Credits.
Group instruction in piano performance. Intent of course is the development of piano proficiency skills. Focus given to basic keyboard technique, score reading and performance, sight-reading, harmonization, accompanying, and transposition. Designed for music majors but is available to all students. No previous experience required. Audit available.

MUS 192. Class Guitar II. 2 Credits.
Group instruction in guitar. Continues material presented in Music 191. Topics include single line first position melodies, common arpeggio patterns and music in two or more parts. Includes both solo and ensemble performance. More in depth study of the historical origins of the guitar, the repertoire and its major players. Prerequisite: MUS 191 or knowledge of first position note reading. Audit available.

MUS 192P. Class Piano II. 2 Credits.
Continues group instruction in piano performance covered in MUS 191p. Intent of course is the development of piano proficiency skills. Focus given to basic keyboard technique, score reading and performance, sight-reading, harmonization, accompanying, and transposition. Designed for music majors but is available to all students. Prerequisite: MUS 191p. Audit available.

MUS 193. Class Guitar III. 2 Credits.
Group instruction in guitar. Continues material presented in Music 192. Topics include reading notes up to the twelfth position, alternate tunings, altered chords, creating original arrangements and music theory as it applies to the guitar. Includes both performing as a soloist and as a member of an ensemble. Detailed study of twentieth century guitar practice and the influence of popular styles. Prerequisite: MUS 192. Audit available.

MUS 193P. Class Piano III. 2 Credits.
Continues group instruction in piano performance covered in MUS 192p. Intent of course is the development of piano proficiency skills. Focus given to basic keyboard technique, score reading and performance, sight-reading, harmonization, accompanying, and transposition. Designed for music majors but available to all students. Prerequisite: MUS 192p. Audit available.

MUS 195A. Symphonic Band. 1 Credit.
Provides the opportunity to participate in a conducted symphonic band for brass, woodwind and percussion instrumentalists. Includes rehearsal and performance of repertoire from the 17th-21st centuries. Available to students with previous high-school level band experience or equivalent.

MUS 195B. Symphonic Band. 1 Credit.
Provides the opportunity to participate in a conducted symphonic band for brass, woodwind and percussion instrumentalists. Includes rehearsal and performance of repertoire from the 17th-21st centuries. Prerequisite: MUS 195A. Audit available.

MUS 195C. Symphonic Band. 1 Credit.
Provides the opportunity to participate in a conducted symphonic band for brass, woodwind and percussion instrumentalists. Includes rehearsal and performance of repertoire from the 17th-21st centuries. Prerequisite: MUS 195C. Audit available.

MUS 195D. Symphonic Band. 1 Credit.
Provides the opportunity to participate in a conducted symphonic band for brass, woodwind and percussion instrumentalists. Includes rehearsal and performance of repertoire from the 17th-21st centuries. Prerequisite: MUS 195D. Audit available.

MUS 195F. Symphonic Band. 1 Credit.
Provides the opportunity to participate in a conducted symphonic band for brass, woodwind and percussion instrumentalists. Includes rehearsal and performance of repertoire from the 17th-21st centuries. Prerequisite: MUS 195F. Audit available.

MUS 201. Introduction to Music and Its Literature. 3 Credits.
Covers music of the Medieval, Renaissance and Baroque eras of music history. Prerequisites/concurrent: (WR 115 or IRW 115) or equivalent placement. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT.

MUS 202. Introduction to Music and Its Literature. 3 Credits.
Covers music of the Classic and Romantic eras of music history. Prerequisites/concurrent: (WR 115 or IRW 115) or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

MUS 203. Introduction to Music and Its Literature. 3 Credits.
Covers music of the post-Romantic era and the 20th century. Prerequisites/concurrent: (WR 115 or IRW 115) or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

MUS 204. Music of the Western World. 4 Credits.
Designed primarily for music transfer students and those with the ability to read music. Provides a survey of the music of the western world. Major periods, forms, styles, and music scores from the ancient period through the contemporary music of our time will be covered. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MUS 205. Introduction to Jazz History. 3 Credits.
Covers the 90-year history of jazz, a truly American art form. Examines and analyzes eras, styles, and significant artists. Prerequisite/concurrent: (WR 115 or IRW 115) or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

MUS 206. Introduction to the History of Rock Music. 3 Credits.
Introduces the history of rock music. Examines rock music’s roots and development, its innovators and significant events through a cultural as well as musical perspective. Prerequisite/concurrent: (WR 115 or IRW 115) or equivalent placement. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AGS, Arts and Letters/ASOT-B.
MUS 207. Introduction to the History of Folk Music. 3 Credits.
Provides the historical development and the musical and cultural characteristics of American folk music, from its Anglo-Celtic, Hispanic, African and Native American roots to the present, including country music, bluegrass, blues, border music, religious and other ethnic music. Discusses Folk revivals and the significance of songs in terms of the social norms of the time, including the interaction of folk music with popular music. Presented using a multimedia format. Prerequisite/corequisite: (WR 115 or IRW 115) or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAO, Arts and Letters/AGS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

MUS 208. African-American Music. 3 Credits.
Traces the spiritual and all of its counter-parts to gospel music back to its African beginnings. Includes certain musical aspects of various African, Caribbean and South American cultures. See how African-American music is related to these cultures and how the inception of music in the African-American tradition occurred. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MUS 209. African-American Music. 3 Credits.
Examines the progression of African-American music to the blues. Includes the elements of the blues and the various historical avenues in which it has developed. Study how the blues has inspired and constructed the format of today's music. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MUS 210. African-American Music. 3 Credits.
Examines present-day jazz art-form through its progression from the blues. Study the construction of jazz and its various formats, appreciate of the art-form through direct exposure to the music, receive historical background and examine its contribution to the international field of music. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MUS 211A. Music Theory II (part one). 3 Credits.
Continues work on skills from Music Theory I with introduction to tonal counterpoint. Focuses on composition techniques primarily associated with 18th century practices. Includes formal musical analysis of literature. Prerequisite: MUS 113. and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Corequisite: MUS 211B. Audit available.

MUS 211B. Music Theory II: Keyboard Harmony/Aural Skills (part one). 1 Credit.
Provides an opportunity to develop piano keyboard skills (scales, cadences, melody harmonization, accompaniment patterns and transposition) as they apply to principles covered in Music Theory II. Includes development of aural skills. Prerequisite: MUS 113C. Corequisites: MUS 211A. Audit available.

MUS 212A. Music Theory II (part two). 3 Credits.
Continues study of harmony from Music Theory II (part one). Focuses on techniques associated with 19th century music practices. Includes harmonic and distant tonal relationship as exhibited in large-scale formal relationships. Prerequisite: MUS 211A. Corequisite: MUS 212B. Audit available.

MUS 212B. Music Theory II: Keyboard Harmony/Aural Skills (part two). 1 Credit.
Continues development of piano keyboard skills (scales, cadences, melody harmonization, accompaniment patterns and transposition) as they apply to principles studied in Music Theory II. Includes aural skills. Prerequisite: MUS 211B. Corequisite: MUS 212A. Audit available.

MUS 213A. Music Theory II. 3 Credits.
Continues to work on skills from Music Theory I adding compositional techniques associated with the 20th century. Includes tonal counterpoint and formal musical analysis. Prerequisite: MUS 212A. Audit available.

MUS 213B. Music Theory II: Keyboard Harmony/Aural Skills (part three). 1 Credit.
Development of piano keyboard skills with focus on 20th and 21st century practices as they apply to principles studied in Music Theory II. Continues development of aural skills. Prerequisite: MUS 212B. Corequisite: MUS 213A. Audit available.

MUS 214. Music of Broadway. 3 Credits.
A historical overview of the music of Broadway. Also includes musical elements and aural skill development. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MUS 220A. Chorus. 1 Credit.
Provides the opportunity to sing in a large general chorus of mixed voices. Includes rehearsal and performance of repertory drawn from the canon of choral works from the 16th-21st centuries. No audition is required. Prerequisite: MUS 220A. Audit available.

MUS 220B. Chorus. 1 Credit.
Provides the opportunity to sing in a large general chorus of mixed voices. Includes rehearsal and performance of repertory drawn from the canon of choral works from the 16th-21st centuries. No audition is required. Prerequisite: MUS 220B. Audit available.

MUS 220C. Chorus. 1 Credit.
Provides the opportunity to sing in a large general chorus of mixed voices. Includes rehearsal and performance of repertory drawn from the canon of choral works from the 16th-21st centuries. No audition is required. Prerequisite: MUS 220C. Audit available.

MUS 220D. Chorus. 1 Credit.
Provides the opportunity to sing in a large general chorus of mixed voices. Includes rehearsal and performance of repertory drawn from the canon of choral works from the 16th-21st centuries. No audition is required. Prerequisite: MUS 220D. Audit available.

MUS 220E. Chorus. 1 Credit.
Provides the opportunity to sing in a large general chorus of mixed voices. Includes rehearsal and performance of repertory drawn from the canon of choral works from the 16th-21st centuries. No audition is required. Prerequisite: MUS 220E. Audit available.

MUS 220F. Chorus. 1 Credit.
Provides the opportunity to sing in a large general chorus of mixed voices. Includes rehearsal and performance of repertory drawn from the canon of choral works from the 16th-21st centuries. No audition is required. Prerequisite: MUS 220F. Audit available.

MUS 221A. Chamber Chorus. 1 Credit.
Provides the opportunity to sing in a small vocal ensemble. Includes directed rehearsal and performance. Includes possible local, regional and/or other off-campus public performances. Audition required. Audit available.

MUS 221B. Chamber Chorus. 1 Credit.
Provides the opportunity to sing in a small vocal ensemble. Includes directed rehearsal and performance. Includes possible local, regional and/or other off-campus public performances. Audition required. Prerequisite: MUS 221A. Audit available.

MUS 221C. Chamber Chorus. 1 Credit.
Provides the opportunity to sing in a small vocal ensemble. Includes directed rehearsal and performance. Includes possible local, regional and/or other off-campus public performances. Audition required. Prerequisite: MUS 221B. Audit available.

MUS 221D. Chamber Chorus. 1 Credit.
Provides the opportunity to sing in a small vocal ensemble. Includes directed rehearsal and performance. Includes possible local, regional and/or other off-campus public performances. Audition required. Prerequisite: MUS 221C. Audit available.

MUS 221E. Chamber Chorus. 1 Credit.
Provides the opportunity to sing in a small vocal ensemble. Includes directed rehearsal and performance. Includes possible local, regional and/or other off-campus public performances. Audition required. Prerequisite: MUS 221D. Audit available.

MUS 221F. Chamber Chorus. 1 Credit.
Provides the opportunity to sing in a small vocal ensemble. Includes directed rehearsal and performance. Includes possible local, regional and/or other off-campus public performances. Audition required. Prerequisite: MUS 221E. Audit available.

MUS 226. Introduction to the Music of Latin America. 4 Credits.
Introduces the music of Latin America through a historical and cultural survey of the region. Covers pre-Columbian practices and the introduction of European traditions, later syncretic genres and contemporary artists. Traces Native, European, African, Asian and Middle-Eastern influences. Includes the examination of instruments and musical practices of the region. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AO, Arts and Letters/ASOT-B.

MUS 240A. Music Composition. 2 Credits.
Introduces music composition with focus on 20th and 21st century compositional techniques and materials. Includes composition of chamber and concert works with the goal of compiling a portfolio of original works. Prerequisite: MUS 111. Audit available.

MUS 240B. Music Composition. 2 Credits.
Covers music composition with focus on 20th and 21st century compositional techniques and materials. Includes composition of chamber and concert works with the goal of compiling a portfolio of original works. Prerequisite: MUS 240A. Audit available.
MUS 240C. Music Composition. 2 Credits.
Covers music composition with focus on 20th and 21st century compositional techniques and materials. Includes composition of chamber and concert works with the goal of compiling a portfolio of original works. Prerequisite: MUS 240B. Audit available.

MUS 291. Guitarology: History, Players and Innovators. 4 Credits.
Covers the history of the guitar and associated instruments from neolithic and classical civilizations to current times. Introduces major figures in the development of the instrument including composers, luthiers, and performers. Includes cross-cultural appeal of the instrument and how it has been adapted and distributed globally through media with a focus on the music of the 20th and 21st centuries. Prerequisite: ARR 115 and RD 115 or ARR 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AA, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.

MUSIC AND SONIC ARTS

MUC 101. Commercial Music Theory I. 3 Credits.
Covers music theory as exhibited in contemporary musical styles such as jazz, blues, rock, hip hop, funk, electronic dance music, folk, etc. Includes notation, pitch, meter, tonality, intervals, chord construction, and harmony. Includes basic music analysis focusing on diatonic harmonies and lead sheet notation as well as written composition. This is the first course in a three-course sequence. Audit available.

MUC 102. Commercial Music Theory II. 3 Credits.
Covers music theory as exhibited in contemporary musical styles such as jazz, blues, rock, hip hop, funk, electronic dance music, folk, etc. Includes harmonic function, 12-bar blues, non-chord tones, asymmetrical meter, modes, and applied (secondary dominant-functioning) chords. Includes basic music analysis focusing on diatonic and chromatic harmonies, lead sheet notation, and Roman numerals. Includes written composition. This is the second course in a three-course sequence. Prerequisite: MUC 101 or instructor permission. Audit available.

MUC 103. Commercial Music Theory III. 3 Credits.
Covers music theory as exhibited in contemporary musical styles such as jazz, blues, rock, hip hop, funk, electronic dance music, folk, etc. Includes chromatic chords, chords extensions, the Nashville Number System, and song forms. Includes music analysis focusing on structure, chromatic harmonies and alterations. Includes written composition that stresses craft and execution. This is the third course in a three-course sequence. Prerequisite: MUC 102 or instructor approval. Audit available.

MUC 120A. Sight Singing and Ear Training I. 1 Credit.
Introduces the skills needed to sing notation at sight and to identify and locate aural examples. Includes meter, rhythm, intervals, the major scale, solfeggio and simple diatonic melodies. This is the first course in a three-course sequence. Audit available.

MUC 120B. Sight Singing and Ear Training II. 1 Credit.
Continues development of skills to sing notation at sight and to identify and locate aural examples. Includes the major and minor scales, solfeggio, triads, and simple diatonic melodies with combined rhythms. This is the second course in a three-course sequence. Prerequisite: MUC 120A or instructor approval. Audit available.

MUC 120C. Sight Singing and Ear Training III. 1 Credit.
Continues development of skills to sing notation at sight and to identify and locate aural examples. Includes solfeggio, seventh chords, harmonic melodies, two-part rhythmic and melodic notation, and chord progressions. This is the third course in a three-course sequence. Prerequisite: MUC 120B or instructor permission. Audit available.

MUC 123. Electronic Media I. 2 Credits.
Covers computer based recording, synthesis and notation for the composer/arranger. Includes fundamentals in Mdi, sequencing, sampling, basic signal processing, and practical production skills using current digital technology. Write original material during lab sessions. Audit available.

MUC 124. Electronic Media II. 2 Credits.
Covers computer based recording, synthesis and notation for the composer/arranger. Includes fundamentals in Mdi, sequencing, sampling, basic signal processing, and practical production skills using current digital technology. Write original material during lab sessions. Audit available.

MUC 125. Electronic Media III. 2 Credits.
Covers computer based recording, synthesis and notation for the composer/arranger. Includes fundamentals in Mdi, sequencing, sampling, basic signal processing, and practical production skills using current digital technology. Write original material during lab sessions. Must have prerequisite or instructor permission. Audit available.

MUC 126. Sound for Picture. 4 Credits.
Covers sound as exhibited in modern film and television productions of all genres. Includes sound design, Foley, walking, ADR recording, on-set recording, and soundtrack/score recording. Includes mixing, editing, and software skills training. This course is also offered as MM 126; a student who enrolls in this course a second time under either designator will be subject to the course repeat policy. Recommended: MUC 223. Audit available.

MUC 126A. Computer Notation and Scoring 1. 1 Credit.
Uses Sibelius, Finale, or other software to generate music notation and charts to transcribe music and to create scores, harmonizations, and orchestrations.

MUC 126B. Computer Notation and Scoring 2. 1 Credit.
Continues skill building, using Sibelius, Finale, or other software to generate music notation and charts in a variety of more advanced applications. Continues developing skills for transcribing music, creating scores, harmonization, and orchestration.

MUC 130A. Rhythm Training I. 1 Credit.
Develops basic skills of rhythmic sight reading. Audit available.

MUC 130B. Rhythm Training II. 1 Credit.
Develops basic skills of rhythmic sight reading. Audit available.

MUC 130C. Rhythm Training III. 1 Credit.
Develops basic skills of rhythmic sight reading. Audit available.

MUC 140A. Group Piano I. 2 Credits.
Covers music composition with focus on 20th and 21st century compositional techniques and materials. Includes writing, transposition as they apply to principles studied in Commercial Music Theory II. Audit available.

MUC 140B. Group Piano II. 2 Credits.
Covers beginner to intermediate instruction for piano. Develops practice skills, sight-reading, and technical form. Covers music fundamentals, harmony, notation, improvisation, and stylistic nuances. This is the second course in a three-course sequence. Prerequisite: MUC 140A or instructor permission. Audit available.

MUC 140C. Group Piano III. 2 Credits.
Covers music composition with focus on 20th and 21st century compositional techniques and materials. Includes writing, transposition as they apply to principles studied in Commercial Music Theory II. Audit available.

MUC 143. Group Percussion. 2 Credits.
Covers basic technical skills necessary to develop individual ability in solo or ensemble performance. Audible: Additional lab hours may be required. Audit available.

MUC 144B. Contemporary Singing. 2 Credits.
Covers basic technical skills necessary to develop individual ability in solo or ensemble performance. Audible: Additional lab hours may be required. Audit available.

MUC 144B. Contemporary Singing II. 2 Credits.
Covers intermediate technical and artistic skills necessary for solo and ensemble singing performance.

MUC 145A. Group Guitar/Bass I. 2 Credits.
Beginning instruction for guitar and bass. Includes basic chords, strums, patterns and song forms. Audit available.

MUC 145B. Group Guitar/Bass II. 2 Credits.
Continues development of skills for transcribing music, creating scores, harmonization, and orchestration. Advanced beginner to intermediate instruction for guitar and bass. Includes moveable chords, scales, patterns, and song forms. Also, open tuning and slide guitar, basic soloing and accompaniment techniques. Audit available.

MUC 145C. Group Guitar/Bass III. 2 Credits.
Intermediate to advanced intermediate instruction for guitar and bass. Includes chord studies, chord progressions, scales, basic chord substitution. Also, open tuning and slide guitar, basic soloing and accompaniment techniques. Audit available.

MUC 150A. Keyboard Harmony I. 1 Credit.
Piano keyboard performance of simple keyboard skills introducing scales, cadences, melody harmonization, simple accompaniment patterns and transposition as they apply to principles studied in Commercial Music Theory I. Audit available.

MUC 150B. Keyboard Harmony II. 1 Credit.
Piano keyboard performance of simple keyboard skills introducing scales, cadences, melody harmonization, simple accompaniment patterns and transposition as they apply to principles studied in Commercial Music Theory II. Must have prerequisite or instructor permission. Prerequisite: MUC 150A. Audit available.
MUC 150C. Keyboard Harmony III. 1 Credit.
Piano keyboard performance of simple keyboard skills introducing scales, cadences, melody harmonization, simple accompaniment patterns and transposition as they apply to principles studied in Commercial Music Theory III. Must have prerequisite or instructor permission. Prerequisite: MUC 150B. Audit available.

MUC 154A. Band Performance Workshop. 2 Credits.
Involves selection, rehearsals, and performance in a variety of musical styles. Includes popular, jazz, and R&B. Develops rehearsal and presentation skills. Audit available.

MUC 154B. Band Performance Workshop. 2 Credits.
Involves selection, rehearsals, and performance in a variety of musical styles, vocal and instrumental. Includes popular, jazz, and R&B. Further develops rehearsal and presentation skills. Students are involved with setup and flow of performance. Audit available.

MUC 154C. Band Performance Workshop III. 2 Credits.
Involves selection, rehearsals, and performance in a variety of musical styles, vocal and instrumental. Includes popular, jazz, and R&B. Develops rehearsal and presentation skills. Students are allowed to "front" band and submit original material. Audit available.

MUC 155. Introduction to Improvisation. 2 Credits.
Introduces the beginning improviser to the art of soloing. On the most basic level common staples of the jazz solo are presented and practiced. Simple tunes featuring these staples are used as "vehicles" for soloing. Enrollment open for this class. Audit available.

MUC 155A. Improvisation I. 2 Credits.
Covers how scales and chords are constructed and used, including melodic construction, phrasing, motifs, riffs, substitution chords, voice leading, paraphrase and melodic ramps. Includes harmonic construction of all styles of jazz and ear training. By the end of the sequence, students solo against song form. Audit available.

MUC 155B. Improvisation II. 2 Credits.
Covers how scales and chords are constructed and used, including melodic construction, phrasing, motifs, riffs, substitution chords, voice leading, paraphrase and melodic ramps. Includes harmonic construction of all styles of jazz and ear training. By the end of the sequence, students match solo against song form. Audit available.

MUC 155C. Improvisation III. 2 Credits.
Covers how scales and chords are constructed and used, including melodic construction, phrasing, motifs, riffs, substitution chords, voice leading, paraphrase and melodic ramps. Focuses on harmonic construction of all styles of jazz and ear training. By the end of the sequence, students match solo against song form. Audit available.

MUC 156. Survey of the Music Industry. 1 Credit.
Course familiarizes students with the terminology, equipment and basics used in the recording industry. Prepares students for the technical requirements of the Recording Technologies courses. Audit available.

MUC 158. Survey of the Music Industry. 1 Credit.
Introduces theories and techniques for electronic music creation with analog and modular synthesizers. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement or instructor permission. Audit available.

MUC 202A. Ensemble I: Intro to Ensemble. 2 Credits.
Involves selection, rehearsals, and performances of twentieth and twenty-first century repertoire. Includes important works of the last century from a performance perspective and a deeper understanding of current trends in contemporary music. Develops skills in improvisation, analysis and interpretation, and communication skills between members. Open to performers of any instrument or voice type. Audit available.

MUC 202B. Ensemble II: Jazz Ensemble. 2 Credits.
Introduces a solid grounding in the style, performance, and theory of jazz in the 20th century. Covers a variety of jazz styles including but not limited to Latin, blues, ballads, rock and roll, and intersections with classical music traditions. Covers improvisation and techniques for performing in both small and large group settings. Audit available.

MUC 202C. Ensemble III: Multimedia Ensemble. 2 Credits.
Covers advanced electronic music composition. Includes intermediate to advanced applications in sequencing and scoring software; recording techniques as applied to film and multimedia; and the development of a portfolio of original works. This is the third course in a three-course sequence. Prerequisite: MUC 200B. Audit available.

MUC 201. Analog Modular Synthesis. 3 Credits.
Introduces theories and techniques for electronic music creation with analog and modular synthesizers. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement or instructor permission. Audit available.

MUC 202A. Ensemble I: Intro to Ensemble. 2 Credits.
Involves selection, rehearsals, and performances of twentieth and twenty-first century repertoire. Includes important works of the last century from a performance perspective and a deeper understanding of current trends in contemporary music. Develops skills in improvisation, analysis and interpretation, and communication skills between members. Open to performers of any instrument or voice type. Audit available.

MUC 202B. Ensemble II: Jazz Ensemble. 2 Credits.
Introduces a solid grounding in the style, performance, and theory of jazz in the 20th century. Covers a variety of jazz styles including but not limited to Latin, blues, ballads, rock and roll, and intersections with classical music traditions. Covers improvisation and techniques for performing in both small and large group settings. Audit available.

MUC 202C. Ensemble III: Multimedia Ensemble. 2 Credits.
Covers advanced electronic music composition. Includes intermediate to advanced applications in sequencing and scoring software; recording techniques as applied to film and multimedia; and the development of a portfolio of original works. This is the third course in a three-course sequence. Prerequisite: MUC 200B. Audit available.

MUC 203. Composition and Arranging I: Principles. 3 Credits.
Covers advanced electronic music composition. Includes intermediate to advanced applications in sequencing and scoring software; recording techniques as applied to film and multimedia; and the development of a portfolio of original works. This is the third course in a three-course sequence. Prerequisite: MUC 200A. Audit available.

MUC 204. Composition and Arranging II: Electronic Music Composition. 3 Credits.
Covers advanced electronic music composition. Includes intermediate to advanced applications in sequencing and scoring software; recording techniques as applied to film and multimedia; and the development of a portfolio of original works. This is the third course in a three-course sequence. Prerequisite: MUC 200A. Audit available.

MUC 205. Composition and Arranging III: Electronic Media Composition. 3 Credits.
Covers advanced electronic music composition. Includes intermediate to advanced applications in sequencing and scoring software; recording techniques as applied to film and multimedia; and the development of a portfolio of original works. This is the third course in a three-course sequence. Prerequisite: MUC 200B. Audit available.
MUC 236. Studio Recording Technology IV. 3 Credits. Covers intermediate and advanced skills in audio engineering including a mixture of theory and practical application of current recording technology. Focuses on technology as a tool for creativity. Includes digital audio, mixing on DAWs, signal routing, time correction, troubleshooting, session organizing and professional skills. This is the fourth course in a six-course sequence. Prerequisites: MUC 225. Audit available.

MUC 237. Studio Recording Technology V. 3 Credits. Covers intermediate to advanced skills in audio engineering including a mixture of theory and practical application of current recording technology. Focuses on technology as a tool for creativity. Includes digital audio, DAW anatomy, signal routing, DAW tracking, critical listening, and pitch correction. This is the fifth course in a six-course sequence. Prerequisite: MUC 236. Audit available.

MUC 238. Studio Recording Technology VI. 3 Credits. Covers advanced skills in audio engineering including a mixture of theory and practical application of current recording technology. Incorporates technology as an artistic tool to overcome creative barriers. Includes session management, critical listening, mixing, professional skills, and projects. This is the sixth course in a six-course sequence. Prerequisite: MUC 237. Audit available.

MUC 270. Audio Programming I: Introduction to Max/MSP. 4 Credits. Introduces visual programming language Max/MSP and the practice of creative coding for music and sound design. Recommended: basic familiarity with computers and digital audio workstations. Prerequisites: Placement into WR 90, RD 90 and MTH 20 or higher.

MUC 271. Audio Programming II: Intermediate Max/MSP. 4 Credits. Provides intermediate experience with the visual programming language Max/MSP and the practice of creative coding for music and sound design. Prerequisite: MUC 270.

MUC 272. Introduction to Coding for Artists. 4 Credits. Introduces textual programming for artists. Covers the use of the computer language Processing to generate interactive graphics, animation, and video for multimedia installations, web art, performance, and commercial applications. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MUC 273. Programming Interactive Video. 4 Credits. Introduces live video processing, analysis, and programming. Uses Jitter and other tools to generate and process live interactive video experiences. Prerequisite: MUC 270, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement.

MUC 274. Microcontrollers for Artists. 4 Credits. Introduces a variety of sensor and motion-tracking technologies and their application in the arts. Includes the design of new physical user interfaces for musicians, dancers, public spaces, galleries and commercial installations. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MUC 275. Creative Coding Capstone. 4 Credits. Combines the skills gained in all five specialization courses in the creative coding curriculum in order to produce a single project. Culminates in a unique, large scale audio/visual art project which takes the form of an audio/visual musical instrument, product prototype, new media event or installation/experience and will include original design and programming of all project elements. Prerequisites: MUC 270, MUC 271, MUC 272, MUC 273 and MUC 274, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

MUC 280A. Cooperative Education: Vocational Music. 1-3 Credit. Develops individual music performance, writing or recording skills in a department approved work setting. Department permission required. Corequisite: MUS 280B. Audit available.

NURSING

NRS 110. Foundations of Nursing- Health Promotion. 9 Credits. This course introduces the learner to the framework of the OCNE curriculum. The emphasis on health promotion across the life span includes learning about self-health as well as client health practices. To support self and client health practices, students learn to access research evidence about healthy lifestyle patterns and risk factors for disease/illness, apply growth and development theory, interview clients in a culturally sensitive manner, work as members of a multidisciplinary team giving and receiving feedback about performance, and use reflective thinking about their practice as nursing students. Populations studied in the course include children, adults, older adults and the family experiencing a normal pregnancy. Includes classroom and clinical learning experiences. The clinical portion of the course includes practice with therapeutic communication skills and selected core nursing skills identified in the OCNE Core Nursing Skills document. Prerequisite: Admission to the Nursing Program.

NRS 111. Foundations of Nursing in Chronic Illness I. 6 Credits. This course covers chronic illness and common interventions (including technical procedures) for clients with chronic illnesses common across the life span in major ethnic groups. The client’s and family’s “lived experience” of the condition is explored. Clinical practice guidelines and research evidence are used to guide clinical judgments in care of individuals with chronic conditions. Multidisciplinary team roles and responsibilities are explored in the context of delivering safe, high quality health care to individuals with chronic conditions (includes practical and legal aspects of delegation). Cultural, ethical, legal and health care delivery issues are explored through case scenarios and clinical practice case exemplars including children with asthma, teenagers with a mood disorder, adults with type 2 diabetes, and older adults with dementia. The course includes class room and clinical learning experiences. Prerequisite: NRS 110. Prerequisite/concurrent: (NRS 230 or NRS 231) and (NRS 232 or NRS 233).

NRS 112. Foundations of Nursing in Acute Care I. 6 Credits. This course introduces the learner to assessment and common interventions (including relevant technical procedures) for care of clients across the life span who require acute care, including normal childbirth. Disease/illness trajectories and their translation into clinical practice guidelines and/or standard procedures are considered in relation to their impact on providing culturally sensitive, client-centered care. Includes classroom and clinical learning experiences. Prerequisite: NRS 111. Prerequisite/concurrent: (NRS 230 or NUR 231) and (NRS 232 or NRS 233).

NRS 221. Chronic II. 9 Credits. This course builds on foundations of nursing in Chronic Illness I. Chronic Illness II expands the student’s knowledge related to family caring, symptom management and end of life concepts. These concepts are a major focus and basis for nursing interventions with patients and families. Ethical issues related to advocacy, self determination, and autonomy are explored. Complex skills associated with the assessment and management of concurrent illnesses and conditions are developed within the context of client and family preferences and needs. Skills related to enhancing communication and collaboration as a member of an interdisciplinary team are further explored. Exemplars include patients with chronic mental illness and addictions as well as other chronic conditions and disabilities affecting functional status and family relationships. The course includes classroom and clinical learning experiences. Prerequisite: Completion of first year Nursing courses.

NRS 222. Acute Care II. 9 Credits. This course builds on Nursing in Acute Care I, focusing on more complex and/ or unstable patient care conditions, some of which may result in death. These patient care conditions require strong noticing and rapid decision making skills. Evidence base is used to support appropriate focused assessments, and effective, efficient nursing interventions. Life span and developmental factors, cultural variables, and legal aspects of care frame the ethical decision-making employed in patient choices for treatment or palliative care with the acute care setting. Case scenarios incorporate prioritizing care needs, delegation and supervision, and patient and family teaching for either discharge planning or end-of-life care. Exemplars include acute conditions affecting multiple body systems. Includes classroom and clinical learning experiences. Prerequisite: NRS 221.

NRS 224. Integrative Practicum I. 9 Credits. This course is designed to formalize the clinical judgments, knowledge and skills necessary in safe, registered nurse practice. Faculty/Clinical Teaching Association/Student Triad Model provides a context that allows the student to experience the nursing work world in a selected setting, balancing demands of job and lifelong learner. Analysis and reflection throughout the clinical experience provide the student with evaluate criteria against which they can judge their own performance and develop a practice framework. Includes seminar, self-directed study and clinical experience. Prerequisite: NRS 222.

NRS 230. Clinical Pharmacology I. 3 Credits. This course introduces the theoretical background that enables students to provide safe and effective care related to drugs and natural products to persons throughout the lifespan. It includes the foundational concepts of principles of pharmacology, nonopioid analgesics, and antibiotics, as well as additional classes of drugs. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources of information, understanding of pharmacokinetics and pharmacodynamics, developmental physiologic considerations, monitoring and evaluating the effectiveness of drug therapy, teaching persons from diverse populations regarding safe and effective use of drugs and natural products, intervening to increase therapeutic benefits and reduce potential negative effects, and communicating appropriately with other health professionals regarding drug therapy. Drugs are studied by therapeutic or pharmacological class, using an organized framework. Prerequisite: BI 231, BI 232, BI 233, and BI 234 or equivalent.
NRS 231. Clinical Pharmacology II. 3 Credits.
This sequel to Clinical Pharmacology I continues to provide the theoretical background that enables students to provide safe and effective nursing care related to drugs and natural products to persons throughout the lifespan. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources of information, monitoring and evaluating the effectiveness of drug therapy. The course addresses additional classes of drugs and related natural products not contained in Clinical Pharmacology I. Prerequisites: NRS 230.

NRS 232. Pathophysiological Processes I. 3 Credits.
This course introduces pathophysiological processes that contribute to many different disease states across the lifespan and human responses to those processes. It includes the foundational concepts of cellular adaptation, injury, and death; inflammation and tissue healing; fluid and electrolyte imbalances; and physiologic response to stressors and pain, as well as additional pathophysiological processes. Students will learn to make selective clinical decisions in the context of nursing regarding using current, reliable sources of pathophysiologic information, selecting and interpreting focused nursing assessments based on knowledge of pathophysiological processes, and communicating with other health professionals regarding pathophysiological processes. Prerequisite: BI 231, BI 232, BI 233, and BI 234 or equivalent.

NRS 233. Pathophysiological Processes II. 3 Credits.
This sequel to Pathophysiological Processes I continues to explore pathophysiological processes that contribute to disease states across the lifespan and human responses to those processes. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources of pathophysiologic information, selecting and interpreting focused nursing assessments based on knowledge of pathophysiological processes, teaching persons from diverse populations regarding pathophysiological processes, and communicating with other health professionals regarding pathophysiological processes. The course addresses additional pathophysiological processes not contained in Pathophysiological Processes I. Prerequisite: NRS 232.

OCCUPATIONAL SKILLS TRAINING

OST 09. On-the-Job Evaluation. 0 Credits.
Evaluates work traits, aptitudes, limitations, potentials and habits in an actual work environment, with specific focus on a particular occupation or industry. Instructor permission required. Audit available.

OST 101. Occupational Skills Training 101. 1-16 Credit.
Provides the opportunity for students to receive instruction in a specific occupational area or a normally addressed on-going PCC program. An individualized course in consultation with the student, PCC faculty, PCC OST coordinators, work-site supervisors, and agency representative(s), if appropriate. An interview with an OST coordinator is required for assessment, to determine the specific occupation and to approve a suitable training site and its availability. Prerequisites are determined by the specific occupational standards.

OFFICE SYSTEMS

OS 131. 10-key on Calculators. 1 Credit.
Develops 10-key skills by touch. Recommended: Placement into RD 115, WR 115, and MTH 20. Audit available.

OS 220. Business Editing Skills. 4 Credits.
Develops skills necessary for editing, transcribing, and writing memos, letters and email. Emphasis: punctuation, capitalization, spelling, grammar, and word use. Recommended: Placement into WR 121, keyboard by touch. Audit available.

OS 240. Filing and Records Management. 4 Credits.
Develops skills for indexing, coding, and cross-referencing documents to be filed. Includes requisitions and charge-outs, records transfer, various filing systems, and an overall view of the role of records management in business including electronic and image records. Recommended: RD 115, WR 115, and CAS 149 or CAS 140. Audit available.

OS 245. Office Systems and Procedures. 4 Credits.
Develops the skills of an administrative professional for current business practices. Uses computer technology for tasks such as scheduling, email, and faxing. Develops communication, organization and prioritizing skills, telephone techniques, problem solving, and analytical abilities. Analyzes current trends in workplace ethics and the multi-cultural workplace. Develops workplace readiness and applies job search skills for current job market. Prerequisites: CAS 216 and OS 220. Audit available.

OS 250. Creating a Virtual Office. 4 Credits.
Covers aspects of creating a virtual office for a virtual assistant. Includes developing an individual business plan, creating a marketing plan incorporating a social media marketing strategy, establishing a fee rate range, identifying software requirements, planning a company website, legal requirements, insurance issues, negotiating contracts, and creating a file management system. Recommended: CAS 246. Audit available.

OS 251. Virtual Office Concepts. 4 Credits.
Introduces the concepts and skills needed to become a successful virtual assistant. Covers time management, business relationships, telephone techniques, telecommuting, ethics, conflicts, stress management, separating home and office life, networking with other virtual assistants, virtual assistant associations, conducting virtual meetings, legal requirements, insurance issues, negotiating contracts, and creating business webpage and electronic portfolio. Prerequisite: OS 250 or instructor permission. Recommended: CAS 111D. Audit available.

OS 280F. Cooperative Education: Administrative Assistant. 1-4 Credit.
Provides field experience for the administrative assistant. Recommended: RD 115, WR 115 and satisfactory progress through at least 15 credit hours of CAS/OS courses, or instructor permission required. Audit available.

OPHTHALMIC MEDICAL TECHNOLOGY

OMT 102. Ocular Disease. 2 Credits.
Studies major ocular disorders and related structures integrated with symptomology and introduction of ophthalmic drugs. Audit available.

OMT 103. Ocular Pharmacology. 2 Credits.
Details major classifications of ophthalmic drugs, mechanisms of action, side effects, first aid techniques for acute ophthalmic drug reactions. Explores the relationship of ocular pathology and medications used for treatment. Prerequisites: MP 135, and (WR 115 or RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

OMT 104. Ophthalmic Office Procedures. 3 Credits.
Utilizes techniques to obtain medical and ophthalmic history, transcription of information into the medical chart, and common terms/abbreviations used in history taking. Covers front office techniques, including basic functions of a system in the medical office. Develops skills needed to obtain accurate patient visual acuity.

OMT 106. Introduction to Clinical Skills. 3 Credits.
Covers basic test principles and techniques including FDT, tangent screen and Humphrey visual fields, keratometry, and noncontact, TonoPen, and applanation tonometry. Continues work on history taking and JCAHPO scribing certification.

OMT 115. Introduction to Ophthalmics. 2 Credits.
Introduces ophthalmology, including history, roles and responsibilities of ophthalmic technicians and other allied health personnel in ophthalmology, industry standards and professional organizations. Discusses ethics of patient care, confidentiality, privacy, scope of practice and employment opportunities. Covers office efficiency, professionalism and risk management. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement.

OMT 121. Practicum I: Ophthalmic Medical. 3 Credits.
Provides an opportunity to observe clinical flow in an ophthalmology office to gain understanding of how patients are scheduled, examined, and treated. Covers taking a visual acuity, measuring glasses, basic screening techniques, obtaining pertinent patient ocular/medical history, and using a TonoPen. Includes how to establish rapport with patients in an ophthalmic practice. Includes the potential for practicing skills with diagnostic equipment, and electronic health records. Corequisite: OMT 231.

OMT 122. Practicum II: Ophthalmic Medical. 6 Credits.
Covers all aspects of creating a file in an ophthalmology office to gain understanding of how patients are scheduled, examined, and treated. Covers taking a visual acuity, measuring glasses, basic screening techniques, obtaining pertinent patient ocular/medical history, and using a TonoPen. Includes how to establish rapport with patients in an ophthalmic practice. Includes the potential for practicing skills with diagnostic equipment, and electronic health records. Corequisite: OMT 231.

OMT 145. Clinical Optics 1. 2 Credits.
Introduces basic optical principles and the human eye from both theoretical and practical standpoints. Explores prisms, basic dispensing, techniques for measuring types of lenses, use of the lens clock, use and maintenance of ophthalmic instruments and equipment. Audit available.

OMT 146. Clinical Optics 2. 2 Credits.
Introduces principles of retinoscopy, basic lensometry, and prisms as they relate to ocular motility. Continuation of OMT 145 Clinical Optics 1. Prerequisite: OMT 145. Audit available.
PL 103. Introduction to Law - Ethics. 3 Credits.
Covers their ethics rules and their practical application for the paralegal.
Includes application of rules via systems and procedures used in law practice.
Prerequisite: PL 101. Audit available.

PL 104. Investigation Techniques for Paralegals. 3 Credits.
Explores fundamental techniques of legal investigation from the incident scene to the courtroom. Includes ethics, research techniques, investigative strategies, on-site processing, information sources, witness location, report writing, subpoenas, physical and demonstrative evidence. Prerequisites: PL 101. Audit available.

PL 105. Litigation. 3 Credits.
Covers litigation process with emphasis on civil litigation. Includes a study of tort law principles focusing on the trial process (investigation, discovery and motion practice) emphasizing preparation of documents and pleadings.
Prerequisite: PL 101. Audit available.

PL 107. Techniques of Interview. 3 Credits.
Covers conducting client and witness interviewing techniques relevant to legal proceedings. Includes practicing simulated interviews. Prerequisite: WR 121. Prerequisite/concurrent: PL 101. Audit available.

PL 109. Estate Planning. 3 Credits.
Covers approaches to estate planning, including wills, trusts, shared ownership, gifts and life insurance. Includes objectives for estate planning, probate and the estate, and structures and results of different estate plans. Prerequisite/concurrent: PL 101. Audit available.

PL 111. Probate Practice. 3 Credits.
Covers preparation and filing of necessary papers used to administer an estate under Oregon state law. Audit available.

PL 113. Income Tax Law. 3 Credits.
Focuses on three key aspects of income taxation (principally federal income taxation). Includes basic concepts of income taxation, and understand the interaction of various components involved in the determination of the income tax. Covers the audit process, including how a taxpayer may appeal an audit decision and how an appeal may reach various courts. Learn how research differs from other legal research and will understand the implications of various types of authorities regarding tax law and procedure.
Prerequisite: PL 101. Audit available.

PL 116. Real Property Law I. 3 Credits.
Covers introductory principles and procedures in real and personal property law including possessory interests, estates, deeds, contracts, servitudes, leases, title issues and real estate transactions. Prerequisite/concurrent: PL 101. Audit available.

PL 124. Law Office Management. 3 Credits.
Covers law office organization and management, personnel management, basic accounting, procedural and automated systems, and other aspects of law office management. Prerequisite/concurrent: PL 101. Audit available.

PL 130. Legal Software. 3 Credits.
Provides training in a variety of specialized legal software applications through lecture, discussing and other classroom activities in current legal software applications, which include legal software used for conflict-checking, timekeeping, litigation support and trial preparation. Prerequisite: PL 101 and CAS 133. Audit available.

PL 140. Immigration Law for Paralegals. 3 Credits.
Provides an overview of United States immigration laws. Includes review and study of many critical immigration law doctrines, including nationality and citizenship, inadmissibility and deportability grounds, the worldwide immigrant selection system, basic administrative law concepts, asylum and refugee law, and defenses to deportation. Includes analyzing fact situations, reviewing caselaw, drafting documents and applying remedies, principles and doctrines.
Prerequisite: PL 101. Audit available.

PL 201. Legal Research and Library Use. 3 Credits.
Covers functions of the law library and the development of research skills through the use of digests, encyclopedias, reporter systems, statutes, secondary sources, and practice manuals. Prerequisites: PL 101. Audit available.

PL 202. Computer Research in Law. 3 Credits.
Covers how and when to use computers for legal research. Explores operational content differences between Fast Case and Lexis. Includes retrieving specific documents, checking citations, and practice research.
Prerequisite: PL 201. Audit available.

PL 204. Applied Legal Research and Drafting. 3 Credits.
Covers legal research skills and the drafting of legal pleadings, documents and memoranda common to the practice of law. Includes preparation of a portfolio of student work completed in the paralegal program.
Prerequisite: PL 202 and (WR 122 or WR 227). Audit available.
PL 206. Intellectual Property Law. 3 Credits.
Introduces concepts, law, and administrative rules necessary to interpret and accomplish tasks typically assigned to paralegals by attorneys in intellectual property (IP) law practices. Emphasizes patent and trademark prosecution (filing documents with the United States Patent and Trademark Office), copyrights, and to a lesser extent, unique facets of IP litigation. Prerequisite: PL 101. Audit available.

PL 208. Family Law. 3 Credits.
Covers theory, procedure, and practical aspects of a domestic relations practice. Includes dissolution of marriage, issues of custody, visitation, property and debts, adoption, paternity, domestic violence, and prenuptial and cohabitation agreements. Prerequisite: PL 101. Audit available.

PL 210. Elder Law. 3 Credits.
Explores and provides strategies for preserving clients’ quality of life as they age in the field of elder law, including important planning issues, such as where to live; financial management; health care; protection; insuring against risk of high costs of care; and planning for serious illness and death. Covers various tools, including elder abuse protection, long term care, Medicare and Medicaid, insurance, trusts, social security, guardianships and conservatorships and other planning issues. Prerequisite: PL 101 and PL 109. Audit available.

PL 216. Employment Law. 3 Credits.
Overview of Employment Law claims and remedies under state and federal law, including employment at will doctrine; wrongful discharge claims; discrimination based upon disability, gender and other claims; retaliation claims; Equal Pay Act, Family Medical Leave Act; health and safety issues; BOLI process, and other relevant issues. Prerequisites: PL 101. Audit available.

PL 219. Contract and Consumer Law. 3 Credits.
Provides an overview of contract law and selected consumer law claims and defenses. Includes understanding the basics of contract information, contract provisions, contract claims and defenses. Covers selected consumer law issues, including lemon law, warranties and fair debt collection. Prerequisite: PL 101. Audit available.

PL 220. Worker’s Compensation. 3 Credits.
Covers principles and procedures of the Oregon’s worker’s compensation system. Introduces the rules and concepts that control the right to compensation within the system as well as the procedural rules. Prerequisite/concurrent: PL 101. Audit available.

PL 221. Bankruptcy Law. 3 Credits.

PL 222. Corporate Law Practice. 3 Credits.
Covers most significant state corporation law: how to assist in preparation and filing of documents necessary to form a corporation, how to draft resolutions for corporate shareholders and directors’ meetings, and how to pay dividends to shareholders or to terminate business and distribute property. Prerequisite: PL 101. Audit available.

PL 224. Torts and Personal Injury. 3 Credits.
Provides an overview of tort law and handling personal injury claims, including paralegal’s role. Includes study of international torts, negligence and strict liability claims, defenses, vicarious liability, tort claims act, damages, analysis of fact situations, review of case law, draft pleadings, evaluation of damages, discovery issues, and application of principles discussed in class. Prerequisite/concurrent: PL 101. Audit available.

PL 226. Criminal Law for Paralegal. 3 Credits.
Covers general criminal law and procedure to gain a basic understanding of the criminal justice system as well as the Paralegal’s role in the criminal justice system. Prerequisite/concurrent: PL 101. Audit available.

PL 230. Litigation II. 3 Credits.
Introduces and covers E-Discovery. The E-Discovery Reference Model (“EDRM”) and the software used in law firms for document review. Covers current trends in the Federal Rules of Civil Procedure, social media and cloud computing discovery issues and the practical application of these rules. PC and Mac formats will be covered. Prerequisites: PL 101, PL 105, and PL 130. Audit available.

PL 235. Litigation III. 3 Credits.
Covers the paralegal’s role in large-budget, deeply staffed litigation in which a range of lawyers and paralegals staff a case. Explores how to manage and track documents, assemble and organize documents to assist lawyers preparing for depositions and trial, and manage trial technology. Prerequisites: PL 101, PL 105, and PL 130. Prerequisite/concurrent: PL 230. Audit available.

PL 240. Environmental Law. 3 Credits.
Explores federal, state and regional policies involving environmental issues and cutting edge developments. Includes case law trends, building regulations, energy development, energy efficiency and climate change trends. Explores how the law can be ahead of industry and how industry can be ahead of the law. Prerequisite: PL 101. Audit available.

PL 250. Administrative Law for Paralegals. 3 Credits.
Covers the processes of administrative law as it applies to state and federal agencies. Focuses on specific administrative agencies, as well as career opportunities in the field of administrative law. Prerequisite: PL 101. Audit available.

PL 275. Paralegal Career Development. 1 Credit.
Covers application process and practices used to obtain employment in the legal field and begin developing a paralegal or career in an alternative, related legal field. Required: 18 credits earned in Paralegal courses. Prerequisites: PL 101.

PL 280A. Cooperative Education: Paralegal. 1-3 Credit.
Students work at approved job sites to receive as varied and complete a job experience as possible under job conditions. Designed to meet the needs of the individual student and the conditions of the work site. Goals for each student are established by written Learning Objectives between the student and work site, approved by the Instructor or program. Department approval and completion of 18 credits hours in Paralegal Program (unless waived by the Department) are required. Audit available.

PARENTING EDU AND FAMILY LIFE

HEC 140. Introduction to Family Life Education. 3 Credits.
Introduces an overview of the field of Family Life Education (FLE). Covers theory, methods, and contexts of family life education, including family diversity, sexuality education, and parenting education. Audit available.

HEC 157. Parenting Skills. 1 Credit.
Examines current issues affecting the role of parents in today’s society. Covers the stages of early childhood development, age appropriate learning expectations, guidance techniques, and parental influence on child development over time. Audit available.

HEC 201. Family Partnerships in Education. 3 Credits.
Introduces the study of family behavior, values, and attitudes. Covers the historical, cultural, and socioeconomic influences on family development, including ecological systems, demographic trends, diversity, contemporary issues and public policy. Audit available.

HEC 212. Parent-Child Relations. 3 Credits.
Introduces the social, developmental, and cultural nature of parenting. Covers parent-child relationships in social contexts, the work of parenting, and issues facing contemporary parents and children. Audit available.

HEC 226. Child Development. 4 Credits.
Basic theories, research and principles of physical, cognitive, language, social and emotional development of children from the prenatal period through adolescence. Includes observation and classroom processes. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ AAS, Social Sciences/AGS, Social Sciences/AS.

HEC 280A. Cooperative Education: Early Education and Family Studies. 1-3 Credit.
Provides an opportunity for hands-on skill development in planned, supervised and regularly evaluated experiences in early education and family studies settings. Experiences and placement sites vary and are developed to meet individual goals. Department permission required. Audit available.

PHILOSOPHY

PHL 191. Analysis & Evaluation of Argument. 4 Credits.
Identifies and analyzes arguments by discerning simple logical patterns of argument, extracting arguments from the contexts in which they occur, restating them in clear and concise terms and clearing away needless language in formulating arguments. Illustrates common reasoning errors involving fallacies and provides logical alternatives. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

PHL 195. Science, Skepticism, & the Unknown. 4 Credits.
Introduces scientific method, assessment criteria for scientific observations and explanations and the difference between genuine and pseudoscience. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.
PHL 107. Manufacturing Reality: Critical Thinking and the Media. 4 Credits.
Addresses the genetic impact of electronic media on our perceptions of truth and reality. Emphasizes skills to critically deconstruct and analyze the embedded values, messages, and techniques of electronic media as a basis for empowering students to formulate meaningful responses. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AGS, Arts and Letters/AGES, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

PHL 201. Being and Knowing. 4 Credits.
Introduces philosophical questions and approaches associated with metaphysics (being) and epistemology (knowing) via the works of important figures in the history of philosophy. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGES, Arts and Letters/ASOT-B, Arts and Letters/ASOT-A, Arts and Letters/AS.

PHL 201H. Being and Knowing: Honors. 4 Credits.
Honors version of PHL 201. Introduces metaphysics and the theory of knowledge via the works of important figures in the history of philosophy. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and 3.25 GPA. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGES, Arts and Letters/ASOT-B.

PHL 202. Ethics. 4 Credits.
Studies attempts by philosophers to account for the difference between right and wrong, for the notion of moral obligation and to answer the question: How should we lead our lives? Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and 3.25 GPA. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGES, Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AS.

PHL 202H. Ethics: Honors. 4 Credits.
Honors version of PHL 202. Studies attempts by philosophers to account for the difference between right and wrong, for the notion of moral obligation and to answer the question: How should we lead our lives? Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and 3.25 GPA. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGES, Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AS.

PHL 204. Philosophy of Religion. 4 Credits.
Explores individual and cultural assumptions about the nature of the human person in the light of recent research in the cognitive sciences. Includes reading pertinent philosophical and related texts, and may involve museum and research facility field trips (except in online classes), and may involve museum and research facility field trips (except in online classes). Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT-B, Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AS.

PHL 205. Biomedical Ethics. 4 Credits.
Introduces ethical questions that pertain to human choices regarding health and medical care. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AS.

PHL 206. Introduction to Environmental Ethics. 4 Credits.
Examines the philosophical questions and approaches involving religious concepts associated with faith, God, mysticism, morality, identity, language, and death. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AAOT.

PHL 207. Ethics and Aging. 4 Credits.
Explores central ethical issues pertaining to the care of elderly patients. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT.

PHL 208. Political Philosophy. 4 Credits.
Introduction to the analysis of political theories and concepts through study of the works of major figures in the history of political philosophy from Plato to the present. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT-B, Arts and Letters/AAOS, Arts and Letters/AAOT.

PHL 209. Business Ethics. 4 Credits.
Reviews some historical and contemporary ethical theories and ethical issues that arise in several aspects of business, such as, management, use of computers, marketing, accounting, and doing business in an international setting. Includes the social responsibilities of corporations, the rights of workers, truth in advertising, the environmental impact of doing business, affirmative action in hiring, sexual harassment in the workplace, respect for cultural differences, and the responsibilities of the individual in the corporate setting. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT-B, Arts and Letters/AAOS, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAOT.
PHL 298. Independent Study: Philosophy. 1-4 Credit. 
Provides advanced, individualized study in areas of philosophy not considered in other courses to meet special interests or program requirements. Requires a term project and readings approved by the instructor. Recommended: prior study in philosophy and instructor permission. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

PHYSICAL EDUCATION

PE 10. Physical Education Activity Program. 1 Credit. 
Provides independent study format allowing participation in a variety of activities using designated PCC facilities when classes are not scheduled. Check with appropriate institution or high school for transferability of this class. Consultation with instructor may be required. Recommended: signed physical examination form. Audit available.

PE 120A. Ballet I. 1 Credit. 
Introduces fundamentals of Ballet technique with a focus on correct alignment, development of strength, flexibility, range of motion, stability, and Ballet terminology. D 190A and PE 120A cannot both be taken for credit. Audit available.

PE 120B. Ballet I. 1 Credit. 
Explores concepts of beginning Ballet with a focus on correct alignment, form, musicality and moving with greater awareness. Provides a foundation for Ballet II. D 190B and PE 120B cannot both be taken for credit. Prerequisites: D 190A or PE 120A. Audit available.

PE 120C. Ballet II. 1 Credit. 
Develops Ballet technique at intermediate level with a focus on dynamic alignment, musicality, movement qualities, and functional technique. D 191A and PE 120C cannot both be taken for credit. Prerequisites: D 190B or PE 120B. Audit available.

PE 120D. Ballet II. 1 Credit. 
Continues development of Ballet technique at an Intermediate level with a focus on dynamic alignment, musicality, movement qualities, and functional technique. D 191B and PE 120D cannot both be taken for credit. Prerequisites: D 191A or PE 120C. Audit available.

PE 120E. Ballet III. 1 Credit. 
Develops Ballet technique at an advanced level with a focus on dynamic alignment, musicality, movement qualities, functional technique and performance. D 290A and PE 120E cannot both be taken for credit. Prerequisites: D 191B or PE 120D. Audit available.

PE 120F. Ballet III. 1 Credit. 
Continues development of Ballet technique at an advanced level with a focus on dynamic alignment, musicality, movement qualities, functional technique and performance. D 290B and PE 120F cannot both be taken for credit. Prerequisites: D 290A or PE 120E. Audit available.

PE 121A. Modern Dance I. 1 Credit. 
Introduces fundamentals of Modern Dance technique with a focus on correct alignment, development of strength, flexibility, range of motion, and stability, and dance specific terminology. D 130A and PE 121A cannot both be taken for credit. Audit available.

PE 121B. Modern Dance I. 1 Credit. 
Explores concepts of beginning Modern Dance with a focus on correct alignment, form, musicality and moving with greater awareness. D 130B and PE 121B cannot both be taken for credit. Prerequisites: D 130A or PE 121A. Audit available.

PE 121C. Modern Dance II. 1 Credit. 
Develops Modern Dance technique at an Intermediate level with a focus on dynamic alignment, musicality, movement qualities, and functional technique. D 131A and PE 121C cannot both be taken for credit. Prerequisites: D 130B or PE 121B. Audit available.

PE 121D. Modern Dance II. 1 Credit. 
Continues development of Modern Dance technique at an Intermediate level with a focus on dynamic alignment, musicality, movement qualities, ensemble work, and functional technique. D 131B and PE 121D cannot both be taken for credit. Prerequisites: D 131A or PE 121C. Audit available.

PE 121E. Modern Dance III. 1 Credit. 
Develops Modern Dance technique at an Intermediate/Advanced level with a focus on dynamic alignment, musicality, movement qualities, functional technique, and performance. D 230A and PE 121E cannot both be taken for credit. Prerequisites: D 131B or PE 121D. Audit available.

PE 121F. Modern Dance III. 1 Credit. 
Continues development of Modern Dance technique at an Intermediate/ Advanced level with a focus on applying techniques and skills to enhance performance. D 230B and PE 121F cannot both be taken for credit. Prerequisites: D 230A or PE 121E. Audit available.

PE 124. World Dance. 1 Credit. 
Introduces traditional and popular dance forms and styles from a selection of countries and cultures. Examines and practices dance movement within a cultural context. Ethnic dances may vary by term. This course is also offered as D 170; a student who enrolls in this course a second time under either designator will be subject to the course repeat policy. Audit available.

PE 130A. Adapted Physical Education I. 1 Credit. 
Provides instruction on exercises that deal with acute or chronic injuries or disabilities to improve fitness, health and overall wellness. Covers knowledge and skills needed to perform safe and proper group and individual fitness exercises. Introduces activities adapted to disabilities to promote and emphasize cardiorespiratory conditioning, muscular strength and endurance, flexibility, and body composition. Audit available.

PE 130B. Adapted Physical Education II. 1 Credit. 
Covers exercises that deal with acute or chronic injuries or disabilities to improve fitness, health and overall wellness. Continues to develop knowledge and skills needed to perform safe and proper group and individual fitness exercises. Introduces activities adapted to disabilities to promote and emphasize cardiorespiratory conditioning, muscular strength and endurance, flexibility, and body composition. Introduces instruction regarding individual exercise programming. Audit available.

PE 130C. Adapted Physical Education III. 1 Credit. 
Covers exercises that deal with acute or chronic injuries or disabilities to improve fitness, health and overall wellness. Continues to develop knowledge and skills needed to perform safe and proper group and individual fitness exercises. Introduces activities adapted to disabilities to promote and emphasize cardiorespiratory conditioning, muscular strength and endurance, flexibility, and body composition. Introduces instruction regarding individual exercise programming utilizing two or more components of fitness (muscular strength and endurance, cardiovascular fitness, flexibility, body composition.) Audit available.

PE 130D. Aquatic Adapted Physical Education I. 1 Credit. 
Provides exercises that deal with acute or chronic injuries to improve fitness, health and overall wellness through structured water exercise. Develops knowledge and skills needed to perform safe and proper group and individual fitness exercises in the water. Introduces water activities to promote and emphasize cardiorespiratory conditioning, muscular strength and endurance, flexibility, and body composition. Audit available.

PE 140A. Boxing I. 1 Credit. 
Introduces basic knowledge and fundamental techniques used in boxing. Utilizes boxing equipment and focus pads to simulate contact. This is a non-contact class. Boxing gloves and hand wraps are required. Audit available.

PE 140B. Boxing II. 1 Credit. 
Expands knowledge, application and skills of the techniques used in Boxing I. Utilizes boxing equipment and focus pads to simulate contact. This is a non-contact class. Boxing gloves and hand wraps are required. Audit available.

PE 141A. Disc Golf. 1 Credit. 
Provides disc golf instruction in skills, drills and game play. Emphasizes history, etiquette, rules, vocabulary and strategy. Promotes skill related components of physical fitness (agility, balance, coordination, power, speed and reaction time). Audit available.

PE 142A. Zumba Fitness I. 1 Credit. 
Introduces Zumba Fitness to improve health and overall wellness through structured group exercise. Promotes improvement of cardiorespiratory conditioning, muscle endurance and flexibility. Audit available.

PE 142B. Zumba Fitness II. 1 Credit. 
Expands knowledge, application and skills of Zumba Fitness I. Builds upon fundamental techniques learned in Zumba Fitness I. Promotes continued improvement of cardiorespiratory conditioning, muscular endurance, and flexibility through the safe and proper execution of Zumba. Audit available.

PE 142C. Zumba Fitness Gold. 1 Credit. 
Introduces a slower paced Zumba. Incorporates Zumba music at half pace for lower impact work. Promotes improved cardiorespiratory conditioning, muscle endurance, flexibility and body composition. Audit available.

PE 143A. Aquatic Exercise I. 1 Credit. 
Includes aerobic exercise, strength conditioning, and stretching movements set to music, in an aquatics environment. Incorporates exercise in both shallow and deep water in order to take advantage of the natural buoyancy and resistance properties of water. Swimming skills are not required. Audit available.
PE 143B. Aquatic Exercise II. 1 Credit.
Includes aerobic exercise, strength conditioning and stretching movements set to music in an aquatics environment. Incorporates exercise in both shallow and deep water in order to take advantage of the natural buoyancy and resistance properties of water. Introduces exercises and equipment related to improving speed, agility and quickness. Swimming skills are not required. Audit available.

PE 143C. Aquatic Exercise III. 1 Credit.
Includes aerobic exercise, strength conditioning, and stretching movements set to music in an aquatics environment. Incorporates exercise in both shallow and deep water in order to take advantage of the natural buoyancy and resistance properties of water. Continues utilization of exercises and equipment related to improving speed, agility, and quickness. Introduces add-on, pyramid, and layer choreography. Swimming skills are not required. Audit available.

PE 162G. Cardio Conditioning. 1 Credit.
Introduces cardio conditioning to improve fitness, health, and overall wellness through structured group fitness and individualized cardiorespiratory exercises. Covers knowledge and skills needed to perform safe and proper group exercise. Emphasizes improved cardiorespiratory conditioning, muscular strength and endurance, flexibility, and body composition. Audit available.

PE 162J. Brazilian Jiu Jitsu I. 1 Credit.
Provides opportunities to improve fitness, health and overall wellness through Brazilian Jiu Jitsu (BJJ). Covers basic BJJ knowledge and skills (such as movements, postures, and concepts) in a progressive skill building approach. Emphasizes proper technique, mobility, pressure and leverage awareness. Establishes a foundational knowledge of BJJ, including utilization of ground techniques for self defense. Introduces both Gi and non-Gi techniques. Students will be required to obtain a Gi by the 3rd week of class. Audit available.

PE 162K. Brazilian Jiu Jitsu II. 1 Credit.
Expands knowledge, application and skills in Brazilian Jiu Jitsu (BJJ). Continues covering fundamentals and techniques explored in Brazilian Jiu Jitsu I. Recommended: PE 162J or instructor approval. Audit available.

PE 162L. Brazilian Jiu Jitsu III. 1 Credit.
Continues to expand knowledge, application and skills in Brazilian Jiu Jitsu. Builds upon fundamentals and techniques explored in Brazilian Jiu Jitsu II. Introduces Brazilian Jiu Jitsu leadership concepts and skills. Recommended: PE 162K or instructor approval. Audit available.

PE 162M. Mixed Martial Arts Conditioning. 1 Credit.
Introduces high-intensity mixed martial arts (MMA) group exercise focusing on challenging the body in a dynamic and energetic fashion. Includes a variety of activities and exercises in challenging conditions unique to MMA. Utilizes resistance, balance, and compounded motions to improve overall fitness to help optimize athletic performance while minimizing potential injury when performing mixed martial arts activities. Audit available.

PE 162O. Core Fitness. 1 Credit.
Introduces safe and proper exercises, in a group exercise setting, that stabilize the core muscles including back, abdominal, hip, pelvic and lateral trunk muscles. Promotes improved cardiorespiratory conditioning, muscle strength and endurance, flexibility, and/or composition with an emphasis on involvement of strong core muscles. Audit available.

PE 180A. Beginning Swimming. 1 Credit.
Introduces swimming and aquatic skills to those who have limited or no swimming skills and may be uncomfortable in the water. Audit available.

PE 180B. Intermediate Swimming. 1 Credit.
Continues the development of swimming and water safety skills in both shallow and deep water. Introduces new strokes, including breaststroke, sidestroke, elementary backstroke, and butterfly. Prerequisite: PE 180A or instructor permission. Audit available.

PE 180C. Advanced Swimming. 1 Credit.
Continues the development of swimming and water safety skills. Introduces stroke refinement, building toward skill proficiency. Prerequisite: PE 180B or instructor permission. Audit available.

PE 180K. Masters Swimming. 1 Credit.
Introduces a competitive swimming class that incorporates all competition strokes, turns, strategies, rules, and training. Promotes opportunities for optional weekend Masters swim meets. Recommended: Advanced swimming skills. Audit available.

PE 180L. Swim Conditioning I. 1 Credit.
Focuses on improvements in cardiovascular endurance, muscular strength/ endurance, and flexibility through swimming. Includes water/land exercises, lap swimming and water games. Recommended: intermediate level swim skills or equivalent. Audit available.

PE 180M. Swim Conditioning II. 1 Credit.
Focuses on improvements in cardiovascular endurance, muscular strength and endurance, and flexibility through swimming. Includes water and land exercises, lap swimming and water games. Audit available.

PE 180N. Swim Conditioning III. 1 Credit.
Focuses on skills to improve cardiovascular endurance, muscular strength and endurance, and flexibility through swimming. Includes water and land exercises, lap swimming, and water games. Includes all competitive strokes for improved conditioning. Introduces open water swimming techniques. Recommended: Swim Conditioning II, intermediate level swimming skills or equivalent. Audit available.

PE 181A. Beginning Weight Training. 1 Credit.
Stresses the proper guidelines, principles, and techniques of weight lifting and the development of muscular strength and endurance. Introduces the development of individual weight training programs which allow for body and strength differences, including weight training etiquette and safety. Introduces evaluation techniques for muscular endurance and strength. Audit available.

PE 181B. Intermediate Weight Training. 1 Credit.
Continues to stress the proper guidelines, principles, and techniques of weight lifting and the development of muscular strength and endurance at an intermediate level. Introduces intermediate level evaluation techniques for muscular strength and endurance. Continues development of individual weight training programs and advanced evaluation techniques. Recommended: PE 181B Intermediate Weight Training or equivalent. Audit available.

PE 181C. Advanced Weight Training. 1 Credit.
Reinforces the proper guidelines, principles and techniques of weight lifting, and the development of muscular strength, endurance and power at an advanced level. Introduces Olympic lifting techniques. Continues development of individual weight training programs and advanced evaluation techniques. Recommended: PE 181B Intermediate Weight Training or equivalent. Audit available.

PE 181D. Circuit Interval Training 1. 1 Credit.
Improves aerobic, anaerobic, and strength conditioning through interval training. Includes the use of free weights and/or gym circuit weight training machines and functional fitness training. Audit available.

PE 181E. Circuit Interval Training 2. 1 Credit.
Covers the continued improvement of aerobic and anaerobic fitness, and strength through circuit interval training. Includes the use of free weights and/or gym circuit weight training machines and functional fitness training. Audit available.

PE 181M. Boot Camp II. 1 Credit.
Focuses on cardio-respiratory fitness, muscular strength and endurance. Includes interval training, dynamic stretching, strength trainings, high intensity fitness training, muscle confusion training, endurance training and plyometrics. Audit available.

PE 182A. Beginning Group Fitness. 1 Credit.
Promotes fitness, health, and overall wellness through structured group fitness classes. Introduces knowledge and skills needed to perform safe and proper group fitness exercises. Emphasizes improved cardiorespiratory conditioning, muscle strength and endurance, flexibility, and body composition. Skills covered may vary by campus, term, and/or instructor. Recommended: PE 182A or a recent group exercise class. Audit available.

PE 182C. Walking for Fitness I. 1 Credit.
Introduces a self-paced walking program as a lifelong fitness activity that maintains and enhances physical fitness and well-being. Provides basic information and tools needed to understand, organize, plan, and implement a physical fitness program that features walking as the primary activity. Audit available.

PE 182D. Walking for Fitness II. 1 Credit.
Introduces a self-paced walking program as a lifelong fitness activity that maintains and enhances physical fitness and well-being at an intermediate level. Focuses on safe and effective ways to increase walking frequency, duration, and intensity. Provides information and tools needed to understand, organize, plan and implement a progressive physical fitness program that features walking as the primary activity. Recommended: PE 182C, or average fitness level. Audit available.
PE 182E. Running for Fitness. 1 Credit.
Introduces basic running performance fundamentals that help maintain and enhance physical fitness and overall well-being. Provides foundational information and tools needed to understand, organize, plan, and implement a physical fitness program that features running as a primary cardiorespiratory activity. Audit available.

PE 182F. Boot Camp I. 1 Credit.
Focuses on cardiorespiratory fitness and muscular endurance using dumbbells and other equipment (physioballs, steps, etc.) Covers key muscle groups, facilitating muscle fitness and flexibility gains. Introduces high-intensity calisthenic training in a group class format. Audit available.

PE 182G. Tai Chi II. 1 Credit.
Continues the exploration of theories and movement principles, meditation and Yi (mind) development introduced in Tai Chi I. Expands upon the basic techniques to develop a life-long practice of Tai Chi. Recommended: PE 182S or instructor approval. Audit available.

PE 182H. Adult Fitness. 1 Credit.
Introduces exercises and activities that address the body as it develops through adulthood. Focuses on large muscle group strengthening, conditioning, and flexibility. Incorporates exercise safety regarding proper exercise techniques, and proper use of exercise equipment. Audit available.

PE 182I. Power Yoga. 1 Credit.
Covers intermediate and advanced Hathta yoga poses. Offers exposure to other areas of mind body fitness and an opportunity to study a selected yoga topic in depth. Recommended: Prior knowledge and skills to perform the Sun Salutation A and B. Audit available.

PE 182J. Gentle Yoga. 1 Credit.
Introduces Vinyasa yoga techniques to better manage stress. Incorporates a dynamic series of poses performed at a gentle pace. Covers basic yoga philosophy, asanas, pranayama, meditation and relaxation for a holistic approach to better health and wellness. Recommended for students with limited abilities and beginners who are not ready for Yoga I. Audit available.

PE 182K. Yoga I. 1 Credit.
Introduces the values and skills of Hatha yoga. Includes basic yoga philosophy and exercises for increased flexibility, improved health, relaxation, and reduced stress in daily living. Audit available.

PE 182L. Yoga II. 1 Credit.
Expands application of the values and skills of Hatha yoga. Includes intermediate yoga exercises for increased flexibility, improved health, relaxation, and reduced stress in daily living. Recommended: prior class in Hatha yoga. Audit available.

PE 182M. Pilates I. 1 Credit.
Covers Pilates with a focus on increasing core strength and stabilization, muscle balance, toning, coordination, and flexibility. Incorporates non-impact mat exercises designed to develop whole body awareness and control, and includes modifications for various fitness levels. Audit available.

PE 182N. Self-Paced Fitness. 1 Credit.
Introduces a self-paced physical exercise program encompassing cardiovascular conditioning, strength training and flexibility exercises. Incorporates individual and independent physical exercise and requires tracking exercises in a log/journal. Audit available.

PE 182P. Back Care. 1 Credit.
Explores appropriate exercises, body mechanics, posture, and other techniques for prevention and relief of back pain. Audit available.

PE 182S. Tai Chi I. 1 Credit.
Explores an ancient form of gentle movement which emphasizes balance, concentration and coordination. Addresses traditional styles of Tai Chi, meditation and Yi (mind) development techniques in an easy to follow format. Audit available.

PE 182U. Aikido I. 1 Credit.
Introduces Aikido concepts and skills necessary to hike safely as a regular fitness activity. Includes fitness for hiking, route planning, safety, and environmental considerations. Recommended: Be able to comfortably walk on outdoor trails for three miles or more. Be prepared for day hiking trips off campus by providing your own transportation, parking fees and equipment. Audit available.

PE 183B. Beginning Hiking. 1 Credit.
Introduces hiking concepts and skills necessary to hike safely as a regular fitness activity. Includes fitness for hiking, route planning, safety, and environmental considerations. Required: Be able to comfortably walk on outdoor trails for three miles or more. Be prepared for day hiking trips off campus by providing your own transportation, parking fees and equipment. Audit available.

PE 183C. Beginning Rock Climbing. 1 Credit.
Explores rock climbing basics including: safety, proper gear and its use, movement over rock, back rock rescue, climbing etiquette, and environmental concerns. Introduces rock climbing as an activity that helps improve fitness, health, and overall wellness. Requirement: The ability to travel to local indoor rock climbing gyms to practice techniques and skills. Transportation to and from the climbing facility, as well as the ability to pay a facility use fee to the climbing facility. Facility use fee varies. Audit available.

PE 183D. Beginning Golf. 1 Credit.
Introduces the game of golf at a beginning level. Covers basic skills that relate to the serve, ground strokes, and the volley. Includes basic history, terminology, etiquette, strategy, and scoring of game. Audit available.

PE 183E. Beginning Tennis. 1 Credit.
Introduces the game of tennis at an intermediate level. Covers intermediate skills that relate to the serve, ground strokes, and the volley. Emphasizes strategy related to singles, doubles, and competition play. Audit available.

PE 183F. Intermediate Tennis. 1 Credit.
Introduces the game of tennis at an intermediate level. Covers intermediate skills that relate to the serve, ground strokes, and the volley. Emphasizes strategy related to singles, doubles, and competition play. Audit available.

PE 183G. Beginning Karate. 1 Credit.
Introduces the art of Karate I at an intermediate level or above. Recommended: Beginning Karate skills and/or instructor approval. Audit available.

PE 183H. Intermediate Karate. 1 Credit.
Introduces the art of Karate I at an intermediate level or above. Recommended: Beginning Karate skills and/or instructor approval. Audit available.

PE 183I. Beginning Volleyball. 1 Credit.
Introduces the game of volleyball at an intermediate level. Covers intermediate and advanced skills in the use of all clubs for the game of volleyball. Includes rules, course management, and volleyball etiquette. Utilizes off-campus driving range, putting green and pitching area practice facilities. Requirement: Must play at least a few rounds of volleyball outside of class. Must be responsible for their own transportation to off-campus locations and facility use fees. Audit available.

PE 183J. Advanced Volleyball. 1 Credit.
Introduces an independent opportunity to exceed age-related walking and fitness levels through an individualized walking program and active participation in Volkswalking events. Requirement: Weekly walking log reports submitted via current PCC email account. Audit available.

PE 183K. Beginning Volkswalking. 1 Credit.
Provides an independent opportunity to exceed age-related walking and fitness levels through an individualized walking program and active participation in Volkswalking events. Requirement: Weekly walking log reports submitted via current PCC email account. Audit available.

PE 183L. Beginning Rock Climbing. 1 Credit.
Explores rock climbing basics including: safety, proper gear and its use, movement over rock, back rock rescue, climbing etiquette, and environmental concerns. Introduces rock climbing as an activity that helps improve fitness, health, and overall wellness. Requirement: The ability to travel to local indoor rock climbing gyms to practice techniques and skills. Transportation to and from the climbing facility, as well as the ability to pay a facility use fee to the climbing facility. Facility use fee varies. Audit available.

PE 183M. Advanced Volkswalking. 1 Credit.
Provides an independent opportunity to exceed age-related walking and fitness levels through an individualized walking program and active participation in Volkswalking events. Requirement: Weekly walking log reports submitted via current PCC email account. Audit available.

PE 183N. Beginning Aikido. 1 Credit.
Introduces the fundamental techniques employed in the art of Aikido. Audit available.

PE 183O. Advanced Aikido. 1 Credit.
Introduces the fundamental techniques employed in the art of Aikido. Audit available.

PE 183P. Beginning Aikido. 1 Credit.
Introduces the fundamental techniques employed in the art of Aikido. Audit available.

PE 183Q. Advanced Aikido. 1 Credit.
Introduces the fundamental techniques employed in the art of Aikido. Audit available.

PE 183R. Karate I. 1 Credit.
Introduces the fundamental techniques employed in the art of Karate. Audit available.

PE 183S. Karate II. 1 Credit.
Introduces the fundamental techniques employed in the art of Karate at an intermediate level or above. Recommended: Beginning Karate skills and/or instructor approval. Audit available.

PE 183T. Tai Chi I. 1 Credit.
Introduces the fundamental techniques employed in the art of Tai Chi. Audit available.

PE 183V. Tai Chi II. 1 Credit.
Introduces the fundamental techniques employed in the art of Tai Chi. Audit available.

PE 183W. Tai Chi III. 1 Credit.
Introduces the fundamental techniques employed in the art of Tai Chi. Audit available.
PE 183W. Judo I. 1 Credit.
Introduces a working knowledge of the fundamental techniques employed in the art of Kodokan Judo. Audit available.

PE 183W. Judo II. 1 Credit.
Build on knowledge and skill areas covered in Judo I. Audit available.

PE 183X. Tae Kwon Do I. 1 Credit.
Introduces a working knowledge of the fundamental techniques employed in the art of Tae Kwon Do. Audit available.

PE 183Y. Tae Kwon Do II. 1 Credit.
Progressive continuation of the fundamental techniques employed in the art of Tae Kwon Do I. Audit available.

PE 183Z. Tae Kwon Do III. 1 Credit.
Expands knowledge of Tae Kwon Do techniques beyond the basics while strengthening self-defense skills. Covers skills required for national and international black belt certifications, as well as skills required for Olympic-style sparring referee certification through USA Taekwondo. Develops skill set required to instruct beginning Tae Kwon Do students, including the use of Korean vocabulary and classroom etiquette. Recommended: PE 183Y or instructor approval. Audit available.

PE 184A. Beginning Skiing - Nordic. 1 Credit.
Introduces nordic ski techniques for groomed tracks and ungroomed snow conditions. Emphasizes speed control, efficient body movement and safety. Covers basic winter survival techniques, proper clothing, and trail etiquette. Audit available.

PE 184B. Intermediate Skiing - Nordic. 1 Credit.
Emphasizes techniques to increase power and control in the diagonal stride, speed control in varied downhill conditions, varied turning maneuvers and beginning skiing and telemark skiing Recommended: experience in basic cross country skiing. Audit available.

PE 184C. Advanced Skiing - Nordic. 1 Credit.
Introduces advanced nordic ski techniques. Prepares skiers to make dynamic technique adjustments to timing, terrain changes, turning for speed control and efficiency in skiing and telemark skiing. Addresses terrain changes, weather and snow conditions. Audit available.

PE 184D. Beginning Skiing - Alpine. 1 Credit.
Designed to teach inexperienced skiers to link turns together with control on beginning and beginning/intermediate terrain. Introduces the fun of downhill skiing and emphasizes skills necessary to ski safely on appropriate terrain. Addresses the variables of weather and snow conditions. Audit available.

PE 184E. Intermediate Skiing - Alpine. 1 Credit.
Covers the continued improvement of safe, enjoyable skiing, utilizing the skill of wedge christies at an intermediate level. Includes skidded parallel turns of varying radii with control on beginning to intermediate terrain. Addresses variables of weather, snow conditions, and terrain. Prerequisite: PE 184D or equivalent or instructor permission. Audit available.

PE 184F. Advanced Skiing - Alpine. 1 Credit.
Skis on intermediate/advanced terrain with dynamic parallel turns. Applies edging, pressure control, rotary and balancing movements to allow confidence and versatility on steeper terrain and in varying snow conditions. Addresses variables of weather, snow conditions, and terrain. Recommended: Intermediate Alpine class or equivalent. Audit available.

PE 184G. Beginning Snowboarding Skiing, 1 Credit.
Basic skills necessary for safe and fun snowboarding on appropriate terrain will be taught. Also skidded turns with control on beginning and beginning/intermediate terrain. The variables of weather and snow conditions will be addressed. Audit available.

PE 184H. Intermediate Snowboarding Skiing, 1 Credit.
Continues refinement of basic skills. Students will be taught to link beginning carved turns with rhythm and control on intermediate and beginning advanced terrain. Stresses safe boarding with improvement in skill applications. The variables of weather and snow conditions will be addressed. Recommended: Beginning Snowboarding class or equivalent. Audit available.

PE 184L. Advanced Snowboarding Skiing, 1 Credit.
Development of snowboarding skills at higher speeds, varied and difficult terrain. Includes instruction in park riding, freestyle, or powder. Emphasizes safe boarding in challenging conditions. Recommended: Intermediate snowboard or equivalent. Audit available.

PE 184N. Physical Activity for Weight Control II. 1 Credit.
Continues as an independent and progressive activity program for overweight and/or older students who have taken PE 182W. Covers concepts, activities, and programming that promote weight control through physical activity. Prerequisite: PE 182W. Audit available.

PE 184P. Advanced Hiking, 1 Credit.
Expands upon beginning hiking concepts and skills necessary to hike safely. Explores advanced hiking topics such as longer route planning, map reading, compass use, GPS and other technologies, orienteering, and wilderness emergency planning. Required: Be able to comfortably walk on outdoor trails for six miles or more. Be prepared for day hiking trips off campus by providing your own transportation, parking fees and equipment. Audit available.

PE 185A. Beginning Basketball. 1 Credit.
Provides instruction in basketball fundamentals, skills, and rules through drills and game play. Audit available.

PE 185B. Intermediate Basketball. 1 Credit.
Provides instruction and an opportunity to develop basketball skills and knowledge at an intermediate level. Covers implementation of set plays and skills through drills and game play. Recommended: Beginning basketball skills. Audit available.

PE 185C. Advanced Basketball. 1 Credit.
Emphasizes continued development of skills necessary to participate in basketball at an advanced level through game play and drills. Beginning/Intermediate basketball skills required. Audit available.

PE 185D. Beginning Volleyball. 1 Credit.
Includes basic history, terminology, etiquette, strategies and skills of game. Audit available.

PE 185E. Intermediate Volleyball. 1 Credit.
Builds further on the beginning techniques of the game. Emphasizes team play, special situations and officiating. Beginning volleyball class or instructor permission required. Audit available.

PE 185F. Advanced Volleyball. 1 Credit.
Builds further on the intermediate techniques of the game. Emphasizes team play, offensive/defensive situations and other advanced skills of spiking, team blocking and shoulder roll. Beginning volleyball and intermediate volleyball skills or instructor permission required. Audit available.

PE 185G. Beginning Soccer. 1 Credit.
Basic skills, rules, and strategies for soccer will be taught. Includes dribbling, kicking, trapping, heading, throw-in, tackling, shooting, goalie play, corner kicks, goalie kicks, penalty kicks, soccer formations (3-3-2, 4-3-3, 5-3-4, 2-4-4), defensive play, offensive play, rules of soccer. Audit available.

PE 185H. Advanced Soccer. 1 Credit.
Presents more advanced soccer skills, strategies and rules not covered in the beginning course. Includes footwork (trapping, feinting, shielding, dribbling), tackling, volley kicking, shooting, heading, goalkeeper play, soccer formations, defense, offense, rules. Beginning and intermediate soccer skills required. Audit available.

PE 185L. Intermediate Soccer. 1 Credit.
Covers rules, skills and strategies. Emphasizes individual and team offensive, defensive and kicking techniques as well as concepts of team organization and play. Considerable time is spent playing the game. Audit available.

PE 185M. Beginning Softball. 1 Credit.
Expands knowledge, application, strategy, team and individual skills utilized in the game of softball. Includes batting, running bases and sliding, throwing from outfield, throwing from infield, pitching, catching, fielding and communication. Time is divided between drills and game play. Audit available.

PE 185N. Advanced Softball. 1 Credit.
Expands the knowledge, application, strategy, team and individual skills utilized in the game of softball. Includes skill development in batting, running bases, sliding, throwing, pitching, catching, fielding and team communication. Audit available.

PE 185R. Soccer Team I. 1 Credit.
Covers the skills and strategies of soccer in preparation for playing on competitive soccer teams and clubs. Audit available.

PE 185S. Soccer Team II. 1 Credit.
Covers the skills and strategies of soccer at a more advanced level for continuation of playing on competitive soccer teams and clubs. Audit available.
PE 185U, U-JAM Dance Fitness I, 1 Credit.
Introduces a cardiovascular dance fitness workout that fuses world music with pre-designed dance choreography. Includes interval training that is built in by sequencing high intensity work periods followed by active rest periods, which develops both aerobic and anaerobic energy systems. Promotes maximizing caloric expenditure. Audit available.

PE 185V, U-JAM Dance Fitness II, 1 Credit.
Introduces an advanced cardiovascular dance fitness workout that fuses world music with pre-designed dance choreography. Includes interval training that is built in by sequencing high intensity work periods followed by active rest periods, which develops both aerobic and anaerobic energy systems. Promotes maximizing caloric expenditure. Recommended: PE 185U. Audit available.

PE 186D, Ballroom Dance, 1 Credit.
Introduces the fundamental principles of Ballroom Dance. Places emphasis on proper partnering, style, and phrasing. Focuses on elementary steps of Foxtrot, Waltz, Swing, Cha-Cha, and Rumba. PE 186D and D 184 are equivalent and only one may be taken for credit. Audit available.

PE 186E, Ballroom II, 1 Credit.
Continues the development of skills in ballroom dance at an intermediate level as well as enriching the depth of the dance technique and complexity of choreography. Focus placed on: appropriate partnering in order to lead or follow, rhythm, style, and phrasing. Dances may include: Waltz, Foxtrot, Tango, Quickstep, Rumba, Cha-Cha, Swing, Samba, Jive, and Night Club Two Step. PE 186D and D 184 are equivalent and only one may be taken for credit. Prerequisite: PE 186D or D 184 or instructor approval. Audit available.

PE 186F, Jazz Dance I, 1 Credit.
Introduces principles and skills in the fundamentals of jazz dance technique. Emphasizes and develops correct body alignment, coordination, strength, flexibility, rhythm, and movement awareness. Includes jazz dance vocabulary and simple jazz dance combinations. D 150 and PE 186F are equivalent and only one can be taken for credit. Audit available.

PE 186G, Jazz Dance II, 1 Credit.
Continues development of jazz dance technique at the beginning/intermediate level. Emphasizes increased coordination, strength, control, flexibility, stamina, musicality, and jazz dance vocabulary in more challenging combinations. D 151 and PE 186G are equivalent and only one can be taken for credit. Recommended: D 150 or PE 186F or equivalent. Audit available.

PE 186H, Jazz Dance III, 1 Credit.
Continues development of jazz dance technique at the intermediate level. Emphasizes increased strength, control, flexibility, stamina, musicality, dynamics, and jazz dance vocabulary in more challenging combinations. D 252 and PE 186H are equivalent and only one may be taken for credit. Recommended: D 151 or PE 186G or equivalent. Audit available.

PE 186K, Tap Dance I, 1 Credit.
Introduces beginning skills in tap dance. Covers basic steps, terminology, rhythms, and combinations. D 175A and PE 186K are equivalent and only one may be taken for credit. Audit available.

PE 186M, Tap Dance II, 1 Credit.
Continues the development of tap dance techniques beyond the introductory level. Further develops a sense of rhythm, musicality, and tap sounds. Learn basic through intermediate levels of traditional tap steps, rhythm tap combination, and complete dances. D 175B and PE 186M are equivalent and only one may be taken for credit. Recommended: D 175A or PE 186K or equivalent. Audit available.

PE 186R, Hip Hop, 1 Credit.
Introduces the fundamental principles and skills of Hip Hop dance. Places emphasis on development of correct technique, strength and flexibility, musicality, and individual expression through movement. Focuses on Hip Hop elements, culture, and terminology. D 177 and PE 186R are equivalent and only one may be taken for credit. Audit available.

PE 186S, Hip Hop II, 1 Credit.
Continue the development of Hip Hop dance at an intermediate level with a focus on longer, more challenging phrases and performance aspects. Emphasis will be placed on the development of core technique, strength and flexibility, musicality, and individual expression through movement. D 177B and PE 186S are equivalent and only one may be taken for credit. Prerequisite: D 177 or PE 186R or instructor approval. Audit available.

PE 186Z, Conditioning for Dance, 1 Credit.
Examines somatic practices and conditioning methods as they pertain to dance training. Develops kinesthetic awareness, strength, flexibility, stability and greater efficiency of movement. Focus may vary from term to term. PE 186Z and D 121 are equivalent and only one may be taken for credit. Audit available.

PE 250. Introduction to Outdoor Leadership, 2 Credits.
Introduces the skills necessary for effective outdoor recreation leadership. Provides an overview of the outdoor recreation field, leadership theory, decision making skills, group dynamics and management, trip planning, first aid, navigation and environmental concerns (such as “leave no trace” principles and practices). Includes a required backpacking/camping trip, which promotes application of learned skills in a wilderness setting. Recommended: students should be able to walk with a heavy backpack over uneven terrain for at least 8 miles per day. Required: students must provide basic camping equipment for the planned trip and their own transportation to and from backpacking trailheads. Audit available.

PE 281. Professional Activities: Weight Training, 2 Credits.
Provides students with the skills, knowledge, and abilities to describe and safely demonstrate a progression of resistance training exercises for all major muscle groups designed to improve muscular fitness. Emphasizes identifying and utilizing training principles for enhanced muscular fitness and proper technique on a wide variety of resistance training exercises. Prerequisite: PE 181A, 181B, or 181C, and FT 131 or instructor approval. Audit available.

PE 282A. Professional Activities: Group Fitness, 2 Credits.
Explores fitness instruction and leadership for group fitness classes. Covers components of group fitness classes, styles of group exercise, and teaching methods. Prerequisites: Acceptance to the Fitness Technology Program or instructor approval, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

PE 282B. Professional Activities: Special Populations, 2 Credits.
Explores fitness instruction and leadership for older adult populations. Provides tools and knowledge needed to design fitness training programs for healthy older individuals and groups. Explores the wide range of abilities and needs in individuals within older population groups and provides appropriate exercise program modifications when necessary through observation, participation, and service learning activities. Prerequisite: FT 202. Audit available.

PE 283. Professional Activities: Mind-Body Disciplines, 2 Credits.
Explores fitness instruction and leadership in selected modalities within the mind-body disciplines. Examines key principles of the mind-body disciplines and integrates them into a conventional exercise setting. Prerequisites: Acceptance to the Fitness Technology Program or instructor approval and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

PE 287. Professional Activities: Aquatics, 2 Credits.
Explores fitness instruction and leadership in the field of aquatics. Incorporates principles of hydrodynamics and exercise to achieve total fitness. Prerequisites: Acceptance to the Fitness Technology Program or instructor approval and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

PE 288. Professional Activities: Team Sports Training, 2 Credits.
Explores fitness instruction and leadership in team sports. Covers components of coaching team sports and skill-related physical fitness such as: progressions and techniques of practice format, sport specific drills, pyrometrics, and speed-agility-quickness coaching strategy and methodology. Prerequisites: Acceptance to the Fitness Technology Program or instructor approval, and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

PE 291A. Lifeguard Training, 2 Credits.
Designed to help students learn, practice, and develop the skills of water safety. Successful completion results in receiving an American Red Cross Lifeguard Training certificate. Red Cross swim screening test required. Audit available.

PE 292A. Water Safety Instructor, 2 Credits.
Teach swimming and water safety and further develop personal skills in these areas. Successful completion leads to receiving the American Red Cross Water Safety Instructor (WSI) certificate. Students must be at least 17 years of age, skilled at intermediate swim level, and have completed pertinent Red Cross requirements. Audit available.

PE 293. Scuba Diving, 2 Credits.
Covers information relating to modern scuba diving science, equipment, responsible practices, and the environment. Provides an opportunity to practice scuba diving skills in a confined water environment. Audit available.

PE 295. Health and Fitness for Life Lab, 1 Credit.
Explores the interrelationship of the five components of physical fitness, basic nutrition concepts, and stress management activities to increase individual health and wellness through lab sessions, fitness assessments, and fitness program development. Corequisite: HE 295. Audit available.
PHYSICS

PHY 101. Fundamentals of Physics I. 4 Credits.
Introduction to Physics. Includes mechanics, vectors, energy, simple machines, satellite motion, and the theory of special relativity. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS.

PHY 102. Fundamentals of Physics II. 4 Credits.
A conceptual study of physics. Topics include properties of matter, heat and thermodynamics, and atomic and nuclear physics. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AGS.

PHY 103. Fundamentals of Physics III. 4 Credits.
A conceptual study of physics. Topics include waves and sound, electricity and magnetism, and light and optics. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AGS.

PHY 121. Elementary Astronomy. 4 Credits.
Introduces the contents of our solar system, including the earth, its moon, the other planets and moons; asteroids, comets, and meteors. Algebra recommended. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AGS.

PHY 122. Elementary Astronomy. 4 Credits.
Introduces stellar astronomy, including our sun, properties of stars, and stellar evolution. Algebra recommended. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AGS.

PHY 123. General Physics (Calculus). 5 Credits.
Topics include concepts in mechanics, and their relationship to practical applications for science and engineering majors. Prerequisites: MTH 251 and MTH 252 and their prerequisite requirements. Prerequisite/Concurrent: MTH 252. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS.

PHY 212. General Physics (Calculus). 5 Credits.
Topics include concepts in fluid mechanics, waves, thermodynamics and optics. Prerequisites: PHY 211 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS.

PHY 213. General Physics (Calculus). 5 Credits.
Topics include concepts in electromagnetism together with their relationship to practical applications. Prerequisites: PHY 211 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AS, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AGS.

POLITICAL SCIENCE

PS 106. Citizenship & Engagement: Problems in U.S. Politics. 4 Credits.
Introduces problems in U.S. politics including issues relating to citizenship and controversial topics of public policy concern. Promotes respect for diverse perspectives as it provides background information current and prospective U.S. citizens will find helpful to the successful completion of a wide range of future courses in Political Science. Prerequisite: (WR 115 and RD 115) or IRW 115 or equivalent placement. Audit available.

PS 201. U.S. Government. 4 Credits.
Examines the development of constitutional traditions in the United States. Includes topics such as the Bill of Rights, interest groups, parties, and elections, as well as, the national institutions including the Legislative, Executive and Judicial branches of government. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AASS, Social Sciences/AAOT, Social Sciences/AGS.

PS 202. U.S. Public Policy & Democracy. 4 Credits.
Examines the public administration of and management issues relating to US national bureaucratic institutions. Covers how these impact a wide range of domestic policies including taxation, spending priorities, economic regulations, poverty programs, healthcare, and environmental programs, social security and other entitlements. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AASS, Social Sciences/AAOT, Social Sciences/AGS.

PS 203. State and Local Government. 4 Credits.
Examines state and local government policy formulation and outcomes on issues ranging from taxation to prisons, and education to environmental concerns. Focuses on Oregon state and local politics. PS 201, 202, and 203 need not be taken in sequence. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AASS, Social Sciences/AAOT, Social Sciences/AGS.

PS 204. Comparative Political Systems. 4 Credits.
Covers the study of political systems in various countries. Includes such issues as policy-making, representation/ participation, political culture, political economy and development and governance. Countries chosen will represent various political systems including, democracies, totalitarian regimes, dictatorships, post-communist systems in transition, newly industrializing and developing countries. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AASS, Social Sciences/AAOT, Social Sciences/AGS, Social Sciences/AS.

PS 205. Global Politics: Conflict & Cooperation. 4 Credits.
Examines the nature of relations among states. Topics include motivating factors such as nationalism, economic rivalries and the quest for security, questions of national sovereignty and international cooperation, war and peace, global issues, and the future. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AASS, Social Sciences/AAOT, Social Sciences/AGS, Social Sciences/AS.

PHY 201. General Physics. 4 Credits.
Introductory physics (algebra based) for science majors, pre-medical, pre-dental, pre-chiropractic and pre-physical therapy students. Topics include mechanics including statics, forces and motion energy, collisions, circular motion and rotational dynamics. Prerequisite or concurrent: MTH 111 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AS, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AGS.

PHY 202. General Physics. 4 Credits.
Topics include mechanical properties of matter, heat, waves, sound and light. Algebra-based physics. Prerequisite: PHY 201 and its required prerequisites. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AAOT, Science, Math, Computer Science/AGS.

PHY 203. General Physics. 4 Credits.
Topics include electricity, magnetism and radioactivity. Algebra-based physics. Prerequisite: PHY 201 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Science, Math, Computer Science/ASOT-B, Science, Math, Computer Science/AGS, Science, Math, Computer Science/AASS, Science, Math, Computer Science/AAOT.
PS 211. Peace and Conflict. 4 Credits.
Explores the causes and manifestations of violence in actions involving oneself, society, one's nation, and the global community. Alternatives to oppressive behavior, undemocratic institutions, and the violent resolution of conflict are considered. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

PS 220. U.S. Foreign Policy. 4 Credits.
Covers historical analytical treatment of select foreign policy themes since World War I. Examines the United States' attempt to create world order through use of economic, military and diplomatic power, the roles of democratic institutions and decision-making elites in creating foreign policy, and the interdependent basis of the contemporary international system. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAO, Social Sciences/ASOT-B.

PS 221. Globalization and International Relations. 4 Credits.
Provides an introductory survey of economic, political, social, and cultural dimensions of globalization and evaluates their impacts on international relations. Examines patterns of conflict and cooperation among countries including the influence of international institutions, NGOs, and global corporations. Introduces selected issues such as war and peace, global security, environment, elites and concentration of power, wealth and income distribution, cultural and ethnic identities and explores possible peaceful solutions to these global problems. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

PSY 214. Introduction to Personality. 4 Credits.
Covers sources, strengths and weaknesses of contemporary ideologies, and the conditions which lead to conflict or to cooperation among them. Includes liberalisms, conservatisms, socialisms, fascisms, and other idea systems. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAO, Social Sciences/ASOT-B.

PSY 215. Human Development. 4 Credits.
Provides an introductory survey of economic, political, social, and cultural dimensions of globalization and evaluates their impacts on international relations. Examines patterns of conflict and cooperation among countries including the influence of international institutions, NGOs, and global corporations. Introduces selected issues such as war and peace, global security, environment, elites and concentration of power, wealth and income distribution, cultural and ethnic identities and explores possible peaceful solutions to these global problems. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B, Social Sciences/ASOT.

PSY 221. Globalization and International Relations. 4 Credits.
Provides an introductory survey of economic, political, social, and cultural dimensions of globalization and evaluates their impacts on international relations. Examines patterns of conflict and cooperation among countries including the influence of international institutions, NGOs, and global corporations. Introduces selected issues such as war and peace, global security, environment, elites and concentration of power, wealth and income distribution, cultural and ethnic identities and explores possible peaceful solutions to these global problems. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B, Social Sciences/ASOT-B.

PSY 222. Political Ideologies: Idea Systems. 4 Credits.
Covers sources, strengths and weaknesses of contemporary ideologies, and the conditions which lead to conflict or to cooperation among them. Includes liberalisms, conservatisms, socialisms, fascisms, and other idea systems. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

PSY 225. Political Ideologies: Idea Systems. 4 Credits.
Covers sources, strengths and weaknesses of contemporary ideologies, and the conditions which lead to conflict or to cooperation among them. Includes liberalisms, conservatisms, socialisms, fascisms, and other idea systems. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

PSY 226. Modern India and Its Neighbors. 4 Credits.
Introduces the politics and history of India emphasizing economic and other polices since 1947. Explores India's relationship to Afghanistan, Pakistan, Bangladesh, Nepal, Bhutan, Sri Lanka and elsewhere. Examines diverse development strategies while assessing environmental and other impacts with local and global implications. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

PSY 227. Environmental Politics and Policy. 4 Credits.
Introduces the politics of environmental policymaking in the United States. Examines the key factors behind environmental policy conflicts, with an emphasis on themes and patterns that cut across cases. Explores topics such as interest groups, social movements, political culture, public opinion, court decisions, political leadership, media coverage and partisanship. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B, Social Sciences/ASOT-B.

PSY 231. Peace and Conflict. 4 Credits.
PSY 231. Peace and Conflict. 4 Credits.
Explores the causes and manifestations of violence in actions involving oneself, society, one's nation, and the global community. Alternatives to oppressive behavior, undemocratic institutions, and the violent resolution of conflict are considered. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

PSY 230C. Cooperative Education: Peace and Conflict. 1-4 Credit.
Extends knowledge of Peace and Conflict Studies through work and/or volunteer time spent in settings that provide learning experiences. Department permission required. Audit available.
PSY 216. Social Psychology. 4 Credits.
Surveys the scientific study of how individuals think about, influence, and relate to one another with respect to social beliefs, persuasion, attraction, conformity, obedience, prejudice, aggression, and pro-social behaviors. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAOT, Social Sciences/AS.

PSY 222. Family & Intimate Relationships. 4 Credits.
Explores processes involved in both traditional and non-traditional relationships and families: including love, cohabitation, dating, marriage, parenting, communication and conflict resolution, sexuality, balancing work and family, domestic violence, divorce, remarriage, and blended families. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B, Social Sciences/AS, Social Sciences/AAOT.

PSY 231. Human Sexuality. 4 Credits.
Explores sexual issues from scientific and humanistic perspectives. Surveys historical, cultural and cross-cultural variation in sexuality, sex research, female and male sexual and reproductive anatomy and physiology, gender issues, sexual response, sexual communication, sexual behavior patterns, love, and sexual frustrations. This is the first course in a two-course sequence. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT, Social Sciences/ASOT-B.

PSY 232. Human Sexuality. 4 Credits.
Explores sexual issues from scientific and humanistic perspectives. Surveys sexuality through the life cycle, sexual problems, sexual satisfaction, contraception, conception, sexuality and disability, sex and chronic illness, sexually transmitted infections, sexual victimization, atypical sexual behavior, and the commercialization of sex. This is the second course in a two course sequence. Recommended: PSY 231 taken before PSY 232. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B.

PSY 236. Psychology of Adult Development and Aging. 4 Credits.
Provides an overview of the biological, cognitive, and psychosocial aspects of adulthood and aging including theories of aging and specific research in the field of gerontology. Focuses on genetic and environmental factors that influence health as we age. Includes the challenges specific to gender, ability level, and culture. Recommended: PSY 201 or PSY 201A or PSY 215. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS.

PSY 239. Introduction to Abnormal Psychology. 4 Credits.
Surveys the history, theories, etiology, assessment, diagnosis, and treatment of the spectrum of psychological disorders. Prerequisites: (PSY 201 or PSY 201A or PSY 202A) or (AD 102 with instructor permission), and (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS.

PSY 240. Personal Awareness and Growth. 4 Credits.
Explores multidimensional perspectives on personal growth and awareness. Includes how childhood and adolescent development and experience affect thinking, feelings and behavior; differentiation; self-discipline and resilience; applying the principles derived from psychological research to everyday living; stress management; creative expression; body image and awareness; education and job/career pursuits; loneliness and solitude; death and loss. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

PSY 285. Psychology Seminar and Practicum. 4 Credits.
Explores psychology as an academic discipline, a career, and as a body of research. Focuses on critically understanding research, professional writing, and oral presentation skills. Includes a 60 hour (minimum) practicum in the community. Highly recommended: MTH 243 Prerequisites: PSY 201 or 201A and PSY 202 or 202A. Prerequisite/Concurrent: WR 122. Audit available.

RADIOGRAPHY

RAD 100. Introduction to Radiology. 2 Credits.
Introduces the health care team and various aspects of radiological sciences. Includes medical ethics, professional organizations, medicolegal considerations, communication, cultural diversity, basic radiation protection, fundamental technical components, radiological history, health care organizations and medical specialties. Department permission required.

RAD 101. Radiographic Positioning I. 3 Credits.
Introduces basic positioning techniques used in radiography of the respiratory system, abdomen, upper and lower extremities. Lab includes peer positioning, film critique, anatomical identification, pathologies and an energized section using phantoms. Department permission required. Prerequisite: RAD 102.

RAD 102. Radiographic Positioning II. 3 Credits.
Basic positioning techniques used in radiography of the digestive system, urinary system and continuation of the upper and lower extremities. Lab includes peer positioning, film critique, anatomical identification, pathologies and an energized section using phantoms. Department permission required. Prerequisite: RAD 101.

RAD 103. Radiographic Positioning III. 3 Credits.
Basic positioning techniques used in radiography of the bony thorax, spinal column and pelvic girdle. Lab includes peer positioning, film critique, anatomical identification, pathologies and an energized section using phantoms. Department permission required. Prerequisite: RAD 102.

RAD 105. Methods of Patient Care. 3 Credits.
Covers general care of patients in radiology department. Emphasizes radiographer’s role regarding patient care with cardiac arrest, vital signs, accident victims, bedside procedures, aseptic techniques, contagious disease control, blood borne pathogens, venipuncture, administration of medication and contrast media reactions. Introduces fundamentals of urinary catheterization. Lab provides application of theory. Department permission required.

RAD 106. Radiographic Equipment I. 4 Credits.
Covers fundamental concepts of energy and measurements, atomic structures, molecules, electricity, magnetism, electromagnetism, transformers, and rectifiers. Department permission required.

RAD 107. Radiographic Equipment II. 4 Credits.
Covers generators, timers, x-ray tubes, recording devices, physiology of sight, image intensifiers, television camera/monitors, digital radiography, mobile radiography and fluoroscopic equipment, tomography and teleradiography. Department permission required. Prerequisite: RAD 106.

RAD 110. Radiographic Clinic I. 4 Credits.
Provides clinical education experience in an affiliated hospital radiology department under the supervision of a registered radiographer and radiologist. Includes application of equipment manipulation and operation, radiological imaging procedures, radiation protection, medicolegal and ethical protocol, record keeping and patient care. Requires clinical competencies, objectives, performance assessment and attendance. Department permission required.

RAD 115. Principles of Exposure I. 3 Credits.
Covers production and control of scattered radiation, stereo radiography, grid technique, filtration, half value layer, magnification, contrast and density principles. Lab includes application of theories using energized equipment and test tools. Department permission required. Prerequisite: RAD 106.

RAD 120. Radiographic Clinic II. 4.5 Credits.
Provides clinical education experience in an affiliated hospital radiology department under the supervision of a registered radiographer and radiologist. Includes application of equipment manipulation and operation, radiological imaging procedures, radiation protection, medicolegal and ethical protocol, record keeping and patient care. Requires clinical competencies, objectives, performance assessment and attendance. Department permission required. Prerequisite: RAD 110.

RAD 122. Radiation Protection - Biology. 3 Credits.
Introduces biological effects of ionizing radiation and application of principles to minimize the risks of man-made radiation. Examines standards and requirements determined by government guidelines. Department permission required. Prerequisite: RAD 106.

RAD 130. Radiographic Clinic III. 4.5 Credits.
Provides clinical education experience in an affiliated hospital radiology department under the supervision of a registered radiographer and radiologist. Includes application of equipment manipulation and operation, radiological imaging procedures, radiation protection, medicolegal and ethical protocol, record keeping and patient care. Requires clinical competencies, objectives, performance assessment and attendance. Department permission required. Prerequisite: RAD 120.
RAD 132. Radiographic Image Production. 3 Credits.
Introduces theory and practical application of film/screen systems, sensitometry, image formation, automatic film processing, subtraction/duplication, computed radiography and quality assurance. Lab includes using test tools with energized equipment. Department permission required. Prerequisite: RAD 115.

RAD 140. Radiographic Clinic IV. 10 Credits.
Provides clinical education experience in an affiliated hospital radiology department under the supervision of a registered radiographer and radiologist. Includes application of equipment manipulation and operation, radiological imaging procedures, radiation protection, medicolegal and ethical protocol, recordkeeping and patient care. Requires clinical competencies, objectives, performance assessment and attendance. Department permission required. Prerequisite: RAD 130.

RAD 203. Applied Radiography Topics. 2 Credits.
Examines legal principles in radiography by looking at a variety of topics related to medical/professional ethics. Discussions will include the code of ethics and bioethical issues in radiography. Also covered will be the attitudes and communication knowledge needed to develop critical thinking skills in patient care. Prerequisite: RAD 140.

RAD 205. Radiographic Positioning V. 3 Credits.
Covers basic positioning of the skull, paranasal sinuses, facial bones, temporal bone, mastoids and mandible. Lab includes peer positioning, film critique, anatomical identification, pathologies and energized imaging with the use of phantoms. Department permission required. Prerequisite: RAD 103.

RAD 206. Survey of Medical Imaging Diseases. 3 Credits.
Covers basic principles and processes of disease, characteristics of neoplasms and systems with related disease as it applies to the radiological science imaging. Department permission required.

RAD 209. Advanced Radiological Procedures. 2 Credits.
Covers contrast media, fluoroscopic exams and special procedures involving the following systems: CNS, biliary, mammary, female reproductive, respiratory, pancreatic and salivary. Also covers techniques and equipment used to catheterize the vascular system, indications for various vascular procedures, contrast agents used for specific procedures and selective vascular anatomy. Department permission required. Prerequisite: RAD 105.

RAD 210. Radiographic Clinic V. 6.5 Credits.
Provides clinical education experience in an affiliated hospital radiology department under the supervision of a registered radiographer and radiologist. Includes application of equipment manipulation and operation, radiological imaging procedures, radiation protection, medicolegal and ethical protocol, recordkeeping and patient care. Requires clinical competencies, objectives, performance assessment and attendance. Department permission required. Prerequisite: RAD 140.

RAD 211. Advanced Imaging Modalities. 4 Credits.
Builds on information from previous radiation physics courses in the series. Introduces computed tomography, magnetic resonance, nuclear medicine, sonography and radiation therapy. Department permission required. Prerequisite: RAD 107.

RAD 215. Principles of Exposure II. 3 Credits.
Introduces theory and application of inverse square law, distortion, radiographic quality, technique conversion factors, formulation of technique charts, and quality assurance. Lab includes use of energized equipment and test tools. Department permission required. Prerequisite: RAD 132.

RAD 216. Radiography Registry Review. 2 Credits.
Provides review of the major content areas appearing in the national certification examination. Requires class participation, review of radiation protection, equipment operation and maintenance, image production and evaluation, radiographic procedures and patient care. Students must demonstrate an understanding of these subjects by successful completion of unit examinations and at least one mock registry examination. Prerequisite: RAD 210.

RAD 220. Radiographic Clinic VI. 6.5 Credits.

RAD 230. Radiographic Clinic VII. 9 Credits.
Provides clinical education experience in an affiliated hospital radiology department under the supervision of registered radiographer and radiologist. Includes application of equipment manipulation and operation, radiological imaging procedures, radiation protection, medicolegal and ethical protocol, recordkeeping, and patient care. Requires clinical competencies, objectives, performance assessment and attendance. Department permission required. Prerequisite: RAD 220.

RAD 240. Radiographic Clinic VIII. 7 Credits.
Provides clinical education experience in affiliated hospital radiology department under supervision of registered radiographer and radiologist. Includes application of equipment manipulation and operation, imaging radiological procedures, radiation protection and patient care. Requires clinical competencies, completion of clinical objectives, clinical assessments, attendance and terminal clinical competencies in radiological imaging. Department permission required. Prerequisite: RAD 230.

RAD 290. Mammography I. 4 Credits.
Provides the means for a certified radiographer (A.R.R.T.) to learn the necessary knowledge and skills to become certified as an A.R.R.T. mammographer. This will enable the radiographer to understand the requirements and procedures for the new regulations in mammography.

READING
RD 80. Reading 80. 3 Credits.
Covers vocabulary, dictionary use, motor skills, comprehension, and some study skills. Prerequisite: ABE 0783 or ABE 0790 or placement into RD 80. Audit available.

RD 80A. Reading 80A. 3 Credits.
Topics include vocabulary, dictionary use, motor skills, comprehension, reading rate improvement, and study skills. Prerequisite: ABE 0783 or placement into RD 80. Audit available.

RD 81A. Reading 81A. 1 Credit.
Focuses on instruction in vocabulary, study skills, and dictionary use. Prerequisite: ABE 0783 or placement into RD 80. Audit available.

RD 82A. Reading 82A. 2 Credits.
Focuses on instruction in vocabulary, comprehension, study skills, and dictionary use. Prerequisite: ABE 0783 or placement into RD 80. Audit available.

RD 90. Reading 90. 3 Credits.
Improves reading through work on vocabulary development, motor skills, comprehension and some reading rate improvement. Prerequisite: Placement into RD 90 or successful completion of RD 80 AND placement into WR 80. Audit available.

RD 90A. Reading 90A. 3 Credits.
Reading improvement through work on vocabulary development, motor skills, comprehension and reading rate. Prerequisite: RD 90 Audit available.

RD 91A. Reading 91A. 1 Credit.
Focuses on reading effectiveness. Comprehension strategies, vocabulary development, and reading rate are emphasized. Audit available.

RD 92A. Reading 92A. 2 Credits.
Focuses on reading effectiveness. Comprehension strategies, vocabulary development, and reading rate are emphasized. Prerequisite: Placement into RD 90 or successful completion of RD 80. Audit available.

RD 95. Reading for Enjoyment. 3 Credits.
Helps students develop their abilities to read, understand, and enjoy literature. Prerequisite: Placement into RD 90 or instructor permission. Audit available.

RD 115. College Reading. 4 Credits.
Focuses on expanding reading frequency and effectively reading complex college level texts; Emphasizes comprehension strategies, critical reading and thinking skills, information literacy, vocabulary development, student success strategies and adapting reading rate to different reading tasks. Prerequisite: Placement into RD 115 or successful completion of (RD 90 or IRW 90) AND placement into WR 90 OR successful completion of WR 80; OR ESOL 252 and ESOL 260. Audit available.

RD 116. College Vocabulary Development. 3 Credits.
Adds significantly to students' reading, writing, and speaking vocabularies, fosters interest in words, and offers strategies for continuous vocabulary development throughout life. Prerequisite: Placement into RD 115 or successful completion of (RD 90 or IRW 90). Audit available.

RD 117. Advanced College Reading. 3 Credits.
Further exploration of topics covered in RD 115, emphasizing inferential, critical, and technical reading. Prerequisite: Successful completion of RD 115. Audit available.
RELIGIOUS STUDIES

RUS 201. Second Year Russian, 5 Credits.
Continues the work of first year Russian, reviewing, expanding, and perfecting pronunciation, structure, and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of first year Russian at college level or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AGS.

RUS 202. Second Year Russian, 5 Credits.
Continuation of RUS 201. Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of RUS 201 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AGS.

RUS 203. Second Year Russian, 5 Credits.
Continuation of RUS 202. Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of RUS 202 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AGS, Arts and Letters/AGS, Arts and Letters/ASOT-B, Arts and Letters/AAOT.

RUS 211B. Intermediate Russian Conversation, 2 Credits.
Emphasizes conversational skills and listening comprehension at the second-year level. Recommended: Completion of first year Russian at college level or instructor permission. Audit available.

RUS 241. Great Russian Writers, 4 Credits.
Introduces Russian literature's great writers including Pushkin, Lermontov, Gogol, Dostoevsky, Tolstoy, Zoschenko, Olesha and Bulgakov. Explores themes, genres, style, historical context, social, and cultural issues. Course conducted in English and all readings in English. No knowledge of Russian needed. Prerequisite: Placement into WR 121. Audit available.

RUS 260A. Russian Culture, 3 Credits.
Introduces Russian traditional and modern culture and society through analysis of cultural, historical and social issues in film and media materials. Explores concepts such as self-identity, Russian views of the West, poverty and wealth, nationalism and racism, cultural pride, modern social issues, gender roles, families, marriage and divorce, social roles, and more. Course conducted in English. Russian materials are subtitled in English. No knowledge of Russian needed. Prerequisite: Placement into WR 121. Audit available.

RUS 260B. Russian Culture, 2 Credits.
Russian culture through film. Enhances understanding of Russian culture and contemporary society through analysis of cultural and social issues presented in five Russian films. May explore issues including, but not limited to, Russian women, female gender roles, Russian families, the communist past, ethnic conflict, views of the west, and Russia's self identity. Course conducted in English and all films with English subtitles. Course can be taken out of sequence. Audit available.

RUS 261B. Russian Culture, 2 Credits.
Russian culture through film. Enhances understanding of Russian culture and contemporary society through analysis of cultural and social issues presented in five Russian films. May explore issues including but not limited to Russian men, male gender roles, marriage and divorce, friendship, Russian youth, organized crime, poverty and wealth. Course conducted in English and all films with English subtitles. Course can be taken out of sequence. Audit available.

SIGN LANGUAGE INTERPRETATION

ITP 111. American Sign Language I, 5 Credits.
Focuses on grammatical features, non-manual markers, and advanced language skill development in ASL. Recommended: prior public speaking course. Prerequisite: Admission to Sign Language Interpretation program or Deaf Studies program and department permission required.

ITP 112. American Sign Language II, 5 Credits.
Focuses on grammatical features, non-manual behaviors and higher language skill development in ASL. Includes a wide range of academic topics in ASL. Prerequisites: ITP 111 and admission to the Sign Language Interpretation program and department permission required.

ITP 113. American Sign Language III, 5 Credits.
Focuses on additional grammatical features, non-manual markers, advanced language skill development, including discourse skills, in ASL. Prerequisites: ITP 112 and admission to Sign Language Interpretation program and department permission.
ITP 120. Fingerspelling I. 2 Credits.
Emphasizes increased fingerspelling skills by incorporating them into the context of ASL conversation. Introduces some strategies and proper production when fingerspelling. Prerequisite: Admission into Sign Language Interpretation program.

ITP 121. Fingerspelling II. 2 Credits.
Emphasizes increased fingerspelling skills by incorporating them into the context of advanced ASL conversations. Prerequisites: ITP 120 and admission into Sign Language Interpretation program.

ITP 180. Field Experience: Applied ASL. 2 Credits.
Provides practical experience through observations of professional interpreters. Includes participation in professional development, Deaf community activities, and interaction with Deaf children/adults. Explores relevant issues through journals, discussions, and presentations. Required: Criminal background check and good standing in the Sign Language Interpretation program. Prerequisite: Department permission required. Corequisite: ITP 112, ITP 265.

ITP 211. American Sign Language IV. 4 Credits.
Focuses on more advanced grammatical features, non-manual markers, language skill development, register continuum, and discourse skill in ASL. Prerequisites: ITP 113 and admission to the Sign Language Interpretation program and department permission required.

ITP 212. American Sign Language V. 4 Credits.
Focuses on more advanced grammatical features, non-manual markers, language skill development, register continuum, and discourse skills in ASL. Prerequisites: ITP 211 and admission to the Sign Language Interpretation program and department permission required.

ITP 230. American Sign Language Linguistics I. 3 Credits.
Explores the basic concepts of linguistics as they pertain to ASL. Analyzes and discusses phonology, morphology, syntax, semantics, language use, and sociolinguistic structure of ASL. Explores current research in ASL. Prerequisite: Admission into Sign Language Interpretation Program and instructor permission.

ITP 231. American Sign Language Linguistics II. 3 Credits.
Analyzes and explores additional phonology, morphology, syntax, semantics, variation and historical change of ASL. Explores the discourse structure of ASL. Prerequisite: ITP 230 and admission into the Sign Language Interpretation Program and instructor permission.

ITP 241. Deaf Culture I. 4 Credits.
Examines the history and culture of Deaf people. Examines the influence of geography, culture, attitudes, and economics on the education, employment, and legislation related to Deaf people. Prerequisite: Admission into Sign Language Interpretation Program and department permission required.

ITP 242. Deaf Culture II. 2 Credits.
Analyzes advanced concepts in cultural, gender, and sociological studies in the Deaf community, including current topics in dual- and multiple-minority perspectives, discussion of the Deaf-Blind experience, and advocacy and political action relating to modern Deaf issues. Course is taught in ASL with no interpretation. Prerequisite: ITP 241 and admission into Sign Language Interpretation Program and department permission required.

ITP 265. Interpreting Theory I: Foundations and Ethics. 3 Credits.
Introduces the foundational concepts of sign language interpretation. Includes the role and function of the interpreter, the Registry of Interpreters for the Deaf Code of Professional Conduct, basics of ethics, professionalism, the history of the profession, and the basic theories and practices of interpretation. Prerequisite: Admission into Sign Language Interpretation Program or department permission.

ITP 266. Interpreting Theory II: Special Settings. 3 Credits.
Covers special interpreting settings and practices, including deaf-blind, VRS/ VRI, religious, performing arts, medical, mental health and legal. Outlines qualifications necessary for working in each specific setting. Includes continued discussion of current ethical and professional issues in the field. Prerequisites: ITP 265.

ITP 267. Interpreting Theory III: K-12 Settings. 3 Credits.
Explores the role and functions of interpreters in educational settings. Includes roles and responsibilities of interpreters and other members of the educational team, professionalism, qualifications, expectations of K-12 interpreters, characteristics of Deaf learners, theories of language acquisition, legislation, and technology. Includes concepts necessary for preparation for the Educational Interpreter Performance Assessment knowledge examination. Prerequisites: ITP 266.

ITP 268. Interpreting Theory IV: Business Practices. 2 Credits.
Covers current business practices, marketing, networking, and resources at national, state, and local levels. Includes development of a business plan, resume, portfolio, certification plan, and other tools for beginning one’s career as a professional sign language interpreter. Prerequisites: ITP 267.

ITP 270. Interpreting Process I: Foundations. 6 Credits.
Introduces the fundamentals of the interpreting process, beginning with theories of discourse and language analysis while analyzing “dynamic equivalency” between source and target languages. Covers the application of principles of message translation to analysis from ASL to English and English to ASL. Prerequisite: Admission to the Sign Language Interpretation Program and department permission.

ITP 271. Interpreting Process II: Consecutive Interpreting. 4 Credits.
Introduces consecutive interpretation from ASL to English and from English to ASL. Prerequisite: ITP 270 and admission to the Sign Language Interpretation program and department permission required.

ITP 272. Interpreting Process III: Simultaneous Interpreting. 4 Credits.
Introduces simultaneous interpretation from ASL to English and from English to ASL. Prerequisite: ITP 271 and admission to the Sign Language Interpretation program and department permission required.

ITP 273. Interpreting Process IV: Interpreting in Special Settings. 4 Credits.
Explores interpreting in special settings. Increases simultaneous ASL to English and English to ASL interpreting skills. Focuses on individual areas of needed skill development. Prerequisites: ITP 272 and admission to the Sign Language Interpretation program and department permission required.

ITP 274. Interpreting Process V: Educational Interpreting. 4 Credits.
Explores interpreting in educational settings. Focuses on simultaneous ASL to English and English to ASL interpreting skills and introduces transcription skills. Focuses on individual areas of needed skill development. Prerequisite: ITP 273 and admission to the Sign Language program and department permission required.

ITP 275. Interpreting Process VI: Interpreting for Children. 4 Credits.
Explores interpreting for children. Develops interpreting skills specific to working with children in K-12 education. Explores content and activities in K-12 education and adaptation of communication to children’s language and cognitive abilities. Includes informal assessment of children’s language use and tutoring goals and strategies. Analyzes classrooms for interpretability and explores professional development for educational interpreters. Prerequisite: ITP 274, ITP 261 and admission to the Sign Language Interpretation program and department permission required.

ITP 276. ASL Interpreting I. 3 Credits.
Introduces processing skills needed to interpret specialized topics. Covers how to incorporate different ASL semantic features into interpreting for clear messages from English to ASL. Prerequisite: Admission into Sign Language Interpretation Program and department permission required.

ITP 277. ASL Interpreting II. 3 Credits.
Focuses on advanced ASL syntax, interactive interpretation and analysis of message equivalency in ASL. Explores a wide range of topics incorporating the interpreting skills in one’s interpreting work. Builds upon information and skills learned in ITP 276. Prerequisites: ITP 276 and admission to Sign Language Interpretation Program and department permission required.

ITP 279. Mock Interpreting I. 2 Credits.
Covers interpreting in teams for live presenters in class. Requires the application of knowledge of the interpreting process, message analysis, and ethical considerations while interpreting. Prerequisite: ITP 270. Corequisite: ITP 272.

ITP 281. Mock Interpreting II. 2 Credits.
Provides an opportunity to practice interpreting in a classroom setting where interpreting services are not needed. Develops simultaneous interpreting skills and stamina. Prerequisite: ITP 271. Corequisite: ITP 273.

ITP 283. Interpreting Internship I. 3.5 Credits.
Provides an opportunity to apply interpreting skills in college classrooms or community settings to gain practical experience assuming the role of a professional interpreter in a structured setting with on-going feedback from professional interpreters acting as mentors. Requires: A qualifying score on the benchmark assessment in the term prior to enrollment. Prerequisites: Department permission and admission to Sign Language Interpretation Program.

ITP 284. Interpreting Internship II. 3.5 Credits.
Provides an opportunity to apply interpreting skills in a K-12 educational setting or Video Relay Services to gain practical experience as an educational interpreter. Includes placement within a structured setting and with ongoing feedback from professional educational interpreters acting as mentors. Prerequisites: ITP 283 or a qualifying score on the Benchmark Assessment and department permission required.
SOC 214A. Illumination Project: Tools for Creative Social Activism 1. 4 Credits.
Applies the sociological perspective to the study of social problems and possible solutions. Explores topics such as institutional privilege, power and oppression, social identity, cultural assumptions and discrimination. Includes social analysis, group facilitation, social change interventions, creative production and basic acting. This is the first course of a three course sequence. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement and instructor permission. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AGS, Social Sciences/AAS, Social Sciences/AS, Social Sciences/AAOT.

SOC 214B. Illumination Project: Tools for Creative Social Activism 2. 4 Credits.
Applies the sociological perspective to the study of social problems and possible solutions. Explores topics such as racism, immigration, xenophobia, institutional privilege and oppression and social activism through classroom and community presentations utilizing interactive theater. Includes social analysis, group facilitation, social change interventions, creative production and basic acting. This is the second course of a three course sequence. Prerequisites: SOC 214A and instructor permission. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAS, Social Sciences/AAOT.

SOC 214C. Illumination Project: Tools for Creative Social Activism 3. 4 Credits.
Applies the sociological perspective to the study of social problems and possible solutions. Explores institutional oppression and social activism through classroom and community presentations utilizing interactive theater. Includes social analysis, group facilitation, educational methods and practice, social change interventions, creative production and basic acting. This is the third course of a three course sequence. Prerequisites: SOC 214B and instructor permission. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AS, Social Sciences/AGS, Social Sciences/ASOT-B.

SOC 215. Social Issues and Movements. 4 Credits.
Explores important social issues and movements from around the world. Examines the impact of social changes and actions on individuals and social structures. Focuses on organized social responses and movements to social problems, utilizing a multicultural and critical-thinking approach. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/AS.

SOC 216. Social Problems. 4 Credits.
Applies the sociological perspective to the study of social problems, including their identification, analyses of causes and consequences, and considerations of possible solutions. Explores topics such as inequality, poverty, crime and delinquency, substance abuse, discrimination, domestic violence, the environment, global stratification, and international conflict. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/AAOT.

SOC 217. Peace and Conflict. 4 Credits.
Explores causes and manifestations of violence in actions involving oneself, society, one’s nation, and the global community. Alternatives to oppressive behavior, undemocratic institutions, and the violent resolution of conflict are considered. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/ASOT-B.

SOC 218. Sociology of Gender. 4 Credits.
Focuses on how socialization is affected by gender. Topics include how gender is reflected in culture through values, norms, language, media, power, violence, various theoretical approaches, significant social institutions, social movements and issues. Recommended: SOC 204 or SOC 205 or instructor permission. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/AS.

SOC 219. Religion & Culture: Social Dimensions. 3 Credits.
Explores the relationship between culture, social structure, and religion, through a comparative and cross-cultural examination of religious beliefs, practices, and organization. Audit available.

SOC 221. Globalization and International Relations. 4 Credits.
Provides an introductory survey of economic, political, social, and cultural dimensions of globalization and evaluates their impacts on international relations. Examines patterns of conflict and cooperation among countries including the influence of international institutions, NGOs, and global corporations. Introduces selected issues such as war, gender, security, environment, elites and concentration of power, wealth and income distribution, cultural and ethnic identities and explores possible peaceful solutions to these global problems. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. PS 221, EC 221 and SOC 221 are equivalent and only one may be taken for credit.

SOC 223. Social Gerontology/Sociology of Aging. 4 Credits.
Explores the diversity of individual and population aging and their consequences for individuals, families, communities and societies, through a life course and social change perspective. Recommend: Introductory sociology course or instructor permission. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AS, Social Sciences/AGS, Social Sciences/ASOT-B.
SOC 228. Introduction to Environmental Sociology. 4 Credits.
Examines the relationship between society and environment, with a focus on how industrialization and our increasing demand for natural resources has significantly impacted the planet’s ability to meet the needs of humanity and other species. Explores the structural and cultural causes and consequences of such topics as production, consumption, population, development, pollution, and environmental justice and how to respond to these issues through policies and actions. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AAT, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/ASOT-B.

SOC 230. Introduction to Gerontology. 4 Credits.
Introduces current practice, programs, and policies in the field of gerontology. Addresses professional standards of practice and service delivery, as well as advocacy and policy directions, from a person-directed perspective, responsive to social inequalities and cultural diversity. Recommended: Introductory sociology course or instructor permission. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOOT.

SOC 231. Sociology of Health & Aging. 4 Credits.
Introduces age-related health issues in social and cultural context. Includes the social structuring of age, health and illness; demographics and patterns of health and illness of diverse older adults; issues related to medical and healthcare services; health and long-term care policy and programs. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAOT, Social Sciences/ASOT-B.

SOC 232. Death and Dying: Culture and Issues. 4 Credits.
Introduces the institution of death in the United States. Includes a broad multicultural, interdisciplinary approach, including sociological, psychological, historical, ethical, cultural, and religious approaches to death, dying, and bereavement across the lifespan. Recommended: SOC 204, 205, or instructor permission. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/AS, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AAOT, Social Sciences/ASOT-B.

SOC 234. Death: Crosscultural Perspectives. 4 Credits.
An interdisciplinary study of the cross-cultural variations regarding human responses to death and the differing cosmological implications these suggest. Death, a cultural universal, is addressed in its diversity from both anthropological and sociological perspective. The topic of death as experienced by several major regions and cultures of the world is explored including Asia, India, Bali, Middle East, Melanesia and Native Americans; historical trends in Western Europe and the Americas are assessed regarding the evolution of contemporary perspectives on mortality. ATH 234 and SOC 234 cannot both be taken for credit. Recommended: A prior course in Anthropology or Sociology. Audit available.

SOC 280A. Cooperative Education: Sociology. 1-3 Credit.
Expands knowledge of sociology through work and/or volunteer experiences which provide opportunities for application of sociological learning objectives and practical skill development. Prerequisite: Instructor permission required.

SOC 280B. Cooperative Education: Community Service & Action Seminar. 2 Credits.
Expands knowledge of sociology through work and/or volunteer experiences which provide opportunities for application of sociological learning objectives and practical skill development. Prerequisite: Instructor permission required.

SOC 298. Independent Study: Sociology. 1-3 Credit.
Advanced, individualized study of areas of sociology not considered in other courses to meet special interests or program requirements. Includes a term project and readings approved by the instructor. Instructor permission required. Recommended: Prior study of sociology. Audit available.

SPANISH
SPA 101. First Year Spanish - First Term. 4 Credits.
Emphasizes active communication in beginning Spanish. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary and culture. For beginners. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

SPA 102. First Year Spanish - Second Term. 4 Credits.
Continues the work of SPA 101. Emphasizes active communication in Spanish. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary, and culture. Recommended: Completion of SPA 101 or instructor permission. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

SPA 103. First Year Spanish - Third Term. 4 Credits.
Continues the work of SPA 102. Emphasizes active communication in Spanish. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary, and culture. Recommended: Completion of SPA 102 or instructor permission. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS.

SPA 111A. First Year Spanish Conversation. 3 Credits.
Practice of structures and vocabulary of first year Spanish in a conversational format. Recommended: First year Spanish at the college level or instructor permission. Audit available.

SPA 111C. First Year Spanish Conversation. 1 Credit.
Practice of structures and vocabulary of first year Spanish in a conversational format. Recommended: Simultaneous enrollment in SPA 101 or instructor permission. Audit available.

SPA 112C. First Year Spanish Conversation. 1 Credit.
Practice of structures and vocabulary of first year Spanish in a conversational format. Recommended: Simultaneous enrollment in SPA 102 or instructor permission. Audit available.

SPA 113C. First Year Spanish Conversation. 1 Credit.
Continuation of SPA 112C. Recommended: Simultaneous enrollment in SPA 103 or instructor permission. Audit available.

SPA 150. First Year Spanish. 6 Credits.
Emphasizes active communication in beginning Spanish. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary and culture. For beginners. Completion of SPA 150-151 is equivalent to SPA 101-102-103. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS.

SPA 151. First Year Spanish. 6 Credits.
Continues the work of SPA 150. Emphasizes active communication in Spanish. Includes listening, speaking, reading, writing, pronunciation, structure, vocabulary and culture. Recommended: Completion of SPA 150 or instructor permission. Completion of SPA 150-151 is equivalent to SPA 101-102-103. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS.

SPA 201. Second Year Spanish - First Term. 4 Credits.
Continues the work of first year Spanish, reviewing, expanding, and perfecting pronunciation, structure, and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of first year Spanish at college level or instructor permission. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS.

SPA 202. Second Year Spanish - Second Term. 4 Credits.
Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of SPA 201 or instructor permission. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS.

SPA 203. Second Year Spanish - Third Term. 4 Credits.
Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of SPA 202 or instructor permission. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AS.

SPA 211B. Intermediate Spanish Conversation. 2 Credits.
Stresses conversational skills at the second year level. Recommended: Completion of or simultaneous enrollment in SPA 201 or instructor permission. Audit available.
SPA 211C. Intermediate Spanish Conversation. 1 Credit. 
Stresses conversational skills at the second term level. Recommended: Completion of or simultaneous enrollment in SPA 201 or instructor permission. Audit available.

SPA 212C. Intermediate Spanish Conversation. 1 Credit. 
Continuation of SPA 211C. Recommended: Simultaneous enrollment in SPA 202. Completion of SPA 201 or equivalent also recommended. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

SPA 213A. Intermediate Spanish Conversation. 3 Credits. 
Continuation of SPA 212C. Recommended: Completion of or simultaneous enrollment in SPA 203 or instructor permission. Audit available.

SPA 213C. Intermediate Spanish Conversation. 1 Credit. 
Continuation of SPA 212C. Recommended: Simultaneous enrollment in SPA 203 or instructor permission. Audit available.

SPA 217. Spanish for Heritage Speakers - 1st Term. 4 Credits. 
Builds upon existing Spanish linguistic and cultural knowledge and experiences of Spanish heritage speakers. Develops accuracy and appropriate register for professional situations. Improves oral communication and writing skills, with strong emphasis in vocabulary enrichment and spelling. Addresses linguistic and cultural variations within the Spanish-speaking world. Improves reading comprehension, reviews grammar terms, and practices translation. Recommended: For students who grew up in a Spanish-speaking household or community, who can speak in Spanish, and want to develop their writing, reading and conversational skills. Students with other extensive prior experience are encouraged to contact the instructor before enrolling in the course. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

SPA 218. Spanish for Heritage Speakers - 2nd Term. 4 Credits. 
Continues to build upon existing Spanish linguistic and cultural knowledge and experiences of Spanish heritage speakers. Further develops accuracy and appropriate register for professional situations. Improves oral communication and writing skills, with strong emphasis in vocabulary enrichment and spelling. Addresses linguistic and cultural variations within the Spanish-speaking world. Improves reading comprehension, reviews grammar terms, and practices translation. Recommended: For students who grew up in a Spanish-speaking household or community, who can speak in Spanish, and want to develop their writing, reading and conversational skills. Completion of SPA 217, or instructor permission. Students with other extensive prior experience are encouraged to contact the instructor before enrolling in the course. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

SPA 219. Spanish for Heritage Speakers - 3rd Term. 4 Credits. 
Continues to build upon existing Spanish linguistic and cultural knowledge and experiences of Spanish heritage speakers. Works on perfecting accuracy and appropriate register for professional situations. Improves oral communication and writing skills, with strong emphasis in vocabulary enrichment and spelling. Addresses linguistic and cultural variations within the Spanish-speaking world. Improves reading comprehension, reviews grammar terms, and practices translation. Recommended: For students who grew up in a Spanish-speaking household or community, who can speak in Spanish, and want to develop their writing, reading and conversational skills. Completion of SPA 218, or instructor permission. Students with other extensive prior experience are encouraged to contact the instructor before enrolling in the course. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

SPA 250. Second Year Spanish. 6 Credits. 
Continues the work of first year Spanish, reviewing, expanding, and perfecting pronunciation, structure, and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of SPA 250 or instructor permission. Completion of SPA 250-251 is equivalent to SPA 201-202-203. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, and Letters/AAOT.

SPA 251. Second Year Spanish. 6 Credits. 
Continues to expand structure and vocabulary for the purpose of active communication. Includes practice in reading and writing. Recommended: Completion of SPA 250 or instructor permission. Completion of SPA 250-251 is equivalent to SPA 201-202-203. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AS, Arts and Letters/AAOT.
TA 116. Stagecraft. 3 Credits.
Introduction to the basic operation of the stage, scene shop and their related equipment in relation to actual production. Covers the use of power tools as well as, construction materials and techniques used in the modern theater. Gives the student knowledge of the fundamental aspects of technical theater leading to an understanding of an appreciation for the art of stagecraft. Students are required to do three hours of lab a week and participation in departmental productions presented that term. Prerequisite: MTH 20. Audit available.

TA 141. Fundamentals of Acting Techniques. 4 Credits.
Introduces basic theatrical techniques. Develops text analysis and performance skills. Develops the beginning level awareness of the physical and vocal skills required of a stage performer. Includes reading and analyzing plays to develop acting skills. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AATD, Arts and Letters/AS, Arts and Letters/AAS, Arts and Letters/AGS.

TA 142. Fundamentals of Acting Techniques. 4 Credits.
Acquire concentration and relaxation in approaching a role. Improve performance skills with focus on vocal and physical control. Scene study is used. Prerequisite: TA 141 and its prerequisite requirements. Audit available.

TA 143. Fundamentals of Acting Techniques. 4 Credits.
Practice skills from TA 141 and TA 142. Stresses further inquiry and use of knowledge and skills in performance. Includes audition techniques. Prerequisite: TA 141 and its prerequisite requirements. Audit available.

TA 144. Improvisational Theatre. 3 Credits.
Become more in touch with the body and senses as used to express yourself and communicate with others. Includes exercise, theatre games and impromptu scenes to tap the creative potential of the human imagination. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

TA 145. Acting for the Camera. 4 Credits.
Identifies, exercises and utilizes the actor’s resources to develop acting techniques specifically meant for acting on a visually recorded medium (camera). Taught only in conjunction with Video Production 2. Prerequisite: TA 141. Audit available.

TA 147. Voice and Diction for the Theatre. 3 Credits.
Introduces vocal production through a series of exercises which will increase muscle awareness, flexibility and freedom. Includes the mechanics of blank verse, auditioning and material selection as well as voice projection, articulation and performance. Audit available.

TA 148. Movement for the Stage. 3 Credits.
Develops awareness and skills in movement as related to acting and communication. Focuses on body awareness, relaxation, energy, creating physical images and character, and communicating through body language. Explores expression through movement. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

TA 180A. Theater Rehearsal and Performance. 1 Credit.

TA 180B. Theater Rehearsal and Performance. 2 Credits.
Performance in theater production. Audition required. Audit available.

TA 180C. Theater Rehearsal and Performance. 3 Credits.
Performance in theater production. Audition required. Audit available.

TA 180D. Theater Rehearsal and Performance. 4 Credits.
Performance in theater production. Audition required. Audit available.

TA 190A. Projects in Theatre. 1 Credit.
Design an independent project associated with the theatre. Develop a contract with a theatre arts instructor covering the course content. May be repeated. Audit available.

TA 190B. Projects in Theatre. 2 Credits.
Develop a study contract emphasizing self-directed research, on an individualized basis allowing for maximum flexibility. May be repeated. Audit available.

TA 190C. Projects in Theatre. 3 Credits.
Develop a study contract emphasizing self-directed research, on an individualized basis allowing for maximum flexibility. May be repeated. Audit available.

TA 227. Stage Make-up. 3 Credits.
Techniques of applying stage make-up including use of tools and products. Focuses on analyzing the character and theater to create the best make-up for various roles on any given stage. Class time is divided into lecture and student make-up projects. Audit available.

TA 241. Intermediate Acting Technique. 4 Credits.
Concentrate on in-depth study of the skills introduced in first year acting. One-act plays will be assigned as projects. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

TA 244. Advanced Improvisation. 3 Credits.
This class emphasizes the development of improvisational acting skills for sustained narrative and long-form of improvisational theater. Students are encouraged to trust their intuition and to focus their senses, their body awareness and vocal qualities on the creation of narrative structures. Team work and the development of group cohesion are stressed. Prerequisites: TA 144, (WR 115 or IRW 115) or placement into WR 121. Audit available.

TA 250A. Technical Theatre Production. 1 Credit.
Provides the opportunity to learn and apply elementary technical theater skills. Participation in the main stage production required. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

TA 250B. Technical Theatre Production. 2 Credits.
Provides the opportunity to learn and apply basic technical theater skills. Employee teamwork skills to collaborate throughout the production process. Participation in the main stage production required. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and TA 250A or Instructor Approval.

TA 250C. Technical Theatre Production. 3 Credits.
Provides the opportunity to learn and apply intermediate technical skills in one or more areas of technical theatre. Employ teamwork skills to collaborate throughout the production process. Participation in the main stage production required. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement, and TA 250B or Instructor approval.

TA 253A. Theatre Rehearsal and Performance. 1 Credit.
Performance in a play. May be repeated. Audit required. Audit available.

TA 253B. Theatre Rehearsal and Performance. 2 Credits.
Performance in a play. May be repeated. Prerequisite: Audition. Audit available.

TA 253C. Theatre Rehearsal and Performance. 3 Credits.
Performance in a play. May be repeated. Prerequisite: Audition. Audit available.

TA 261. Introduction to Costuming. 3 Credits.
Surveys costume history, design, and basic patterning-to-construction techniques. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

TA 274. Theatre History. 4 Credits.
Explores the nature of the theatrical event, its emergence and significance in the lives of the people of the past from ancient Greece to the present. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

TA 290A. Projects in Theatre. 1 Credit.
Advanced independent study course. Contract with a theatre arts instructor for individual project. Examples of projects could be assistant directing, lighting design, costume, dramaturge. May be repeated. Audit available.

TA 290B. Projects in Theatre. 2 Credits.
Develop a study contract emphasizing self-directed research, on an individualized basis allowing for maximum flexibility. May be repeated. Audit available.

TA 290C. Projects in Theatre. 3 Credits.
Develop a study contract emphasizing self-directed research, on an individualized basis allowing for maximum flexibility. May be repeated. Audit available.

VETERINARY TECHNOLOGY

VT 101. Introduction to Veterinary Technology. 3 Credits.
Introduces the job duties and expectations of the Certified Veterinary Technician. Covers veterinary medical terminology used in the field. Prerequisite: Admission into the Veterinary Technology Program.

VT 102. Animal Nursing and Restraint. 3 Credits.
Teaches nursing techniques and principles of restraint of dogs, cats, horses, cattle, sheep, birds and laboratory animals. Emphasizes techniques to maximize the safety aspect of restraint to both the handler and to the animal patient. Program admission required. Prerequisite: VT 101.

VT 103. Animal Health Record Systems. 3 Credits.
Introduces medical records, admitting procedures, history taking, record maintenance for both in and out patients, and kennel records. Includes follow-up and discharge procedures, inventory control, and other maintenance files required by a veterinary hospital. Includes instruction on the use of veterinary hospital software for the computer. Prerequisite: Admission to Veterinary Technology program.
VT 104. Facility Ward Care. 2 Credits.
Introduces principles of animal husbandry, sanitation, enrichment, and clinical care of animals housed in campus facilities. Explores teamwork, communication, veterinary technical skills, and principles of professionalism encountered in the daily operations of a multi-species veterinary facility. Prerequisites: Admission to Veterinary Technology program.

VT 105. Comparative Veterinary Anatomy and Physiology I. 4 Credits.
Covers the form and function of animal bodies and examines the anatomical and physiological differences between selected species. Includes a lab where skeletons and cadaver specimens are studied. Focuses on microscopic anatomy and physiology of bones, muscles, and skin. Prerequisite: Admission to Veterinary Technology program.

VT 106. Comparative Veterinary Anatomy and Physiology II. 4 Credits.
Covers the preparation and monitoring of surgical patients, surgical assisting and aseptic technique, pre-operative and post-operative patient care. Includes instructing on microscope anatomy and physiology of the digestive, nervous, urinary, reproductive, and endocrine systems. Includes the study of the special sense organs. Prerequisite: Admission to Veterinary Technology program.

VT 107. Veterinary Parasitology and Pathology. 3 Credits.
Introduces the life cycles, modes of transmission, geographical distribution, and diseases associated with animal parasites. Includes parasite identification using prepared slides and collected specimens. Includes terms and processes involved in veterinary pathology, means and processes that result in disease, types of cells and tissues, and signs of inflammation. Prerequisite: Admission to Veterinary Technology program.

VT 108. Veterinary Microbiology. 3 Credits.
Covers the preparation and monitoring of surgical patients, surgical assisting and aseptic technique, pre-operative and post-operative patient care. Includes instructing on microscope anatomy and physiology of the digestive, nervous, urinary, reproductive, and endocrine systems. Includes the study of the special sense organs. Prerequisite: Admission to Veterinary Technology program.

VT 109. Radiation Safety. 2 Credits.
Introduces x-radiation and safety principles involved in using x-ray machines. Program admission or current employment in a veterinary facility or clinic doing x-ray work is required. Prerequisite: Admission to Veterinary Technology program or instructor approval.

VT 110. Specimen Collection Laboratory. 2 Credits.
Covers collection techniques used on both large and small animals and skills needed to obtain the specimens required for analysis in clinical laboratories. Prerequisite: Admission to Veterinary Technology program.

VT 111. Clinical Laboratory Procedures 1. 4 Credits.
Covers the knowledge and skills necessary to perform hematology and urinalysis. Includes instruction for performing complete blood counts and urinalysis using current technology. Prerequisite: Admission to Veterinary Technology program required.

VT 112. Clinical Laboratory Procedures 2. 4 Credits.
Covers the knowledge and skills necessary to perform various types of tests that are usually done in the clinical laboratory of a veterinary hospital. Includes learning to perform serum chemistries on various types of machines, knowledge of special commercial test procedures, and examination of cytology specimens. Prerequisite: Admission to Veterinary Technology program.

VT 113. Veterinary Microbiology. 3 Credits.
Develops the knowledge and skills necessary to perform microbiology functions. Includes learning about the various pathological genus and species of bacteria, fungi, and viruses. Focuses on the various laboratory methods used in the identification of bacterial and fungal organisms. Prerequisites: Admission to Veterinary Technology program.

VT 121. Large Animal Nursing and Restraint. 4 Credits.
Introduces the livestock industry and the various species of large animal livestock. Includes livestock terminology, breeds, production systems, basic management practices, and animal products and by-products. Lab introduces the livestock production systems and producers. Prerequisite: Admission into the Veterinary Technology program.

VT 200. Veterinary Procedures Seminar. 3 Credits.
Covers advanced and special topics in veterinary technician training, such as electrocardiography, exotic animal medicine, necropsy techniques, and various diagnostic and therapeutic procedures. Includes investigating, researching and reporting on topics of special interest. Prerequisite: Admission to Veterinary Technology program.

VT 204. Applied Radiography. 3 Credits.
Covers the practical application of radiography in the veterinary profession. Includes principles of x-ray production, the operation and uses of x-ray machines, the care and development of films, and radiographic positioning of animals. Prerequisites: Admission to Veterinary Technology program.

VT 205. Veterinary Pharmacology. 4 Credits.
Introduces general pharmacological principles, drugs, and classification of agents used in veterinary medicine. Covers therapeutic responses to drugs and common adverse drug reactions. Prerequisites: Admission to Veterinary Technology program.

VT 207. Public Health and Sanitation. 2 Credits.
Covers the principles of public health and sanitation as they apply to veterinary medicine and the veterinary technician. Emphasizes epidemiology, public health principles and regulations, zoonoses, and meat and food hygiene. Includes vaccine therapy, immunology, vaccination protocols and handling of biologicals. Prerequisites: Admission to Veterinary Technology program.

VT 208. Small Animal Diseases. 3 Credits.
Covers clinically important diseases and disease processes occurring in small animals. Includes the causes, pathogenesis, clinical signs, treatment and prevention of each disease. Prerequisites: Admission to Veterinary Technology program.

VT 209. Large Animal Diseases and Procedures. 3 Credits.
Covers the clinically important large animal diseases, disease processes, and obstetric procedures. Includes the causes, pathogenesis, clinical signs, treatment and prevention of each disease. Focuses on large animal diagnostic and treatment procedures in the laboratory section. Prerequisites: Admission to Veterinary Technology program.

VT 210. Animal Nutrition. 3 Credits.
Introduces various types of nutrients, the basic principles of nutrition as applied to small and large animals, various feeding practices and their economic importance, and important nutritionally caused diseases. Covers care and handling of orphaned animals and special prescription diets. Prerequisites: Admission to Veterinary Technology program.

VT 215. Laboratory Animal Procedures. 2 Credits.
Explores ethical animal usage, husbandry, and common medical procedures of a variety of species used within the laboratory animal medicine specialty. Prerequisite: Admission into the Veterinary Technology Program.

VT 280A. Cooperative Education: Clinic I. 4 Credits.
Provides an opportunity to work in a veterinary hospital or clinic. Focuses on office/receptionist skills, animal nursing and restraint, and laboratory procedures. Department permission required.

VT 280B. Cooperative Education: Clinic II. 4 Credits.
Provides an opportunity to work in a veterinary hospital or clinic. Focuses on office/receptionist skills, animal nursing and restraint laboratory procedures, pharmacology, radiography, surgical preparation and assistance and anesthesia. Students may request to attend a special clinic, such as the Oregon Regional Primate Center, Oregon Health Science University, The College of Veterinary Medicine at Oregon State University, or a large animal or equine practice. Department permission required.

VT 280C. Cooperative Education: Clinic III. 4 Credits.
Provides an opportunity to work in a veterinary hospital or clinic. Focuses on office/receptionist skills, animal nursing and restraint laboratory procedures, pharmacology, radiography, surgical preparation and assistance and anesthesia. Students may request to attend a special clinic, such as the Oregon Regional Primate Center, Oregon Health Science University, The College of Veterinary Medicine at Oregon State University, or a large animal or equine practice. Department permission required.

WELDING

WLD 101. Welding Processes & Applications. 4 Credits.
Covers welding processes, safety, equipment, and essential variables of operation. Audit available.

WLD 102. Blueprint Reading. 4 Credits.
Covers the language of blueprints including lines, views, dimensioning, print organization, welding symbols and structural shapes. Prerequisites: WR 80, MTH 20. Prerequisite/concurrent: RD 90 or IRW 90. Audit available.
WLD 111. Shielded Metal Arc Welding (E7024) and Oxy-acetylene Cutting. 4 Credits.
Covers uses, safety, nomenclature, equipment operation, set-up and shutdown procedures for SMAW and OAC. Prerequisite: Department permission required. Audit available.

WLD 112. Shielded Metal Arc Welding: Mild Steel I (E7018). 4 Credits.
Develops knowledge and skills in the use of E7018 mild steel electrodes when performing various welds in the flat, horizontal and vertical positions. Prerequisite: Department permission required. Audit available.

WLD 113. Shielded Metal Arc Welding: Mild Steel II (E7018). 4 Credits.
Develops knowledge and skills in the use of E7018 mild steel electrodes when performing various welds in the vertical and overhead positions. Prerequisite: Department permission required. Audit available.

WLD 114. Shielded Metal Arc Welding: Mild Steel III (E6011). 4 Credits.
Develops knowledge and skills in the use of E6011 mild steel electrodes when performing welds in the vertical and overhead positions. Prerequisite: Department approval required. Audit available.

WLD 115. Shielded Metal Arc Welding: Mild Steel IV (E6011). 4 Credits.
Develops knowledge and skills in the use of E6011 mild steel electrodes when performing welds in the flat, horizontal and vertical positions. Prerequisite: Department permission required. Audit available.

WLD 116A. Beginning Shielded Metal Arc Welding. 3 Credits.
Introduces intermediate shielded metal arc welding practice on mild steel plate in accordance with AWS D1.1 Structural Steel welding codes and to industry standards. Introduces welding in the 1F and 2F positions. First class in a four course sequence. Audit available.

WLD 116B. Basic Welding Practice. 3 Credits.
Introduces intermediate shielded metal arc welding practice on mild steel plate in accordance with AWS D1.1 Structural Steel welding codes and to industry standards. Introduces welding in the 3F and 4F positions. Second class in a four course sequence. Audit available.

WLD 126A. Beginning Gas Tungsten Arc Welding (Helical). 3 Credits.
Introduces gas tungsten arc welding and industry standards. Weld common joint configurations in the 1F and 2F positions. Develops foundational skills required for advancement in future coursework. First class in a four course sequence. Audit available.

WLD 126B. Basic Gas Tungsten Arc Welding (Helical). 3 Credits.
Introduces gas tungsten arc welding and industry standards. Weld common joint configurations in the 3F and 4F positions. Develops foundational skills required for advancement in future coursework. Second class in a four course sequence. Audit available.

WLD 131. Gas Metal Arc Welding. 4 Credits.
Develops knowledge and skills welding with GMAW on ferrous materials using short circuit and axial spray transfers in common welding positions. Prerequisite: Department permission required. Audit available.

WLD 132. Gas Metal Arc Welding-Pulse. 4 Credits.
Develops knowledge and skills using the gas metal arc welding - pulse transfer process on common mild steel and aluminum joints in all positions. Prerequisite: Department permission required. Audit available.

WLD 136A. Beginning Wire Welding. 3 Credits.
Introduces common weld joint in the 1F and 2F positions. Develops foundational skills required for advancement in future coursework. First class in a four course sequence. Audit available.

WLD 136B. Basic Wire Welding. 3 Credits.
Develops basic welding skills and industry standards as they apply to the wire welding process. Introduces common weld joints in the 2F and 3F positions. Develops foundational skills required for advancement in future coursework. Second class in a four course sequence. Audit available.

WLD 141. Flux-Cored Arc Welding I (Gas Shielded). 4 Credits.
Develops knowledge and skills in the gas shielded flux-cored arc welding process in the flat, vertical, horizontal and overhead positions. Prerequisite: Department permission required. Audit available.

WLD 142. Flux-Cored Arc Welding II (Self Shielded). 4 Credits.
Develops knowledge skills in the self-shielded flux cored arc welding process in the flat, vertical, horizontal and overhead positions. Prerequisite: Department permission required. Audit available.

WLD 146A. Beginning Pipe Welding Practice. 3 Credits.
Introduces joining pipe per ASME Section IX and industry standards. First class in a four course sequence. Audit available.

WLD 146B. Basic Pipe Welding Practice. 3 Credits.
Introduces joining pipe in the 2G position per ASME Section IX Welding Code. Second class in a four course sequence. Audit available.

WLD 151. SMAW Certification Practice: Unlimited Thickness Mild Steel. 4 Credits.
Covers safety, welding technique, and qualification procedures in compliance with AWS D1.1 Structural Welding Test with the E7018 electrode. Prerequisite: Department permission required. Audit available.

WLD 152. Flux Cored Arc Welding (Gas Shielded) Certification Practice. 4 Credits.
Covers safety, welding technique, and qualification procedures in compliance with AWS D1.1 structural test. Prerequisite: Department permission required. Audit available.

WLD 153. Flux Cored Arc Welding (Self shielding) Cert. Practice. 4 Credits.
Covers safety, welding technique, and qualification procedures in compliance with AWS D1.1 structural test. Prerequisite: Department permission required. Audit available.

WLD 156A. Beginning Oxy-Acetylene Welding Practice. 3 Credits.
Introduces the joining of plate using oxy-fuel welding. First class in a four course sequence. Audit available.

WLD 156B. Basic Oxy-Acetylene Welding Practice. 3 Credits.
Introduces the joining of plate using oxy-fuel welding. Second class in a four course sequence. Audit available.

WLD 166A. Beginning Weld Practice Metal Sculpting. 3 Credits.
Introduces processes used in creating the sculpted metal using the gas metal arc welding - pulse transfer process as well as an overview of multiple weld processes and their essential variables as related to the fabrication of metal sculpture. First class in a four course sequence. Audit available.

WLD 166B. Basic Weld Practice Metal Sculpting. 3 Credits.
Reviews, incorporates and builds upon material presented in WLD 166A. Introduces common weld joints as they apply to the fabrication of metal sculpture. Second class in a four course sequence. Audit available.

WLD 176A. Beginning Fabrication Welding Practice. 3 Credits.
Introduces beginning fabrication of welded structures. First class in a four course sequence. Audit available.

WLD 176B. Basic Fabrication Welding Practice. 3 Credits.
Introduction to basic fabrication of welded structures. Develops foundational skills required for advancement. Second class in a three course sequence. Audit available.

WLD 186A. Beginning Certification Welding Practice. 3 Credits.
Introduces preparing and joining plates for certification as per AWS D1.1 Structural Steel Welding codes. First class in a four course sequence. Audit available.

WLD 186B. Basic Certification Welding Practice. 3 Credits.
Introduces preparing and joining plates in the 2G position for certification as per AWS D1.1 Structural Steel Welding codes. Second class in a four course sequence. Audit available.

WLD 190A. Beginning Welding Practice. 1 Credit.
Introduces welding and industry standards. Develops foundational skills required for advancement in future coursework. First class in a three course sequence. Audit available.

WLD 190B. Basic Welding Practice. 2 Credits.
Develops basic knowledge and practice with a welding process and perform welding in accordance with industry standards. Develops foundational skills required for advancement in future coursework. Second class in a three course sequence. Audit available.

WLD 190C. Intermediate Welding Practice. 3 Credits.
Introduction to the fillet weld in the 3F and 4F position to build the skills required to successfully certify in accordance with AWS D1.1 Welding Code. This class in a three course sequence. Audit available.

WLD 203. Structural Steel Welding Code & Standards. 4 Credits.
Develops technical knowledge necessary for the reading and understanding of the AWS Structural Steel Welding Code, D1.1. Purpose of course is to enable student to use a systematic method in the application and understanding of the Structural Steel Welding Code. Audit available.

WLD 210. Aviation Welding. 2 Credits.
Develops knowledge and manipulative skills with oxy-acetylene welding, torch brazing, and gas tungsten arc welding processes on steel and aluminum when performing various welds. Training will conform to current FAA 14CFR Part 147 requirements. Prerequisites: Placement into RD 90 or higher; placement into WR 90 or higher; MTH 60 or higher; AMT 101 with a “C” or higher. Audit available.
WLD 211. Auto Collision Repair Welding Aluminum. 2 Credits.
Develops knowledge and manipulative skills using the Gas Metal Arc Welding (GMAW) process. Covers safety, uses, nomenclature, equipment operation and set up. Prerequisite: Department permission required. Audit available.

WLD 216. Intermediate Shielded Metal Arc Welding Practice. 3 Credits.
Develops knowledge and skills in the use of a variety of welding processes. Prerequisite: WLD 114, WLD 115, WLD 116, and department permission required. Audit available.

WLD 218. Intermediate Shielded Metal Arc Welding Practice. 3 Credits.
The development and practice of arc welding in the 5G position per ASME Section IX Welding Code. Provides an opportunity to practice for the American Welding Society (AWS) minor certificate tests using SMAW low hydrogen electrodes in the horizontal, vertical and overhead positions. Prerequisite: Department permission required. Audit available.

WLD 253. SMAW Certification Practice 3/8" Mild Steel (E6011). 4 Credits.
Provides an opportunity to practice for the American Welding Society (AWS) minor certificate tests using SMAW low hydrogen electrodes in the horizontal, vertical and overhead positions. Prerequisite: Department permission required. Audit available.

WLD 254. SMAW Certification Practice 3/8" Mild Steel (E7018). 4 Credits.
Provides an opportunity to practice for the American Welding Society (AWS) minor certificate tests using SMAW low hydrogen electrodes in the horizontal, vertical and overhead positions. Prerequisite: Department permission required. Audit available.

WLD 255. Preparation for Pipe Certification I. 4 Credits.
Provides an opportunity to practice using the downhill SMAW process to weld pipes in the basic position (2G) for pipe certification. Prerequisite: Department permission required. Audit available.

WLD 256. Preparation for Pipe Certification II. 4 Credits.
Provides an opportunity to practice using the downhill SMAW process to weld pipes in the basic position (2G) for pipe certification. Prerequisite: Department permission required. Audit available.

WLD 260. Beginning Fabrication. 4 Credits.
Develops knowledge and skills in the selection and use of layout tools and equipment to assemble a beginning fabrication project from given specifications. Prerequisite: Department approval required. Audit available.

WLD 261. Basic Fabrication. 4 Credits.
Develops knowledge and skills in the selection and use of layout tools and equipment to assemble a beginning fabrication project from given specifications. Prerequisite: Department permission required. Audit available.

WLD 262. Intermediate Fabrication. 4 Credits.
Develops knowledge and skills in the proper selection and safe use of hand tools and machinery while working on specific fabrication projects. Prerequisite: Department permission required. Audit available.

WLD 263. Welding Technology - Capstone. 4 Credits.
Provides an opportunity to demonstrate readiness for welding employment through the development and performance of a comprehensive welding project and the successful completion of an industry based written assessment. Requires: Completion of One-Year Certificate in Welding Technology. Prerequisite: WLD 260, WLD 261 and department permission. Audit available.

WLD 266A. Intermediate Weld Practice Metal Sculpting. 3 Credits.
Focuses on producing code quality welds as they apply to the fabrication of metal sculpture. Introduces AWS D1.1 welding code and visual inspection techniques. Prerequisite: Department permission required. Audit available.

WLD 266B. Advanced Weld Practice Metal Sculpting. 3 Credits.
Focuses on producing code quality welds as they apply to the fabrication of metal sculpture. Introduces AWS D1.1 welding code and visual inspection techniques. Prerequisite: Department permission required. Audit available.

WLD 271. Oxy-acetylene Welding Projects. 3 Credits.
Provides practice using the Ovaly Acetylene process to weld metal sculptures. Prerequisite: Department permission required. Audit available.

WLD 276A. Intermediate Fabrication Welding Practice. 3 Credits.
Introduces intermediate fabrication of welded structures. Develops advanced skills as required for industry. Third class in a four course sequence. Audit available.

WLD 276B. Advanced Fabrication Welding Practice. 3 Credits.
Introduces advanced fabrication of welded structures. Develops advanced skills as required for industry. Fourth class in a four course sequence. Audit available.
WLD 286A. Cooperative Education: Welding. 1-4 Credits.
On-the-job experience which allow for the application and development of knowledge and skills acquired in the on-campus program. Work experiences are offered for variable credit up to a maximum of four credits. Department permission required. Audit available.

WLD 288B. Cooperative Education: Welding - Seminar. 1 Credit.
Share experiences with other students and the on-campus instructor in order to develop strategies for successful cooperative work experiences and future employment. Department permission required. Audit available.

WLD 286A. Intermediate Certification Welding Practice. 3 Credits.
Introduces preparing and joining plates in the 3G position for certification as per AWSD1.1 Structural Steel Welding codes. Third class in a four course sequence. Audit available.

WLD 286B. Advanced Certification Welding Practice. 3 Credits.
Introduces preparing and joining plates in the 4G position for certification as per AWSD1.1 Structural Steel Welding codes. Fourth class in a four course sequence. Audit available.

WLD 290. Submerged Arc Welding. 2 Credits.
Develops knowledge and skills with the submerged arc welding process. Department permission required. Audit available.

WLD 295. Sculpture Welding II. 4 Credits.
Develops the artist’s knowledge and skills with Oxyacetylene welding and cutting, GMAW (wire) welding, MIG (gas tungsten) arc welding processes. Explores metal sculpture design and construction with supporting demonstrations, slides, lectures and films. Completion of ART 293 strongly recommended. No prior welding experience is required. Audit available.

WOMENS STUDIES
WS 101. Women’s Studies. 4 Credits.
Surveys and critically analyzes the position of women in society, in terms of present realities and future possibilities. Provides a framework to connect personal experience with contemporary social and political issues. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Arts and Letters/AAOT, Social Sciences/AKOT, Arts and Letters/AS, Social Sciences/AS, Arts and Letters/AAS, Social Sciences/AGS, Social Sciences/AS, Arts and Letters/AAOT-B.

WS 201. Intercultural Women’s Studies. 4 Credits.
Examines the position of women in society from a cross-cultural perspective. Includes the process of gender enculturation, women’s lives in foraging, pastoral and agricultural societies and international issues such as female circumcision, infanticide, child brides and honor/dowry deaths. Recommend: WS 101. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/ASOT-B.

WS 202. Women, Activism and Social Change. 4 Credits.
Examines how women have worked to empower girls and women and improve the conditions of their lives. Explores ways that feminist theories have shaped the goals and strategies of social change efforts. Offers an in-depth look at selected topic areas, connects analysis and personal experience, and focuses on how to become an effective change agent. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AGS.

WS 210. Introduction to Queer Studies. 4 Credits.
Focuses on the lives and contributions of queer people in cultural, historical, and social context, including identities such as lesbian, gay, bisexual, trans, intersex, asexual, pansexual and gender non-binary. Uses an interdisciplinary approach to explore complex social constructions of sex, sexuality, race, class, gender identity and gender expression. Explores the institutional and cultural factors that create and maintain systems of oppression. Prerequisite: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Cultural Literacy, Social Sciences/ASOT-B, Social Sciences/AAOT, Social Sciences/AS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

WRITING
WR 80. Writing 80. 3 Credits.
Covers basic communication skills, language mechanics, grammar, spelling, sentence structure and paragraph development. Prerequisite: (ABE 0783 and ABE 0784), or ABE 0790, or (placement into WR 80 and RD 80). Audit available.

WR 90. Writing 90. 3 Credits.
Instructor includes sentence structure, paragraph and essay development, and written expression. Students can expect to increase working vocabulary and improve skills in basic communications. Prerequisite: Placement into WR 90 or completion of WR 80 and placement into RD 90 or completion of RD 80 with a "C" or better. Audit available.

WR 90C. Writing 90C. 3 Credits.
Includes instruction in grammar, punctuation, sentence structure, essay development, and critical thinking skills. Improves basic writing skills by learning to use simple and complex sentences in developing a good essay, and by developing critical thinking skills that are used in the writing process. Prerequisite: Placement into WR 90 or completion of WR 80; Placement into RD 90 or completion of RD 80. Audit available.

WR 91A. Basic Grammar. 1 Credit.
Instruction in grammar including parts of speech, sentence types, subject verb agreement, pronoun usage and avoidance of fragments, run-ons, and other sentence errors. This class is offered in a flexible schedule, lecture/lab format. WR 91A and WR 91 are equivalent. Only one may be taken for credit. Prerequisite: WR 80 and RD 80 or equivalent placement. Audit available.

WR 92A. Basic Grammar. 2 Credits.
Instruction in grammar including punctuation, sentence structure, and the writing process. WR 92A and WR 92 are equivalent. Only one may be taken for credit. Prerequisite: WR 80 and RD 80 or equivalent placement. Audit available.

WR 93. Basic Grammar. 3 Credits.
Overview of some fundamental principles of American English grammar including parts of speech, sentence types, sentence analysis, simple/compound/complex sentences, subject-verb agreement, pronoun usage, selected homonyms, punctuation, capitalization, and avoidance of fragments, run-ons, and other errors. Audit available.

WR 105. Writing for Scholarships. 2 Credits.
Explores approaches to autobiographical writing required for completing scholarship applications. Covers responses to typical scholarship essay prompts. Develops scholarship essays through journaling and sharing essay drafts. Introduces the practice of revising and rewriting material in different ways to respond to different audiences and prompts. Prerequisite: Placement into WR 115 or instructor approval. Corequisites: Concurrent enrollment in CG 105. Audit available.

WR 115. Introduction to Expository Writing. 4 Credits.
Introduces college level skills in reading critically, exploring ideas, and writing. Covers composing essays which support a thesis through structure appropriate to both thesis and reader and revision for clarity and correctness. Prerequisites: (Placement into WR 115 or completion of WR 90 or IRW 90 or ESOL 260) and (placement into RD 115 or completion of RD 90 or IRW 90 or ESOL 260). Audit available.

WR 121. English Composition. 4 Credits.
Focuses on academic writing as a means of inquiry. Uses critical reading, discussion and the writing process to explore ideas, develop cultural awareness and formulate positions. Emphasizes development of a variety of strategies to present evidence in support of a thesis. Prerequisite: Placement into WR 121, or completion of (WR 115 and RD 115) or IRW 115. Audit available.

WR 121H. English Composition: Honors. 4 Credits.
This is the Honors version. Focuses on academic writing as a means of inquiry. Uses critical reading, discussion and the writing process to explore ideas, develop cultural awareness and formulate positions. Emphasizes development of a variety of strategies to present evidence in support of a thesis. Prerequisite: 3.25 GPA and placement into WR 121, or completion of (WR 115 and RD 115) or IRW 115. Audit available.

WR 122. English Composition. 4 Credits.
Continues the focus of WR 121 on academic writing as a means of inquiry with added emphasis on persuasion and argument supported by external research. Uses critical reading, discussion and the writing process to explore ideas, develop cultural awareness and formulate original positions. Emphasizes development of writing and critical thinking through logical reasoning, rhetorical control, independent research and information literacy. Prerequisite: WR 121. Audit available.

WR 122H. English Composition: Honors. 4 Credits.
Honors WR 122. Focuses on argument as a means of inquiry, clear and appropriate writing style, and critical reading. Explores ideas and issues through discussion and writing. Students compose analytical, argumentative, and/or expository essays with appropriate documentation. Students will explore principles of classical and neoclassical rhetoric theory while becoming confident members of the academic community. Prerequisite: WR 121 and 3.25 GPA. Audit available.
WR 222. Writing Research Papers. 4 Credits.
This course uses extensive research writing to develop skills in critical analysis and documented argument. Students synthesize their considered response to designated topics and issues with the reactions of other writers. Includes paraphrasing, summarizing, quoting, and documenting, using style appropriate to discipline researched. Prerequisites: Placement into WR 121 or WR 115 with a grade of C or better. Audit available.

WR 227. Technical and Professional Writing 1. 4 Credits.
Introduces technical and professional communications. Students compose, design, revise, and edit effective letters, memos, reports, descriptions, instructions, and employment documents. Emphasizes precise use of language and graphics to communicate complex technical and procedural information safely, legally, and ethically. Two instructor conferences required. Prerequisites: WR 121, basic computer literacy, and intermediate word processing skills. Audit available.

WR 239. Creative Writing (Word & Image). 4 Credits.
Focuses on writing and design work that incorporates both words and images. Explores the techniques, styles, and structures used by established writers and artists of the genre. Includes critiquing and revising work in a workshop setting. Prerequisites: WR 115 and RD 115 or IRW 115 or equivalent placement. Audit available.

WR 240. Creative Writing - Nonfiction. 4 Credits.
Introduces creative nonfiction and the writing of essays using creative techniques, such as personal narrative, memoir, nature and travel writing, and literary journalism. Explores the works of established writers for forms, techniques, and styles as a context for the production of creative nonfiction for class discussion and analysis. Prerequisite: WR 241. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

WR 241. Creative Writing - Fiction. 4 Credits.
Focuses on writing short fiction for class discussion and analysis in a workshop setting. Introduces the techniques, styles, and structures of the writings of established authors, as well as the creative writing process from development of an idea to revision of a manuscript. Prerequisites: WR 115 and RD 115 or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

WR 242. Creative Writing - Poetry. 4 Credits.
Focuses on the writing and submitting of poetry for class discussion and analysis in a workshop setting. Introduces the techniques, structures, and styles of established poets. Prerequisites: WR 115 and RD 115 or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B.

WR 243. Creative Writing - Script Writing. 4 Credits.
Focuses on writing and submitting theatre and film scripts for class discussion and analysis. Studies established writers for techniques, structures, and styles. Prerequisites: WR 115 and RD 115 or IRW 115 or equivalent placement. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT.

WR 244. Advanced Creative Writing - Fiction. 4 Credits.
Extends the introduction to the craft of fiction started in WR 241. Explores the creative writing process from development of an idea to revision of a manuscript. Introduces the techniques, structures, and styles of established writers. Prerequisites: WR 241 or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/ASOT-B, Arts and Letters/AAOT, Arts and Letters/AGS, Arts and Letters/ASOT-B.

WR 245. Advanced Creative Writing - Poetry. 4 Credits.
Extends the introduction to the craft of poetry in WR 242. Write poetry, have work critiqued by peers and the instructor, and critique the work of others in a workshop setting. Students without WR 242 may enter the class with instructor permission. Prerequisite: WR 242 and its prerequisite requirements. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/ASOT-B.

WR 246. Advanced Creative Writing, Editing & Publishing. 4 Credits.
Focuses on writing and submitting class drama and screen scripts for class discussion and analysis, as introduced in WR 243. Continues the study of established writers for techniques, structures, and styles. Includes lecture, small group activities, and conferences. Prerequisite: WR 243 and its prerequisite requirements; or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/AAS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/ASOT-B.

WR 247. Advanced Creative Writing - Scriptwriting. 4 Credits.
Focuses on writing and submitting both drama and screen scripts for class discussion and analysis, as introduced in WR 243. Continues the study of established writers for techniques, structures, and styles. Includes lecture, small group activities, and conferences. Prerequisite: WR 243 and its prerequisite requirements; or instructor permission. Audit available. This course fulfills the following GE requirements: Arts and Letters/ASOT-B, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT, Arts and Letters/AS, Arts and Letters/AGS, Arts and Letters/AAOT.

WR 248. Advanced Creative Writing - Nonfiction. 4 Credits.
Extends the introduction to editing manuscripts and designing and publishing printed chapbooks and literary magazines. Prerequisite: WR 246 or instructor permission. Audit available.

WR 280A. Cooperative Education: Writing and Publishing. 1-6 Credit.
Extends knowledge of writing, editing, publishing, and communications acquired in writing courses through volunteer and/or work time spent in settings that provide learning experiences in these areas. Prerequisite: WR 121 and department permission required.

WR 280B. Cooperative Education: Writing and Publishing. 1-6 Credit.
Extends knowledge of writing, editing, publishing, and communications acquired in writing courses through volunteer and/or work time spent in settings that provide learning experiences in these areas. Prerequisite: WR 121 and department permission required.
