

GERONTOLOGY

pcc.edu/programs/gerontology

CAREER AND PROGRAM DESCRIPTION

Careers in the field of aging are among the fastest growing and exciting opportunities in the 21st century workplace. Exponential growth is expected in all service-providing industries related to aging, particularly in the health care services continuum, financial and legal services, leisure, life-long learning, hospitality, fitness, and wellness areas.

PCC's Gerontology program is offered fully online and designed for individuals who wish to develop careers in the field of aging, those already employed or active in gerontology or related fields who wish to enhance their career paths, and those seeking challenging and meaningful career changes in response to new opportunities created by an aging society. Students participating in this program will develop critical thinking, problem-solving, and research skills through multi-disciplinary core courses and electives tailored toward their career goals. Internships, mentorships, and career coaching will prepare students to create individualized career paths.

Students may earn a Gerontology Professional Career Pathway Certificate alone or in conjunction with the Gerontology AAS. Students may also earn the degree or certificate in conjunction with a certificate or degree in other PCC programs such as exercise science, interior design, human services, the allied health field, nursing, business, management, paralegal studies, or alcohol and drug counseling. In most cases, students earning the Gerontology AAS can enter human services, social work, social sciences, community health and similar Bachelor level programs as juniors.

DEGREES AND CERTIFICATES OFFERED

ASSOCIATE OF APPLIED SCIENCE DEGREE

Gerontology

LESS THAN ONE-YEAR: CAREER PATHWAY CERTIFICATE

Gerontology Professional

Academic Prerequisites

- Candidates should be ready to enter WR 121Z and MTH 20 for any certificate and MTH 58/MTH 65 for the degree (demonstrated through placement tests or documented previous college level work.) Those candidates with insufficient background to enter at this level may need to extend the time it takes to complete the program. Faculty advisors will provide information regarding preparatory course work options.

Academic Requirements

- Career pathway certificate credits count toward the AAS degree requirements. Students earning the AAS degree in gerontology must meet college graduation requirements including general education, math and English competencies. The core courses provide basic knowledge about aging in several important domains.
- Students should take GRN 181 in their first or second term in the program.
- GRN 280A provides a unique opportunity for students to work directly with older adults in their career interest area.
- Degree and certificate candidates who have related work experience with aging adults may petition to waive one credit for every 70 hours worked toward the required internship credits, typically up to a total of three credits.

Non-Academic Prerequisites

- None

Non-Academic Requirements

- None

GERONTOLOGY AAS DEGREE

Minimum 90 credits. Students must also meet Associate Degree Comprehensive Requirements and Associate of Applied Science Requirements. Students must complete a total of four courses of General Education. Some courses specified within the program may be used as General Education. In addition to required courses in the program of study, students must satisfy MTH 58/65 competency. Students should consult with program advisors for course planning.

Gerontology Degree Courses

Code	Title	Credits
GRN 175	The Aging Mind	2
