

ECONOMICS

pcc.edu/programs/economics/

DESCRIPTION

Economics is the study of how societies allocate their scarce resources. It examines individual and social action related to the use of limited resources toward the production, distribution, and consumption of goods and services. Economics students may complete two-year education programs, as well as transfer to four-year colleges and universities. Students may advance toward careers in both public and private sectors, and will actively engage in a wide range of economic, social and political processes.

Courses at PCC introduce students to economics and prepare students for transfer into upper division courses. The transfer sequence consists of EC 201 and EC 202. Students do not need to take EC 201 first. PCC also offers other economics courses, see the course section for individual courses and course prerequisites.
