DESCRIPTION
The Honors Program at PCC offers motivated students the opportunity to participate in classes and activities meant to challenge them to reach their potential. The program attempts to create a cohort of motivated students working toward their academic goals. The program includes coursework, extracurricular activities, and a capstone experience.

The bulk of an honors student’s program is taken in designated general education courses, such as WR 121H or COMM 111H. Students should take HON 101 early in their program which develops a cohort and provides leadership opportunities as they work toward the final course involving the completion of a capstone project.

Honors courses are open to all PCC students having a minimum GPA of 3.25 whether or not they are admitted to the program. Full membership in the program, however, offers significant benefits.

Please contact a program representative for further information.
