DESCRIPTION

Health Studies courses aim to encourage students to think critically about health, the systems that influence individual and community health, and strategies that promote health and well-being within themselves, communities, and the environment.

Health Studies faculty consider social justice and health equity as fundamental components of health. Health Studies curriculum is intentionally designed and delivered to engage and empower students to apply these connections in their own lives, communities, and in the global context.

Health Studies courses may:

- Provide transferable credits
- Satisfy Social Science General Education degree requirements
- Satisfy Health and Wellness degree requirement for the AAOT and AS degrees
- Include Community-based Learning, by directly supporting projects that deepen and contextualize course learning outcomes by addressing the needs of our community
- Include courses required for completion of Focus Awards, including the Health Studies Focus Award

Please note: HE 262 is a newly revised and updated course taught as Open Educational Resources (OER) - no textbook to buy. Consult with academic advising for degree completion requirements and course transferability.

Health Studies Mission:

Health Studies faculty support student success and guide student progress in meeting their personal, academic, and/or professional goals by providing high-quality instruction and curriculum.

Health Studies Vision:

Empowers examination and engagement with personal, social, political, economic, cultural, and environmental factors impacting the health and wellness of individuals and society.

HE 112. Standard First Aid and Emergency Care. 1 Credit.

Describes emergency procedures and techniques of basic life support for adult, child, or infant victims of airway obstruction, respiratory arrest and/or cardiac arrest. Provides education and training in Automated External Defibrillator. Upon successful completion of this course, students may earn an American Red Cross Standard First Aid and CPR/AED Adult/Child and Infant CPR certificate. Recommended: RD 115 or equivalent placement. Audit available.

HE 125. First Aid & Industrial Safety. 3 Credits.

Presents an overview of industrial safety procedures, accident prevention, material safety data sheets (MSDS), hazardous materials, first aid, and CPR/AED. Upon successful completion of this course, students may earn an American Red Cross Responding to Emergency First Aid and Adult CPR/AED certificate and Blood Borne Pathogens Training: Preventing Disease Transmission Certificate or American Heart Association equivalent. Recommended: (RD 115 or IRW 115) or equivalent placement. Audit available.
HE 264. Food Systems and Public Health. 4 Credits.
Examines the connections among diet, industrial and sustainable agriculture, the environment, and public health. Explores factors such as equity, food security, food justice, sustainability, and the historical, economic and political forces that have shaped food systems both nationally and globally. May include community-based learning. Prerequisites: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available. This course fulfills the following GE requirements: Social Sciences/ASOT-B, Social Sciences/AAS, Social Sciences/AGS, Social Sciences/AS, Social Sciences/AAOT.

HE 278. Human Health and the Environment. 3 Credits.
Examines the relationship between the environment and human health. Focuses on issues such as persistent environmental contaminants, environmental toxins, chemical exposures, climate change and accompanying disease outbreaks. Includes a strong emphasis on personal decision making. Recommend: (WR 115 and RD 115) or IRW 115 and MTH 20 or equivalent placement. Audit available.

HE 295. Health and Fitness for Life. 2 Credits.
Explores the interrelationship of the five components of physical fitness, nutrition and stress management concepts and activities to increase individual health and wellness. Corequisite: PE 295. Audit available.
